Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, The Application relates to a program that when completed constitutes a project within the meaning of the Act and which is situated within the aforesaid City of Detroit Plant Rehabilitation District; and

Whereas, The project includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the project as provided by the Act; and

Department of Elections

October 3, 2012

Honorable City Council:

Re: November 6, 2012 Presidential Election Budget Amendment Request.

As you are aware, on November 6, 2012 a General Election has been scheduled to elect the President and Vice-President of the United States and other federal, state and local offices. Eighteen (18) state, county, city and school district proposals will also appear on the ballot. As such, the Department of Elections is requesting, through a budget amendment, additional funding in the amount of

\$425,000 to meet unexpected requirements associated with administering the aforementioned election.

For the first time in Detroit, electors will be receiving two ballots to vote. This phenomenon has forced the department to double its administrative efforts to meet legally mandated requirements. Stuffing and mailing absentee voter ballots; marking ballots and testing Automarks (ADA voting equipment); testing M100 voting machines; voter education; additional instructional supplies; etc. has forced the Department to increase its human resources and man hours to ensure that all goals and objectives are met.

Also, on Election Day, the Department will be making certain that voters who wait in line have a draft of the 18 ballot proposals so they may peruse through and decide on each before voting the actual ballot. This effort requires more manpower and the advantage is that it will cut down on the voting time required by the elector in each booth.

The Department has been extremely conservative in spending its dollars. As you are aware, the Department originally submitted a 2012/13 NTC budget request of \$8,560,248. Our approved budget was for \$7,358,565 (\$1,147,683 less than what we requested). At this present moment, however, a \$425,000 budget amendment is necessary to meet all legal mandates of an election of this magnitude.

Your immediate attention to this request is greatly appreciated.

Respectfully submitted,
 DANIEL A. BAXTER
 Director of Elections

Approved:
 FLOYD STANLEY
 Deputy Budget Director
 CHERYL R. JOHNSON
 Finance Director

By Council Member Jones:
 Resolved, That the Detroit Department of Elections be and is hereby authorized to accept, appropriate and amend Appropriation Number 00181 for November 6, 2012, Presidential General Election, and receive funding through a budget amendment in the amount of \$425,000 to administer the Presidential General Election

Increase Appropriation No.	
00181 Conduct of Elections	\$425,000

Petition No. 2235 of "Majority Owners of Slows Bar-B-Q", requests for the outright vacation of a portion of Vernor Highway (Deeded on January 31, 1925 — J.C.C. Page 429, variable width, at the intersection of 14th Avenue, 80 feet wide, and Michigan Avenue, 120 feet wide. This area will accommodate an out door seating area for our growing customer base.

The request was approved by the Planning and Development Department, the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility clearance) and report. This is our report.

The Public Lighting Department (PLD) reports having high voltage underground Primary and Street lighting circuits running in the said requested vacation area. If necessary for the removing and/or rerouting of PLD's facilities must be done at petitioners/owners/project expense.

The petitioner has on file with City Engineering Division — DPW a letter time stamp August 16, 2012 stating that if it is necessary for the removal and rerouting of any such utilities the petitioner/owners (Slows Bar-B-Q) will pay the entire cost.

OF DETROIT REGARDING THE
DETROIT WATER AND SEWERAGE
DEPARTMENT**

By COUNCIL MEMBER WATSON:

WHEREAS, The supervision of the Detroit Water and Sewerage Department (DWSD) by Judge Sean Cox is pursuant

to a lawsuit by the United States Environmental Protection Agency (EPA); and

WHEREAS, The EPA has filed a pleading (copy attached) before Judge Cox requesting that he not take any action that would open the way for the DWSD to initiate implementation of the Court's proposal for drastic staff reductions for forty-five days while EPA evaluates the potential impacts of such action with respect to Clean Water Act issues; THEREFORE BE IT

RESOLVED, That pursuant to its duty to protect the public health, the Detroit City Council supports the pleading "Notice" of the United State of America.

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF MICHIGAN
SOUTHERN DIVISION

United States of America, Plaintiff, vs.
City of Detroit, *et al.*, Defendants.

