**Resolution of the Detroit City Council in Opposition to the Development of an Auto Race Track at the Michigan State Fairgrounds**

By COUNCIL MEMBER K. COCKREL, JR.,  
Joined by ALL COUNCIL MEMBERS:

Whereas, On April 10, 2000 the State of Michigan State Fair Advisory Board approved a contract with the Nederlander Theatrical Organization to develop an entertainment complex, the "Fairgrounds Park"; and

Whereas, On April 12, 2000 Governor John Engler announced that the

“Fairground Park” is proposed as a \$200 million development project that includes renovation of five historic buildings, construction of an equestrian center and multipurpose livestock facility, up to six new theaters and a one-mile oval auto race track; and

Whereas, The proposed one-mile oval auto race track is intended to be suitable for NASCAR and ‘Indy’ style race cars, including the IMG Grand Prix which currently races one week each year on Detroit’s Belle Isle; and

Whereas, A coalition of community and neighborhood based organizations from Detroit and neighboring cities formed a coalition, I-CARE, in 1996-97 in opposition to a previous proposal for an auto race track at the State Fairgrounds, and is in opposition to the proposed auto race track for the newly announced “Fairgrounds Park” development; and

Whereas, The proposed auto race track activity will result in extraordinary noise pollution, traffic and crowd management issues, and constitutes an unwarranted invasion, disruption and taking of the peace and quiet enjoyment of the property interests of the homeowners, residents, property owners, businesses and activities of the communities in near proximity of the State Fairgrounds and the “Fairgrounds Park” Development, and negatively impacts upon the zoning interests of the City of Detroit; and

Whereas, The Detroit City Council was in opposition in 1996-97 to the then planned auto race track, and remains in opposition to any new proposal that includes auto races at the State Fairgrounds, due to the extraordinary and unabated noise pollution that is inevitable from the NASCAR and “Indy” style cars that are expected to race the proposed track at least seven (7) times a year; and

Whereas, The communities surrounding the proposed “Fairgrounds Park” include some of the most stable and demographically diverse communities in Metropolitan Detroit — consisting of many historic homes, senior housing, thriving neighborhoods and businesses, and community based activities that will be negatively impacted by the noise emissions, traffic, and crowds generated on auto race days from the proposed “Fairgrounds Park” auto racing activities; and

Whereas, The right to peaceful use and quiet enjoyment of one’s property is a fundamental principal of law in the State of Michigan; and the interest of the City of Detroit to preserve and protect its neighborhoods through its local zoning laws and policies is fundamental to home rule cities; Now Therefore Be It

Resolved, That the Detroit City Council strongly opposes the auto race track pro-

posal in the “Fairgrounds Park” development as it impacts the neighboring communities with noise pollution, traffic congestion, crowd control and attendant environmental issues; and Be It Further

Resolved, That this City Council asks that the Nederlander Theatrical Organization, Governor Engler, both Houses of the Michigan State Legislature, including the Detroit, and Metropolitan Detroit representatives of the other impacted neighboring cities of Ferndale and Hazel Park, the Michigan State Fair Advisory Board, the Director of the Department of Agriculture, John Hertel, General Manager of the State Fairgrounds act to immediately reconsider the proposed auto race track component of the “Fairgrounds Park” development; and Be It Further

Resolved, That this City Council formally requests that SEMCOG undertake an environmental impact analysis of the proposed “Fairgrounds Park” development as it may affect the region; that the Mayor cause a study to be completed by the appropriate city agencies (including Law, Planning and Development, Environmental Affairs, and Department of Public Works/Traffic Engineering) of any legal, planning, and environmental issues that may be applicable to the City of Detroit; that the Mayor cause a study of this proposal to ascertain whether any other race track exists or is proposed in other established urban communities in this country and how it impacts the surrounding communities — including existing housing, institutions and businesses, traffic management, crowd control, noise abatement and other environmental factors that will affect the cities of Detroit, Ferndale and Hazel Park, Highland Park, Hamtramck, Royal Oak and Pleasant Ridge; and Be It Finally

Resolved, That the City Clerk is directed to immediately transmit a copy of this resolution to the Mayors and City Councils of Ferndale, Hazel Park, Royal Oak, Pleasant Ridge, Highland Park, and Hamtramck, the Wayne County Commission, Hon. Dennis W. Archer, Hon. John Engler, all members of both Houses of the Michigan Legislature, Marge Malarney — Lansing lobbyist for the City of Detroit, the Michigan Municipal League, SEMCOG, the Director of the Michigan Department of Agriculture, the State Fair Advisory Board, John Hertel — General Manager of the State Fairgrounds, Joseph Nederlander — Nederlander Theatrical Organization, Phyllis A. James — Corporation Counsel for the City of Detroit, Paul Bernard — Director of Planning and Development, Sarah Lile — Director of Environmental Affairs, and Stephanie Green — Interim Director Department of Public Works/Traffic Engineering.

Honorable City Council:

Re: Introduction of "Citywide Billboard Ordinance".

Attached hereto is the proposed Citywide Billboard Ordinance approved as to form by the Law Department. At the third discussion of this ordinance on March 17, 2000 and again as a line item on April 27, 2000, your Honorable Body directed that the ordinance be introduced as soon as it was approved as to form by the Law Department. **The ordinances are ready to introduce at the formal session of Wednesday, May 3, 2000.**

City Planning Commission (CPC) recommends that the City Clerk include the CPC reports of October 21, 1999 and March 2, 2000 along with the text of the amendments to Chapter 3 (Advertising) and Chapter 61 (Zoning). In this way the *Detroit Legal News* notice of public hearing as well as the *Journal of City Council* will reflect the proper legislative history for this proposed ordinance.

Because two separate Chapters of the City Code are being amended the Clerk should schedule back-to-back public hearings with the hearing on Chapter 61 (Zoning) coming first and the hearing on Chapter 3 (Advertising) following that.

Depending on Council's preference, two time slots are possible for the hearing: Monday May 22, 2000, 11:00 A.M. after the hearing on the "Privatization Ordinance" or Thursday, June 8, 2000, 10:00 A.M.

Honorable City Council:

RE: Proposed "Citywide Billboard Ordinance" (RECOMMEND APPROVAL)

Submitted herewith is the City Planning Commission (CPC) report and recommendation on the proposed Zoning Ordinance text amendment that would establish further restrictions on advertising signs within the City of Detroit.

**BACKGROUND**

On July 12, 1999 Your Honorable Body reintroduced the "Billboards inside the Boulevard" ordinance which was subsequently enacted as Ordinance No. 22-99. That same day City Council directed CPC staff to prepare a billboard regulatory ordinance that would apply citywide. The attached ordinance responds to that request.

**SCOPE OF THE ORDINANCE**

If adopted, the proposed ordinance would allow for the continued decrease in the number of billboards throughout the City and for the placement of new advertising signs that would be smaller in sign face area, and shorter in height than those commonly erected today. In most cases, new billboards would be subject to public notification and comment requirements.

The proposed ordinance contains nine main provisions:

**1. Special land use basis**

Designates advertising signs as a special land use in the B2, B3, B4, B5, B6, M1, M2, M3, and W1 zoning districts and as a matter of right use in the M4 and M5 districts. (*Sections 92.0180, 92.0380, 93.0180, 93.0380, 94.0180, 94.0380, 95.0180, 95.0380, 96.0180, 96.0380, 101.0180, 101.0380, 102.0380, 103.0380, 104.0180, 116.0900, 130.0224, 130.0501*)

**2. Special land use criteria**

Requires the Buildings and Safety Engineering (B&SE) Department to make a finding that a proposed advertising sign does not impair the traffic safety of motorists and pedestrians based on the recommendation from the Department of Public Works (DPW), Division of Traffic Engineering. It also requires the B&SE to find that a proposed advertising sign will not be detrimental to environmental aesthetics, based on the recommendation from the Planning and Development Department (P&DD). A landscaped area may be required at the base of the advertising sign, based on the recommendation of the P&DD. (*Sections 130.0224A and B and 130.0226*)

**3. Spacing between advertising signs**

Increases the spacing between advertising signs oriented to the same direction of traffic from five hundred (500) linear feet to one thousand (1,000) linear feet. Additionally, the method of measurement for linear spacing is clarified. (*Section 130.0212*)

**4. Height of advertising sign**

Specifies the height limitation on advertising signs as thirty-five (35) feet. Additionally, a fifteen (15) foot minimum height for the bottom edge of the sign face is newly specified. (*Sections 90.0700, 92.0700, 93.0700, 94.0700, 96.0700, 100.0700, 101.0700, 102.0700, 103.0700, 104.0700, 105.0700, 116.0700, 130.0201, and 130.0230*)

**5. Adjustments to advertising sign height**

The Buildings and Safety Engineering Department may consider heights in excess of 35 feet in the course of special land use hearings. Such height adjustments may be permitted for advertising signs farther than 150 feet from land zoned residential or residential Planned Development (PD) at the rate of one (1)

extra foot in height for each two (2) feet in setback from land zoned R1, R2, R3, R4, R5, R6, or residential Planned Development (PD) beyond 150 feet.

The maximum permissible height for advertising signs remote from residential is 45 feet when abutting rights-of-way less than 80 feet in width; 50 feet when abutting rights-of-way 80 feet or more in width; and 60 feet when oriented toward freeways. (*Sections 62.0402f, 130.0201e, 130.0201f, 130.0232*)

#### **6. Area of advertising sign face**

Limits the area of the sign face of an advertising sign to 250 square feet when abutting rights-of-way less than 80 feet in width; 378 square feet in area when abutting rights-of-way 80 feet or more in width; and 672 square feet when oriented toward freeways. These area dimensions may be increased as part of the special land use hearing when the advertising sign is set back farther than 150 feet from land zoned residential or residential Planned Development (PD).

B&SE may allow an increase in sign face area at the rate of one (1) extra square foot for each two (2) feet in setback from residential beyond 150 feet. The maximum sign face area permissible for advertising signs remote from residential is 378 square feet when abutting rights-of-way less than 80 feet in width; 672 square feet when abutting rights-of-way 80 feet or more in width; and 1,200 square feet when oriented toward freeways. Advertising signs having more than the allowable maximum sign face area could only be permitted by the Board of Zoning Appeals (BZA) as a dimensional variance. (*Sections 130.0201f, 130.0222, and 130.0232*)

#### **7. Spacing from historic districts**

The proposed ordinance would prohibit advertising signs within City of Detroit historic districts and mandate a 500 foot radial separation between historic district boundaries and any new advertising sign. (*Section 130.0216*)

#### **8. Setbacks from freeway**

Repeals the Chapter 3 (Advertising) setback provisions for advertising signs oriented toward freeways and restates those same provisions in Chapter 61 (Zoning) and shifts the public hearing authority for setback variances from the DPW Traffic Engineering Division to the BZA. (*Sections 3-1-2, 62.0402, and 130.0228*)

#### **9. Application filing requirements**

Requires a certified survey of the land within 150 feet of a proposed advertising sign to accompany the permit application for any advertising sign. Such a survey will specify the exact distance between the outermost point of the advertising sign and:

- any land zoned R1, R2, R3, R4, R5, R6 or residential PD;

- all lot lines on the zoning lot;
- the nearest edge of the traveled roadway of any freeway or freeway interchange ramp.

Additionally, a registered surveyor shall submit an affidavit indicating the exact distance between the outermost point of the advertising sign and:

- the nearest point of all other advertising signs within 1,000 feet measured linearly along all streets abutting the zoning lot;

- the nearest lot line of a school, park, playground, or City of Detroit historic district within a 500 foot radius; and,

- the nearest lot line of a zoning lot zoned R1, R2, R3, R4, R5, R6 or residential Planned Development (PD), if any, within a one-quarter (1/4) mile radius in the event an advertising sign is proposed to exceed the standard height or area limitations. (*Section 130.0218*)

### **RESULTS OF MEETINGS AND HEARINGS**

#### **Interdepartmental Meetings**

CPC staff convened four interdepartmental meetings with staff from B&SE, P&DD, BZA, Law, and DPW/Traffic Engineering who work with billboard regulations. This working group was able to identify trouble-areas with the 1993 Billboard Ordinance and recommend changes that would make administration and enforcement more efficient and effective.

#### **Outdoor Advertising Industry Involvement**

Shortly after the July 12th City Council discussion that triggered the preparation of the "Citywide Billboard Ordinance," CPC staff contacted the area's outdoor advertisers relaying Council's concerns and inviting their written comments. Some comment was received in mid-August prior to the meeting with the industry on August 20th. The industry meeting was scheduled midway through the interdepartmental review process so that initial concerns could be considered and addressed. As a result of the meeting, the interdepartmental team made changes in two key areas of the draft ordinance—sign height and size area. Bonus provisions were added to the ordinance that would allow for bigger and taller signs if they were located in areas more remote from land zoned residential.

#### **Results of the CPC hearing**

The City Planning Commission held a public hearing on the proposed ordinance on September 23, 1999. Representatives of P&DD, the Historic District Commission, and Health Department were present at the hearing and spoke in support of the proposed ordinance. DPW/Traffic Engineering conveyed its comments on the ordinance in its letter of September 20, 1999. Fourteen (14) oth-

ers either spoke at the public hearing or submitted comments for the record.

Nine people were in support of the proposed ordinance:

One supporter suggested that unfettered competition among outdoor advertisers has led to an undesirable environment and that regulation can be reasonable. She also pointed out the traffic hazard from the use of reflective materials on signs. She urged the restoration and preservation of historic business signs.

A second supporter pointed out that Paris, Washington, D.C., and Detroit were all designed by the same person but unlike the other two cities, Detroit shows no concern for aesthetics.

A third speaker in support commented that the ordinance was long overdue. She observed, as a real estate appraiser, the vast differences between outdoor advertising in different counties and that Detroit has been "used and abused." She suggested that the proposed ordinance would support the outdoor advertising business but noted that Detroit needs to improve its billboard enforcement.

A fourth supporter protested over the lack of notification for a large billboard constructed near her house and questioned whether it exceeded seventy (70) feet in height.

A fifth supporter pointed out that outdoor advertising is out of character near historic property, that it creates light pollution, and can interrupt view corridors. He urged that citizens have a voice in billboard cases. He observed that development decisions are often based on visual cues presented by the neighborhood and that cues, such as large billboards, can give developers pause. Finally he urged that the boundaries of the recently designated Gateway Radial Thoroughfare along Woodward Avenue be extended northward from Grand Boulevard to Euclid Avenue to accurately reflect the development patterns of the New Center.

A sixth supporter urged outdoor advertisers to not "inflict unsightly ads on the community." The speaker alluded to a Jefferson Avenue billboard next to a liquor store as an example of what is "horrible" about billboards.

Three organizations that did not attend the public hearing expressed their support for the ordinance in letter or by phone.

The five persons who appeared in opposition to the proposed ordinance identified themselves as outdoor advertising employees. Two companies, Outdoor Systems of Michigan and Vision Properties, submitted written versions of their testimony as well.

The general manager of an Outdoor Systems characterized the ordinance as "going too far" and leading to a "slow death." He reported that Outdoor

System's inventory recently decreased from 1,610 signs to a current 1,023. He proposed an alternate regulatory approach in order to allow outdoor advertisers to replace signs.

The representative of Vision Properties felt that the ordinance would eliminate so many City locations so as to be a "ban for the future" and that it could "create a monopoly by one company" along non-freeway thoroughfares. He asked whether a study was done preliminary to the ordinance and questioned the rationale for the dimensions specified in the ordinance. He urged compromise and recommended a study be conducted.

A third speaker in opposition to the ordinance lauded Outdoor Systems both as an employer and as a supporter of neighborhood causes. She indicated knowledge of the removal of some two hundred (200) billboards and posited that passage of the proposed ordinance would hurt her and her family.

A fourth speaker in opposition testified that the proposed ordinance threatened his job. He pointed out that billboards and bright lights are part of big city life and offered Times Square in New York City, the Strip in Las Vegas, and Sunset Strip in Los Angeles as examples of such vitality. He indicated that Outdoor Systems helps non-profit organizations and the City. He urged compromise rather than proceeding forward with the proposed ordinance.

A fifth opposing speaker, also from Outdoor Systems, spoke on behalf of a community leader whose non-profit organization has been supported by the outdoor advertiser.

#### **Outdoor Systems of Michigan's Alternate Approach**

Three outdoor advertisers, Adams Outdoor, Outdoor Systems, and Vision Properties have offered written responses to the drafts of the ordinance prepared by interdepartmental staff. Because of the specificity of its recommendations and its experience in the market, Outdoor Systems' alternate proposal merited special attention. The CPC has incorporated two of the thoughts recommended by Outdoor Systems.

**SPECIAL LAND USE.** Outdoor Systems recommended that billboards remain a "matter of right" use. The Planning Commission feels that "matter of right" uses are appropriate for non-controversial land uses and in certain situations. Billboards have been very controversial and have had measurable impacts on surrounding neighborhoods. Residents and organizations have argued that they deserve notification and a voice in billboard issues. Special land use hearings ensure both. Other major Great Lakes cities, such as Chicago and Milwaukee routinely mandate special land use hearings. However, the Commission also

notes that some zoning districts are typically more remote from land zoned residential than others, namely M4 (Intensive Industrial) and M5 (Special Industrial). In light of the proposed restrictions on height and area, the Commission determined that it would be appropriate to allow new billboards in the M4 and M5 districts to be processed as a "matter of right" use without benefit of a public hearing. Almost ten (10) percent of existing billboards are found in those two districts. The attached text, dated Oct. 21, 1999, reflects that compromise provision.

**SPACING.** Outdoor Systems has concurred in the proposed one thousand (1,000) foot spacing provision between billboards but disagreed with the original draft's provision that the measurement should be radial rather than linear. By comparison Cleveland, Ohio requires two thousand (2,000) feet between freeway billboards. While the Commission feels that radial measurement would be easier for B&SE staff to administer and would better protect areas where multiple thoroughfares converge, linear measurement between signs would afford outdoor advertisers greater flexibility in replacing obsolete or retired signs. The attached ordinance restores the linear measurement provision as an appropriate compromise. A clearer statement in the ordinance on the method of linear measurement between advertising signs should address some confusion that has arisen between the City and the industry on this issue.

**HEIGHT AND AREA.** The bonus height and bonus area provisions of the proposed ordinance have incorporated Outdoor Systems' suggestions on maximum dimensions although not to the extent that Outdoor desired. Outdoor Systems' recommendation would have allowed those maximum dimensions for freeway signs in every instance, as long as the existing minimum forty (40) foot setback from land zoned residential were observed. Staff research and public testimony both indicate that this has resulted in some enormous billboards towering over close-by residential neighborhoods. The proposed ordinance would reserve those maximum dimensions for the unusual, rather than the typical, land use situation. Cleveland and Chicago are more restrictive with regard to sign face area than what is proposed here. Staff observations along Eight Mile Road indicate that the significant trend of the past ten years has been toward fewer but much bigger and much higher signs. It would be inconsistent with the goal of the ordinance to incorporate Outdoor Systems' recommendation.

The Commission acknowledges the many positive contributions of Outdoor Systems and other outdoor advertisers

over the decades and, in particular, its continuing support of non-profit organizations and of the City itself. This proposed ordinance attempts to strike the appropriate balance between meaningful regulation and flexibility for the advertising medium.

#### **Provisions Not Changed**

The Planning Commission observes that some of the concerns of some industry representatives, that the proposed regulations might ban their business, may be exaggerated in light of what the proposed ordinance does not do:

No existing advertising sign would need to be removed because of the proposed ordinance.

Unlike Grand Rapids, Michigan's second largest city, billboards would continue to be permitted on land zoned commercial, not just industrial.

New advertising signs are not prohibited outside the Grand Boulevard, only subject to more stringent regulations—1,000 foot spacing will not eliminate billboard opportunities. If billboards were placed every 1,000 feet along Eight Mile Road, drivers would pass a sign every 17 seconds at 40 miles per hour along those stretches zoned business and industrial.

#### **CONCLUSION**

The proposed ordinance that the City Planning Commission voted to support on October 7, 1999 provides answers to the five basic concerns and complaints that citizens have taken to City Council and the Planning Commission regarding billboards:

- "There is no neighborhood input in zoning decisions for billboards."
- "Billboards interrupt views from buildings; billboards block motorist/pedestrian views of the skyline."
- "Billboards detract from the character of nearby historic districts."
- "There are too many billboards; billboards are too close together."
- "Freeway-size billboards are cropping up on surface streets."

Testimony at the September 23rd public hearing was significantly in support of the proposed provisions of the ordinance. Other municipalities—both those neighboring Detroit and other big cities in the Great Lakes area—have adopted similar provisions to those in the proposed ordinance. Changes have already been made in the ordinance to accommodate some of the concerns of the industry although in many instances, the interests of the City and the interests of industry remain in conflict.

In light of the preceding, the City Planning Commission respectfully recommends adoption of this Zoning Ordinance text amendment as an effective and balanced approach to a complex regulatory issue.

Your Honorable Body may wish to schedule the customary interdepartmental discussion on the proposed ordinance. In addition to the CPC, the City Clerk should invite B&SE, P&DD, Law, BZA, and DPW/Traffic Engineering.

Honorable City Council:  
 Re: Proposed "Citywide Billboard Ordinance," as Revised

This report expands upon earlier reports submitted by the City Planning Commission, dated October 21, 1999, January 11, 2000, and January 26, 2000.

**Results of Follow-up Meetings**

Per Your Honorable Body's discussion of January 11, 2000 and Line Item #9 of January 25, 2000, City Planning Commission (CPC) staff held follow-up meetings on the proposed "Citywide Billboard Ordinance" on January 31, 2000. At that time Council Member Hood and staff from Council Member Scott's and Cleveland's offices reviewed their concerns over the ordinance.

On the same date, CPC staff met with Amru Meah, Deputy Director of the Buildings and Safety Engineering (B&SE) Department to discuss his department's concerns over administration and enforcement of the proposed ordinance. Additionally, CPC staff has continued examining questions from Manilal Patel and Hani Dickow of the Traffic Engineering Division of the Department of Public Works.

**Proposed Revisions to Ordinance**

Consequently, CPC staff has prepared six (6) revisions to the proposed ordinance in response to Council and departmental concerns and has proposed a billboard permit tracking system for B&SE's consideration. The six revisions are as follows:

- Change the proposed basis on which B&SE issues advertising sign permits in the B5, B6, and M3 zoning districts from "permitted with approval" to "matter of right," thus retaining the historical allowance for billboard permits to be issued without the need for a public hearing in those three districts. (Sections 95.0180, 95.0380, 96.0180, and 96.0380 have been removed from and an amendment to Section 103.0180 has been included in the revised draft—City Council.)
- Change the proposed method of measurement of the spacing provision between advertising signs and schools,

parks, and playgrounds from radial to linear, thus retaining the provision established in the 1993 Billboard Ordinance. The spacing between advertising signs and City of Detroit historic districts would be measured radially as originally proposed. (*Section 130.0216 has been changed in the revised draft—City Council.*)

- Clarify the land use rights of advertising sign permit-holders and competitors for signage in the same area by specifying
  - 1- the life-span of all permits, not just advertising signs,
  - 2- the authority for B&SE to extend the life-span of permits,
  - 3- the notification requirement for "matter of right" permits that have been terminated, and
  - 4- the procedures for terminating permits issued pursuant to a zoning grant after a public hearing.

(*Amendments to Sections 40.0700 and 40.1700 have been included and Section 130.0212 has been expanded—B&SE.*)

- Specify that B&SE shall verify such items as are included in the affidavit of the registered surveyor. (*Section 130.0218 has been expanded—B&SE.*)
- Establish limits on the authority of the Board of Zoning Appeals to adjust the freeway setback provision and to provide a cross-reference to the applicable subsection. (*Section 130.0228 has been expanded—DPW/Traffic Engineering.*)
- Define the term "Freeway Advertising Sign." (*Section 32.0088 has been included in the revised draft and amended—DPW/Traffic Engineering.*)

**Administration and Enforcement**

Ever since the first "spacing-between-billboard provisions" were adopted with the 1993 Billboard Ordinance (*Ord. No. 14-93*), the City has had to monitor not only where billboards are located but also where they have been permitted but not yet built.

At the City Council discussion, the Buildings and Safety Engineering Department voiced its concern that there be adequate mechanisms to ensure that billboard permits aren't erroneously issued for two locations within the same 1,000 foot spacing area. CPC staff met with B&SE Deputy Director, Amru Meah, to propose a billboard permit tracking system that could readily be put in place.

CPC staff has prepared a paper-based tracking system which indicates the date of issuance of an advertising sign permit, the six-month expiration date of that permit, and the range of addresses falling within each permit's spacing area. The tracking system binder includes information on all twenty-three (23) permits for advertising signs issued between September 10, 1999 and February 14, 2000. B&SE can readily adapt this system to a computer-based system.

Such a system will protect the rights of

one advertising sign permit-holder from a second applicant accidentally receiving a permit for a nearby location before the sign of the first applicant is in place. (A permit-holder has six months in which to act on an advertising sign permit. A competitor may accurately attest in his/her permit application that no other advertising sign is located within 1,000 linear feet of the proposed site, unaware that B&SE has already issued a permit that effectively blocks out the proposed site for six months.) With the aid of the tracking system, B&SE will know to decline acceptance of the second application and when to cancel permits for advertising signs that are not ready for ad display within the time specified.

