**Consumer Affairs Department**

August 22, 2000

Honorable City Council:

Re: Proposed Ordinance to Amend Section 58-2-1 of the 1984 Detroit City Code to Modify Definitions of 'Commuter Van' and 'Limousine'.

Pursuant to the 1997 Detroit City Charter, the above-referenced ordinance is being submitted to your Honorable Body for consideration. This proposed ordinance modifies the definitions of 'Commuter van' and 'Limousine' that apply to Chapter 58, Article II, of the 1984 Detroit City Code titled 'Vehicles for Hire'.

The current definitions of 'Commuter van' and 'Limousine' include the element

that these are vehicles "designed to have a seating capacity for fifteen (15) persons inclusive of the driver". A commuter van is operated at per person rates, and a limousine at hourly rates. Consistent with its established practice, and to avoid the possibility that smaller vehicles might qualify as commuter vans under the current definition, the Consumer Affairs Department recommends that the definition of 'Commuter van' be amended to limit this category to vehicles designed to have a seating capacity of from seven (7) to fifteen (15) persons inclusive of the driver. Further, in order to avoid any confusion between the definition of 'Limousine' and that of 'Luxury sedan', which covers certain other vehicles that are operated at hourly rates, and which are "designed to have a seating capacity for six (6) persons inclusive of the driver", the Department recommends that the definition of 'Limousine' be amended to limit this category to vehicles designed to have a seating capacity of from seven (7) to fifteen (15) persons inclusive of the driver.

Thank you for your consideration of this matter. We are available to answer any questions that you may have concerning this proposed ordinance.

Respectfully submitted,  
 JOHN ROY CASTILLO  
 Director

On July 14, 1999, (Legal News July 16, 1999 Page 8), your Honorable Body authorized the sale of the above captioned property to Dominican Friars, Priests and Missionaries of Charity, Sisters, joint tenants with full rights of survivorship, for the purpose of constructing a new activity building and additional parking space for the storage of licensed operable vehicles for the amount of \$35,200.00.

It has come to our attention that the name of the legal entity and the sales price were issued in error. We, therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a name change of the purchaser from Dominican Friars, Priests and Missionaries of Charity, Sisters, joint tenants with full rights of survivorship to Missionaries of Charity, Inc., a New York Non-Profit Corporation. Re: Petition #1867: Tammy Patton. Requesting alley vacation in the area

of E. State Fair, Rex, Rossini and Redmond.

The above named petitioner has requested that the alley bounded by Rossini Drive, Rex Avenue, Redmond Avenue and E. State Fair Avenue be vacated and converted to an easement.

The above-referenced petition has been filed with the Detroit City Council by more than two-thirds of the abutting property owners, as required by the Detroit City Code, Article VI, Section 50-6-1. In this instance there is 100% property owner signature in support of this request. Our investigation of this petition discloses the following:

- 1. That the alley does not serve as the sole means of ingress/egress to any of the garages on the abutting property.
- 2. The public utilities located in the alley can be properly served if this alley is converted to an easement.
- 3. The alley is not required for municipal services (trash collection).
- 4. No objections to this alley vacation have been received from utilities or city departments following notification of this request.

It is therefore the recommendation of the Planning and Development Department that this request for alley closure be granted.

First, Said owners hereby grant to and for the use of the public an easement or right-of-way over said vacated alley herein above described for the purposes of maintaining, installing, repairing, removing, or replacing public utilities such as water mains, sewers, gas lines or mains, telephone, electric light conduits or poles or things usually placed or installed in a public alley in the City of Detroit, with the right to ingress and egress at any time to and over said easement for the purpose above set forth,

Second, Said utility easement or right-of-way in and over said vacated alley herein above described shall be forever accessible to the maintenance and inspection forces of the utility companies, or those specifically authorized by them, for the purpose of inspecting, installing, maintaining, repairing, removing, or replacing any sewer, conduit, water main, gas line or main, telephone or light pole or any utility facility placed or installed in the utility easement or right-of-way. Petition No. 2225 of "V.I.S.I.O.N. (Vital Investments Serving In Our Neighborhoods), Inc.", originally requested to encroach into certain easements within the Elmwood Area, but after review by city departments V.I.S.I.O.N., Inc., has amended the original request. V.I.S.I.O.N., Inc.,

now request to outright vacate the north 15.00 feet of the Waterloo easement, 50 feet wide, the east 15.00 feet of the Ellery easement, 50 feet wide, and the west 15.00 feet of the Burlage easement, 50 feet wide, south of Vernor Highway and west of Mt. **Industrial Facilities Exemption  
Certificate Agreement**

THIS AGREEMENT, made this 4th day of August, 2000 by and between the City of Detroit, acting by and through its Planning and Development Department (the "City") and Kaufman Window & Door Corporation ("the Applicant");

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for personal property ("Facility") to be located at 12891 Mt. Elliott, Detroit, MI 48212.

Whereas, The Applicant is making personal property improvements for the purpose of broadening and deepening its product lines; and

Whereas, As part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter

into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

1. **General.**

a. The Applicant will make personal property improvements, as set forth in the Application.

b. The Applicant will be required to create zero (0) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I. fifty (50) full time employees two (2) years from the Approval date.

II. fifty (50) full time employees at the Facility commencing two (2) years from the Approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

2. **Annual Affirmative Action Report by the Applicant.**

On or before May 25, 2001 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

3. **Annual Status Report by the Applicant.**

On or before February 1, 2001, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agree-

ment, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report.

4. **Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

5. **Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

6. **Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility

during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

**7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

**8. Living Wage Ordinance**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance"), and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violations of the Ordinance shall constitute a

material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**9. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Association of Detroit Engineers.

The Labor Relations Division has recently reached agreement with the Association of Detroit Engineers. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

We are further requesting authorization to implement the following new contract provisions:

1) Special Adjustments for certain classifications based on recruitment and retention difficulties as outlined in Schedule A, on file in the City Clerk's office.

**RESOLUTION BY THE CITY COUNCIL OF DETROIT REQUESTING AN INVESTIGATION BY THE UNITED STATES DEPARTMENT OF JUSTICE TO DETERMINE WHETHER A PATTERN OR PRACTICE EXISTS UNDER 42 U.S.C. 14141 WITHIN THE DETROIT POLICE DEPARTMENT WHICH DEPRIVES PERSONS OF THEIR RIGHTS, PRIVILEGES AND IMMUNITIES UNDER THE UNITED STATES CONSTITUTION.**

By COUNCIL MEMBER S. COCKREL:

WHEREAS, The United States Department of Justice has a unit whose purpose is to investigate wrongs committed by police departments against citizens; with civil investigations of police departments having been undertaken by Federal authorities in Los Angeles, California, Pittsburgh, Pennsylvania, and Columbus, Ohio, resulting in major reforms in policies, and

WHEREAS, The vast majority of Detroit police officers are fine, upstanding law enforcement officers who reflect the highest standards of professionalism; nevertheless, their reputations are negatively impacted by those few officers who trans-

gress the high professional standards of the department, and

WHEREAS, The City of Detroit leads the nation in the number of fatal shootings by police officers, averaging nearly 10 fatal shootings per year in 1990-98 (this represents 0.92 fatal shootings per 100,000 residents, whereas the rates of New York and Los Angeles are 0.39 and 0.56, respectively), and

WHEREAS, In the past five years, of the 40 fatal shooting incidents investigated by the Detroit Police Department, 35 resulted in officers being exonerated; in six cases unarmed suspects were shot in the back while fleeing police; and, further, in eight cases, the justification given by police for shooting the suspect was that the suspect had come at the officer with a weapon, yet autopsies revealed the victims had been shot in the back, and

WHEREAS, Accompanying this resolution is a report prepared by the City Council's Research and Analysis Division, which details Police Lawsuit Activity from 1987 to 1999, with the following findings being made:

over the thirteen-year period, many of the officers named in lawsuits appear in multiple cases alleging police misconduct;

from 1997 through 1999, there was a significant increase in cases brought before the City Council in which at least one of the named officers had been involved in more than one lawsuit; and, further,

the total amount of money paid out for police lawsuits for this thirteen-year period is \$123,974,439.00, and

WHEREAS, The following may evidence a pattern or practice of police conduct by certain members of the Detroit Police Department that results in citizens who suffer a deprivation of their rights, privileges and immunities preserved by the Constitution, to wit:

the number of suspects fatally shot by police officers when compared to cities much larger in size;

the vast majority of police officers are exonerated after such cases are investigated by the Detroit Police Department; and further,

the failure or inability of the Detroit Police Department to provide alternative solutions to the use of deadly force, or to provide adequate or alternative training, or to identify, discipline, retrain, reassign or discharge officers who continuously involve themselves in conduct resulting in lawsuits being filed against them and the City of Detroit, and

WHEREAS, The National Association for the Advancement of Colored People (NAACP), in a letter dated August 30, 2000, requested the United States Attorney's Office for the Eastern District of Michigan to investigate the "shoot now and ask questions later mentality" which it

alleges some officers of the Detroit Police Department adhere to, and

WHEREAS, The Coalition Against Police Brutality has consistently and vigorously brought this problem to the attention of the Detroit City Council since 1998 seeking redress, and

WHEREAS, The United States Department of Justice has authority to address a pattern or practice of conduct by law enforcement officers that deprives people of rights, privileges and immunities preserved by the Constitution, pursuant to 42 United States Code, Sec. 14141, The Violent Crime Control and Law Enforcement Act of 1994. NOW, THEREFORE BE IT

RESOLVED, The City Council hereby respectfully requests the United States Department of Justice, through its Civil Rights Division Special Litigation Section, Patterns and Practice of Police Misconduct Program, conduct an investigation into the practices and procedures of the City of Detroit Police Department regarding its use of deadly force on citizens, and its investigations of officers involved in fatal shootings, pursuant to 42 United States Code, Section 14141. RESOLVED, The City Council also respectfully request an investigation of the Citizen Complaint Process and the internal investigation of police complaints and discipline of officers. BE IT FURTHER

#### **6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**9. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E on file in the City Clerk's office for a copy of the applicable Ordinance and the rates.

**10. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

**11. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

**Law Department**

October 6, 2000

Honorable City Council:

Re: Request to Amend Time for Closed Session of Detroit City Council to Discuss Litigation Involving NDC Project #1, Jefferson Village.

Pursuant to your Honorable Body's request to the Law Department, the Law Department worked with the City Clerk's office to find an appropriate date for a closed session to discuss the pending litigation regarding NDC Project #1, also known as Jefferson Village.

On September 20, 2000, the City Council adopted a resolution setting a closed session for October 16, 2000 at 10:00 A.M. Due to a scheduling conflict with more recent developments on your Honorable Body's calendar, it has become necessary to move the date of this closed session. The new proposal is to hold the closed session on Wednesday, October 18, 2000 at 10:30 A.M.

Act 267 of the Public Acts of 1976, commonly referred to as the "Open Meetings Act," allows a public body, upon a two-thirds roll call vote of its members:

To consult with its attorney regarding trial or settlement strategy in connection with specific pending litigation, but only if an open meeting would have a detrimental financial effect on the litigating or settlement position of the public body. MCL 15.268(e)

It is the opinion of the Law Department that an open meeting would have a detrimental financial effect on the City of Detroit in the on-going litigation referenced above. The attached revised resolution authorizes a change in the date and time of your previously scheduled closed session to discuss pending litigation regarding NDC Project #1, also known as Jefferson Village.

Respectfully submitted,

MATTHEW SCHENK

Legislative Assistant  
Corporation Counsel

By Council Member S. Cockrel:

Whereas, On September 20, 2000, the City Council adopted a resolution, with eight affirmative votes and no negative votes, setting a closed session to discuss pending litigation related to NDC Project #1, also known as Jefferson Village; and

### COMMUNICATIONS Finance Department Purchasing Division

October 10, 2000

Honorable City Council:

The Purchasing Division of the Finance

Department recommends Contracts with the following firms or persons.

2500296—Extension of Purchase Orders for Centrex Voice Services. The extension of this service is necessary as we currently do not have any alternative in place. Plant Moran is working with the auditor general to study our existing communications environment to make recommendations as to our strategic direction in voice mail and data services at a cost savings. We expect an RFP as a result of that process to create a detailed master communication plan for the City of Detroit. At that point, an RFP for implementation of that plan would be released to possibly replace these agreements. The minimum contract term that Ameritech offers is for 36 months. The City's month-to-month rate for Centrex would be increased from \$14.77 per phone to \$22.50 per phone if these contracts are not extended. Ameritech. Amount: \$5,151,570.30. Finance Dept.: City-wide.

2504967—(CCR: October 7, 1991) — Monthly elevator maintenance services from May 8, 1951 through May 1, 2001. File No. 776. Original dept. estimate: \$39,917.00. Requested dept. increase: \$4,158.03. Total contract estimate: \$44,075.03. Reason for increase: Additional funds need through contract period. Otis Elevator, 1450 Howard St., Otis Building, Detroit, MI 48226. Police Dept.

2511290—(July 20, 1994; November 12, 1997; October 14, 1998; October 27, 1999) — Furnish: Extension of contract for gloves, exam, latex, for a period not to exceed 180 days or until new contract is effective whichever is sooner beginning October 3, 2000 to allow for sufficient time to solicit and review bids and award a new contract. Honorable City Council:  
 Re: Request of Harley Ellis on behalf of Blue Cross Blue Shield of Michigan to approve plans for the addition of an emergency generator enclosure in a PD (Planned Development District) zoning classification in the area of E. Lafayette, St. Antoine, E. Congress, and the Chrysler Freeway Service Drive in the Central Business District Project No. 3 area. (Recommend Approval with Condition).

**Nature of Request**

The architectural firm of Harley Ellison on behalf of Blue Cross Blue Shield of Michigan is requesting approval of plans for an addition of an enclosure for emergency generator equipment off the northeast corner of Blue Cross Blue Shield's service center building near Lafayette and the Chrysler Freeway Service Drive. The site is a portion of Blue Cross Blue Shield's administrative office complex located in a PD (Planned Development District) zoning classification for property bounded by E. Lafayette, E. Congress, St. Antoine, and the Chrysler Freeway Service Drive. The property is also a part of the Central Business District No. 3 Urban Renewal Area.

The petitioner is proposing to add an approximately 4,000 square foot enclosure that would house two emergency generators as well as two transformers. The facade of the enclosure would consist of washed aggregate precast concrete panels similar in color to the white concrete panels of the office and service buildings. The walls of the enclosure would be 16 feet 6 inches tall.

The site of the enclosure is currently a portion of a Blue Cross Blue Shield parking lot just north of the service center building's loading dock. Several parking spaces would be lost in this area of the lot but spaces would be added to the west end of the lot to replace the amount lost.

**Public Hearing Results**

The City Planning Commission held a public hearing on this proposal on June 15, 2000. There were two speakers from the public at the hearing. One represented the Riverfront East Alliance and expressed concern about the increase in noise level. The other speaker represented Holy Family Church. The Church also submitted a letter to the Commission. Both this speaker and the letter stated that the Church's main concern was the

possible noise impact of the emergency generators on the Church. The originally proposed location of the transformers was about one foot from the Church's property line and 50 feet from the priest's bedroom in the church rectory. The Church requested that consideration be given to relocating the site of the generators and transformers.

Commissioners raised questions about the amount of noise expected from the generators as well as the frequency of their operation. Blue Cross Blue Shield representatives indicated that their consultants' tests concluded that the noise from the generators would be no more than the ambient noise level in the area, taking into account that both the Blue Cross Blue Shield complex and the Church abut the Chrysler Freeway service drive. It was acknowledged that, in addition to the one-hour testing of the generators that would take place once a month, there could be other occasions, particularly on hot summer weekdays, when the generators may operate.