Honorable Sean F. Cox
Case No. 77-71100

**NOTICE OF THE UNITED STATES
REGARDING THE DWSD'S MOTION
FOR INTERIM ORDER**

The United States of America, on behalf of the United States Environmental Protection Agency ("EPA"), hereby notifies the Court and Parties as follows in regard to the DWSD's Motion for Interim Order:

The Michigan Department of Environmental Quality ("MDEQ") recently informed EPA about a proposal that the Detroit Water and Sewerage Department ("DWSD") was considering that recommended, *inter alia*, a dramatic reduction in staffing levels within DWSD's wastewater treatment plant and combined sewer overflow operations. EPA has not had the opportunity to review and evaluate the potential effect and implications of the proposal on DWSD's compliance with the Clean Water Act, 33 U.S.C. §§ 1251 *et seq.*, and its NPDES permit, including the operation and maintenance requirements contained therein. To the extent that actions by this Court on DWSD's Motion for Interim Order may open the way for DWSD's initiation of the implementation of that proposal, EPA seeks to notify this Court and the parties of its interest in having the opportunity to meaningful undertake an evaluation of the proposal prior to any such action.

During the period of its evaluation of the proposal, EPA plans to work with both MDEQ and DWSD. To that end, managers and staff from EPA already are planning to meet with managers and staff from MDEQ on Tuesday, October 16, 2012, to discuss and evaluate the current situation. The meeting is intended to provide further clarification on a path forward.

With this notice, EPA is not taking any position on any aspect of the proposal before DWSD.

Accordingly, EPA seeks a period of forty-five (45) days to evaluate the potential impacts of the proposal on CWA compliance and asks this Court not to take any actions that would open the way for DWSD to initiate implementation of the proposal prior to that time. DWSD has not reported any violations of its NPDES numeric limitations on solids since November, 2011 and has not reported any other NPDES numeric effluent limitation violations since March of this year. Therefore, nothing in the record would indicate that immediate commencement of the implementation of the proposal is required.

MEMBER REPORTS

Council President Charles Pugh: The Evening Community Meeting is tonight at 7:00 p.m. Tabernacle Missionary Baptist Church at Grand River and Grand Blvd.

I will send a memo to Research and Analysis Division for Charter Related things that Council needs to do in terms of ordinances, policies, Council Rules and all of the functions that Council needs to do for Charter related matters.

Research and Analysis Division and Law Department are so directed.

The Marathon is this Sunday and I have doing the half Marathon which is on the Canadian side.

Council Member Gary Brown: I support getting information from the community. We should be in a room with Administration and the State because we need to come up with a plan that is negotiated between the three parties; the State, Mayor's office and this Body. It is not a good idea to develop a plan and throw it on the table and say take it or leave. If it is not possible, then we will vote the plan we have up or down. I think that will be a better way to handle the Belle Isle issue.

Council Member Saunteel Jenkins: On October 24, Member Tate and I will be sharing our Youth Violent Prevention Task Force Meeting at 7150 W. Vernor Hwy. in Southwest Detroit and we will be discussing college opportunities with emphasis on ACT prep. At 5:30 p.m.

Tomorrow, Youthville is having Detroit College night and they are bringing the campus to you on Wednesday, October 17 from 5:00 p.m. to 8:00 p.m. Youthville is located at 7375 Woodward Avenue. There will be many give aways, food and college gear.

Council Member Kenneth Cockrel, Jr.: I am open about a lease agreement that makes sense for Belle Isle. What is cur-

rently on the table does not make sense. Let us not get so focus on Belle Isle that it becomes a distraction from the larger issue that fixing the City of Detroit finances. If we do that, Belle Isle will take care of itself. The major issue is fixing the City's finances.

Council Member Brenda Jones: The bigger issue is the lighting issue and that is more important than Belle Isle issue at this time. I am not in favor of a Public Lighting Authority but we need to be addressing the issue of the City is in darkness. Have a date been set for facilitation.

Council President Charles Pugh: No date has been set. It is judge ordered and all parties need to come up with a date; it is not Council. We asked for this order and we are waiting on a response. The facilitator is ready, the Council side is ready.

