### **City Planning Commission**

June 12, 2000

Honorable City Council:

Re: Request of the Planning and Development Department (#2661) to rezone property generally located on the east and west sides of Wayburn Avenue between Lozier Avenue and Mack Avenue from an R1 (Single-Family Residential District) to an R2 (Two-Family Residential District) zoning classification (Recommend Approval).

The Planning & Development Department (P&DD) has been working with the U-SNAP-BAC Non-Profit Housing Corp. over the past few years to develop new housing units on the east side of Detroit. In order to allow for the construction of several two-family housing units, P&DD is requesting that property generally located on the east and west sides of Wayburn Avenue between Lozier Avenue on the north and the east/west alley first north of Mack Avenue on the south be rezoned from R1 to R2.

Currently, U-SNAP-BAC is in the process of constructing 40 single-family houses, referred to as Morningside Commons Phase I, on Wayburn Avenue two blocks north of Mack Avenue. U-SNAP-BAC is now proposing to construct 32 duplexes totaling 64 units on Alter Road and Wayburn Avenue just south of the Phase I project. U-SNAP-BAC indicates it is constructing duplexes to meet the demand for affordable new low-density rental units.

On Wayburn Avenue in particular, U-SNAP-BAC is proposing to construct 19 duplexes. In order to develop these units, Wayburn Avenue would need to be rezoned from R1 to R2 because R1 does not allow two-family residential units. Currently, the subject block has 41 vacant lots and 16 single-family houses, of which 14 are occupied and 2 are abandoned. The City currently owns 63% of the lots on the block, including 2 occupied houses and 1 vacant house. U-SNAP-BAC is working with existing homeowners to see if they would like to sell their houses and is proposing to build around those homeowners who wish to stay. At this point, U-SNAP-BAC estimates that of the 16 existing houses on the block, 11 would remain. The majority of the existing lots on the block are 30 feet wide, and U-SNAP-BAC is proposing to combine lots to create either 60 or 70-foot wide lots. All of the proposed duplexes would be 2-stories

high with either 2, 3, or 4 bedrooms. All of duplexes would be subsidized rental units. The cost of the land is estimated to be 45 cents per square foot. Please see Attachments A and B for existing and proposed land use maps.

### **PUBLIC HEARING RESULTS**

On May 18, 2000, the City Planning Commission (CPC) held a public hearing on the subject rezoning request. At the hearing, the president of the Morningside community group within, which the proposed project is located within, spoke in favor of the project. One person raised concerns that a Farm-a-Lot program, which had been operating on 2 lots on the east side of the subject block for the past 11 years and working with many area children, would be eliminated. The operator wanted to be allowed to purchase a vacant lot adjacent to her house, which is one block to the east on Maryland Street and use an adjacent vacant City-owned lot to continue her Farm-a-Lot activities. The CPC asked if staff from the CPC and P&DD could meet with the parties involved to try and address the concerns.

### **ANALYSIS**

#### ***Surrounding Zoning and Land Use***

The zoning classification and land uses surrounding the subject area are as follows:

North: R2 (Two-Family Residential District); developed with single-family houses and vacant lots

East: R1 (Single-Family Residential District); developed single-family houses and vacant lots

South: B4 (General Business District); developed with commercial uses

West: R2; developed with single-family houses and vacant lots

As shown by the surrounding zoning and uses listed above, the blocks to the north and west are already zoned R2 and developed with single-family houses and vacant land. As a result, the proposed rezoning would not be out of character with the existing zoning in the neighborhood.

#### ***Zoning Considerations***

The R2 zoning district is designed to protect and enhance those areas developed or likely to develop with single or two family dwellings. The district also allows other "permitted with approval uses," such as off-street parking lots, churches, and multi-family dwellings having a maximum of eight units, subject to certain criteria. It appears that the proposed duplex designs comply with the City Zoning Ordinance, but U-SNAP-BAC should present its plan to the Buildings & Safety Engineering Department to ensure that all zoning requirements are met.

#### ***Master Plan Consistency***

The subject site is located with the Finney Subsector of the Northeast Sector of the Detroit Master Plan of Policies. The "existing land use" map shows Low-

Medium Density Residential for the subject area, and the "recommended future general land use" map shows Low Density Residential for the subject area. P&DD has notified the CPC that the proposed rezoning conforms to the present residential land use designation and conforms to the intent of the Master Plan of Policies.

**Community Reinvestment Plan**

The subject block is located within Cluster 3 of Detroit's Community Reinvestment Strategy. The proposed project conforms with the plan, which recommends residential rehab and infill for the area.

**Public Hearing Follow-up**

CPC staff has been corresponding with P&DD and the person who spoke at the public hearing regarding the Farm-a-Lot program. Hopefully, by the time a public hearing is held at City Council, an agree-

ment can be reached on the relocation of the Farm-a-Lot.

**RECOMMENDATION**

After consideration of the above factors, particularly because the proposed R2 zoning is consistent with the zoning for much of the surrounding area and the rezoning conforms with the Master Plan of Policies and would allow for the development of new affordable housing, the CPC recommends that the subject proposal be approved.

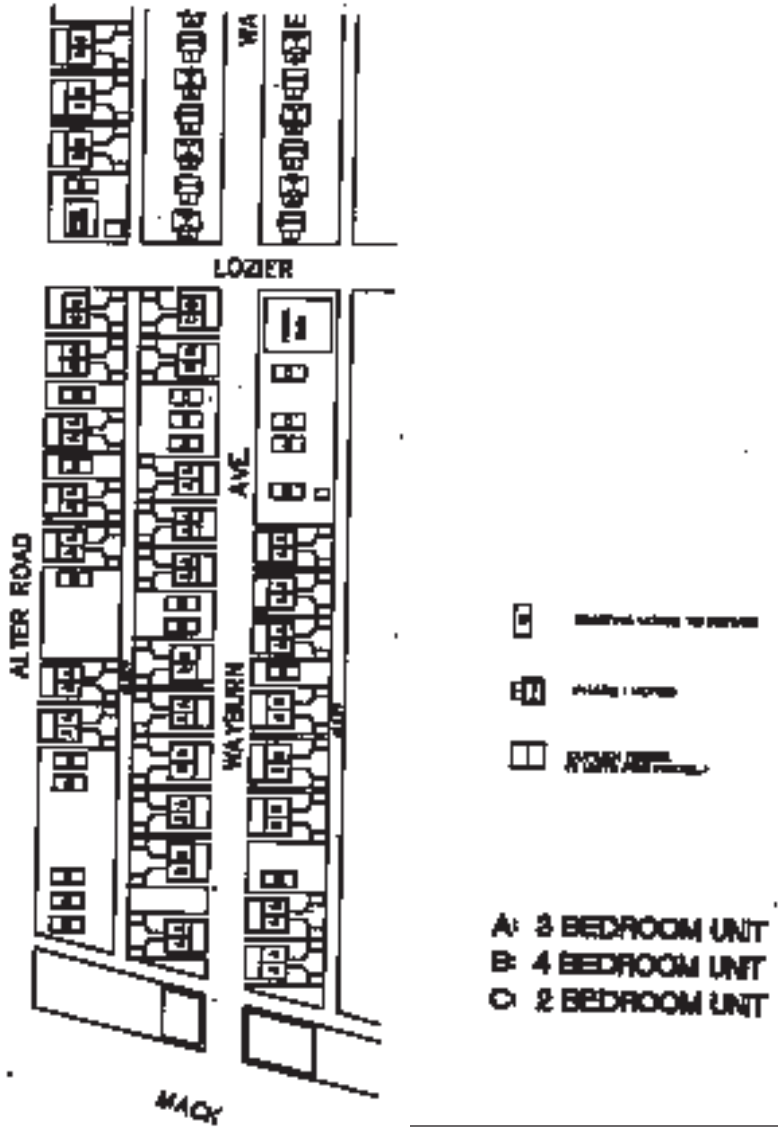

The appropriate ordinance to effectuate this recommendation is attached for your consideration and has been approved as to form by the Law Department.

### STATEMENT OF COUNCIL MEMBER NICHOLAS HOOD, III IN SUPPORT OF CONTRACT #2513748 TO PROVIDE LEGAL REPRESENTATION TO THE OFFICE OF THE OMBUDSMAN ON PENDING LITIGATION

I voted to support contract #2513748 which will "provide all necessary and required legal services to the City of Detroit Office of the Ombudsman" in the matter regarding the conflict with the Law Department. It is my understanding that this contract is to obtain outside legal representation to resolve the Ombudsman's dispute with the Law Department on another contract being held in the Law Department.

According to Section 4-308 of the 1997 City Charter, the Ombudsman may retain outside legal representation "where there exists a conflict of interest between the ombudsperson and another branch of government." Consequently, the Office of the Ombudsman is entitled to receive outside legal representation for this contract because the Ombudsman's office and the Law Department are in conflict.

I voted yes on this contract because it is essential that the Charter mandated authority of the Office of the Ombudsman not be eroded by refusing it the tools it needs to carryout its responsibilities. I voted to support the Ombudsman's request for legal counsel in order to maintain the autonomy that is granted to the Office of the Ombudsman by the Charter. The balance of power outlined in the Charter between the Office of the Ombudsman and the Executive Branch allows for the Ombudsman to assert its responsibility as the problem solver for the citizens of this City.

Yet, I want to reiterate that I voted only to approve contract #2513748. This contract does **not** give the Ombudsman's office legal representation to be used at their discretion. This contract merely grants the Ombudsman outside legal representation to litigate the pending dispute between the Office of the Ombudsman and the Law Department.

### STATEMENTS BY COUNCIL MEMBER SHEILA M. COCKREL REGARDING LEGAL SERVICES CONTRACT FOR THE OMBUDSMAN'S SUIT AGAINST THE CITY OF DETROIT

Today, the City Council was asked to approve a contract for the Ombudsman to hire an outside lawyer to sue the city in both his official and personal capacity. According to his pleadings, the Ombudsman is attempting to litigate an issue that has never arisen. He disagrees with the Law Department's interpretation of the Charter, and wants to take that disagreement before a Judge.

In my view, the problem with the underlying litigation is that the Ombudsman is

requesting that the taxpayers of the City of Detroit pick up the tab for him to litigate a hypothetical. The Ombudsman has never been faced with a situation in which he believes that outside counsel was required due the existence of a conflict of interest and had the Law Department deny him that right. Until such a situation arises, his case is moot, and I do not believe that a Judge will rule on interpreting the Charter language in the absence of any genuine issue of fact.

In simplest terms, the Ombudsman believes that his office has the same right to outside counsel as the Detroit City Council. However, the language of the Charter proves that this is not the case. Section 4-121 provides that the "city council may obtain the opinion or advice of an outside attorney in any matter pending before it." Section 4-308 limits the Ombudsman's rights to outside counsel to situations "where there exists a conflict of interest between the ombudsperson and another branch of government..."

By approving the ombudsman's legal services contract under these circumstances, the City is simply wasting \$50,000 of public funds. It is for all these reasons, that I voted "NO" on the above contract.

STATEMENT OF COUNCIL MEMBER  
KAY EVERETT REGARDING LEGAL  
SERVICES CONTRACT FOR THE  
OMBUDSMAN TO HIRE AN  
OUTSIDE ATTORNEY

The City Council was asked to approve a legal service contract for the Ombudsman to hire an outside attorney.

I am opposed to the approval of this contract for the Ombudsman because it will lead to the extension of power to the Ombudsman's office. We cannot allow the Ombudsman to have the ability to have an attorney without some type of checks and balances in place. If the Ombudsman had an actual case and a legitimate legal argument I would be supportive. The Ombudsman wants to go to court on a hypothetical situation. If there ever was a situation where the Law Department would not approve legal counsel then City Council would intervene to make sure the Ombudsman would have legal counsel.

It is in my opinion, this Honorable Body become more prudent in spending the taxpayer's dollars. We should not spend general fund dollars for personal battles, but to benefit the entire citizenry of Detroit. The Ombudsman's litigation is requesting that the taxpayers of this city pay for him to litigate hypothetically.

It is for this reason, I voted "No" to the approval of a legal service contract for the Ombudsman to hire an outside attorney.

**RESOLUTION FOR MORATORIUM ON DEMOLITION OF PUBLIC HOUSING UNITS UNTIL FURTHER STUDY**

By COUNCIL MEMBER MAHAFFEY:

WHEREAS, The City of Detroit Housing Commission is required to obtain City Council approval of their submittals of applications for HOPE VI funding, and

WHEREAS, The most recent HOPE VI application calls for demolition of 176 units of public housing at Charles Terrace. And,

WHEREAS, The need for housing among low and very low income families in the City of Detroit is extremely great, and well documented. As the affordable housing stock shrinks, the number of renters at or below 30 percent of median income continues to grow. The continuing decline in affordable housing is exacerbated by the increase in the number of struggling families who are competing for scarce affordable rental units. According to data from the American Housing Survey for 1993, the most recent data on affordable housing conditions nationally, Detroit has 89,000 renters who are paying 30% or more of their income on housing, with 76% of this total paying 50% or more of their income on housing. 27% of poor renters are living in subsidized housing. The same study showed that for the 150,000 low income renters, with annual incomes below \$12,000 in 1993 dollars, there were only 81,300 rental units with costs below \$300 a month in 1993 dollars available to them. And,

WHEREAS, Of the 5,252 units in the Detroit Housing Commission's current inventory, 1,161 are planned for demolition. The replacement plan consists of utilizing Section 8 vouchers. The original Parkside Home Ownership plan is no longer in existence. Simply put, once these 1,161 units of public housing are lost, the federal funds tied to these units will also be forever lost, and there is no long term strategy for housing replacement in place, and

WHEREAS, Having a long term, overall housing strategy is essential. There needs to be a detailed inventory of community assets and resources, potential partners, long and short term goals and a vision for how to increase the supply of low income, affordable housing in Detroit. THEREFORE BE IT

RESOLVED, That the Detroit City Council calls for a moratorium on demolition of federally funded public housing until a housing study has been completed, which documents the current level of need for housing among low and very low income households as well as the existing supply of housing available to those families. Using information gained from the study of needs, a comprehensive housing strategy will be developed, that incorporates recommendations for whether or not demolition of any public or otherwise subsidized housing is warranted, given the conditions and need. BE IT FURTHER

RESOLVED, That the Detroit City Council Housing Task Force dedicate a subcommittee to undertake the task of researching and analyzing the issue of public housing availability and needs, and housing replacement. Until the completion of this study, a moratorium on the demolition of public housing will be in effect. This will not preclude any submittals of applications for HOPE VI funding for other community building activities.

**STATEMENT BY COUNCIL MEMBER SHEILA M. COCKREL REGARDING RESOLUTION PROPOSING A MORATORIUM ON THE DEMOLITION OF PUBLIC HOUSING**

Today, the City Council was presented with a resolution proposing a moratorium on the demolition of public housing units. While I believe that there are numerous and substantial problems within the Detroit Housing Commission, I did not believe that this resolution was a good public policy statement for two reasons.

First, I was not comfortable with going on record opposing demolition of public housing units in the face of an official vote from the resident advisory board of Charles Terrace supporting the demolition of units in that location. Also, we heard from some residents of public housing indicating that they supported the demolition because they did not want their children living in what they deemed to be unsafe conditions.

Second, as drafted, the moratorium would have remained in effect for an

undetermined length of time. Under the final resolve clause, the housing task force would have been required to complete a study of housing needs before the moratorium was lifted. I did not feel comfortable with giving a Task Force the power to limit City Council's ability to approve demolition applications.

As one member of Council, I believe that we should take action on each demolition request based on the merits of each particular case. Approving this resolution would have sent the wrong message to residents of public housing. Each situation is unique, and requires special attention. Further, the City Council must remain open to listen to the sentiments of residents.

It is for these reasons that I voted "NO" on the resolution.

STATEMENT BY COUNCIL MEMBER NICHOLAS HOOD III AGAINST THE RESOLUTION FOR A MORATORIUM ON THE DEMOLITION OF PUBLIC HOUSING UNITS UNTIL FURTHER STUDY

Today I voted no on the resolution calling for a moratorium on the demolition of public housing units for several reasons.

First, the U.S. Department of Housing and Urban Development has adopted a new policy that supports the construction of smaller, less densely-populated public housing units. As a result, more low-rise, townhouse and single-family housing units are being constructed instead of the traditional multi-unit high rises. Secondly, HUD and the Detroit City Council have already approved several demolition projects of vacant public housing units throughout the City. To prohibit the demolition of these units will only delay the construction of newer public housing units. Finally, the Detroit Public Housing Resident Advisory Board submitted a letter supporting the Detroit Housing Commission in its efforts to demolish vacant public housing units at Charles Terrace. Many feel that these vacant and abandoned buildings pose a threat to the safety and welfare of the residents and many children that reside in near these units. Furthermore, the vacant housing units often become a haven of illicit and criminal activity.

It is a fact that the total number of available public housing units is decreasing. The spirit of the resolution is well intentioned and the issue of the lack of public housing should be addressed. However, to support the moratorium on housing demolition will postpone the construction of newer and better public housing units for an uncertain amount of time. Moreover, vacant public housing units will adversely impact the safety and quality of life for current public housing residents.

STATEMENT BY COUNCIL MEMBER MARYANN MAHAFFEY ON THE VOTE ON RESOLUTION CALLING FOR A MORATORIUM ON THE DEMOLITION OF PUBLIC HOUSING

I voted for the moratorium on the demolition of public housing because it would have represented sound, rational public policy. The resolution called for a modest proposal: establish a moratorium on the demolition of federally subsidized public housing until housing needs in our community are determined and a plan to address those needs is put forth.

As of this date, according to the Detroit Housing Commission, 4,285 units of federally subsidized public housing have been or are slated to be demolished, from an original inventory of 8,580 units. When nearly half of our public housing units are eliminated, along with the federal funds attached to them, when our homeless rates continue to increase and affordability gap continues to widen, Detroit City Council should be exercising its authority in ways to ensure that citizens have decent and affordable shelter.

An egregious example of how the Detroit Housing Commission forgoes any commitment to preserving and increasing the supply of housing that is affordable to the majority of Detroiters lies in its plans for the Jeffries site. The plan is now to use \$24 million in HUD HOPE VI funds to construct 416 houses of which 30% would be available to families making \$44,000 a year and below. Seventy percent of this housing would be market rate. The per capita income in the area, according to a Jeffries West marketing study, is \$11,375. Already, 1,582 units of public housing have been or will be demolished at Jeffries. HUD recently was about to declare default on the Herman Gardens grant and considered retrieving \$33 million in funds because no construction has occurred after 6 years, and after 1,440 units were demolished at the site.

There is no question that HUD funds for construction of new housing does not exist at the present time. There is no question that presently Congress is rural-ly representative, anti-urban and loathe to fund housing programs for the urban poor. However, every public housing unit that is lost to demolition represents a loss of the federal operating subsidy that goes along with it. Given how scarce these funds are, we need to instead devote our resources and federal operating subsidies to making sure that all available public housing units are occupied until a comprehensive plan for housing is developed for our public housing-eligible communities. Where is the logic in demolishing public housing units, losing federal operating dollars, when the need for affordable housing for low income families is at an all-time high?

While HUD will not be an active ally in

advocating for more housing for low and very low income families, there are federal revitalization funds available which do not have to be used for demolition of public housing. Currently, HUD mandates local control of public housing, without mandating how it is run and what local decisions must be made. Actually the opportunity for Detroit City Council to play an active role in determining how federal funds for public housing will be spent and used has never been more exciting. However, with this vote, City Council has squandered yet another opportunity.

There are many exciting examples of coalitions and nonprofit ventures that succeed in developing and financing housing for low and very low income families, housing that is geared to 30% of the area median income and below. Such ideas could involve city owned housing, re-thinking the disposition of Lee Plaza and Woodland public housing sites, or having nonprofits lease city owned properties, using federal operating subsidies to manage the property and retaining city oversight. Finding and devoting resources to develop greatly needed housing affordable to poor families can be done — if local government has the will to do it.

I will continue to oppose any contract and plan for demolition of public housing that comes before City Council for approval, until there is a plan in place for replacement of that housing for families living in poverty. I will continue working with public housing residents and community based nonprofit organizations to come up with ideas and solutions. Only when individuals and families have secure, affordable housing can they begin to stabilize their lives, have resources to get to and from jobs and send their children to schools.

June 23, 2000

Honorable City Council:

Re: Purchasing Ordinance — Monitoring Group.

The City Council approved the Purchasing Ordinance on October 13, 1999. At the same time the ordinance was approved, the City Council also approved a resolution requesting representatives of local business to meet as a Working Group to discuss the Purchasing Ordinance and their concerns about doing business with the City of Detroit. The Working Group met from November through February and made their official presentation to the City Council on May 23, 2000.

The presentation of the Working Group included several recommendations, one recommendation was for a monitoring group. The function of the proposed monitoring group would include: Review the implementation of the new purchasing regulations and procedures: The effect of regulations and procedures on vendors; and Determine if the amendments to the Purchasing Code meet the goals of promoting business with the specific categories of Detroit-based business, Detroit-based small business, Detroit-based micro business and Detroit resident business.

The City Council members expressed general agreement to the formation of the proposed monitoring group and directed the Research and Analysis Division to prepare a resolution to establish a Monitoring Group for 1 year. Attached is a

copy of the proposed resolution, to request the current Working Group to continue as a Monitoring Group, and to report periodically to the City Council their findings.

A meeting to discuss how the Monitoring Group may operate was held on June 14, 2000. In addition to representatives from the Working Group, and staff from Research and Analysis, Ms. Jackson, director of Purchasing and Robert Walter from the Law Department were present at the meeting. The meeting concluded with general agreement that Purchasing could provide to a Monitoring Group the Award Letters, indicating what businesses have been determined to be the lowest acceptable bid to provide commodities or services, in addition to all statistical reports. The Purchasing Division will also let vendors know that a Monitoring Group exists if vendors wish to bring their concerns about the purchasing process to the Monitoring Group. It appeared from the June 14 meeting that the administrative personnel, including the Purchasing Division, Law Department, Human Rights Department and the Mayor's Office will continue to cooperate with the efforts of a Monitoring Group to review the implementation of the new purchasing regulations and procedures.

The Research and Analysis Division will continue to facilitate and cooperate with the proposed Monitoring Group as directed by the City Council. Please inform Research and Analysis if the City Council has any concerns or changes to the proposed resolution to establish a Monitoring Group.

to the City Council which included recommendations for amendments to the ordinance and also recommended that a monitoring group be convened to review the implementation of the new purchasing regulations and procedures; Now Therefore Be It

Honorable City Council:

Re: Implementation of Wage Adjustments and Certain Fringe Benefit Changes for Employees Represented by the Field Engineers Association.

The Labor Relations Division has recently reached agreement with the Field Engineers Association. **Planning & Development Department  
May 12, 2000**

Honorable City Council:

Re: Request Authorization for Reprogramming of Bond Sale Proceeds to Support the Bagley St. Intermodal Surface Transportation Efficiency Act (ISTEA) Project Mexicantown District — Planning and Development Department Bond Program.

The Planning and Development Department (P&DD) respectfully requests the authorization of your Honorable Body to reprogram Ten Thousand Eight Hundred and Twenty-Six Dollars and Three Cents (\$10,826.03) from Appropriation Number 00931 (Riverfront Development — Bond); One Hundred and Sixty Thousand Three Hundred and Thirty-Seven Dollars and Fifty-Six Cents (\$160,337.56) from Appropriation Number 00943 (Elmwood — Bond); Two Hundred and Fifty Thousand Dollars (\$250,000.00) from Appropriation Number 00958 (Forest Park Leland Orleans — Bonds); Six Thousand Four Hundred and Seventy-Three Dollars and Ninety-Seven Cents (\$6,473.97) from Appropriation 00944 (Residential Sites — Bonds) and Sixty-Seven Thousand Three Hundred and Sixty-Two Dollars and Forty-Four Cents (\$67,362.44) from Appropriation Number 00909 (Victoria Park 93 Bonds) to Appropriation Number 10385 (Hubbard-Richardson Infrastructure Improvements — Bonds).