**Involvement with Industry**

Council Member Scott had inquired at the January 11, 2000 City Council discussion about which outdoor advertisers were involved in the August 20, 1999 meeting between City staff and the billboard industry. CPC staff indicated that, among others, Randy Oram of Vision Properties had attended. We were mistaken. CPC staff had met with Mr. Oram in a different setting at B&SE; a representative of a different company with a similar name, Vision Media, attended the August 20th meeting. (Please see the attached CPC report, dated January 11, 2000, which includes the sign-in sheet for the August 20th meeting.)

On July 15, 1999, CPC staff notified the fourteen (14) outdoor advertisers for

which we had address information: Adams Outdoor, Detroit Outdoor, Detroit Sign Co., Ebanks Outdoor Inc., Eller Media Company, Gateway Outdoor Advertising, Golden Outdoor, Outdoor Systems of Michigan, Lamar Advertising, Monarch Sign, Ocean Atlantic/TDI, Railease Associates/Macdonald Advertising, Universal Outdoor, Vision Media. (See attachment.) As we become aware of new companies we add them to our mailing list.

**Explanatory Tables**

A table on file in the City Clerk's Office, illustrates those items that have been added or revised since the City Planning Commission recommended approval of the proposed ordinance (*Table One*).

Additionally, a table on file in the City Clerk's Office, indicates those items that the applicant and a registered surveyor would need to submit as part of a permit application (*Table Two*).

**Next Steps**

Once Your Honorable Body is ready to proceed with the proposed text, CPC staff will resubmit the ordinance to the Law Department for prompt review and approval as to form. Upon approval by Law, the ordinance will be ready for introduction and the City Council public hearing.

Respectfully submitted,

After a public hearing a dimensional variance may be granted by the Board as follows:

- a) For the expansion of off-street parking or off-street loading facilities, which are accessory to a nonconforming use, and do not comply with the provisions of this Ordinance; provided, the board may permit expansion of such facilities if, after public hearing, it finds that such expansions will not be injurious to the contiguous property, and will not have a detrimental effect on the surrounding neighborhood.
- b) For a variance from the required location or off-street parking facilities or in the amount of off-street parking facilities required, or both, if after investigation by the Board it is found that such modification is necessary to secure an appropriate development of a specific parcel of land; provided, that any such modification will not be inconsistent with the spirit and purpose of this Ordinance, with public safety, and with substantial justice.
- c) For the extension of any building, structure, or use into a more restricted district immediately adjacent thereto, under such conditions as will safeguard the character of the more restricted district; provided, a reasonable need for such an extension, and an absence of injurious effect on the contiguous property is shown to the satisfaction of the Board. Said extension shall not extend more than sixty (60) feet into the more restricted district.
- d) For a variance of the loading space provisions of Section 47.0200 where, after investigation by the Board, it is ascertained that the volume of vehicular service will not require complete compliance with said provisions, or that variance will not cause undue interference with the public use of the streets or alleys or imperil public safety, and where the requested variance will not be inconsistent with the spirit and purpose of this Ordinance.
- e) For a variance of the height requirements, as specified in the airport overlay zones "A," "B," or "AA" after obtaining and giving due consideration to a report and favorable recommendation from the aviation authority regarding its interests in the matter under consideration. Provided, that said modification variance will not be injurious to contiguous or neighboring properties, and not contrary to the spirit and intent of the Ordinance.

- f) For a variance of the height limitation of signs, as provided in Section 130.0201e; ADDITIONALLY THE BOARD MAY GRANT A VARIANCE OF THE SETBACK(S) FOR ADVERTISING SIGNS ORIENTED TO FREEWAYS, IN ACCORDANCE WITH THE PROVISIONS OF SECTION 130.0228; FURTHERMORE, THE BOARD MAY GRANT A VARIANCE OF THE SIGN FACE AREA LIMITATIONS AS PROVIDED IN SECTION 130.0223.

IN MEASURING THE DISTANCE BETWEEN TWO FREEWAY ADVERTISING SIGNS ALL MEASUREMENTS SHALL BE MADE AS IF THE ZONING LOT ACTUALLY ABUTTED THE FREEWAY RIGHT-OF-WAY. THIS SPACING REQUIREMENT APPLIES REGARDLESS OF THE SIDE OF THE ROADWAY ON WHICH THE ADVERTISING SIGN IS LOCATED.

*130.0218 Advertising Sign Permit Application Requirements.* ~~Appended to the advertising sign permit application, the applicant shall furnish the department with a map, drawn to scale, as per departmental guidelines, indicating all land within five hundred (500) linear feet of the proposed advertising sign, along the roadway(s) bordering the zoning lot on which the sign is to be located. The applicant shall indicate on the map the exact location of:~~

~~1. the sign on the zoning lot;~~

~~2. all existing advertising signs and the direction in which those signs are oriented;~~

~~3. all school sites, public playgrounds and public parks.~~

~~Permit applications for advertising signs, proposed at a location for which a Michigan Department of Transportation permit is required, shall be accompanied by the Michigan Department of Transportation permit.~~

~~Whenever possible, the address of a proposed advertising sign indicated on a sign permit application shall correspond to the street toward which the sign is oriented.~~

(2) ONE THOUSAND (1,000) LINEAR FEET ALONG ONLY THOSE STREETS ABUTTING THE ZONING LOT;

THE SURVEYOR SHALL ADDITIONALLY CONFIRM BY AFFIDAVIT THAT THE INFORMATION CONTAINED IN AND APPENDED TO THE SIGN PERMIT APPLICATION IS, TO THE BEST OF HIS OR HER KNOWLEDGE, ACCURATE. PROVISION OF FALSE, INACCURATE, OR MISLEADING INFORMATION MAY RESULT IN REMOVAL OF THE ADVERTISING SIGN AT THE OWNER'S EXPENSE SUBJECT TO THE PROVISIONS OF SECTION 40.1700. THE BUILDINGS AND SAFETY ENGINEERING DEPARTMENT SHALL VERIFY THE FINDINGS OF THE SURVEYOR CONTAINED IN THE AFFIDAVIT.

*130.0223 LIMITATIONS ON SIGN FACE AREA OF ADVERTISING SIGNS.* THE SIGN FACE OF ADVERTISING SIGNS ORIENTED TO FREEWAYS SHALL NOT EXCEED SIX HUNDRED SEVENTY-TWO (672) SQUARE FEET IN AREA. Honorable City Council:

Re: Resident Opportunity Self-Sufficiency (ROSS) Application.

The Detroit Housing Commission (DHC) is seeking to submit an application to the U.S. Department of Housing and Urban Development (HUD) for funds under the Resident Opportunities Self-Sufficiency Program (ROSS). Under a ROSS subcategory-Resident Service Delivery Model, DHC is eligible to request \$500,000 (maximum amount) over three years. The purpose of ROSS is to link services to public housing residents by providing grants for various supportive services and empowering activities instrumental in assisting them in becoming economically self-sufficient.

This ROSS subcategory seeks to assist a segment of the resident population that is frequently overlooked namely — trained entrepreneurs — who need start-up business spaces and or capital. The grant fund requested will complement a recent ROSS grant award of \$250,000 for resident entrepreneurship training and micro-loan program by providing trained entrepreneurs, with business space and other business support services from a One Stop Incubation Center located at a DHC site. A local service provider will provide various business support services including answering service, copying, faxing, computer access, conference space, mail boxes, referrals for loans and other professional services. The incubation center will be equipped to service up to businesses and physically house 6.

Therefore, the Detroit Housing Commission requests the approval of the Detroit City Council to submit this pivotal grant application to HUD.

Re: Petition No. 2112 — Edward C. Levy Corporation, requesting vacation of Fordale St. in the area of Mellon Ave. and the Rouge River.

Petition No. 2112 of "Edward C. Levy Corporation", 8800 Dix Ave., Detroit, Michigan 48209 requests the conversion of the remaining Fordale Street, 50 feet wide, between Mellon Avenue, 86 feet wide, and Rouge Drive (vacated October 8, 1968, J.C.C. Pgs. 2461-2) into a private easement for public utilities.

The requested public street closing was approved by the Traffic Engineering Division — DPW, and the Solid Waste Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

City departments and privately owned utility companies have reported no objection to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installa-

tions are part of the resolution.

I am recommending adoption of the attached resolution.

The utility companies shall have the right to cross or use the driveways and yards of the adjoining properties for ingress and egress at any time to and over said utility easement with any necessary equipment to perform the above mentioned task, with the under-

standing that the utility companies shall use due care in such crossing or use, and that any property damaged by the utility companies, other than that specifically prohibited by this resolution, shall be restored to a satisfactory condition,

Third, Said owners for their heirs and assigns further agree that no buildings or structures of any nature whatsoever including, but not limited to, concrete slabs or driveways, retaining or partition walls, shall be built or placed upon said easement, nor change of surface grade made, without prior approval of the City Engineering Division — DPW,

Fourth, That if the owners of any lots abutting on said vacated street shall request the removal and/or relocation of any existing poles or other utilities in said easement, such owners shall pay all costs incidental to such removal and/or relocation, unless such charges are waived by the utility owners,

Fifth, That if any utility located in said property shall break or be damaged as a result of any action on the part of said owners or assigns (by way of illustration but not limitation) such as storage of excessive weights of materials or construction not in accordance with Section 3, mentioned above, then in such event said owners or assigns shall be liable for all costs incidental to the repair of such broken or damaged utility; and further

Provided, That if it becomes necessary to remove the paved street return at the entrances (into Mellon Avenue), such removal and construction of new curb and sidewalk shall be done under city permit and inspection according to City Engineering Division — DPW specifications with all costs borne by the abutting owner(s), their heir or assigns; and be it further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds; and be it further

STATEMENT BY COUNCIL PRO TEM MAHAFFEY REGARDING DETROIT HOUSING COMMISSION CONTRACT H325 FOR ARCHITECTURAL ENGINEERING QUALIFICATIONS-BASED INDEFINITE QUANTITY SERVICES

I had held up these four separate one-year, qualifications based, indefinite quantity, task order contracts until receiving agreement from the Housing Commission to provide information on the list of projects that the architects/engineers would work on, the timeline for their assignments and the cost. The Housing Commission has not indicated a willingness to comply with this request, seeing it instead as an interference by the city's legislative body.

Since the Detroit Housing Commission must have their task order plans reviewed and approved by H.U.D. when they negotiate contracts with each firm, there is therefore a source for the information about the work performed and the costs. I have released this contract with the understanding that City Council will obtain information about these task orders from H.U.D. simultaneous to their approvals of Housing Commission contracts upon request.

## Planning & Development Department

March 14, 2000

Honorable City Council:

Re: A resolution to amend the *Detroit Master Plan of Policies* in the vicinity of Woodward and Monroe Avenues to accommodate Compuware World Headquarters and a proposed office/retail development on the Hudson, Kennedy Square, and Monroe Blocks (REVISED Master Plan Change #30).

Attached for your consideration and action is a proposed Amendment to the *Detroit Master Plan of Policies* for the area generally bounded by Adams Avenue, Witherell Street, Broadway Street, Randolph Street, Monroe Avenue, Michigan Avenue, Griswold Street, and its northward extension, and Park Boulevard in Downtown Detroit. Adoption by your Honorable Body of this resolution would allow Kern Woodward Associates to begin development of office/retail buildings on the Hudson, Monroe, and Kennedy Square blocks and allow Compuware Corporation to construct its world headquarters and a parking structure on the Kern and Crowley blocks. Future development may also occur on the block of Woodward Avenue opposite the Hudson block and on the former Library parking garage block at the intersection of Library and Gratiot Avenues. The aforementioned developments would encircle the new Campus Martius park to be located in the middle of the Woodward-Michigan intersection.

The subject area to be changed, which covers an area of approximately 23.2 acres, is shown on the *Master Plan of Policies* Central Business District "Future Land Use" Map. Presently, the subject area is designated as "CC" Comparison Commercial. It is recommended that the land use designation for the subject area be changed to "MC" Major Commercial south of Grand River, and to "SRC" Special Residential-Commercial north of Grand River (the Monroe and Kennedy Square blocks are presently designated "MC" Major Commercial and are therefore, not included in the subject area). It is also recommended that the references made in the Central Business District text portion of the *Master Plan of Policies* to the Woodward Avenue shopping mall be deleted, and that references made to the Kern, Crowley, and Kennedy Square blocks be either modified or deleted to fit the proposed redevelopment. It is further recommended that any references in the *Master Plan* made to the Hudson's Building or department store be changed to refer to the Hudson block, and that any description language about that site and the Whitney Building be modified as well to fit development proposed for those locations. There is no need to change the current zoning designation of B5 (Major

Business District) because the uses proposed in this Amendment can be accommodated within that zoning district.

The Lower Woodward District Draft Concept Plan prepared by the Greater Detroit Downtown Partnership in May, 1997 shows the proposed redevelopment of the subject area and the adjacent Monroe and Kennedy Square blocks. This Plan is a departure from current *Master Plan* policy that calls for development of a commercial shopping district centered around the Cadillac Center mall on the Hudson, Kern, and Crowley blocks, which was proposed, but never built, in the 1980's. The redevelopment proposed by the Lower Woodward Plan would include a new approximately 1.6 acre park called Campus Martius (referring to the 19th Century Woodward plan from which it was originally conceived) to be located in the middle of the Woodward-Michigan intersection. Also included in the Lower Woodward Plan are the potential redesign of Cadillac Square, which could include relocation of the existing bus terminal to the intersection of Times Square and Grand River, and the construction of new buildings on the Hudson, Kern, Crowley, Monroe, and Kennedy Square blocks. The new buildings are proposed to contain one or more uses including hotel, office, retail, and residential. The Lower Woodward Plan calls for the building heights, which are subject to change, to be generally 12-15 stories on the blocks fronting Campus Martius (with the exception of Compuware World Headquarters), and generally 9-12 stories on the Hudson and Crowley blocks. To complement these developments, the Lower Woodward Plan proposes creating a residential loft district in the area immediately south of Grand Circus Park, which it has called the Necklace District because of its pattern of curved streets and triangular blocks.

The revised site plan drawn by Rossetti Architects Associates (subject to later revision) and dated November 18, 1999 shows the construction of a 16 story building to be the world headquarters of Compuware Corporation. In addition, a ten-story, 12 level parking structure will be constructed (2 levels underground) containing 21,000 square feet of ground level retail space. Compuware World Headquarters will be constructed on the Kern block and is planned to contain approximately 580 underground parking spaces, while the parking deck on the adjacent Crowley block is planned to add approximately 2,220 more spaces. The Compuware headquarters is expected to accommodate about 3,000 employees when it opens in 2002. An addition planned for later in the decade would bring the total employment to approximately 5,000.

Adopting this Amendment to the

*Master Plan of Policies* to accommodate the proposed office/retail development presents an opportunity for Downtown Detroit. Amending the *Master Plan* in the portion of the subject area south of Grand River to "MC" Major Commercial will accommodate Compuware World Headquarters and accelerate Downtown revitalization by bringing a major corporation with 3,000 employees into the heart of the city. Also, the other proposed mixed-use structures accommodate in this Amendment would create strong design relationships consistent with existing building setbacks on Woodward, Monroe, and Cadillac Square, thus, making positive use of space. The proposed new buildings would include a mix of office, retail, restaurant, and entertainment uses, creating more interest for pedestrians and providing opportunities for attracting major corporations or retailers as tenants.

Additional positive results would also be achieved with adoption of this proposed Amendment. By amending the *Master Plan* designated land use north of Grand River to "SRC" Special Residential-Commercial, acknowledgement would be given to the creation of a residential loft district, which could bring a critical mass of new residents into the Downtown area. Finally, construction of the proposed Campus Martius park would create a new public open space in the center of Downtown while also helping to direct traffic flow at the intersection of Woodward, Monroe, Cadillac Square, Fort, and Michigan with the addition of a new traffic circle.

In summary, it is our belief that the mixed-use developments proposed for the subject area will provide economic opportunity and new vitality for Downtown Detroit. We, therefore, recommend that the land use designation for the subject area be changed from "CC" Comparison Commercial to "MC" Major Commercial south of Grand River, and to "SRC" Special Residential-Commercial north of Grand River. We also recommend that all references made in the Central Business District text portion of the *Master Plan of Policies* to the Hudson's Building or department store be changed to refer to the Hudson block and that text relating to the Hudson's Building and the Whitney Building be modified to fit development proposed for those sites. We finally recommend that all references made in the Central Business District text portion of the *Master Plan* to the Woodward Avenue shopping mall be deleted, and that references made to the Kern, Crowley, and Kennedy Square blocks be either modified or deleted to fit the proposed redevelopment.

Respectfully submitted,  
 PAUL A. BERNARD  
 Director

devices for CBD employment/service centers beyond easy reach of the Downtown People Mover extensions. The outlying centers include: IRS/State/Bell Service Center; Edison/Elton Park; Madison Center.

Support special environmental amenities including extensive urban landscaping and modern office renovation so as to encourage the greatest possible efficiency and creativity of those who work here and their visitors. Insure other office amenities are available, such as fitness clubs, convenience shopping, and day-care centers.

Insure that an adequate supply of parking decks and garages is available within and near the most central area so as to serve the short-term client, visitor, and constituent parking needs.

Promote the concept that most longer term transportation needs of employees and managers will be served by mass transit and parking areas accessed from the Downtown People Mover. This will reduce the dependence upon the auto and parking demand in the most congested areas of the Central Business District.

Those governmental and financial functions which it would be better to distribute for ease of service to their clients should not be concentrated in the most central portion of the CBD. They should be located to be more central to their clients or constituents.

Recognize the importance of larger outdoor rally-oriented spaces for political and social purposes. ~~Specifically have designed and built at Kennedy Square an improved facility to better fit this purpose.~~ Support the provision of "people watching" spaces as well for spontaneous meetings.

Recognize and promote the international aspects of finance since this is a growth sector and downtown has international companies.

Utilize tax incentives and other devices to encourage employment and skill training of Detroit residents and make special efforts to increase the proportion of Detroit residents in CBD jobs.

**301-5: Central Business District Communications Technology**

Encourage development of state-of-the-art communications systems in and for the CBD to establish Detroit as a leader in technology development and the CBD as a showcase for information and telecommunications technology. Encourage the Medical Center and institutions in the Cultural area to do likewise.

Promote the recognition that one of the primary purposes of the Central Business District is communication, and take every step possible to support and facilitate fulfilling this role. Recognize that the area between West Lafayette and Michigan and Third is largely devoted to establishments and facilities specializing in various aspects of communication: telephone, television, and newspapers. Support intensification and expansion of this grouping.

Encourage the growth of new communications and technology oriented businesses in the CBD; seek a greater variety of trade journals; try to attract industrial film makers to the CBD; and encourage the use of the new communications technology.

Seek methods to provide incentives to promote building owners to improve communication and information capabilities.

**POLICY 301-6: Central Business District — Retail Development**

Strengthen retailing activities of all kinds in the CBD.

Promote the conservation and revital-

ization of existing major retailing nodes: Woodward (near transit stations or near employment/service centers); Greektown; Renaissance Center/Millender Center; Broadway-Randolph; Washington Boulevard.

Promote the areas near the People Mover stations as appropriate for specialized retailing and services, each area developing its own theme and character. For each station, promote covered walkways, galleries, pedestrian routes with retailing along each side.

Promote the construction of major and renovated new intense mixed-use structures in the ~~area~~ CBD, including the ~~Hudson building~~ Hudson block, Kern block, Crowley's block, Monroe block, and provide a large amount of new retailing space, hotel, office, housing, and parking space as well as public outdoor and indoor spaces.

Encourage a major expansion of the parking validation program so that shoppers are assured of a convenient and adequate supply of lower-cost short-term parking spaces.

Support careful planning for convenience shopping for downtown residents, including shopping within residential structures.

Plan for a removal from commercial use and conversion to other uses those areas known to have minimal market potential. Uses to which the obsolete retail space can be converted include offices, apartments, lofts, incubator space for new services.

Give special attention to the particular shopping needs and problems of the various shopping segments, including (a) the over 400,000 Detroit residents located within a five-mile radius with incomes exceeding \$2 billion; (b) the 110,700 downtown employees and 60,000 nearby area employees; (c) 10 million or more annual visitors. Each group has different peak-time shopping needs and a 9-to-5 day often does not fit these needs; (d) adult households and single-parent households now account for

In the intense central core area of the CBD, parking should be encouraged to be provided in structures. The areas along the riverfront, the Civic Center, and adjacent acres should be given special attention for compatibility of design.

Consider rezoning the areas near the People Mover stations and Greektown which are currently B6 (General Services District) to a more appropriate zoning classification. Parking is not to be required of each developer on-site nor within 100 feet. Parking needs to be provided "in common", preferably in structures.

Consider rezoning the areas on the northeastern and eastern edges of the CBD which are currently B4 (General Business) to encourage ultimately

increased residential construction with compatible institutional and commercial uses. Parking will continue to be permitted here. All new development will be required to provide on-site parking or within 100 feet.

Encourage residential construction and conversion. Retain present zoning in most areas, however; expand area included in Public Center Adjacent zoning classification. Provide for sign review in high priority areas, especially from People Mover stations. Provide for plan review for all surface parking lots; require landscape or other screening.

**POLICY 301-12: Central Business District Planning Area Policies**

**A. Detroit Edison/Elton Park Planning Area** (Grand River, Cass, Bagley, Freeway boundary) East of Third, continue the corporate campus development. West of Third, develop a corporate campus related to new high-tech industries and new low- and medium-rise residential buildings. Provide transit access to the Detroit People Mover by a spur or minibus. Provide sound barriers or sound-proofing from freeways. Landscape surface parking areas. Insure pedestrian access to areas across freeways for services. Retain Elton Park as a recreation area.

**B. North Grand Circus Park Planning Area** (Fisher Freeway, Adams, south side Grand Circus Park, Adams, Clifford, Middle, Grand River)

Give priority to the development of a residential community focused west of Woodward and an entertainment district focused along and near Woodward Avenue both east and west. Since there must be extensive parking in this area, give special attention to traffic circulation and attractive landscaping.

Develop theaters, nightclubs, restaurants, and other major entertainment uses as well as various types of medium- and high-density apartments, offices, and supporting commercial services. Give special priority to the enhancement of Grand Circus Park. Provide for any future development around the Park to help complete a sense of enclosure, i.e., new buildings fronting on Park, Witherell, or Adams across from the Park should be large (8 stories or more) and should not be set back from the street.

The People Mover station in the Whitney Building gives special focus to the southern edge of this area, which will be appropriate for a ~~comparison commercial node~~ mixed-use development.

In the area near Witherell, encourage retention and expansion of institutions and their services.

**C. Communications/Mass Media/Convention Facilities Planning Area** (Bagley, Cass, Michigan, Washington

Boulevard, Congress, Sixth, Jefferson, Eighth, Fort, Bagley, and Michigan)

Encourage additional communications and media-oriented developments as well as residential, convenience retail, and supporting commercial uses. Specifically, develop mixed-use projects related to communications technology and including apartments, offices, and service commercial at Michigan and Third, Michigan and First, and Lafayette and Third. Develop hotels, entertainment, restaurants, etc., related to the new expanded Cobo Hall, heavily concentrated along and/or related to Washington Boulevard.

Procure and reserve sites as needed in this area near Cobo Hall for parking structures. Parking structures will need to be provided here and elsewhere in the area to serve the high density of uses here and nearby.

Provided minibus service or a Detroit People Mover spur to areas more than 1,000 feet from Detroit People Mover stations.

The People Mover stations at Fort/Cass and Michigan/Cass provide special accessibility to this area and should be capitalized upon by high intensity development including retail services.

**D. Washington Boulevard/Bagley Planning Area** (Middle, Clifford, Adams, Grand Circus, Washington Boulevard, alley west of Woodward, Michigan)

Develop primarily as a residential community having a variety of housing types and income groups; also, include mixed residential/office, retail and hotels. Concentrate development generating intensive street activity along Washington Boulevard. Establish State Street as a secondary linkage street between Woodward and Washington Boulevard, and enhance this also as a pedestrian environment. Enhance the Capitol Park area as a small-scale convenience retail node to service residents. People Mover stations are at Woodward/Grand Circus and Times Square, and Michigan and Cass, which areas are especially appropriate for high-intensity uses and retail development.

**E. Major Shopping Office/Retail District Planning Area** (Grand Circus, Adams, Brush, Monroe, St. Antoine, Macomb, Chrysler, Lafayette, Randolph, Cadillac Square, alley west of Woodward)

Re-establish Woodward Avenue as a major shopping street in the City. Develop the Kern/Crowley block as a major office site. Develop the Kern/Crowley/block along with the Hudson and Monroe blocks as an intensely developed mixed-use project with retail, hotel, office, residential, and parking. ~~Design this development to serve as a major regional indoor/outdoor shopping center, closely integrated with the Woodward Avenue shopping mall.~~ Encourage new shopping, eating and drinking, entertainment and cultural facili-

ties throughout the area. Give special support to Greektown, and ~~expand west-erly~~ encourage westerly expansion to eventually link up with ~~Cadillac Center~~ the Campus Martius area.