Council Member Brenda Jones: Senator Burt Johnson came to the town hall meeting and indicated that there was a meeting on Transportation and we are moving on a fast track to get the transportation we are asking for.

There will be a town hall meeting on proposals Thursday October 18, at the Lighthouse Community Church at 15820 Wyoming from 6:00 p.m. to 8:00 p.m.

Council Member Andre Spivey: Tomorrow, October 17, 2012, at Wayne County Community College District there will be a job fair 9:00 a.m. to 1:00 p.m. at the Down River Campus. You may call 224-4841 for information.

Council President Charles Pugh: Normally when we call a meeting the Public Comment is for us. When the Mayor calls a meeting the Public Comment is for him.

Council Member James Tate: I believe that all we have done so far will make some people pleased and some will not be pleased. That is the democratic process. We will keep moving forward and colleagues stay encouraged.

Announcement of Youth Prevention Task Force Meeting.

The State is willing to make a number of changes regarding the proposal for Belle Isle. What was presented from the State will not pass.

Council Member JoAnn Watson: We should have extraordinary exceptional competence in our levels of the City. Our people deserve that. All spending should be within the limitations established by the budget approval. We should have quality services to our citizens.

Angela Davis is coming to Detroit Wednesday, October 24, 7707 W. Outer Drive near Southfield and it is free at 7:00 p.m.

A complaint was received from a DDOT employee who is responsible for mechanical repair and maintenance of DDOT vehicles states the air filters are no longer available in the store room and he believes it is a set up.

I have provided in writing concerning the \$1000 fee that Mr. John Brown received. He not only takes care of the city lot as a volunteer, he also spent \$900 of his own money to have the debris carried and received a \$1000 funds because we was "trespassing on city property". A hearing is set for 9:00 a.m. for payment.

Council Member Kwame Kenyatta left his seat.

PUBLIC COMMENT

WHITNEY MITCHELL: Is concerned about the future of the City's children. Parks, recreation centers and schools are being closed. There is nothing for them to do once they get out of high school.

RUSS BALONT: Has concerns regarding the EMA contract. Downsizing, lowering the standard of living and outsourcing at DWSD is not a development for capital projects. There is a key automation contract for the future of the department. Federal funding is lost. This is being pushed by a federal judge who claims controls over DWSD, which is not made by EPA.

JOANN WATSON: Agreed with Mr. Balont. The federal judge over-stepped his bounds.

Detroit has the best water system in the world. How can that be improved? It sounds there's plans to change this. It's union busting, privatizing and outrageous.

A CLOSED SESSION NEEDS TO BE SCHEDULED.

RUTH JOHNSON: Has concerns about DOT operations service and checks and balances for the Executive Branch. The scope of contracts is too large and broad. There's not sufficient oversight.

WILLIE HAMPTON: Thanked Council for their action. She has concerns about children in the schools. There's too many vacant schools. They're not being used as intended.

LISA FRANKLIN: Has concerns regarding the four Transportation contracts under New Business. Why has \$40 million been authorized two years in a row? That money could be used for a fleet of busses.

JANICE MCKINNEY: Council should have common sense concerning the water contract which eliminates so many workers and depletes the revenue amount.

MALISSA DEMANSKE, (Sierra Club): They protect and improve the quality of the Detroit River. Is concerned about the EMA contract. Many individuals feel their concerns have not adequately been addressed.

BETSY PRAT (Airmop): They're dedicated to improving community conditions; particularly housing, immigration and workers rights. Immigration and community concerns should remain in the forefront.

MALISSA JEMINSKI: She helps promote responsible dog ownership working with low income citizens, especially in Southwest Detroit and Brightmoor. Animal Control has been operating without a veterinarian which hinders those who's dogs have been impounded. They can't retrieve them from the pound.

JESSICA RAMIERAZ: There's dogs at the pound in pain with cuts on their faces. Many are forced to be euthanized. A vet needs to get there soon. This should have been prevented before the contract ran out.

WANDA BROWN: She worked for the Waste Water Treatment Plant. In May, 2007, she was struck in the head with a piece of metal and knocked unconscious. She has not been able to receive medical attention through the City of Detroit. She was denied Workers Compensation. She still fights for her life. EMA wants to cut her job position.