**Revised Plans**

After the public hearing, the petitioner submitted a revised site plan for the proposed addition that indicated the currently proposed location and configuration for the generator equipment enclosure. This location places the addition on the opposite side of the church from the rectory and substantially further from the Church's property than initially proposed. The revised plan was presented to the Parish Council. The parish priest has indicated that the revised plan was a substantial improvement and the Church no longer objected to the proposal.

**Analysis**

The major concern surrounding this proposal was the potential negative impact from noise on the Church's property. We believe the change in location of the emergency generator equipment enclosure goes a long way in addressing this concern. The testing results from the petitioner's consultants and the buffering provided by the facade walls and the positioning of the generators below ground also help increase the probability that noise would not be a significant factor.

The revised plans indicate that several parking spaces would be lost on the south side of the parking lot because of the addition but that spaces would be added to the west end of the lot to replace the amount lost. There are 58 spaces currently on the lot and after the development there would be 57-59 spaces. Landscaping also has been added to the north of the enclosure, facing Lafayette.

The proposed development appears to conform to the restrictions in the Development Plan for the Central Business District Project No. 3 area. In addition, the Planning and Development

Department has submitted a letter (attached) stating that the proposed development conforms to the recommended predominately commercial land use designation for the area and conforms to the intent of the Master Plan of Policies.

**Recommendations**

At the meeting of September 7, 2000 the City Planning Commission recommended approval of the proposed plans for the emergency generator enclosure as depicted in the revised plans dated July 7, 2000 and elevations dated July 3, 2000 with the condition that the final site plans, elevations, and landscape plans be submitted to the City Planning Commission staff for review and approval prior to issuance of applicable permits.

Attached is the appropriate resolution to effectuate this recommendation for your consideration.

Respectfully submitted,  
ARTHUR SIMONS  
Chairperson  
MARCUS D. LOPER  
Deputy Director

By Council Member Everett.:

Whereas, Harley Ellis on behalf of Blue Cross Blue Shield of Michigan has submitted plans for an addition of an enclosure for emergency generator equipment off the northeast corner of Blue Cross Blue Shield's service center building near Lafayette and the Chrysler Freeway Service Drive in the Central Business District Project No. 3 area

Whereas, the City Planning Commission has reviewed the site plan and development proposal for the project, including the design, appearance, and location of the proposed project as submitted by the developer and finds that they are in keeping with the spirit, intent, and purpose of the PD district;

Now, Therefore, Be It Resolved, that the City Council hereby approves the plans for the Blue Cross Blue Shield emergency generator equipment enclosure, including the design, appearance, and location of the proposed addition and parking area as described in the plans dated July 7, 2000 and elevations dated July 3, 2000 drawn by Harley Ellis, subject to the condition that final site plans, elevations, and landscape plans be submitted to the City Planning Commission staff for review and approval prior to the issuance of applicable permits.

Honorable City Council:

Re: Neighborhood Commercial Strip Revitalization Program (SUBMITTING FINAL PROGRAM RECOMMENDATIONS FOR APPROVAL).

Attached for the Council's consideration are the final recommendations for a new Neighborhood Commercial Strip Revitalization Program in Detroit. This report is the culmination of numerous meetings over the past four months of representatives of the Mayor's Office, City Council's Commercial Strip Revitalization Task Force, the Neighborhood Commercial Network (NCN), and the Detroit Community Development Funders' Collaborative. The goal of this "working group" has been to develop one commercial strip revitalization program that would draw upon the recommendations presented in the report of the Task Force and that of NCN.

The report is a consensus document. The program it recommends reflects a strong emphasis on business investment, business retention and expansion, and job creation balanced with resources to enable a local organizing entity to implement a neighborhood commercial revitalization program. The model reflects, we believe, the strengths of both the Denver and Boston programs while being uniquely "Detroit".

In developing the final program recommendations over the past several months, the following have occurred:

- Eleven (11) meetings of the working group between June 6 and September 29, 2000.
- A June 6, 2000 status report to City Council from City Planning Commission (CPC) staff on changes in program direction.
- A June 13, 2000 discussion between the City Council members and CPC staff on program management and operation.
- A July 25, 2000 memo from CPC staff to City Council on progress towards finalizing the program.
- A July 25, 2000 presentation to City Council by staff of the CPC and the Mayor's Office on the program's proposed organizational structure, and proposed funding, services, and other resources.
- An August 2, 2000 follow-up discussion at City Council with CPC staff on the proposed program.
- Meetings of Neighborhood Commercial Network and Community Development Advocates with their working group

representatives to review the proposed program.

- An August 16, 2000 meeting of the Task Force to discuss the preliminary report and recommendations of the working group.

- Concurrence of the majority of the Task Force members at the August 16 meeting with the proposed program structure.

- Concurrence of the Mayor on October 3, 2000 with the recommendations of the working group.

#### **Substantive Changes to the Program**

Since our last presentation before City Council, some additional changes have been made to the program:

- The composition of the Advisory Board has been changed to make the Capital Assistance Fund management entity an ex-officio position on the Board, and to add one additional representative from the Detroit Community Development Funders' Collaborative for a total of two (2) positions.

- The number of districts to be added within three (3) years of the selection of the first districts is open-ended, rather than the five (5) noted initially.

- It has been clarified that training for local organizations in non-designated districts will be provided by the Funders' Collaborative, the City Planning Commission's D.O.C.T.O.R. program, and a third party contractor.

- Funding for training and technical assistance to organizations in non-designated areas has been increased by 67% to a minimum of \$200,000.

- The Capital Assistance Fund is proposed to be initially capitalized at \$1,000,000.

#### **Conclusions and Recommendation**

It has been an exciting journey since the City Council, through the leadership of Council President Gil Hill, established the Commercial Strip Revitalization Task Force by resolution on February 2, 1999. Over 40 persons participated actively on the Task Force in preparing the many recommendations for the Council's consideration, and many more residents, business owners, financial institutions and others attended the meetings of the Task Force and its four committees and added their comments. While not all of the suggestions made their way into the final report, all received serious consideration and debate. This has been an evolutionary process, and the final product has benefited immensely from this broad range of input.

In a September 22, 2000 letter from Alvin Wigley to the Council President, Mr. Wigley, a member of the Task Force and chair of the Governmental Policies Committee, raises some concerns about the process in reaching this point and offers additional program recommenda-

tions. While some of the recommendations were made to the Task Force, there was no support for making further changes to the substance of the report. Although Mr. Wigley was invited and continually urged by CPC staff to participate with the working group, he did not attend any of the meetings. Attachment B is a response by staff addressing those assertions of particular relevance to CPC staff's involvement in the process.

Our office has taken the time to address the comments raised in the letter to the Council President because this is the time to move forward in a positive and constructive way. The program recommendations have been developed with broad input over the past year and a half through two distinct planning efforts, each of which was strengthened by the efforts of the other. The whole is now greater than the sum of its parts. While a program might have been developed by a few people in a shorter period of time, it has been significantly enhanced by the many individuals who have been committed to this effort. Even more important, a broad constituency has been built for the program; significant private resources have been attracted to complement the public funding; and the key commitment of the Mayor to this City Council initiative bodes well for the future of the program.

The Mayor has approved the program recommendations. The next step would be Council approval of a resolution authorizing preparation of a memorandum of understanding between the Mayor, City Council and the Funders' Collaborative. A draft resolution has been attached for your consideration.

We look forward to the further opportunity, in conjunction with the Mayor's Office, to discuss the final program recommendations with the City Council at the October 9, 2000 discussion on this matter.

Respectfully submitted,  
MARSHA S. BRUHN  
Director

By Council Member Everett:

Whereas, On February 2, 1999, the City Council established by resolution a City Council Commercial Strip Revitalization Task Force to develop strategies to revitalize Detroit's commercial areas; and

Whereas, The Task Force was asked to identify both short-term and long-term strategies to assist community-based organizations with commercial revitalization efforts; to develop a model to retain businesses and attract small Detroit-based businesses to the City's commercial areas; to identify the specific roles of government, community-based organizations, and private sector organizations in commercial areas; and to determine the need for a commercial strip development center, including feasibility and funding; and

Whereas, To facilitate its work and broaden the range of participants from the community, non-profit, governmental, business, university and financial sectors, the Task Force established the Governmental Policies, Model, Resources and Alternative Finance Committees; and

Whereas, The Task Force and representatives of the legislative and executive branches of government gained additional insights into program structure and implementation through visits to the cities of Denver and Boston to meet the city officials and program administrators on their neighborhood commercial revitalization programs; and

Whereas, Task Force members also attended meetings of the Neighborhood Commercial Network which was conducting a similar effort to develop a model for commercial strip revitalization in Detroit; and

Whereas, The Task Force submitted a final report on a proposed model for a commercial strip revitalization program on March 27, 2000, culminating a year of intensive research and program development and identifying the major components of a model for commercial revitalization in the City of Detroit, including the types of services to be provided, the management structure to implement the program, the sources of public and private sector funding for the program components, supporting resources, and private sector partners; and

Whereas, The report of the Task Force also identified a number of governmental policies and issues to be addressed to support successful implementation of the program; and

Whereas, The Mayor expressed his support for the program and requested that there be continued dialogue between City Council Task Force members and members of the Neighborhood Commercial Network in order to reconcile the two reports and develop one program for both the Mayor's and the Council's consideration; and

Whereas, This collaboration, which has included the Funders' Collaborative as one of the principle funders of the program, recommends that the Mayor create an Office of Neighborhood Commercial Revitalization (ONCR) as the central managing entity for the program, advised by a board appointed by the Mayor and City Council; and

Whereas, The philosophy of this program is to support local commercial districts through the commitment of program services and financial assistance over a sufficient period of time to achieve a sustained level of commercial revitalization and includes training and technical assistance to groups in non-designated areas as well; and

Whereas, The Mayor of the City of Detroit has endorsed the program as pro-

posed;

Now, Therefore, Be It Resolved, That the Detroit City Council endorses the implementation of a commercial strip revitalization program for the City as presented in the October 6, 2000 report entitled "City of Detroit Neighborhood Commercial Strip Revitalization Program Recommendations" and prepared by representatives of the Mayor's Office, City Council's Commercial Strip Revitalization Task Force, Neighborhood Commercial Network, and the Detroit Community Development Funders' Collaborative; and

Be It Further Resolved, That the City Council agrees to partnering with the Mayor and the Detroit Community Development Funders' Collaborative in signing a Memorandum of Understanding that will identify the roles and accountability of each stakeholder and will include a set of performance objectives and standards by which the performance of individual programs and the program, in general, will be judge.

STATEMENT OF CITY COUNCIL PRESIDENT PRO TEM MARYANN MAHAFFEY REGARDING EMERGENCY ANGELS' NIGHT ORDINANCES

I voted "yes" in support of the two emergency angels' night ordinances. For a number of years similar ordinances have been brought before City Council as emergency ordinances just before Angels' Night. I am concerned that an emergency process is continually used to bring these ordinances before City Council. It is unclear to me why this emergency procedure continues to be used. This process denies the people of the City of Detroit a public hearing and denies the members of City Council the opportunity for a timely review of the need for the ordinances.

The better method would be to employ the usual procedure to adopt ordinances which are effective only on Angels' Night each year. Using this method, City Council would only have to act once rather than have this issue come before City Council as an emergency every year.

**Industrial Facilities Exemption Certificate Agreement**

THIS AGREEMENT, made this 3rd day of August, 2000 by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and Commonwealth Industries ("the Applicant").

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") to be located at 5900 Commonwealth Avenue, Detroit, MI 48208 (A copy of the Application — Exhibit "A", is on file in the City Clerk's office); and

Whereas, The Applicant is making real and personal property improvements for the purpose of expanding and improving its production capabilities; and

Whereas, As part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan, Exhibit "B", is on file in the City Clerk's office) wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

**1. General.**

a. The Applicant will make real and personal property improvements, as set forth in the Application.

b. The Applicant will be required to create fifteen (15) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I) One hundred nine (109) full time employees for two (2) years from the Approval date.

II) One hundred twenty four (124) full-time employees at the Facility commencing two (2) years from the approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

**2. Annual Affirmative Action Report by the Applicant.**

On or before June 23, 2001 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the

Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before February 1, 2001, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is Exhibit "C" on file with the City Clerk's office.

**4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

**5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the

information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

#### **6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

#### **7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

#### **8. Living Wage Ordinance.**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is Exhibit "D" on file in the City Clerk's office and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

#### **9. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E on file in the City Clerk's office for a copy of the applicable Ordinance and the rates.

#### **10. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

#### **11. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax

Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

11. **Headings.**

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

**Industrial Facilities Exemption Certificate Agreement**

THIS AGREEMENT, made this 24th day of August, 2000 by and between the City of Detroit, acting by and through its Planning and Development Department ("the City") and Bing Steel, L.L.C. ("the Applicant").

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for real and personal property ("Facility") to be located at 1500 E. Euclid, Detroit, MI 48211 (A copy of the Application — Exhibit "A" is on file in the City Clerk's office); and

Whereas, The Applicant is making real and personal property improvements for the purpose of consolidating three plants into one; and

Whereas, As part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department (a copy of the employment plan is on file in the City Clerk's office as Exhibit "B") wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

**1. General.**

a. The Applicant will make real and

personal property improvements, as set forth in the Application.

b. The Applicant will be required to create ten (10) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I) Fifty Seven (57) full time employees for two (2) years from the Approval date.

II) Sixty Seven (67) full-time employees at the Facility commencing two (2) years from the approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

### **2. Annual Affirmative Action Report by the Applicant.**

On or before March 16, 2001 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

### **3. Annual Status Report by the Applicant.**

On or before February 1, 2001, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is Exhibit "C" on file in the City Clerk's office.

### **4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

### **5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

### **6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the dif-

ference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

**7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

**8. Living Wage Ordinance.**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is on file in the City Clerk's office as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per

violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**9. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E on file in the City Clerk's office for a copy of the applicable Ordinance and the rates.

**10. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

**11. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

**11. Headings.**

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

**Brownfield Redevelopment Authority**  
October 5, 2000

Honorable City Council:

Re: Hudson's, Kern, Crowley, Library Block Redevelopment Plan.

The enclosed Brownfield Plan for the Hudson's, Kern, Crowley, Library Block Redevelopment Plan (the "Plan") (Exhibit A), submitted by the Detroit Brownfield Redevelopment Authority (the "Authority") Board to the Community Advisory Committee (the "Committee"), has been considered and reviewed by the Committee and a public hearing was jointly held by the Committee and the Authority on September 26, 2000 to solicit public comment. After receipt of public comments, the Committee considered and approved a resolution recommending approval of the Plan by the Authority and City Council in the form presented by the Authority.

On October 3, 2000, the Authority adopted a resolution (Exhibit A) approving the Plan and authorizing the submission of a certified copy of its resolution and the Plan to the City Clerk, together with a request that the Detroit City Council call a public hearing concerning the Plan and to take all other actions to approve the Plan in accordance with Act 381.

The Plan is now presented to the City Council for approval. The Detroit City Council will, after publication of the notices required by law, hold a public hearing on the Plan. Prior to approval of the Plan by the City Council, the Authority will also notify the taxing jurisdictions about the fiscal and economic implications of the Plan. After the public hearing, the City Council shall determine whether the Plan constitutes a public purpose and, if so, may approve or reject the Plan or approve it with modifications.