The P&DD received an ISTE A grant to aesthetically improve Bagley Avenue in the heart of Mexicantown commercial district in 1993. The application requires that the recipient community to provide at least 20% matching funds in relation to the grant from the Michigan Department of Transportation (M-DOT). When the application was submitted, a source of funds for the local match was not identified. In the interim, the scope of the proposed improvements has increased drastically due to a significant redesign of the project, and there has been increased costs due to rising construction costs since the project's inception. To complete this project, Four Hundred and Ninety-Five Thousand Dollars (\$495,000.00) is necessary to complete this project. This project will significantly upgrade the streetscape visually in the Mexicantown commercial district.

This area is one of Detroit's most favorite destinations serving both Detroiters and visitors alike. These improvements will greatly improve the commercial district through the installation of: historically influenced lighting, decorative sidewalk paving, new landscaping, and new street furniture (including benches, trash receptacles and bicycle corrals). The P&DD believes that these aesthetic improvements will greatly strengthen this destination district. A presentation regarding this project was made before your Honorable Body on February 21, 2000 by the Mexicantown Community Development Corporation which is a cosponsor of this project with the Planning and Development Department. The department anticipates construction of these improvements in the summer of this year. The Department has identified five separate sources of bond financing that are inactive projects. This reprogramming shall close out several inactive proposed bond projects, and place their fund balances within an active project.

If you have any questions regarding this project, please contact Arthur Mullen of my staff at 224-6511.

Honorable City Council:

Re: Neighborhood Development Corporation Project #1 Waiver Requests/ Environmental.

Your Honorable Body adopted a resolution of necessity on March 20, 1998 (JCC 659-675), with respect to certain parcels of land to be acquired as a part of the above-referenced project.

Requests for authorization to waive various costs related to environmental matters with respect to a number of properties in this project area were approved by your Honorable Body in March, 1999, and September, 1999. The City's environmental consultants have now obtained access to certain additional parcels in the project area. The purpose of this letter is to provide a report on the environmental condition of certain properties to be acquired pursuant to the resolution of necessity, as required pursuant to Section 2-1-13(C) of the 1984 Detroit City Code. In addition, the purpose of this letter is to request that your Honorable Body authorize waiver of the following in the City's good faith offer, appraisal, and declaration of taking; 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended), of certain of the privately owned parcels of land in the project area, as described more fully herein.

A Phase I Environmental Assessment of each of the parcels included in this request has been conducted in accordance with current ASTM standards, and in accordance with the requirements of the City Code.

With respect to the following parcels, the Phase I did not disclose 1) that these parcels had been used for any purposes other than residential/vacant, nor did it indicate 2) evidence of any recognized environmental conditions:

With respect to the following parcel, the Phase I showed that the parcel is being or had been used in the past for purposes other than residential (the purpose is set forth below); however the Phase I did not reveal any evidence of recognized environmental conditions:

<u>Parcel</u>	<u>Address</u>	<u>Ward</u>	<u>Item</u>	<u>Former Use</u>

Under the terms of the applicable portions of the City Code (Sections 2-1-15(a), 2-1-15(b) and 2-1-15(c) of the 1984 Detroit City Code), City Council may waive 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity at a facility from the present owner (as that term is defined in 1980 PA 87, as amended). In this case, we respectfully submit that the conditions for such waiver are met, because your Honorable Body has previously declared the project necessary and essential to the interests of the public peace, health, safety and welfare of the City, and the acquisition is being accomplished by the exercise of the City's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87. In addition, as noted above, no evidence of recognized environmental conditions were found for these properties, except in certain cases, conditions that could be anticipated with residential use.

Accordingly, for those properties listed above, your Honorable Body is respectfully requested to adopt the attached resolutions authorizing waiver of such costs associated with the properties in the City's good faith offer, appraisal, and declaration of taking, with respect to the present owner only.

1980 PA 87, as amended, provides that the condemning authority must state its intent to "waive or reserve" recovery of response costs from the property owner in the appraisal of the property and the good faith offer. MCL Section 213.55. A decision is needed by your Honorable

Body at this time in order to comply with the requirements of the statute. A waiver of reconsideration is also hereby respectfully requested.

Respectfully submitted,  
 PAUL A. BERNARD  
 Director

By Council Member Hood:

Whereas, the Planning and Development Department has submitted a report regarding the environmental assessments conducted with respect to the parcels described in Exhibit A, which are a part of Neighborhood Development Corporation #1 Project area; and

Whereas, the results of said environmental assessments do not indicate any recognized environmental conditions, except, in certain cases, those which could be anticipated with residential use; and

Whereas, the project has been declared necessary and essential to the interests of the public peace, health, safety and welfare of the City, and the acquisition is being accomplished by the exercise of the city's power of eminent domain in a manner consistent with the Uniform Condemnation Procedures Act, 1980, PA 87; and

Whereas, based upon the foregoing, the conditions of Article 1, Division 2, Section 2-1-15 of the 1984 Detroit City Code for granting a waiver of certain claims have been met;

Now, Therefore Be It Hereby Resolved, that, with respect to the present owner of each parcel listed on Exhibit A, waiver of the following costs in the City's good faith offer, appraisal, and declaration of taking be an is hereby authorized: 1) the costs of environmental inquiry, if any; 2) costs of environmental assessments, if any; and 3) action to recover all costs associated with the remediation of or response activity of that parcel.

### COMMUNICATIONS

FROM:

**Mayor's Office**

June 30, 2000

Honorable City Council:

Re: Veto of resolution approving Contract No. 2513748 with Randall S. Levine, d/b/a Levine & Levine to provide legal services to City Ombudsperson in *John R. Eddings, et al. v City of Detroit, et al.*, No. 00-014846 AW.

I have vetoed the attached resolution approving the above-referenced contract for legal services for the City of Detroit Ombudsperson, John R. Eddings, because the contract would fund a wholly inappropriate expenditure of public monies for a lawsuit which is not authorized by or in furtherance of any right, duty or obligation of the City Ombudsperson under the 1997 Detroit City Charter. The lawsuit seeks to establish for the Ombudsperson the right to retain his own general legal counsel, at the public expense, for any matter that the Ombudsperson desires. Under Section 4-121 of the 1997 Detroit City Charter, and its predecessor Section 4-120 of the 1974 Detroit City Charter, only the City Council in the Legislative Branch has discretion to obtain the advice or opinion of an outside attorney on any matter pending before it. Thus, the Detroit City Charter does not confer upon the Ombudsperson the right to retain an attorney with respect to issues such as the authority of City government to sell City-owned property to its employees, or the validity of the six-year pension rule, as the Ombudsperson reportedly has sought.

Since the creation of the office in 1895, the Corporation Counsel has served as

the attorney and counselor for the Executive and Legislative Branches of government, the City Clerk and all other city departments, officers and agencies. Absent an actual conflict of interest which would prohibit the Corporation Counsel from representing an official or agency, the Corporation Counsel, Law Department or Special Corporation Counsel engaged by the Corporation Counsel provide for all of the City's legal service needs. The Ombudsperson's lawsuit argues for a right to legal counsel not authorized by the Charter or other law, the effect of and which would be to impermissibly set that office part from the city government of which it is an integral part.

Where there is an actual conflict of interest under the Michigan Rules of Professional Conduct which prevents the Corporation Counsel from representing an officer or agency in a legal proceeding, the Corporation Counsel is obliged by ethics rules and law to retain separate legal counsel for that officer or agency, and the Corporation Counsel does in fact do so. With respect to the City Council and the Office of the Ombudsperson, the right to retain counsel in a legal proceeding where a conflict of interest exists with the Executive Branch is codified at Sections 4-121 and 4-308, respectively, of the 1997 Detroit City Charter.

I have been advised that the Ombudsperson has never requested to retain counsel, and there is no pending or anticipated matter within the scope of the investigative function of the Office of the Ombudsperson, for which the Ombudsperson needs or is entitled to an outside attorney to represent his office on the basis that there is a conflict of interest with the Executive Branch with respect to an actual or contemplated legal proceeding. As such, the lawsuit for which outside counsel is now sought presents a hypothetical situation which is not ripe for adjudication by a court. Lacking any legitimate right or colorable argument under the Charter or other law for his lawsuit against the City of Detroit, I must veto the Ombudsperson's contract for legal services in furtherance of that improper lawsuit.

Respectfully,  
DENNIS W. ARCHER  
Mayor

Council Member S. Cockrel moved to reconsider the vote by which, relative to Contract No. 2513748, to provide legal services to City Ombudsperson John R. Eddings, was adopted, which motion prevailed as follows:

Yeas — Council Members Cleveland, K. Cockrel, Jr., S. Cockrel, Everett, Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 9.

Nays — None.

Council Member S. Cockrel then moved to adopt Contract No. 2513748 to provide legal services to City Ombudsperson John R. Eddings, not withstanding the veto of the Mayor, which motion prevailed as follows:

Yeas — Council Members K. Cockrel, Jr., Hood, Mahaffey, Scott, Tinsley-Talabi, and President Hill — 6.

Nays — Council Members Cleveland, S. Cockrel, and Everett — 3.

June 27, 2000

Honorable City Council:

Re: Wayne County, City of Detroit, Oakland County, Macomb County, City of Dearborn, City of Livonia, City of Taylor, -v- Michigan State Tax Commission Circuit Court Case No.: 99-940046AW Tax Tribunal Docket No.: 273674

The purpose of this memorandum is to advise your Honorable Body of the current status of the above-referenced lawsuit and to request the approval of the attached Resolution which is similar to the Resolutions adopted by our co-Plaintiffs.

As you may know, the Michigan State Tax Commission, in December of 1999, revised the Personal Property Tax Tables. The fixtures of utilities, which includes transmission lines, pipes and appurtenances, are considered personal property. The State Tax Commission imposed an approximately 30% cut of the true cash value of the utilities' personal property taxes. The tax loss to the City of Detroit on an annualized basis for gas and electric personal property taxes as a result of this action would be about \$3.7 million a year. This amount includes the loss to the Detroit School Board. The total tax dollar at issue for Detroit, because of pending appeals in the Michigan Tax Tribunal, is in excess of \$15 million. The Counties of Wayne, Oakland and Macomb, along with the City of Detroit and several other communities, have joined in a coalition to oppose the unilateral action of the State Tax Commission. Suit was filed in Wayne County Circuit Court and the Michigan Tax Tribunal. The counties of Wayne and Oakland are each committing \$100,000.00 apiece in this effort. Macomb County is contributing \$50,000.00.

The law firm representing the coalition is Reed, Stover and O'Conner. Lead counsel is Richard D. Reed. Mr. Reed is very experienced and competent in issues of property evaluation and assessment, especially as to legal issues pertaining to the assessment of public utility properties. A contract with Reed, Stover and O'Conner has been prepared and we expect that it soon will be presented for approval by your Honorable body.

We request that your Honorable Body adopt the attached Resolution endorsing the City of Detroit's participation in this struggle against the Michigan State Tax Commission's unjustified and inequitable cut of the personal property taxes of utilities.

We are available to meet with you in a closed session to discuss the pending litigation should you desire to do so.

Respectfully submitted,  
PHYLLIS A. JAMES  
Corporation Counsel

**RESOLUTION OPPOSING SPECIAL TAX BREAK FOR UTILITIES**

By Council Member S. Cockrel:

Whereas, the State Tax Commission is charged with the proper administration of the laws governing assessments and the levying of taxes in this state; and

Whereas, Article 9, Section 3 of the Michigan Constitution mandates that the legislature provide for the *uniform* general ad valorem taxation of tangible personal property, provide for the determination of the true cash value of such personal property and provide the proportion of the true cash value at which such property shall be *uniformly* assessed; and

Whereas, by administrative fiat, the State Tax Commission has adopted valuation multipliers prescribed for use in calculating the ad valorem tax assessment of gas and electric utility transmission and distribution systems throughout the State of Michigan; and

Whereas, in violation of constitutional equal protection and uniformity in taxation requirements, the adopted multipliers greatly undervalue the taxable property of utility companies; and

Whereas, the special utility multipliers effectively grant Michigan utilities millions of dollars in tax breaks that are unavailable to any other Michigan citizen or business; and

Whereas, the special utility tax breaks reduce, by over one hundred million dollars annually, the local and state revenues necessary to support essential services such as elementary and secondary education, community college education, public safety, public works, parks and other services that affect the quality of life in our local communities; and

Whereas, the special utility tax breaks unfairly shifts significant tax burdens from the utilities to residential and other business taxpayers, forcing either increases in local taxes and/or severe reduction in essential local services and

Whereas, the misguided and injudicious special utility multipliers will pose an unnecessary hardship for local communities and their residents throughout the State of Michigan; and

Whereas, Court intervention is necessary to stop the ill-advised and unconstitutional special utility tax break; and

Now, Therefore Be It Resolved, That the City of Detroit recognizes and holds that equity and uniformity are fundamental requirements in the assessment and taxation of property.

Be It Further Resolved, that the Detroit City Council hereby endorses and pledges

its support of the legal challenge to the State Tax Commission's prescribed special treatment for utility companies.

Resolved, That:

The Law Department is authorized to agree to entry of an Order of Dismissal and to enter an Agreement to Arbitrate in the case of Bessie Owens v The City of Detroit, Wayne County Circuit Court Case No. 98-837988 CZ, on the following terms and conditions.

1. This matter shall be referred to binding arbitration by a three-person arbitration panel;

2. Plaintiffs shall appoint one arbitrator, who shall be compensated by Plaintiffs;

3. Defendants shall appoint one arbitrator, who shall be compensated by Defendants;

4. The two appointed arbitrators shall appoint the third arbitrator. This arbitrator's fee shall be split equally by Plaintiffs and by Defendants;

5. Neither party may appoint a retired judge as their arbitrator nor may the arbitrators of the parties appoint a retired judge as the neutral;

6. All appointed arbitrators shall be individuals who are currently licensed to practice law in the State of Michigan and

are not related to the parties or their legal counsel by blood, marriage or business/referral relationship;

7. The decision of a majority of the arbitrators shall be the decision of the panel;

8. The arbitration hearing shall be conducted at a mutually convenient time and place and at the earliest date convenient to counsel, the parties and the arbitrators, but not later than ninety days from the date of this agreement;

9. The parties intend that the arbitration hearing will be conducted in one to two days. To that end, the parties shall prepare arbitration summaries to be submitted within 14 days of the date of arbitration containing their factual and legal contentions and being supported by law, documents and deposition transcripts;

10. The Michigan Rules of Evidence shall be used but substantially relaxed to allow for the use of discovery depositions and the admission of documentary evidence without evidentiary foundation and in such other particulars as the arbitrators shall agree. 12. The decision of the arbitration panel shall be fully binding. The award shall not be less than \$50,000 nor shall it exceed the sum of \$197,000.00. The arbitrators shall not be informed of the lower and upper limits of this agreement as this provision shall be confidential between the parties. The award shall be returned on an award form identical to the form hereto and marked as Arbitration Agreement Exhibit 1. Any award for Plaintiffs shall be tendered by Defendants within forty-five days of the arbitration award. Upon such tender, Plaintiffs shall execute a Satisfaction of Arbitration Award form identical to the form attached hereto and marked as Arbitration Agreement Exhibit 2;

13. In keeping with the intention of this Agreement the parties may present live witnesses, however, each side shall be restricted to three live witnesses. The parties shall endeavor to direct the testimony of the witnesses in disputed areas only for the sake of an expedited hearing;

14. Counsel for the respective parties shall forthwith execute the Stipulated Orders of Referral to Arbitration and Orders of Dismissal in both Federal and State Courts. The Federal Order of Dismissal will be a final order. The State Order will provide that said court shall retain jurisdiction over both the ADA and PDCRA claims to enforce this Agreement or any award rendered. See Exhibit 3.

15. All claims, State and Federal are to

be arbitrated.

16. The arbitrators are empowered to award any remedy which is authorized by law under either the ADA or PDCRA.

July 7, 2000

Honorable City Council:

Re: Request of Tom's Oyster Bar to erect 3 business signs on the wall of 519 E. Jefferson in a PCA (Restricted Central Business District) zoning district (Recommend Approval).

Tom's Oyster Bar is requesting a permit to erect three (3) business signs at 519 E. Jefferson. This property is located in a PCA (Restricted Central Business District) zoning district. PCA zoning districts are located in close proximity to the Public Center District and the controls of the PCA district are designed to prevent uses and structures from having a deleterious effect on the public center of the City. Section 113.0200 of the Zoning Ordinance requires City Council approval of the location and design of any sign proposed in a PCA district after receiving a report and recommendation from the City Planning Commission.

Two of the proposed signs would be above the main entrance of the building, one facing E. Jefferson and one facing Beaubien. These signs would be approximately 3 feet high, and 6 feet wide. The signs would be made of PVC foam core panels with vinyl graphics containing the wording "Tom's Oyster Bar" and "Tom's". The color of the signs would be blue, gold, red, and white. The third sign would be

located above the existing canopy facing Jefferson. This sign would be approximately 2 feet high and 20 feet long. This sign would be made of plastic letters mounted on acrylic and contained the lettering "Tom's Oyster Bar" in gold on a blue background.

City Planning Commission staff has reviewed the proposal and illustrations and finds that they are appropriate for the PCA district. We further find that the location and design of the proposed signs would be consistent with the spirit, purpose and intent of the PCA district. We therefore recommend approval of the location and design of the signs and submit the attached resolution for your consideration.

Respectfully submitted,  
MARCUS D. LOPER  
Deputy Director

By Council Member S. Cockrel:

Whereas, Tom's Oyster Bar has requested to erect three (3) business signs on the walls of 519 E. Jefferson, two above the main entrance with one facing E. Jefferson and one facing Beaubien, and the third facing E. Jefferson above the existing canopy; and

Whereas, the property at 519 E. Jefferson is located in a PCA (Restricted Central Business District) zoning district classification, and, therefore, requires City Council approval of the location and design of any proposed sign in accordance with the provisions of Section 113.0200 of the Zoning Ordinance; and

Whereas, the City Planning Commission staff has reviewed the location and design of the proposed signs and finds that they are consistent with the spirit, purpose and intent of the district as indicated in the foregoing communications;

Now, Therefore Be It Resolved, that the Detroit City Council hereby approves the location and design of the three proposed signs as described in the foregoing communication from the City Planning Commission staff and as presented in the plans drawn by Universal Sign Fabricators, Inc., File Name — Tom's Oyster Bar, revised June 2, 2000.

Re: Permission to Accept Grant Award Increase — Stop Violence Against Women Grant for 2000/2001.

The Detroit Police Department currently has a grant of \$60,058 from the State of Michigan to partially fund the salaries of one police officer (\$17,000) and one investigator (\$25,000) specifically trained to handle domestic violence cases. This grant has been previously approved by the Chief of Police, Board of Police Commissioners and City Council (JCC 2/9/00). The project Director for this grant is Lieutenant Gwendolyn Brown, of the Domestic Violence Unit.

The State of Michigan has recently notified this department that they are increasing our previous grant award by \$12,000. This additional money would be used to pay for overtime for officers to investigate, request warrants and arrest perpetrators in cases involving violation of

Personal Protection Orders (PPO's). There is no cash match requirement.

Copies of the award letter for each member of the Council has been provided. Approval for participation in this program will enable the Detroit Police Department to confront community problems proactively.

The Board of Police Commissioners has approved this grant award increase. Therefore, it is respectfully requested that your Honorable Body adopt the attached resolution authorizing the City of Detroit to accept this grant award increase. Re: The Detroit Emergency Telephone District's Amended Emergency 9-1-1 Plan to Include Wireless Legislation.

On June 28, 1999, Governor John Engler signed a four-bill Emergency 9-1-1 Wireless package becoming 1999 Public Acts 78, 79, 80, and 81. The bill(s) impose a \$0.55 surcharge on every cellular telephone registered in the State of Michigan.

Collection of the wireless surcharge is the responsibility of the industry. However, once the currency has been collected, it must be forwarded to the Special Funds Section of the Emergency Telephone Services Committee (ETSC). There, the funds will be reviewed and distributed on a quarterly basis as follows:

- \$0.250 Industry needs
- \$0.005 Wireless Collection and Billing
- \$0.100 To those counties having amended their Final Emergency 9-1-1 Plan to include the wireless legislation
- \$0.150 County by County based on population using the 1990 census
- \$0.030 Training Funds
- \$0.015 9-1-1 Coverage Fund (MSP)
- \$0.550 TOTAL

In order for counties to receive wireless surcharge monies, they must amend their Final Emergency 9-1-1 Plans to include the wireless legislation. Wayne County is currently divided into four (4) districts. These districts are the Conference of Western Wayne, Downriver Community Conference, the Conference of Eastern Wayne, and the Detroit Emergency Telephone District.

The Detroit Emergency Telephone District consists of the City of Detroit, the City of Highland Park and the City of Hamtramck. The Detroit Emergency Telephone District has amended its Final Emergency 9-1-1 Plan, pursuant to 1999 Public Act 78 to include the Wireless Emergency Service Order (FCC Docket #94-102, adopted June 12, 1996, with an effective date of October 1, 1996, and the Emergency Telephone Service Enabling Act, 1986 Public Act 32 as amended). Further, the Wayne County Board of Commissioners passed Resolution Number 2000-037 adopting the amended Plan on February 17, 2000; however, the Commissioners have requested that the Detroit City Council pass a concurring resolution with respect to the City of Detroit's coverage area.

Hence, I respectfully request that your Honorable Body adopt the attached resolution so that this district will be eligible to receive a portion of the wireless surcharge monies being distributed. The resolution is in substantially the same form as that which was approved by the Wayne County Board of Commissioners, but was modified for adoption by the Detroit City Council.

I have enclosed a copy of the Detroit Emergency Telephone District's Amended Final 9-1-1 Plan, in addition to the Wayne County Commissioner's Resolution for adoption of the Plan.

 Whereas, pursuant to the Emergency Telephone Service Enabling Act (Act), 1986 PA 32, as amended by 1999 PA 78,

the County of Wayne has adopted a Final E9-1-1 Service Plan (Plan) for a portion of the County known as the "Detroit Emergency Telephone District," (DETD);

Whereas, the Federal Communications Commission (FCC) has issued a Wireless Emergency Service Order (Order) that requires Public Safety Answering Points (PSAP)'s to request deployment of Phase II 911 enhanced services from Commercial Mobile Radio Service (CMRS) suppliers, which include cellular phone service companies;

Whereas, pursuant to 1999 PA 78, E9-1-1 Plans must implement the Order and the Act to qualify Wayne County for distributions from the CMRS emergency telephone fund administered by the Department of Treasury;

Whereas, the Plan recognizes multiple PSAP's within the 911 Service District;

Whereas, the County recognizes that the DETD consists of the cities of Detroit, Hamtramck, and Highland Park;

Whereas, the list of service suppliers and public agencies involved in emergency services and the highest monthly flat rate charged by service suppliers vary from time to time;

Whereas, the DETD Board is authorized from time to time to adopt and update the list of service suppliers facilitating wire-based emergency service calls and public service suppliers facilitating wire-based emergency service calls and public agencies providing emergency response services within the DETD Plan's E9-1-1 Service District.