**City of Detroit
 Department of Administrative
 Hearings**

September 7, 2012

Honorable City Council:

Re: Authorization to amend the FY 2012-
 13 Budget for the Department of
 Administrative Hearings.

The Department of Administrative
 Hearings (DAH) is requesting authoriza-
 tion to amend their Fiscal Year 2012-13
 Budget in the amount of \$648,183.76.
 This amount is needed to restore contrac-
 tual funding for the hearings process.
 These funds, \$473,183.76 were previously

used to pay for Administrative Hearings
 Officers, court clerks/cashiers, and an IT
 programmer. The elimination of these
 funds in the 2013 budget will severely cur-
 tail DAH's ability to generate revenues
 from its Blight Enforcement activity.

In addition, DAH is requesting funds for
 an Enhanced Collection Program. The
 requested amendment amount includes
 an additional \$175,000 to fund the
 enhanced collections program. These dol-
 lars will be used to fund 6 months of addi-
 tional staffing, which would include (1)
 Administrative Hearings Officer, (1) court
 clerk, (1) paralegal and funds for stream-
 lined garnishment actions. Attached is a
 copy of DAH 2012-13 Revenue
 Enhancement Strategy and Timeline.

Increase Appropriation No. 45-11159,
 Blight Violation Adjudication in the
 amount of \$648,183.76; and

Decrease Appropriation No. 35-00852,
 Claims Fund in the amount of
 \$648,183.76.

The attached resolution authorizes the
 increase in appropriation for the Blight
 Enforcement activity. A Waiver of
 Reconsideration is requested.

Respectfully submitted,
 MEDIAN ABDUN-NOOR, ESQ.
 Director

Approved:

FLOYD STANLEY
 Deputy Budget Director
 MICHAEL V. JAMESON
 Finance Director

By Council Member Cockrel, Jr.:

Whereas, It is the intention of the City
 of Detroit to provide adequate funding for
 the compliance of blight enforcement in
 the city for the fiscal year ending June 30,
 2013, and to enhance revenue collections
 associated with this activity;

Now Therefore Be It;

Resolved, That the Budget Department
 be and is hereby authorized to amend the
 2012-2013 Budget as follows:

Increase Appropriation No. 45-11159,
 Blight Violation Adjudication in the
 amount of \$648,183.76; and

Decrease Appropriation No. 35-00852,
 Claims Fund in the amount of
 \$648,183.76.

And Be It Further Resolved, That the

**Budget Department
Administration**

September 13, 2012

Honorable City Council:

Re: Budget Amendment Letter Restoring Assumed Cost Savings to the FY 2012-13 Budget.

The Budget Department is requesting authorization to amend the FY 2012-13 Budget in order to realign the budget for certain cost-saving initiatives that will not be realized within the time frame anticipated in the adoption of this budget.

The Adopted 2012-13 Budget included reductions in pay of 10% for uniform employees, cost savings from work rule changes, savings from medical plan changes and medical cost sharing arrangements. Cost savings were assumed to be effective July 1; however, some changes are still being implemented to date.

Although recent developments in the repeal of Public Act 4 may necessitate further review and possible changes to the FY 2012-13 Budget, at this time we have assumed that the city will have the authority to implement the City Employment Terms (CET) as previously communicated to the Financial Advisory Board. This amendment thus restores funding for certain activity due to delayed implementation and adjusts the amount budgeted for pension with updated pension factors. The impact on the 2012-13 budget of these actions will be to increase certain appropriations by \$45.0 million offset by a reduction to the Accumulated Deficit Appropriation-00444.

We respectfully request that your Honorable Body approve this Budget amendment Letter with a Waiver of Reconsideration.

Respectfully submitted,
FLOYD STANLEY, JR.
Deputy Budget Director

On September 24, 2012, a case evaluation panel evaluated the above-captioned lawsuit and awarded Sixty Nine Thousand Dollars (\$69,000.00) in favor of plaintiff. Re: Petition Number 2071 — Report and Recommendation for Approval of the Issuance of a New Dance Entertainment Permit by the Michigan Liquor Control Commission in Conjunction with the Transfer of a “Class C License” to Detroit Club Building Events, LLC, for an Establishment at 712 Cass Avenue.