To support the office/retail develop-ments, ~~Encourage~~ new residential uses throughout the ~~area~~ Necklace District (bounded by Grand Circus Park, Madison Avenue, Randolph Street, Monroe Avenue, Michigan Avenue, Cass Avenue, and Bagley Avenue), especially in rehabili-tated older buildings and upper stories over retail frontages. Promote distinctive residential apartments and special office and commercial development in the upper stories along Woodward Avenue.

Encourage the provision of adequate short-term parking. Encourage a vastly expanded parking validation program.

Encourage entertainment uses related to the theater district in the Madison Avenue area. Provide for the revitalization and growth of the Harmonie Park area as an arts district, encouraging galleries, studios, art supply stores, studio loft apart-ments, and related development. Enhance Harmonie Park. Encourage development across from the Park along the east side of Randolph, and insure that it provides a sense of enclosure for the Park. Once this is developed, open the Park physically and visually to the east.

~~Encourage the reuse of Hudson's department store building for office, park-ing, ground-floor retail.~~ redevelopment of the Hudson block (bounded by Woodward, Gratiot, East Grand River, and Farmer) for hotel, residential, office, parking, and retail, insuring that ground level pedestrian interest, especially on Woodward, is maximized.

**F. Justice Center Planning Area** (Adams, Chrysler, Macomb, St. Antoine, Monroe, Brush)

Continue and expand institutional uses. Improve pedestrian access between the justice buildings at Gratiot and St. Antoine to Greektown, to Madison Center, and to the Downtown People Mover stations. Encourage residential uses in the build-ings in the Madison Center area if and when warehousing uses are no longer in demand. Encourage parking decks. Provide a "gateway" design treatment along Gratiot.

**G. Financial/City-County Govern-ment Planning Area** (Michigan, Cadillac Square, Randolph, Jefferson, Woodwad, Larned, Washington Boulevard)

~~Locate new government administrative offices in this area.~~ Continue to support this area as the historic financial, govern-mental, and legal office core of the CBD. Improve the street-level pedestrian envi-ronment, especially with landscaping, display windows, and other amenities. ~~Complete the proposed development at the Larned/Bates site with offices with~~

~~ground floor commercial. Improve Ken-nedy Square as an outdoor rally area with more trees, more land, better seating, and development of a water theme. Encourage an intensive multi-use struc-ture on the former Greyhound garage site related to Larned/Bates development.~~ All parking in this area should ultimately be in structures.

Redevelop Kennedy Square block as an office/retail site. Replace lost open space function by creating a public space at the historic Campus Martius site in the intersection of Woodward, Michigan, Fort, Monroe, and Cadillac Square.

**H. Bricktown/Millender Center Plan-ning Area** (Lafayette, Chrysler, Jefferson, Randolph)

Develop new institutional, office, resi-dential, and related commercial uses. Brush, and to lesser extent Beaubien, should be reinforced as pedestrian routes between Renaissance Center and Greektown. Preserve existing buildings and the character of Bricktown.

The three People Mover stations in this area should be promoted as development incentives encouraging high intensities of development. A hotel should be encour-aged to be built at Lafayette/Beaubien.

**I. West Riverfront Planning Area** (Jefferson, Sixth, Congress (extended west), Third, Detroit River)

Support the continuation of future phases of the Riverfront Apartments West residential development. Encourage the development of a major hotel on the site adjacent to Joe Louis Arena. Continue to develop upper level skywalk connections to the Downtown People Mover station. Provide for the adequacy and continuity of the riverfront pedestrian/bicycle path through this area, and improve pedestian access from West Jefferson and Sixth Street to the core of downtown. Support apartment development on remainder of the Free Press site.

**J. Convention and Civic Center Area Planning Area** (Congress, Washington Boulevard, Larned, Woodward, Bates extended, Detroit River)

Encourage a joint public-private effort to build the proposed Detroit/Windsor aerial tramway. Insure that the heliports are readily accessible to Renaissance Center and Cobo Hall. Provide computer-ized electronic directional directories at key locations. Strongly encourage new hotel facilities. Provide for the continuity of the riverfront pedestrian/bicycle path through this area. Improve pedestrian link across Jefferson into Hart Plaza. Establish a skywalk system linking Cobo Hall to the east. Promote development to capture advantages of the People Mover station at Larned/Griswold.

**K. Renaissance Center Planning Area** (Jefferson, Orleans, Detroit River, Bates extended)

In the area immediately east and south of Renaissance Center, encourage multi-use development such as high density residential/commercial incorporating health and recreation facilities, restaurants, and hotel, retail, and office uses.

Provide for the continuity of the river-front pedestrian/bicycle path on the River's edge with easy access from Jefferson. Encourage the use of mass transit. Encourage sufficient parking as an integral part of all new uses. Encourage any non-intensive reuses of industrial buildings east of Renaissance Center to be short-term in anticipation of a future market for more intensive uses. Study the feasibility of a marine transportation passenger dock in this area with shuttle service or provide a weather-protected walkway to the Renaissance Center and the Renaissance Center Downtown People Mover station.

Honorable City Council:

Re: Petition No. 1972 — Velmeir Company, L.L.C., c/o Gwen Lewis, et al, request to vacate public alley and deed land for new alley in the area of Gratiot, McDougall and Mitchell.

Petition No. 1972 of "Velmeir Company, L.L.C., c/o Gwen Lewis, et al," requests the outright vacation of all of the east-west public alley, 20 feet wide, and a portion of the north-south public alley, 18.4 feet wide, and the dedication of land for public alley purposes, in the block bounded by Mitchell Ave., 66 feet wide, McDougall Ave., 79.80 feet wide, Mack Ave., 50 feet wide, and Gratiot Ave., 120 feet wide. In order to facilitate construction of a new CVS Pharmacy.

The Solid Waste Division and the Traffic Engineering Division of DPW approved the request. The petition was referred to the City Engineering Division - DPW for investigation (utility review) and report. This is our report.

The petitioner plans to remove or alter the existing paved alley return entrance into Mitchell Ave. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

The petitioner has plans to build a new public alley at no expense to the City of Detroit. The petitioner has acquired land and set-aside funding to build the new alley. The alley will be built by private contract within property owned or controlled

by the petitioner under City Engineering Division - DPW inspection and permits. When the alley is completed to city specifications, the petitioner intends to deed the property to the city. City Council is requested to declare the city's 'intent' to accept the deed and alley for public purposes; provided said property complies with the requirements of Detroit codes and ordinances, also known as the 'Environmental Review Guidelines.' A separate resolution-recommending acceptance of the deed will be presented to City Council for consideration. The dedication of the 20 feet wide east-west strip of land between Mitchell and the north-south alley should be completed before vacating the alleys to avoid the creation of a dead-end alley.

The Detroit Water and Sewerage Department (DWSD) have no objections to outright vacate the alleys provided that all properties abutting the alley are owned by the petitioner and the relocates the 15"x20" lateral sewer in accordance with attached requirements and provisions which are a part of this resolution.

All other involved city departments and privately owned utility companies reported no objections to the outright vacation and dedication. Provisions protecting certain utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Honorable City Council:  
 Re: Petition No. 2530 — Detroit Athletic Club ("DAC") — requesting to encroach into public rights-of-way and renewal of temporary closure of Randolph St. at Madison Ave. for expansion of its parking facilities.  
 Petition No. 2530 of "Detroit Athletic Club" (the "DAC") request to encroach into

the north-south public alley, 20 ft. wd., (12-caissons below the surface) between Madison and E. Adams west of Brush and the south side of E. Adams (below the surface) between John R. and Brush to install new footings, foundations, support and a buttress to the existing foundation in order to facilitate the expansion of the existing parking structure. Also, the DAC requests the renewal of the temporary closing of Randolph, 39.48 ft. wd., north of Madison granted by Resolution of Honorable City Council April 27, 1988, J.C.C. pgs. 1020-1023.  
 The request was approved by the Solid Waste Division and the Traffic Engineering Division of DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report:

The DAC intends to commence construction of a three-story vertical addition to the existing parking deck, adding space for approximately 340 passenger vehicles within the DAC site. The footings and foundations of the present parking deck are not adequate to bear the weight of the vertical addition, and new footings, foundations and supports must be added to the east and west sides of the parking deck to accommodate the addition. The construction also requires strengthening of existing footings and foundations at the northwest and northeast corners of the existing parking deck.

The encroachment into the Adams Street right-of-way will be approximately 2.8 feet, and will not affect the surface of the right-of-way after construction. The encroachment(s) into the north-south public alley, 20 feet wide, will be less than 3.3 feet at the location of each of 12 caissons, leaving a 17-foot width for passage of alley traffic and one caisson at the north end of the alley encroaching 4.5 feet into the alley.

The Detroit Edison Company (DeCo) reports no objections to the encroachments into the north-south public alley. DeCo Steam Division has facilities within the Adams Street right-of-way. However, the requested encroachment will maintain the proper vertical and horizontal clearance from any and all DeCo steam lines.

The Detroit Water and Sewerage Department (DWSD) reports there is a 15"x20" sewer within the north-south, public alley, 20 ft. wd. But, have no objections to the requested encroachments provided that petitioner abandons the sewer and constructs a new manhole.

The City of Detroit retains all rights and interests in the temporarily closed public street. City departments and private utility companies retain their access rights in the temporarily closed public street.

All other City departments and privately owned utility companies have reported no objections to the encroachments and the renewal of the temporary closure or that satisfactory arrangements have been made. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

The encroachments shall be constructed and maintained under their rules and regulations; also in accord with plans submitted to and approved by these departments; including the Public Lighting Department (if necessary), the Water and Sewerage Department (if necessary), and the Traffic Engineering Division — DPW (if necessary); and further

Provided, That all costs for the construction, maintenance, permits and use of the encroachments shall be borne by the Detroit Athletic Club or its assigns; and further

Provided, That all costs incurred by privately owned utility companies and/or city departments to alter, adjust, and/or relocate their existing utility facilities located in close proximity to the encroachments, shall be borne by the Detroit Athletic Club or its assigns. Provided, If it becomes necessary to repair or replace the utilities located or to be located within the public rights-of-way, by acceptance of this permission, the Detroit Athletic Club (owners) for themselves, or their assigns, (by acceptance of permits for construction near underground utility lines, conduits, or mains) waives all claims for damages to the encroaching installations and agree to pay all costs incurred in their removal (or alteration), if removal (or alteration) becomes necessary; and further

Provided, That the Detroit Athletic Club shall apply to become a participating member of the "MISS DIG" organization (if necessary); and further

Provided, That the Detroit Athletic Club shall file with the Finance Department an indemnity agreement in form approved by the Law Department. The agreement shall save and protect the City of Detroit from any and all claims, damages or expenses that may arise by reason of the issuance

of the permits and the faithful or unfaithful performance by the Detroit Athletic Club of the terms thereof. Further, the Detroit Athletic Club shall agree to pay all claims, damages or expenses that may arise out of the maintenance of the proposed encroachments; and further

Provided, The property owned by the Detroit Athletic Club and the building encroachments shall be subject to proper zoning or regulated use (Board of Zoning Appeals Grant); and further

Provided, That no other rights in the public streets, alleys or other public place shall be considered waived by this permission which is granted expressly on the condition that said encroachments shall be removed at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division — DPW; and further

Provided, This resolution is revocable at the will, whim or caprice of the City Council, and the Detroit Athletic Club acquires no implied or other privileges hereunder not expressly stated herein; and further

Honorable City Council:

Re: Petition No. 1442 — West Village Association/St. John Riverview Hospital, requests the closing of certain public alleys in the area of E. Lafayette, Seyburn and Van Dyke Place.

Petition No. 1442 of "West Village Association / St. John Riverview Hospital" requests the conversion of the north-south public alley, 20 feet wide, east of Seyburn and south of Van Dyke Place, the north-south, 20 feet wide & east-west, 30 feet wide, public alley(s) west of Seyburn and south of East Lafayette into private easement(s) for public utilities.

The request was approved by the Solid Waste Division - DPW, and the Traffic Engineering Division - DPW. The petition was referred to the City Engineering Division - DPW for investigation (utility review) and report. This is our report.

The City of Detroit is owner in fee of the east-west public alley, 30 feet wide, south of E. Lafayette and west of Seyburn. The public alley was acquired by deed on October 8, 1986 J.C.C. Pgs. 1912 - 14. Therefore, the Finance Director must execute a Quit-Claim deed to transfer the vacated public right-of-way to the adjacent property owners.

The petitioner plans to use the paved alley return entrances (into E. Lafayette, Seyburn, and Van Dyke Pl.) and request such remain in their present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

We, therefore, request authorization to settle this matter in the amount of Thirty Thousand Dollars (\$30,000.00) and that your Honorable Body authorize and direct the Finance Director to issue a draft in that amount payable to Robert Biles, and his attorney, Mark I. Re: 2540 Campbell. Emergency Demolition.

The building at the above location was recently found to be extensively fire damaged and structurally unsafe to the point of collapse.

Our records reveal that this is the initial complaint for this location.

It is our opinion that there is an actual and immediate danger affecting the public health, safety and welfare. Therefore, under the authority of Ordinance 290-H, we request that the Department of Public Works immediately take emergency measures to have the building or portions thereof removed with the cost assessed against the property.

All utility companies are advised by copy of this letter to immediately start utility disconnects.

Respectfully submitted,  
GENI GIANNOTTI  
Director

By Council Member Mahaffey:

Resolved, That in accordance with the three (3) foregoing communications, the Department of Public Works is directed to immediately implement emergency measures to demolish the dangerous structures, or portions thereof, located at 3804 Cadillac, 297 S. Dragoon, and 2540 Campbell, and assess the costs of same against the properties.

**City Clerk's Office**

May 3, 2000

Honorable City Council:

Re: Request to Amend the 1999-2000 Official Compensation Schedule to Adjust the Pay Ranges for the City Clerk Appointed Titles of Director — Department of Elections and Deputy Director — Department of Elections.

On January 14, 2000, your Honorable Body approved pay range adjustments for appointed positions. The current ranges for the positions appointed by the City Clerk received a minor adjustment to the range maximums. This adjustment occurred without consultation or input of my office. After review of the responsibilities of these positions, I am convinced

that the current ranges do not adequately reflect them. Consequently, I recommend that your Honorable Body amend the Official Compensation Schedule by approving pay range adjustments for the City Clerk Appointed Titles as follows:

	Current	New
Director — Department of Elections (01-01-77)	\$60,000- \$84,800	\$70,000- \$95,000

Deputy Director — Department of Elections (01-01-78)	\$46,800- \$74,200	\$60,000- \$82,000
---	-----------------------	-----------------------

I further request that the attached resolution be approved with a waiver of reconsideration.

Respectfully submitted,

By Council Member Hood:

**Historic Designation Advisory Board**

May 4, 2000

Honorable City Council:

Re: Extension of period of study for the proposed Motor City Missionary Baptist Church Historic District.

The Advisory Board is continuing its study of the above referenced proposed historic district. Several board members have expressed concern that badly needed major structural repairs would be necessary to assure the continued structural and architectural historic integrity of the church building.

The Advisory Board staff and members of the board are working with the church leadership to study the congregation's restoration plans. To provide time for that effort, the Advisory Board has tabled discussion of the matter until its July meeting.

In order to allow ample time for further consideration by the Advisory Board and

Council's consideration of this matter, an extension of the period of study is necessary.

A resolution of extension is attached for your consideration.

Respectfully submitted,  
WILLIAM M. WORDEN  
Director

By Council Member Scott:

Be It resolved, That in accordance with the provisions of the 1984 Detroit City Code, Chapter 25-2-4(1)(a) and 25-2-4(b), the City Council hereby extends the period of study of the proposed Motor City Missionary Baptist Church Historic District by the Historic Designation Advisory Board, and that such period of study shall be extended through December 31, 2000.

**Housing Commission**

May 8, 2000

Honorable City Council:

Re: Hope VI Demolition/Disposition Application

The Detroit Housing Commission (DHC) is seeking approval to submit a HOPE VI Demolition and Disposition application to the local and regional US Department of Housing and Urban Development offices (HUD), for the purpose of demolishing Building 401 of the Edward Jeffries Homes and disposing of the land for other uses.

Building 401 is one of the eight remaining hi-rise buildings of the Jeffries revitalization project. At the onset of the revitalization project in 1996, the overall goal was to address the demand for clean safe and affordable senior citizen housing units. However, four years later, the demographics and housing demand conditions for the area have changed noticeably. After the completion of two revitalized senior hi-rises and partial completion of the third, an extensive market analysis of the area determined that there was an oversupply of senior living units in the Jeffries impact area, resulting in a soft market for senior housing. given the market driven over supply, and the enormous cost of rehabilitating Building 401 at \$8.5 million vs. \$365,625 to demolish, DHC feels it would be best to demolish the building and designate the space for other uses.

Therefore, the Detroit Housing Commission requests the approval of the Detroit City Council to submit this application to the local and regional HUD offices for their review and approval.

Respectfully submitted,  
JOHN NELSON, JR.  
Executive Director

Honorable City Council:

Re: Request to adopt the Resolution authorizing an Installment Purchase under the existing GE Capital Master Lease Agreement dated February 27, 1998 between the City of Detroit and GE Capital.

We are prepared to proceed with financing the acquisition and installation of computer equipment to be utilized by the Income Tax Department. The financing will allow the City to raise approximately \$730,000 for the equipment. While various financing alternatives were considered (including the issuance of bonds), we have determined that the most cost effective option for financing the equipment is through GE Capital Corporation.

The attached Resolution will authorize the City to execute Equipment Schedule No. 008 (also attached) under the existing Master Lease Agreement dated February 27, 1998 between the City and GE Capital.

Adoption is respectfully requested with waiver of reconsideration at your scheduled formal session on Wednesday, May 10, 2000. Copies of the documents have been forwarded to Kathie Dones-Carson, Director of Council Research and Analysis and Irvin Corley, Fiscal Analyst — City Council. If Council has any issues regarding the Resolution, we are prepared to address them Tuesday, May 9, 2000 at 3:00 p.m. in the Finance Department (Small Conference Room).

Respectfully submitted,

**RESOLUTION AUTHORIZING INSTALLMENT CONTRACT  
FOR THE ACQUISITION OF HP ENTERPRISE CLASS SERVERS**

By Council Member Scott:

Whereas, The City of Detroit (the "City") proposes to enter into an agreement with Plexus Technologies, Inc. (the "Agreement") providing for the acquisition and installation of the HP Enterprise Class Servers and related computer equipment described in Purchase Order No. 2525887, dated April 11, 2000, to be utilized by the City's Income Tax Department (the "Property"); and

Whereas, It is determined to be necessary and desirable and in the best interest of the City that the acquisition and installation of the Property be financed by an installment contract authorized under the provisions of Act No. 99, Public Acts of Michigan, 1933 as amended, and more specifically by the acquisition and installation of the Property pursuant to an installment contract identified as a Master Lease Agreement (the "Lease"), dated as of February 27, 1998, between the City and GE Capital Public Finance, Inc. (the "Lessor"), and Equipment Schedule No. 008 to be attached thereto relating to the Property, in the aggregate principal amount not to exceed \$730,000 (the "Schedule" and together with the Lease, collectively the "Contract"); and

Whereas, The City Council previously approved the Lease and the City initially entered into the Lease in connection with the financing of energy conservation improvements at the Cobo Conference/Exhibition Center pursuant to Section 5f of Act No. 279, Public Acts of Michigan, 1909, as amended; and

Whereas, The aggregate outstanding balance, exclusive of interest, of all purchases made by the City pursuant to Act 99, including the Contract, does not exceed 1-1/4% of the taxable value of the real and personal property of the City.

Now, Therefore, Be It Resolved That:

1. It is hereby found to be necessary and desirable for the City to finance the cost of the acquisition and installation of the Property in the aggregate principal amount not to exceed \$730,000 pursuant to the terms and conditions of the Contract.

2. (a) The Lease is hereby ratified and confirmed. The Schedule shall be dated the date of delivery thereof. The interest rate on the interest portion of the rental payments to be made by the City under the Contract shall not exceed 6.50% per annum as shall be determined by the Finance Director at the time of the execution and delivery thereof. The Contract shall be payable in rental payments, consisting of both a principal portion and an interest portion, on such dates and in such years and amounts as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof; shall be in the aggregate principal amount not to exceed \$730,000 as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof; and may be prepaid on such dates and in such years and upon the payment of a prepayment fee, if any, as shall be determined by the Finance Director and set forth in the Schedule at the time of the execution and delivery thereof. Notice of any such prepayment shall be given as provided in the Contract.

(b) In making the determinations set forth in (a) above, the Finance Director shall be limited as follows:

(1) The first rental payment under the Schedule that contains a principal portion shall be due not later than October 1, 2000, and the final rental payment under the Schedule shall be due not later than October 1, 2005.

(2) The amount of the principal portion of the rental payments due under the Schedule in any one year shall not exceed \$140,000.

3. The Mayor and the Finance Director are hereby authorized to enter into the Schedule in substantially the form presented to the City Council (upon which form the City Clerk shall indicate the date of adoption of this resolution), with such changes thereto as are approved by the Finance Director, consistent with the terms of this resolution and not materially adverse to the City. The Schedule shall be executed with the facsimile signature of the Mayor and the manual signature of the Finance Director and shall have the seal of the City impressed or imprinted thereon. The approval of such changes by the Finance Director shall be conclusively evidenced by his signature on the Schedule. The Schedule may be executed in counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

4. The Finance Director is hereby authorized to enter into an escrow agreement relating to the Schedule, if any, consistent with the terms of this resolution and not materially adverse to the City (the "Escrow Agreement"). The Escrow Agreement shall be executed with the manual signature of the Finance Director. The Escrow Agreement may be executed in counterparts, each of which shall be an original and all of which shall constitute but one and the same instrument.

5. Except as provided in Section 4.2 of the Lease, the obligation of the City to make rental payments to the Lessor as provided in the Contract shall be absolute and unconditional in all events; provided, however, nothing contained herein or in the Contract shall limit the rights or remedies of the City against Plexus Technologies, Inc. under the Agreement.

6. The City covenants to comply with all provisions of the Internal Revenue Code of 1986, as amended (the "Code"), necessary to maintain the exclusion of the interest portion of the rental payments due on the Contract from gross income for federal income tax purposes.

7. The Mayor, the City Clerk, the Finance Director and other officers of the City as may be necessary are each hereby authorized to execute and deliver such documents, instruments and certificates as are necessary or desirable to consummate the described transactions and to maintain the exclusion of the interest portion of the rental payments due on the Contract from gross income for federal income tax purposes.

8. The useful life of the Property is determined to be six (6) years and upwards.

9. All resolutions and parts of resolutions insofar as they conflict with the provisions of this resolution are rescinded.

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Amalgamated Transit Union, Local 26.

The Labor Relations Division has recently reached agreement with the bargaining unit which represents bus drivers in the Transportation Department. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

Therefore, in accordance with standard City procedure, this Office is recommending that your Honorable Body pass a resolution amending the 1998-99 Official

Compensation Schedule by granting a 2% general wage increase for the subject represented employees effective July 1, 1998, and similarly amend the 1999-2000 Official Compensation Schedule by granting a 3% general wage increase effective July 1, 1999. We are further requesting authorization to implement the following new contract provisions:

1) Special Adjustments for these classifications based on recruitment and retention difficulties and special skills upgrading as outlined in the attached Schedule A.

April 3, 2000

Honorable City Council:

Re: Request Authorization for Reprogramming of Bond Sale Proceeds to Support Acquisition and Relocation Activities Associated with the I-94 Industrial Park Project I-94 Renaissance Zone — Planning and Development Department Bond Program. Request Authorization to Utilize Land Sale Proceeds from Sale of Lynch Road Parcels to Support Acquisition and Relocation Activities Associated With the I-94 Industrial Park Project.

As your Honorable Body is aware, the Planning and Development Department is engaged in an industrial park development that is located in the area east of Mt. Elliot Ave., south of Huber and Grinnell Avenues, west of St. Cyril and north of Miller Road called the I-94 Industrial Park Project. This Project Area is located within one of six designated tax-free Renaissance Zones within Detroit established with approval of your Honorable Body under the State of Michigan

Renaissance Zone legislation that was enacted in 1997.

As all anticipated activities associated with the originating Victoria Park project have been completed and the surplus funds remaining in the Victoria Park Appropriation are needed for acquisition and relocation activities in connection with implementing the I-94 Industrial Park Project, the Planning and Development Department (P&DD) respectfully requests the authorization of your Honorable Body to reprogram Three Million Dollars (\$3,000,000.00) from Appropriation Number 00909 (Victoria Park 93 Bonds) to Appropriation Number 10384 (I-94 Renaissance Zone-Bonds).

The Economic Development Corporation of the City of Detroit (the "EDC") presented a Project Plan for the I-94 Industrial Park Project that has been approved by your Honorable Body. A funding agreement for I-94 Industrial Park between the City of Detroit and the EDC is being prepared and will be presented to your Honorable Body immediately upon its completion with a request to authorize the encumbering of the bond proceeds for the funding agreement.