Whereas, the DETD Board shall also periodically obtain and publish the highest monthly flat rate charged by a service supplier for a 1 party access line within the Plan's E9-1-1 Service District;

Whereas, all Commercial Mobile Radio Service (CMRS) suppliers within the Plan's E9-1-1 Service District are requested and directed to deploy Phase II 911 enhanced service as provided in the Order, FCC Docket No. 94-102 adopted June 12, 1996, with an effective date of October 1, 1996;

Whereas, pursuant to 1986 PA 32, as amended by 1999 PA 78, the DETD Board is authorized and directed to take any action necessary to implement the Order, the Act, and any other applicable state or federal law existing or subsequently adopted;

Whereas, the DETD Board is authorized and directed to cooperate with the telephone, telegraph, and Radio Emergency Telephone Service Committee or any other state, federal or local body or official authorized to install, operate, modify and maintain universal emergency number service systems, whether land-line, cellular, wireless, digital or radio based;

Whereas, the DETD Board is autho-

rized and directed to implement, receive, dispose and/or expend, according to formulae established and consistent with all applicable laws and County resolutions, any operational surcharges, and CMRS service charges, or any other funding provided under state or Federal law, including but not limited to such fees authorized, imposed, and collected under the Act;

Whereas, this Amendment's provisions are designed to modify, amend, supersede or replace any inconsistent provisions in the DETD Plan, and to augment, supplement or add to such DETD Plan provisions that are not in any way inconsistent;

Whereas, the DETD determined the most efficient way of communicating a request for deployment of Phase II 911 enhanced services from CMRS suppliers is through the coordinating efforts of the Michigan Communications Directors Association; however, despite this determination the DETD, through its Board Members, reserves its right to request the deployment of Phase II 911 enhanced services from CMRS suppliers if it deems it necessary;

Whereas, the following is the current list of public service agencies providing emergency services within the Service District in response to emergency telephone calls:

Detroit Police Department, Detroit Fire Department, and Detroit Emergency Medical Services; Hamtramck Police Department and Hamtramck Fire Department; and Highland Park Police Department and Highland Park Fire Department;

Whereas, the DETD directs the Michigan Communications Directors Association to contact all CMRS suppliers licensed by the FCC to request, on behalf of the DETD, deployment of Phase II 911 enhanced services within the DETD;

Whereas, pursuant to 1986 PA 32, as amended by 1999 PA 78, on February 17, 2000, the Wayne County Commission adopted Resolution Number 2000-37 approving the Detroit Emergency Telephone District's Amended Final Emergency 9-1-1 Plan to include wireless legislation;

Whereas, in accordance with 1999 PA 78, money received by the county under this section shall only be used to implement the wireless emergency service order and the Act;

Whereas, a final public hearing on this DETD Plan Amendment will be held on Thursday, May 18, 2000;

Whereas, it is in the best interest of the residents of the City of Detroit to implement the Order and the Act;

Now, Therefore, Be It Resolved that pursuant to 1986 PA 32, as amended by 1999 PA 78, the Detroit City Council approves and adopts the Detroit Emer-

gency Telephone District's Amended Final Emergency 9-1-1 Plan to include wireless legislation as indicated and embodies in Wayne County Commission Resolution Number 2000-37 which was adopted on February 17, 2000.

**Cable Communications Commission**

June 29, 2000

Honorable City Council:

Re: Metromedia Fiber Network Services, Inc. Telecommunications Permit for Access to Public Rights of Way.

Please find attached a resolution which approves issuance of a Telecommunications Permit to Metromedia Fiber Network Services, Inc. ("MFN"), for access to and ongoing use of certain public rights of way in the City of Detroit. Because the statutory 90-day period to approve/deny/or approve with conditions MFN's Permit Application ends on or about July 30, 2000, we respectfully request that your Honorable Body approve this resolution at its earliest convenience prior to its August recess.

**Background:** The City of Detroit's Telecommunications Ordinance (Article V of Chapter 9.5) sets forth a telecommunications permit procedure under the Michigan Telecommunications Act of 1995 whereby the City Council can approve or deny issuance of a telecommunications permit within 90 days after submission of a complete application. On Tuesday, June 20, 2000, the City of Detroit Cable Communications Commission held a duly noticed public meeting on the MFN Telecommunications Permit Application. The Cable Commission voted to recommend to City Council approval of MFN's Application and issuance of the Telecommunications Permit.

**Applicant:** MFN is a publicly-traded corporation with headquarters in White Plains, New York. MFN provides dedicated fiber optic infrastructure and high bandwidth Internet connectivity for communications intensive customers such as communications carriers, corporate and government customers. MFN intends to construct a buried eight (8) 1-1/4 inch conduit fiber optic cable system in the Downtown area that will occupy approximately 40,000 lineal feet. MFN intends to own the facilities.

**System:** The proposed fiber optic route is bordered by Michigan Avenue, West Fort Street, and East Jefferson Avenue on the south; Woodward Avenue and East Lafayette Boulevard. On the east, with Plaza Drive, State Street, Cadillac Square, and Cass Avenue integrated in the centralized portion of the route.

**Permit:** Under the Telecommunications Ordinance and the associated Permit, MFN must post a bond in the amount of \$50,000, pay a non-refundable Telecommunications Permit application fee, and pay an annual right-of-way fee calculated on a per lineal foot basis which does not exceed the fixed and variable costs of maintaining the right-of-way. The City Council will set the annual right-of-way fee shortly because the right-of-way cost

study is completed and has been reviewed by the Cable Commission.

If you should have any questions regarding this request, please contact me at 313-224-0364 or our outside counsel, Patrick Miles, at 616-336-6902.

Whereas, the City has adopted a Use of Public Ways by Telecommunications Providers Ordinance, Chapter 9.5, Sections 9.5-5-1 through 9.5-5-22 of the City Code, to regulate the access to and ongoing use of public ways by telecommunications providers; and

Whereas, the City of Detroit Cable Communications Commission and the City of Detroit Law Department have recommended that the City grant the application subject to conditions, namely payment of the application fee when the amount is set by the City Council, and posting of a bond in the form and amount acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Metromedia Fiber Network Services, Inc.'s access and use; and

Whereas, the City of Detroit hereby declares that it is necessary and desirable to protect the public health, safety, and welfare and to reasonably control the City's rights-of-way by granting a permit to Metromedia Fiber Network Services, Inc. subject to the conditions hereinafter set forth.

Now, Therefore, Be It Hereby Resolved, the City hereby approves of and grants a permit to Metromedia Fiber Network Services, Inc. in the form attached hereto for access to and ongoing use of the locations in the public rights-of-way of the City of Detroit specified in the permit, subject to the terms and conditions set forth in the Ordinance entitled Use of Public Ways by Telecommunications Providers and subject, without limitation, to the following conditions:

1. Payment of the Permit application fee when it is set by the City Council.
2. Payment of annual fees when established by the City Council, retroactive to the date of issuance of the Permit.

### **City Planning Commission**

July 12, 2000

Honorable City Council:

Re: Proposed modification of approved plans for an existing PD (Planned Development District) zoning classification to facilitate the construction of a mid-rise mixed-use structure on land located on the east side of Beaubien north of Atwater to serve the General Motors Global Headquarters at the Renaissance Center (DEPARTMENTAL REPORT).

#### **REQUEST**

The City Planning Commission has received a request from Hines Interests (developer) on behalf of Riverfront Holdings, Inc. (RHI), a subsidiary of General Motors (GM), to revise the development proposal for an existing PD (Planned Development District) zoning classification. The requested modifications are necessitated by the proposed construction of a new mixed use structure at the northeast corner of Beaubien and vacated Atwater (Atwater has been vacated for construction purposes and will eventually be rededicated slightly south of its original alignment). The property is 1.83 acres in area and is generally bounded on the west by Beaubien, on the north by a line approximately 240 feet north of

and parallel to Atwater, on the east by St. Antoine, and on the south by Atwater.

#### **PROPOSED MODIFICATIONS**

The requested modifications would facilitate the development of an eleven story mixed-use building. The building would contain eight levels of parking including two levels below grade, providing a total of 1,200 parking spaces. The building would also include provision for up to 25,000 square feet of ground floor retail area on the southern facade of the building along Atwater. The upper floors would house a two level physical fitness center with 64,000 sq. ft. of office space in a three story tower on top of the roof. The structure would be constructed of glass, metal and precast concrete. The southern portion of the ground floor would be given a storefront type treatment to promote a more pedestrian friendly streetscape. The building would stand approximately 95 feet to the roof garden and 139 feet overall to the top of the office tower.

This proposal also includes the creation of a private access road immediately to the north of the proposed structure between it and the existing parking structure. The road would provide east/west circulation other than Atwater to St. Antoine, Franklin (the next east/west street to the north, which intersects with St. Antoine) and, thereby, development to the east.

#### **SURROUNDING LAND USE AND ZONING**

To the North — parking structure, commercial office towers beyond — PD.

To the South — surface parking, Detroit River beyond — PD.

To the East — surface and structured parking — PD.

To the West — mixed-use commercial office complex, parking structure — PD.

#### **ANALYSIS**

The requested PD modification would result in the redevelopment of the second of the eight parcels that comprise General Motors' River East District. The subject property, Parcel B, is located immediately east of the Renaissance Center just across Beaubien. The 1,200 proposed parking spaces would serve GM employees and be open to the public after hours. The fitness center would be a private operation serving GM and, potentially, other River East District corporate residents. GM or tenant would occupy the three floors of office space atop the western end of the building.

The design of this building clearly displays sensitivity to both its present and proposed future contexts. The material selection is consistent with the idea of utilizing less glass and metal, and more brick as you move from west to east as parcels are redeveloped. Glass and metal enclose the first floor providing a contemporary storefront image on the southern facade where retail is to be located. The

same cladding is scheduled for the fitness center and the three-story office tower above. Being ovate in plan and cylindrical in elevation, the office tower and fitness center below are complementary to the Renaissance Center to the west and the ANR properties to the north. The remainder of the facades would be of a precast concrete with limestone finish and metal grillwork to offer partial enclosure of the above grade levels of parking. In the future, when it is anticipated the land immediately to the south (Parcel C) is developed, the exposed precast concrete portions of the subject project would be blocked from riverfront viewing.

Since the office tower would cover less than half of the available square footage on the roof above the fitness center, the developer would like to create a roof garden or observation deck as an added amenity. Since this space would be accessed through the office tower, it could have limited accessibility.

The ground-floor retail area is further enhanced by the creation of a covered walkway. The floors above the retail area overhang the sidewalk below (within the property line). The overhang is supported by a row of columns, which add visual interest and offer a subtle separation of pedestrian through traffic from patrons of this building. Additionally, should a food service tenant occupy any of the available retail space, this area could be ideal for outdoor dining.

Vehicular access to parking will occur on the north/south streets, Beaubien and St. Antoine. The site slopes downward from the northwest corner as you move both south and east. As a result, the St. Antoine access opens onto parking level 1, which is entirely below grade on the Beaubien side of the building where the access way opens onto parking level 2. The Beaubien access provides two lanes, while St. Antoine provides three. The service and loading bay is also entered from St. Antoine just south of the main entrance. There is also the possibility that below-grade access may be added, which would provide direct access to the parking facilities by the hotel valet at the Renaissance Center.

Primary pedestrian access is accomplished from Atwater through a lobby providing access to elevators and to stairs to all floors of the building. A secondary means would be available via a skywalk over Beaubien connecting the Renaissance Center to parking level 3 of the proposed structure. At this point along the western facade, parking level 3 appears to be the second story as a result of the sloping contour of the site. This skywalk would replace an existing skywalk at that approximate location, which provides access to the surface parking that presently occupies the subject property.

**ISSUES**

A public hearing was held by the Commission on June 15, 2000. No one spoke at the hearing.

In reviewing this matter only one item has created some concern for the Commission. New Street (the private road between the proposed building and the existing parking structure) is not intended to carry a great deal of pedestrian traffic. The developer sees it as providing for better vehicular movement in the area and providing a staging area for some service related vehicles when needed. However, CPC recognizes that human nature being what it is, this street could become a popular short cut for some, as pedestrian movements are established within River East. The existing parking structure and the proposed building will loom over this passageway, creating a dark and, possibly, imposing corridor. In light of this, the Commission would like to see some treatment of this corridor to accommodate such movements. It is not staff's intent to see pedestrian movement encouraged, but it should be safeguarded in the event.

**CONCLUSIONS**

The requested modifications are consistent with the Master Plan of Policies as well as the GM sponsored River East Master Plan prepared for the area. The proposed structure would be complementary to both the existing and future development in and around River East and the General Motors Global Headquarters. In the current scheme, the building will block the rather mundane views from the river of the existing Port Atwater garage. In the future it will become the backdrop for a low-rise structure to be built just to the south. The architectural treatment of the building and the mix of uses therein serve to make it attractive and interesting despite the presence of the parking related functions and features.

The fitness center and roof plaza would present movement and activity above the ground plane, where special events and daily activity are anticipated. This type of dynamism is exactly what the City would like to see as this area is reclaimed and redeveloped as a people place. In the area of New Street some additional attention is warranted in order that it be appropriately treated within this developing people oriented environment.

As there were no speakers at the public hearing on this matter and the Commission's review revealed no major concerns or issues with the exception of those related to New Street, this proposal receives CPC's full support.

**RECOMMENDATION**

On July 6, 2000 the City Planning Commission voted to recommend approval of the proposed modification of the existing PD zoning district with the following conditions:

1. that, while New Street is not intended to be a major pedestrian carrier, it should be designed and lit in such a way as to maximize the safety of pedestrians users;

2. that the final design and layout of New Street is subject to the review of the Traffic Engineering Division of the Department of Public Works; and

3. that the developer submit final site plans and elevations, landscaping, lighting and signage plans to the City Planning Commission staff for approval prior to the issuance of applicable required permits.

The ordinance to effectuate the requested modification of the PD zoning is attached and has been approved as to form by the Law Department.

**City Planning Commission**

July 11, 2000

Honorable City Council:

Re: Reprogramming of funds allocated to Delray Senior Housing (Appropriation #04837) to People's Community Services for public facility rehabilitation of 420 Leigh (Delray Recreation Center) (DEPARTMENTAL REPORT).

The Planning and Development Department (P&DD) has requested reprogramming of \$150,000 from Delray Senior Housing (Appropriation #04837) to People's Community Services to build an addition onto the Delray Recreation Center. This 4600 square-foot addition will provide private counseling space, community meeting rooms, and group activity rooms for a program that has expanded well beyond the capacity of the current facility. This addition will be connected to the current building through a breezeway. The Recreation Department still owns the building and will continue to maintain a long-term lease with Peoples Community Services.

Peoples Community Services has received a challenge grant of \$200,000 from the United Way for capital improvements on the condition that they raise an additional \$350,000. They received an allocation of \$98,000 from the 2000-2001 NOF/CDBG funding and have a commitment of \$50,000 from the Recreation Department towards the construction. An additional \$60,000 has been raised from other foundations. With the reprogrammed funds of \$150,000, they would meet the challenge from the United Way.

Due to the urgency of meeting the challenge or losing the \$200,000 awarded, the Delray Senior Housing project has agreed to the transfer of this \$150,000. These funds were part of \$600,000 which was allocated in 1993-94 and \$200,000 allocated from 1991-92 CDBG funds. The Senior Housing Project is not yet ready to begin construction but plans are in process and their understanding is that these funds will be replaced. Delray states that they have a letter from P&DD confirming this.

**RECOMMENDATION**

Since Delray Senior Housing has agreed to the transfer and, given the urgency of the challenge grant, CPC staff recommends that your Honorable Body approve this transfer of funds.

Honorable City Council:

Re: Amendment to the Disaster Recovery Initiative Funding Grant for City of Detroit.

It is respectfully requested that your Honorable Body approve, with waiver of reconsideration, the attached resolution, which authorizes the Mayor or his designee to file an amendment to the

Disaster Recovery Initiative grant with the Department of Housing and Urban Development (HUD).

In 1998, the City of Detroit was notified by HUD that it had reserved \$3,336,146 in Disaster Recovery Initiative funding for the City. The grant provides gap funding for recovery activities associated with the devastating storm that struck the cities of Detroit, Highland Park and Hamtramck on July 2, 1997.

The original grant provided \$1,000,000.00 in funding for the activities of debris removal, clearance and demolition by DPW. Activities of the Department of Public Works related to storm-damage cleanup were reimbursed by the Federal Emergency Management Agency (FEMA) and these funds are available for reprogramming. Additionally, the \$1,000,000 appropriated for the repair of City-owned replacement housing for those storm-damage victims whose homes were destroyed by the storm is also available for reprogramming. Private sector replacement housing was provided for those families with funding from the City's HOME program.

To date, funds totalling \$1,340,956 have been spent on grant-related activities; \$1,995,190 remains unspent from the original grant. This amendment to the grant proposes the following changes:

- Decrease replacement housing repair by \$1,000,000
- Decrease debris removal and demolition by \$1,000,000
- Increase home repair by \$1,060,567
- Increase planning and administration by \$200,000
- Add a replacement housing project funded at \$208,433
- Add technical assistance by non-profit groups funded at \$56,000
- Add a Warren Conner Development Coalition public facility rehabilitation project, 11185 Harper, funded at \$135,000
- Add a Focus: HOPE public facility rehabilitation project funded at \$140,000
- Add a Chandler Park tree replacement program funded at \$200,000

A public meeting will be held on July 7, 2000, to consider the aforementioned proposals using grant funds. A copy of the public notice is attached.

Respectfully submitted,  
PAUL A. BERNARD  
Director

By Council Member Tinsley-Talabi:

Resolved, That the Mayor of the City of Detroit, or his designee, is hereby authorized to file an amendment application to the HUD Disaster Recovery Initiative Funding Grant; and be it further

## Invocation

We pause on this 19th day of July, 2000, to breathe the breath of life, to count our blessings, and to solicit direction for the weighty matters that will come before Detroit City Council.

For some, prayer is a sectarian, ritualistic gesture — “full of sound and fury — signifying nothing.” For some, prayer is a grab bag of shallow ideas and thoughts. Furthermore, for some, prayer is wishful thinking. Still for some, prayer is an act of desperation. Ultimately, however, for some, prayer is the key to the Kingdom, the Creator’s realm. For those who hunger and thirst after righteousness, prayer is as vital as water, air, food and love.

A West African proverb declares, “Every prayer must have feet.” Therefore, we pray to the One who is the Way to order our steps; to guide our feet. Give us the boldness of action born from the courage of righteous convictions. We not only pray for the hungry, hurting, weak, wayward, needy, greedy, vulnerable and crestfallen, but we pray that our actions today, no matter how small, will make the world, contained in the vast universe, a better place. Gracious God, continue to be with Councilwoman Brenda Scott and family as they walk through the valley of the shadow of death. Help them not to fear.

“From the rising of the sun to the setting of the same Your Name, O God, is worthy to be praised.” We praise You not only with our lips but with our lives. Thanks for this point of contact with You. Amen.

On June 21, 2000, a mediation panel evaluated the above-captioned lawsuit and awarded One Dollar (\$1.00) in favor of Plaintiff, Rayfield against the City of Detroit and Seven Thousand Two Hundred Dollars (\$7,200.00) in favor of Cross-Complainant, Grand Trunk Western Railroad and against the City of Detroit. #### City Planning Commission

July 8, 2000

Honorable City Council:

Re: Nominations for the Citizen Review Committee for terms ending June 30, 2003 (Recommending Appointments).

There are currently four vacancies on the Citizen Review Committee (CRC) due to the expiration of the terms of Derrick Brown, Cedric Cook, Linda Masino, and William Ware on June 30, 2000. The City Planning Commission (CPC) has interviewed candidates and has nominated four persons to fill these vacancies. These vacancies are for three-year terms that will expire on June 30, 2003.

The staff of the City Planning Commission solicited applications for the Citizen Review Committee through a city-wide mailing in June, 1999. Thirty-four applications were received prior to the due date. In September, 1999, nine of new applicants as well as the four incumbents whose terms expired in 1999 were selected for interviews. Applicants were selected based on their grass-roots community involvement, their history of involvement in community development issues, and their understanding of grant applications and of the NOF proposal review process.

In accordance with past practice, in alternate years, rather than soliciting applications city-wide, those candidates who were interviewed the previous year are re-interviewed for the current openings. Six of the previously interviewed candidates desired to be considered for appointment, as well as the four incumbents (Derrick Brown, Cedric Cook, Linda Masino, and William Ware) whose terms expired in 2000.

Four persons appeared for interviews on July 6 with the City Planning Commission. The City Planning Commission has nominated Mr. Derrick Brown, Ms. Linda Masino, Mr. Karriem Muhammad, and Mr. William Ware to each serve for a three-year term ending on June 30, 2003.

- Mr. Derrick Brown, 14751 Rosemary, is completing his seventh term on the CRC and has been a member of the CRC since 1981; he is a resident of the east side of Detroit.

- Ms. Linda Masino, 22506 Tireman, is completing her second term, although was unable to participate for her first year due to a fire and resulting extended hospitalization. Ms. Masino currently resides in the far west side.

- Mr. William Ware, 15544 Linwood, is completing his second term on the Committee and is a resident of the near northwest section of Detroit.

- Mr. A. Karriem Muhammad, 5730 Harvard Road, previously served on the CRC for two terms and is a resident of the far east side.

Several items are on file for your information: "Job Description for Citizen Review Committee Members/Criteria for Selection" (Attachment 1); a listing of the incumbent members of the Citizen Review Committee (Attachment 2); the attendance records of the incumbent applicants (Attachment 3); the applications of the four persons nominated for the Citizen Review Committee by the City Planning Commission (Attachment 4); and a map showing the residences of the current members and new nominees (Attachment 5).

#### RECOMMENDATION

The City Planning Commission recommends that Mr. Derrick Brown, Ms. Linda Masino, Mr. Karriem Muhammad, and Mr. William Ware be appointed to serve as members of the Citizen Review Committee for three year terms ending June 30, 2003. The appropriate resolution is attached for your consideration.

Re: Petition No. 2536 — MNP Corporation C/O DeRemer and Associates, PC, to request to encroach on Meldrum in the area of Mack and Beaufait.

Petition No. 2536 "MNP Corporation, 6440 Mack Avenue, Detroit, Michigan 48207 in C/O DeRemer and Associates, PC" request to install and maintain encroachments, a maximum of 6.00' into the public rights-of-way at a depth of 12.00', footings and foundations, for new building additions, into portions of Meldrum Avenue, 60 feet wide, and Beaufait Avenue, 70 feet wide, between Mack Avenue and Benson Avenue.

The petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

The Traffic Engineering Division — DPW reports no objections with the requested encroachments provided that the vertical clearance of the encroachment be a minimum of the proposed 12 feet below grade and the horizontal offset into the rights-of-way shall be limited to the proposed 6 feet.

The Detroit Water and Sewerage Department (DWSD) reports there are DWSD water mains and sewers in the above mentioned streets. Minimum clearances must be maintained and the provisions of the attached resolution must be followed.

All other involved City departments and privately owned utility companies have reported no objections to the encroachments or that satisfactory arrangements have been made. Where appropriate, provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

### Department of Public Works City Engineering Division

July 13, 2000

Honorable City Council:

Re: Petition No. 2221 — Planning and Development Department requests to rescind encroachments and for certain rights-of-way changes within the Compuware Development Site known as the Kern Block and Crowley Block, generally in the area bounded by Woodward, Gratiot, Randolph, Monroe and Campus Martius.

#### **Background**

The City Council of the City of Detroit ("Council") adopted a resolution on December 8, 1999 (J.C.C. pages 3402-06) authorizing execution of the Compuware Development Agreement and Land Transfer Agreements consistent with a Project Plan and Site Plan presented to Detroit City Council as attachments to the Development Agreement. As set forth in correspondence from the Corporation Counsel to your Honorable Body together with a proposed resolution that have been submitted to your Honorable Body contemporaneously with this correspondence, the City of Detroit (the "City"), the City of Detroit Downtown Development Authority (the "DDA") and Compuware Corporation (the "Company") will execute a Restated Development Agreement. The Planning and Development Department ("P&DD"), as current trustee of the land, requires certain changes to public rights-of-way to finalize the preparation of the Compuware Project Site for redevelopment and to allow clear title to the land for the Compuware Project.

In the Restated Development Agreement, the City has agreed to convey to the DDA, and the DDA has agreed to then convey to the Company or its designated developer (the "Developer"), the Kern Block, the Crowley Block, the to-be-vacated Farmer St. and Library St. rights-of-way, and the to-be-vacated portions of the Campus Martius, Monroe, Woodward and Gratiot Avenues rights-of-way. Each is defined herein and is described in this resolution. In accordance with the

Restated Development Agreement, and as a condition to selling the property, the City, the DDA, and the Developer will execute two easement agreements referred to in the attached resolution as the "Compuware Easement Agreement" and the "Farmer Street Easement Agreement." All of the above requested changes are subject to the execution of the two easement agreements and the Land Transfer Agreements. P&DD seeks the authorization to execute the Compuware Easement Agreement and the Farmer Street Easement Agreement.

Further, the City owns all public rights-of-way in the "Governor and Judges Plan" in fee. Therefore the deeds from the City to the DDA pursuant to the Restated Development Agreement will transfer the vacated rights-of-way along with the other land being conveyed. Such deed(s) will also be subject to the terms of the two easement agreements and the Land Transfer Agreements.