BACKGROUND

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a new Michigan Liquor Control Commission (“MLCC”) dance or entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, Detroit Club Building Events, LLC, (“Permit Applicant”) has submitted a completed application for City Council approval for the issuance of a new dance and entertainment permit in conjunction with the transfer of a “Class C License” from Webber Corporation to Detroit Club Building Events, LLC, and transfer of location to 712 Cass Avenue. The Permit Applicant has also submitted the MLCC local government approval form (LC-1305), a copy of which is attached to this report. The Permit Applicant’s request for the issuance of a new dance and entertainment permit (MLCC Request ID Number 623326), has been designated by the City Clerk as Petition Number 2071.

The Buildings, Safety Engineering and Environmental Department (“BSEED”) reports that the current legal use of the property at 712 Cass Avenue is private club and rental hall. Also, the use of the property for the sale and consumption of alcoholic beverages on the premises was approved at a public hearing on December 14, 2011 per BSEED Case Number 61-11.

Therefore, the use of the location for patron dancing and entertainment is permitted subject to compliance with all relevant state codes and City ordinances including the issuance of a Group “A” Cabaret City business license by the BSEED Business License Center and the requested new dance and entertainment permit by the MLCC to the Permit Applicant. Accordingly, the Permit Applicant has also applied, and paid the

applicable fees, for the issuance of the required cabaret business license for the location.

APPROVAL CRITERIA

The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits (“Procedures and Criteria”) became effective upon publication on August 25, 2009. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant’s request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator in the Mayor’s Office (“Coordinator”) has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria. A copy of the Coordinator’s report, dated October 4, 2012, has been provided the Permit Applicant. A Certificate of Compliance, issued on March 5, 2012, has been obtained for the location and a copy of the certificate submitted with the Coordinator’s report.

RECOMMENDATION

A review of the Coordinator’s report indicates that the Permit Applicant has met the approval criteria contained in Part VI of the Procedures and Criteria. As previously indicated, a Certificate of Compliance has been obtained for the location. Therefore, attached is a proposed resolution approving the issuance of a dance and entertainment permit by the MLCC to the Permit Applicant, Detroit Club Building Events, LLC, for the establishment at 712 Cass Avenue. Further, the Law Department recommends that the proposed Resolution and the attached MLCC local government form (LC 1305) be moved to the Committee of the Whole for its action.

BACKGROUND

Section 916(10)(b) of the Michigan

Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a new Michigan Liquor Control Commission ("MLCC") dance or entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, Bleu Detroit, LLC, ("Permit Applicant") has submitted a completed application for City Council approval for the issuance of a new dance permit in conjunction with a "Class C License" at 1540 Woodward. The Permit Applicant's request for the issuance of a new dance permit (MLCC Request ID Number 666388), has been designated by the City Clerk as Petition Number 2513.

The Buildings, Safety Engineering and Environmental Department ("BSEED") reports that the current legal use of the property at 1540 Woodward Avenue is "nightclub" per Building Permit Number 41449, dated November 22, 2000, which was approved after a public hearing as part of BSEED Case Number 83-00. Therefore, the use of the location for patron dancing is permitted subject to compliance with all relevant state codes and City ordinances, including the issuance of a Group "A" Cabaret City business license by the BSEED Business License Center and a new dance permit by the MLCC to the Permit Applicant. Accordingly, the Permit Applicant has applied, and paid the applicable fees, for the issuance of the required Group "A" Cabaret business license for the establishment.

RESOLUTION SUPPORTING THE PUBLIC LIGHTING AUTHORITY LEGISLATION

By Council Member Brown:

Whereas, The City of Detroit is currently facing an unprecedented fiscal crisis that has necessitated the Bing Administration to conduct a re-examination and re-evaluation of every aspect of City operations in an effort to effectuate needed change while maintaining vital City services to our residents; and

Whereas, As part of this process, the Bing Administration has identified a four-phase City of Detroit Public Lighting Strategy to address the City's current,

outdated lighting system of which approximately 40% (or an estimated 35,000) of streetlights are inoperable and for which replacement parts are no longer available; and