**Purpose of the Plan**

The proposed Plan is intended to accomplish two purposes. First, upon approval of this Plan by City Council, Compuware will be entitled under state

law to seek the approval of the Michigan Economic Growth Authority and the State Treasurer for a single business tax credit for up to 10 percent of their eligible investment in their project. Second, the Detroit Brownfield Redevelopment Authority will be authorized to capture tax increment revenues produced from the development of properties subject to this Plan to offset the cost to the Detroit Building Authority (the "DBA") and the Downtown Development Authority (the "DDA") of infrastructure expenses and parking development required for Compuware and other development on the property subject to the Plan.

**Property Subject to the Proposed Plan**

In addition to the Kern and Crowley blocks on which the Compuware project will be located (which have been determined to be a "facility" by the MDEQ), the proposed Plan also includes the Hudson's block and a parcel of property in the Library-Broadway block as part of the Plan. The inclusion of these additional adjacent and contiguous parcels is necessary to allow the use of tax increment revenues captured from the Compuware project and any future development of the Hudson's block to assist in the development of the parking facilities necessary for these sites.

**Project Costs and Tax Increment Revenues**

The proposed plan anticipates the cost of the eligible activities from which taxes may be captured to be \$61.5 million. Since the Compuware project will be exempt from tax for at least 14 years, the current estimates are that taxes will be captured through tax levies for 2021.

Because of the anticipated capture of non-education taxes by the DDA from property subject to the proposed Plan, the projections show only the capture of K-12, State and ISD operating tax levies. All K-12 tax levies captures are made up by the State under the school aid formula. Furthermore, the capture of State and K-12 levies will require the approval by the Michigan Economic Growth Corporation.

**Public Comments Received**

The Committee's communication to the Authority and the City Council recommending approval of the Plan, including the minutes of the public hearing and meeting of the Community Advisory Committee are enclosed for the City Council's information. Also included is the written statement provided to the Committee (Exhibit B).

At the public hearing only two members of the public requested to provide public testimony. Mr. Larry Fees, Vice President of Development for Compuware, described expressed Compuware's support of the proposed Plan. Mr. Lawrence M. Hands, representing Transportation Riders United, expressed the concern of

his group that the construction of additional downtown parking may perpetuate the problems associates with the viability of mass transit alternatives in southeast Michigan.

**Authority Request**

The Authority is respectfully requesting the following actions from the City Council:

a) **October 9, 2000**

Line item on City Council's Calendar indicating the Authority's request that the City Council adopts a resolution setting a Public Hearing for November 1, 2000 concerning the Detroit Brownfield Redevelopment Authority Plan.

b) **October 11, 2000**

d) **November 1 or November 3, 2000**

Re: Request for Closed Session of Detroit City Council to Discuss U.S. EPA et al v City of Detroit

Pursuant to your Honorable Body's request to the Law Department, the Law Department has worked with the City Clerk's office to find an appropriate date for a closed session, to discuss the lawsuit of U.S. EPA et al v. City of Detroit.

Act 267 of the Public Acts of 1976, commonly referred to as the "Open Meetings Act," allows a public body, upon a two-thirds roll call vote of its members to:

To consult with its attorney regarding trial or settlement strategy in connection with specific pending litigation, but only if an open meeting would have a detrimental financial effect on the litigating or settlement position of the public body. MCL 15.268(e)

It is the opinion of the Law Department that an open meeting would have a detrimental financial effect on the City of Detroit in the on-going litigation referenced above.

Honorable City Council:

Re: Resolution on Lead and Home Repair.

Attached is a copy of the resolution prepared by City Planning Commission (CPC) staff as directed by your Honorable Body at the Friday, October 6, 2000 discussion regarding the home repair program. It provides for the following:

- That a coordinated plan be developed to treat children with elevated blood lead levels;
- That priority be given to home repair for households with children who have been identified with elevated blood lead levels;
- That Council endorses the plan to allocate home repair funds for 2001-2002 as a single appropriation;
- That a task force on lead be established, chaired by CPC staff;
- That the Administration be requested to reprogram unused home repair funds to senior/emergency home repair;
- That CPC staff develop and host a workshop for community groups on lead hazards, cleanup control and abatement,

and strategies for community based organizations;

- That a current status report of the home repair programs be requested from the Housing Services section; and

- That it is City Council's expectation that the May 17, 2000 closing budget resolution on home repair be implemented as of July 1, 2000.

As you will recall, the Housing Services staff was unable to attend your October 6 discussion because of the funeral for one of their staff members. At the request of the Planning and Development Department, CPC staff have scheduled a meeting for Wednesday, October 11, at noon to discuss various issues with the home repair program. Therefore, we would request that your Honorable Body consider delaying action on this resolution until following this meeting.

Respectfully submitted,  
MARSHA S. BRUHN

Director

By Council Member S. Cockrel:

Whereas, the Department of Housing and Urban Development (HUD) has mandated enforcement of lead regulations in houses that receive federal funding for home repair; and

Whereas, the Detroit City Council has been alarmed by the fact that in 1999, 4,955 Detroit children were tested and found to have dangerously high blood lead levels that can lead to decreased IQ, reduced performance on standardized tests, motor development delays, behavioral problems, and impaired growth and hearing — all of which play a significant role in children's ability to learn and to succeed in society (one key study found that a 10-point increase in blood lead levels at age two was related to an 8.9 point decline in educational achievement at age 10); and

Whereas, in May, 2000, in order to address this major threat to the health, safety and welfare of Detroit's children, the Detroit City Council

- 1) passed a resolution urging the Congressional delegation to free up additional funding for this city-wide problem.
- 2) allocated \$367,000 in 2000-2001 Community Development Block Grant funds to be used to support HUD's lead abatement grant to the Housing Commission for rehabilitation of those houses, and
- 3) made a public policy decision that, for new applications from homeowners for Home Repair funds, priority should be given to those houses in which children are found to have blood lead levels of 10 micrograms per deciliter and above; and

Whereas, the Detroit City Council held discussions on September 28 and October 6, 2000 on the 2001-2002 CDBG program, at which the Council discussed its intention for the implementation of

minor home repair, lead control/abatement activities, and the need to provide additional funding for home repairs for senior citizen homeowners in conjunction with the stated priority;

Now, therefore, Be It Resolved That a coordinated plan be developed to treat children with elevated blood lead levels (EBL) using a triage approach, i.e., treating those with the highest levels of EBL with the most expediency and effort, through all means available including lead abatement, lead control, lead clean-up, minor home repair, and community education and training; and

Be It Further Resolved That the Detroit City Council affirms that for the 2001-2002 CDBG minor home repair program priority should be given to owner-occupied households with children who have been identified with elevated blood lead levels (EBL); and,

Be It Further Resolved That the Detroit City Council endorses the plan to fund the minor home repair program using 2001-2002 Community Development Block Grant (CDBG) funds through a single appropriation in place of allocations to individual community-based organizations, thus negating the necessity to proceed with an application process for the minor home repair activity for CDBG funds; and,

Be It further Resolved That a task force be established, chaired by the City Planning Commission staff, to monitor the design and implementation of the minor home repair program in response to the recent HUD lead regulations and the May, 2000 resolution of the Detroit City Council; to advocate for a comprehensive plan to minimize the impact of exposure to lead hazards through education, control and abatement activities; to track minor home repair cases; and to report back to the Detroit City Council on both the status of the minor home repair program and its efforts to comply with the HUD lead regulations and City Council's resolution as well as the status of overall lead hazard abatement activities citywide; and,

Be It Further Resolved That the Detroit City Council hereby requests the City administration to forthwith reallocate as much unused minor home repair funds to the 2000-2001 Senior/Emergency Home Repair Program to make additional funds available for senior citizen homeowners in need of assistance; and

Be It Further Resolved That City Planning Commission staff is requested to develop and present a workshop for community-based organizations on lead hazards, clean-up, control and abatement activities, and strategies community-based organizations can implement to address these concerns; and

Be It Further Resolved That the Planning and Development Department is

requested to submit a current status report of the home repair programs, including compliance with HUD regulations and the City Council resolution in regards to lead control/abatement activities, and including a current status on each of the housing repair programs regarding applications, timelines etc.; and

Be It Finally Resolved That it is the Detroit City Council's expectation that the resolution passed by City Council on May 17, 2000 would be implemented as of the beginning of the current budget year, July 1, 2000, and that minor home repair applications submitted subsequent to that date should be processed in the following manner: applications for households with children would receive priority, and applications from senior citizens would be transferred to the senior/emergency program.

Honorable City Council:  
Re: Transfer of Jurisdiction of Surplus Property. Development Disposition: 3455 Woodward, the formal Total Health Facility.

The Director of the Detroit Water and Sewerage Department (DWSD) has indicated to the Planning and Development Department (P&DD) that they are in need of the above-captioned property to be used as a new replacement headquarters for DWSD. As a result of regional growth,

the increasing demand for fresh water and sewerage treatment services and technological and laboratory requirements, DWSD facility needs have outgrown the existing administration building. (P&DD) has reviewed their request and is willing to allow DWSD to assume jurisdictional control over this parcel.

We, therefore, request that your Honorable Body approve the attached resolution authorizing the Planning and Development Department (P&DD) to transfer jurisdiction of 3455 Woodward to the Detroit Water and Sewerage Department.

Respectfully submitted,  
PAUL A. BERNARD  
Director

By Council Member Everett:

Resolved, That in accordance with the foregoing communication, the City Planning and Development Department is authorized to transfer jurisdiction of 3455 Woodward to the Detroit Water and Sewerage Department and more particularly described as:

**Industrial Facilities Exemption Certificate Agreement**

THIS AGREEMENT, made this 26th day of September, 2000 by and between the City of Detroit, acting by and through its Planning and Development Department (the "City") and Daimler Chrysler Corporation ("the Applicant"):

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a Resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Michigan Public Act 198 of 1974, as amended ("Act 198"), exempting ad valorem taxes on personal property at the Applicant's New Mack Avenue Engine Plant I (the "Plant") in the area of 11801 Mack Avenue, Detroit, Michigan (the personal property at the Plant is hereinafter referred to as the "Facility"), as provided for in Section 7a of Act 198 (a copy of the Application is on file in the City Clerk's Office as Exhibit "A"); and

Whereas, the City granted an IFEC to the Applicant in 1997 to enable the Applicant to complete an engine plant in two phases in the area of 11801 Mack Ave., Detroit, Michigan, however, due to circumstances beyond the Applicant's control, Phase Two of the project was not completed; and

Whereas, the Applicant has invested over Four Hundred Seventy Five Million, Eight Hundred Twenty Thousand (\$475,820,000.00) Dollars to complete Phase One of the project, and is now ready to complete Phase Two of the project; and

Whereas, the Applicant is able to use some of the equipment acquired in connection with Phase One of the project to complete Phase Two of the project, the Applicant is hereby relieved from its obligation to fulfill the investment commitment stated in the 1997 IFEC agreement to the extent it was attributable to the Phase Two project because that portion of the investment commitment will be fulfilled under the current IFEC; and

Whereas, approval of an IFEC relating to the Facility will exempt the Facility from ad valorem personal property taxes, but will require payment by the Applicant of an Industrial Facility Tax; and

Whereas, the Applicant intends to invest approximately Two Hundred Seventy Four Million (\$274,000,000.00) Dollars for the acquisition of machinery and equipment so as to complete Phase Two of the project; and

Whereas, as a part of its Application for an IFEC, the Applicant has submitted an Employment Plan to the City Human Rights Department [a copy of the Employment Plan, Contract Compliance Report (Form EEO-1), dated March 22, 2000, is on file in the City Clerk's Office as Exhibit "B"], setting forth its specific targets for employment of women and minorities at the Plant; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

**1. General.**

a. Subject to the passage of a Resolution by City Council which shall be consistent with the terms and provisions of this Agreement, the Applicant will make the improvements set forth in the Application as part of the Facility. The term of the IFEC for each portion of the personal property set forth in the Application shall be as provided for in Section 7a of Act 198.

b. Throughout the term of this Agreement the Applicant will retain 1) a combined total of nine hundred and fifty (950) full-time employees at the Plant and at the Applicant's Mound Road Engine Plant in the area of 20300 Mound Road, Detroit, Michigan, from the approval date of an IFEC until completion of the Facility; and 2) nine hundred and fifty (950) full-time employees at the Plant commencing from the completion of the Facility, and throughout the term of this Agreement.

c. Notwithstanding anything stated herein to the contrary, the term of any IFEC shall expire twelve (12) years from the completion of the Facility.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours per week, or who remains on the Applicant's employment rolls as a permanent or regular full-time employee, whether or not the employee actually works 40 hours per week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

**2. Affirmative Action Report by the Applicant: Compliance with Equal Employment Opportunity Requirements.**

a. The Applicant agrees that it shall comply with all applicable federal, state and local requirements pertaining to Equal Employment Opportunity at the Plant.

b. The Applicant has submitted an Employment Plan to the City Human Rights Department which has been approved. On or before March 22, 2000 and each year thereafter, throughout the term of any IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit 1) a current Contract Compliance Report (Form EEO-1); and 2) a current employee utilization report reflecting the Applicant's utilization of members of protected classes of employees at the Plant, including hire, promotion and discharge of such employees.

c. If requested in writing by the Human Rights Department of the City, an Affirmative Action Plan, which sets forth the future Affirmative Action goals of the Applicant at the Plant, and the means by which the Applicant intends to effectuate these goals, shall be submitted by the Applicant. An Affirmative Action Plan for the Plant which meets the requirements of federal and state law shall be accepted by the City's Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before March 1, 2001, and on the 1st day of March of each year thereafter, throughout the term of any IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized employee of the Applicant. The Status Report shall set forth (a) the affirmative action accomplishments, and the average number of full-time employees at the Plant during the calendar year preceding the date of the Status Report; (b) the Facility costs as of the December 31st preceding the date of the Status Report; and (c) a list of all personal property which has been acquired

and installed as a part of the Facility during the calendar year preceding the date of the Status Report, with the corresponding cost of acquisition to the Applicant and the asset identification number ("brass tag number") for each piece of personal property. For purposes of this Agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Plant on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is Exhibit "C" on file in the City Clerk's Office.

**4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the Applicant, in order to determine compliance with this Agreement. If the Applicant fails to provide employment information sufficient to determine compliance with this Agreement, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) with written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant's noncompliance is held to be unreasonable by a court of competent jurisdiction, the Applicant agrees to reimburse the City for all reasonable costs, including reasonable attorney's fees incurred by the City to verify the information that was withheld. In the event that the City brings a court action against the Applicant for failure to provide the City with information required to be provided to the City under this Section, and the City's action is held to be frivolous by a court of competent jurisdiction, the City agrees to reimburse the Applicant for all reasonable costs of the Applicant incurred in defending such action, including reasonable attorney's fees.

**5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Property Investment Shortfalls.**

a. The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of any IFEC or revoke any IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Plant are less

than those to which the Applicant committed itself in the most recent Affirmative Action Plan submitted to the City Human Rights Department, and such shortfall is due to the failure of the Applicant to use its reasonable efforts to effectuate the Affirmative Action Plan; or 3) if the personal property investment is less than that to which the Applicant committed itself in the Application.

b. The Applicant shall not be considered to be in default in the performance of its affirmative action obligations, and the Applicant shall not be subject to the sanctions set forth in this provision if the Applicant demonstrates to the City by clear and convincing evidence that its noncompliance is the result of Applicant's good faith efforts to satisfy its obligations under applicable collective bargaining agreements.

c. Prior to taking any action to request reduction of the term of any IFEC or revocation of any IFEC, the City Council shall afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Agreement.