Finally, an amendment to the existing Easement Agreement between the City and the Detroit Transportation Corporation for the People Mover is required for implementation of the Compuware Project. P&DD also seeks authorization to execute the Amendment to the DTC Easement Agreement.

**Petition No. 2221**

C. The Public Lighting Department (PLD) has reported the following comments for the requested property changes contained in the Compuware World Headquarters Project Site:

"Easement B" [Zone B], The southeasterly portion of Gratiot between Farmer and the alley northeast of Library Street — The PLD has no objection to the proposed "Tieback" easement. PLD has underground facilities in the area and care must be taken to avoid disturbing them.

"Easement C" [Zone C], The north side of Monroe between Farmer and Randolph — The PLD has no objection to the proposed tieback easement; please take caution to avoid existing underground facilities located in this area. NOTE: The proposed underground parking garage will have an underground entry ramp in this easement. PLD will relocate their underground cable to accommodate this work. PLD's cost estimate is \$600,000.00.

"Easement H" [Zone H], a landscape easement into the eastern boundary of Woodward between Campus Martius and Gratiot — The PLD has underground facilities located within this proposed landscape easement. PLD has an estimated cost of \$80,000.00 to relocate their conduit and handholes to accommodate tree planters proposed for this area.

"Easement J" [Zone J], a 6.6 ft. wide landscape easement on the north side of Monroe between Campus Martius and Randolph — The PLD is proposing new street lighting in this area and will require additional information as to the nature of the landscape work.

"Easement L" [Zones AD, K-3, K-4a, K-4b], the proposed vacation of Farmer Street and portions of Gratiot, Woodward, Campus Martius and Monroe — The PLD has underground facilities in the area where vacations are requested. PLD estimates their relocation costs to be \$600,000.00. Please note that the parking garage underground ramp cost is included in this estimate.

"Easement M" [Zone L], landscape easements on the south side of Gratiot between the alley east of Library Street and Farmer Street — The PLD has underground facilities and street lights located in the proposed landscape easements. PLD will require additional information about the landscape work before they can comment on the proposed easement. NOTE: PLD will require access to their facilities and if it becomes unavailable, then PLD must relocate their facilities at project cost.

In addition to the above comments PLD has the following general comments on this petition:

Our facilities located in the project site are in operational condition and must remain so. Any damage done to facilities during construction will be repaired at project cost.

All street lighting and traffic signal poles that must be removed temporarily removed or relocated due to construction work or new site geometric must be done at project cost.

Lighting on the "new" Farmer Street must conform to PLD and Illuminating Engineering Society (I.E.S.) Guidelines. If these guidelines are not met. Then the PLD will provide additional lighting at project cost.

The relocations of PLD underground conduit, cables and handholes to accommodate planter placement along Woodward are to be done at project cost. We estimate costs to be \$80,000.00.

We require a waiver of the rule that disallows overhead construction in the downtown area. For a period of 18 months, we will have temporary wood poles and overhead lines to reroute primary distribution cables in Farmer Street and in Monroe Avenue.

We have costs associated with manhole enlargement and the permanent relocation of underground cables.

The PLD will require easement rights for access to the relocated cabinets that will be recessed in the new Compuware building. The recess will be located in the northwest corner of the Compuware building. This corner of the building is located at the southeast corner of Gratiot and Woodward. The cabinets are for multiple street lighting, special events and traffic signals.

D. Detroit Edison Company (DeCo) has investigated the requested changes in public rights-of-way. The nature of their services and the estimated costs of removing and/or rerouting such services are as follows:

Easement "A" [Zone A]: DeCo has underground facilities in the area, along the northwest side of Monroe Street, in road right-of-way. DeCo does not object to the tieback easement, provided the following conditions are met. Tiebacks must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Easements "B" & "C" [Zones B & C]: DeCo has underground facilities in these areas. DeCo does not object to the tieback easements, provided the following conditions are met. Tiebacks must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Overhead Encroachment Zone "G": DeCo has underground facilities in the area, along the northwest side of Monroe Street, in road right-of-way. DeCo does not object to the overhead encroachment, provided the following conditions are met.

Encroachment must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Easement "J" [Zone J]: DeCo has underground facilities in the area, along vacated Library St. extended. The removal of these facilities is addressed under the section titled "Proposed Vacation L" [Zones K-1, K-3, K-4a, K-4b, AD]. DeCo does not object to the landscape easement.

Easement "M" [Zone L]: DeCo objects to this change in property. DeCo has underground facilities in the area that could be damaged by the petitioners proposed landscaping.

Proposed Vacations "L" [Zones K-1, K-3, K-4a, K-4b, AD]: DeCo has underground facilities in the area. The cost to relocate these facilities is \$317,000.00."

E. Michigan Consolidated Gas Company (Mich Con) has reported the following involvement within the public rights-of-way:

Easement "B" [Zone B]: 34-ft. tieback easement easterly side of Gratiot. Gas main is 2" plastic main (10 psig) in 6" dead cast iron main from 5 ft. S/S Library St. north to Broadway at 15 ft. W/E Gratiot. This main is involved in the easement but is above proposed tiebacks.

MichCon has reported no objections to the other requested changes in public rights-of-way as proposed on drawing No. C-102.

F. Ameritech has reported the following involvement within the public rights-of-way:

Ameritech has reviewed the requested changes in public rights-of-way; records show that their facilities in the critical areas of development have already been abandoned. Ameritech does have cable in conduit along Woodward Ave. and along Gratiot Ave. To maintain the quality and reliability to our customers, it is imperative that the service not be disrupted during construction. Contact MISS DIG for cable staking before any underground work proceeds and throughout the Phase 1 development.

The proposed tiebacks for this project must not disturb the existing facilities. As discussed, the tiebacks will be at a point no less than 6 feet below our facility runs.

Ameritech has underground conduit in Woodward Avenue and must maintain full access along Woodward to manholes and conduit for maintenance and repair between Monroe and Gratiot.

Ameritech has underground conduit in Gratiot Avenue and must maintain full access along Gratiot to manholes and conduit for maintenance and repair.

G. In addition to the above requested changes in public rights-of-way, the Developer will be providing private easements to Comcast Cablevision of Detroit and Detroit Edison within vacated Farmer

Street. This area will be within the underground parking structure, and will provide for a 24" x 24" Edison steam easement (Zone V) and a 4" Comcast conduit easement (Zone W).

H. All other City departments or privately owned utility companies have no objection to the proposed change in public rights-of-way or have confirmed that satisfactory arrangements have been made.

Please note that the responses set forth above are based on the original drawings submitted with the Petition. Representatives from City Engineering, P&DD, Compuware, and all potentially involved agencies and utility companies have been meeting on a weekly basis for the past several months to assure that satisfactory arrangements have been made regarding utility placements. At these meetings, all potential concerns have been raised and addressed. The attached resolution, together with the Farmer Street Easement Agreement, the Compuware Easement Agreement, and the Amendment to the DTC Easement Agreement described in this letter and the attached resolution, reflect the resolution of all concerns of all potentially involved agencies and utilities. Payment of any costs for relocating utilities will be handled in accordance with the terms of the Restated Development Agreement approved by your Honorable Body.

An appropriate resolution is attached for consideration by your Honorable Body. I am recommending adoption of the attached resolution. A waiver of reconsideration is respectfully requested.

Respectfully submitted,

SUNDAY JAIYESIMI

**A. RESTRICTION**

The grantee from the City of the Subject Area, and its successors and assigns (the "Owner")

(1) may use and occupy that portion of the Subject Area lying below grade elevation (the portion is the "Subsurface Area" and the grade elevation determines the "Surface" of the Subject Area) (i) for foundations, footings and structural support for improvements constructed below the Surface of the Project Site and on and

above the Surface of that portion of the Project Site not including the Subject Area; and (ii) for ventilation ducts and systems, utilities and mechanical and electrical systems, for parking, for support of or connected with the uses described in (2) below and other similar functional lawful purposes as long as the use for any such purpose shall not interfere with the rights of the public to occupy and use the Surface of the Subject Area for pedestrian walkways as provided for in the Reservation herein;

(2) shall make no use of the Surface portion of the Subject Area for any purpose other than the installation, maintenance and replacement of (i) ventilation system exhaust grillwork; (ii) materials permitting the passage of natural light from above and the passage of artificial light from below, in each case with materials meeting Governmental Requirements as defined in the development Agreement serving the uses permitted in (1) above, and (iii) sidewalks in the area not occupied by the improvements described in (i) and (ii); and

(3) shall make no use of that portion of the Subject Area above the Surface (the "Above Surface Area") for any improvements except for (i) the purposes for which permits to encroach in the Public Rights-of-Way have been or may be issued, but subject to the terms and conditions of such permits; (ii) portions of the Building facade, consisting of the building materials structurally and architecturally integrated in the Building facade, in an area not to exceed one (1) foot into the Above Surface Area from that portion of the Project Site not including the Subject Area, beginning not less than ten feet (10') above the Surface, and (iii) those canopies structurally made a part of the Building and occupying an area being not less than ten feet (10') nor more than twenty feet (20') above the Surface, subject to the further conditions of subsection (d) to this Section A,

it being acknowledged that the Subject Area was a portion of the public rights-of-way and is subject to the Reservation and the Reverter herein.

With respect to the foregoing, the following provisions shall apply:

(a) The improvements permitted within the Subsurface Area are the "Subsurface Improvements", the improvements permitted on the Surface are the "Surface Improvements" and those improvements permitted in the Above Surface Area are the "Above Surface Improvements." Collectively, the Subsurface Improvements, the Surface Improvements and the Above Surface Improvements are the "Subject Area Improvements."

(b) The Owner of the Subject Area shall construct and at all times maintain the Subject Area Improvements in a man-

ner which shall permit the uses of Grantor provided for under the Reservation. The sidewalk portion of the Surface Improvements shall be constructed and maintained by Owner at no less than the standards generally required for sidewalks by the City as promulgated by the Department of Public Works or by ordinance of the City. Subject to approval of the City, Owner may install and maintain pavers or other special sidewalk surface treatment enhancing its adjacent development.

(c) The Owner shall have the right to access the Subsurface Area through the Surface, provided, however, that the Owner shall provide for barricades and protection of the area of the work from access by pedestrians and shall comply with those requirements of the City that would pertain to such work conducted in public rights-of-way, except that no bond shall be required for work solely within the Subject Area. The Owner shall not block pedestrian access over the Surface except in accordance with the ordinances of the City for temporary occupation of a public sidewalk, and shall obtain any permits therefor which would be required if the Surface were a part of the public sidewalk.

(d) The Owner shall design, install and construct, and at all times maintain, the Above Surface Improvements in a structurally sound and secure manner, and in good condition and repair. At no time shall any Above Surface Improvements become unsafe or unsound or pose any threat or danger to the public by reason of their condition. The right to occupy the Above Surface Area is limited to the Above Surface Improvements specified in subsection A(3) above.

Upon a determination by the City agency having jurisdiction over public rights-of-way that the Above Surface Improvements are not in compliance with the requirements set forth above, the City may give notice in writing to Owner that any or all of the improvements and installations shall be brought to a condition complying with the requirements at Owner's sole cost and expense. If a determination has been made by the City that the Above Surface Improvements are not in compliance with the requirements of this subsection, Owner shall have a period of sixty (60) days (the "cure period") after notice in which to attempt to remedy the deficiencies determined by the City to exist. If at the end of the cure period the City finds that the Above Surface Improvements still do not meet the requirements of this subsection, a written notice of such determination shall be given to Owner, and after the expiration of ten (10) days from the date of the notice, the City may pursue the remedies it would have if the Above Surface Improvements

had been permitted as "encroachments" into a public right-of-way.

(e) The Owner shall indemnify and hold the City harmless from and against all liability from claims and damages (and expenses in connection therewith, including reasonable attorney fees) to any person or property in or upon the Subject Area incurred by or asserted against the City alleged to have resulted from the existence of Owner's installations, improvements, activities and inactions within the Subject Area.

#### **B. RESERVATION**

Grantor reserves unto itself a perpetual and non-exclusive easement (i) upon the Surface for use by the public for sidewalk purposes for pedestrian traffic and (ii) within the Above Surface Area for open space subject to the provisions of Section A(3) above.

#### **C. REVERTER**

Because the Subject Area was a portion of public rights-of-way that has been vacated and conveyed by the City to enable development of the Land pursuant to the Development Agreement, the Subject Area shall revert to the grantor when the Land has not been or is no longer improved by the Building contemplated by the Development Agreement or its functionally equivalent replacement, or a building built on the same footings and foundations as the Building for which the use of the Subject Area is required for the purposes described in Part A for a period of five (5) consecutive years. If Owner does not voluntarily reconvey the Subject Area to the City upon the occurrence of the described events, Grantor may file a written declaration with the Wayne County Register of Deeds following the expiration of thirty (30) days' written notice of intent to file to the then-record Owner of the Land. In the event Owner disputes the right of the City to claim reverter, during the notice period the Owner shall file an action to enjoin reversion in a court having jurisdiction of the subject matter and parties in Wayne County, Michigan, including the Federal District Court for the Eastern District of Michigan. After reversion of title to the City, the City may grant permits for encroachment of Subject Area Improvements, subject to permitting requirements and conditions at such time."

Provided, further, that the City of Detroit reserves an easement in the Subject Property for the City of Detroit Public Lighting Department ("PLD") to allow access to the PLD facilities control room located on the southeast corner of Gratiot and Woodward Avenues within the following described property:

Re: Proposed Ordinance to Amend Chapter 18, Article X, of the 1984 Detroit City Code entitled "Income Tax".

In accordance with the applicable provisions of the 1997 Detroit City Charter, the above-referenced proposed ordinance is being submitted to your Honorable Body for approval. This proposed ordinance amends Chapter 18, Article X, Section 18-10-4, of the 1984 Detroit City Code to increase the percentage by which corporate income tax shall be lowered beginning January 1, 2001 until the corporate tax rate is zero.

Ordinance 37-99, which was approved by your Honorable Body on December 8, 1999 erroneously set the annual reduction of the corporate tax rate at .1%, rather than .2%, beginning January 1, 2001. The .2% reduction is necessary in order to maintain the same 10 year reduction program for both the individual and corporate tax rates.

We are available to answer any questions that your Honorable Body may have regarding this proposed ordinance. Thank you for your consideration.

SERIES 2000-SRF2

REGISTERED OWNER: Michigan  
Municipal Bond Authority  
PRINCIPAL AMOUNT: \*\*\*\*\$\_\_\_\_\_\*\*\*

The City of Detroit, Wayne County, Michigan (the "Issuer") for value received, promises to pay, to the Michigan Municipal Bond Authority (the "Authority"), but only out of the hereinafter described Net Revenues of the Issuer's Sewage Disposal System, the principal amount of \_\_\_\_\_ Million Dollars (\$\_\_\_\_\_) or so much thereof as shall have been advanced to the Issuer pursuant to the Purchase Contract between the Issuer and the Authority dated as of \_\_\_\_\_, 2000 and a Supplemental Agreement by and among the Issuer, the Authority and the State of Michigan acting through the Department of Environmental Quality, in lawful money of the United States of America, with interest on said principal until paid from the date each disbursement of such principal is advanced by the Authority to the Issuer at the rate of two and one-half percent (2.5%) per annum. Interest is first payable on April 1, 2001 and semi-annually on each October 1 and April 1 thereafter, and principal is payable on the first day of October, commencing October 1, 2003, and annually thereafter in the principal installments indicated on the Payment Schedule attached as Appendix A hereto, unless prepaid prior thereto as

hereinafter provided. The bond is payable as to principal, premium, if any, and interest at the corporate trust office of Bank One Trust Company, NA, or to such other place as shall be designated in writing to the issuer by the Authority (the "Authority's Depository").

During the time funds are being drawn down by the Issuer under this bond, the Authority will periodically provide the Issuer a statement showing the amount of principal that has been advanced and the date of each advance, which statement shall constitute prima facie evidence of the reported information; provided that no failure on the part of the Authority to provide such a statement or to reflect a disbursement or the correct amount of a disbursement shall relieve the Issuer of its obligation to pay the outstanding principal amount actually advanced, all accrued interest thereon, and any other amount payable with respect thereto in accordance with the terms of this bond.

The Issuer agrees that it will deposit with the Authority's Depository payments of the principal of, premium, if any, and interest on this bond in immediately available funds at least five (5) business days prior to the date on which any such payment is due, whether by maturity, redemption or otherwise. This bond is subject to redemption prior to maturity by the Issuer only with the prior written consent of the Authority and on such terms as may be required by the Authority. Written notice of any redemption of any principal installment of this bond prior to its stated maturity shall be given by the Issuer and received by the Authority's Depository at least forty (40) days prior to the date on which such redemption is to be made.

In the event of a default in the payment of principal hereof or interest hereon when due, whether at maturity, by redemption or otherwise, the amount of such default shall bear interest (the "additional interest") at a rate equal to the rate of interest which is two percent above the Authority's cost of providing funds, (as determined by the Authority) to make payment on the bonds of the Authority issued to provide funds to purchase this bond but in no event in excess of the maximum rate of interest permitted by law. The additional interest shall continue to accrue until the Authority has been fully reimbursed for all costs incurred by the Authority (as determined by the Authority) as a consequence of the Issuer's default. Such additional interest shall be payable on the interest payment date following demand of the Authority, in the event that (for reasons other than the default in the payment of any municipal obligation purchased by the Authority) the investment of amounts in the reserve account established by the Authority for the bonds of the Authority issued to provide funds to purchase this

bond fails to provide sufficient available funds (together with any other funds which may be made available for such purpose) to pay the interest on outstanding bonds of the Authority issued to fund such account, the Issuer shall and hereby agrees to pay on demand only the Issuer's pro rata share (as determined by the Authority) of such deficiency as additional interest on this bond.

For the prompt payment of the principal of and interest on this bond, the revenues of the Sewage Disposal System of the City (the "System"); including all appurtenances, extensions and improvements thereto, after provision has been made for reasonable and necessary expenses of operation, maintenance and administration (the "Net Revenues"), are irrevocably pledged and a statutory lien thereon is recognized and created. The bonds of this series are of junior standing and priority of lien as to Net Revenues and secured on a subordinate basis to: (a) the City's \$4,360,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1992-A; (b) the City's \$1,915,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1992-B; (c) the City's \$311,460,000 original aggregate principal amount Sewage Disposal System Revenue and Revenue Refunding Bonds, Series 1993-A; (d) the City's \$6,840,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1993-B; (e) the City's \$257,725,000 original aggregate principal amount Sewage Disposal Revenue Bonds, Series 1995-A and Sewage Disposal System Revenue Refunding Bonds, Series 1995-B; (f) the City's \$262,494,128.05 original aggregate principal amount Sewage Disposal System Revenue Bonds, Series 1997-A; (g) the City's \$6,075,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1997-B; (h) the City's \$137,955,000 original aggregate principal amount Sewage Disposal System Revenue Refunding Bonds, Series 1998-A and Series 1998-B; (i) the City's \$21,475,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF1; (j) the City's \$46,000,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF2; (k) the City's \$31,030,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF3; (l) the City's \$40,665,000 maximum stated principal amount Sewage Disposal System Revenue Bond, Series 1999-SRF4; (m) the City's \$302,995,177.80 aggregate original principal amount Sewage Disposal System Revenue Bonds, Series 1999-A; (n) any other bonds on a parity

with the foregoing bonds issued hereafter pursuant to the Bond Ordinance (hereinafter defined); (o) Junior Lien Bonds (as defined in the Bond Ordinance) which shall have acceded to parity status with the foregoing bonds pursuant to the terms of the Bond Ordinance; (p) Senior Subordinated Bonds and other Junior Lien Bonds which have a higher priority of lien than that granted the SRF Junior Lien Bonds which may hereafter be issued under the Bond Ordinance; and (q) Ancillary Obligations relating to all of the foregoing, and on a parity with the City's \$21,475,000 maximum stated principal amount Sewage Disposal System Revenue Bond (SRF Junior Lien), Series 2000-SRF1; and any other SRF Junior Lien Bonds issued hereafter pursuant to the Bond Ordinance on a parity with this bond and the series of which it is one.

This bond is issued pursuant to Ordinance No. 27-86 as supplemented and amended by Ordinance No. 7-87, Ordinance No. 38-92, Ordinance No. 3-93, Ordinance No. 31-95, Ordinance No. 16-97 Ordinance No. 24-97 and Ordinance No. 36-99, as further supplemented by a Resolution of the City Council adopted \_\_\_\_\_, 2000 (as supplemented and amended, the "Bond Ordinance"), and under and in full compliance with the Constitution and status of the State of Michigan, including specifically Act No. 94, Public Acts of Michigan, 1933, as amended, for the purpose of paying all or part of the cost of acquiring and constructing replacements, repairs, extensions and improvements to the System and paying the costs of issuing this bond.

This bond is a self-liquidating bond which is not a general obligation of the Issuer and does not constitute an indebtedness of the Issuer within any constitutional, statutory, or charter limitation, but is payable, both as to principal and interest, solely from the Net Revenues of the System. The principal of and interest on this bond are secured by the statutory lien hereinbefore mentioned.

This bond is subject to prepayment by the Issuer, in whole or in part, on any interest payment date, but only upon the prior written consent of the Authority and on such terms as may be required by the Authority.

For a complete statement of the revenues from which and the conditions under which this bond is payable, a statement of the conditions under which additional bonds of equal standing may hereafter be issued, and the general covenants and provisions pursuant to which this bond is issued, reference is made to the Bond Ordinance.

The Issuer has covenanted and agreed, and does hereby covenant and

agree, to fix and maintain at all times while any bonds payable from the Net Revenues of the System shall be outstanding, such rates for service furnished by the System as shall be sufficient to provide for payment of the interest on and the principal of this bond and any other bonds of superior and equal standing payable from the Net Revenues as and when the same shall become due and payable, and to create and maintain a bond redemption fund therefor, to provide for the payment of expenses of administration and operation and such expenses for maintenance of the System as are necessary to preserve the same in good repair and working order, and to provide for such other expenditures and funds for the System as are required by the Ordinances.

It is hereby certified and recited that all acts, conditions and things required by law precedent to and in the issuance of this bond and the series of bonds of which this is one have been done and performed in regular and due time and form as required by law.

IN WITNESS WHEREOF, the City of Detroit, Wayne County, Michigan, by its City Council has caused this bond to be signed by the manual or facsimile signatures of its Mayor and its Finance Director and its corporate seal to be impressed on this bond, all as of \_\_\_\_\_, 2000.

Whereas, Pursuant to Section 22 of Michigan Public Act No. 334 of 1993, effective December 31, 1993, it is necessary that the City and the Applicant enter into a "written agreement" prior to approval and issuance of an IFEC by the Michigan State Tax Commission; and

Whereas, To encourage approval of an IFEC and in recognition of the investments the City will make toward the economic growth of the Applicant, which in turn will benefit the City, the Applicant agrees as follows:

**1. General.**

a. The Applicant has made real and personal property improvements, as set forth in the Application.

b. The Applicant will be required to create twenty three (23) new full time employees at the Facility within two years of the Approval Date.

c. The Applicant will retain:

I. eight (8) full-time employees two (2) years from the Approval date.

II. thirty one (31) full time employees at the Facility commencing two (2) years from the Approval date and throughout the term of this agreement.

For purposes of this Agreement, a "full-time employee" shall include a person 1) who is employed by the Applicant on a salary, wage, commission, or other basis, for a minimum period of forty (40) hours a week; and 2) from whose compensation the Applicant is required by law to withhold for City income taxes.

**2. Annual Affirmative Action Report by the Applicant.**

On or before August 4, 2000 and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Human Rights Department of the City of Detroit 1) a current Contract Compliance Report (Form EEO-1); and 2) a current Employer Information Report (Form EEO-2). If requested in writing by the Human Rights Department of the City, the Applicant shall also submit to the Human Rights Department of the City an Affirmative Action Plan, which sets forth the future affirmative action goals of the Applicant at the Facility, and the means by which the Applicant intends to effectuate those goals. The provisions of the Affirmative Action Plan must be approved by the Director of the City Human Rights Department.