Whereas, This is a critical public safety and quality of life issue that must be addressed expeditiously and the solution must strike the appropriate balance between maintaining City ownership of its asset while allowing for appropriate intervention of an entity with adequate financial wherewithal to accomplish the necessary improvement to the public lighting system; and

Whereas, A package of Bills have been introduced in the Michigan Legislature that seek to abet the public lighting challenges confronting Detroit by authorizing the City to create a Public Lighting Authority that could bond for resources needed to repair the municipality's beleaguered lighting system and contract with electric utility leaders for operation/management of it; and

Whereas, This proposed legislation — compromising House Bills 5688, 5705 and Senate Bill 970 — affirms Detroit ownership of its public lighting system, authorizes the City to create a Public Lighting Authority led by a five-person board of Detroit residents and permits investment of up to \$160 million dollars to modernize the street lighting system; and

Whereas, The Board would be comprised of two Mayoral appointees, two City Council appointees and the final appointment would be by the Mayor subject to Council's approval. All five members would have to be Detroit residents and at least three must have technical expertise in either engineering, law, accounting or urban planning; and

Whereas, The proposed legislation would also allow the City to earmark \$12.5 million of its Utility Users Tax revenue for repayment of would-be Public Lighting Authority bonds; and

Whereas, Until such bonds are retired the legislation would dedicate 0.2 percent of Detroit's 2.4 percent residential income tax rate, and 0.1 percent of its 1.2 percent non-residential levy, to the Detroit Police Department to replace Utility Users Tax money that currently is statutorily dedicated to hiring and retaining Detroit police officers. This ensures that a funding gap for public safety measures is not created by the redirection of the Utility Users Tax capture; and

Whereas, The legislation also would promote stability in Detroit general fund revenues by both eliminating boilerplate prescribing annual reductions in the City's income tax rates and mitigating Detroit general fund subsidization of its municipal lighting system; and

Whereas, The goal of this enabling legislation is to arm Detroit government, and

other communities throughout the state, with a tool to fix an emergent deficiency in a key city service and not to interfere with future decisions by elected leaders concerning street-lighting. This public safety and quality of life issue demands an immediate solution-oriented approach from State legislators and potential amendment of the legislation, if necessary, to move this critical issue forward for the betterment of our community; and

Now, Therefore Be It

Resolved, That the Detroit City Council supports the Public Lighting Authority legislation currently before the Michigan Legislature; and

Be It Further

Resolved, That the Detroit City Council urges the Michigan Legislature to support the City's efforts to ameliorate deficiencies in the antiquated public lighting system for the benefit and safety of the City's residents and visitors by supporting the Public Lighting authority legislation; and

Be It Further

Resolved, That the Detroit City Council urges the Detroit delegation to the Michigan Legislature to support these efforts by moving House Bills 5688, 5705 and Senate Bill 970 for a vote during the lame duck session; and

Be It Further

Resolved, That the Detroit City Council urges the Detroit delegation to the Michigan legislature to propose palatable amendments, if necessary, to the proposed legislation to ensure it addresses the City's needs and supports the Bing Administration's comprehensive lighting strategy; and

Be It Finally

Resolved, That a copy of this resolution be sent to Governor Rick Snyder, Detroit Mayor Dave Bing; House Speaker Jase Bolger; Senate Majority Leader Randy Richardville; Representatives Tim Bledsoe, Lisa Howze, Alberta Tinsley-Talabi, Maureen Stapleton, John Olumba, Fred Durhal, Jimmy Womack, Tommy Stallworth, Shanelle Jackson, Harvey Santana, David Nathan and Rashida Tlaid; and Senators Coleman Young, Jr., Bert Johnson, Morris Hood, Virgil Smith and Tupac Hunter as well as Mr. Ken Cole of Governmental Consultant Services.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Spivey, Tate, and President Pugh — 6.

Invocation Given By:

**Rev. Patricia A. Havis — Pastor

Detroit, Michigan 48204**

Gracious Creator who is known by many names such Yahweh, Jehovah, Allah, God, El Roi, El Chaddai, Lord and Saviour; we recognize that your presence lives deep within us. Surely if you can place the hue in daffodils and the blush in the rose; you can wield your power and thrust your sacred spirit into this gathering.