In addition, the EDC, pursuant to a Lynch Road Project Plan approved by your Honorable Body in accordance with Act 338, Public Acts of Michigan, 1974, as amended, closed on the sale of certain properties located along Lynch Road. The EDC, under the terms of a Funding Agreement between the City and the EDC dated July 31, 1996, continues to hold the proceeds from the sale. P&DD respectfully requests authorization from your Honorable Body to direct the EDC to expend the Three Million One-Hundred Thousand Dollars (\$3,100,000.00) in land sale proceeds from that transaction, for the I-94 Industrial Park Project.

It is expected that the acquisition and relocation activities associated with the I-94 Industrial Park Project, pursuant to a Resolution of Necessity previously adopted by your Honorable Body, shall begin immediately upon your approval of the above stated authorizations.

If you have any questions regarding this project please contact Karen Gage of my staff at 224-4521.

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL ON THE ORDINANCE TO GIVE HISTORIC DESIGNATION TO THE JAMES MCMILLAN SCHOOL

Today, the City Council was asked to

vote on an ordinance to grant historic designation to the James McMillan School in the face of a request from the Interim Detroit Public School CEO, Dr. David Adamany, to refrain from taking this action.

I believe that it is horrendous public policy, and an extremely dangerous precedent, to designate a building as historic against the wishes of that building's owner. In this case, while the former school Superintendent apparently supported the historic designation, it is unequivocal that the current school leadership is opposed to such action.

In addition to the opposition of the DPS Interim CEO, City Council was presented with a recent Attorney General opinion (No. 6957) that indicates that historic designation of a public school will have absolutely no impact upon the current owner. Schools are considered State entities and, therefore, are not bound to abide by local zoning matters.

Passing the proposed ordinance produces only two results: (1) appealing to voters by taking a popular action despite the fact that it cannot accomplish the desired goal, and (2) insuring that the Detroit Public School system will have to absorb the cost of any repairs and/or demolition of this building prior to making any disposition decision in the future.

The ordinance does not, nor can it, guarantee the historic nature of the James McMillan School. For this reason, I voted "NO" on the proposed ordinance.

### STATEMENT BY COUNCIL MEMBER KAY EVERETT ON THE PROPOSED ORDINANCE TO ESTABLISH THE JAMES MCMILLAN SCHOOL HISTORIC DISTRICT

I was under the impression that the Detroit Public School District was totally opposed of the Historic Designation of James McMillan School. I recently learned within the last few hours that the hierarchy in the Detroit Public School District did not fully oppose this designation.

This designation will be symbolic and perhaps in the end will not serve the purpose intended. I have and will continue to support the Del Ray community.

With the appointment of Dr. Kenneth Burnley, Chief Executive Officer, of the Detroit Public School District, the future of the school has not been determined. The Detroit Public School District will have the final say in the end.

**City Planning Commission**

May 15, 2000

Honorable City Council:

Re: Extension of time to consider rezoning request of Kmart Corporation (Second Resolution).

On October 26, 1999 the City Council received the report of the City Planning Commission on the petition of Kmart Corporation to rezone a portion of the property generally located on the east side of Telegraph between W. Eight Mile Rd. and Frisbee from R1 (Single-Family Residential District) to PD (Planned Development District) to allow for the construction of a Super Kmart Center and three free-standing commercial buildings. The City Council held a public hearing on this petition on January 18, 2000. However, Council has not taken action pending the completion of a study by the Environmental Affairs Department on the proposed redevelopment and its environmental impact, if any, on the Rouge River and its floodplain. The Michigan Department of Environmental Quality recently approved the project and the study from the Environmental Affairs Department is expected within the next few days.

Section 64.0700 of the Zoning Ordinance states, "If a petition for a proposed amendment is not acted upon finally by the council within one hundred twenty (120) days of the time of receipt of the City Planning Commission's report, it shall be deemed to have been denied unless extended by resolution of the Council." On February 23, 2000, City Council extended the time in which to consider the above-referenced rezoning request.

Attached for your consideration at the Council's May 17, 2000 formal session is a resolution that would extend the period for Council's consideration of this petition for an additional 90 days.

Respectfully submitted,

MARSHA S. BRUHN

Director

By Council Member Everett:

Whereas, the Detroit City Council has not acted on the Kmart Corporation's petition pending the completion of a study by the Environmental Affairs Department on the possible environmental impacts of the proposed redevelopment on the Rouge River and the floodplain;

Now, Therefore, Be It Resolved, that pursuant to Section 64.0700 of the City of Detroit Zoning Ordinance, the Detroit City Council hereby extends the time period for its consideration of the petition of Kmart Corporation to rezone a portion of the property generally located on the east side of Telegraph between W. **Employees Benefit Plan Of The  
City of Detroit**

May 10, 2000

Honorable City Council:

Re: 2000-2001 Health Care Plan Rate Schedules for Active City Employees.

**Plans Offered.** Rates have been submitted by nine (9) health plans that provide medical benefits to active City of Detroit employees and their eligible dependents. New rates are effective July 1, 2000 and will remain in effect through June 30, 2001. These rates have been approved by the Employees Benefit Plan Governing Body and are being submitted for final approval by City Council. The plans and the companies who are offering them are as listed below and all plans are available for selection by all active employees except for the special limitations noted for plans #8 and #9:

- 1) Blue Cross Blue Shield of Michigan (BCBSM); (Traditional plan)
- 2) BCBSM, Blue Preferred (PPO)
- 3) Health Alliance Plan; (HMO)
- 4) BCBSM, Blue Care Network; (HMO)
- 5) OmniCare Health Plan; (HMO)
- 6) Total Health Care; (HMO)
- 7) The Wellness Plan (HMO)
- 8) Coalition of Public Safety Employees Health Trust (COPS Trust); (PPO) [for DPCOA; DPOA and DPOA — allied ranks in the DFFA, only]

- 9) Bankers Life (as provided through the COPS Trust); (Traditional plan [for LSA only])

**Attachment A — Monthly Rates Active Employees:** Reports the total amount of the monthly rates being charged for each plan, the City's portion of that amount and the amount the employee pays.

**Attachment B — Bi-Weekly Rates Active Employees:** Reports the total amount of the bi-weekly rates being charged for each plan, the City's portion of that amount and the amount that will be deducted from the employee's bi-weekly paycheck.

**Rates Explanation and Cost-Sharing Determination.** The City pays the full cost of actual claims incurred for Blue Cross Ward, Blue Cross Semi-Private, and Blue Cross PPO services. Therefore, the rates shown for these three plans are pre-experience illustrative rates. In addition to such costs, the City is also on an administrative services contract (ASC) for these plans and therefore, pays a monthly administrative fees for these coverages.

The Blue Cross Ward service rates are the basis for calculating cost sharing between

the City and the employees. This year, as has happened before, the rates changes for the Blue Cross Ward service was affected by the use of \$2,000,000 from the Rate Stabilization Fund. The use of these funds was approved by the Employees Benefit Plan Governing Body on April 25, 2000. By applying this amount toward the payment of estimated FY 2000-2001 charges, the Blue Cross Ward service rates were lowered 3.56%, from their recommended 13.72% increase level to the 10.16% rate that was eventually approved.

A comparison of the changes in monthly Blue Cross Ward service rates that will be charged for active General City Employees' coverages and the average percentage changes in the rates, by category, is as follows (NOTE: The amounts shown below vary only slightly for the rates that are charged for active Uniformed employees with almost identical coverage features):

**Blue Cross Blue Shield Ward Rate Comparison**

<u>Coverage</u>	<u>2000/2001</u>	<u>1999/2000</u>	<u>% Increase/ (Decrease)</u>
1 person	\$296.75	\$269.61	10.06%
2 persons	\$623.22	\$563.96	10.51%
Family	\$697.46	\$630.89	10.55%
Sponsored Dependent	\$323.12	\$293.19	10.21%

**Attachment C — Percentage Changes (Increase or Decreases) From Last Year's Rates:** Reports the total percentage change for the monthly rates to be charged for each type of coverage contract in each plan, the percentage change in the City's monthly cost for each plan, and the percentage change in the employee's monthly cost for each plan.

Each year the health care companies are required to explain and justify their rate changes. This year, the companies submitted their rates on or about March 27, 2000. Subsequent to that date, some review and discussion of rates was undertaken between the City and several of the companies offering HMO plans, and as of May 3, 2000, and May 5, 2000, respectively, two of those companies withdrew their original rates and submitted lower rates.

As of April 9, 2000, the City's former Benefits Manager, terminated her employment with the City of Detroit and that position has not yet been re-filled as of today. The rates contained herein were developed subsequent to the Benefits Manager's departure. Therefore, questions concerning any of these matters should be directed to Roger N. Cheek, Labor Relations Director, who is currently fulfilling the temporary role of directing the activities of the Benefits Division.

Re: Request to amend the 1999-2000 Official compensation schedule to establish a pay rate for the classes of Juvenile Service Cadet (33-90-50) and Juvenile Service Cadet (Special Service) (82-54-50).

On February 21, 2000, the Human Resources Department adopted the new classifications of Juvenile Service Cadet (33-90-50) and Juvenile Service Cadet (Special Service) (82-54-50).

The Detroit Police Department concurs with these findings and requests approval of the classifications and compensation rate.

Re: Request for approval of 2nd year grant award from the U.S. Department of Transportation, National Traffic Safety Administration (NHTSA), Buckle Up Detroit.

The Detroit Police Department is requesting approval of a 2nd year grant award from the U.S. Department of Transportation, National Traffic Safety Administration to continue the "Buckle up Detroit" seat belt and child safety seat enforcement campaign. The project is a collaborative law enforcement effort with participation from the Michigan State Police and the Wayne County Sheriff's Department. The Detroit Police Department is the lead agency in this campaign.

The total amount of the 2nd year grant is \$250,000 with no cash match. This is an increase from the previous year's total of \$240,182, and reflects an increase in funding for personnel and a decrease for non-personnel from the first year budget. The Department will receive \$122,025. The Michigan State Police will receive \$61,241. The Wayne County Sheriff's Department will receive \$66,734.

If approved, the 2nd year grant will be incorporated with the first year award extending the performance period from September 30, 1999 through September 30, 2000 to September 30, 1999 through September 30, 2001.

Copies of the grant modifications for each member of City Council has been provided. I am requesting City Council's approval for continuation of the "Buckle up Detroit" initiative. Re: The Domestic Violence Unit requests to apply for the Byrne Memorial Formula Grant Program for fiscal year 2000.

The Detroit Police Department's Domestic Violence Unit is applying for a Byrne Memorial Grant through the Michigan Department of Community Health, Office of Drug Control Policy. The total amount of funds requested is \$1,039,541.00. The Byrne Memorial Grant would provide \$779,655.80. The department would be responsible for a cash match of \$259,885.25. Matching funds have been requested in the department's 2000-2001 budget under organization number 370710 and object number 72110. The budget department has approved these funds. The Byrne Memorial grant is a four-year program that must be renewed every year. The cash match for the first year is 25%, the second year is 40%, the third year is 60%, and the fourth is 75%. It is renewable for only four years.

The funding for this program will allow the Domestic Violence Unit to expand their service by incorporating three additional precincts to the number of precincts they already serve, as well as implementing two secondary response units, equipped with specially trained uniformed domestic violence police officers and a crisis intervention specialist. The Crisis Intervention Specialist will conduct on-site evaluations and assessment of the victims and children and coordinate services, such as PPO's, referrals, counseling, etc.

Copies of the grant application for each member of City Council has been provided. Re: Request City Council for a Resolution approving the Community Oriented Policing Services (COPS) Initiative H.R. 3144.

The Detroit Police Department urges the City Council to support a resolution for the extension of the Community Oriented Policing Services (COPS) program, which was created by the 1994 Crime Act. The bill enacted by Congresswoman Debbie Stabenow introduces legislation to reauthorize the COPS program adding 50,000 police officers to America's streets, further ensuring the safety of our communities.

Since 1995, the Detroit Police Department has received over 230 additional officers as a result of the grants received through the COPS initiative. The COPS program has allowed Michigan communities to hire 3,145 police officers. The COPS program has been successful for a number of communities across the State of Michigan, including the City of Detroit.

The COPS program will terminate this year if funding is not approved by Congress. The Stabenow bill authorizes \$1.15 billion per year, through the year 2005, to continue this initiative. The COPS program will authorize \$600 million for more police on the street, \$350 million for new law enforcement technology to enhance crime fighting efforts, and \$200 million for community prosecutors, to complete the work of the police officers.

Therefore, it is respectfully requested that your Honorable Body adopt the attached resolution supporting the Stabenow bill, COPS initiative H.R. 3144.

Re: Petition No. 0014 — Mike Yousif, requesting commercial alley closure in the area of W. Grand River, Sussex, Whitcomb and Lyndon Avenues.

Petition No. 0014 of "Mike Yousif", request for the conversion of the east-west public alley, 16 feet wide, in the block bounded by W. Grand River Avenue, 100 feet wide, Sussex Avenue, 60 feet wide, Whitcomb Avenue, 100 feet wide and Lyndon Avenue, 60 feet wide, into a private easement for public utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The petitioner plans to use the paved street return entrance (into Sussex Avenue) and request such remain in their present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary. The closing of the alley is necessary to facilitate the re-development of an existing structure into a True Value Supermarket.

The Detroit Water and Sewerage Department (DWSD) reports, there is an existing 12" sewer in said public alley, but has no objection to the requested conversion to easement provided that an easement of the full width of the alley is reserved.

All other City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

Petition No. 1208 of "Health Alliance Plan (HAP)" at 2850 W. The request was approved by the Solid Waste Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

 Re: Petition No. 1573 — Aunt Mid Produce Company, requesting vacation of W. Lafayette in the area of Springwells and the Grand Trunk Railroad.

Petition No. 1573 of "Aunt Mid Produce Company" 7939 West Lafayette, Detroit, Michigan 48209, requests for the conversion of West Lafayette Street, 50 feet wide, between Springwells Street, 66 feet

wide, and the New York Central Railroad into a private easement for public utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

The petitioner plans to use the paved street return entrance (into Springwells Street) and request such remain in their present status. The petitioner shall pay all incidental removal costs whenever discontinuance of use makes removal necessary.

City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Honorable City Council:  
 RE: Petition No. 1247 - Hamilton Anderson Associates, requesting a right-of-way encroachment for the Penobscot Building, the Ford Building and First National Building, which includes planting of trees and the installation of new granite pavers in the sidewalk areas.  
 Petition No. 1247 of "Hamilton

Anderson Associates" 1435 Randolph, Suite 200, Detroit, Michigan 48226, and its contractor "Torre & Bruglio, Inc. request approval of treewell encroachments and deviation from standard specifications for sidewalks on the west side of Griswold Street (Penobscot Building), 90 & 105 feet wide, between West Fort St., 100 feet wide, and West Congress, 60 feet wide; also, the east side of Woodward Avenue (First National Building), 190 feet wide, between West Fort St., 100 feet wide, and West Congress, 60 feet wide, and the north side of West Congress (First National Building), 60 feet wide, between Woodward Avenue, 100 feet wide, and Bates Street, 69.28 feet wide, to improve the entry to their buildings. The petitioner has removed the Ford Building request from this petition.

It is necessary by Detroit Code to request City Council approval for encroachments and nonstandard conditions in public rights-of-way. The plan for encroachments into the Woodward Avenue right-of-way south of W. Fort Street will need MDOT permits and approval.

The petition was referred to the City Engineering Division - DPW for investigation and report. This is our report.

The Traffic Engineering Division - DPW requires a minimum distance of 2'-6" clearance between the curb and tree well encroachments and 7' clear space for pedestrian traffic. The Petitioner has supplied information on ADA approved tree gates which will satisfy this condition.

All work shall be done in accordance with City Engineering Division- DPW standards and specifications as they apply to brick or granite pavers. Special provisions are a part of this resolution. The petitioner must submit plans to the City Engineering Division - DPW, Street Design Bureau for approval before any construction is to begin.

All City departments and privately owned utility companies reported that they have no objections to the requested changes in public rights-of-way or that they have reached satisfactory arrangements with the petitioner regarding their installations therein.

An appropriate resolution is attached for consideration by your Honorable Body.

Respectfully submitted,

**RESOLUTION IN SUPPORT OF REPARATIONS TO DESCENDANTS OF AFRICAN/AFRICAN AMERICAN SLAVES AND TO URGE THE UNITED STATES CONGRESS TO CONVENE HEARINGS ON THE ISSUE OF REPARATIONS, IN SUPPORT OF LEGISLATION TO AUTHORIZE SUCH REPARATIONS**

By ALL COUNCIL MEMBERS:

WHEREAS, These United States, though convened and organized based on the fundamental freedoms of life, liberty and the pursuit of happiness, were but for some two hundred forty-four years permitted the unmitigated violation of basic rights and humanity for a people based on color of skin, including the use of one- "drop of blood" lineage legal requirements, race based laws to determine property rights, marriage, access to education, employment, housing, travel, public accommodations, the right to vote, ethnicity and national origin, through the enslavement of hundreds of thousands of members of tribal peoples from the continent of Africa, beginning in 1619; and

WHEREAS, The governments of the United States, and its member states have failed to acknowledge or bear responsibility for the enslavement and the effects of enslavement of Africans and Americans borne of Black African descent for the enrichment and the development of this nation, its economy and wealth; and

WHEREAS, The institution of slavery has promoted the ideology of white supremacy as a governmental and personal interest to be served through the furtherance of enslavement, *de jure* and *de facto* discrimination and degradation based on skin color, race and ethnicity; and

WHEREAS, The most repugnant and overt effects of enslavement are still borne upon an entire group of people also borne "Americans" but are of Black African descent, "freed" by virtue of *de jure* government action through the issuance of the Emancipation Proclama-

tion January 13, 1863, through the continuing practices and effects of *de facto* discrimination on this day in the year 2000, some 137 years later; and

WHEREAS, Former slaves and their descendants have zealously but unsuccessfully sought to obtain reparations promised, but unfulfilled since the end of the Civil War, through the courts of these United States, the halls of government, and in the hearts and minds of righteous and competent people; and

WHEREAS, It is the history of the government and the legal system of this great country to recognize its wrongs through financial recompense to redress such wrongs, as evidenced by reparations to Americans of Japanese descent who were wrongfully interned in prison camps in this country during World War II, through latter day payments for broken, and dishonored treaties with Native Americans, through support of reparations for descendants and survivors of the Holocaust in Europe by various governments; and

WHEREAS, African and African American slaves and their descendants have served this country well at all times, including war, development, prosperity and peace — even though deprived of basic freedoms, respect, property rights, the right to vote, to live in places of choice, to be gainfully employed, or employed without being subject to overt and covert violations of civil rights throughout the history of this country; and

WHEREAS, The history of discrimination and acts of violence and indignities against the basic humanity of a race of people has continuing negative effects, even 137 years after the legal end of slavery; reflecting itself in the continuing need to assure affirmative actions on the part of business and government to provide access to equal employment, educational opportunities, fair access to housing, lending access, insurance access — the basic necessities to sustain one's self and family; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council urges the United States Congress to immediately hold hearings, and to consider and adopt legislation that will authorize a program of reparations for the descendants of Africans and African/Black Americans who were enslaved in this country; the Clerk is requested to transmit a copy of this resolution to the Michigan Delegation of both Houses of the United States Congress, to the President and Vice President of the United States, and to the Hon. Dennis W. Archer, Mayor, the Detroit delegation of both Houses of the state legislature, Randall Robinson of TransAfrica, "Reparations Ray" Jenkins, State Rep. Derrick Hale, Nancy Barbour, Lobbyist.

2000-2001 BUDGET**

**Budget Department**

May 10, 2000

Honorable City Council:

Re: Correction of Errors and Amendments to the 2000-01 Mayor's Budget.

After further review of the 2000-01 Budget presented to City Council on April 12, 2000, errors have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors which must be corrected as an amendment to the Recommended Budget. Second, there are typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections will be identified with an asterisk (\*), and will be addressed in the attached resolution.

On pages 303 and 305 of the City Council Presentation and pages 37-10 and 37-23 the following changes need to be made:

00119 Management Services Bureau	\$19,094,144	\$19,095,776	\$1,632

**Statement of Council Member Sheila M. Cockrel  
in Support of the 2000-2001 Community Development Block Grant  
May 17, 2000**

I am deeply troubled by the City Council's process in analyzing, reviewing, and making budgetary decisions regarding the appropriations for the Neighborhood Opportunity Fund (NOF) and the Community Development Block Grant (CDBG). However, in my judgment, enough worthy organizations were funded in this year's process so that I could support the overall Consolidated Plan.

As was the case last year, I again call upon my colleagues to engage the issue of making policy-based decisions about allocating NOF and CDBG funds. I plan to raise this issue when the City Council begins its budget deliberations process for 2001-2002 in July of this year. Raising the issue so early in the year will give us a chance to incorporate any new criteria or policy considerations into the CDBG application process for 2001-2002.

Taking a step backward, this year's CDBG process saw some members of the City Council continually re-open what had been final decisions about funding allocations. While some of the benefiting groups are worthy organizations, it is still unconscionable to me that Council Members continued to re-visit individual allocations up until the last afternoon of deliberations.

Additionally, as I indicated last year, the City Council must actively engage the discussion about the use of CDBG funding for city departments. Personally, I do not begin from the premise that City Departments are unsuitable to receive CDBG funding. Just as several non-profit organizations provide tremendous and much needed services in our community so do city departments. For example, NOF contracts are not written, and land is not sold to non-profit housing corporations without adequate staff in Planning and Development; homeless shelters are not inspected without sufficient staff in Human Services; and blight is not removed from our city's neighborhoods without demolition funding in the Department of Public Works.

On the positive side, however, I am pleased with the City Council's policy-based stance on the abatement of lead-based paint included in this year's home repair funding. I was an original supporter of Wayne State University's active role in analyzing the CDBG/NOF process, under the able leadership of Professor Lyke Thompson. This year, Professor Thompson presented a detailed report to the City Council on the hazards associated with lead-based paint, including detailed maps on the areas of the City that are most affected by this condition. As a result of the report, the City Council made a significant and sound policy decision to use CDBG funds to address this problem which is particularly dangerous for our city's children.

Going forward, I hope that the lead abatement discussions during this year's CDBG cycle will serve as a model for future CDBG/NOF funding years. This is precisely the policy-based decision making that I have been calling for during the past several years.

**Statement For The Record  
Mayor's 2000-2001 Budget  
Maryann Mahaffey, President Pro Tem  
May 17, 2000**

The Mayor's 2000-01 budget, lacks meaningful measurements for the city departments performance, past or present. Goal based governance is not in evidence and there is no activity based costing to provide tools for measuring performance. Without those, it is difficult to accomplish meaningful budgetary planning for the future.

The City Council continues to be stymied by city departments' failure to answer questions in a timely manner. For example, the Public Lighting Department continues to insist that underground wiring is too expensive. Yet, cities across the country are praising the practicality and inexpensiveness of new "plastic" pipe for encasing underground wires. We have asked for the price per foot of "plastic" pipe in order to compare it to the cost we currently pay for the cement casing we continue to use. The answers each time are "it costs too much"— but no figures are provided for the per foot cost, to allow for analysis and evaluation.

Currently both the General Fund and the Community Development Block Grant (CDBG) budget processes are plagued by significant obstacles to rational decision making about budget allocations. These include lack of clearly defined priorities, as well as lack of substantive and evaluative information about the performance of city departments on which to make budgetary decisions.

Through the years, City Council has proposed a variety of solutions. Some have emerged from City Council Community Task Forces. We have also discussed priorities and agreed on some. It is unlikely the City Council will agree on any three priorities for any given year. However, first and foremost what is needed to determine program priorities is timely information that answers the questions raised.

Community Development Block Grant funding is decreasing, community needs are escalating, and city departments are competing more fiercely for the same, limited "pot" of money. Instead of giving blanket approval to Administrative requests for city department funding, Council needs to require that these city departments meet the same accountability and performance measures and standards as is required from the community groups who seek CDBG funds.

One way to improve upon our current budgetary information-gathering processes is by establishing City Council Committees, as mandated in the 1997 Charter. Such committees can be more thorough and their efforts more concentrated than a large Committee-of-the-whole. In order to establish the committees the City Charter mandates. However, it will require council members to trust one another and respect a variety of perspectives.