**3. Annual Status Report by the Applicant.**

On or before February 1, 2000, and each year thereafter, throughout the term of the IFEC, the Applicant shall submit to the Planning and Development Department of the City a certified status report ("Status Report") signed by an authorized officer of the Applicant. The Status Report shall set forth the affirmative action accomplishments, the average number of full-time employees at the Facility during the calendar year preceding the date of the Status Report, and the Facility costs as of December 31st preceding the Status Report. For purposes of this agreement, the average full-time employees shall be computed as the average of the number of full-time employees at the Facility on March 31st, June 30th, September 30th, and December 31st of the calendar year preceding the date of the Status Report. The information contained in the Status Report shall be in substantially the same form as is attached hereto as Exhibit "C".

**4. Review and Audit of Applicant Employment Information.**

The Applicant agrees to provide the City with sufficient information, and the City may review and audit the information provided by the applicant, in order to determine compliance with this agreement. If the Applicant fails to provide employment information satisfying the needs of the City, the Applicant will provide the City and the Michigan Employment Security Commission (MESC) written authorization, in a form acceptable to the City and MESC, to use and develop appropriate MESC documents, such as, but not limited to, the MESC Multiple Worksite Report, to verify the number of full-time employees stated in the annual Status Report. In the event the Applicant fails to provide the City with any information required to be provided to the City under this Section, the Applicant agrees to reimburse the City for all costs, including attorney's fees, incurred by the City to verify the information that was withheld.

**5. Revocation or Reduction of Term of IFEC for Affirmative Action or Facility Cost Shortfalls.**

The City may, in its sole discretion, request that the Michigan State Tax Commission reduce the remaining term of the IFEC or revoke the IFEC if: 1) the Applicant fails to provide the City with the information or Affirmative Action Plan required to be provided to the City under Section 2 above; 2) the affirmative action accomplishments at the Facility are less than those to which the Applicant committed itself in the most recent affirmative action plan approved by the City Human Rights Department, due to the failure of the Applicant to use its best efforts to effectuate the Affirmative Action Plan; or

3) if the Facility cost is less than that to which the Applicant committed itself in the Application. Prior to taking any action to request reduction of the term of the IFEC or revocation of the IFEC, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the applicant in its compliance with this Agreement.

**6. Payment of Abated Taxes for Shortfall of Employment.**

If the average number of new and retained full-time employees at the facility during the calendar year preceding the date of the Status Report is less than the number of new and retained employees set forth in Section 1 above, the Applicant agrees to pay the City, in addition to the Industrial Facility Tax due under the IFEC on the Facility, an amount equal to the difference between the amount of ad valorem tax otherwise due on the Facility without the IFEC, and the amount of Industrial Facility Tax due on the Facility under the IFEC, for the calendar year preceding the Status Report, multiplied by a fraction, the numerator of which is the shortfall in the number of new and retained full-time employees indicated in the Status Report, and the denominator of which is the total number of new and retained full-time employees set forth in Section 1 above. Prior to taking any action to require the Applicant to pay any amount to the City pursuant to this Section, the City must afford the Applicant an opportunity to present at a public hearing reasons for any shortfall by the Applicant in its compliance with this agreement.

**7. Reimbursement of City Costs upon Discontinuance of Operations.**

a. To enable the Applicant to make the improvements or to install the equipment, machinery, furniture and fixtures as set forth in the Application, or to enable the Applicant to operate the Facility, the City may incur costs for site acquisition, infrastructure improvements, or for other related purposes, as may be agreed to in writing between the City and the Applicant. If during the term of the IFEC the Applicant shall discontinue operations at the Facility, the applicant agrees to reimburse the City for any such agreed upon costs incurred by the City.

b. The Applicant agrees that if during the term of the IFEC it shall decide to discontinue operations at the Facility, the Applicant shall send written notification to the Director of the City Planning and Development Department within thirty (30) days of such decision. The Applicant further agrees that, within thirty (30) days of the actual discontinuance of operations, the Applicant shall send written notification of the actual termination to the Director of the City Planning and Development Department.

**8. Living Wage Ordinance**

The Applicant acknowledges receipt of a copy of the Detroit Living Wage Ordinance ("Ordinance") which copy is attached as Exhibit "D" and made a part hereof, and the applicant affirms that it will comply with this Ordinance in all respects unless specifically exempted by the language of the Ordinance. In the event the Applicant violates the Ordinance, the Applicant shall pay to each employee affected the amount of the deficiency for each day the violation continues. Willful or repeated violations of the Ordinance shall constitute a material breach of this agreement and will entitle the City to revoke, or seek revocation, of the Certificate. Willful violation of the Ordinance will result in a penalty paid to the City in the amount of \$50.00 per violation for each day the violation continues. In the event the Applicant is assessed the \$50.00 penalty based on more than three (3) incidents within a two (2) year period, the Applicant shall be barred from entering into any contracts with the City for a period of ten (10) years from the last violation.

**9. Reservation of Remedies.**

The City and the Applicant agree that each of the rights and remedies provided by this Agreement may be exercised separately or cumulatively, and shall not be exclusive of any other rights and remedies provided by law. Invalidation of any of the provisions contained in this Agreement by operation of law, judgement, court order, or otherwise shall not invalidate any of the other provisions of this Agreement.

**10. Effective Date.**

This Agreement shall become effective upon issuance by the Michigan State Tax Commission of an IFEC covering the facility, and shall be null and void of no force or effect whatsoever unless the Michigan State Tax Commission issues an IFEC to the Applicant covering the Facility. This Agreement shall terminate thirty (30) days after the due date of the Status Report required by Section 3 above pertaining to the final year the IFEC is in force, or thirty (30) days after the actual filing of said Status Report, whichever is later.

**11. Headings.**

The headings contained in this Agreement are for descriptive purposes only, and do not alter or govern the substantive content of the provisions of this agreement.

IN WITNESS WHEREOF, the City and the Applicant, by and through their authorized officers and representatives, have executed this agreement as of the date first above written.

**City Planning Commission**

June 20, 2000

Honorable City Council:

Re: Petition of First Commercial Realty & Development Company, Inc. to modify the plans for the existing PD (Planned Development District) zoning classification in the area bounded by Lappin Avenue, Maddelein Avenue, the alley first east of Hoyt Avenue and the southern property line of 14375 Gratiot Avenue (Recommend Approval).

In 1999, your Honorable Body approved, upon the recommendation of the City Planning Commission, the request of First Commercial Realty & Development Company, Inc. for a PD (Planned Development District) zoning classification at the southwest corner of Gratiot Avenue and Lappin Avenue. The PD district was to allow the development of a 54,000 square foot Kroger Grocery store. The development would also include a pharmacy, Detroit Police Mini-Station, Bank ATM machine, and community plaza.

Currently, the petitioner seeks to modify the approved plans for the Kroger Grocery Store to include a drive-through pharmacy window. The petitioner is requesting the modification to the existing PD because the proposed pharmacy drive through window was not included in the plans approved by Your Honorable Body.

### PROPOSED DEVELOPMENT

The proposed drive-through pharmacy window would be located on the southeast corner of the grocery store. The canopy over the drive-through area would be 25 feet 8 inches long by 20 feet wide in size and the canopy's clearance would be approximately 10 feet high. The drive-through would include a one lane pneumatic tube system that would allow customers to drop off and pick up prescriptions. Two stacking spaces would be provided for vehicles.

The vehicles could enter the 12-foot wide drive-through area from the north. Traffic would exit via the southern driveway off Maddelein Avenue and could drive around the rear of the store to the northern access driveway on Lappin or take Maddelein to Hoyt and proceed to Seven-Mile Rd. A 28-foot aisle, located between the drive-through pharmacy window area and the parking lot, accommodates two-way traffic. Also, a 4-foot sidewalk would be installed between the store building and the drive-through area to accommodate pedestrian traffic.

### SURROUNDING ZONING AND LAND USES

The zoning classifications and land uses surrounding the proposed development are as follows:

North: B4 (General Business), B3 (Shopping District) and R1 (Single Family Residential) — Retail and single family residential

South: B3, P1 (Open Parking District) and R1 — retail and office;

East: B4 and R2 (Two family Residential) — retail and industrial

West: R1 — residential

### COMMUNITY MEETING

On Thursday, February 24, 2000, the Detroit Community Initiative, Northeast Village Collaborative held a meeting at which a representative of the petitioner was in attendance to address any concerns regarding the proposed modification to the PD district. The community's concerns included the increase of traffic into the adjacent residential area and the hours of operation for the drive-through pharmacy window. However, the community is in favor of the proposed modification. In addition, the Commission received a letter from the Faith Christian Outreach Center with the full support of Pastor Kendrick Leiter.

### PUBLIC HEARING RESULTS

During the City Planning Commission's public hearing on Thursday, March 2, 2000 one person spoke in favor of the proposed modification. Mr. Mike Fisher, President of Detroit Community Initiative, submitted a letter of support from the Northeast Village Community Collaborative and spoke in favor of the project.

The Commissioners raised questions regarding the modification that entailed the following:

1. The location of other Kroger stores with drive-through pharmacy windows
2. The type of maintenance required for the drive-through windows at the other store locations
3. Occurrences of traffic congestion problems for existing drive-through windows
4. The date of the grocery store opening
5. The hours of operation for the drive-through window

Representatives from Kroger and First Commercial Realty & Development addressed the above questions. It was stated that a Kroger grocery store in Westland, located on Michigan Avenue and Merriman, has a drive-through pharmacy window. Recent research indicates demand by customers for drive-through pharmacy windows. The Kroger representative also stated that all the new stores would have a drive-through pharmacy window.

The drive-through windows at existing stores have not had any operational problems. Maintenance, thus far, has been painting or repainting the exteriors of the drive-through pharmacy window area. It was also stated that, at most, five to six customers per hour would use the drive-through window. Thus, traffic congestion has not been a problem. The hours of operation for the grocery store will be from 9:00 A.M. to 10:00 P.M. The pharmacy and drive-through window will close at 9:00 P.M. The Kroger grocery store will open this fall, before the Thanksgiving holiday.

### ANALYSIS

Initially, there was a concern with the saturation of drug stores with drive-through pharmacy windows in the general area. However, we now understand that the approved Rite Aid drug store will not be constructed.

Another concern included the increased traffic along Maddelein that may spill over into the adjacent residential area. The petitioner stated that the drive-through customers could exit via the driveway in the rear of the store to Lappin to avoid using Hoyt Avenue, a residential street. The low amount of drive-through window customers expected should have minimal impact.

The pharmacy will close at 9:00 P.M. and the grocery store will close at 10:00 P.M. Thus, the quality of life for the adjacent residential area will not be compromised with traffic resulting from late store hours.

**CONCLUSION AND RECOMMENDATION**

The City Planning Commission has carefully reviewed the proposed modification and has determined that the proposed site plan and elevation are appropriate and consistent with the approved Planned Development proposal for the Kroger Grocery Store and would not impact the surrounding community negatively. Therefore, the City Planning Commission recommends approval of the plans for the proposed drive-through pharmacy window.

Attached is the appropriate ordinance for your consideration, which has been approved as to form by the Law Department.

**City Planning Commission**

June 28, 2000

Honorable City Council:

Re: Petition of the Planning and Development Department, in conjunction with the Minock Park Community Association, to rezone property generally located at the northwest corner of Fenkell Avenue and Auburn Avenue, and commonly known as 19606 Fenkell, 19620 Fenkell and 15319 Auburn from B4 (General Business District) to R1 (Single-Family Residential District) (RECOMMEND APPROVAL)

**PROPOSED DEVELOPMENT**

The Planning and Development Department, in response to a request by

the Minock Park Community Association, has submitted a request to rezone the above-captioned properties on Fenkell Avenue between Auburn and Plainview Roads from B4 (General Business District) to R1 (Single-Family Residential District) as shown on the attached map.

The subject property is .4 acre in size. The portion of the property along the Fenkell frontage is vacant and City-owned. A portion of the property facing Auburn contains one privately-owned single-family house.

The Minock Park Community Association made the initial request for rezoning in an attempt to preserve the character of the existing neighborhood by prohibiting the location of commercial uses on the property that would be disruptive to the character and quality of life in the neighborhood. For instance, the community believes an area resident who owns a tree trimming business desires to purchase the vacant portion of the property and use it as a truck storage facility. The community is not in favor of this use because it would be disruptive to the neighborhood and increase the amount of truck traffic in the area.

In addition, the Grandmont Rosedale Development Corporation is working with the Minock Park Community Association to construct a single-family home on the site in the near future. The Planning and Development Department has issued a Request for Proposal for the development of the vacant portion of the land in the near future.

**SURROUNDING ZONING AND LAND USES**

The zoning classifications and land uses surrounding the proposed development are as follows:

- North: RI — single-family residential
- South: RI — single-family residential
- East: RI — single-family residential
- West: RI — single-family residential

**PUBLIC HEARING RESULTS**

During the City Planning Commission's public hearing on February 17, 2000 one person, the President of the Minock Park Community Association, spoke in favor of the proposal. He also stated his support for the proposal to construct a single-family home by the Grandmont Rosedale Development Corporation.

A representative from the Planning & Development Department, stated that the rezoning request would eliminate spot zoning, preserve the character of the neighborhood and allow the Grandmont Rosedale Non-Profit Corporation to develop single-family housing.

**MASTER PLAN**

The subject property is located in the Rosedale Master Plan Subsector. The existing and proposed land uses for the property are RL (Low Density Residential). The Planning and

Development Department submitted a letter which is on file in the City Clerk's office stating that the proposed rezoning would be in conformance with the intent of the Master Plan of Policies.

**ANALYSIS**

Typically, property designated in the B4 zoning classification is located along major thoroughfares. By definition, the B4 zoning classification consists of business and commercial uses of a thoroughfare oriented nature. Other business uses that would benefit by attracting customers from passing traffic are also permitted. Such uses would be inappropriate for the subject property. The pattern of zoning and land uses along Fenkell from Outer Drive to Evergreen are single and two family residential, with the exception of the B4 zoning at Evergreen and Fenkell and the subject property at Fenkell and Auburn.

No current use on the subject property would be made non-conforming by the proposed rezoning. The majority of the property is vacant land that once contained commercial structures. The single-family house on the site is a permitted with approval use in the current B4 district and would be a matter of right use in the proposed R1.

**CONCLUSION AND RECOMMENDATION**

The City Planning Commission has thoroughly reviewed the proposed rezoning and has determined that it is in accordance with the spirit and intent of the Zoning Ordinance. Further, it would enable the preservation of the existing character of the residential area. The zoning and land use patterns along Fenkell and Outer Drive to Evergreen are single and two-family residential, with the exception of the B4 zoning at Evergreen and Fenkell and the subject property at Fenkell and Auburn. The proposed rezoning would not make the existing use on the subject property non-conforming. Thus, the City Planning Commission recommends approval of the rezoning request.

The appropriate amendatory ordinance is attached for Your consideration.

### Law Department

July 13, 2000

Honorable City Council:

Re: Proposed Resolution for the Compuware Corporation Restated Development Agreement.

On December 8, 1999, your Honorable Body adopted a resolution authorizing execution of the proposed Development Agreement by and among Compuware Corporation, the City of Detroit, and the City of Detroit Downtown Development

Authority (referred to herein as the "Development Agreement").

As a result of circumstances beyond the control of any of the parties, as well as unanticipated delays in obtaining the results of due diligence investigations and improvements in the design by the architect, the parties were unable to execute the Development Agreement as expected. Furthermore, there is now a need to make a number of changes to the Development Agreement. These changes, with reference to the affected section of the Development Agreement, are summarized as follows:

- The number of employees which Compuware intends to move into the Phase I Development has increased from 3,000 to 3,600, with 2,400 moving in within six (6) months after Completion of Construction (no change) and 1,200 within the following three (3) years. [Section 2.01(a)]

- The number of employees Compuware intends to move into the Phase II Development has been reduced from 2,000 to 1,500, and those employees will move in within four (4) years rather than three (3) years after Completion of Construction of the Phase II Development. [Section 2.01(a)]

- Commencement of Construction has been delayed by 2-1/2 months, from July 1, 2000 to September 15, 2000; the outside date for Completion of Construction of the Phase I Development has been moved back 1 year to December 31, 2003. [Section 4.02]

- The Project Plan has been changed in certain respects, none of which are considered by any of the parties as materially affecting the appearance or functionality of the Building. [Exhibit D]

- The maps depicting the Site Plan [Exhibit E] and the Land and Easement Areas [Exhibit F] have been corrected and updated.

In all other material respects, the Development Agreement has not been changed.

The changes to the Development Agreement have been incorporated into a new document entitled "Restated Development Agreement," a copy of which has been presented to each member of your Honorable Body. Attached to this communication is a resolution authorizing execution of the Restated Development Agreement in substantially the form presented to each member of your Honorable Body.

It is respectfully requested that you adopt the attached resolution with a waiver of reconsideration.

At the time your Honorable Body approved the Original Development Agreement, all of the parties were aware that further action by your Honorable Body would be required to vacate certain por-

tions of the streets and alleys in and adjacent to the development site, and to authorize a number of easements for the development. A resolution for such purposes, with accompanying letter from the City Engineering Division of the Department of Public Works dated April 13, 2000, is being submitted for your consideration in conjunction with the attached resolution.

Respectfully submitted,

PHYLLIS A. JAMES

### City Planning Commission

June 19, 2000

Honorable City Council:

Re: Petition of AF Jonna Development, L.L.C. to modify the approved plans for the existing PD (Planned Development District) zoning classification in the area bounded by Gratiot Avenue, Maddelein Avenue, East Seven Mile Road and the property lines of 14334 Maddelein and 14265 East Seven Mile Road to allow for construction of a 20,000 square foot retail area (Recommend Approval with Conditions).

### BACKGROUND

In 1999, the City Council approved the request of AF Jonna Development, L.L.C. for a PD (Planned Development District) zoning classification in the area bounded by Gratiot, E. Seven Mile Rd., Maddelein, and the east property lines of 14334 Maddelein and 14625 E. Seven Mile Rd. The PD District was to allow for the development of approximately 15,800 square feet of retail space, including a Rite Aid drug store with a drive-through pharmacy window and 78 parking spaces.

Due to financial difficulties, the Rite Aid Corporation decided not to build the store and sold the property to the petitioner. The petitioner seeks to modify the approved plans to allow for the construction of a 20,000 square foot retail shopping plaza with 104 parking spaces, a plaza area with a brick tower sign and landscaping and edge treatments along Gratiot, Maddelein and E. Seven Mile Rd. The petitioner is requesting the modification to the existing PD because the proposed retail shopping plaza site plans call for a structure with more gross floor area and more lot coverage than the plans approved by City Council.

The subject site is 1.7 acres and is comprised of 6 parcels of land. The petitioner has an option to purchase four of the parcels, which contain vacant land and vacant, burned-out commercial buildings. The site has become an illegal dumping ground for tires and abandoned

cars. The other two parcels, which are City-owned, contain vacant buildings and lots.

### PROPOSAL

The proposed building would be one story and set back approximately 140 feet from Gratiot, 20 feet from E. Seven Mile Rd. and up to the property line on Maddelein. The front setback from Gratiot includes a vacated alley with underground utilities. The building would contain from 8 to 14 tenants but no tenants have been identified to date. The possible uses could include two carry-out restaurants, a video store, retail clothing store and an optical store. The front building facade would be comprised of glass with brick columns and drivet on the upper portion of the building. Decorative light fixtures would be attached to each column. The same treatment would wrap around the front portion of each side of the structure. The rear portion of each side and the end of the rear of the building would be brick. Cement block would be used on the middle section of the rear of the building.

The development would include a plaza at the corner of Gratiot and E. Seven Mile Rd. The area would contain benches, landscaping and a 20-foot tall brick tower sign that would state "Shops at Northeast Village". Signs for the development would be located near the southwest corner of the site on E. Seven Mile and near the northwest corner of the site on Gratiot.

A variety of landscaping would be included on the islands in the parking lot. Eighteen (18) parking spaces for employees would be located along the eastern side of the site and along the rear of the building. The site plan indicates five access driveways, one off Gratiot, two off E. Seven Mile Rd. and two off Maddelein. The existing alleys would be vacated within the site and one would be relocated to provide access to the garage of the abutting residential structure.

The loading and refuse areas would be located in the rear of the building on the eastern boundary of the site. A 6-foot high wall would enclose the refuse area. The loading area would contain one berth. Trucks would pull in, park, unload and use a tow dolly to transport the goods to the building. The trucks would exit via the easterly access driveway on Maddelein. To deter truck traffic from entering the residential area, a sign stating, "No right turn by commercial vehicles" would be installed adjacent to this driveway.

The edge treatments would include 36-inch high, 20-foot wide sections of brick screening wall with a variety of trees and shrubs between each section of wall. The screening wall would be located around the periphery of the parking lot off Gratiot and E. Seven Mile Rd. A six-foot high wrought iron fence would buffer the eastern boundary of the site from the residen-

tial district. Planters, shrubs and trees would be located along Maddelein and Gratiot.

### SURROUNDING ZONING AND LAND USES

The zoning classifications and land uses surrounding the proposed development are as follows:

North: B4 (General Business District) and R2 (Two Family Residential District) — commercial storefronts and single family residential.

South: B4 — commercial storefronts and a church.

East: R2 and B4 — single and two family residential fronting on Maddelein, commercial fronting E. Seven Mile Rd.

West: B4, B3 (Shopping District) and PD — commercial including Walgreen's Drug Store on the northwest corner of Gratiot and Seven Mile Rd. and an approved Kroger Grocery Store at Gratiot and Lappin.

### PUBLIC HEARING RESULTS

At the City Planning Commission's June 1, 2000 public hearing, the CEO/President of Detroit Community Initiative, Inc., who is also a member of the Northeast Village Collaborative, spoke in favor of the proposal. He stated that he had concerns with the proliferation of drug stores in the City and preferred to see the development of the retail-shopping plaza. He requested that the sale of beer, wine and liquor be prohibited at the development as a part of the ordinance. He also expressed concerns about the proliferation of check cashing stores, nail salons and beer and wine stores in the community. The types of uses desired in the community include office supply stores, shoe and clothing stores and a major retail chain store. Lastly, he stated that the Solid Rock Church on E. Seven Mile Rd. supports the development.

A Commissioner expressed a concern regarding the lack of identified tenants for the development. The petitioner explained that, typically, he secures an anchor store, such as the video store, and then begins construction. Once a potential tenant observes the construction of a plaza, they are more likely to become a tenant.

A representative of the Planning and Development Department submitted a letter of support for the development with conditions. (Attachment A).

City Planning Commission staff raised a number of concerns regarding the elimination of the westerly access driveway off Maddelein, the number of parking spaces and the number and size of the truck berths in the loading area. Other concerns included excessive signage, addition of landscaping on the eastern boundary, the addition of a building overhang for a covered walkway and the improvement of the architectural character of the building facade.

## ANALYSIS

The community has had preliminary discussions with Wayne County on future roadway improvements including the possible widening of portions of Seven Mile Rd. The site plan shows the building set back 20 feet from the Seven Mile Rd. property line to allow for a future 50 foot street widening. To allow more room for buffering on the north side of the building facing residential on Maddelein, the Commission believed that the building footprints should be moved southward within 14 feet of the property line along E. Seven Mile. This would still allow for the possible future construction of a right turn lane on E. Seven Mile Rd. at Gratiot. The proposed landscaping on the south end of the building could then be relocated to the north end.

The site plan does not provide pedestrian linkages from the neighborhood and the proposed plaza area to the retail building. The Commission felt that the proposed sidewalk in front of the building should be extended to the property lines off Maddelein and E. Seven Mile Rd. and that pedestrian access should be provided from the plaza area to the building. The brick screening should be deleted in the areas necessary to accommodate the extension of the sidewalk.

Two of the proposed driveways in the rear of the building off Maddelein and E. Seven Mile Rd., were less than 30 feet wide and should be revised to provide 30 foot widths.