#### **6. Payment of Abated Taxes for Shortfall of Employment.**

a. If the average number of retained full-time employees at the Mound Plant and/or the Plant during the calendar year preceding the date of the Status Report is less than the number of retained employees set forth in Section 1 above, except due to market conditions beyond the control of the Applicant, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the ad valorem tax otherwise due on the Facility without the IFEC, minus the amount of industrial Facility Tax due on the Facility under the IFEC for the calendar year preceding the date of the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of retained full-time employees indicated in the Status Report, and the denominator of which is the total number of retained full-time employees set forth in Section 1 above.

b. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City Council must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this Agreement. At such hearing, the Applicant shall bear the burden of proof and the burden of persuasion that any shortfall in employment is due to market conditions beyond the control of the Applicant.

c. As used in this section, the term "market conditions" means major industry-wide changes in the United States market for engines produced at the Plant

that are beyond the control of the Applicant and that negatively impact the demand for the production of such engines for six (6) months or more.

#### **7. Definition and Notice of Discontinuance of Operations.**

a. For purposes of this Agreement, the Applicant shall be deemed to have discontinued operations at the Plant if either: 1) the employment level of the Applicant is reduced by more than seventy-five (75%) percent of the employment level commitment in Section 1 above; or 2) the Applicant ceases production permanently.

b) The Applicant agrees that, if during the term of any IFEC it shall decide to discontinue operations at the Plant, the Applicant shall send written notification to the Director of the City Planning and Development Department within ten (10) days of such decision. The Applicant further agrees that, within ten (10) days of the actual discontinuation of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

#### **8. Limitation of Remedies.**

a. **No Third Party Beneficiaries.** The City and the Applicant agree that the provisions of this Agreement are for the sole benefit of the City and the Applicant. Nothing in this Agreement shall be deemed to create any right in a person not a party hereto and this Agreement shall not be construed in any respect to be a contract in whole or in part for the benefit of any third party. This Agreement is not intended, nor shall it be deemed or construed to amend, alter or affect any labor agreement to which the Applicant is a party.

b. It is understood and agreed that, if the Applicant does not retain the level of employment set forth in Section 1 above, the City shall have no right to require the Applicant by injunction to retain any specified level of employment for any period of time. The sole and exclusive remedies for noncompliance with the terms, covenants and representations contained in this Agreement are set forth in this Agreement, and as provided for under Act 198.

#### **9. Severability.**

If any one or more provisions in this Agreement or in any instrument or other document delivered pursuant to this Agreement or the application thereof to any person or circumstance shall to any extent be invalid or unenforceable, the validity and enforceability of the remainder of this Agreement, or the application of such provision to persons or circumstances other than those as to which it is invalid or unenforceable, shall not be affected or impaired thereby, and each provision of this Agreement shall be valid and enforceable to the fullest extent permitted by law.

**10. Force Majeure.**

The Applicant shall not be considered to be in default under this Agreement as a result of any force majeure event that is beyond the reasonable control of the Applicant, including, but not limited to, severe and unusual weather, acts of God, war, explosion, riot, acts of civil disobedience or sabotage, strikes or work stoppages, or natural disaster or catastrophe.

**11. The City Not a Joint Venturer or Partner.**

The Applicant shall not consider or represent the City to be a partner or joint venturer of the Applicant or any of its officers, directors, employees, agents, affiliates, successors or assigns.

**12. Entire Agreement.**

This Agreement and the attached Exhibits A, B, C, D and E shall constitute the entire understanding and agreement of the parties concerning the Applicant and the City's respective obligations hereunder. This Agreement may not be amended, modified or altered except in writing signed by both the Applicant and the City.

**13. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the Facility, and shall be null and void and of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year any IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

In the event the Applicant violates the LWO, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the LWO shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the LWO will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. **Industrial Facilities Exemption  
Certificate Agreement**

THIS AGREEMENT, made this 19th day of September, 2000 by and between the City of Detroit, acting by and through its Planning and Development Department (the "City") and American Axle & Manufacturing, Inc. ("the Applicant"):

WITNESSETH:

Whereas, The Applicant has submitted an Application ("Application") to the City for adoption of a resolution giving the City's approval of an Industrial Facilities Exemption Certificate ("IFEC") pursuant to Public Act 198 of 1974, as amended, for personal property ("Facility") to be located at 1840 Holbrook, Detroit, MI 48212; and

Whereas, The Applicant is making personal property improvements for the purpose of improving its manufacturing processes; and

Whereas, As part of its application for an IFEC, the Applicant has submitted an employment plan to the City of Detroit Human Rights Department, wherein it has represented that during the term of the IFEC it shall not discriminate in its employment practices because of an individual's age, sex, race, color, creed, religion, marital status, national origin, political orientation, sexual orientation, or non-disabling handicap, and that it will take affirmative action to recruit and hire minority persons and women in accordance with specified targets; and

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

**1. General.**

a. The Applicant will make personal property improvements, as set forth in the

Application.

b. The Applicant will be required to create zero (0) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I. three thousand eight hundred twenty seven (3827) full time employees two (2) years from the Approval date.

II. three thousand eight hundred twenty seven (3827) full time employees at the Facility commencing two (2) years from the Approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

**2. Annual Affirmative Action Report by the Applicant.**

On or before May 8, 2001 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit 1) a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before February 1, 2001, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as Exhibit "C".

**4. Review and Audit of Applicant**

**Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

**5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

**6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the dif-

ference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

**7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

**8. Living Wage Ordinance**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation contin-

ues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

9. **Prevailing Wage requirements**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

10. **Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

11. **Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

12. **Headings.**

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

Honorable City Council:

Re: City of Detroit v Transamerican Auto Parts, et al. Case No. 93-3362742 CE.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in the Settlement Memorandum prepared by outside counsel, Fink Zausmer, P.C. From this review, we agree with the opinion of outside counsel that a settlement in favor of the City of Detroit with third-party defendant Consolidated Rail Corporation ("Conrail") only in the amount of Two Hundred and Twenty-Five Thousand Dollars (\$225,000) is in the best interest of the City of Detroit. This settlement is conditioned upon entry of an order by the Wayne County Circuit Court dismissing and barring all contribution claims against Conrail.

Therefore, it is requested that your Honorable Body direct the Finance Department to accept certified checks or wire transfers totaling the amount of One Hundred Sixty-Two Thousand Eight Hundred Twelve Dollars (\$162,812) from Conrail, which shall be tendered to the City of Detroit in exchange for a properly executed Release, Stipulation and Order of Partial Dismissal with prejudice in the litigation.

It is further requested that your Honorable Body amend the "City of Detroit Environmental Legal Services Contract No. 69701", with the firm Fink Zausmer, P.C., f/k/a Cooper, Fink & Zausmer, P.C., pursuant to Section 6.04 of said contract, in the amount of Sixty-Two Thousand One Hundred Eighty-Eight Dollars (\$62,188) for payment of its legal services and reimbursable costs incurred to date in its representation of the City of

Detroit in this matter. Section 6.04 states that "the city agrees to amend this contract to pay the Firm a contingent fee of each adjusted award or judgment ordered in favor of the City which is recovered by the firm pursuant to this contract." The contingency fee shall be computed as follows "for an adjusted award of less than \$500,000 — 25%, plus 20% of any amounts over \$500,000. This amendment is to reflect a contingency payment." Further, Fink Zausmer, P.C. is authorized to accept a check in said amount in payment of such services and costs.

Re: Subject — Office of the Auditor General Strategic Plan Resolution.

Attached please find the Office of the Auditor General Strategic Plan Resolution for the calendar years 2000 and 2001, submitted for your Honorable Body's approval.

Respectfully submitted,  
JOSEPH L. HARRIS  
Auditor General

By Council Member Everett:

Whereas, Risk assessment is an effective and generally recognized means of allocating audit resources to meet the auditing needs of the City of Detroit, and

Whereas, A risk-based audit plan is designed to spend more time on the areas of highest risk and greatest importance to organizational goals, and therefore, spend less time on areas of low importance and low risk, and

Whereas, The *Standards for the Professional Practice of Internal Auditing* (Guideline 520.04) recommends that internal auditors use risk assessment in their annual plans, and

Whereas, The Auditor General's Strategic Plan for the calendar years 2000 and 2001 was developed using a risk-based audit approach which ensures that the Office of the Auditor General targets its audit coverage to areas of most importance and concern to the City, and

Whereas, The current audit plan provides for audits for low-risk agencies on a

less frequent basis than a two-year cycle, and

Whereas, The Charter of the City of Detroit (Sec. 4-205) currently requires "The auditor general shall make audits of the financial transactions of all city agencies at least once every two (2) years or as otherwise directed by the city council", and

Now, Let It Therefore Be Resolved, That City Council hereby exercises its authority, as granted by the Charter of the City of Detroit, and in consideration of the professional judgment and approach recommended by the Auditor General, and

Now, Let It Be Resolved, That City Council directs the Auditor General to follow a risk-based audit approach and utilize the Office of the Auditor General Strategic Plan For the Calendar Years 2000 and 2001 as the basis for determining those audits that will be performed, in order to provide for a more effective allocation of audit resources, and thereby maximize the Auditor General's ability to contribute to the improved performance and accountability of City government for the benefit of our citizens.

Honorable City Council:

Re: Division of Platted Property for Assessors Petition No. 98-67 (1470-80 18th St.) 99-7 (2656 Cromwell & 1302-10 St. Anne), 00-15 (2648 Sampson), 00-16 (1458-62 17th St.) (Recommend Approval).

The Planning and Development Department recommends approval of the request of Bagley Housing Corporation to divide residential property in the St. Anne's Catholic Church area in southwest Detroit. A meeting with Vincent Murray and Daniel Locano of Bagley Housing was held on Thursday, July 13, 2000. As discussed during this meeting, the proposal is to divide the parcels of property in smaller lots than allowed in Ordinance 421-G. In order for an action like this to occur the Planning and Development Department must review the application.

This request is before your Honorable Body to make the necessary accommodations for Bagley Housing Association to continue to construct the much needed

infill housing in the City. The four parcels being reviewed are the resultant parcels remaining in the reconstruction and replatting of this neighborhood. These parcels are approximately 15-20 feet wide by 95-100 feet deep. Attached is a sample of how these lots will be divided and later combined to make a buildable lot (Exhibit A). Given the past history of Bagley Housing Association and their current requests being reviewed by the Department it is the opinion of the Department to approve these parcels given the planned development by Bagley Housing Association.

Bagley Housing will hold title to these lots until future development of the adjacent properties is prepared to move forward. The properties will be maintained and taxes paid by Bagley Housing Association during this brief time period. If the properties in question cannot be obtained in a three year time period, the property will then revert to the next adjacent property owner with the smallest lot.

Prior to this recommendation the Department considered many options. The first option was to incorporate these said parcels into the adjacent parcel of the new homeowner with a renewable option to sell the property back to Bagley Housing Association. Upon review of this option the Law Department stated that there are no safeguards to revert the property back to Bagley Housing Association short of a property taking.

The second option was to adjust the lot lines to accommodate the development and create lots with property under the control of Bagley Housing Association. This option would create homes with deficient rear and side yards that were in conflict of the Zoning Ordinance.

The final option was to temporarily create these small "sliver" lots and hold them for a three year period. It is the plan of Bagley Housing Association that before the end of the three year period the adjacent parcels will be acquired, new homes will then be built and these "sliver lots" will be incorporated into a buildable lot.

As you may know, Bagley Housing Association has been working on the total neighborhood revitalization for the area bounded by West Jefferson Avenue, St. Anne Street, Bagley Avenue and 16th Street. Bagley Housing Association has built 22 single family residences, presently has 23 single family residences under construction and has completed over \$750,000 in renovations to existing homes. Bagley Housing Association is also working towards the renovation of St. Anne's School for the permanent location for SER CASA High School. A neighborhood school for "at risk" youth.

**Description**

The properties are described as follows:  
Common Address: 2648 Sampson.

Legal Description: Lot 93 and the east 10 feet of lot 94 of the Wards Subdivision.

Common Address: 1470-80 18th Street.

Legal Description: Lot 166 and the south 10 feet of lot 169 of the Private Claim 473 Stanton Farm Subdivision.

Common Address: 2656 Cromwell & 1302-10 St. Anne.

Legal Description: West 15 feet of lot 82 of the Wards Subdivision and the south 1/2 of lot 83 and south 1/2 of lot 84 of the Wards Subdivision and the north 1/2 of lot 83 and the north 1/2 of lot 84 of the Wards Subdivision.

Common Address: 1458-62 17th Street.

Legal Description: North 14.33 feet of lot 163 and the north 28 feet of lot 156; south 19 feet of lot 163 of the Private Claim 473 Stanton Farm Subdivision.

**Legal Basis for Review**

The Planning and Development Department reviewed this request under City of Detroit Ordinance 421-G of April 17, 1969, Chapter 58A, Article 1, *Subdivision of Land, of the Detroit City Code* and Sections 45.0200, 43.0200 and 82.0000 of the *Official Zoning Ordinance 390-G*.

**Zoning and Related Requirements.**

The subject properties are R2 (Two-family Residential) which permits single family houses as a matter of right. The current design and configuration of the site plan for each house are such that each complies with the required setbacks and parking requirements. The design is to utilize the alley for access to the houses. The entire plan for the area is to improve the alleyways and the work for this is now taking place to pave and drain the alleys in this area.

**Findings**

The Finance-Assessments Department has reviewed this proposal and found that the property descriptions are accurate as listed and Law Department agrees that all signatories have necessary interest in the subject property.

The Planning and Development Department's review involved a review of the proposal, interviews with the developer, a review of the Master Plan, zoning requirements and an investigation of the water and sewer service in the subject area.

Based on our review and analysis, the Planning and Development Department makes the following findings relative to this proposal:

Finding #1: The proposal meets the conditions of Section 1, Paragraph 3 of Ordinance 421-G the unique circumstances the parcels created will assist in conforming to the original subdivision of the land, be compatible with the surrounding land use and consistent with the spirit and purpose of the Ordinance.

Finding #2: The proposal meets the conditions of Section 1, Paragraph 4 of Ordinance 421-G by creating parcels

accessible to public water and sewer systems which have the capacity to serve the resultant parcels.

Finding #3: The proposal meets the conditions of Sections 43.0200, 45.0200 and 82.0000 of the Official Zoning Ordinance 390-G relative to the division of the zoning lots, location of principal buildings and land use permitted on the subject property. Further, off-street parking and setbacks will be met with the proposal.

Finding #4: The proposal is consistent with the Master Plan. Future general land use for the Hubbard-Richard Corktown Subsector of the Southwest Sector is RLM (low-medium density residential).

Finding #5: The proposal when complete will improve the conditions of the entire neighborhood and will also clarify the legal descriptions by returning to the original plat of the neighborhood.

**Recommendation**

The Planning and Development Department recommends that this request for Division of Platted Property be approved as proposed and the attached resolution relative to the Division be adopted.

Respectfully submitted,  
BURNEY JOHNSON  
Acting Executive Manager

By Council Member S. Cockrel:

Whereas, Vincent Murray for Bagley Housing Association, has submitted a request to divide platted property at 2648 Sampson, 1470-80 18th Street, 2656 Cromwell, 1302-10 St. Anne, 1458-62 17th Street to accommodate the future plans for continued infill housing,

Whereas, said request contains the required Finance Department, Assessments Division application, and legal description, and

Whereas, the Finance Assessments Department has investigated said request and found that the property descriptions are accurate as listed and the Law Department agrees that all signatories have necessary interest in the subject property, and

Whereas, the Planning and Development Department has investigated said request and found that the unique circumstances of the proposal are consistent with Ordinance 421-G of April 17, 1969, Chapter 58A, Article 1, *Subdivision of Land*, of the Detroit City Code and recommends approval of said request,

Now Therefore Be It resolved, that the City Council, after careful consideration of the request of Bagley Housing Association to divide platted property at 2648 Sampson, 1470-80 18th Street, 2656 Cromwell, 1302-10 St. Anne, 1458-62 17th Street and that the future acquisition of property continue within a three year period and that if these parcels cannot be consolidated into buildable parcels the property will automatically revert to the adjacent property owner with the smallest lot width, accepts the department report, approves said Division of Platted Property as described in the attached Exhibit A and refers to the Finance Department Assessment Division for final processing and enforcement, and further

Be It Resolved, that the City Clerk is authorized to certify this resolution and the Petitioner is directed to record said certified copy of this resolution at the Office of the Wayne County Register of Deeds and present said certified copy to the Finance Department Assessments Division to obtain final processing of this Division of Platted Property.