### **2000-2001 Legislative Budget Authorizations, Policy and Planning Resolution**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held extensive hearings and deliberations on the 2000-2001 Budget as proposed by his Honor, the Mayor; and

WHEREAS, On this day, May 17, 2000 the Detroit City Council has adopted a budget that is based on sound budgetary considerations consistent with sound budgetary principals for municipalities well reasoned financial assumptions based on past performances, stated goals and projections of city departments, and the continued strength of the current economy; and

WHEREAS, The Detroit City Council has adopted a budget that incorporates the City Council's fiscal and public policy priorities to provide for continued enhancements of service delivery to the citizens and the business community of Detroit, particularly in the areas of increased security services at Senior Citizens Housing locations; affordable public transportation for Senior Citizens, the physically challenged, those with vision impairments and Detroit Students; neighborhood and commercial strip rehabilitation and redevelopment; improved maintenance of recreation facilities; enhanced youth services; improved maintenance of city park lands, forestry and facilities; and many other quality of life enhancements, including Public Health Department accreditation and services, additional Buildings and Safety Engineering inspectors and increased Emergency Medical Services through additional staff and trucks; and

WHEREAS, The Detroit City Council adopted its 2000-2001 Budget employing a modest reallocation of \$10.1 million over that proposed by the Mayor, while maintaining its focus on the improvement of services to the citizens of this great city; and

WHEREAS, The Detroit City Council is alarmed by the fact that 4,955 Detroit children have been tested and found with dangerously high blood lead levels that can lead to decreased IQ, reduced performance on standardized tests, motor development delays, behavioral problems, and impaired growth and hearing — all of which play a significant role in children's ability to learn and to succeed in society (one key study found that a 10-point increase in blood lead levels at age two was related to an 8.9 point decline in educational achievement at age 10);

NOW THEREFORE BE IT RESOLVED, That the Detroit City Council's 2000-2001 Budget provides for the following as examples of all budgetary action taken:

1. That to address this major threat to the health, safety and welfare of Detroit's children the City Council has 1) passed a resolution urging the Congressional delegation to free up additional funding for this city-wide problem, 2) allocated \$367,000 in Community Development Block Grant funds to be used to support HUD's lead abatement grant to the Housing Commission for rehabilitation of those houses, and 3) made a public policy decision that, in new applications from homeowners for Home Repair funds, priority should be given to those houses in which children are found to have blood lead levels of 10 micrograms per deciliter and above;

2. That in order to meet this urgent need, City Council reduced or eliminated funding to Home Repair groups that had been recommended for such small amounts that they were not cost-effective, while, at the same time, increasing funding where necessary to enable completion of existing Home Repair applications at the Planning and Development Department, funded both the Low Moderate Income Home Repair and Senior Citizen/Emergency Home Repair programs, and increased funding to the

Southeast Michigan Coalition on Safety and Health specifically to provide for lead cleanup and training of staff;

3. That as the 2001-2002 Community Development Block Grant allocations include the final payment for the St. Joseph Hospital settlement, it is the City Council's intent for 2001-2002 to allocate these freed up funds for neighborhood activities.

4. That the City Council requests that, as necessary, the Administration seek HUD waivers from the 15% public services cap for the following groups that provide services within the Empowerment Zone: Alternatives for Girls, Association of Chinese Americans, Bridging Communities, Inc., Cass Community United Methodist Church, Cass Corridor Youth Advocates, Citizens for Better Care, Core City Neighborhoods, Delray United Action Council, Latin Americans for Social and Economic Development, Inc., Latino Family Services, Michael Searcy Community Center, New Day Multi Purpose Center, People United as One, and Young Detroit Builders Youthbuild; and

5. That the City Council increased allocation recommended by the Mayor to community organizations by decreasing the Mayor's recommended Community Development Block Grant budget allocation to the Planning and Development Department; this was possible because the department will be able to draw on unspent funds from prior years' allocations to its administration account;

6. That an additional \$65,000 was allocated to the Human Rights Department for additional staff to perform unscheduled on-site inspections for Executive Order 22 compliance on City of Detroit Public Works and public-private partnership projects that are subject to the requirements of Executive Order 22;

7. That the amount of \$588,000 has been allocated for Human Services from the General Fund, rather than Community Development Block Grant/Neighborhood Opportunity Funds; this will enable more of Community Development Block Grant/Neighborhood Opportunity Fund monies to be made available for neighborhood projects;

8. That the Department of Transportation (DDOT) will receive an additional \$5.3 million to support the Fare Reduction and Elimination Initiative (FREI) ordinance adopted at the beginning of this calendar year; this initiative is a major priority of the City Council, and one of the many initiatives adopted by the City Council in this budget, consistent with the intended uses of gaming revenue for improvements in neighborhoods and the quality of life for our citizens;

9. That the Buildings and Safety Engineering Department will receive an increased allocation of \$140,000 for two (2) additional sign inspectors to increase enforcement of sign permits and proper signage throughout our neighborhoods;

10. That the Youth Department will receive an additional \$360,000 to start an after-school recreation program for youth in the Plymouth-Evergreen area; this program will be similar to the Nobel program previously implemented by the Department;

11. That the Department of Public Works has been allocated an additional \$152,000 for the widening of Poe Street and lengthening of the Poe Street median;

12. That there is an allocation of \$100,000 to the Communications and Creative Services Department (CCSD) to assist the City Council in marketing its Keep Detroit Beautiful anti-litter campaign;

13. That funding has been allocated for the second year for a Sr. Government Analyst with a Masters Degree in Public Health to work as coordinator/liason between Environmental Affairs Department and the Detroit Department of Health on environmental issues; this funding is now placed in the Detroit Department of Health; and

14. That the City Council Research & Analysis Division budget was restored to its original request that included increased funding for upgrades in its Staff Analyst V position. All existing positions remain with funding to fill any of the positions as the Director deems necessary.

15. That the City Planning Commission budget was restored to include an added position of City Planner III.

**BE IT FINALLY RESOLVED**, That the Detroit City Council will begin to consider the following issues to monitor its priorities and to determine its future priorities starting in July, 2000, during its budget discussions, including the following issues:

16. That the Pension Department is requested to obtain an actuary study, to be submitted to the City Council by July 1, 2000 to determine the number of General Fund retirees who currently receive pension benefits in an amount that is below the federally government criteria for the poverty level income of one person, per annum; this matter is to be discussed by the Council during its budget discussion in July, 2000;

17. That the Pension Department is requested to obtain an actuary study for the pension improvements sought by the Police and Fire retirees during the 2000-2001-budget deliberations; this study is to be submitted to the City Council by July 1, 2000 for further consideration during the Council's July budget discussions;

18. In an effort to increase the self-sufficiency of the department, the City Council will commission a study of the current rate of fees for the Buildings and Safety Engineering Department by the Board of Rules, including a comparison of similar fees in cities of sim-

ilar size, service needs and utilization; the study report is to include any recommendations for amendments to existing ordinances and fees structure for action by the City Council and should be completed prior to City Council's consideration of the 2001-2002 budget;

19. The Finance Department, Purchasing Division is requested to prepare a report evaluating the impact of the amendments to the Purchasing Code, specifically the Local Business Preference and Professional Services Contracting; the report should advise whether the City has been successful in increasing its Detroit Based, and Detroit Based Small business and professional services utilization. Consideration will be given by the City Council to establishing a monitoring division and Small Business Development assistance units during the 2001-2002 fiscal year, based on the findings and recommendations received as the result of the Purchasing Department's report;

20. A comprehensive study of the entire budget will be initiated by the City Council, beginning in the next fiscal year, to consider program budgeting appropriations and the manner and degree to which allocations will be placed in separate allocations.

21. The Public Lighting Department is requested to implement a pilot project for the use of plastics in the underground wiring in historic districts;

22. The City Council in recognizing the Combined Sewer Overflow (CSO) construction project for Patton Park will not be completed until late in fiscal year 2000-2001, did not include additional funding for restoration and improvements to the park once the CSO work is completed; however, the City Council will expect to see an allocation included in the Water and Sewerage Department budget for fiscal year 2001-2002 for park restoration and improvements. Assurances will be requested in the next fiscal year from W&SD will include funds for this work;

23. The City Council will continue to press for increased traffic enforcement along E. Jefferson/Belle Isle and West 7 Mile areas;

24. The City Council requests that the Board of Police Commissioners and the Detroit Police Department undertake a benchmarking study and analysis of expenditures to date for the Narcotics Units; this matter will be a priority issue for the July, 2000 budget discussions;

25. The City Council reiterates its request for greater detail on the nature of the positions and costs for each of the additional 15 positions for recreation centers approved in the 2000-2001 budget;

26. The Department of Public Works and Budget Department are requested to recommend a source of funding for a 2000-2001 waste receptacle project for both sides of Livernois from 8 Mile to Fort Street.

The City Clerk is requested to transmit a copy of this resolution to the Office of the Mayor, all City Council Divisions, the Budget Department, and the Pension Department.

### **Detroit City Council 2000-2001 Budget Address Council President Gil Hill, May 17, 2000**

#### **Introduction**

The City of Detroit is poised to regain its national stature among the great cities of the United States. There are many reasons for this resurgence, an improved economy, all time high employment and major investment. But, no factor is as important as the resilience of our people.

Detroit's strength is its people working in civic, community and religious organizations that have made the difference in Detroit where city government couldn't by itself.

When arson savages our neighborhoods, school girls need protection and our city is in need of cleaning, it is our citizens that roll up their sleeves to help.

When the need for Low and Moderate Income Housing rehabilitation and new construction increased, Detroiters, acting through non-profit housing corporations stepped up to address the need. Hundreds of units of new housing are being constructed or are on the drawing board.

When the need to assist Detroiters with educational programs for youth and services to the elderly, non-profit service organizations moved to address the needs of the community.

I want to publicly thank all of the community volunteers, community organizers, church leadership and their congregations that take the time out of their lives to make Detroit a better place to visit, shop, live, play, learn, and make a living.

Investment in our neighborhoods and along our commercial thoroughfares is also increasing, which provides the resurgence of convenient, local and comparable retail shopping opportunities for our residents.

Ground has been broken on the \$800 million Campus Martius project on the Kern, Hudson and Monroe Blocks and Compuware is building its corporate headquarters with its 6,500 employees to follow in downtown Detroit.

Comerica Park, the new home of the Tigers, is open and construction is underway on Ford Field, the Lion's stadium, General Motors Corporate Headquarters Renovation continues to provide thousands of construction jobs and new investment.

**Budget Examined**

On April 12, 2000, the Mayor presented to City Council a proposed 2000-2001 operating budget of \$2.7 Billion that only anticipates little or no budget surplus.

Over the past month, City Council has examined and reviewed this proposed budget in deliberations with each of the department directors. Additionally, the City Council has received and reviewed the budget reports and recommendations of the Ombudsman, the Auditor General, the City Planning Commission, the City Council Research & Analysis Division and the City Council Fiscal Analyst. The Fiscal Analyst has examined the Casino Revenue Task Force report prepared internally by the Finance and Budget departments and determined that a predicted \$860 million shortfall over ten years is overstated depending upon which set of economic assumptions are used.

Further, the Fiscal Analyst has recommended that the City Council be cognizant of the Revenue Task Force report, however, the ten year findings in this report not be used to forecast spending trends in the proposed and future budgets.

The Mayor's proposed budget contains \$80 million dollars to be generated by the Casino Taxes based on the operation of the three temporary casinos. The Mayor convened a Casino Revenue Task Force and incorporated directly \$2 million dollars of their recommendations into his proposed budget. The remaining \$78 million in casino revenues have been budgeted throughout the General Fund budget without designation. The Mayor has provided "examples" of how the Casino Revenues might be allocated in the General Fund and to what activities, but no one examining the Mayor's Budget can directly attribute casino revenues to a particular service and/or activity.

As the Mayor has presented this budget, it includes numerous funding uncertainties. These budget uncertainties include unresolved labor contracts, higher than expected pension contribution obligations and a pending arbitrator decision for our Police and Fire uniformed personnel.

The citizens have expressed their budget priorities to the City Council through e-mail, letters, facsimiles and in two public hearings on the Community Development Block Grant and the General Fund Budget.

Based on all of this information, City Council acted to retain all but, \$10.1 million of the Mayor's \$2.7 billion proposed budget. The City Council changes to the proposed budget represent less than one-half of one percent of the Mayor's Budget. However, these changes we adopted today, send a clear message of the priorities the City Council will expect to be carried out in the upcoming fiscal year.

**Community Development Block Grant**

Historically, the greatest amount of budgetary changes have been in the Community Development Block Grant Program.

The 1974 legislation creating the Community Development Block Grant program in the Department of Housing and Urban Development limits the amount of public service spending to 15% and limits the amount of administrative spending to 20% of the entitlement amount in any one year. This spending limitation needs to be reexamined in light of the Federal and State actions over the past twenty years, which shift the burden of providing essential services and administration of the services to low and moderate income citizens to local government.

Council created a Commercial Strip Revitalization Task Force and for the past year it has compared innovative and community based models of neighborhood and retail redevelopment in other cities and has made various recommendations. Council has provided \$240,000 to begin the first step toward putting these recommendations to work in our neighborhoods. Clearly, not all local shopping districts in our neighborhoods will be good candidates for this program and many will have alternative uses, but some strips adjacent to our new housing construction in the neighborhoods are viable and can be saved.

The City of Detroit will receive \$52,929,201 in the 2000-2001 budget year for the Community Development Block Grant.

As the need for programs addressing our low and moderate income residents has increased, as shown by the increased request for public service dollars, the Council's job of allocating funding has also increased and is extremely difficult.

Further complicating the funding question is the requirement of HUD that all rehabilitation of homes must meet their new lead control standards. The new lead standards not only apply to rehabilitation funding to be allocated in this proposed budget, but any previously allocated home rehabilitation funding not under contract by September 14, 2000.

The new control standards are designed to reduce the amount of lead that our children ingest leading to learning disabilities and nervous system damage. The cost of these new lead control standards in the rehabilitation of homes will dramatically increase the cost of each project. While lead contamination is fairly widespread across the city, the most heavily contaminated homes are older homes, mainly in low and moderate income neighborhoods where many layers of lead based paint have accumulated both on the exterior and interior walls and doors.

City Council has chosen to provide sufficient home funding totaling \$4.79 million to allow fifty six (56) community groups and non-profit housing corporations to complete

existing home repair grants and include funding for the mandatory lead control standards. Ultimately, fewer homes will be rehabilitated in the future at a greater cost.

City Council chose to fund the Planning and Development Department at less than the Mayor's requested amount based on positions that will not be filled in fiscal year 2000-2001.

City Council funded a total of 245 community groups representing \$19,106,410 or 36% of the Community Development Block Grant.

The City Council funded the Block Grant activities in the Consolidated Plan as follows:

Home Repair programs were allocated \$4.8 million;

Public Facility Rehabilitation programs were allocated \$1.7 million;

Public Service programs were allocated \$8.6 million;

Public Improvement programs were allocated \$11.1 million.

Administration and Planning programs were allocated \$9,435,500 million representing 17.86% of all funding.

The Council concurred with all the other elements of the Consolidated Plan as follows:

\$1.7 million for Emergency Shelter Grants (ESG)

\$1.5 million for Housing Opportunities for Persons with Aids (HOPWA)

\$16.6 million to operate the HOME program which includes programs to rehabilitate homes, rental properties and first time home ownership programs.

#### **Investing in Our City Personnel and Providing Improved Service to Our Citizens**

Earlier this year the City Council adopted an ordinance that amends the fare structure for the Detroit Department of Transportation. The goal of the Fare Reduction Elimination Initiative (FREI) ordinance was twofold, one (1) to restore the policy of allowing seniors, the physically challenged and those with vision disabilities to ride our buses free and two (2) to reduce the student fare to Detroit Students.

The Mayor didn't veto this ordinance, but he did not allocate any additional General Fund subsidy in his proposed budget which is a departure from the historical practice. Therefore, in the adoption of this budget the City Council has provided an additional \$5.3 million in the Department of Transportation to avoid an increase in the operating deficit created by the Mayor's proposed budget.

In taking this action, the City Council is reaffirming its charter mandated responsibility of setting priorities within the budget. With the amendment of the Transportation Fares and increased funding in the Department of Transportation, the City Council has chosen to place both Seniors, the Disabled and Students first in our budget priorities.

Further, City Council expects that between now and July 1, 2000, the Department of Transportation will take the necessary steps to implement the fare reductions and notify the public of the new fare policy.

In many areas the City Council has concurred with the Mayor's budget priorities by adopting this budget.

This budget contains funding to increase the reliability of our service delivery through additional staffing and the purchase of new equipment.

The Department of Public Works will be adding twenty (20) staff positions to increase the reliability of Bulk Collection in the neighborhoods and seventeen (17) positions are being added to rodent control.

The Health Department will receive an additional \$4.6 million in funding and twelve positions to ensure that it will receive State Accreditation ensuring that grant funding is maintained and we continue to provide services to our citizens.

The Human Resources Department will receive an additional \$4.4 million in funding and eighteen (18) new positions to aggressively maintain and increase the City's skilled trades personnel throughout city departments.

The Public Lighting Department will receive an additional \$6.1 million to continue improvement of overall street lighting and its residential street lighting improvement programs.

The Information Technology Systems Department will receive \$13 million to continue the implementation of the Detroit Resource Management System (DRMS) which is our core financial system. This project has experienced problems and cost overruns, but it is critical to stabilizing the City of Detroit's ability to track and reduce costs through effective management of financial assets and spending. Therefore, City Council did not reduce any funding in this program, but expects to see DRMS live up to its potential.

The Detroit City Council is very concerned with the cleanliness and appearance of our city. Therefore, we allocated \$100,000 to begin a litter campaign to bring attention to all of our citizens the importance of Keeping Detroit Beautiful. During this coming fiscal year, we will be looking at different strategies to improve the cleanliness of the city.

#### **Foreclosure of Delinquent Properties**

Council has added three (3) assistant corporation counsels to the Law Department budget in order to expedite the foreclosure process on tax delinquent properties. Obtaining title to a property and expeditious resale or disposition of tax delinquent properties, both residential and commercial, will provide the City of Detroit with revenues while removing sources of blight in our neighborhoods.

**Pricing of City Owned Properties**

Council has determined the need for and is funding one additional appraiser in the Planning & Development Department in order to assist the Real Estate division with its efforts to accurately set sales prices for city owned properties.

**Ethics Commission Funding**

In anticipation of adoption of the Charter mandated Ethics Ordinance, \$250,000 is being funded in the Non-Departmental Budget for the creation and operation of this new commission. This commission will provide advisory opinions and hear complaints against public servants in an attempt to improve public confidence in City Government. The Commission may also provide recommendations on city policies involving ethical matters.

**Recreational Reinvestment**

The City Council recognizes the importance of recreation to our youths, adults and seniors. A City Council Recreation Task Force comprised of citizens, planners and city department personnel are in the process of presenting master plan options for Belle Isle. Additionally, they are looking for ways to improve recreational programs in all facilities. The City of Detroit operates and maintains more than 500 recreational facilities including neighborhood parks, tot lots, play fields, major parks and recreation centers. These recreational resources have for years served our city residents and those who visit our city.

The City Council concurs with the Mayor's proposal to add fifteen (15) new positions to ensure that recreation centers and parks are clean and maintained in a timely matter. These positions are in addition to the 10 Building Attendant Positions City Council added last year.

The overall level of cleanliness and maintenance of our centers and parks will be improved by the addition of this on-site staff.

Given the lack of required resources to build needed recreation facilities, Council added \$360,000 to the Youth Department's budget to fund an After School Program. This funding will allow for a comprehensive recreational program to be provided at an existing Detroit Public School. The need for additional neighborhood recreational programs is simply too great and can not be delayed. Providing these programs through existing public schools is the most expeditious way to respond to the needs of our youth.

**Improving Public Safety**

The Police Department budget contains one hundred and forty nine (149) new police officer positions as well as funding to increase the effectiveness of the anti-gang unit and the Narcotics Bureau.

Realizing the importance of providing a wholesome family atmosphere in our city parks, the Council added \$25,000 in funding for bikes, radios, equipment and uniforms in the Police Department budget to allow for an additional ten (10) officers to be assigned to the bicycle unit. These officers will be assigned to patrol Belle Isle and other parks. These police bicycle units provide a visible presence and assurance to patrons of our parks and have been highly effective in policing crowded areas such as parks where use of a standard patrol vehicle is difficult.

The Emergency Medical Services (EMS) will receive new EMS units in the upcoming budget year as proposed by the Mayor. The City Council added \$430,000 in funding to the Fire Department Budget to allow for an additional EMS unit to be purchased and provide an additional eleven (11) Emergency Medical Technicians. These actions should allow for more reliable service and lower response times and decrease the overtime pressures on personnel in this vital area serving our citizens.

Council concurs with the Mayor's funding action in the Fire Department to purchase two (2) new aerial ladder trucks to replace two (2) service limited units and funding to refurbish three older aerial tiller trailers. This action will begin the process of lowering the age of the fleet equipment and improving dependability. The budget also continues the Capital repair program which will replace and renovate engine company fire houses.

Council has added ten (10) code enforcement inspector positions to the Buildings and Safety Engineering Department to improve the department's ability to address citizens complaints and the enforcement of building and zoning codes in the community.

Council has added two (2) sign inspector positions to Buildings and Safety Engineering to increase the department's ability to address complaints regarding the thousands of signs and billboards and their compliance or noncompliance with Building Codes and Board of Zoning Appeals grants and conditions. Additionally, the City Council in the closing resolution has requested that the department review the current fee structure for the inspection, permits, and fees related to signs and billboards. A review of other cities has shown that fees charged by the Buildings and Safety Engineering Department are out of step with other major cities.

**Brownfield Development and Health Monitoring**

The City of Detroit began the implementation of projects authorized by the State Brownfield Legislation and Detroit Brownfield Authority in various areas of the city. Some Brownfield projects will be undertaken in or near residential neighborhoods which may be impacted by environmental cleanup efforts, therefore the Council has identified the

need to provide monitoring for health related problems or conditions that arise out of such projects. Council has provided \$32,500 to add one Senior Government Analyst Public Health Assessor in the Health Department. It is the Council's intent that this position will be filled by a person with at least a Masters Degree in Public Health. This analyst will work with the Environmental Affairs Department to limit the adverse effects of Brownfield projects on those who live and work in the area.

#### **Construction Site Monitoring**

Executive Order 22 reads as follows "any construction project funded in whole or in part by the City, or State or Federal funds, the worker's hours shall be performed by not less than 50% bona fide Detroit residents, not less than 25% minorities and at least 5% women". Council has determined a need to provide on-site monitoring for construction sites to insure that contractors are in compliance. Council is adding \$65,000 to the Human Rights Department for two (2) positions with the express intent that this staff be assigned to the task of doing unannounced construction site visits to verify Executive Order compliance.

#### **Employment and Training Follow-up**

Council has added \$49,000 to fund one position in the Employment and Training Department Budget to monitor Welfare to Work clients on a long term basis to determine the effectiveness of various programs operated by the department. This personnel will be assigned to track and evaluate individuals moving into employment and will be assigned to determine whether the employers are providing a living wage, health care benefits and employment beyond the 90 day probation period.

#### **Compulsive Gaming**

Council allocated \$250,000 in the Health Department to establish educational programs and an advertising campaign for youth, adults and seniors regarding gambling addiction. Council has taken this action to enhance existing programs funded by the State.

We recognize that our responsibility to the citizens of Detroit goes beyond what the State is currently doing. This allocation will not reduce the current spending level of the State. The Michigan Department of Community Health is partnering with the City of Detroit to make certain the unique needs of our citizens are met.

As problem gamblers increases, it will be everyone's responsibility to seek new forms of revenue to provide services to those impacted.

#### **City Clerk**

The City Clerk requested and Council concurred with \$126,000 in additional funding for the following areas. One, the establishment of an interactive informational computer system (KIOSK) and terminals to provide touch screen ease of information retrieval and bulletin board information from the City Clerk's Office. Two, upgrading of computer equipment and office equipment throughout the City Clerk's Office including the Administrative Offices, Committee Clerk and Ordinance Areas.

In the area of the Municipal Election Department, the City Clerk requested and the Council concurred with \$25,000 in funding for furniture.

#### **City Retirees**

The General Retirees have come to the Council for many years during budget deliberations to seek improvements in the benefits offered to their members. Again this year the General Retirement System and the Police and Fire System have made several proposals related to increase in the pension factor, individual life insurance and the benefit multiplier change. All of these proposals seek to address issues with members of the systems that are living at or below the poverty line. The City Council Fiscal Analyst and Outsider Counsel have indicated that in order to preserve future actions in funding these desired improvements, the legislative branch must create a legislative record and process that documents the need for the pension increases. Retirees were provided a hospitalization co-pay reduction in this year's budget. Council is committed to consideration of the requests during the next fiscal year, and will hold hearings to determine whether there are sufficient findings to support the requests in the future.

#### **Funding the Council Changes**

City Council funded all of the previously mentioned changes by selectively increasing the Turnover Savings in various departments, increasing the property tax collection factor, elimination of some funding in the Cable Commission, reduction in the People Mover subsidy, elimination of the Mayor's Casino Revenue Task Force funding of \$2 million and increased revenues from fees and inspections.

#### **Conclusion**

The Detroit City Council is deeply grateful to: Irvin Corley, Fiscal Analyst; Kathie Dones-Carson, Director, Research and Analysis; Marsha Bruhn, Director, City Planning Commission; Jackie Currie, City Clerk; Joseph Harris, Auditor General; Roger Short, Budget Director; and all of their respective staffs, the City Council Committee clerks, our own individual staffs, and everyone else who labored with us during this arduous and demanding budget period.