The westerly access driveway on Maddelein Street was seen as a source of traffic conflicts between automobile and truck traffic. The petitioner has agreed to delete this driveway from the site plan. Additionally, the petitioner has agreed to modify the refuse areas to include a dumpster and a grease receptacle and to delete the two (2) proposed development signs at the northwest and southwest corners of the site. A variety of landscaping will be added to the eastern boundary of the site in conjunction with the wrought iron fence to buffer the residential area off Maddelein.

The Commission believes it is important to redesign the front facade of the building by adding architectural features and to accommodate a building overhang, which would provide a covered walkway. Many of the residents in the community walk to the various shopping destinations. Thus, it is important to provide facilities that will give patrons shelter from inclement weather in the winter as well as the sun in the summer. Also, the materials used for the screen wall and plaza should be light brown or light red brick to complement the nearby Walgreen's Drug store and Kroger Grocery Store.

In review of the Zoning Ordinance, 109

parking spaces are generally required for a building if 3,000 square feet were designated for carry-out restaurants and 17,000 square feet were retail space. The proposed plan provides 104. The loading area should contain two truck berths each sized 12 feet by 35 feet, while the current plan only indicates a single berth. The petitioner has agreed to provide the additional parking spaces and loading area. However, the site plan would not accommodate the required parking spaces if more than 3,000 square feet of space were occupied by a restaurant use. The petitioner desired the flexibility to increase the area devoted to restaurant uses to over 3,000 square feet. He and the Commission, therefore, agreed that such an increase could be allowed only if the total area of the building is decreased so that the general parking requirements of the Zoning Ordinances are still met.

As tenants have not been identified, the petitioner has not submitted specifications for business signage on the building. There is an area designated on each portion of the building facade to accommodate such signage. The Commission believes that the signage for each tenant should occupy no more than 40% of the designated sign face area. This percentage is in keeping with earlier analysis of business signage by Commission staff.

In accordance with the community's requests, the Commission agrees that tenants in the development should be prohibited from selling alcoholic beverages. Likewise, other uses such as check cashing stores and beer and wine stores should be excluded as potential tenants.

Lastly, the Planning and Development Department (P&DD) submitted a letter (Attachment B) stating that the proposal conforms to the recommended commercial land use designation and to the intent of the Master Plan of Policies for "GC" General Commercial.

## CONCLUSION AND RECOMMENDATION

Upon review and analysis of the development proposal, the City Planning Commission believes that a modification to the existing PD zoning classification is appropriate for this site. The petitioner has worked with the Commission and staff, P&DD and the community to address the concerns and issues that were identified. The petitioner has agreed to incorporate input of the aforementioned entities into the site plan.

The City Planning Commission, therefore, recommends approval of the proposed modification to the PD plans for the above-captioned area with the following conditions:

1. that the site plan be revised to show the following:
  - a. the building footprint of the proposed building be moved southward with-

in 14 feet of the property line along E. Seven Mile Rd.;

b. the addition of landscaping along the north side of the building along Maddelein;

c. extension of the proposed sidewalk in the front of the building to the property lines on Maddelein and E. Seven Mile Rd. to provide a pathway for pedestrians;

d. deletion of the proposed 36-inch high brick screen fence south of the building;

e. the inclusion of pedestrian access from the proposed plaza to the building;

f. the expansion of the access driveways in the rear of the building off Maddelein and E. Seven Mile Road to a width of 30 feet;

g. the addition of 5 parking spaces for a minimum of 109 total spaces and two truck berths each sized 12 by 35 feet on the site;

h. the deletion of the westerly access driveway off Maddelein;

i. the expansion of the refuse area to accommodate a dumpster and a grease receptacle;

j. the deletion of the two proposed development signs; and

k. the addition of landscaping on the eastern boundary of the site along the relocated alley off Maddelein;

2. that the front elevation be revised to improve the architectural character by adding more detail and decorative design to the cornice or upper portion of the building and providing a building overhang for a covered walkway;

3. that no more than 3,000 square feet of the proposed 20,000 square foot retail-shopping plaza be occupied with restaurant uses; however the area devoted for restaurant uses may be increased above 3,000 square feet if the total area of the building is decreased to the extent that the Zoning Ordinance's general parking requirements for the total development are fulfilled;

4. that the business signage for each tenant occupy no more than 40% of the designated sign face area on the facade of the building;

5. that check cashing stores and beer and wine stores are prohibited as potential tenants in the development as well as any use selling alcoholic beverages;

6. that the proposed edge treatments and plaza area complement the existing and proposed developments in the area by utilizing light brown or light red brick; and

7. that the final site, landscaping plans and plans for the tower sign, plaza area and the building signage be submitted to the City Planning Commission staff for review and approval for consistency with preliminary plans approved by the City

Council prior to or at the time of application for a building permit.

Re: Modification of the Planned

Development District for Rite-Aid of

Michigan at Gratiot Avenue and

East Seven Mile.

**BACKGROUND**

The original site plan approved was for the construction of an 11,000 square foot Rite-Aid Store and an additional 5,000 square foot retail space. A.F. Jonna Development, L.L.C. seeks to modify the approved site plans to remove the Rite-Aid building and construct a total of 20,000 square feet retail space utilizing a similar site plan.

**PROPOSAL**

The proposed site plan is for the construction of a 20,000 square foot retail space at the northeast corner of Gratiot Avenue and East Seven Mile. The plan includes two curb cuts on East Seven Mile, one curb cut on Gratiot Avenue and a service curb cut on Maddelein Avenue. There are 105 parking spaces provided with the majority of the parking in the front of the building and employee parking at the rear. There is landscaping, brick walls and a small community gathering area located on the corner. There is a wrought iron type picket fence at the rear of the property with evergreen screening.

**RECOMMENDATION**

The Planning and Development Department recommends approval of this modification with conditions.

Condition #1: That this building is being built as speculative retail space, only a total of 25% of the gross floor area shall be reserved for fast food/carry-out restaurants or two retail outlets for food type establishments. However, standard restaurants are encouraged at this location and this calculation may be adjusted.

Condition #2: That no sale of alcohol be permitted at this site.

Condition #3: That the front elevation shall be unique in nature and include different planes, height, brick columns and a covered walkway in front of the retail space.

Condition #4: That the East Seven Mile elevation shall carry the same unique characteristics as the front elevation and include street level windows.

Condition #5: That there be striped pedestrian access from the transit location on Gratiot Avenue.

Condition #6: That the sidewalks with streetscape enhancements be removed and replaced with concrete.

Condition #7: That the low brick walls and landscaping at the edge of the site match the Walgreens site across Gratiot Avenue.

Condition #8: That all signs be of the same type and be uniform in size and location.

Condition #9: That the dumpster enclosure be large enough to accommodate a dumpster and grease receptacle.

Condition #10: That a sidewalk be provided from Maddelein Avenue to the site.

Re: **Master Plan of Policies** Review of a proposed retail development in the vicinity of Gratiot Avenue and East Seven Mile Road (Northeast corner).

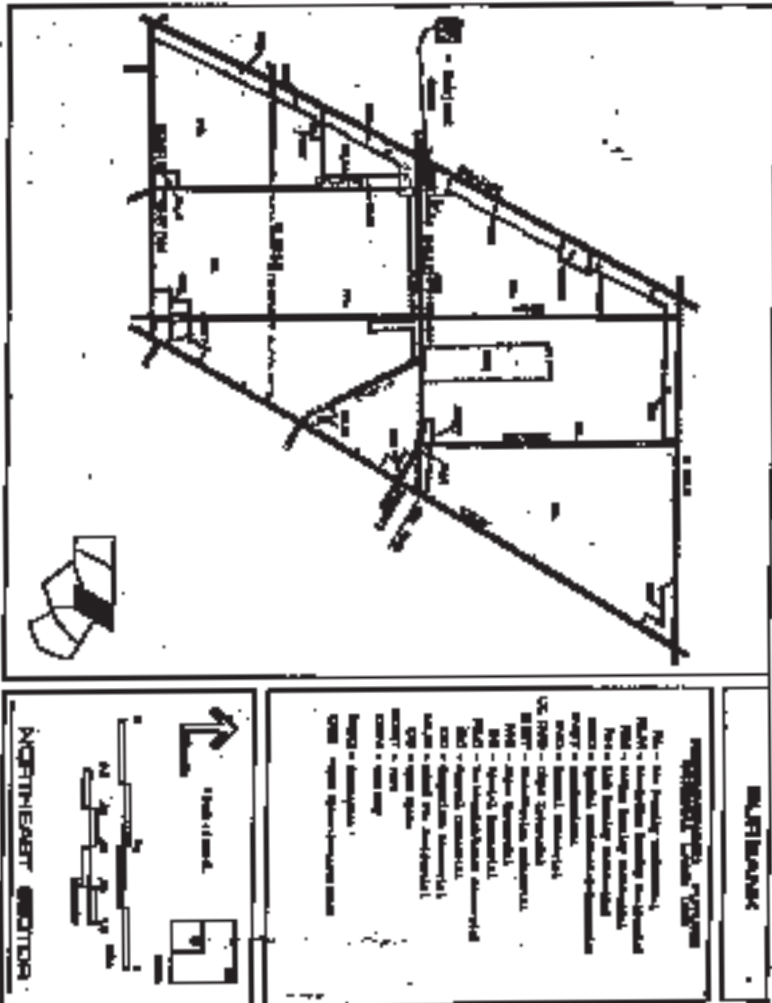

Dear Ms. Bruhn:

We have reviewed the site plan drawn by Serra & Associates and dated May 8, 2000 showing the construction of a

20,000 square foot retail-shopping plaza with 105 parking spaces proposed by AF Jonna Development, L.L.C. The developer has petitioned to modify the approved plans for an existing PD (Planned Development District) zoning classification located at the northeast corner of Gratiot and East Seven Mile to accommodate the aforementioned project. The approved plans for the presently existing PD zoning district call for the development of approximately 15,800 square feet of retail space, including a drug store with a drive-through pharmacy window and 78 parking spaces.

The subject area, which covers an area of approximately 1.7 acres, is shown on the attached map. The subject area is bounded by East Seven Mile Road, Gratiot Avenue, Maddelein Avenue, and the property lines of 14334 Maddelein and 14265 East Seven Mile. A **Master Plan** change (**Master Plan** Amendment #26) was made on February 10, 1999 to accommodate large-scale commercial activity at the major node of Gratiot/Seven Mile. As a result, the **Master Plan of Policies**, Northeast Sector, Burbank Subsector Map #306-11B, now shows the subject area is designated as "GC" General Commercial. The proposed development conforms to the recommended commercial land use designation and conforms to the intent of the **Master Plan of Policies** for "GC" General Commercial.

**City Planning Commission**

July 21, 2000

Honorable City Council:

Re: Planning & Development Department (Petition #2221) requesting the rescinding of encroachments, the vacation of certain streets and alleys or portions thereof and the establishment of various easements within the Compuware Development Site; and the Compuware Corporation Restated Development Agreement (Recommending Approval of Both Items).

The staff of the City Planning Commission has reviewed the above captioned items and offers this brief report of our findings and resulting recommendation.

**STREET/ALLEY VACATIONS, EASEMENTS, ETC.**

In summary, the resolution presented by the City Engineering Division seeks to extinguish as many existing encumbrances on or immediate to the Kern and Crowley blocks as are appropriate in order to have a "clean slate" to re-encumber the land to satisfy the needs and interests of both Compuware and the City of Detroit/DDA. This method is clear and simpler than modifying the existing encumbrances to meet the needs of this project. With the exception of Farmer Street, it would appear that those mechanisms commonly employed by the City have been used in this instance. The outright vacation of Farmer requires the creation of a public street easement in order for that portion of the street to look and function like a dedicated public street. The only other instance in the City where this is done is around the Renaissance Center where Beaubien and Renaissance Center Drives North and West establish a public street condition via a public street

easement. While this mechanism is rarely used, it is appropriate here, given the site-specific activities which would take place on, above, below and along this area, including service and loading, below grade parking facility and daycare above.

**DEVELOPMENT AGREEMENT**

Several physical and programmatic changes to the development and its surrounds have necessitated revision of the Development Agreement. Among these changes are a reduction in the number of floors in the Compuware building from sixteen to fifteen. An additional loading and service bay will be added to the Gratiot side of the building and the entire service area has been shifted east along that facade to provide for an express ramp to the below-grade parking. This should help to reduce traffic congestion during the morning peak hour by providing more stacking space for vehicles entering the site off of Gratiot. The below-grade parking was reduced from three levels to two, resulting in the addition of one level of parking to the above-grade portion of the Crowley block parking deck. Despite the addition, this change created a net loss of 400 parking spaces for phase I of the project. In total, these revisions either improve or have no real impact on the project as originally reviewed and approved.

**RECOMMENDATION**

City Planning Commission staff, having reviewed and being satisfied with Petition #2221 relating to street/alley vacations, easements, etc., and with the Restated Development Agreement with the Compuware Corporation, recommends approval of both items.

Honorable City Council:

Re: Petition No. 2221 — Planning and Development Department requests to rescind encroachments and for certain rights-of-way changes within the Compuware Development Site known as the Kern Block and Crowley Block, generally in the area bounded by Woodward, Gratiot, Randolph, Monroe and Campus Martius.

**Background**

The City Council of the City of Detroit ("Council") adopted a resolution on December 8, 1999 (J.C.C. pages 3402-06) authorizing execution of the Compuware Development Agreement and Land Transfer Agreements consistent with a Project Plan and Site Plan present-

ed to Detroit City Council as attachments to the Development Agreement. As set forth in correspondence from the Corporation Counsel to your Honorable Body together with a proposed resolution that have been submitted to your Honorable Body contemporaneously with this correspondence, the City of Detroit (the "City"), the City of Detroit Downtown Development Authority (the "DDA") and Compuware Corporation (the "Company") will execute a Restated Development Agreement. The Planning and Development Department ("P&DD"), as current trustee of the land, requires certain changes to public rights-of-way to finalize the preparation of the Compuware Project Site for redevelopment and to allow clear title to the land for the Compuware Project.

In the Restated Development Agreement, the City has agreed to convey to the DDA, and the DDA has agreed to then convey to the Company or its designated developer (the "Developer"), the Kern Block, the Crowley Block, the to-be-vacated Farmer St. and Library St. rights-of-way, and the to-be-vacated portions of the Campus Martius, Monroe, Woodward and Gratiot Avenues rights-of-way. Each is defined herein and is described in this resolution. In accordance with the Restated Development Agreement, and as a condition to selling the property, the City, the DDA, and the Developer will execute two easement agreements referred to in the attached resolution as the "Compuware Easement Agreement" and the "Farmer Street Easement Agreement." All of the above requested changes are subject to the execution of the two easement agreements and the Land Transfer Agreements. P&DD seeks the authorization to execute the Compuware Easement Agreement and the Farmer Street Easement Agreement.

Further, the City owns all public rights-of-way in the "Governor and Judges Plan" in fee. Therefore the deeds from the City to the DDA pursuant to the Restated Development Agreement will transfer the vacated rights-of-way along with the other land being conveyed. Such deed(s) will also be subject to the terms of the two easement agreements and the Land Transfer Agreements.

Finally, an amendment to the existing Easement Agreement between the City and the Detroit Transportation Corporation for the People Mover is required for implementation of the Compuware Project. P&DD also seeks authorization to execute the Amendment to the DTC Easement Agreement.

**Petition No. 2221**

C. The Public Lighting Department (PLD) has reported the following comments for the requested property changes contained in the Compuware World Headquarters Project Site:

"Easement B" [Zone B], The southeasterly portion of Gratiot between Farmer and the alley northeast of Library Street — The PLD has no objection to the proposed "Tieback" easement. PLD has underground facilities in the area and care must be taken to avoid disturbing them.

"Easement C" [Zone C], The north side of Monroe between Farmer and Randolph — The PLD has no objection to the proposed tieback easement; please take caution to avoid existing underground facilities located in this area. NOTE: The proposed underground parking garage will have an underground entry ramp in this easement. PLD will relocate their underground cable to accommodate this work. PLD's cost estimate is \$600,000.00.

"Easement H" [Zone H], a landscape easement into the eastern boundary of Woodward between Campus Martius and Gratiot — The PLD has underground facilities located within this proposed landscape easement. PLD has an estimated cost of \$80,000.00 to relocate their conduit and handholes to accommodate tree planters proposed for this area.

"Easement J" [Zone J], a 6.6 ft. wide landscape easement on the north side of

Monroe between Campus Martius and Randolph — The PLD is proposing new street lighting in this area and will require additional information as to the nature of the landscape work.

"Easement L" [Zones AD, K-3, K-4a, K-4b], the proposed vacation of Farmer Street and portions of Gratiot, Woodward, Campus Martius and Monroe — The PLD has underground facilities in the area where vacations are requested. PLD estimates their relocation costs to be \$600,000.00. Please note that the parking garage underground ramp cost is included in this estimate.

"Easement M" [Zone L], landscape easements on the south side of Gratiot between the alley east of Library Street and Farmer Street — The PLD has underground facilities and street lights located in the proposed landscape easements. PLD will require additional information about the landscape work before they can comment on the proposed easement. NOTE: PLD will require access to their facilities and if it becomes unavailable, then PLD must relocate their facilities at project cost.

In addition to the above comments PLD has the following general comments on this petition:

Our facilities located in the project site are in operational condition and must remain so. Any damage done to facilities during construction will be repaired at project cost.

All street lighting and traffic signal poles that must be removed temporarily removed or relocated due to construction work or new site geometric must be done at project cost.

Lighting on the "new" Farmer Street must conform to PLD and Illuminating Engineering Society (I.E.S.) Guidelines. If these guidelines are not met. Then the PLD will provide additional lighting at project cost.

The relocations of PLD underground conduit, cables and handholes to accommodate planter placement along Woodward are to be done at project cost. We estimate costs to be \$80,000.00.

We require a waiver of the rule that disallows overhead construction in the downtown area. For a period of 18 months, we will have temporary wood poles and overhead lines to reroute primary distribution cables in Farmer Street and in Monroe Avenue.

We have costs associated with man-hole enlargement and the permanent relocation of underground cables.

The PLD will require easement rights for access to the relocated cabinets that will be recessed in the new Compuware building. The recess will be located in the northwest corner of the Compuware building. This corner of the building is located at the southeast corner of Gratiot

and Woodward. The cabinets are for multiple street lighting, special events and traffic signals."

D. Detroit Edison Company (DeCo) has investigated the requested changes in public rights-of-way. The nature of their services and the estimated costs of removing and/or rerouting such services are as follows:

Easement "A" [Zone A]: DeCo has underground facilities in the area, along the northwest side of Monroe Street, in road right-of-way. DeCo does not object to the tieback easement, provided the following conditions are met. Tiebacks must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Easements "B" & "C" [Zones B & C]: DeCo has underground facilities in these areas. DeCo does not object to the tieback easements, provided the following conditions are met. Tiebacks must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Overhead Encroachment Zone "G": DeCo has underground facilities in the area, along the northwest side of Monroe Street, in road right-of-way. DeCo does not object to the overhead encroachment, provided the following conditions are met. Encroachment must not cause damage to DeCo facilities. DeCo must have 24-hour access to its facilities.

Easement "J" [Zone J]: DeCo has underground facilities in the area, along vacated Library St. extended. The removal of these facilities is addressed under the section titled "Proposed Vacation L" [Zones K-1, K-3, K-4a, K-4b, AD]. DeCo does not object to the landscape easement.

Easement "M" [Zone L]: DeCo objects to this change in property. DeCo has underground facilities in the area that could be damaged by the petitioners proposed landscaping.

Proposed Vacations "L" [Zones K-1, K-3, K-4a, K-4b, AD]: DeCo has underground facilities in the area. The cost to relocate these facilities is \$317,000.00."

E. Michigan Consolidated Gas Company (Mich Con) has reported the following involvement within the public rights-of-way:

Easement "B" [Zone B]: 34-ft. tieback easement easterly side of Gratiot. Gas main is 2" plastic main (10 psig) in 6" dead cast iron main from 5 ft. S/S Library St. north to Broadway at 15 ft. W/E Gratiot. This main is involved in the easement but is above proposed tiebacks.

MichCon has reported no objections to the other requested changes in public rights-of-way as proposed on drawing No. C-102.

F. Ameritech has reported the following involvement within the public rights-of-way:

Ameritech has reviewed the requested changes in public rights-of-way; records show that their facilities in the critical areas of development have already been abandoned. Ameritech does have cable in conduit along Woodward Ave. and along Gratiot Ave. To maintain the quality and reliability to our customers, it is imperative that the service not be disrupted during construction. Contact MISS DIG for cable staking before any underground work proceeds and throughout the Phase 1 development.

The proposed tiebacks for this project must not disturb the existing facilities. As discussed, the tiebacks will be at a point no less than 6 feet below our facility runs.

Ameritech has underground conduit in Woodward Avenue and must maintain full access along Woodward to manholes and conduit for maintenance and repair between Monroe and Gratiot.

Ameritech has underground conduit in Gratiot Avenue and must maintain full access along Gratiot to manholes and conduit for maintenance and repair.

G. In addition to the above requested changes in public rights-of-way, the Developer will be providing private easements to Comcast Cablevision of Detroit and Detroit Edison within vacated Farmer Street. This area will be within the underground parking structure, and will provide for a 24" x 24" Edison steam easement (Zone V) and a 4" Comcast conduit easement (Zone W).

H. All other City departments or privately owned utility companies have no objection to the proposed change in public rights-of-way or have confirmed that satisfactory arrangements have been made.

Please note that the responses set forth above are based on the original drawings submitted with the Petition. Representatives from City Engineering, P&DD, Compuware, and all potentially involved agencies and utility companies have been meeting on a weekly basis for the past several months to assure that satisfactory arrangements have been made regarding utility placements. At these meetings, all potential concerns have been raised and addressed. The attached resolution, together with the Farmer Street Easement Agreement, the Compuware Easement Agreement, and the Amendment to the DTC Easement Agreement described in this letter and the attached resolution, reflect the resolution of all concerns of all potentially involved agencies and utilities. Payment of any costs for relocating utilities will be handled in accordance with the terms of the Restated Development Agreement approved by your Honorable Body.

An appropriate resolution is attached for consideration by your Honorable Body. I am recommending adoption of the

attached resolution. A waiver of reconsideration is respectfully requested.

Respectfully submitted,

#### A. RESTRICTION

The grantee from the City of the Subject Area, and its successors and assigns (the "Owner")

(1) may use and occupy that portion of the Subject Area lying below grade elevation (the portion is the "Subsurface Area" and the grade elevation determines the "Surface" of the Subject Area) (i) for foundations, footings and structural support for improvements constructed below the Surface of the Project Site and on and above the Surface of that portion of the Project Site not including the Subject Area; and (ii) for ventilation ducts and systems, utilities and mechanical and electrical systems, for parking, for support of or connected with the uses described in (2) below and other similar functional lawful purposes as long as the use for any such purpose shall not interfere with the rights of the public to occupy and use the Surface of the Subject Area for pedestrian walkways as provided for in the Reservation herein;

(2) shall make no use of the Surface portion of the Subject Area for any purpose other than the installation, maintenance and replacement of (i) ventilation system exhaust grillwork; (ii) materials permitting the passage of natural light from above and the passage of artificial light from below, in each case with materials meeting Governmental Requirements as defined in the development Agreement serving the uses permitted in (1) above, and (iii) sidewalks in the area not occupied by the improvements described in (i) and (ii); and

(3) shall make no use of that portion of the Subject Area above the Surface (the "Above Surface Area") for any improvements except for (i) the purposes for which permits to encroach in the Public Rights-of-Way have been or may be issued, but subject to the terms and conditions of such permits; (ii) portions of the Building facade, consisting of the building materials structurally and architecturally integrated in the Building facade, in an area not to exceed one (1) foot into the

Above Surface Area from that portion of the Project Site not including the Subject Area, beginning not less than ten feet (10') above the Surface, and (iii) those canopies structurally made a part of the Building and occupying an area being not less than ten feet (10') nor more than twenty feet (20') above the Surface, subject to the further conditions of subsection (d) to this Section A,

it being acknowledged that the Subject Area was a portion of the public rights-of-way and is subject to the Reservation and the Reverter herein.