Re: Request for Closed Session of Detroit City Council to Discuss Pending Litigation in the Matter of City of Detroit v Crown Enterprises.

Pursuant to your Honorable Body's request to the Law Department, the Law Department has worked with the City Clerk's office to find an appropriate date for a closed session to discuss the pending litigation in the matter of City of Detroit v Crown Enterprises. In consultation with President Hill's office, it appears that Monday, November 6, 2000 at 11:30 a.m. is available for this closed session.

Act 267 of the Public Acts of 1976, commonly referred to as the "Open Meetings Act," allows a public body upon a two-thirds roll call vote of its members to:

To consult with its attorney regarding trial or settlement strategy in connection with specific pending litigation, but only if an open meeting would have a detrimental financial effect on the litigating or settlement position of the public body. MCL 15.268(e)

**2. Annual Affirmative Action Report by the Applicant.**

On or before September 13, 2001 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before February 1, 2001, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized

officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

#### **4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

#### **5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls, or Non-Compliance with Prevailing Wage Requirements.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or 3) if the Facility cost is less than that to which the Applicant committed itself in the Application; or 4) the Applicant failed to pay the prevailing wages for construction work on the project for which it is seeking an Industrial Facilities Exemption

Certificate. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

#### **6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

#### **7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

#### **8. Living Wage Ordinance.**

The Applicant acknowledges receipt of

a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violation of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**9. Prevailing Wage Requirements.**

The Applicant agrees that Detroit Ordinance ch 18, art 5 div 4 is made applicable to this Agreement by section 18-5-65 thereof and agrees that wage and fringe benefit rates paid to each class of building trades workers performing construction work for which an Industrial Facilities Exemption Certificate is requested shall not be less than the rate prevailing in the City. See Exhibit E for a copy of the applicable Ordinance and the rates.

**10. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgment, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

**11. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

**City Planning Commission**

October 16, 2000

Honorable City Council:

Re: Review of the Detroit Riverfront Civic Center Promenade Project located in a PC (Public Center District) zoning district (Recommend Approval).

**PROJECT**

The City Planning Commission has received a request for review and approval of the Detroit Riverfront Civic Center Promenade Project from the Downtown Development Authority (DDA). This portion of the promenade falls between Third Street and the police mini-station along the river's edge where the land is zoned PC (Public Center District). This project will rebuild the deteriorating seawall along this 3,500-foot stretch of waterfront and offer new and improved

public amenities. The project has been before your Honorable Body twice before at earlier junctures of its development: originally, to approve its inclusion as part of the Tax Increment Finance Authority (TIFA) Plan in July 1998; and in July 1999 to modify the funding of the project as it moved into design development.

**REVIEW**

The riverfront promenade project is an effort to provide continuous landscaped pedestrian access at the river's edge from Joe Louis Arena (JLA) to the Waterfront Reclamation and Casino Development District (ultimately from the Ambassador Bridge to the MacArthur Bridge). This portion of the promenade from which the DDA is responsible is part of the Tax Increment Finance Authority Plan. The project will reactivate and improve the area south of Atwater by Joe Louis Arena and Cobo Center currently used for parking. The columns supporting the People Mover guideway also run through this area presenting stationery features to be addressed by the design. From there to the east, the existing area establishing the southern boundary of Hart Plaza will be rebuilt and modified in accordance with this new scheme.

The plans for the promenade, beginning at the river's edge, include a new or repaired concrete pile cap and overlay atop the repaired seawall. Defining and securing the edge would be a new stainless steel rail, far more substantial than the existing. The railing would provide gateways at 100 feet intervals that would allow access to large vessels such as Diamond Jack which might occasionally dock there on a temporary basis for tours or special events. Additional support for these vessels would be provided by sanitation and electrical hookups located concurrently with the gateways.

The walkway would be paved with six foot wide colored concrete bands in alternating shades of light and dark gray. An undulating concrete seawall would establish the northern edge of the walkway with heavy metal benches placed in the recessed areas facing the river. The undulating line of the seawall would cause the walkway to vary from 12 to 20 feet in width. The seawall wall begins at the west-end of the promenade, where a sculptural feature (a helix) spirals down and out to the walkway establishing the seawall. The eastern end of the promenade would terminate with a granite-paved area to be called Cadillac's Landing in commemoration of that event. Cadillac's Landing would feature four concrete pedestals, upon which brass plaques would be mounted, depicting the interpretive growth and development of the city (to be done by Detroit 300).

The line of the seawall would be broken

in six places to provide access to and from the area. Barrier free access would be available at two of these points, one near JLA and the other via the existing ramp that runs west from Hart Plaza. Barrier free access would also be provided at each end of the promenade as well. The access point at the existing Hart Plaza stairs is the area where Detroit 300 intends to erect a monument to the Underground Railroad. This could require some additional redesign and reconstruction of the stairs and adjacent retaining walls, which would come at a later date.

Just beyond the seawall would be an earthen berm containing grass, ground cover and tree groupings with rock outcroppings for sitting. The tree groupings and rock outcropping would be placed intermediate to the People Mover columns (at the western end of the promenade) and the recessed bench seating. At the westend where Atwater bends north around JLA, the promenade would be at its widest forming a triangular shaped space. In this area, north of the helix, seawall and berm would be a grassy area divided by sidewalks lined by trees running north and south to pay homage to the ribbon farms that once stemmed from the river to form the early city. All soils are to be engineered to provide good drainage and to withstand heavy traffic.

One of the objectives of this project was to make it as vandal proof as possible. One area where this is obvious is in the lighting. Path lighting along the walkway is built into the seawall, washing part of the wall and the path with low level light. Access ways are to be lit by the same type of pole fixture already in use in Hart Plaza. A taller pole with multiple lamps would be used along the walkway to light the path, berms and seating areas.

Upon completion, the promenade would be managed and maintained by the Recreation Department. At a later date some form of trust or conservancy would be formed that would take responsibility for this and possibly a larger area. Those features to be added by Detroit 300 will be reviewed at a later date. This portion of the promenade would be linked with the portion to be developed by General Motors (GM). This linkage will occur at some point east of Cadillac's Landing south of Ford Auditorium with the GM stretch running east to Rivard. The GM portion of the promenade, which has been presented in rough concept to your Honorable Body in the past, is currently under design. GM's design team is led by Albert Kahn and Associates, which is also the design lead for the Civic Center portion of the promenade. This will help to provide continuity between these two portions of riverfront improvements.

#### **CONCLUSIONS**

The City Planning Commission has reviewed and discussed the Detroit Riverfront Civic Center Promenade Project and made the following conclusions. The repair of the seawall is clearly necessary and while it could be postponed this is certainly a most advantageous time to make the repairs and make the long envisioned improvements to the area as well. This project represents a major step in realizing a long awaited vision for continuous, public, riverfront access. The promenade will help to revitalize a somewhat dormant area by countering the "back door" feel along Atwater by Joe Louis Arena and Cobo Center with attractive improved public access and green space. In a previous report on TIFA Plan amendments concerning this project, the Commission stressed the need for additional improvements adjacent to Cobo that would thoroughly address appearances in this area and make for an attractive corridor. A high priority should be given to this to support the promenade.

The proposed riverfront promenade will contribute greatly to an improved image of the City's riverfront. It should be an attraction to tourists and citizens alike and add to the enjoyment of events and activities staged in the area. The design not only creates and enhances space for public use and enjoyment, it also seeks to increase the safety of users, particularly children, as evidenced by the proposed new rail, which is built to new higher child safety standards. The added docking facilities will aid in the programming of activities at Hart Plaza as will be seen with Detroit 300 events next year. The color and selection of materials is appropriate and consistent with the area. The introduction of artwork and the commemoration of the City's history to be done in conjunction with Detroit 300 will further enrich the project. In total, this project responds very well to the desires and visions expressed in the City's Master Plan of Policies, in other planning documents and efforts including this area, and by various individuals and organizations over the years.

#### **RECOMMENDATION**

Having completed its review the City Planning Commission finds the design and features of the Civic Center Promenade as presented to be in keeping with the spirit and intent of the Public Center zoning district and, therefore, recommends approval. The appropriate resolution is attached for your consideration. Furthermore, the Commission recommends that the DDA and its agents continue to work with the appropriate City agencies (Recreation, Planning and Development, Public Lighting, Water and Sewerage and Planning Commission staff) in the finalization of tree planting

and grouping, color and intensity of light and the drainage system.

Re: Medicaid-Waiver Telephone Screening Project Title XX (Org. #258672) (Appropriation #10310).

The Health Department has been notified by the Detroit Area Agency on Aging that grant funds are available in the amount of \$20,000 to continue the Medicaid-Waiver Telephone Screening Project for the period October 1, 2000 through September 30, 2001.

This grant seeks to identify senior citizens (those sixty or more years of age) with substantial health problems, who meet all criteria for Medicaid coverage except

income eligibility under the usual Medicaid guidelines. Candidates who are medically eligible may receive Medicaid benefits through this program, provided their income falls within an expanded income range. After a candidate successfully completes the screening process, the Michigan Family Independence Agency (MFIA) determines their eligibility for benefits.

We, therefore, request authorization to accept these funds from the Detroit Area Agency on Aging in accordance with the foregoing information.

Honorable City Council:

Re: Petition #3061: Metri Duley. Requesting alley vacation in the area of Linwood, Lamothe, LaSalle Blvd., Lothrop.

The above named petitioner has requested that the alley bounded by Linwood, Lamothe, LaSalle, Lothrop Streets be vacated and converted to an easement.

The above-referenced petition has been filed with the Detroit City Council by more than two-thirds of the abutting property owners, as required by the Detroit City Code, Article VI, Section 50-6-1. In this instance there is 100% property owner signature in support of this request. Our investigation of this petition discloses the following:

1. That the alley does not serve as the sole means of ingress/egress to any of the garages on the abutting property.
2. The public utilities located in the alley can be properly served if this alley is converted to an easement.
3. The alley is not required for municipal services (trash collection).
4. No objections to this alley vacation have been received from utilities or city departments following notification of this request.

It is therefore the recommendation of the Planning and Development Department that this request for alley closure be granted.

Respectfully submitted,  
PAUL A. BERNARD  
Director

By Council Member Scott:

Resolved, All that part of the north-south public alley, 18 feet wide in the block bounded by Linwood, Lamothe, Lothrop, and LaSalle, lying south of the abutting property line of Lots 55, 57, 58, 59, 60, 61, 62, 63, 64, 65, and 66, platted in LaSalle Gardens Subdivision of the City of Detroit, Wayne County, Michigan, as recorded in Liber 00025, Page 100 Plats, Wayne County Records, is vacated subject to the following permanent conditions:

1. The City reserves an easement for public utility purposes and other purposes.

2. No building, structures, improvements, or encroachment of any kind (including but limited to fences, and pavements) may be placed in the easements area without prior written consent of the City Engineering Division of the Department of Public Works.

Resolved, That in accordance with MCL Section 560.256 and City Code Section 50-7-4, the City Clerk is directed to record a certified copy of this resolution with the Wayne County Register of Deeds within 30 days after the effective date of this resolution.

Honorable City Council:

Re: Petition No's. 656 & 2032 — The Province of St. Joseph of the Capuchin Order, et al, requesting commercial alley closure(s) in the area of Mt. Elliott, Meldrum, St. Paul and Kercheval.

Petition No's. 656 & 2032 of "The Province of St. Joseph of the Capuchin Order, et al" requests the conversion of the north-south public alley, 20 feet wide, the east-west public alley, 20 feet wide, and the east-west public alley, 18 feet wide, in the block bounded by Mt. Elliott Avenue, 66 feet wide, Meldrum Avenue, 60 feet wide, St. Paul Avenue, 60 feet wide and Kercheval Avenue, 80 feet wide, into private easement(s) for public utilities.

There are two (2) property owners adjacent to the public alley(s) requested to be closed, The Province of St. Joseph of the Capuchin Order, Inc. and Delta Iron Works, Inc. Both owners agree to the closings. The requested alley closures are needed in order to prepare land for the development of what's to be known as "The Solanus Casey Center".

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW and the Planning and Development Department. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All city departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into private easement(s) for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

fiscal year, and there is evidence that the audit is in progress and will be completed by December 31, 2000. The City's auditors, KPMG, indicate that the audit is in progress and can be completed by December 31, 2000.

Therefore, the Finance Department respectfully requests that your Honorable Body approve the attached resolution.

**Law Department**

October 26, 2000

Honorable City Council:

Re: Resolution Granting Telecommunications Permit to Pathnet Operating Services, Inc.

Pursuant to the applicable provisions of the 1997 Detroit City Charter, the above-referenced Resolution is being submitted to your Honorable Body for consideration.

The Detroit Telecommunications Ordinance,<sup>1</sup> requires that a permit be obtained before the public rights-of-way may be used to establish a system to provide telecommunications services. The Pathnet Operating Services, Inc. (Pathnet) permit application was reviewed by the Law Department and outside counsel. The provider plans to construct and install telecommunications facilities in existing Ameritech conduit. Pathnet will use its facilities in the City of Detroit to provide circuits to interconnect its service provider level provider customers.

On October 10, 2000, the Detroit Cable Communications Commission approved a motion recommending that the Pathnet permit be approved subject to Law Department review. The Law Department recommends that the permit be granted subject to the conditions set forth. The provider understands that these conditions include posting a bond in the amount of \$50,000.00, payment of a non-refundable telecommunications permit application fee (once such fee is established by your Honorable Body), and payment of an annual right-of-way fee calculated on a per lineal foot basis which does not exceed the fixed and variable costs of maintaining the public rights-of-way.<sup>2</sup>

We are available to answer any questions that you may have concerning this

proposed Resolution. Thank you for your consideration. A Waiver of Reconsideration is requested.

Respectfully submitted,  
KAY D. SCHLOFF  
Senior Counsel

<sup>1</sup>1984 Detroit City Code Sec. 9.5-5-1 *et seq.*

<sup>2</sup>The submission of a proposed right-of-way fee schedule to the City Council for approval has been delayed pending analysis of the impact of the October 24, 2000 decision of the Michigan Public Service Commission in *Coast to Coast Telecommunications, Inc. vs. City of Birmingham*, Case No. U-12354.