**\*WAIVER OF RECONSIDERATION (No. 1), per Motions before Adjournment.**

**STATEMENT BY COUNCIL MEMBER ALBERTA TINSLEY-TALABI REGARDING THE BILLBOARD ORDINANCE**

My yes vote for today Billboard Ordinance comes from work begun

twelve years ago, when a small group of citizens in the City of Detroit, founded the Coalition Against Billboard Advertising Alcohol and Tobacco (CABAAT). This group was the first nationwide to protest advertising in urban neighborhoods that promoted alcohol and tobacco messages. This issue which began in Detroit, today is an issue that has been addressed in every urban community across the nation.

Today's Detroit City Council vote on the new Citywide Billboard Ordinance will control the height, size and spacing between billboards in the city. This ordinance will lead to a decrease in the number of signs throughout the city and require the placement of new advertising signs to be smaller in area and shorter in height than those commonly erected today. On surface streets near land zoned residential areas there will be a height ceiling of 35 feet and a sign face maximum area of 378 square feet.

Additionally, under today's passage of the Citywide Billboard Ordinance in most cases new billboards will be subject to public notification and public hearing. This ordinance will ensure that citizens are notified and allowed to have a public hearing on whether or not advertising of billboards will be placed in their neighborhoods. Advertising signs located in business, shopping, limited industrial, restricted industrial and waterfront industrial districts will only be permitted after a public hearing and with Departmental approval. A billboard can exceed the 35 foot ceiling if it is located in an area remote from residential which is properly zoned. The ordinance also prohibits billboards inside or within 500 radial feet of a City of Detroit Historic District.

Numerous concessions and compromises were made for the billboard industry. In fact, today's ordinance already reflects numerous compromises. Within the past twenty-four hours fifteen new billboard permits have been applied for in an attempt to thwart the ordinance. This is an addition to fifty billboard applications applied for within the past six months. Passage of the ordinance, with six votes by Council, insured immediate enforcement of the ordinance. The Council has responded to the will of our citizens. Twelve years is a long time for citizens to wait.

**Taken from the Table**

Council Member K. Cockrel, Jr. moved to take from the the table an ordinance to amend Chapter 3 of the 1984 Detroit City Code, titled "Advertising and Signs", by amending Section 3-1-2 to transfer jurisdiction over appeals regarding freeway advertising sign setback decisions from the Department of Public Works to the Board of Zoning Appeals as provided for in Chapter 61 of the 1984 Detroit City Code, etc., laid on the table May 4, 2000.

The Ordinance was then placed on the order of third reading.

**THIRD READING OF ORDINANCE.**

The title to the Ordinance was read a third time.

The ordinance was then read.

Adopted as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Hood, Mahaffey, Tinsley-Talabi, and President Hill — 7.

Re: Surplus Property Sale By Development Agreement, Development Disposition: 4409, 4423 & 4431 Trumbull Avenue

On April 17, 1998, your Honorable Body authorized the sale of the captioned property to Bonnie Bridge Village, L.L.C., a Michigan Limited Liability Company for the amount of \$9,500.00 for the construction of a sixteen (16) unit townhouse complex.

In conjunction with this sale the developer applied for Neighborhood Enterprise Zone (NEZ) approval which was required for the development of this parcel. Consequently, the developer could not proceed with final drawings, specifications and/or permits until the designation was finalized.

The Neighborhood Enterprise Zone

approval has now been granted. However, by the time this approval was finalized the entire development period as sited in the Development Agreement had passed. As a result, the developer is requesting that the Development Agreement be amended to extend the development period to June 30, 2001. Further, the developer has provided satisfactory evidence that the development will be completed within the time period that is being requested.

We, therefore request that your Honorable Body adopt the attached resolution, authorizing an amendment to the Development Agreement to extend the completion period of this development.

Honorable City Council:

Re: Bureau of Justice Assistance (BJA) Local Law Enforcement Block Grant (LLEBG) for 1997

The Omnibus Fiscal Year 1997 Appropriations Act, Public Act Law 104-208, authorized the Director of the Bureau of Justice Assistance (BJA) to make funds available to units of local government under the Local Law Enforcement Block Grant (LLEBG) program for the purposes of reducing crime and improving public safety. The City of Detroit was awarded a grant under the 1997 BJA-LLEBG program in the amount of \$6,715,747.00, with a cash match of \$746,194.00. The cash match was allocated in Cost Center 0012, Appropriations No. 0380, titled Grant Contributions-Cash.

Your Honorable Body approved the Grant on March 31, 1999. However, the cash match listed on the letter to the Council was \$745,448.00, but the actual cash match amount is \$746,194.00, which is listed on the application form. As a result, your Honorable Body approved this grant with a cash match of \$745,448.00, which is \$746.00 short of the correct cash match amount of \$746,194.00.

It is respectfully requested that your Honorable Body adopt the attached resolution authorizing the City of Detroit to increase the cash match amount for this grant award from \$745,448.00 to \$746,194.00.

Honorable City Council:

Re: Authorization to accept a \$10,000 grant from the Michigan Department of Natural Resources, Forest Management Division

The Recreation Department requests authorization to accept a \$10,000 grant from the Forest Management Division of the Michigan Department of Natural Resources for a Recreation Center Garden/Beautification Program. The Department requests authorization to set up Appropriation No. 10202. Within this Appropriation, the Grant of \$10,000 will be received in Organization No. 392680. In addition, there is a local match required for this project in the amount of \$30,936. All but \$15,150 of that amount is 'in kind.' To account for the \$15,150, for the cash match, it also will be set-up in Organization No. 392680, Appropriation No. 10202.

The Recreation Center Garden/Beautification Program will use four college Forestry interns, to work with an intergenerational group of volunteers from the neighborhoods around four recreation centers, to create floral/vegetable gardens. The interns will also work with Department staff to teach basic gardening techniques, botany, ecology and nutrition principles to the neighborhood participants. The project will also create a beautification project at each participating center, for example floral displays or inside plantings.

The Department requests authorization of your Honorable Body to expend the funds from the Michigan Department of Natural Resources to conduct the Recreation Center Garden/Beautification Program whose contract year begins 10-1-99 and ends 9-30-2000.

**Detroit Zoological Institute**

Honorable City Council:

Re: Zoological Institute, Belle Isle Aquarium, Emergency Repairs of Distressed Floor

The Zoological Institute has retained the professional service of Desai Nasr Consulting Engineers Inc. an engineering firm, to investigate and prepare construction documents for the distressed floor slab at the Belle Isle Aquarium. Their findings have confirmed the observation of the Zoological Institutes staff that the floor requires substantial repairs to correct a dangerous condition for the safety, health and welfare of the public and Zoological Management staff.

Upon review of these findings and extensive consideration of possible corrective measures, the agreed upon solution of the Zoological Staff and the City Engineering Division of the Department of Public Works was to have a contractor do all the repairs under an emergency contract. The Engineers estimate for the cost of the repair work is \$300,000.

On Wednesday, February 23, 2000 three firms with substantial experience in repairing distressed concrete slabs were invited to attend a meeting at the Belle Isle Aquarium. The Engineering Consultant representative from Desai Nasr Consulting Engineers Inc. discussed the extent of damage to the Concrete Slab and the proposed methods to correct this dangerous situation. Then a tour was taken of the building to permit a first hand viewing of the proposed work by the three contractors.

The three firms were required to submit by 2:00 p.m. Wednesday, March 1, 2000 a letter describing their qualifications and experience on similar jobs. On Monday, March 27, 2000 a committee with representatives of the Zoological Institute Staff and the City Engineering Division of the Department of Public Works evaluated the qualification of the three firms. The Committee selected D.C. Byers Company, a Detroit based company in complete compliance with Executive Order No. 4.

At a meeting with representative of D.C. Byers Company the terms and conditions of the contract were negotiated and both parties agreed to all the conditions including the requirements for D.C. Byers to request and receive all required city approvals.

We propose to enter into a contract with D.C. Byers Company for the repair of the Distressed Concrete Floor Slab at the Belle Isle Aquarium in the amount of \$300,000 (Three hundred thousand dollars). Capital funds are available in appropriation account 4510-440304-000266-631100-00845-000000A6000 Buildings Major Repairs.

In order to expedite the time schedule to permit the immediate start of construction activity to make repairs to the distressed concrete floor slab of the Belle Isle Aquarium, it is necessary to utilize the emergency provision of the City of Detroit City Code, Section 21-3-6 (B), which provides for a waiver of competitive bids when "Public exigencies require the immediate delivery of the articles or performance of the service." Upon the approval of City Council, a notice to proceed will be issued to commence work on June 1, 2000 with the work to be completed on August 31, 2000.

Re: Proposed Ordinance to Amend Section 9.5-3-5 of the 1984 Detroit City Code.

Pursuant to the 1997 Detroit City Charter, this proposed ordinance is being submitted to your Honorable Body for consideration and passage. This proposed ordinance amends Section 9.5-3-5 of the 1984 Detroit City Code.

As you are aware, the Cable Television Franchise Agreement with Comcast Cablevision of Detroit expires on May 30,

2000. For reasons discussed during the Cable Commission budget hearing, the Commission has recommended a one-year extension of the franchise to May 30, 2001. This period will allow for the October completion of the Plante Moran telecommunications audit being performed for the Auditor General and provide time for its review. As you know, this audit may very well impact the City's position in negotiations for the franchise renewal. The extension will also provide for a reasonable time period for the negotiation of the franchise, and for consideration by your Honorable Body.

We respectfully request that this proposed ordinance be introduced at the earliest possible Formal Session and that the Public Hearing be held at the earliest possible date. A waiver of reconsideration is requested.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your attention to this matter.

**Human Resources Department  
Labor Relations Division**

May 19, 2000

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Senior Accountants, Analysts, and Appraisers Association.

The Labor Relations Division has recently reached agreement with the above-referenced bargaining unit. Given the extensive time it will take to type and process the entire contract, it would cause an unreasonably long delay to withhold implementation until the formal contract has been prepared and presented to your Honorable Body for approval.

Therefore, in accordance with standard City procedure, this Office is recommending that your Honorable Body pass a resolution amending the 1998-99 Official Compensation Schedule by granting a 2% general wage increase for the subject represented employees effective July 1, 1998, amend the 1999-2000 Official Compensation Schedule by granting a 3% general wage increase effective July 1, 1999, and similarly amend the proposed 2000-2001 Official Compensation Schedule submitted with the Mayor's Budget to reflect a 3% general wage increase effective July 1, 2000.

We are requesting authorization to implement the special adjustments for certain classifications based on 1) maintaining traditional wage relationships, 2) recruitment and retention difficulties, 3) special skills upgrading, 4) redefining the salary range for certain data processing classifications, 5) establishing a salary range for new titles, and 6) equity adjustments. These special adjustments are as outlined in the attached Schedule A. Lastly, we request your approval to implement the new fringe benefit changes as set forth in the attached Schedule B.

We further respectfully request that your Honorable Body adopt the following resolution with a Waiver of Reconsideration.

Respectfully submitted,  
ROGER N. CHEEK  
Labor Relations Director

By Council Member Tinsley-Talabi:

Resolved, that the 1998-1999, 1999-2000 and 2000-2001 Official Compensation Schedules and employee wages be amended according to the foregoing letter and be it further

STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL IN OPPOSITION TO FOUR EMERGENCY ORDINANCES PRESENTED IN PREPARATION OF THE OAS MEETING

Today, the City Council was asked to adopt four emergency ordinances as "tools" to assist the Detroit Police Department in keeping the peace during anticipated demonstrations in opposition

to the policies of the Organization of American States. These ordinances were presented against the backdrop of recent protests that occurred in Seattle, Washington, Washington, D.C. and Toronto, Ontario.

In sum, the four ordinances sought to make illegal the possession of gasoline, the possession (with intent to commit a criminal act) of a variety of products such as amonia, vegetable oil, squirt bottles, etc. within the Boulevard, the wearing of masks and hoods with intent to conceal one's identity, and sleeping in tents or sleeping bags on public land. All four ordinances were to be in effect for a period of seven days.

I expressed grave concerns about the constitutionality of all of the above referenced ordinances. By the express language of the "whereas" clauses contained in the four ordinances, they are specifically targeted at the anticipated OAS demonstrations.

I questions the Police and Law Departments about why the city's current disorderly conduct ordinance (section 38-5-1) and the loitering in public places ordinance (section 40-1-19) did not provide sufficient grounds for the police to control a demonstration that may get out of hand. The response I received was they wanted to be empowered to make arrests before any illegal conduct occurred. That answer only served to support my initial constitutional concerns.

In order to have approved these ordinances, I would have had to have extreme confidence in the police department because these ordinances would have empowered them to arrest homeless people, homeowners with gas grills who live within the Boulevard, people who drink water from squirt bottles, people who pull their hoods over their heads at the demonstration because it starts to rain, and medical personnel who wear gas masks to treat protestors who may be injured by pepper spray or tear gas (if used).

In short, I do not believe that the ordinances were narrowly tailored to justify impinging on first amendment rights. Further, I was deeply troubled by the fact that one of the emergency ordinances was not presented until fifteen minutes before Council was scheduled to vote. Finally, I cannot understand why the Council was forced to act so expeditiously on this matter when the Police Department admitted that it has been preparing for the OAS meeting for 90 days.

It is for all of these reasons that I voted "NO" on the four emergency ordinances. I trust that the police will be able to keep the peace within the framework of the existing city code.

#### STATEMENT BY COUNCIL MEMBER NICHOLAS HOOD REGARDING EMERGENCY ORDINANCES

After review of the emergency ordinances, I have concluded that most of restraints requested by the City Administration, except in certain specific instances, are already covered by existing law and are without merit. In fact, much of what is being requested by the Administration will place the average citizen or worker going into the downtown area under the cloud of suspicion. I will not participate in a process that undermines our tradition of free speech and the exercise of first amendment rights by citizens.

I am convinced that our citizens, workers and the businesses in the downtown will be safe if the existing local, state and federal laws are enforced in an assertive and fair manner.

Specifically, I voted in support of the emergency ordinance that prohibits the use of portable containers for flammable liquids. We have banned the use of flammable liquids in portable containers previously in our angel's night ordinance with great success. Thus, I think that banning flammable liquids under these conditions can only help to assure the safety and well being of both the demonstrators and the police without placing undue suspicion on the rest of our citizens.

I also voted to support the emergency ordinance that prohibits the use of gas masks and other hood devices by demonstrators. The use of gas masks by demonstrators indicates in my opinion the intent to do more than peacefully demonstrate and it undermines the ability of the police to use nonviolent means, e.g. tear gas and pepper spray, to suppress destructive demonstrations.

I voted not to support the emergency ordinance that prohibits the possession of certain specific substances, many of which are everyday household substances, e.g. vegetable oil, chlorine bleach. I may have supported this ordinance if it could have been narrowed to include truly dangerous substances only. However, the majority of City Council Members refused to accept any friendly amendments that were suggested. Consequently, I could not in good conscience support this ordinance which would have placed all of our citizens under suspicion and at risk of police harassment.

I did not support the emergency ordinance, which outlawed the use of public land for tents and sleeping bags because we already have specific ordinances that prohibits these specific behaviors.

The best protection for the citizens, businesses and police of this City is a well-trained and well-equipped Police Department enforcing existing laws assertively.

STATEMENT BY COUNCIL MEMBER  
MARYANN MAHAFFEY REGARDING  
FOUR PROPOSED EMERGENCY  
ORDINANCES IN PREPARATION FOR  
THE ORGANIZATION OF AMERICAN  
STATES MEETING ON JUNE 4-6, 2000  
IN WINDSOR, ONTARIO

Four emergency ordinances were presented to City Council on May 26, 2000 in preparation for the Organization of American States Meeting on June 4-6, 2000 in Windsor, Ontario.

I am concerned that the four proposed emergency ordinances violate our citizen's rights of free speech and assembly protected by the First Amendment to the United States Constitution. These proposed ordinances give too much authority to the individual police officer, without providing clear guidance as to when a citizen is violating the ordinances. These ordinances are unconstitutional.

They put our citizens at risk of being arrested for innocent conduct. They put individual police officers at risk because they have no guidance as to when to take action and when not to take action, other than their own judgment that a person may have an intent to commit a crime. They put our City at risk of having to pay hundreds of thousands of dollars to settle lawsuits based on false arrests made under the ordinances. Current law is clear that a person may be arrested for committing a crime, not for the intent to commit a crime.

It is a violation of the Constitution to use laws which have general application and solely focus those laws against a specific group. It was wrong when such tactics were used against civil rights demonstrators; it would be wrong to use such tactics against OAS demonstrators. However, that is the intended use of these proposed ordinances.

One of the proposed ordinances criminalizes possession certain items. The items themselves have legal uses. For example, items prohibited include squirt bottles. It forbids possessing certain items with intent to commit a crime. This creates serious potential for abuse by police officers. Police officers are not mind readers. How will the police officer determine what is in a person's mind? This ordinance invites the police officer to make the determination based on the way someone is dressed, for example baggy pants or khaki pants, or their hair style, like dread locks, or body piercing. Or police could believe they could arrest someone with one of these articles just because they are at or in the area of a legal demonstration, whether or not they are part of the demonstration. That is not the way our country is supposed to work.

Another of the proposed ordinances prohibits the erection of tents or the use of sleeping bags on public property. The pro-

posed ordinance applies anywhere in the City. This ordinance is unnecessary. The City already has laws to close parks and other public areas at late hours. The sleeping bag prohibition raises another problem. Assuming warm weather in June (when this ordinance will be in effect) citizens may want to use a sleeping bag to just lie out in a park like Chene or Palmer or let their child take a nap in a sleeping bag. This seems to be a prohibition which reaches too far if the intent is to stop people from sleeping in the park.

The ordinance concerning gasoline and other flammable liquids within the Boulevard clearly over reaches. It punishes innocent conduct. It makes vast numbers of innocent Detroit citizens criminals. Anyone who carries igniter fuel to start a barbeque would violate the ordinance. Although this might not be a problem in late October, when Devil's Night occurs, it certainly is a problem during the summer. This ordinance criminalizes a vast number of people in the area covered and is therefore not only unconstitutional but bad policy.

Finally, the ordinance prohibiting masks and other head and face coverings contains the same problems. In addition, to the total unconstitutional discretion to determine intent it gives to the police officer, it is too broad. It would criminalize activities by Muslim women who wear a veil for religious reasons and persons who must wear surgical masks for asthma, allergies, or other illnesses.

The discussion at the council meeting clearly demonstrated that there are adequate state, federal, and local laws to stop any illegal conduct during the OAS meetings.

I, therefore, proudly voted against all four proposed emergency ordinances.

On May 9, 2000, the Detroit Cable Communications Commission adopted a resolution urging favorable action by your Honorable Body on an amendment to the Franchise Agreement and to Section 9.5-3-5 of the 1984 Detroit City Code, in order to extend the term of the cable television franchise to May 30, 2001.

The Law Department received an executed copy of the amendment this afternoon. Accordingly, attached for your con-

The ordinance has been set for public hearing on that date.

We are available to answer any questions that you may have concerning this proposed ordinance. Thank you for your attention to this matter.

Whereas, the Cable Communications Commission believes it is in the best interests of the City, among other things, to conduct and complete franchise renewal negotiations with Comcast and to extend the existing cable franchise pursuant to the attached Agreement with Comcast so that the franchise shall expire on May 30, 2001; and

Whereas, by Resolution adopted on May 9, 2000, the Cable Communications Commission recommended that the Detroit City Council approve the attached Agreement extending the term of the non-exclusive cable television franchise grant to Comcast, subject to the terms and conditions set forth in the attached Agreement; and

Whereas, the Detroit City Council finds that the extension agreement is in the best interests of the City of Detroit;

Now, Therefore, Be It Resolved, that the Detroit City Council approves the attached Agreement extending the terms of the non-exclusive cable television franchise grant to Comcast Cablevision of Detroit, Inc. subject to the terms and con-

ditions set forth in the Agreement, and subject to appropriate departmental clearances; and

Be It Finally Resolved, that this Resolution is approved with Waiver of Reconsideration.

**AGREEMENT**

1. The City of Detroit (the "City") granted Barden Cablevision of Detroit, Inc., the predecessor of Comcast Cablevision of Detroit, Inc. 2. The City and Comcast agree to extend Comcast's existing Franchise so that it shall expire on May 30, 2001 at 11:59 p.m.

4. The parties agree to negotiate in good faith and to use reasonable efforts to conclude negotiations of the Franchise renewal by March 31, 2001.

5. The execution, delivery and performance of this Agreement by Comcast and the City has been duly authorized by all necessary action, including, for the City, adoption of the attached Ordinance No. \_\_\_\_\_.

STATEMENT OF COUNCIL MEMBER NICHOLAS HOOD, III VOTING TO EXTEND THE TERM OF THE COMCAST CABLE FRANCHISE AGREEMENT FOR AN ADDITIONAL YEAR

Today I voted in favor of renewing the Comcast Cable franchise agreement for an additional year. Through extending this contract citizens of Detroit will continue to enjoy their existing cable service while the City of Detroit reviews and explores all available cable television options at the city's disposal in the future. I believe it would be premature for Council to vote on any long-term cable contract until we have received the Plante-Moran study which will provide us with an assessment of the City of Detroit's local and regional service needs.

The telecommunications industry is constantly changing and it is essential that the Detroit City Council diligently review all reasonable options before making a final decision concerning long-term cable service for citizens of Detroit. Therefore, I believe the most prudent action for the Detroit City Council to take at this time is to extend the existing Comcast Cable agreement for another twelve months.

May 30, 2000

Honorable City Council:

I have completed my review of your changes to my proposed Budget for the 2000-2001 fiscal year.

I am pleased to note that we are in agreement on the vast majority of items included in our spending plan. However, I must note a few items that I remain concerned.

Your Honorable Body approved a reduction of \$5.3 million from salaries in 9 departments. The Budget Director indicated that turnover savings was already aggressively applied City-wide. This additional reduction has the potential of hindering departments ability to hire much needed staff in critical areas. I have instructed the Budget Department to closely monitor their departments and bring to my immediate attention any problem in hiring needed staff.

Funds allocated for the Casino Task Force was eliminated. During my budget message I suggested that the Task Force be given an opportunity to explain their findings and share their suggestions and ideas with you. However, this suggestion was not honored and their funds were eliminated with no discussion or consideration of the Task Force's recommendation.

I had urged your Honorable Body not to reduce Block Grant funding to departments like Planning and Development department who are charged with the management of Block Grant programs. I suggested instead that you reduce the funding of the citizens groups I had recommended. I urged you not to increase the NOF pot. Planning and Development cannot effectively manage the increasing number of groups without sufficient staff. It will not benefit any of these groups to be promised funds that they won't realistically receive in a timely manner.

I must also note that your Honorable Body once again moved funding for Community Development Block Grant homeless staff from the Block Grant to the General Fund. The General Fund cannot afford to cover administrative costs which should rightfully be funded through Block Grant funds.

Finally I wish to commend you and each of your staff for the work and attention given to our financial plan and look forward to working with you throughout the fiscal year.

Sincerely, DENNIS W. ARCHER Mayor

Received and Placed on File.

Honorable City Council:

Re: Veto of the proposed ordinance to amend Chapter 25, Article II of the Detroit City Code by adding Section 25-2-131 to establish the James McMillan School Historic District.

On May 17, 2000, your Honorable Body passed the above-referenced historic designation ordinance for the James McMillan School. This proposed ordinance has been presented to me for approval.

On March 9, 2000 a public hearing was held on this proposed ordinance. David Adamany, Chief Executive Officer of the Detroit Public Schools was unable to attend the public hearing but requested that City Council not take action until he had the opportunity to review the impact this designation would have on this facility owned by the Detroit Public School system. Council agreed to this request and subsequently after reviewing this issue Dr. Adamany sent a May 15, 2000 communication urging City Council to *"deny the petition in the best interests of Detroit's Future generations."* In addition Attorney General opinion No. 6957 states that local school boards are not required to obtain permits before commencing work on schools located within historic districts therefore making this proposed ordinance unenforceable until such time as the ownership of the school is transferred and the building is no longer used as a school.

Dr. Adamany clearly stated the school district is still in the planning stages for the construction and renovation of schools under the 1994 bond program and until this planning is completed, he did not believe it was in the best interest of the school district to impose restrictions on them. I firmly believe we should support the school district in all its endeavors and it is not sound public policy to set a precedent of imposing designations on facilities the City does not own and more importantly — is not wanted by the owners. I am therefore unable to approve this proposed ordinance for policy reasons. Accordingly, I must veto the current proposed ordinance to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-131.

Sincerely,  
DENNIS W. ARCHER

Mayor

Council Member Mahaffey moved to reconsider the vote by which the ordinance to amend Chapter 25, to establish James McMillan School Historic District, was adopted, which motion prevailed as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood,

Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

Nays — None.

Council Member Mahaffey then moved to adopt the ordinance relative to James McMillan School Historic District, notwithstanding the veto of the Mayor, which motion prevailed as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 8.

Nays — Council Member S. Cockrel — 1.