With respect to the foregoing, the following provisions shall apply:

(a) The improvements permitted within the Subsurface Area are the "Subsurface Improvements", the improvements permitted on the Surface are the "Surface Improvements" and those improvements permitted in the Above Surface Area are the "Above Surface Improvements." Collectively, the Subsurface Improvements, the Surface Improvements and the Above Surface Improvements are the "Subject Area Improvements."

(b) The Owner of the Subject Area shall construct and at all times maintain the Subject Area Improvements in a manner which shall permit the uses of Grantor provided for under the Reservation. The sidewalk portion of the Surface Improvements shall be constructed and maintained by Owner at no less than the standards generally required for sidewalks by the City as promulgated by the Department of Public Works or by ordinance of the City. Subject to approval of the City, Owner may install and maintain pavers or other special sidewalk surface treatment enhancing its adjacent development.

(c) The Owner shall have the right to access the Subsurface Area through the Surface, provided, however, that the Owner shall provide for barricades and protection of the area of the work from access by pedestrians and shall comply with those requirements of the City that would pertain to such work conducted in public rights-of-way, except that no bond shall be required for work solely within the Subject Area. The Owner shall not block pedestrian access over the Surface except in accordance with the ordinances of the City for temporary occupation of a public sidewalk, and shall obtain any permits therefor which would be required if the Surface were a part of the public sidewalk.

(d) The Owner shall design, install and construct, and at all times maintain, the Above Surface Improvements in a structurally sound and secure manner, and in good condition and repair. At no time shall any Above Surface Improvements become unsafe or unsound or pose any threat or danger to the public by reason of

their condition. The right to occupy the Above Surface Area is limited to the Above Surface Improvements specified in subsection A(3) above.

Upon a determination by the City agency having jurisdiction over public rights-of-way that the Above Surface Improvements are not in compliance with the requirements set forth above, the City may give notice in writing to Owner that any or all of the improvements and installations shall be brought to a condition complying with the requirements at Owner's sole cost and expense. If a determination has been made by the City that the Above Surface Improvements are not in compliance with the requirements of this subsection, Owner shall have a period of sixty (60) days (the "cure period") after notice in which to attempt to remedy the deficiencies determined by the City to exist. If at the end of the cure period the City finds that the Above Surface Improvements still do not meet the requirements of this subsection, a written notice of such determination shall be given to Owner, and after the expiration of ten (10) days from the date of the notice, the City may pursue the remedies it would have if the Above Surface Improvements had been permitted as "encroachments" into a public right-of-way.

(e) The Owner shall indemnify and hold the City harmless from and against all liability from claims and damages (and expenses in connection therewith, including reasonable attorney fees) to any person or property in or upon the Subject Area incurred by or asserted against the City alleged to have resulted from the existence of Owner's installations, improvements, activities and inactions within the Subject Area.

#### **B. RESERVATION**

Grantor reserves unto itself a perpetual and non-exclusive easement (i) upon the Surface for use by the public for sidewalk purposes for pedestrian traffic and (ii) within the Above Surface Area for open space subject to the provisions of Section A(3) above.

#### **C. REVERTER**

Because the Subject Area was a portion of public rights-of-way that has been vacated and conveyed by the City to enable development of the Land pursuant to the Development Agreement, the Subject Area shall revert to the grantor when the Land has not been or is no longer improved by the Building contemplated by the Development Agreement or its functionally equivalent replacement, or a building built on the same footings and foundations as the Building for which the use of the Subject Area is required for the purposes described in Part A for a period of five (5) consecutive years. If Owner does not voluntarily reconvey the Subject Area to the City upon the occurrence of

the described events, Grantor may file a written declaration with the Wayne County Register of Deeds following the expiration of thirty (30) days' written notice of intent to file to the then-record Owner of the Land. In the event Owner disputes the right of the City to claim reverter, during the notice period the Owner shall file an action to enjoin reversion in a court having jurisdiction of the subject matter and parties in Wayne County, Michigan, including the Federal District Court for the Eastern District of Michigan. After reversion of title to the City, the City may grant permits for encroachment of Subject Area Improvements, subject to permitting requirements and conditions at such time."

Provided, further, that the City of Detroit reserves an easement in the Subject Property for the City of Detroit Public Lighting Department ("PLD") to allow access to the PLD facilities control room located on the southeast corner of Gratiot and Woodward Avenues within the following described property:

Provided, that the vacations of rights-of-way set forth in this Resolution B shall not affect and shall be subject to (i) that certain easement granted to the Detroit Transportation Corporation ("DTC") for People Mover Station and Guideway (the "DTC Easement Agreement"), a memorandum of which is recorded in Liber 22786, Page 204, Wayne County Records, as amended by the Amended and Restated Grant of Easement between the City and the DTC (the "Amendment to the DTC Easement Agreement"); (ii) the grants of easements to install an underground "anchor system" as authorized by City Council on August 4, 1999, J.C.C. p. 2418, as recorded November 17, 1999 in Liber 30692, Page 8, Register Number 99101684, Wayne County Records; and (iii) the rights, if any, of the State of Michigan and the County of Wayne in the rights-of-way.

It is the intention of the City Council in adopting this Resolution B to vacate all interests in the rights-of-way described in this Resolution B, subject only to the specific reservations set forth in this Resolution B and the general conditions and reservations set forth in Resolution J.

**ARTICLE VI. ETHICS**

**DIVISION 1. GENERALLY**

**SEC. 2-6-1. STATEMENT OF PURPOSE.\***

PUBLIC SERVICE IS A PUBLIC TRUST. A POSITION OF PUBLIC TRUST SHOULD NEVER BE USED FOR PRIVATE GAIN AS DEFINED IN SECTION 2-6-3 OF THIS CODE. IN ORDER TO PROMOTE PUBLIC CONFIDENCE IN PUBLIC SERVANTS, TO PRESERVE THE INTEGRITY OF CITY GOVERNMENT, AND TO ESTABLISH CLEAR DISCLOSURE REQUIREMENTS AND STANDARDS OF CONDUCT FOR ALL PUBLIC SERVANTS OF THE CITY OF DETROIT, THE CITY OF DETROIT ENACTS THIS ARTICLE WHICH SHALL BE LIBERALLY CONSTRUED SO AS TO AVOID EVEN THE APPEARANCE OF IMPROPRIETY BY ITS PUBLIC SERVANTS SO THAT THE PUBLIC INTEREST IS PROTECTED.

**\*Commentary:**

This article is adopted in compliance with the directive of Section 2-106 of the 1997 Detroit City Charter, entitled "Standards of Conduct", that the City Council shall enact an article implementing its provisions. Furthermore, a review of the best practices of the federal, state and municipal governments reveal that most jurisdictions have enacted codes governing the standards of conduct for elected and appointed public officials as well as employees.

The integrity of City government and public trust and confidence in public officers and employees require that public servants be independent, impartial and responsible to the People; that government decisions and policy be made within the proper channels of the governmental system; and that public office not be used for personal gain. The purpose of this article is to establish guidelines for ethical standards of conduct for all City government officials and employees by defining those acts or actions that are incompatible with the best interests of the City and by mandating disclosure by public servants of private financial or other interests in matters affecting the City.

Although the article addresses the subject matters set forth in Section 2-106, it cannot by its terms and provisions specifically address every conceivable circumstance, situation or question that may raise an ethical consideration in the course of City government. Of course, every situation or issue arising under the article must be evaluated based on its individual merits. However, the article is intended to declare integrity in governmental decision making, operations and processes as a fundamental value and policy of City government to which all public servants in City government should strive to adhere at all times. To underscore the paramount importance of this policy, the article should be liberally construed so as to fully protect the public interest, and to effectuate the directive of Section 2-106 that the article shall prohibit actions by elective officers, appointees or employees which create the appearance of impropriety.

**\*Commentary:**

*Domestic Partner:* The inclusion of "domestic partner" relationships in the scope of coverage of this article is based on the reality that there are certain close personal, often intimate relationships involving non-married public servants which are tantamount or equivalent to the personal relationships which exist between legally married spouses. The potential for public servants to be influenced by or on behalf of partners involved with them in such "domestic partner" relationships or arrangements is just as real as the potential for public servants to be influenced by or on behalf of spouses in legal marriages or family members. This article does not adopt any position regarding the propriety of such non-marital relationships among domestic partners. However, for purposes of implementing standards for the conduct of public servants in the performance of their job duties for the City of Detroit, the article does attempt to include within its reach all public servants.

The definition of domestic partner included in this section is modeled on the definition of domestic partner contained in Division 2.5 of the Family Code, Article 9 of Chapter 1, Part 5 of Division 5 of Title 2 of the Government Code, and Section 1261 of the Health and Safety Code of the State of California, relating to the domestic partners.

*Private Gain:* Section 2-106 of the 1997 Detroit City Charter expressly prohibits the use of public office for private gain.

Accordingly, a major provision in this article is the prohibition against a public servant's acceptance or receipt of private gain as compensation for 1) the taking of an official action in a specific manner by the public servant (for example, a particular decision or vote in a specific manner), or refraining from the taking of an official action, as the result of an improper influence by another party; or 2) incentive or inducement for the public servant to act in favor of an interest other than the public interest. In the interest of maintaining honesty, integrity and impartiality in government, the goal of this provision is to ensure that public servants conduct government business in a manner that enhances public confidence and respect for City government, and places paramount importance on the public interest, rather than a public servant's own personal interest or the private interest of a third-party.

Improper influence upon a public servant's official actions refers to 1) any action that would constitute a violation of federal or state laws regulating the conduct of public officials, such as state law prohibiting the acceptance by any executive, legislative or judicial officer of a bribe (Section 118 of the Michigan Penal Code, being MCL 750.118; MSA 28.1287(8)); or 2) facts, events or circumstances which give rise to an appearance of impropriety in the taking of an official action by a public servant, when such facts, events or circumstances are considered objectively according to a reasonable person standard.

What constitutes private gain to a public servant may take many shapes and forms and may vary depending upon the facts and circumstances of a situation. Therefore, the above definition of private gain does not attempt to enumerate all forms or types of tangible economic gain, or circumstances or situations from which a public servant may derive tangible economic gain for himself or herself. Rather than attempt to list what is private gain that may not be accepted in all circumstances, the article attempts to illustrate for public servants the circumstances or types of remuneration, emoluments, gratuities or other items that a public servant may accept without violation of this article. The listing set forth in this section is based on the most typical situations which confront City public servants. However, this is not an exhaustive list, and there may be other types of economic benefit to a public servant that are permissible under this article.

Questions about what is permissible under this article should be directed to the Board of Ethics created by Section 2-106 of the 1997 Detroit City Charter, in accordance with the procedures set forth in Section 2-6-101 of this article regarding advisory opinions.

**\*Commentary:**

This provision prohibits a public servant from using his or her official position in violation of federal or state law, such as the state law prohibiting bribery, being MCL 750.118; MSA 28.1287(8); the state law regulating conflicts of interest pertaining to public contracts involving public servants under the Michigan Contracts of Public Servants with Public Entities Act, being MCL 15.310 *et seq*; MSA 4.1700(30) *et seq*; the state law regulating political campaign organizations under the Michigan Campaign Finance Act, being MCL 169.201; MSA 4.1703(1) *et seq*; and the provisions of the Michigan Gaming Control & Revenue Act prohibiting a government official from soliciting or knowingly accepting anything of value or benefit from a casino licensee in return for influencing official action (see MCL 432.218(2)(c) and (d); MSA 18.969(218)(2)(c) and (d)).

This section also prohibits a public servant from accepting a private gain for the purpose of the exercise by the public servant of improper influence upon a decision by another public servant, namely the Mayor, the City Council, the City Clerk, or a member of a city authority, board, commission, committee, council, or other city agency. The provision covers all authorities, boards, commissions and committees established by state law, the Detroit City Charter or the Detroit City Code, including such City entities as the Board of Zoning Appeals, the Detroit City Planning Commission, the Detroit Building Authority, the Detroit Historic District Commission, and the Board of Assessors, as well as advisory task forces that are responsible for assisting in the formulation of public policy.

Improper influence as used in this section refers to 1) any action that would constitute a violation of federal or state laws, or this article, regulating the conduct of

public officials; or 2) facts, events or circumstances which give rise to an appearance of impropriety in official conduct, when such facts, events or circumstances are considered objectively according to a reasonable person standard.

The prohibition in the article is not intended to prevent a public servant from giving advice or seeking information as a necessary part of the public servant's duties, or from communicating with a City agency in the ordinary course of the City's business. Nor is this prohibition intended to chill a public servant's free speech rights under the First Amendment to the United States Constitution or under Article I, Section 5 of the 1963 Michigan Constitution where the public servant is expressing his or her views to another City public servant or before a City agency in a non-official capacity.

**\*Commentary:**

Section 2-106 of the 1997 Detroit City Charter requires that the Board of Ethics issue advisory opinions regarding the meaning and application of the Charter, city ordinances or other laws or regulations establishing standards of conduct for public servants. Aside from this Charter mandate, Section 2-6-103(A) of the article arises out of the recognition that public servants can best conform their official conduct to the ethical standards set forth in this article if they understand these standards and how they apply in the everyday conduct of governmental business. Accordingly, it is the policy of this article to promote the submission by public servants of questions and issues they may have concerning the content and application of this article to the Board of Ethics for advisory opinions where necessary. In furtherance of this policy, and the fundamental goal of integrity in government, public servants must be immune from fear of retaliation for seeking legitimate advisory informa-

tion from the Board of Ethics about the application of the article. Accordingly, the article prohibits retaliation against a public servant who requests an advisory opinion from the Board of Ethics.

Section 2-6-103(B) arises out of the parallel recognition that, despite the salutary objectives of this article, some individuals may nevertheless attempt to misuse and abuse its advisory opinion provisions for improper or bad faith motivations that have as their goal the infliction of harm or damage upon other public servants and their reputations. Accordingly, the article prohibits use of this article for the purpose of harassment of another public servant. For purposes of this article, harassment is defined as the assertion by a public servant in a request for an advisory opinion of a false or frivolous allegation of violation of this article by another public servant, where the public servant who seeks the advisory opinion knows of the falsity of the assertion or makes the false assertion with a reckless disregard for its truth or falsity, that is, has no reasonable basis for believing in the truthfulness of the assertion.

An aggrieved public servant, former public servant, or applicant or candidate to be a public servant may file a complaint with the Board of Ethics against another public servant who has made a false allegation or assertion against him or her in an advisory opinion request for the purpose of harassment, which itself would be a violation of this section of the article.

**SEC. 2-6-104. DISPOSITION OF OPINION REQUESTS.**

(A) THE BOARD OF ETHICS SHALL DISPOSE OF AN OPINION REQUEST WITHIN NINETY-ONE (91) DAYS AFTER ITS RECEIPT OF SUCH REQUEST; HOWEVER, UNDER EXTRAORDINARY CIRCUMSTANCES, AS DEFINED IN SECTION 2-6-3 OF THIS CODE, THE BOARD MAY EXTEND ITS TIME TO RESPOND TO A SPECIFIC REQUEST BY NOT MORE THAN THIRTY-FIVE (35) ADDITIONAL DAYS. IN THE EVENT THE BOARD EXTENDS ITS TIME TO RESPOND TO A REQUEST, THE BOARD SHALL NOTIFY, IN WRITING, THE REQUESTER OF THE EXTENSION AND OF THE SPECIFIC REASONS THEREFOR.

(B) THE BOARD OF ETHICS SHALL DISPOSE OF A REQUEST FOR AN ADVISORY OPINION IN ONE (1) OF THE FOLLOWING WAYS:

(1) DENY THE REQUEST WHERE THE REQUEST DOES NOT RELATE TO THIS ARTICLE; OR

(2) DECLINE TO ISSUE AN ADVISORY OPINION WHERE THE BOARD DETERMINES THAT THE REQUEST DOES NOT MERIT REVIEW BY THE BOARD; OR

(3) ISSUE AN ADVISORY OPINION IN RESPONSE TO THE REQUEST.

**\*Commentary:**

Section 2-6-104(B) recognizes the discretion the Board of Ethics has in addressing advisory opinion requests in the manner that it deems appropriate. In particular, the Board has discretion to decline to issue an advisory opinion where the request does not actually relate to the subject matter of the article; or where the Board determines that the request does not otherwise merit review by the Board, such as where the Board determines that the request is frivolous in nature, or where the request does not present sufficient facts or information to enable the Board to formulate appropriate advice.

(C) SUCH A COMPLAINT SHALL BE FILED WITHIN SIX (6) MONTHS FROM THE DATE THAT THE COMPLAINANT(S) KNEW OR SHOULD HAVE KNOWN OF THE ACTION THAT IS ALLEGED TO BE A VIOLATION OF THIS ARTICLE, AND IN NO EVENT SHALL THE BOARD OF ETHICS CONSIDER A COMPLAINT WHICH HAS BEEN FILED MORE THAN TWO (2) YEARS AFTER A VIOLATION OF THIS ARTICLE IS ALLEGED TO HAVE OCCURRED.

**SEC. 2-6-112. RETALIATION AND HARASSMENT PROHIBITED.\***

(A) IT SHALL BE A VIOLATION OF THIS ARTICLE FOR ANY PUBLIC SERVANT TO RETALIATE AGAINST ANY INDIVIDUAL WHO FILES A COMPLAINT WITH THE BOARD OF ETHICS ON THE BASIS THAT THE INDIVIDUAL HAS FILED THE COMPLAINT.

(B) IT SHALL BE A VIOLATION OF THIS ARTICLE FOR AN INDIVIDUAL TO USE THIS ARTICLE TO HARASS A PUBLIC SERVANT BY FILING A COMPLAINT WITH KNOWLEDGE OF ITS FALSITY

OR WITH RECKLESS DISREGARD FOR ITS TRUTH OR FALSITY.

**\*Commentary:**

Section 2-6-112(A) arises out of the recognition that the entire public as well as all public servants must be vigilant in promoting and safeguarding ethical practices in the conduct of government business. As a mechanism for the enforcement of the article's provisions, Section 2-6-111 allows any person or member of the public as well as any public servant to file a complaint with the Board of Ethics where the person believes that a public servant has violated this article. Not only will the availability of the complaint procedure serve as a vehicle for enforcement of the article's code of conduct, but it is also intended to serve as a substantial deterrent to conduct or practices which violate the article. In furtherance of this policy, and the fundamental goal of integrity in government, individuals must be immune from fear of retaliation for filing of legitimate complaints asserting violation of the article. Accordingly, Section 2-6-112(A) prohibits retaliation against an individual who files a complaint against a public servant with the Board of Ethics.

Section 2-6-112(B) arises out of the parallel recognition that, despite the salutary objectives of the article, some individuals may nevertheless attempt to misuse and abuse its enforcement provisions for improper or bad faith motivations that have as their goal the infliction of harm or damage upon other public servants and their reputations. Accordingly, Section 2-6-112(B) prohibits use of the article's complaint procedure for the purpose of harassment of another public servant. For purposes of this article, harassment is defined as the assertion by an individual of a false or frivolous complaint of violation of this article by a public servant where the person making the complaint knows of the falsity of the assertion or makes the false assertion with a reckless disregard for its truth or falsity, that is, has no reasonable basis for believing in the truthfulness of the complaint.

**SEC. 2-6-113. COMMUNICATIONS WITH THE BOARD REGARDING A COMPLAINT IN THE ABSENCE OF THE COMPLAINANT, RESPONDENT, OR HIS OR HER RESPECTIVE COUNSEL PROHIBITED.**

(A) AFTER A COMPLAINT HAS BEEN FILED AND DURING ITS PENDENCY BEFORE THE BOARD OF ETHICS, NO MEMBER OF THE BOARD MAY COMMUNICATE REGARDING THE COMPLAINT DIRECTLY OR INDIRECTLY WITH ANY COMPLAINANT, RESPONDENT, OR HIS OR HER RESPECTIVE COUNSEL, IN THE ABSENCE OF THE OPPOSING PARTY, EXCEPT THAT:

(1) THE MEMBERS OF THE BOARD MAY DISCUSS THE COMPLAINT WITH THEIR STAFF, AND MAY OBTAIN LEGAL ADVICE FROM THE LAW DEPARTMENT OR FROM OUTSIDE COUNSEL APPOINTED BY THE LAW DEPARTMENT;

(2) THE MEMBERS OF THE BOARD MAY DISCUSS THE COMPLAINT AT A LAWFULLY CONDUCTED MEETING; AND

(3) THE BOARD'S STAFF MEMBERS MAY ENGAGE IN COMMUNICATIONS NECESSARY TO INVESTIGATE A COMPLAINT.

(B) WHERE ANY COMPLAINANT OR RESPONDENT, OR HIS OR HER RESPECTIVE COUNSEL, ATTEMPTS TO COMMUNICATE WITH A MEMBER OF THE BOARD OF ETHICS REGARDING A PENDING COMPLAINT IN THE ABSENCE OF THE OPPOSING PARTY, THE BOARD MEMBER SHALL REPORT THE SUBSTANCE OF THE COMMUNICATION TO THE BOARD ON THE PUBLIC RECORD AT THE NEXT REGULAR MEETING OF THE BOARD.

**SEC. 2-6-114. RUNNING OF LIMITATIONS OF ACTION; PROCESSING COMPLAINTS.**

(1) DISMISS THE COMPLAINT BASED ON ANY OF THE FOLLOWING GROUNDS:

(i) THE BOARD HAS NO JURISDICTION OVER THE MATTER; OR

**\*Commentary:**

Where the Board of Ethics has determined, after disposition of a complaint pursuant to Section 2-6-115, that the article has been violated by the conduct complained of, the public servant against whom the complaint was made may 1) be entitled to reasonable attorney fees incurred in the defense against the complaint, as provided for in Section 2-6-117, where the Board has also found that the public servant against whom the complaint was filed acted in the good faith performance of his or her duties, 2) file a complaint against the original complainant for violation of the prohibition at Section 2-6-112(B) against use of the article for harassment, and/or 3) file a civil action for defamation against the original complainant.

To constitute harassment in violation of Section 2-6-112 of this article, the complainant must have filed the complaint with knowledge of its falsity or with reckless disregard of its truth or falsity. Beyond the determination of whether the conduct complained of constitutes a violation of the article, the Board may, upon its own determination or in response to a request by the public servant against whom the complaint was filed, make the separate determination as to whether the complaint was filed with knowledge of its falsity or with reckless disregard for its truth or falsity.

**SEC. 2-6-116. VIOLATIONS OF ARTICLE; BOARD PERMITTED TO MAKE PUBLIC ADMONITION AND TO REFER FINDINGS; CUMULATIVE EFFECT.\***

(A) IN THE EVENT THE BOARD OF ETHICS DETERMINES THAT A VIOLATION OF THIS ARTICLE HAS OCCURRED, THE BOARD MAY ADOPT A RESOLUTION OF PUBLIC ADMONITION AGAINST THE MAYOR, A CITY COUNCIL MEMBER, THE CITY CLERK, OR AN APPOINTEE REGARDING THE VIOLATION. IN ADDITION, WHERE, BASED UPON AN INVESTIGATION ARISING FROM A COMPLAINT, THE BOARD OF ETHICS DETERMINES THAT THERE MAY BE GROUNDS FOR FURTHER INVESTIGATION FOR POSSIBLE FORFEITURE OF OR REMOVAL FROM OFFICE UNDER SECTIONS 2-107(2) OF THE 1997 DETROIT CITY CHARTER AND APPLICABLE LAW, THE MATTER MAY BE REFERRED BY THE BOARD TO THE CITY COUNCIL FOR CONSIDERATION OF FORFEITURE OR REMOVAL PROCEEDINGS IN ACCORDANCE WITH SECTION 2-107(2) OF THE 1997 DETROIT CITY CHARTER.