By Council Member Scott:

Whereas, Public Act 216 of 1995 ("Act 216") requires telecommunications providers to obtain a permit from the City of Detroit for access to and ongoing use of public rights-of-way under the City's control and jurisdiction; and

Whereas, The City of Detroit has adopted a Use of Public Ways by Telecommunications Providers Ordinance, Chapter 9.5, Sections 9.5-5-1 through 9.5-5-22 of the 1984 Detroit City Code, to regulate the access to and ongoing use of public ways by telecommunications providers; and

Whereas, Section 9.5-5-5 of the Ordinance provides that no person shall install, construct, maintain, repair, or operate a telecommunications system within the public ways, or use the public ways to provide telecommunications services, without a permit issued pursuant to the Ordinance; and

Whereas, Section 254 of Act 216 provides that "a provider using the highways, streets, alleys, or other public places, shall obtain a permit pursuant to Section 251" of that Act; and

Whereas, On or about August 25, 2000, Pathnet Operating Services, Inc. filed a Permit Application for Access To and Ongoing Use of Public Ways; and

Whereas, Section 9.5-5-6 of the Ordinance requires an applicant to pay a non-refundable application fee in an amount established by ordinance or resolution of the City Council, such fee being designed to reimburse the City for costs of reviewing an application for a permit; and

Whereas, The City Council has not yet established an application fee and Pathnet Operating Services, Inc. has not paid such fee; and

Whereas, Section 9.5-5-7 of the Ordinance requires a Permittee to pay an annual fee in an amount established from time to time by ordinance or resolution of the City Council, and the City Council has not yet established such annual fee; and

Whereas, The City in adopting this resolution and in approving the permit, has relied on information and materials sub-

mitted and provided by Pathnet Operating Services, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, the City desires to reserve the right to amend, rescind, modify or otherwise limit this resolution;

Whereas, On October 10, 2000 the City of Detroit Cable Communications Commission approved a motion recommending that a permit be issued to Pathnet Operating Services, Inc. subject to Law Department review and certain conditions;

Whereas, The City of Detroit Law Department has recommended that the City grant the application subject to conditions, namely payment of the application fee when the amount is set by the City Council, payment of the annual fees when established by City Council retroactive to the issuance date of the Permit, and posting of a bond in the form and amount acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Pathnet Operating Services, Inc.'s access and use; and

Whereas, The City of Detroit hereby declares that it is necessary and desirable to protect the public health, safety, and welfare and to reasonably control the City's rights-of-way by granting a permit to Pathnet Operating Services, Inc. subject to the conditions hereinafter set forth.

Now, Therefore, Be It Hereby Resolved, The City of Detroit hereby approves of and grants a permit to Pathnet Operating Services, Inc. for access to and ongoing use of the locations in the public rights-of-way of the City of Detroit specified in the permit, subject to the terms and conditions set forth in the Ordinance entitled Use of Public Ways by Telecommunications Providers and subject, without limitation, to the following conditions:

1. Payment of the application fee when it is set by the City Council.
2. Payment of annual fees when established by the City Council, retroactive to the date of the permit.
3. Posting of a bond in the amount of at least Fifty Thousand Dollars (\$50,000) and in a form acceptable to the Law Department and which amount shall not exceed the reasonable cost of ensuring that the Public Ways are returned to their original condition during and after Pathnet Operating Services, Inc.'s access and use.
4. The Permit is subject to the City of Detroit Engineering Department's review and approval and modification, if necessary, of the proposed routes and plans and Permittee shall not commence construction upon, over, across or under the Public Ways or in the City without first obtaining a construction permit as

required under Chapter 50 of the 1997 Detroit City Code, as amended, which shall apply to the construction of a Telecommunications System.

Be It Further Resolved, That acceptance of the permit by Pathnet Operating Services, Inc. shall constitute an agreement that issuance of the permit is not a waiver of the City's right to enforce the Ordinance and Act 216 in any respect; and

Be It Further Resolved, That the permit hereby granted shall not constitute approval of the transfer to Pathnet Operating Services, Inc. of any permits or authorizations granted by the City to others; and

Be It Further Resolved, The City in adopting this resolution and in approving the permit, has relied on information and materials submitted and provided by Pathnet Operating Services, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, then the City reserves the right to amend, rescind, modify or otherwise limit this resolution; and

Be It Further Resolved, That in addition to all rights provided in the Ordinance, the City reserves all rights under its police powers and rights and powers conferred by Federal law, the Michigan Constitution, Michigan statutes and decisions, the 1997 Detroit City Charter, the 1984 Detroit City Code, and City ordinances which City is allowed to exercise, including the ability to amend this Permit from time to time; and

Be It Finally Resolved, That the City Council hereby waives reconsideration of this Resolution.

Adopted as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

**City Planning Commission**

October 23, 2000

Honorable City Council:

Re: Request of Kmart Corporation (#3007), to rezone a portion of the property generally located on the east side of Telegraph Road between West Eight Mile Road and Frisbee Avenue from R1 (Single-Family Residential District) to PD (Planned Development District) to allow for the construction of a Super Kmart Center and three free-standing commercial buildings; and the proposal of the Planning and Development Department to amend the Master Plan of Policies to allow for this development (RECOMMEND APPROVAL WITH CONDITIONS).

Submitted herewith is the City Planning Commission report and recommendation on the request of the Kmart Corporation to rezone a portion of the property generally located on the east side of Telegraph Road between West Eight Mile Road and Frisbee Avenue from R1 (Single-Family Residential District) to PD (Planned Development District) and to amend the Detroit Master Plan of Policies to allow for the construction of a Super Kmart Retail Center. The property consists of approximately 15 acres and is a portion of the Bonnie Brook Golf Course and Clubhouse site.

A PD zoning district classification is being requested because the proposed commercial use is not allowed in the R1 zoning district. A Master Plan of Policies amendment is needed because a PD District must be consistent with the Master Plan.

**Proposed Development**

The Kmart Corporation proposes to construct a Super Kmart store of approximately 142,495 square feet in size and three free-standing buildings for potential standard restaurants or other retail or service facilities totaling no more than 18,000 square feet of floor area. The Super Kmart store is proposed to be open 24 hours a day and would include a police mini-station. The existing golf course clubhouse and storage building on the property would be demolished and new clubhouse and storage facilities would be built and incorporated into a reconfigured golf course to the north of the subject property.

The site plan for the project shows that the building would be set back on the eastern portion of the site with the front of the building facing Telegraph Road. The rear of the building would face the Rouge River. The facade of the building would consist of painted concrete block. An outdoor garden shop would be attached to the front of the building on the north side of the site. An 8-foot high masonry wall would be erected along the southern property line that would shield the adjacent Hidden Pines Apartment complex from the building and truck delivery area. The site plan shows that the rear or eastern portion of the site would be enclosed with a chain link fence. Extensive landscaping would be provided throughout the site and on the inside of the wall along the southern property line.

The site plan indicates a total of 867 on-site parking spaces. Vehicular access into the site would be via three (3) driveways on Telegraph Road. The main (center) driveway would contain four lanes, two for exiting and two for entering. Ingress for truck delivery would be via the driveway at the southern portion of the site and egress would be via the driveway at the northern portion of the site. To provide better traffic flow into the site, the developers propose a turn-around lane within the Telegraph median and a new traffic sig-

nal along Telegraph Road. In addition, deceleration lanes would be installed along north-bound Telegraph Road.

The three freestanding commercial buildings would be located near the Telegraph Road portion of the site. Parking spaces would be located adjacent to each of these buildings. The operators of these buildings have not been determined. Therefore, there are no detailed plans describing the facades of these buildings.

A 45-foot high, 10 foot by 30-foot pylon sign is proposed at the main driveway entrance of the site. Three monument or ground signs are proposed, one for each of the three free-standing buildings; however, no details are provided for this signage at this time.

A detention basis is proposed at the southeastern portion of the site (at the dead end area of Shiawassee). The purpose of the detention basis is to address stormwater runoff into the Rouge River. The area would be enclosed with an 8-foot high chain link fence. In addition, a 6-foot high stockade fence and six 6-foot evergreen trees would be placed near the property line between the detention basis and the residential property to the south. The proposed detention basin has been approved by the Michigan Department of Environmental Quality.

**Surrounding Zoning and Land Use**

- North: R1 (Single-Family Residential); Bonnie Brook Golf Course
- South: PD (Planned Development) and R1 (Single Family Residential); Hidden Pines Apartments and single family housing
- East: R1; single-family housing
- West: R1; single-family housing

**Background**

The City Council held a public hearing on January 18, 2000 on an earlier request to rezone the subject property to PD to allow for the construction of a 147,700 square foot Super Kmart Center that included an auto service center, three outlots with approximately 21,000 square feet of floor area, and 892 parking spaces.

On August 2, 2000 the City Council voted not to pass a third resolution that would have extended the time in which to act on the earlier request. As a result, the proposal was deemed denied. Section 64.0700 of the Zoning Ordinance states, "If a petition for a proposed amendment is not acted upon finally by the Council within one hundred twenty (120) days of the time of receipt of the City Planning Commission's report, it shall be deemed to have been denied unless extended by resolution of the Council." The proposal had been extended two previous times by Council resolution.

Since Council's August 2 action, the developer has continued to meet with area community groups to address their concerns and has submitted a new zoning amendment request relative to the same development proposal with modifications. Because of the concerns raised at several community meetings and public hearings, many changes have been made to the original development proposal and site plan. The following chart summarizes the concerns of the public and the City Planning Commission, and notes the modifications that have been made from the original proposal:

<b>Concerns of the Public and CPC</b>	<b>Original Proposal and Site Plan</b>	<b>Modifications to Proposal and Site Plan</b>
1. Inadequate area for loading and service delivery, trash receptacles, and circulation around the outlot areas.	The floor area of the three outlots totaled 21,000 square feet.	Total floor area of the three outlots has been reduced to 18,000 square feet
2. Environmental concerns such as the impact of the development on the river and the floodplain, flooding of adjacent property, and wildlife.	Details on addressing the impact of the development on the river and floodplain were not yet finalized.	Details finalized on construction of a detention basis to address Rouge River water runoff; also details on the creation of new wetlands within the remaining golf course area have been presented.
3. Need for permit approval by Michigan Dept. of Environmental Quality prior to City approval of the development.	No MDEQ permit had been approved.	MDEQ approved the permit for the detention basis and soil fill/cut plans.
4. Inadequate landscaping and buffering to screen the view and noise of the compactor and	A 10-foot setback along the southern property line was provided; a 6-foot high masonry wall was	Increase in the southern property line setback to 20 feet with landscaping; increase in the height of

5. Inadequate roadway in front of the Kmart building to allow for efficient traffic circulation; customer drop off and loading.	The roadway along the building was 30 feet wide.	The roadway has been increased to 36 feet wide along the building.
6. Potential traffic conflict between vehicles entering and passing through the site and vehicles using the 17 parking spaces along the northern roadway.	There were 17 parking spaces indicated along the northern driveway entrance.	The 17 parking spaces along the northern driveway entrance have been eliminated.
7. Excessive signage.	A 10 foot high by 10 foot wide sign at the southern driveway along Telegraph was indicated.	The 10 foot high by 10 foot wide sign has been replaced by a 2 foot by 3 foot directional sign.
8. Large amount of uninterrupted building facades.	No visual break up was indicated along the 150-foot uninterrupted building facade.	Tree planter beds will be installed at intervals of 30 feet along two areas in the front of the Super Kmart building.
9. Need for security and crime prevention measures within the adjacent residential area.	No measure taken to prevent crime within the adjacent residential area.	There is agreement to provide a mini station on site, if this is determined to be of interest to the City.
10. Opposition to the auto repair center as part of the proposed Super Kmart Center.	A 4,729 square foot auto center was proposed.	The 4,729 square foot auto center has been eliminated, thus reducing the total size of the store to 142,495 square ft.

### Master Plan

The generalized existing and proposed land use designation in the Master Plan for the site is Permanent Open Space. The PD zoning classification requires that the major land use of the planned development be consistent with the most general land use category proposed in the Master Plan for the area.

The Planning and Development Department (P&DD) has submitted a letter indicating a recommendation of approval for the proposed zoning change and amendment to the Master Plan of Policies to change the land use designation from Permanent Open Space. A revised resolution will be forthcoming to reflect the current proposed development.

### CPC Public Hearing Results

On September 7, 2000, the City Planning Commission held a public hearing on this matter. Twenty-one persons spoke at the hearing. Six persons spoke in favor of the proposed rezoning and Master Plan amendment. Fifteen persons spoke in opposition to the proposed rezoning and Master Plan amendment.

The main objections were: 1) the impact of the construction of this development on the Rouge River and within the floodplain, and flooding of adjacent property; 2) the possible change in the character of the surrounding residential area; 3) the color of the construction material of the building; 4) the loss of green space in the area; 5) the need for greater stormwater management mechanisms; 6) trucks travelling on nearby residential streets; and 7) lights in the parking lot intruding into the neighborhood.

### Analysis

The City Planning Commission considered various factors in its consideration of this request including issues raised at the public hearing.

### Flooding and Stormwater Issues

The proposed development would be constructed adjacent to the Rouge River in what is partially a flood zone area. Area residents raised many concerns relative to the potential flooding of their basements and backyards and the project's impact on the river.

To address this concern, the developer proposes a cut-and-fill plan for the site and the construction of a detention basin to properly manage stormwater on the site. The site

stormwater management plan would provide: 1) treatment of contaminants and sedimentation at the source via drainage structures that incorporate oil/water separation, 2) the incorporation of an additional water quality pre-treatment mechanism prior to discharge into the site detention basin, 3) a detention basin with a capacity to accommodate a 10 year event which would meter the water flow rate into the Rouge River, and 4) a maintenance plan to assure the long-term success of the plan.

The Michigan Department of Environmental Quality has granted a permit for the cut and fill activity proposed in the 100-year floodplain and for construction of the detention basin. The Wayne County Rouge Project Office has also provided a letter indicating that the proposed stormwater system can improve the quality of storm water and reduce peak flows for this portion of the Rouge River.

The City's Department of Environmental Affairs has submitted a "Summary of Findings and Determination Regarding the Bonnie Brook Site". That report concludes that the proposed development would: 1) not increase the peak discharges from the site for the 100-year storm event and 2) not increase downstream peak flows and levels for the 100-year storm event.

The Detroit Water and Sewage Department (DWSD) provided information on the historical flooding problems in the area. DWSD conducted a preliminary review of its complaint records from residents surrounding the proposed development. The department determined that the majority of the complaints on record were caused by private problems.

#### ***Berg Lahser Community Association Area Flooding Survey***

Marilyn Southern, President of the Berg Lahser Community Association, submitted a survey to the Commission that polled area residents on whether flooding of their yards and/or basements had occurred. Seventy-eight (78) area residents were polled, of which 21 were found to reside within 300 feet of the Bonnie Brook Golf Course.

Of these 21, 12 (57%) reported flooding in their basements and/or yards. Of the same 21 residents polled, 10 reside along Cherokee, adjacent to the golf course. There are a total of 15 houses on this portion of Cherokee. Seven of the 10 Cherokee residents polled experienced flooding.

The community survey was compared to the DWSD's complaint record. Mr. Health indicated that DWSD has not had any recent complaints from households on Cherokee. The department recorded only seven complaints since 1994, five of which were private matters. He noted that the sewer system was recently rehabilitated in that area.

#### ***Detention Basin Concerns***

The Commission raised a concern at the public hearing relative to the potential of odor and mosquito infestation as a result of the water in the detention basin. The developer indicated that the basin would be designed so as to not cause offensive odors or the harboring of mosquitos. If such nuisances should occur, the developer would take the necessary measures to address the issues.

#### ***Adequacy of Parking***

Currently, the existing Zoning Ordinance parking requirements are under consideration to be amended to be more consistent with industry parking standards for large-scale commercial developments. At this point, the national parking standards would be a more appropriate mechanism to determine the number of parking spaces needed for the Super Kmart building. Based on the national parking standard for large-scale commercial developments (5 parking spaces per 1,000 square feet of building), the Super Kmart store would require 715 parking spaces. The plan calls for 659 parking spaces primarily serving the Super Kmart building. The proposed development would be deficient by 56 parking spaces of the national parking standards.