All purchases by the Purchasing Director shall be made in the following manner:

(1) **Major Purchases.** If the purchase entails a major expenditure, the Purchasing Director shall provide for the procurement of competitive bids as follows:

a. Prepare the invitation for bids, describing the city's requirements clearly, accurately and completely, avoiding unnecessarily restrictive specifications which might unduly limit the number of bidders.

b. Publicize the invitation for bids by advertising for bids one (1) or more times in the newspaper designated to print the official business of the City. Where appropriate, the purchasing director shall include advertisements in newspapers, trade journals, association postings, WEBSITES, and any other appropriate media sources. In addition, the Purchasing Director may send copies of such advertisement to persons and firms likely to be interested therein. Such advertisement shall accurately and clearly describe or refer to the subject matter of the proosed purchase, and may also refer the bidder to specifications on file in the Purchasing Director's office. Such advertisement shall specify the time and place of submitting bids and such other information from the specifications as the Purchasing Director shall deem advisable in the interest of the City. After publication of one (1) advertisement, specifications shall not be changed without the publication of a new advertisement calling attention to such change. A reasonable time shall be allowed to enable prospec-

tive bidders to prepare and submit bids before the time set for public opening of bids.

c. Receive written bids submitted by prospective contractors.

d. 1. In comparing bids, the bid of any Detroit-Based Business or Detroit-Resident Business shall be deemed a better bid than the bid of any competing firm which is not a Detroit-Based Business or Detroit-Resident Business whenever the bid of such competing firm shall be equal to or higher than the bid of the Detroit-Based Business or Detroit-Resident Business, after the appropriate equalization percentage credit from the Equalization Allowance Table has been applied to the bid of the Detroit-based firm.

**Detroit-Based Business And Detroit-Resident Business Equalization Allowance Table**

<b>Contract Amount</b>	<b>Equalization Percentage</b>
Up to \$10,000.00	5%
\$ 10,000.01 to \$100,000.00	4%
\$100,000.01 to \$500,000.00	3%
\$500,000.01 and over	2%

If the bidder qualifies as both a Detroit-Based Business and a Detroit-Resident Business, the equalization factor in the preceding table shall be doubled. If the bidder has qualified as a Detroit-Based Business by virtue of having its headquarters in Detroit, it shall receive the equalization factor in the preceding table plus an additional three percent (3%).

2. The following equalization percentage credits shall be applied to the bids of the type of firms described in the equalization allowance table below.

**Equalization Allowance Table For Joint Ventures, Mentor Ventures, And Detroit-Based Small And Micro Businesses**

Detroit-Based Small Business	1%
Detroit-Based Micro Business Concern	2%
Joint Venture	2%
Mentor Venture	1%

(i) A bidder shall receive the equalization percentage credit for each category for which it qualifies. The firm that makes the lowest bid, as evaluated, shall be deemed the lowest bidder.

(ii) In the application of these equalization percentage credits, a Joint Venture shall not also be considered a Mentor Venture and a Mentor Venture shall not also be considered a Joint Venture. Unless certified before the deadline for submitting a bid, no bidder or firm shall receive an equalization credit as a Detroit-

Based Business, Small Business or Micro Business Concern. A Joint Venture or Mentor Venture shall not receive an equalization credit unless the Detroit-Based Business in the venture has been certified as such before the deadline for submitting a bid.

(iii) If a bidder claims an equalization credit as a Detroit-Resident Business, it shall submit documentation of its eligibility with its bid. The Purchasing Division or the contracting department shall determine whether the bidder qualifies as a Detroit-Resident Business after the bid opening.

~~(iv) No broker shall receive an equalization credit if the contract bid upon is one for the purchase of equipment or supplies and the low bid is submitted by the manufacturer of the equipment or supplies.~~

3. Any bidder who claims entitled to an equalization percentage credit shall agree to make the records necessary to establish eligibility available to the City.

4. After applying any equalization percentage credit, as provided above, the contract shall be awarded to the lowest responsible bidder thus evaluated.

5. The above requirements shall not be applicable if any one of the following conditions is found to exist:

(i) The expenditure involved is not "major" as defined in Section 18-5-1 of this Code;

(ii) Public exigencies require the immediate delivery of the articles or performance of the service;

(iii) The Purchasing Director certifies that only one source of supply is available;

(iv) The services to be performed are professional in nature; or

(v) The item to be acquired is rare or unique.

(2) **Non-Major Purchases.** If the purchase entails an expenditure which is not "major" the Purchasing Director is authorized to award the contract subject to the following conditions:

a. The practice of competitive bidding is required, but formal advertising is required only for contracts over ten thousand dollars (\$10,000.00). An equalization percentage credit shall be allowed, as provided in Subsection (1)d of this section, whenever there is full and free competitive bidding. However, the Purchasing Director may limit bidding to Detroit-Based Businesses, Detroit-Based Small Business Concerns or Detroit Based Micro Business Concerns, in which event no equalization percentage credit shall be allowed.

b. In soliciting bids, the Purchasing Director shall affirmatively seek out Detroit-Based Business Concerns.

c. The Purchasing Director must make a determination that the prospective contractor is responsible. The Purchasing Director should utilize all available information from within the Division and other City departments, from the prospective contractor, and from banks and other financial companies, in order to ascertain whether the prospective contractor is responsible, under the guidelines set forth under "lowest responsible bidder" as defined in Section 18-5-1 of this Code.

(3) **Prohibition Against Unapproved Assignments or Subcontracts.** A Detroit-Resident Business, a Detroit-Based Business, or a Mentor Venture or Joint Venture with a Detroit-Resident Business or Detroit-Based Business may not assign or subcontract its City contracts to a Non-Detroit-Based Business or a Non-Detroit Resident Business without the approval of such assignment or subcontract by the Purchasing Director.

(4) **Detroit-Based Business, Detroit-Based Small Business Or Detroit-Based Micro Business Concern; Limited Bidding.**

On his or her own initiative or at the request of the contracting department, the Purchasing Director may limit the bidding for a contract to Detroit-Based Businesses, Detroit-Based Small Businesses, or Detroit-Based Micro Businesses, provided that there are at least three (3) firms certified OR REGISTERED by the Human Rights Department ~~that~~ WHICH would be eligible to bid for the contract. The equalization factors in Section 18-5-2(1)d of this Code shall not apply to contracts put out for bids under this subsection. In determining whether to so limit the bidding, the Purchasing Director should make commercially reasonable efforts to maximize the utilization of Detroit-Based Businesses, Detroit-Based Small Businesses, or Detroit-Based Micro Businesses. As used in this Subsection (18-5-2(c)(4) only, *should* means a strong recommendation, but does not mandate the actions described.

**Sec. 18-5-11. Appropriation to be made; Tax to be levied or local assessment district to be created for construction of public works.**

No contract shall be awarded for the construction of any public work until the City Council has levied a tax or assessment or appropriated funds in the budget to defray the cost and expenses of the same, or until the City Council has created a local assessment district for the levy of a special assessment therefor. The creation of a local assessment district for any improvement shall be a sufficient appropriation under the terms of Section 18-5-12 of this Code. ~~No such work shall be paid for, or contracted to be paid for, except out of the proceeds of bonds issued for that purpose.~~

Honorable City Council:

Re: Correction to Schedule A, 2000-2001 Consolidated Plan Budget for NSO 24 Hour Walk-In Center.

On May 17, 2000, your Honorable Body approved the budget for the 2000-2001 Consolidated Plan as part of the overall budget approval process. In consultation with the Budget Department, CPC staff requests that action be taken to correct an error in Schedule A.

The NSO-24 Hour Walk-In Center received CDBG/NOF funding for two activities, \$75,000 for public facility rehabilitation and \$100,000 for public service activities. The PFR activity was appropriated to the Planning and Development Department and the PS activity was appropriated to the Human Services Department. Both activities should have been appropriated to the Human Services Department.

Therefore, to correct this error, action needs to be taken to increase both the revenue and appropriation to the Human Services Department by \$75,000 and to decrease the revenue from the Letter of Credit and the appropriation to NSO in the Planning and Development Department by \$75,000, per the attached resolution. This action will not affect the total 2000-2001 funding to this organization.

Respectfully submitted,

Honorable City Council

RE: MCA/RIMCO Properties Section 108 Project

In recent discussions, HUD has advised us that the City should amend the approved \$60,000,000 Section 108 Guaranteed Loan application for the Detroit Development Projects to include a Section 108 Loan for the MCA/RIMCO project. HUD advises us that this is the most expeditious method for obtaining the funds needed for the MCA/RIMCO project.

Thus, this letter requests that you authorize the following:

— Amendment to the approved \$60,000,000 Detroit Development Project Section 108 Loan application to include the MCA/RIMCO Properties Section 108 project funded at \$10,000,000.

— Amendment of the the HUD Consolidated Plan to include the MCA/RIMCO Properties Section 108 project funded at \$10,000,000.

— Appropriation of \$10,000,000 for the MCA/RIMCO Properties Section 108 Project upon HUD approval of the amendment to the approved Detroit Development Project Section 108 Loan application.

**BACKGROUND:**

In discussions with Your Honorable Body, I have described the need for the City to take active steps in the management of properties formerly controlled by the bankrupt MCA and RIMCO companies. These steps are needed to avoid housing problems for the low income persons occupying many of these properties, and to avoid the deterioration of neighborhoods in which many of these properties are located.

Due to the complex nature of the MCA/RIMCO project, the need for prompt action, and the regulations regarding the use of Community Development Block Grant funds, it has been difficult to prepare a funding plan for the City actions needed.

In our previous discussions, I indicated that we intended to fund the MCA/RIMCO Properties project using unexpended CDBG funds as a "float" loan. HUD advises us that we should use Section 108 Guaranteed Loan funds by amending the approved Section 108 application for the Detroit Development Projects. This application was submitted to HUD in July 14, 1998, and approved by HUD October 23, 1998.

The proposed amendment will reduce the amount available for backup for the Neighborhood Restoration Project Accelerated Demolition Program from \$60,000,000 to \$50,000,000. This \$50,000,000 is the current amount appropriated for the Accelerated Demolition Program. This amendment will establish a \$10,000,000 MCA/RIMCO Properties Section 108 Loan project in the Detroit Development Projects application.

We request your approval of the attached resolutions.

 Re: Fisher Fwy. (I-75). Deck Replacement for structure which carries State Fair Ave. over Hwy. I-75 located within the City of Detroit. State Agreement No. 97-5349.

On September 10, 1997 (JCC page 2341) your Honorable Body approved City Contract No. 076283 with the Michigan Department of Transportation which provided for an estimated amount of \$25,700 for the City's Share for the project described below:

Deck replacement, signalization and approach work for structure S09 of 82252 which carries State Fair Avenue over Highway I-75; together with necessary related work; located within the corporate limits of city.

Based on the information from MDOT the project is anticipated to cost \$1,478,017. The estimated city share of revised cost would now be \$36,950 an increase of \$11,250 from the originally estimated city share of \$25,700.

Re: MCA/RIMCO Properties Project

In past discussions with Your Honorable Body, I have described the need for the City to take active steps in the management of properties formerly controlled by the bankrupt MCA and RIMCO companies. These steps are needed to avoid housing problems for the low income persons occupying many of these properties, and to avoid the deterioration of neighborhoods in which many of these properties are located.

Due to the complex nature of the MCA/RIMCO project, the need for prompt action, and the regulations regarding the use of Community Development Block Grant funds, it has been difficult to prepare a funding plan for the City actions needed.

After lengthy discussions, HUD has advised us that we should use Section 108 Guaranteed Loan funds by amending the approved Section 108 application for the Detroit Development Projects. A letter requesting the approval of this amendment will accompany this letter or be submitted within the next day or two.

Since the Section 108 funds will not be immediately available, we request that you authorize, with waiver of reconsideration, the Finance Director to make a cash advance of \$1,500,000 from the General Fund for costs related to the MCA/RIMCO project. This cash advance will be in addition to the cash advance authorized by you on December 8, 1999. It will be repaid from Community Development Block Grant and/or Section 108 Guaranteed Loan funds.

Honorable City Council:  
Re: Ondria Jackson v City of Detroit.  
Case No. 99-925508-NO, File No. 99-9220 (KAC), CLIS No. 9907154.

On May 23, 2000, a mediation panel evaluated the above-captioned lawsuit and awarded Twenty-Five Thousand Dollars (\$25,000.00) in favor of Plaintiff. The parties have until June 20, 2000, to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the mediation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the mediation award; and, in the event that Plaintiff accepts the award, direct the Finance Director to issue a draft in the amount of Twenty-Five Thousand Dollars (\$25,000.00) payable to Ondria Jackson and her attorneys, Law Office of Christopher S. Varjabedian, P.C., to be delivered upon receipt of properly executed Releases and Stipulation and Order of

Dismissal entered in Lawsuit No. 99-925508-NO, approved by the Law Department.

Honorable City Council:

Re: Transfer of Appropriation, Youth Department.

An analysis of the surplus and deficit for the Youth Department indicates the necessity of an appropriation transfer in the amount of \$34,473 from Budget Appropriation 00226 to Youth Appropriation 00862. This transfer is required to avoid an appropriation deficit resulting from building rental payments.

The deficit is a result of insufficient block grant appropriation for 99/2000 Fiscal Year and rental payments being transferred to the general fund.

The Budget Department respectfully requests that your Honorable Body adopt the attached resolution to provide funds for the continued operation of the department through the remaining Fiscal Year.

Honorable City Council:

Re: Federal Aid — Congestion Mitigation and Air Quality Program. Traffic Signal Modernization and Pavement Marking at the Four (4) Intersections on E. Warren. State Agreement 97-5163.

On September 24, 1997 (JCC Page 2505) your Honorable Body approved City Contract No. 076650 with the Michigan Department of Transportation which pro-

vided for an estimated amount of \$1,175 for the City's share for the project described below:

Traffic Signal Modernization and pavement marking together with necessary related work at the following intersections within the corporate limits of the City of Detroit:

E. Warren Avenue at Beaubien/St. Antoine Street.

E. Warren Avenue at Brush Street.

E. Warren Avenue at Chrysler Freeway Ser. Dr.

E. Warren Avenue at John R. Road.

Based on the bid price, the contract was awarded for \$369,175 but the Federal Funds are limited to an amount not to exceed \$368,000. We have been informed by city traffic engineers that there is an increase of \$21,696 from the original contract amount for the traffic signals modernization. The reason for the increase is due to the proposed widening and two-way conversion of John R. near VA Hospital subsequent to the finalization of the contract documents and also controller needed to be changed to accommodate more signal phases. The estimated City's share of the revised cost would now be \$22,871, an increase of \$21,696 from the originally estimated City share of \$1,175.

We therefore, recommend adoption of the attached resolution, which authorizes the Finance Director to increase the amount of CPO #2527366 (FICS City Contract #076650) from \$1,175 to \$22,871. The increase will come from Appropriation #4189, Major Street Fund — Traffic Signal Extension.

Honorable City Council:

Re: The Finance Department's resolution relative to approval of the Downtown Development Authority ad valorem tax rate for 2000-2001.

A question was raised as to whether City Council's approval of the subject matter should be signified by ordinance or resolution. The action of the City Council would be pursuant to MCLA 125.1662(1), which states in pertinent part as follows:

An authority with the approval of the municipal governing body may levy an ad valorem tax on the real and tangible personal property not exempt by law and as finally equalized in the downtown district. The tax shall not be more than 1 mill if the downtown district is in a municipality having a population of 1,000,000 or more, or not more than 2 mills if the downtown district is in a municipality having a population of less than 1,000,000.

The statute requires that the Downtown Development Authority's levy of the ad valorem tax have the City Council's confirmation to be made valid. Said confirmation of the City Council may, therefore, be effectuated by resolution.

**STATEMENT BY KENNETH COCKREL, JR., ON CONTRACT FOR LAND ACQUISITION AND RELOCATION COSTS IN BRUSH PARK**

Today a majority of City Council voted to approve a \$4 million contract amendment to fund infrastructure, environmental engineering, land acquisition, and resident relocation, and legal services in the Brush Park area.

I voted against this contract amendment which is associated with ongoing economic development activities in Brush Park. While I support redeveloping this area, I remain troubled by the concerns of the residents about this process. Brush Park residents, including but not limited to members of the Brush Park Citizens District Council, have continued to raise issues with the Brush Park Modified Development Plan.

This plan is supposed to guide the ongoing redevelopment efforts in Brush Park. Nevertheless, many residents fear that its implementation may lead to the acquisition of their own homes if they do not rehabilitate them to meet the criteria called for in the plan. These residents have raised valid concerns about whether or not this would be a justifiable use of the city's eminent domain (condemnation)

powers.

Within the past week alone an historic building in this area was demolished without proper notice to the city's Historic Designation Advisory Board of the Brush Park CDC.

The Planning and Development Department recently announced it plans to meet with the Brush Park CDC to discuss amendments to the plan that that group might like to see. While this is a step in the right direction, I do not believe Council should approve any funds or initiatives related to this plan until these issues have been settled in a mutually beneficial way for both the City and the residents.

Re: Request for Closed Session of Detroit City Council on June 8, 2000.

By a memorandum dated June 2, 2000, Council Member Sheila M. Cockrel

requested a closed session with the Law Department in order to discuss a lawsuit brought by the Ombudsman against the City of Detroit and its Law Department and Corporation Counsel. Accordingly, the Law Department requests a closed session with Detroit City Council to discuss litigation strategy in the pending lawsuit of *John R. We further request that the closed session be scheduled for Thursday, June 8, 2000 at 11:30 a.m., subject to approval by Detroit City Council through adoption of the attached resolution.

Section 8(e) of the Michigan Open Meetings Act, being MCL 15.268(e), MSA 4.1800(18)(e), allows a public body upon a two-thirds roll call vote of its members:

To consult with its attorney regarding the trial or settlement strategy in connection with specific pending litigation, but only if an open meeting would have a detrimental financial effect on the litigating or settlement position of the public body.

**Employees Benefit Plan  
of the City of Detroit**

June 1, 2000

Honorable City Council:

Re: I. 2000-2001 Health Care Plan Rate Schedules for City of Detroit Retirees.

II. New Alternative Health Care Plan (Community Blue PPO) for Police Lieutenants and Sergeants and Equivalent Fire Fighters Ranks.

**RETIREES RATES**

**Retiree Plans Offered.** Rates have been submitted by the six (6) health care plans that provide medical benefits to retired City of Detroit employees and their eligible spouses. New rates are effective July 1, 2000 and will remain in effect through June 30, 2001. These rates have been approved by the Employees Benefit Plan Governing Body on May 31, 2000, and are being submitted for final approval by City Council. The plans and the companies who are offering them are as listed below and all plans are available for selection by all retirees employees except for the special limitations noted for plans #5 and #6:

- 1) Blue Cross Blue Shield of Michigan (BCBSM); (Traditional plan)
- 2) Health Alliance Plan; (HMO)
- 3) BCBSM; Blue Care Network; (HMO)
- 4) OmniCare Health Plan; (HMO)
- 5) Coalition of Public Safety Employees Health Trust (COPS Trust); (PPO) [DPOA, DPOA-Allied and DPCOA members, all who retired after 5/1/1995, only]
- 6) Bankers Life (*as provided through the COPS Trust*); (Traditional plan for certain police and fire retirees [mainly all LSA and pre-May 1995 retirees] only)

**Attachment A** reports the rates being charged and the retiree contributions as approved by the Employees Benefit Plan Governing Board. There are several points to be highlighted. First, in the FY 1999-2000 Budget, and again in this year's proposed Budget money has been allocated to reduce retiree medical plan contributions. This money has 1) allowed all retirees on Medicare to benefit from a change in the base rate amount used to calculate their portion of the contribution to medical plan costs, and 2) permitted those

retirees who retired prior to July 1, 1987, to have their medical plan contributions reduced by 50% for this Fiscal Year. These budgetary allocations are intended to assist our older and needier group of retirees.

**Rates and Cost Sharing.** As was explained in our earlier letter, dated May 10, 2000, in which we requested your Honorable Body's approval of health care rates for active employees for FY 2000-2001, cost sharing between the City and all active employees and persons who retired after January 1, 1984, is determined by calculating from the Blue Cross Ward service rate changes which has occurred since January 11, 1984.

**NEW ALTERNATIVE PLAN FOR LSA AND DFFA MEMBERS**

**Attachment B** As a consequence of an agreement reached between the Labor Relations Division and the Detroit Police Lieutenants and Sergeants Association, the members of that organization who are active employees shall have the **Blue Cross COMMUNITY BLUE GROUP BENEFITS** as an additional alternative health care plan they may choose to belong to. The Governing Body of the Employee Benefits Plan approved the rates being charged for that plan on May 17, 2000. Said amounts and the applicable employee cost-sharing amounts are contained in Attachment B.

We repeat again in closing this letter, as we did our prior one, that as of April 9, 2000, the City's former Benefits Manager terminated her employment with the City of Detroit and that position has not yet been re-filled as of today. Her departure, coming just as the open enrollment for active employees was beginning to take place and when the annual rates changes were due to be determined, caused some delay in completing the computation of the cost-sharing amounts for both active and retired employees. We regret any inconvenience or concern this may have caused. The Labor Relations Division has, however, stepped-in to complete both of these tasks and therefore questions concerning any of these matters should be directed to Roger N. Cheek.

Respectfully submitted,

ROGER N. CHEEK

Re: Amendment Number 2 to Contract Number 80367 between City of Detroit and IMG Motorsports for the 2000 Detroit Grand Prix.

Submitted herewith for your Honorable Body's approval is a Resolution relating to procurement by IMG Motorsports of the liquor license for the 2000 Tenneco Automotive Grand Prix of Detroit. Said approval is required by the State of Michigan.

Respectfully submitted,  
**ERNEST W. BURKEEN, JR.**  
 Director

By Council Member S. Cockrel:

Whereas, The City Motor Vehicle Racing Act of 1981, being MCL 257.1701 et seq. (the "Act") provides for the issuance of a permit by a city for a motor vehicle racing event; and

Whereas, On October 7, 1993, the City Council passed a Resolution authorizing the granting of a permit under the Act to conduct an automobile racing event known as the Detroit Grand Prix; and

Whereas, That Resolution authorized the granting of a permit to Detroit Renaissance Grand Prix, Inc.; and

Whereas, Detroit Renaissance Grand Prix, Inc., entered into a contract with Motormarketing International of Detroit, Inc., an Ohio Corporation, assigning all of its rights and obligations to that entity; and

Whereas, In its Resolution of October 7, 1993, the City made an independent determination that Motormarketing International of Detroit was qualified to be a Permittee under the Motor Vehicle Racing Act of 1981 and authorized the issuance of such a permit; and

Whereas, Motormarketing International of Detroit, Inc. has legally changed its name to IMG Motorsports, Inc.; and

Whereas, The City Council reaffirms the findings containing in the October 7, 1993 Resolution; and

Whereas, In order for the Permittee to receive a liquor license from the Michigan Liquor Control Commission for the June 16, 17 and 18, 2000 racing event, the concurrence of City Council is required pursuant to MCL 436.17j(1999PA94); and

Whereas, In order for the Permittee to receive a liquor license for the event, it is necessary for the City to request that the tavern license granted to the City of Detroit for Belle Isle Casino be placed in escrow by the Michigan Liquor Control Commission during the pendency of the race on June 16, 17 and 18, 2000, at the designated Raceway on Belle Isle, Detroit, Michigan, which premises comply with all applicable state and local building, safety and health laws, rules and regulations; and

Whereas, In order for the Permittee to

receive a liquor license for the event, it is necessary for the legislative body for the City to submit to the Michigan Liquor Control Commission its recommendation that a liquor license or licenses be issued, including the name of the applicant and the location(s) and number of the premises to be licensed, and that the premises to be licensed comply with applicable state and local building, safety, and health laws, rules and regulations.

Now, Therefore, Be It Resolved, That the City Council requests that the tavern license granted to the City of Detroit for the Belle Isle Casino be placed in escrow during the pendency of the race, June 16, 17 and 18, 2000; and

Be It Further Resolved, That the City Council recommends that one Class C Liquor License be issued to IMG Motorsports-Detroit, Inc., which will allow the sale of alcoholic beverages on June 16, 17 and 18, 2000, at the designated Raceway on Belle Isle, Detroit, Michigan, which premises comply with all applicable state and local building, safety and health laws, rules and regulations; and

Honorable City Council:

Re: Acceptance of gift of pro bono legal services from Barris, Sott, Denn & Driker, P.L.L.C. to act as special corporation counsel to the City of Detroit.

On behalf of Mayor Archer, the Law Department is pleased to advise you of the offer of the law firm of Barris, Sott, Denn & Driker, P.L.L.C., to provide pro bono legal services as special corporation counsel to the City of Detroit Law Department in the matter of the proposed development of a racetrack at the Michigan State Fairgrounds. This generous offer was made on behalf of the firm by attorney Eugene Driker. As you may recall, the Barris, Sott law firm has provided outstanding legal services to the City in various litigation matters. While the City will not pay for the legal services rendered, the City will pay for the firm's out of pocket costs and other related expenses (e.g., expert consultant or witness fees) as necessary to representation of the City.