(B) IN THE EVENT THE BOARD OF ETHICS DETERMINES THAT A VIOLATION OF THIS ARTICLE HAS OCCURRED, THE BOARD MAY ADOPT A RESOLUTION OF PUBLIC ADMONITION AGAINST A PUBLIC SERVANT OTHER THAN THE MAYOR, A CITY COUNCIL MEMBER, THE CITY CLERK OR AN APPOINTEE REGARDING THE VIOLATION. IN ADDITION, WHERE THE BOARD OF ETHICS DETERMINES THAT A VIOLATION OF THIS ARTICLE BY SUCH PUBLIC SERVANT MAY PRESENT GROUNDS FOR DISCIPLINARY ACTION, THE MATTER MAY BE REFERRED BY THE BOARD TO SUCH PUBLIC SERVANT'S SUPERVISOR WITH A RECOMMENDATION THAT THE PUBLIC SERVANT'S CONDUCT BE REVIEWED FOR DISCIPLINARY ACTION. ANY SUCH DISCIPLINARY ACTION MUST BE CARRIED OUT IN ACCORDANCE WITH THE PROVISIONS OF THE 1997 DETROIT CITY CHARTER AND OTHER LAWS, POLICIES AND

PROCEDURES THAT ARE APPLICABLE TO THE POSITION OF THE PUBLIC SERVANT AND WITH THE GRAVITY OF THE OFFENSE.

(C) WHERE THE BOARD OF ETHICS FINDS THAT A DECISION OF THE MAYOR, THE CITY COUNCIL, THE CITY CLERK, AN APPOINTEE, OR OTHER PUBLIC SERVANT WAS MADE IN VIOLATION OF THIS ARTICLE, THE BOARD MAY RECOMMEND TO THE MAYOR, THE CITY COUNCIL, THE CITY CLERK, AN APPOINTEE, OR OTHER PUBLIC SERVANT THAT SUCH DECISION BE REVIEWED IN ACCORDANCE WITH THE APPLICABLE PROVISIONS OF THE 1997 DETROIT CITY CHARTER AND THIS CODE. UPON SUCH RECOMMENDATION, THE DECISION MAY BE REVIEWED BY THE MAYOR, THE CITY COUNCIL, THE CITY CLERK, APPOINTEE, OR OTHER PUBLIC SERVANT IN ACCORDANCE WITH THE APPLICABLE PROVISIONS OF THE 1997 DETROIT CITY CHARTER, THIS CODE, AND ANY OTHER APPLICABLE LAWS.

(D) WHERE THE BOARD OF ETHICS DETERMINES THAT AN EXISTING CITY CONTRACT HAS BEEN ENTERED INTO IN VIOLATION OF THE PROVISIONS OF THIS ARTICLE, AFTER SUCH DETERMINATION AND RECOMMENDATION FROM THE BOARD, THE CITY MAY VOID OR SEEK TERMINATION OF THE CONTRACT WHERE LEGALLY PERMISSIBLE.

(E) THE INVOCATION OF ONE SUBSECTION OF THIS SECTION DOES NOT PRECLUDE THE APPLICATION OF ANY OTHER SUBSECTION OF THIS SECTION OR OF ANY OTHER APPLICABLE LAWS OR POLICIES.

**\*Commentary:**

Section 2-106 of the 1997 Detroit City Charter directs that the code of governmental conduct enacted by the City Council in ordinance form shall contain appropriate penalties for violations of its provisions. Section 2-6-116 sets forth these potential penalties.

Section 2-6-116(A) of the article establishes public admonition as a punishment for violation of the article by an elected official or appointee. In addition, information discovered by the Board in the course of investigation of a complaint against an elected official or appointee may reveal circumstances which may constitute the basis for forfeiture of or removal from office under Section 2-107(2) of the 1997 Detroit City Charter. Inasmuch as this Charter section confers upon the City Council rather than the Board of Ethics the authority to decide whether the circumstances for forfeiture or removal from office exist, Section 2-6-116 of the article provides that the Board may refer a mat-

ter to the City Council for investigation and consideration where a Board investigation reveals a possible basis for forfeiture under the Charter or applicable law.

Section 2-6-116(B) likewise makes public admonition available to the Board of Ethics as a penalty for violation of the article by a public servant other than an elected official or appointee, such as a City employee. It is also recognized that a violation of the article by such a public servant may constitute grounds for disciplinary action against the public servant. Although the Board of Ethics is not empowered by the Charter to impose discipline upon a public servant, the Board may refer a proven violation by the public servant to the appropriate City official and/or supervisor who has the authority to consider and impose discipline. Any disciplinary action based on a violation of this article must be consistent with the provisions of the Charter and any other laws, policies or procedures that may apply to the public servant, such as the City's Civil Service rules or collective bargaining agreements.

Section 2-6-116(C) recognizes that a decision which was made in violation of this article may warrant review by the appropriate public officials. Whether or not such decision may be subject to reconsideration or reversal will depend upon the facts and circumstances of the situation and the application of relevant law.

**SEC. 2-6-117. REIMBURSEMENT OF REASONABLE ATTORNEY FEES TO A PUBLIC SERVANT.\***

(A) IN ACCORDANCE WITH MICHIGAN COMMON LAW AND WITHIN THE STRICTURES OF SUBSECTIONS (B), (C) AND (D) OF THIS SECTION, THE BOARD OF ETHICS SHALL REIMBURSE A PUBLIC SERVANT FROM THE CITY'S GENERAL FUNDS FOR REASONABLE ATTORNEY FEES WHICH ARE INCURRED IN THE DEFENSE OF A COMPLAINT FILED AGAINST HIM OR HER UNDER SECTION 2-6-111 OF THIS CODE WHERE THE BOARD DETERMINES THAT, BASED UPON ALL FACTUAL FINDINGS FROM THE HEARING, THE PUBLIC SERVANT 1) ACTED IN THE GOOD FAITH PERFORMANCE OF HIS OR HER DUTIES, AND 2) DID NOT VIOLATE THIS ARTICLE.

(B) THE MAXIMUM REIMBURSEMENT FOR SUCH ATTORNEY FEES SHALL NOT BE GREATER THAN ONE HUNDRED FIFTY PERCENT (150%) OF THE HOURLY RATE THAT IS ESTABLISHED, PURSUANT TO 18 U.S.C. § 3006A(d), FOR THE PAYMENT OF APPOINTED COUNSEL FOR MATTERS ARISING IN THE UNITED STATES DISTRICT COURT FOR THE EASTERN DISTRICT OF MICHIGAN.

(C) WHEN DETERMINING THE

HOURLY RATE OF ATTORNEY FEES TO BE REIMBURSED TO A PUBLIC SERVANT UNDER SUBSECTION (A) OF THIS SECTION, THE BOARD SHALL CONSIDER THE FOLLOWING FACTORS: 1) THE PROFESSIONAL STANDING AND EXPERIENCE OF THE ATTORNEY; 2) THE SKILL, TIME, AND LABOR INVOLVED IN DEFENDING THE ETHICS COMPLAINT; AND 3) THE COMPLEXITY OF THE COMPLAINT.

(D) WHERE THE BOARD OF ETHICS DETERMINES THAT A PUBLIC SERVANT IS ENTITLED TO REIMBURSEMENT OF ATTORNEY FEES UNDER SUBSECTION (A) OF THIS SECTION, THE ADMINISTRATIVE RULES THAT ARE PROMULGATED PURSUANT TO SECTION 2-6-91 OF THIS CODE SHALL CONTROL THE PROCEDURE FOR SUBMISSION AND REVIEW OF RELEVANT DOCUMENTATION.

**\*Commentary:**

In spite of the salutary objectives of the article, some individuals may attempt to misuse it by making unjustified, false or frivolous charges of violation of the article by public servants. A public servant may expend substantial time and monetary resources in defending against a complaint, including attorney fees. This expenditure of resources may be compounded where a public servant is the unwitting target of and must defend against more than one baseless complaint. In recognition of this potential, this provision requires that the Board of Ethics grant an application for reimbursement of reasonable attorney fees incurred for the defense of a complaint where the Board determines that the public servant acted in good faith in the performance of his or her duties and did not violate the article.

The authorization for the use of the City's general funds for this purpose is rooted in Michigan common law which recognizes the discretionary power of a municipality to appropriate funds for the necessary expenses incurred by a public servant in defending against complaints arising out of the good faith performance of official duties. *Messmore v Kracht*, 172 Mich 120; 137 NW 549 (1912). See also, *City of Warren v Dannis*, 136 Mich App 651; 357 NW2d 731 (1984); 1976 OAG, No 4947, pp 349-350 (March 24, 1976) (concluding in favor of city reimbursing a public official for attorney fees incurred in defending against misconduct charges where official acted in good faith in discharging official duties); *accord, Ellison v Reid*, 397 So2d 352 (Fla App Div 1 1981) (affirming use of public funds to pay legal expenses of municipal official defending against claim of ethical misconduct).

The formula for attorney fee awards is adapted from the national rate which is used by the federal district courts to pay

appointed counsel in such courts. The discretion of the Board in determining the amount of attorney fees to be reimbursed must be exercised reasonably, according to the criteria set forth in Subsection (C) of this section.

**Section 4.** This ordinance is declared necessary to preserve the public peace, health, safety, and welfare of the People of the City of Detroit.

STATEMENT BY COUNCIL MEMBER  
NICHOLAS HOOD III IN SUPPORT OF  
INTRODUCING THE ETHICS  
ORDINANCE

With reservations I voted to support the introduction of the Ethics Ordinance in its current form. I wholeheartedly agree that legislation governing standards of conduct for every city employee is needed. In fact, the City is mandated by the 1997 City Charter to implement such rules. While the ordinance does begin the process of creating the Ethics Commission and prohibits employees from engaging in official duties for private gain, the ordinance in its current form, however, fails to address nepotism and post-employment hiring restrictions for City employees.

I believe elected officials and employees appointed by the mayor and city council should not be allowed to hire their

relatives, which may be construed as favoritism or a public servant using his or her position for private gain. Further, I believe that city employees should be prohibited from leaving the city to work for vendors who have contracts with the City. Looking from the outside in, one may think that a city worker inappropriately gave preference to a vendor that he or she later left the City to work for. Other cities including San Francisco and Dallas, Texas have adopted similar legislation that addresses nepotism and post-employment hiring restrictions. Thus, these proposals are not uncommon.

Although ethical standards may vary from person to person or group to group, the intent of the ordinance is to implement standards of conduct to ensure that employees, from the administration to garbage collection, avoid the appearance of impropriety. Public servants have the responsibility to protect the confidence and trust that the public has placed in us. Oftentimes public servants are the last resort for many people. I believe it is important that every transaction we engage in is void of impropriety, indiscretion or misconduct. Although it is sometimes difficult to legislate morality, we can insure that plausible standards of conduct are introduced to protect public servants, and to ultimately protect the public we serve.

Re: Request to Amend the 1999-2000 Official Compensation Schedule to Establish Pay rates for one new classification and to change the rates for an existing classification in the Assessments Division of the Finance Department.

A thorough study was done of the organization of the Assessments Division of the Finance Department. The result was a new classification scheme that was adopted on August 30, 1999.

Extensive review of the essential duties and responsibilities of the following classifications, the knowledge, skills and abilities required to perform such duties, and an analysis of the market data pertaining to salaries typically paid to employees performing this kind of work was done. The result is in the following recommendations:

Assessors Board Coordinator (06-10-45): Current \$46,600-\$50,000; New \$40,600-\$56,900.

Supervisor-Assessments Records and Administrative Services (06-10-48): Current NA; New \$44,200-\$62,000.

The Finance Department concurs with the recommendations and requests approval of the compensation rates.

 Re: Petition No. 1619 - JKM Roofing Enterprises, Inc., requesting to install permanent entrances at buildings located at 2971 Bellevue and adjacent property located at Bellevue and Benson.

Petition No. 1619 of "JKM Roofing Enterprises, Inc." at 2971 Bellevue, Detroit, Michigan 48207-3502, request to install and maintain encroachments into a portion of the westerly right-of-way line of Bellevue Avenue, 66 feet wide, south of Benson Avenue, 60 feet wide.

The encroachments consist of installing and maintaining one (1) concrete ramp, stairs and porch approximately 49' - 0" in length and 1' - 3" into the public right-of-way; one (1) stairs approximately 8' - 9" in length and 1' - 3" into the public right-of-way; one (1) porch and stairs approximately 9' - 8" in length 2' - 11" into the public right-of-way, (variable heights) with footings and foundations 1' - 0"x 3' - 6" below grade. Also, one (1) 6" x 4' - 6" steel pipe bollard filled with concrete and painted, approximately 2' - 0" into the public right-of-way, with footing and foundation 8"x 4' - 0" below grade.

Honorable City Council:

Re: Petition No. 2309 — Riviera Grand Properties, L.L.C., request for conversion of alley to easement in the

area of Grand River, Riviera and Ravenswood.

Petition No. 2309 of "Riviera Grand Properties, L.L.C.," requests the conversion of a portion of the north-south public alley, 20 & 30 feet wide, in the block bounded by Grand River Avenue, 100 feet wide, Yosemite Avenue, 50 feet wide, Ravenswood Avenue, 70 feet wide and Riviera Avenue, 60 feet wide into a private easement for public utilities.

The request was approved by the Solid Waste Division - DPW, and the Traffic Engineering Division - DPW. The petition was referred to the City Engineering Division - DPW for investigation (utility review) and report. This is our report.

The Detroit Water and Sewerage Department (DWSD) reports there is an existing 15" sewer in the portion of the alley abutting lot 5, vacated portion of alley, lots 9, 10, 11, 12 and 13 in the area bounded by Grand River Avenue, Yosemite Avenue, Ravenswood Avenue and Riviera Avenue. DWSD has no objection to the requested conversion to easement provided that the provisions of the attached resolution are followed.

All other city departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

**Water and Sewerage Department**

July 17, 2000

Honorable City Council

Re: Approval and Authorization to Purchase Property in the City of Detroit

The Detroit Water and Sewerage Department (DWSD) requests your approval and authorization to purchase two parcels of land totaling 1.72 acres in the City of Detroit at a cost of \$797,500.00. These parcels will be incorporated with 1.80 acres of land owned by

the City of Detroit, creating a site approximately 3.5 acres, which is property sufficient to accommodate construction of a new Administration Building.

Due to increased demand for fresh water and sewerage treatment services resulting from regional growth and rapidly changing technological requirements, DWSD facility needs have outgrown the existing administration building. Consequently, DWSD undertook a study to analyze its facility needs and operating efficiencies. The analysis was completed in June 1998.

The preliminary facility operating analysis and pro forma for the new Administrative facility identified areas where substantial overhead reduction would result from this initiative. This analysis also concluded that the con-

struction of a new consolidated DWSD administration facility would reduce the Department's current facility operating expenses and produce a saving of approximately \$1 Million annually over the first ten years of operation. It is furthermore important to note that considerable staff efficiencies will result from the consolidation and these have not been incorporated into this analysis.

On December 15, 1999, the Board of Water Commissioners passed a resolution to proceed forward with an acquisition of these parcels. The Offers to Purchase Real Estate have been accepted by the sellers.

The Board of Water Commissioners respectfully requests your Honorable Body adopt the attached resolution and authorize the Director to execute all documents related to the completion of this transaction.

Respectfully submitted,  
STEPHEN F. GORDEN

**STATEMENT REGARDING ETHICS ORDINANCE**

By PRESIDENT PRO-TEM MAHAFFEY:

I am pleased to sponsor the Ethics Ordinance, which was passed today. This ordinance fulfills the requirement of the 1997 Charter. In the summer of 1995, even before the adoption of the ethics provision of the 1997 Charter, I sponsored the resolution which established the Joint City Council/Mayoral Ethic Task Force. The work of the numerous people who worked diligently on the task force has resulted in our success today.

The Ordinance is comprehensive. The most expansive prohibition in the ordinance is Section 2-6-61, which prohibits a public servant from engaging in any act or omission in the discharge of his or her duty for private gain. "Private gain," in the definition section (Section 2-6-2), is defined broadly, not only to include any

benefit which is accepted or received by a public servant as remuneration for the purpose of improperly influencing an official action, but also any benefits which would be so perceived by a reasonable person. The Ordinance, in addition, gives specific guidance to public servants as to what conduct is acceptable.

The Ordinance does not cover the issue of campaign contributions, except to mandate that campaign disclosure laws have to be followed. The issue of campaign contributions is almost exclusively covered by federal and state law. Also, attempts to limit campaign donations have been limited by Supreme Court decision, and there is little that a city can do in that area.

#### **ETHICS ORDINANCE NO VOTE STATEMENT**

By COUNCIL MEMBER SCOTT:

First, I support the Ethics Ordinance, as proposed by the Ethics Ordinance Task Force.

However, I find I must vote against it today because the 1997 City Charter created an unbalanced and inequitable Ethics Board make-up.

The Detroit City Council, recognizing this flaw, has carefully drafted a proposed Charter Amendment which will go on the November 2000 ballot. That amendment will create a balanced and equitable Ethics Board, with appointments from both the Legislative Branch and the Executive Branch.

Thus, I believe that this City would be better served by either:

(1) amending the current ordinance to prevent it from taking effect until after the Charter Amendment is voted on by the people (or)

(2) by simply deferring action on the ordinance until the voters have an opportunity to express their opinions on the proposed Charter Amendment involving the equipment composition of the Ethics Board.

Honorable City Council:

Re: Enron Broadband Services, Inc.  
Permit for Access to Public Rights of Way.

Please find attached a resolution to grant a permit to Enron Broadband Services, Inc., for access to and ongoing use of certain locations in the public rights of way. We are requesting that the Honorable City Council approve this resolution prior to its August recess.

Enron Broadband Services, Inc. ("Enron") is a wholly owned subsidiary of the Enron Corporation located in Houston, Texas. Enron is a public utility operating a nationwide fiber optic

telecommunications system providing long distance service. Enron is proposing to install an underground fiber optic telecommunications system consisting of eight (8) 1.5" O.D. conduits (innerducts), cables, handholes, cable markers and other appurtenances. The system will be underground and buried at a depth of 42"-48". Enron intends to own and operate the facilities.

The proposed fiber optic route will be installed within the railroad right of way from Milwaukee Junction, 1972 Clay Avenue, south to the intersection of the railroad right of way and Division Street. The route will proceed west on Division Street to Russell Street, south on Russell Street to Brewery Park.

If you should have any questions regarding this request, please contact Paula Gentius-Harris at 313-224-0364 or our outside counsel, Patrick Miles, at 616-336-6902.

Respectfully submitted,

CARLTON T. STANTON

Executive Director

By Council Member Hood:

Whereas, Public Act 216 of 1995 ("Act 216") requires telecommunications providers to obtain a permit from the City of Detroit for access to and ongoing use of public rights-of-way under the City's control and jurisdiction; and

Whereas, the City has adopted a Use of Public Ways by Telecommunications Providers Ordinance, Chapter 9.5, Sections 9.5-5-1 through 9.5-5-22 of the City Code, to regulate the access to and ongoing use of public ways by telecommunications providers; and

Whereas, Section 9.5-5-5 of the Ordinance provides that no person shall install, construct, maintain, repair, or operate a telecommunications system within the public ways, or use the public ways to provide telecommunications services, without a permit issued pursuant to the Ordinance; and

Whereas, Section 254 of Act 216 provides that "a provider using the highways, streets, alleys, or other public places, shall obtain a permit pursuant to Section 251" of that Act; and

Whereas, on or about June 22, 2000, Enron Broadband Services, Inc. filed a Permit Application for Access To and Ongoing Use of Public Ways; and

Whereas, Section 9.5-5-6 of the Ordinance requires an applicant to pay a non-refundable application fee in an amount established by ordinance or resolution of the City Council, such fee being designed to reimburse the City for costs of reviewing an application for a permit; and

Whereas, the City Council has not yet established an application fee and Enron Broadband Services, Inc. has not paid such fee; and

Whereas, Section 9.5-5-7 of the

Ordinance requires a Permittee to pay an annual fee in an amount established from time to time by ordinance or resolution of the City Council, and the City Council has not yet established such annual fee; and

Whereas, the City in adopting this resolution and in approving the permit, has relied on information and materials submitted and provided by Enron Broadband Services, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, then the City desires to reserve the right to amend, rescind, modify or otherwise limit this resolution;

Whereas, the City of Detroit Law Department has recommended that the City grant the application subject to conditions, namely payment of the application fee when the amount is set by the City Council, payment of the annual fees when established by City Council retroactive to the issuance date of the Permit, and posting of a bond in the form and amount acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Enron Broadband Services, Inc.'s access and use; and

Whereas, the City of Detroit hereby declares that it is necessary and desirable to protect the public health, safety, and welfare and to reasonably control the City's rights-of-way by granting a permit to Enron Broadband Services, Inc. subject to the conditions hereinafter set forth.

Now, Therefore, Be It Hereby Resolved, the City hereby approves of and grants a permit to Enron Broadband Services, Inc. in the form attached hereto for access to and ongoing use of the locations in the public rights-of-way of the City of Detroit specified in the permit, subject to the terms and conditions set forth in the Ordinance entitled Use of Public Ways by Telecommunications Providers and subject, without limitation, to the following conditions:

1. Payment of the application fee when it is set by the City Council.
2. Payment of annual fees when established by the City Council, retroactive to the date of the permit.
3. Posting of a bond in the amount of at least Fifty Thousand Dollars (\$50,000) and in a form acceptable to the Law Department and which amount shall not exceed the reasonable cost to ensure that the Public Ways are returned to their original condition during and after Enron Broadband Services, Inc.'s access and use.
4. The Permit is subject to the City of Detroit Engineering Department's review and approval and modification, if necessary, of the proposed routes and plans and Permittee shall not commence construction upon, over, across or under the

Public Ways or in the City without first obtaining a construction permit as required under Chapter 50 of the City Code, as amended, which shall apply to the construction of a Telecommunications System.

Be It Further Resolved, that acceptance of the permit by Enron Broadband Services, Inc. shall constitute an agreement that issuance of the permit is not a waiver of the City's right to enforce the Ordinance and Act 216 in any respect; and

Be It Further Resolved, that the permit hereby granted shall not constitute approval of the transfer to Enron Broadband Services, Inc. of any permits or authorizations granted by the City to others; and

Be It Further Resolved, the City in adopting this resolution and in approving the permit, has relied on information and materials submitted and provided by Enron Broadband Services, Inc., and to the extent any such information or materials are deemed by the City to be false, inaccurate, incomplete, or misleading, then the City reserves the right to amend, rescind, modify or otherwise limit this resolution; and

Be It Further Resolved, that in addition to all rights provided in the Ordinance, City reserves all rights under is police powers and rights and powers conferred by Federal law, the Michigan Constitution, Michigan statutes and decisions, the Charter, the City Code, and City ordinances which City is allowed to exercise, including the ability to amend this Permit from time to time; and

Be It Finally Resolved, that the City Council hereby waives reconsideration of this Resolution.

Honorable City Council:

Re: Capital Bond Authorization Proposals.

In order to continue the process of an orderly capital improvement program over the next several years, it will be necessary to seek approval from the electorate for additional bond authorizations.

The 2000-01 City budget includes an issue of \$45,000,000 to be sold during the fiscal year. The combination of prior authorizations and the proposed bond sale in the current budget leaves the City with only \$46,640,000 in voter authorized (but unissued) bonds for General City agencies. There exists an additional \$35,777,000 of authorized (but unissued) general obligation bonds, but \$24,000,000 of this amount was issued for sewer construction in 1960 (prior to that agency's ability to sell revenue bonds) and \$11,770,000 of authorized (but unissued) bonds that were appropriated in 1995 but not sold. The last time the City went to the electorate for voter authorization was in November, 1997 when \$143,000,000 was approved for capital projects.

Having reviewed those needs, I am submitting to your Honorable Body, six bond authorization proposals for inclusion on the November 7, 2000 General Election ballot. Specifically, I am requesting your approval for submission to the voters for a General Obligation Bond Authorization Program totaling \$171 million. This package addresses the City's capital needs in the areas of Economic Development; Public Lighting; Public Safety (Police, Fire and EMS); Recreation, Zoo and Cultural Institutions; Municipal Facilities and the Detroit Institute of Arts. The attached summary is an outline of tentatively proposed projects.

The attached resolutions will authorize the placement of these questions on the ballot. The approved package must be submitted to the City Clerk at least eighty-four (84) days prior to the election, which date is August 15, 2000, in order to be placed on the November 7, 2000 General Election ballot for consideration by the voters of the City of Detroit.

Respectfully submitted,  
DENNIS W. ARCHER  
Mayor