The three outlots would require 145 parking spaces, based on the total area of the outlots being the maximum 18,000 square feet for two standard restaurants and one retail/service use. The proposed plan calls for 208 parking spaces for the three outlots. The proposed development would exceed the required parking spaces for the outlots by 63 parking spaces.

Based on the above data and considering the overall parking available at the site, the Commission believes that the proposed number of parking spaces is adequate for the proposed development.

#### ***Shiawassee Residents' Issues***

The developers met with residents on Shiawassee to address their concerns relative to the proposed development. The residents of Shiawassee requested that the developer address security, roadway, and screening concerns. The developer has agreed to the following:

1. Include a 6 foot high wooden stockade fence on Shiawassee subject to the approval of the residents;
2. Include six, 6-foot evergreen trees to buffer the detention basin from the Shiawassee residents;
3. Provide a light pole on the Kmart property parking lot closest to Shiawassee for security purposes;

4. Include a turnaround at the Shiawassee and Kmart property intersection; and
5. Pave Shiawassee between the Kmart property line and Frisbee.

**Bus Service to the Proposed Development**

In response to an issue raised at the hearing concerning the lack of public transportation to the site, the Detroit Department of Transportation (DDOT) indicated that several existing nearby bus routes could be altered to provide service to the proposed Kmart site. The department would also explore creating a new route along Telegraph Road.

**Conclusion**

The Commission believes that the developer of the Super Kmart center has made a number of changes to address many of the concerns raised by the Commission and area residents. The developer has improved circulation in and around the site, made provisions to protect the adjacent Hidden Pines Apartment complex from noise and lights, improved the appearance of the property from Telegraph Road and neighboring properties, and ensured proper stormwater management controls. Changes have been made to address the concerns of the Shiawassee residents, as well.

In addition, the Commission believes that the stormwater runoff from the proposed development would not have an adverse effect on the existing conditions of the Rouge River and water system due to the construction of the detention basin.

**Recommendation**

The City Planning Commission recommends approval of the requested amendment of the Detroit Master Plan of Policies and of the rezoning and development with the following conditions:

1. That the site plan and elevations be revised to show the following:
  - a. Prohibition of uses with drive-through windows on any of the outlots, that approval of the outlots is conceptual only, and that final site plans and elevations for the outlots are subject to site plan review and approval by the City Planning Commission;
  - b. Inclusion of details of extensive landscaping on the perimeter of the site, and retention of existing trees, where possible, to increase the development's compatibility with the adjacent residential complex and golf course;
  - c. An indication that the exterior building facade will be constructed with textured concrete block which simulates a red brick color; and
  - d. An indication that the roof panel color will be a hunter green or comparable color;
2. That light shields be installed along the southern property line in the area adjacent to the Hidden Pines Apartment complex so as to not disturb the adjacent residential community; additionally, that light shields will be installed on light standards at the time any adjacent area is developed for residential;
3. That truck deliveries be restricted to between 6:00 A.M. and 10:00 P.M. for semi-trucks and between 5:00 A.M. and 11:00 P.M. for other truck deliveries; additionally, that there be no standing or parking of trucks with engines running along the south entrance road between the hours of 10:00 P.M. and 6:00 A.M.
4. That the hours of operation for the compactor waste bin exchange be restricted to between 6:00 A.M. and 10:00 P.M.;
5. That trucks be required to enter the site via the southernmost driveway and exit via the northernmost driveway of the Super Kmart development;
6. That employees be required to park along the southern property line, adjacent to the south line of the buildings, and in the area to the rear of the building along the eastern property line;
7. That a security patrol be provided to canvass and monitor the parking lot;
8. That a commitment be made to make a location available for a Detroit Police Department mini station on site, if this is of interest to the City and community;
9. That the proposed roadway modification and traffic signal along Telegraph be approved by the Michigan Department of Transportation;
10. That the specific siting of the southern outlot be determined at the time of the submittal of plans for the development of that outlot; and
11. That final site, elevation, and landscaping plans be submitted to the City Planning Commission staff for review and approval for consistency with the preliminary plans approved by the City Council, prior to or at the time of application for a building permit.

The amendatory ordinance to effectuate this recommendation is attached for your consideration.

Honorable City Council:

Re: Griswold Place (#2620), requesting an amendment to the construction of an overhead pedestrian bridge between One Kennedy Square and proposed parking structure in the area of Shelby, Griswold, W. Fort, and W. Lafayette (Recommend Approval).

On October 5, 2000 your Honorable Body requested the City Planning

Commission staff to review the above-captioned petition and the resolution from the City Engineering Division approving this request. Below is our report and recommendation.

On November 13, 1991, your Honorable Body approved a request of Kirco Realty and Development, Ltd. to construct and maintain an overhead pedestrian bridge encroachment between One Kennedy Square and what was at that time a proposed parking structure in the block bounded by Shelby, Griswold, W. Fort and W. Lafayette.

Although the parking structure has been built, the pedestrian bridge has not. The properties are now owned by Griswold Properties, LLC. The owner now wishes to proceed with the pedestrian bridge and is requesting City Council approval of assignment of the rights to construct and maintain the pedestrian bridge and a change in the elevation of the bridge. The pedestrian bridge was originally to connect the garage's fourth level and the building's third level. The owner is now proposing to connect the garage's third level with the building's second level. The change is proposed because the owner intends to renovate the second level of the building (now known as Griswold Place) into a mezzanine level, and it would be more appropriate to bring people in from the parking structure into this public space overlooking the lobby.

The City Planning Commission staff has reviewed this request and the resolution submitted by the City Engineering Division and recommends approval. The change in elevation should not negatively impact the surrounding buildings or area. Also, the resolution leaves in tact the conditions that the Planning and Development Department and the City Planning Commission are to review and approve the materials, color, and general appearance of the bridge encroachment, and that no advertising is to be displayed on any part of the bridge encroaching overhead across public property.

Please let us know if there are any additional questions regarding this matter.

Honorable City Council:

Re: Petition No. 2620 Amended Resolution, Griswold Place (Griswold Properties, L.L.C.) requests the construction of an overhead pedestrian bridge between One Kennedy Sq. and proposed parking structure in the area of Shelby, Griswold, W. Fort and Lafayette.

The requested Petition of Griswold

Place (Griswold Properties, L.L.C., 719 Griswold Street, Suite 2330, Detroit, Michigan 48226) was previously granted by City Council as Petition No. 61 of "Kirco Realty & Development, Ltd." Requesting to construct and maintain an overhead pedestrian bridge encroachment between One Kennedy Square and a proposed parking structure in the block bounded by Shelby, Griswold, W. Fort and W. Lafayette on November 13, 1991 (J.C.C. Pgs. 2473-75).

However, a change in ownership of the properties involved, from Kirco Realty & Development, Ltd. to Griswold Properties, L.L.C., 719 Griswold Street, Suite 2330, Detroit, Michigan 48226 and a change in the elevation of the overhead pedestrian bridge encroachment will require an "amendment" in the adopted City Council encroachment resolution.

An appropriate resolution, amending the previous grant, is attached for consideration by your Honorable Body.

Respectfully submitted,

SUNDAY JAIYESIMI

City Engineer

City Engineering Division — DPW  
By Council Member Scott:

Paragraph 11 - "Provided, That all costs incurred by the Detroit Edison Company (DE Co.) to adjust and/or relocate their existing double column transformers on platforms, located in close proximity to the overhead pedestrian bridge encroachment, shall be borne by the petitioner (in accord with the terms and conditions of an agreement between "DE Co." and "Kirco Realty and Development, Ltd."); and further"

Paragraph 12 — "Provided, That all costs incurred by the Federal Reserve Bank to protect and secure their building, located in close proximity to the overhead pedestrian bridge encroachment, shall be borne by the petitioner (in accord with the terms and conditions of an agreement between "Federal Reserve Bank" and "Kirco Realty and Development, Ltd."); and further"

### Planning & Development Department

October 4, 2000

Honorable City Council:

Re: CDBG Reprogramming — MCA/RIMCO Properties Project.

HUD has not yet approved our request for amendment of the Detroit Development Projects Section 108 Loan application to provide a \$10,000,000 Section 108 loan for the MCA/RIMCO Properties Project.

Although we anticipate approval of the amendment, it is unlikely that approval will occur before November and that Section 108 loan funds will be available before December, 2000.

Thus, since we need funding to cover current costs of this project, I am requesting your approval to reprogram \$3,300,000 Community Development Block Grant (CDBG) funds to this project from the following projects and activities:

- Art Center/Medical Center UDI Improvements \$1,000,000
- Citizen District Council Planning Unprogrammed 800,000
- Jefferson Chalmers NSA New Housing 550,000
- Jefferson Chalmers NSA New Infill Housing 250,000
- Michigan Avenue Community Org Facility Rehab 200,000
- Mid City New Housing 500,000
- TOTAL \$3,300,000

I am requesting that funds be reprogrammed from these project activities because there is no expectation that these funds will be needed for these project activities in the near future. Moreover, HUD insists that CDBG funds be spent in a timely manner and that no more than 1.5 times the current entitlement be unspent on April 30, 2001. This reprogramming will help us to meet the HUD spending criteria.

The MCA/RIMCO funds will be used for a variety of activities including costs related to the acquisition of the properties, management and maintenance of the properties to protect current tenants and to preserve neighborhoods, rehabilitation of the properties, costs related to the sale of the properties to current residents or others, and relocation costs when necessary due to sale, rehabilitation, or HUD regulation.

As required by HUD regulations, a notice of this proposed reprogramming was published in the Michigan Chronicle on September 13, 2000. A copy of the notice was attached to my September 1, 2000 letter to you regarding RIMCO. The notice was also sent to the citizen district councils affected.

Re: Southwest Housing Partners Project — 3615 W. Vernor — Payment in Lieu of Taxes (PILOT).

Southwest Non-Profit Housing Corporation, the Sponsor, has formed Southwest Housing Partners Limited Dividend Housing Association Limited Partnership. Southwest Housing Partners Project is financed under the City of Detroit — CHDO Investor Loan Program, Michigan State Housing Development Authority (MSHDA) Supportive Housing Program (SHP), HUD Supportive Housing Program, and Low Income Housing Tax Credits. Southwest Housing Partners Project located at 3615 W. Vernor consists of the rehabilitation of one (1) twenty-three unit building: 3 efficiency apartments, 9 1-bedroom, 1-bath apartments, 11 2-bedroom, 1 bath apartments.

In order to make the development economically feasible, it is necessary for the development to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346, as amended MCLA 125.1415A).

At least twenty percent (20%) or 5 of the units must be occupied by households having incomes no greater than 50% of the area median income, adjusted for family size. The remaining eighty percent (80%) of the units or 18 must be occupied by households with incomes that do not exceed 60% of the area median income,

adjusted for family size. These income restrictions will be in effect for the longer of the period of the Affordable Housing Restrictions apply or the time required under the Tax Credit Program.

Re: Coronado Apartments — Payment in Lieu of Taxes (PILOT).

Coronado Apartments was rehabilitated in 1993 with a loan of \$675,000 from the City of Detroit — Community Block Grant Funds, a loan from First of America in the amount of \$120,711 and \$898,000 in Low Income Housing Tax Credits and equity.

Coronado Associates Limited Partnership has been revised to form Coronado Associates Limited Dividend Housing Association Limited Partnership (LDHALP). A request for payment in Lieu of Taxes (PILOT) on behalf of this LDHALP has been submitted.

The project is bounded by Selden on the North, Brinard on the South, Second on the East and Third on the West. The project consists of twenty four (24) 2-bedroom, 2-bath units.

MSHDA has indicated that such developments receiving low income tax credits but no financing from the authority are eligible to receive tax abatement pursuant to Section 15a of Act 346 of the Public Acts of 1966 as amended.

In order to maintain the economic viability of the development; it is necessary for the development to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1966 (P.A. 346, as amended MCLA 125.1415A).

Honorable City Council:

Re: Implementation of Fringe Benefit Improvements for Police and Fire Department Executives.

It is the longstanding policy of the City of Detroit to pass on to Police and Fire Department executive ranks many of the compensation and fringe benefit improvements that are received by the unionized subordinate personnel. However, because of City Charter provisions, many of these benefit changes must be made by ordinance.

Due to the long time that has passed and the time which still appears necessary in order to complete the formal ordinance passage process, the executives have been and are being disadvantaged by their inability to utilize the benefits at this time.

Therefore, in accordance with the similar practice for unionized employees whose settled labor agreements require long periods of time to complete the formal signing and ratification process, we are recommending that your Honorable Body approve the attached schedule and resolution to provide for "interim entitlement" of these benefits for these executives.

Respectfully submitted,

ROGER N. CHEEK

By Council Member Cleveland:

Whereas, it is the longstanding policy of the City of Detroit to pass on to non-union Police and Fire Executives the fringe benefit changes received by their unionized uniformed subordinates, and

Now, Therefore Be It Resolved, that fringe benefit changes for non-union uniformed Police and Fire Executives shall be implemented in accordance with the foregoing communication and schedule, and be it further

Resolved, That the Finance Department is hereby authorized to honor payrolls and vouchers in accordance with the foregoing communication, this resolution, and standard City procedures,

Honorable City Council:

Re: Proposed Resolution for DDOT Fare Reduction on Thanksgiving Day, Thursday, November 23, 2000.

We are submitting the above-referenced resolution to your Honorable Body for consideration. This proposed resolution will authorize the Detroit Department of Transportation to charge a reduced promotional fare of one dollar (\$1.00) on all regular bus and shuttle routes in conjunction with, and in support of, the annual America's Thanksgiving Day Parade on Thursday, November 23, 2000..

This proposed resolution is submitted to your Honorable Body pursuant to Section 58-4-7(c) of the 1984 Detroit City Code, which provides that, upon approval of the Detroit City Council, the Detroit Department of Transportation may charge a reduced fare for a specified day. As defined in Section 58-4-1 of the 1984 Detroit City Code, a reduced fare is a promotional fare designed to encourage passengers to utilize bus services offered by the City of Detroit, and is at variance with the fare required to be collected. Student cash and ticket fares will remain at fifty cents (\$.50) and senior citizens and disabled persons will not be charged a fare on this day in accordance with Section 58-4-7(a) of the 1984 Detroit City Code.

We request that this proposed resolution be adopted at the next Formal Session of your Honorable Body. A waiver of reconsideration is requested.

We are available to answer any questions that you may have concerning this proposed resolution. Thank you for your consideration.

Whereas, the Detroit Department of Transportation desires to charge all day on Thursday, November 23, 2000 a reduced promotional fare of one dollar (\$1.00) in lieu of the regular adult fare of one dollar and twenty-five cents (\$1.25), as required by Section 58-4-7(a)(1) of the 1984 Detroit City Code;

Whereas, the student fare will remain at fifty cents (\$.50), and senior citizens and disabled persons will not be charged a fare on this day in accordance with Section 58-4-7(a) of the 1984 Detroit City Code; and

Whereas, a reduced fare for the America's Thanksgiving Day Parade on Thursday, November 23, 2000 will encourage potential passengers to use Detroit Department of Transportation bus services and will encourage citizen participation in this annual holiday event.

Now, Therefore, It Is Resolved, that, in observance of the America's Thanksgiving Day Parade, the Detroit City Council authorizes the Detroit Department of Transportation to charge a reduced fare of one dollar (\$1.00) all day on Thursday, November 23, 2000 in lieu of the regular adult fare of one dollar and twenty-five cents (\$1.25), as required by Section 58-4-7(a)(1) of the 1984 Detroit City Code.

Re: Request for Coquillard/Dundon/Peterson and Argenta Inc., on behalf of Old Redford Academy, for modification of plans in a PD (Planned Development District) zoning classification generally bounded by Grand River, Redford Ave., and Lamphere (extended), to allow the construction of a twelve-classroom addition. (Recommend Approval).