Allow for constituencies to receive favor by your hand. Please reveal your realm of righteousness, peace and wisdom throughout this gathering.

Detroit needs your touch. In my Christian tradition, Jesus taught that while praying we may ask, "Give us this day our daily bread." Authority figures gathered here are empowered to give the assurance of daily bread this day to all the citizens of Detroit.

Listening is a powerful antidote to the desire to dominate, so help all to listen. Help all focus on those in need. Help all to know that we should seek to understand and then to be understood. Please loose compassion that is beyond fears and attitudes.

I ask in faith, knowing that this prayer has been heard and acknowledged. We thank you and trust your power. In my tradition of Christianity, I ask this in the name of Jesus.

For these leaders I say.

PUBLIC COMMENT:

• **Mr. Russ Bellant:** 1) Thanked Council for 90 seconds and 2) Strongly encouraged City Council to do what others have failed to do to conduct an actual efficacy assessment to determine not whether the sales pitch is seductive, but whether the proposal and the long term implications of their proposal is sound as it pertains to the EPA's 35 year old lawsuit against the City of Detroit.

• **Ms. Tia Lebherz, Representative, Food and Water Watch:** Food and Water Watch looked at 200 perspectives and completed sales in the concession of publicly owned water systems over the last two decades and saw several trends of water systems going into private hands. Asked City Council to hold a public forum with Detroit Water & Sewerage Department (DWSD) so citizens will know what is going on and be able to ask questions. **Council Member Watson requested a public hearing be held; per Council President Pugh, will work with**

Detroit Water & Sewerage Department's Director Sue McCormick's office and invite members/representatives of the Board of Water Commissioners to a public hearing to be scheduled, maybe, on Monday, November 5, 2012.

• **Ms. Melissa Damaschke, Employed at Sierra Club:** Focuses on how to protect and improve the water quality of our Great Lakes and our tributaries that lead to the Great Lakes including the Detroit River. Ms. Damaschke gave the comments that she is about to share with the Full Committee to the Public Health and Safety Standing Committee pertaining to the Detroit Wastewater Treatment Plant being in violation of its permit and polluted the Rouge and Detroit Rivers from late 2009 to 2011, partly because they did not have enough staff. To address this matter, the MDEQ required the Detroit Wastewater and Sewerage Department to prepare a corrective action plan.

• **Ms. Tonee Fleming:** This is a personal plea. Worked at Detroit Water and Sewerage Department for 27 years and got injured on the job like 2-1/2 years ago and it crippled her pretty much. She is an ex-athlete. Ms. Fleming's request is her settlement check from the City of Detroit and her attorney says the check is sitting on City Council's desk. **Council President Pugh will have somebody from his office assist Ms. Fleming to locate her check.**

• **Mr. Larry Wiggins of Environmental and Technical Controls:** Came to tell this Honorable Body and the community about a public hearing sponsored by the Environmental Protection Agency and the Michigan Department of Environmental Quality. The hearing is regarding a lead contaminated soil in the neighborhood surrounding the former Federal Mogul plant located at 11031 Shoemaker. Mr. Wiggins' company has a signed development agreement with Planning and Development Department to purchase this property. The Shoemaker site is included in nationwide USA Today investigation that includes 230 locations which performed operations that produced lead contaminations throughout the community.

• **Mr. Michael:** Requested to know the procedures for reopening the streets on East McNichols at French Road or Van Dyke by the Detroit City Airport. **Mr. Michael was directed to speak to the Mayor's Office/Planning and Development Department, per Council President Pugh.**

• **Mr. Eric Jennings, Employee at non-profit organization, Southwest**

Housing Solutions: He works at Southwest Housing Solutions, Mr. Brian Barnhill, who is Chief of Staff for Council President Pugh — reason for being at City Council this morning. Here to talk about a free job training program that his organization offers. It is a federally funded program from the Department of Labor and what's known as Green Jobs, which consists of weatherization, deconstruction, landscaping, gardening, and things of that nature. It's a free training program. Individuals are able to come through the training program. Upon completion they receive certifications in the related fields, and Southwest Housing Solutions will help lead them into employment. For more information, Contact Mr. Eric Jennings at (313) 297-0062.