As you are aware, Section 2-1-12 of the 1984 Detroit City Code allows the Mayor to accept gifts of real or personal property with the approval of the City Council. Section 4-112 of the 1997 Detroit City Charter requires that an ordinance be adopted to provide for the acceptance of gifts of services to the City of Detroit. While the ordinance has not been amend-

ed to include a gift of services, a proposed resolution consistent with the Charter and the present ordinance is attached to this letter indicating approval by your Honorable Body of the acceptance of this gift. It is respectfully requested that you adopt this resolution at your next Formal Session.

Thank you for your attention to this matter.

Re: Rex Investment Company and Acorn Investment Company. Case No.: 99-130124 GC, File No.: 00-0115 (MMM), CLIS No.: 9907366.

On May 23, 2000, a mediation panel evaluated the above-captioned lawsuit and awarded Twelve Thousand Dollars (\$12,000.00) in favor of Plaintiffs. The parties have until June 20, 2000, to either accept or reject the mediation evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Honorable City Council:

Re: Correction to Schedule B, 2000-2001  
Council Changes to City Budget

On May 17, 2000, your Honorable Body approved the budget for the 2000-2001 Fiscal Year Budget including Council's changes to the General Fund Budget in Schedule B. In consultation with the Budget Department, the Fiscal Analysis Division requests that action be taken to correct an error in Schedule B.

Council asked that additional funds be added to the Housing Commission's Budget for the purpose of adding more hours of private security to the senior sites. The appropriations were correctly added to the Non-Departmental Agency to show the cost to the General Fund. We forgot to show it in the Housing Commission's budget, which is a necessary step.

Therefore, to correct this error, action needs to be taken to increase both the appropriation and the revenue to the Detroit Housing commission by \$250,000.

Attached is the necessary resolution.

Respectfully submitted,

IRVIN CORLEY, JR.

Fiscal Analyst

By Council Member Mahaffey:

Be It Resolved, That Schedule B, approved by the Detroit City Council as a part of the May 17, 2000 action on the 2000-2001 City Budget, be amended as follows:

**Detroit Housing Commission**

Increase Appropriation 05434 \$250,000

Re: Second Revised Resolution regarding City Planning Commission design review of above-ground Combined Sewer Overflow (CSO) facilities

Attached is a second revised resolution to implement the City Planning Commission (CPC) staff recommendation that plans and drawings for above-ground structures related to the CSO Control Plan be required to be reviewed by the CPC staff. The resolution has been revised to delete the request that contracts for design services for such CSO's include language that CPC staff must approve the proposed design of such

structures. The resolution also deletes the wording that it is Council's intent to approve such contracts only if the requirement for CPC staff review and approval is included.

Respectfully submitted,

MARSHA S. BRUHN

Director

By Council Member Scott:

Whereas, the Detroit Water and Sewerage Department (DWSD) is constructing a number of facilities throughout Detroit to mitigate the environmental problems associated with Combined Sewer Overflows; and

Whereas, some of these facilities have above-ground structures and members of the Detroit City Council and some community organizations have expressed concern about the impact of these facilities on the surrounding areas; and

Whereas, the Detroit City Council believes it is important that these facilities blend in with the appearance of the surrounding area to minimize their impact on those areas and, therefore, it is critical that the design of these facilities be reviewed before the contracts for their construction are bid out;

Now, Therefore, Be It Resolved, that the Detroit City Council hereby requests that any contract presented to the Council for design services for any Combined Sewer Overflow facility with an above-ground structure include language stating that the proposed design of the above-ground structure, including landscaping and other features to buffer the structure from surrounding uses, must be reviewed by the City Planning Commission staff before the construction documents are prepared; and

Be It Further Resolved That, the City Clerk is directed to submit this resolution to the Mayor's Office, the Water and Sewerage Department, and the Finance Department Purchasing Division.

necessary to provide electrical service to the development

Respectfully submitted,  
JOHN NELSON, JR.  
Executive Director

By Council Member Scott:

Whereas, Douglass Homes is a housing development located at 2700 St. Antoine Street in the City of Detroit, which is owned by the City of Detroit and managed by Detroit Housing Commission (hereinafter "Commission"); and

Whereas, said development includes the building located at 650 Alfred Street (hereinafter "Premises"), currently under renovation, which renovation includes the construction of a new "switch cabinet" on the south side of Alfred Street to provide electrical service to the Premises; and

Whereas, the Detroit Edison Company has requested expansion of an existing easement area on the Premises to "construct, reconstruct, modify, add to, operate and maintain underground utility line facilities consisting of poles, guys, anchors, wires, manholes, conduits, pipes, cables, transformers and accessories" to allow installation of said "switch cabinet" to better serve the Premises; and

Whereas, the grant of easement rights is the conveyance of a real property interest and Section 4-112 of the City Charter states that any disposition of property requires a resolution of approval from the Detroit City Council.

Now, Therefore, Be It Resolved that the Detroit City Council approves the grant of an expanded utility easement at Douglass Homes to the Detroit Edison Company, at the specific location deemed necessary by the Commission and said utility company by mutual agreement.

P.A. 147 of 1992, commonly referred to as the Neighborhood Enterprise Zone Act, in Section 3(1) States "the governing body of a local governmental unit by resolution may designate one (1) or more neighborhood enterprise zones." Prior to acting upon the resolution a public hearing must be held, the City Clerk shall provide written notice to the City Assessor and each taxing unit that levies ad valorem property taxes in the proposed zone said notice to be made not less than 60 days prior to the passage of a resolution designating a Neighborhood Enterprise Zone.

Attached herewith, please find the following documents:

2. A legal description of the land area specified for the proposed project.

IMPORTANT: The Detroit City Council shall NOT vote on the Resolution before the expiration of at least sixty (60) days from the date of the Notice of the Public Hearing. Said requirement is in accordance with statutory regulations specified in Section three (3) of the Neighborhood Enterprise Zone Act, Michigan Public Act 147 of 1992.

By Council Member Tinsley-Talabi:

Whereas, Michigan Public Act 147 of 1992, the Neighborhood Enterprise Zone Act, provides for the establishments of Neighborhood Enterprise Zones, and

Whereas, The *West Village Townhouses* has requested Neighborhood Enterprise Zone designation for their project, the Planning and Development Department is requesting that the area specified in the attached legal description, be designated as a Neighborhood Enterprise Zone for new and rehabilitated facilities in accordance with the 10% acreage allowance provided under Sec. 3(1) and Sec. 3(3); and

Whereas, The City of Detroit Planning & Development Department, and the Finance Department Assessments Division advise that designation of the proposed area as a Neighborhood Enterprise Zone is consistent with the adopted Master Plan of Policies, as amended, and will further the economic and physical development goals and objectives of the City,

Honorable City Council:

Re: Petition No. 2202. Barton Malow-Dumas Construction Services team. Temporary Street Closing, Wight Street between McDougall and Walker. Purpose: To manage construction activities at the new UAW-GM Center for Human Resources site.

Petition No. 2202 of the "Barton Malow-Dumas Construction Services team" request the temporary closing of Wight

Street, 50 feet wide, between McDougall Avenue and Walker Street. The Barton-Malow Field Office for the (under construction) UAW-GM Center for Human Resources is located at 3103 Wight Street. Site construction activity requires the moving of construction trailers from the privately owned site to locations along Wight Street. The street closing request is needed only for the remaining construction period, and can expire about January 1, 2001.

The Traffic Engineering Division — DPW and Public Lighting Department [PLD] with certain restrictions, approved the request. PLD reports one street lighting unit within Wight Street. To keep the public street light in operation, "Barton-Malow" must execute a "service agreement" for monthly charges with PLD.

The Ameritech/Michigan Bell Tele-

phone Company, Detroit Edison Company, Public Lighting Department, and the Water and Sewerage Department (all) will require unimpeded access to service their existing facilities. Any fence and gate installation must provide 13 feet horizontal and 15 feet vertical clearance(s) for utility maintenance vehicles.

All other city departments and privately owned utility companies reported no objections to the closing, provided they have the right to ingress and egress at all times to their facilities.

There is an appropriate resolution, containing the necessary conditions, attached for consideration by your Honorable Body.

Respectfully submitted,

City Engineering Division — DPW

By Council Member Everett:

Resolved, The City Engineering Division — DPW is hereby authorized and directed to issue permits to the "Barton Malow-Dumas Construction Services team" to close Wight Street, 50 feet wide, between McDougall Avenue and Walker Street lying southerly of and abutting the south line of Lots 67 through 74 of the (Plat of the Walker Tract, being that part of Private Claim 11 and 583 and of Lot 1 of the Subdivision of the Hunt farm lying between Jefferson Avenue and Wight St.," City of Detroit, Wayne County, Michigan as recorded in Liber 1, Page 10 of Plats, Wayne County Records; also lying southerly of and abutting the south line of Lots 30 through 37 of the (Plat of Willis' Subdivision on the McDougall Farm, being the East half of Private Claim No. 9 and 454 between Jefferson Avenue and Wight Street," City of Detroit, Wayne County, Michigan as recorded in Liber 1, Page 130 of Plats, Wayne County Records; also having been opened and extended through B. Chapoton and McDougall Farm(s) by City Council on October 1, 1864 — J.C.C. page 170; also lying northerly of and abutting the north line of a land parcel being more particularly described in city records as follows:

Beginning at the southeastern corner of the intersection of Wight Street (50 feet wide) and vacated McDougall Avenue (60 feet wide; having been previously vacated by City Council on May 2, 1984 — J.C.C. pages 799-800); thence N.59°52'00"E., along the southerly line of Wight Street (50 feet wide), 505.48 feet; thence S.29°58'44"E., along the westerly line of vacated Walker Street (50 feet wide; having been previously vacated by City Council on April 22, 1998 — J.C.C. pages 916-920), 115.99 feet; thence S.16°26'02"W., 122.19 feet; thence S.59°51'57"W., along the northerly line of vacated Guoin Street (50 feet wide; having been previously vacated by City

Council on April 22, 1998 — J.C.C. pages 916-920), 430.44 feet; thence N.26°07'49"W. along the easterly line of said vacated McDougall Avenue (60 feet wide), 200.49 feet to the point of beginning said land parcel containing about 98,725 square feet or 2.2664 acres more or less.

Petition No. 2202 of the "Barton Malow-Dumas Construction Services team" requests the closing of said Wight Street on a temporary basis to expire on January 1, 2001 [NOTES: The Barton-Malow Field Office for the (under construction) UAW-GM Center for Human Resources is located at 3103 Wight Street, Detroit, MI 48207; Phone 313-566-5500; FAX: 313-566-5510. Site construction activity requires the moving of construction trailers from the privately owned site to locations along Wight Street. The street closing request is needed only for the construction period.];

Provided, Prior to City Engineering Division — DPW issuing a permit to temporary close said Wight Street, the petitioner ("Barton Malow-Dumas Construction Services team") shall execute an agreement to pay the Public Lighting Department a monthly fee (based on actual costs to the city and/or the Public Lighting Department) to maintain one existing street lighting unit within said Wight Street. If it becomes necessary to remove any part of the existing public street light system and/or lighting fixture within said Wight Street, it shall become the responsibility of "Barton-Malow" to pay any Public Lighting Department expenses to reinstall the street light prior to the street being re-opened for public use; and

Provided, The petitioner shall file with the Finance Department an indemnity agreement (distinct from the Public Lighting Department agreement in Provision One above) in form approved by the Law Department. The agreement shall save and protect the City of Detroit harmless from all claims, damages or expenses that may arise by reason of the issuance of permits and the faithful or unfaithful performance by the petitioner of the terms thereof. Further, the petitioner shall agree to pay all claims, damages or expenses that may arise out of the maintenance of the temporary public street closing; and

Provided, The permit shall be issued after the City Clerk has recorded a certified copy of this resolution with the Wayne County Register of Deeds; and

Provided, The property owned by the petitioner and adjoining the temporary public street closing shall be subject to the proper zoning or regulated use (Board of Zoning Appeals Grant) over the total width and length of the street; and

Provided, The temporary placement of movable construction trailers is permitted.

However, this resolution does not permit the construction of building(s) or any other structure (except necessary line fence) on or over the temporarily closed public street. The petitioner shall observe the rules and regulations of the City Engineering Division — DPW. The City of Detroit retains all rights and interests in the temporarily closed public street. The city and all utility companies retain their rights to service, inspect, maintain, repair, install, remove or replace utilities in the temporarily closed public street. Further, the petitioner shall comply with all specific conditions imposed to insure unimpeded 24-hour-per-day access to the city and utility companies; and

Provided, All of the petitioner's public property fence and gate installation(s) shall be subject to the review and approval of the City Engineering Division — DPW (if necessary, in conjunction with Traffic Engineering Division — DPW, and the Water and Sewerage Department); and

Provided, The petitioner's fence and gate installation shall provide 13 feet horizontal and 15 feet vertical clearance(s) for utility maintenance vehicles; and

Provided, The temporary placement of movable construction trailers is permitted. However, this resolution does not permit the storage of construction materials, display of merchandise, or freestanding advertising signs within the temporarily closed public street. Further, the placement of materials merchandise, or freestanding advertising signs on any adjacent berm area is prohibited. It is the intent of this provision to prohibit merchandising within public rights-of-way, but

not signs conforming to the current Michigan Manual of Uniform Traffic Control Devices; and

Provided, That at the expiration of the permit, all obstructions shall be removed at the petitioner's expense. The public property shall be restored to a condition satisfactory to the City Engineering Division — DPW by the petitioner at the petitioner's expense; and

Provided, This resolution is revocable at the will, whim or caprice of the City Council without cause. The petitioner waives the right to claim damages or compensation for removal of encroachments. Further, the "Barton Malow-Dumas Construction Services team" acquires no implied or other privileges hereunder not expressly stated herein. If this permit is continued until January 1, 2001, the City Council may (upon written request and if the circumstances justify accordingly) grant an extension thereto. [NOTES: A public street widening at the northwest corner of Walker and Wight Streets is pending at the (under construction) UAW-GM Center for Human Resources site. This may become a reason for city barricade-construction permits, and/or a request to extend the permitted temporary public street closing. If necessary, this matter will be appropriately presented to City Council in other petition request(s); and

Provided, This permit shall not be assigned or transferred without the written approval of the City Council; and

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

Honorable City Council:

Re: Petition No. 2127 — Masco Tech-Braun, requesting to encroach into the public right-of-way for installation of electrical conduit to service substation in the area of 19001 Glendale.

Petition No. 2127 of "Masco Tech-Braun" 19001 Glendale Ave., Detroit, Michigan 48223-3475, request permission to install and maintain a privately

owned underground duct bank approximately 520' in length and approximately 30' from property line; with one (1) 6' x 8' x 7' manhole [proposed use: private electrical power supply from substation to facility] beneath Artesian Avenue, 86 feet wide, between Glendale Avenue, 60 feet wide and the Railroad right-of-way.

The petition was referred to City Engineering Division — DPW for investigation and report. This is our report:

Duct system placement beneath Artesian Avenue (86 feet wide) involves a public street "open cut." Masco Tech-Braun, must obtain permits from City Engineering Division — DPW for any street opening, backfill, surface restoration, barricade, or occupancy of city rights-of-way to install a duct system.

The Public Lighting Department (PLD) will require a minimum vertical clearance of one foot, and a minimum horizontal clearance of three feet between PLD facilities and the proposed "Masco Tech-Braun" underground duct bank. The Detroit Water and Sewerage Department (DWSD) will require a minimum vertical clearance of one foot, and a minimum horizontal clearance of three and one-half feet between DWSD sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes (and any other DWSD facilities) and the proposed "Masco Tech-Braun" underground duct bank. Also, reports from Michigan Consolidated Gas Company indicates there is gas service which crosses the proposed duct right-of-way at approximately 534 feet south of the south line of Glendale. Should damages to utilities occur the petitioner shall be liable for all incidental repair costs and waives all claims for damages to the encroaching installation.

All other city departments and privately owned utility companies reported no objections to the proposed encroachment(s); provided Masco Tech-Braun uses "care and caution" in the "open cut" of Artesian Avenue. They request the petitioner make use of "Miss Dig" facilities before installation-placement, and then become a participating member of that organization. This will minimize the chance of damage to Masco Tech-Braun property.

Finally, the City Engineering Division — DPW requires "Masco Tech-Braun" to submit certified "as built" drawings, a map and survey, showing the exact location of the petitioner's completed duct system installation.

I am recommending adoption of the attached resolution.

Respectfully submitted,

 By Council Member Everett:

Whereas, Petition No. 2127 of "Masco Tech-Braun" 19001 Glendale Ave., Detroit, Michigan 48223-3475, request permission to install and maintain a privately owned underground duct bank approximately 520' in length and approximately 30' from property line; with one (1) 6' x 8' x 7' manhole [proposed use: private electrical power supply from substation to facility] beneath Artesian Avenue, 86 feet wide, between Glendale Avenue, 60 feet wide and the Railroad right-of-way; therefore be it

Provided, Whenever it becomes necessary to open-cut a public street, bore, jack, occupy or barricade city rights-of-way for construction or duct system placement, such work shall be according to detailed permit application drawings (to be submitted by the petitioner, subject to city department review and stamp approvals) prior to any public right-of-way construction; and further

Provided, Said duct system installation and maintenance shall be according to the specifications of the Public Lighting Department (PLD), including the minimum vertical clearance of one foot, and a minimum horizontal clearance of three feet between PLD facilities and the proposed "Masco Tech-Braun" underground duct bank. Also, said duct system installation shall be according to the specifications of the Detroit Water and Sewerage Department (DWSD), including a minimum vertical clearance of one foot, and a minimum horizontal clearance of three and one-half feet between DWSD sewers, drains, water mains, fire hydrants, catch basins, sewer and water manholes or shut-offs (and any other DWSD facilities) and the proposed "Masco Tech-Braun" underground duct bank; and further

and/or alteration becomes necessary, and to restore the property affected to a condition satisfactory to the City Engineering Division — DPW at “Masco Tech-Braun”, the duct system owner’s expense; and further

Provided, The petitioner “Masco Tech-Braun”, shall file with the Finance Department an indemnity agreement approved by the Law Department, saving and protecting the City of Detroit from any and all claims, damages, or expenses that may arise by reason of the issuance of said permits and the faithful or unfaithful performance by the permittee of the terms thereof, and in addition to pay all claims, damages or expenses that may arise out of the maintenance of said encroachments; and further

Provided, That no other rights in the public street or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachment shall be removed at the expense of the permittee at any time when so directed by the City Council, and the public property affected shall be restored to a condition satisfactory to the City Engineering Division — DPW at the permittee’s expense; and further

Provided, This resolution is revocable at the will, whim, or caprice of the City Council, and the permittee hereby waives any right to claim damages or compensation for removal of encroachment(s), and further, that the permittee acquires no implied or other privileges hereunder not expressly stated herein; and further

Provided, That “Masco Tech-Braun” shall apply to become a participating member of the “Miss Dig” organization; and further

Provided, The placement and maintenance of duct system encroachments in public rights-of-way shall be construed as acceptance by “Masco Tech-Braun”. Notwithstanding the fact that the filing of the indemnity agreement and the securing of the necessary permit(s) referred to above in this resolution are stipulations of this encroachment (permission) grant; and further

Provided, That the encroachment permit shall not be assigned or transferred without the written approval of the City Council; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds; and further

Resolved, The petitioner “Masco Tech-Braun”, owner of the duct system encroachments shall submit two copies of “as built” drawing(s) sealed by a professional engineer registered in the State of Michigan to the City Engineering Division — DPW within 30 days after obtaining the necessary “construction” permit(s) to

install the duct system encroachments. Said “as built” drawing(s) shall furnish a complete means of identifying and ascertaining the precise position of every part of the “encroachments” with courses, distances, and depth throughout (containing City of Detroit datum), so that it may be determined with certainty where any portion of the “encroachment” has been built. Copies of the certified “as built” map(s) and survey(s) shall be an “appendix” to this resolution. One copy of said “appendix” shall be recorded by the City Engineering Division — DPW in the Wayne County Register of Deeds.

**Department of Public Works  
City Engineering Division**

June 7, 2000

Honorable City Council:

Re: Petition No. 1781 - Crosswinds Communities, request to vacate certain public alleys and to provide a easement over private property, east of Woodward in the Brush Park Community for a Crosswinds Communities Condominium development in Detroit, Michigan known as Woodward Place in Brush Park.

Petition No. 1781 of “Crosswinds Communities,” request the outright vacation of portions of the north-south public alley, 20 feet wide, and the acceptance by the City of a easement, 20 feet wide, over private property for ingress and egress, all in the block bounded by Woodward, 120 feet wide, John R, 60 feet wide, Adelaide, 60 feet wide and Alfred, 60 feet wide.

The request was approved by the Solid Waste Division- DPW, and the Traffic Engineering Division - DPW. The petition was referred to the City Engineering Division - DPW for investigation (utility review) and report. This is our report.

The petitioner plans to install a paved return entrance into Woodward Ave (M-1). The petitioner must obtain a permit from the Michigan Department of Transportation (MDOT) for any work in the Woodward Ave. right-of-way. Removal and construction of new approach and sidewalk shall be done under MDOT permit and inspection according to MDOT specifications with all costs borne by the petitioner.

The Detroit Water and Sewerage Department (DWSD) have no objections to outright vacate the alleys provided that all properties abutting the alley are owned by the petitioner.

The Detroit Edison Company (DeCo) reports, in order to accommodate the alley vacation DeCo must remove and

relocate overhead and underground facilities in the area. The cost estimate for the removals and relocations should not exceed \$150,000. Arrangements have been made between DeCo and Crosswinds Communities.

Satisfactory arrangements have been made with Ameritech to place conduit and provide access to this development for new service.

All other involved city departments and privately owned utility companies reported no objections to the outright vacation and private easement or that satisfactory arrangements have been made.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
SUNDAY JAIYESIMI,  
City Engineer

Honorable City Council:

Re: Millenia Two Citizens Radio Patrol Program No. 7.

Listed below is a recommended amendment to the allocation of credit for the Millenia Two Citizens Radio Patrol for the 3rd and 4th Quarters of 1999-2000, and requesting a waiver of reconsideration.

The Millenia Two Citizens Radio Patrol is a new patrol for the 1999-2000 Program Year. It has been brought to my attention that an appropriate amount of available funding has not been requested for the Millenia Two Patrol to run its operations.

The requested amount for the 3rd Quarter ending March 31, 2000 was \$400. The actual allotment for their patrol for the 3rd Quarter was for \$1,747.01. The additional amount of funding which the patrol could have received for the 3rd Quarter is \$1,347.01.

The requested amount for the 4th Quarter ending June 30, 2000 was \$657.28. The actual allotment for their patrol was \$1,722.71. The amount of additional funding which the patrol could

have received for the 4th Quarter is \$1,065.43.

The Millenia Two Radio Patrol will have an operating deficit at their current level of funding. We can accommodate, in our existing budget, the deficit they will experience. We are, therefore, requesting your approval for these additional funds in the amount of \$2,412.44, and a waiver of reconsideration is requested.

Thank you for your consideration.

**Downtown Development Authority**

June 15, 2000

Honorable City Council:

Re: Downtown Development Authority FY 2000-2001 Budget

Pursuant to Article 28, Act No. 197, as amended, we have prepared the attached FY 2000-2001 Downtown Development Authority's General Fund Budget.

The amount of funds available from the one mill tax for FY 2000-2001 has been estimated at \$700,000, net of collection delinquencies and reserves for tax settlements, reflecting a \$15,000 increase from the actual receipts for Fiscal Year 1999-2000. Transfer from the DDA's Tax Increment Fund of an amount of \$500,000 will remain level at the 1999-2000 allocation. The FY 2000-2001 budget reflects revenues of \$180,000 generated from the parking operations representing a \$50,000 decrease from FY 1999-2000 attributed to the 50% utilization of one of DDA's parking lots due to the construction of the Compuware Project. Service fees of \$140,000 represent payments from Detroit/Wayne County Stadium Authority to DDA for administrative costs of the Stadia Project. The \$70,000 decline results from the anticipated completion of the Comerica Park. Transfer from Fund Balance has been estimated at \$292,000 which is needed to offset the anticipated shortfall in revenue for FY 2000-2001. This amount represents an increase from FY 1999-2000 of only \$16,000 since the majority of DDA's projected expenditures for Special Projects and Contingencies will be funded by current revenues.

On the appropriations side, contractual services of \$1,057,000 show a decrease of \$305,000 from FY 1999-2000. This decrease reflects the DEGC contract decrease by \$70,000 for the 2000-2001 Fiscal Year and the elimination of the Greater Downtown Partnership fee of \$235,000. The budgeted amount of \$260,000 for professional services and fees, inclusive of a \$10,000 expense for Computer Support, reflects a \$38,000 increase from the 1999-2000 Fiscal Year primarily due to an increase in anticipated advertising/marketing and legal expenses. The FY 2000-2001 budgeted expenses of \$80,000 related to parking operations increased only by \$2,000 from last year's expenses. Finally, \$500,000 of allocated funds for Special Projects and Contingencies for FY 2000-2001 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its June 21, 2000 meeting. A Waiver of Reconsideration is requested.