### REQUEST

Coquillard/Dundon/Peterson and Argenta Inc. (architect), on behalf of Old Redford Academy, has requested to modify the plans in an existing PD (Planned Development District) zoning classification occupied by the Old Redford Academy. Old Redford Academy is a charter school operating on property owned by the adjacent Redford Lutheran Church. The revisions have been requested to permit the construction of a twelve-classroom addition and alterations to the existing Old Redford Academy building. An existing garage is also proposed to be demolished. The district is generally bounded by Grand River, Redford Ave., and Lamphere (extended). Also included in the PD district is an apartment building immediately to the west on W. McNichols. No modifications to this building are proposed at this time.

### PROPOSED MODIFICATIONS

The modifications would facilitate the construction of a twelve-room, two-story classroom as an addition to the existing school building. The total gross floor area of the addition would be 18,473 square feet. The building would have a flat roof, and the walls would be of reddish-colored brick to match the existing building. There would be windows for each classroom.

In addition, the existing frame garage on the site would be demolished and two portable classrooms would be relocated. The remainder of the proposed site is presently predominantly gravel and sand.

### SURROUNDING LAND USE AND ZONING

To the North — Single-family residential — R1

To the South — Single-family residential, Redford Presbyterian Church, and commercial (auto repair facility and vacant storefronts) — R1 and B4

To the East — Redford Lutheran Church, parking for Redford Presbyterian Church, and commercial (retail stores) — R1, PD, and B4

To the West — Residential, both single and multi-family — PD and R1

At the August 3, 2000 public hearing before the City Planning Commission, there were no speakers from the general public. The petitioner or the representative from the school answered all the questions asked by the Commissioners. They responded that the school has been a charter school for 1-1/2 years prior to which a parochial school had operated at the site for 75 years. It was also noted that the students predominantly come from the surrounding area and that the community has not objected to the school in the past. It was indicated that financing for the addition is in place and construction is slated for October 2000.

**ANALYSIS**

It appears that the development is consistent with the intent of the PD district and the Master Plan. There is no indication that specific plans were approved when this PD district was adopted, but the addition is consistent with the existing development on the site. The Future Land Use designation for the site is RL (Low Density Residential) which does allow for schools. According to the Planning and Development Department, the proposed development conforms to the recommended land use designation and conforms to the intent of the Master Plan of Policies for "RL" Low Density Residential (see attached letter from P&DD).

Parking also appears to be adequate, as 53 spaces are available on the site shared by the school and the church, which would have varying parking demand times. At the most, the school itself would be required to have 36 parking spaces under the general Zoning Ordinance provisions.

The design of the addition would complement the existing school building and would be compatible with the surrounding structures.

**RECOMMENDATION**

The City Planning Commission finds the requested PD modifications consistent with and complementary to the existing and surrounding development. Therefore, the Commission recommends approval.

Honorable City Council:

Re: **Master Plan of Policies** and Zoning Review of a proposed twelve-classroom addition and alteration to the existing Old Redford Academy building in the vicinity of Redford and Grand River Avenues.

**Master Plan Review**

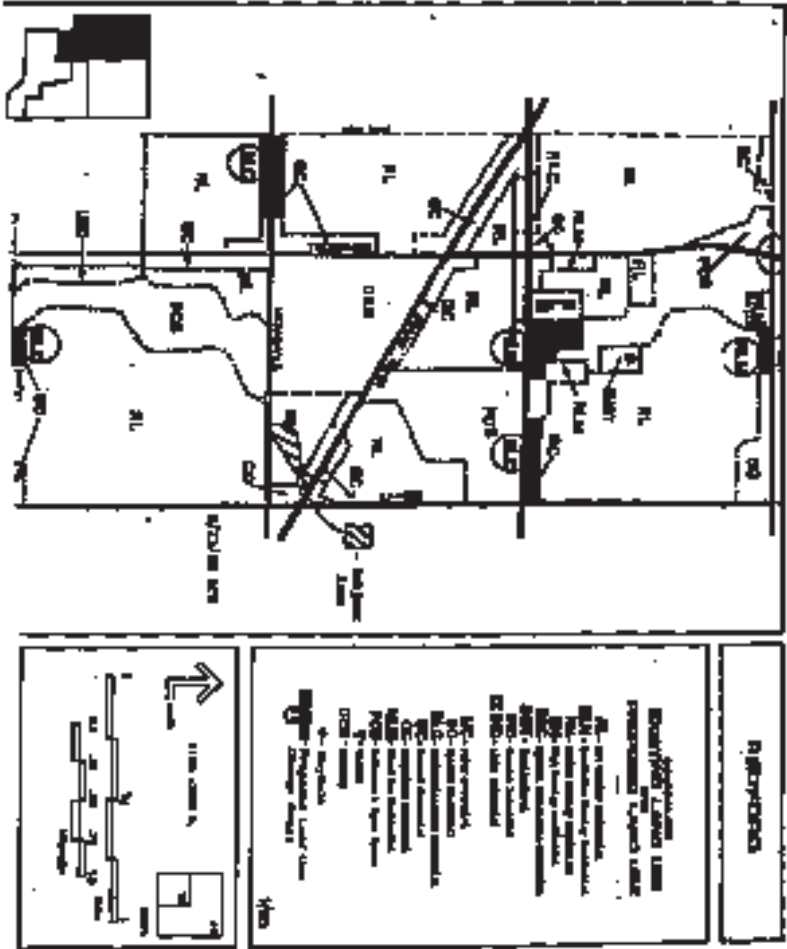

The Planning Section has reviewed the site plan drawn by Coquillard/Dundon/Peterson and Argenta, Inc. and dated June 16, 2000 showing the construction of a twelve-classroom addition and alterations to the existing Old Redford Academy building along with the demolition of an existing garage. The petitioner, Coquillard/Dundon/Peterson and Argenta, Inc. on behalf of Old Redford Academy, has requested to modify an existing PD (Planned Development District) zoning classification at this private elementary school site in northwest Detroit to accommodate the aforementioned project. There are no specific approved plans for the existing PD zoning district, which also includes an apartment building immediately west on West McNichols, as it was rezoned to PD as a part of the comprehensive City-wide rezoning conducted in 1968.

The subject area, which covers an area of approximately 3.57 acres, is shown on the attached map. The subject area is generally bounded by Grand River Avenue, Redford Avenue, and Lamphere Avenue (extended). Presently, the **Master Plan of Policies**, West Sector, Redford Subsector Map #310-6 shows the subject area is designated as "RL" Low-Density Residential. The proposed development conforms to the recommended residential land use designation and conforms to the intent of the **Master Plan of Policies** for "RL" Low-Density Residential.

**Zoning Review**

The site plans as submitted address the concerns of ingress/egress by utilizing the existing curb cuts on Grand River Avenue. The addition of the classrooms only should not create more traffic and congestion than what normally occurs at school sites throughout the city. The setback of this proposal is good and is in keeping with the adjacent properties. The proposal also does not reduce the outdoor play area; however, the school may have to stagger the play period to accommodate the additional children. With these items reviewed, the Planning and Development Department recommends approval of this PD modification.

**City Planning Commission**

November 9, 2000

Honorable City Council:

Re: Request of Detroit Symphony Orchestra to modify the approved plans for a portion of the existing PD (Planned Development District) zoning classification generally bounded by Woodward, Selden, Cass and Davenport to allow for the expansion of Orchestra Hall into a 134,000 square foot performing arts/educational/office center. (Recommend Approval).

**NATURE OF REQUEST**

The Detroit Symphony Orchestra (DSO) proposes a 134,000 square foot expansion of Orchestra Hall including 15,000 square feet of new office space, a 12,000 square feet Music Education Center, and a new 550-seat auditorium for the exclusive use of the DSO. Other modifications include the physical separation of the expanded Orchestra Hall from the future High School for the Fine and Performing Arts, which would have its own 800-seat auditorium to be used exclusively by the High School. This represents Phase II of the Orchestra Place project that was approved as a Planned Development (PD) district for land bounded by Woodward, Cass, Selden and Davenport in 1996.

The Orchestra Place development currently consists of an office/retail building and a parking deck. The approved plans for the portion of the PD district north of Parsons allow for Phase II of Orchestra Place, a performing arts/educational/office center, and include a 71,800 square foot expansion of Orchestra Hall that would adjoin a new High School for the Fine and Performing Arts. The approved plans also call for an 800-seat auditorium to be shared by the DSO and the proposed High School for the Fine and Performing Arts.

The 71,800 square foot expansion of Orchestra Hall approved in 1996 included an enlargement of lobby space for patrons, musician and guest artist rooms and general support space (restrooms, personnel, storage, etc.). DSO is also proposing to restore the storefront design to historic Orchestra Hall. Approximately 650 square feet will be provided for DSO related retail gift sales. The retail component was also approved as part of the initial 71,800-expansion proposal.

**PROPOSED DEVELOPMENT**

The proposed modification would affect only the portion of the Orchestra Place that is bounded by Woodward, Parsons, Selden and the north south alley west of Woodward (see attached map). Orchestra Hall is proposed to expand into what is now a park at the southwest corner of Woodward and Selden. DSO currently owns the parkland. The proposed expansion will include:

1. A 15,000 square foot, 550 seat auditorium,
2. A 12,000 square foot Music Education Center,
3. 15,000 square feet of DSO administrative offices,
4. 4,000 square feet of lobbies within two additional stories, and
5. 16,200 square feet of building systems and circulation.

DSO currently occupies roughly 10,000 square feet of office space within the Phase I Orchestra Place office development. DSO proposes to relocate from this space into the newly expanded Orchestra Hall.

The proposed development would consist of three attached buildings with the three main entrances to be located off of Woodward at the existing Orchestra Hall, the new lobby and box office and at the Music Education Center. The lobby and box office entry will lead to several lounges and dressing rooms, box office/tickets, and other private spaces. Entry into the Music Education Center would lead to the 550-seat auditorium, a rehearsal hall and practice rooms.

Musicians will enter through the rear via the stage door located off of the north south alley west of Woodward Ave. (the northern half of this alley has been vacated and is currently owned by DSO). Streetscape improvements would be provided along Woodward and Selden consisting of new sidewalks, benches and landscaping.

A loading area would exist off of the north south alley west of Woodward at Selden. The loading area is designed to allow for vehicular circulation through the vacated alley when needed, while accommodating parking for large trucks.

The exterior material would consist of pressed clay brick similar to what is found on the historic Orchestra Hall facade,

bronze anodized aluminum windows, and limestone and bronze panels. The developer indicates that the colors would be consistent with the surrounding buildings. A color rendering of the elevations should assist in the review of these details.

**MASTER PLAN ZONING AND LAND USE**

The Master Plan calls for Special Residential Commercial (SRC) for the site. It suggests that the area be retained as a mixed-use area, including small housing units, commercial and institutional uses.

The zoning classifications and land uses surrounding the affected area are as follows:

*North:* B4 (General Business) — commercial uses and vacant office

*South:* PD — Phase I of Orchestra Place including a five story, 170,000 square foot office/retail building and a three story 170,000 square foot parking deck

*West:* PD — vacant land and the proposed site for High School for the Fine and Performing Arts and R6 (High Density Residential) — St. Patrick's Church, a senior center, a mini-park and Casgrain Hall (Multi-story housing)

*East:* PD — Multi-family housing and commercial uses

**PARKING ANALYSIS**

The only concern related to this project is the adequacy of parking in the area, given the current and proposed development activity. It was estimated that the peak parking demand for the entire Orchestra Place project, including the future high school, would be for 1,268 spaces, but this assumes 75 spaces for the proposed high school and 20 spaces for the Music Education Center (even though students are expected to be bused in), and usage of both auditoriums at the same time. Retail parking needs should not be considered as having to adhere to the ordinance in that most patrons visiting the retail space will more than likely be there for Orchestra Hall events. Therefore, the retail parking needs were considered negligible.

A total of 1,194 spaces were identified as available for parking during the day in the vicinity of the proposed development. This includes roughly 200 spaces that would be available during the day at the off-street parking lot across the street at the southeast corner of Mack and Woodward (roughly 400 spaces would be available at night). If necessary, another 121 spaces could be counted from available on-street parking; however, much of this parking would be needed for adjacent businesses during the day. At night, the parking supply increases for DSO, as parking needed for office workers on site, on the street and across the street would be in less demand and available to DSO.

DSO has acquired land on Cass between Parsons and Davenport providing, in the short-term, roughly 125 spaces.

Although the DSO is proposing a second 550-seat auditorium, they indicate that operationally they will not run both auditoriums at the same time during the critical parking periods during the day. The Music Education Center patrons are likely to be bused in, i.e., most of the children/patrons using the center will be bused in during the day. Buses normally would not stay on site, but in the event they do, there is space available for parking in one of DSO's off-street lots. The heaviest use for the rehearsal hall within the Music Education Center is expected to be on Saturday when the parking demand will be at its lowest. Other usage of the Music Education Center would occur during the week but would involve interaction with other uses within the development and, therefore, would not add to parking demand.

**RECOMMENDATION**

The City Planning Commission recommends approval with the condition that the final elevations, site plan, signage and landscaping plan be submitted to City Planning Commission staff for review and approval for consistency with drawings dated July 24, 2000.

It has come to our attention that the Mack Avenue right-of-way was not clearly described in the original legal description as adopted by the Detroit City Council in the resolution.

November 13, 2000

Honorable City Council:

Re: Petition No. 2221-Part 2, Planning and Development Department requests for certain rights-of-way changes for the Compuware Development Project

On January 11, 2000, the Planning & Development Department requested your Honorable Body to vacate certain streets and alleys and establish various easements in the vicinity of Woodward, Campus Martius, Gratiot, Randolph and Monroe as necessary to implement the Compuware Headquarters development project. In response to this request, designated Petition 2221, the Department of Public Works, City Engineering Division, submitted a report and proposed resolution to your Honorable Body on July 13, 2000, which your Honorable Body adopted on July 21, 2000. However, that resolution did not eliminate the restrictions previously placed on the use of Gratiot Avenue and State Street.

On July 20, 1977, JCC page 1578, your Honorable Body had adopted a resolution permanently closing State Street between Woodward and the alley first west of Woodward, and Gratiot Avenue between Woodward and Farmer Street, to all traffic except emergency vehicles to facilitate construction of the "Woodward Avenue Plaza and Transitway." The current traffic plans for the area around Campus Martius and the Compuware Headquarters, as described in the Restated Compuware Development Agreement approved by your Honorable Body on July 21, 2000, require that these streets be reopened to vehicular traffic. Accordingly, it is necessary to rescind the 1977 resolution prohibiting vehicular traffic on these portions of State Street and Gratiot.

An appropriate resolution is attached for consideration by your Honorable Body. I am recommending adoption of the attached resolution.

Respectfully submitted,

SUNDAY JAIYESIMI

By Council Member Tinsley-Talabi:

Whereas, this City Council adopted a resolution on July 20, 1977, JCC p 1578, permanently closing State Street between Woodward and the north/south alley immediately west of Woodward, and

Gratiot Avenue between Woodward and Farmer Street, to all traffic except emergency vehicles; and

Whereas, it is the desire of the City of Detroit to proceed with the reopening of Gratiot Avenue and State Street to vehicular traffic; and

Whereas, said resolution is obsolete and therefore should be rescinded; therefore be it

Resolved, the resolution adopted by this City Council on July 20, 1977, JCC p 1578, permanently closing State Street between Woodward and the north/south alley immediately west of Woodward, and Gratiot Avenue between Woodward and Farmer Street, to all traffic except emergency vehicles, be and the same is hereby rescinded.