• **Ms. Frances Boines:** Requested that Council would develop a proposal to limit the collection of scrap trucks operation in the City of Detroit because they are riding around twelve, one, two, three, four o'clock in the morning and a lot of the residents would like to preserve the neighborhood more by having neighborhood watch, but it's pretty difficult when they're operating in the hours of one, two, three, and four o'clock in morning. Proposed that City Council limit their hours from 8 a.m. to 6 p.m. (in the daylight) so that people can see actually what scraps are being collected. **Per Council Member Watson, Research & Analysis Division and Law Department are directed to look at the scrap metal ordinances and look at the timelines of the operation of those scrap delivers; per Council President Pugh, RAD is so directed.**

• **Ms. Torya Blanchard, Owner Good Girls Go To Paris Creperie:** Also owns Rodin, which is a bar restaurant close to the Detroit Institute of Arts (DIA). The Rodin Bar's construction was a two long project. Everything is pretty much done. The last inspections were done on Monday, October 29, 2012 and there is one more inspection with Health Department. Ms. Blanchard has come before City Council to request approval for the Dance-Entertainment License Permit (Petition No. 2092) for the Rodin Bar. **This issue is being referred to the Planning and Economic Development Standing Committee on Thursday, November 1, 2012.**

• **Ms. Torya Blanchard's mother:** Stated that "Torya Blanchard is a believer in Detroit. She was born, raised, educated, a teacher" in the City of Detroit. Ms. Blanchard's mother felt her daughter's new business Rodin Bar will be something the City of Detroit would be proud of.

• **Ms. Valerie Glenn, Free Detroit/No**

Consent: Encouraged City Council to have the Detroit Water and Sewerage Department's hearing at night, if at all possible, with the parking as a consideration. Ms. Glenn met the new Director, Mr. Brent Hartzell of the Budget Department, and the meeting was insulting, they read to the citizens directly from the booklet to describe what the departments did, and there was really no time to ask questions. Also vote "yes" on Proposal 2 and "no" on Proposal 1.

- **Ms. Cecily McClellan:** Would like to encourage all of the citizens as well as this Council to refresh themselves on the Preamble in the Declaration of Rights. "The people have a right to expect city government to provide for its residence's decent housing, job opportunities reliable, convenience and comfortable transportation, recreation facilities, and activity, culture enrichment libraries, and so forth". Ms. McClellan thought that six member of the Council have worked in contrary to the Declaration: Pugh, Brown, Jenkins, Cockrel, Tate and Spivey. Recommend you vote the VIP slate and make sure you vote "no" on Proposal 1.

- **Mr. Keith Hines, Diamond II Productions/Free Detroit:** Regarding the Bank Secrecy Act. The book is 400 and something pages. This book tells the banks what to do, how to manage the money, what they can do with it and what they can't do with it. The City of Detroit has a very bad representation.

- **Mother Ruedell Holmes:** Prayed for Detroit City Council and the citizens of Detroit.

City Planning Commission

October 15, 2012

Honorable City Council:

Re: Request to rezone parcels bounded by 18th Street, the east/west alley south of Michigan Avenue, 17th Street and Macomb Park from R2 (Two-family Residential District) to M3 (General Industrial District) and TM (Transitional-Industrial District) so that the zoning classification will conform to the current use of the Department of Public Works Western Yard and to permit the establishment of an outdoor storage area. (RECOMMEND APPROVAL)

SUMMARY

On May 17, 2012 the City Planning Commission (CPC) voted to recommend approval of the request of the City of Detroit Department of Public Works (DPW) to amend Article XVII, District Map No. 42 of Chapter 61 of the 1984 Detroit City Code, Zoning, to show an M3 (General Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification is presently located on parcels bounded by 18th Street (vacated) to the west, the east/west alley south of Michigan Avenue to the north, the north/south alley west of 17th Street to the east, and Macomb Park to the south; and a TM (Transitional-Industrial District) zoning classification where an R2 (Two-family Residential District) zoning classification is presently located on parcels bounded by the north/south alley west of 17th Street to the west, the east/west alley south of Michigan Avenue to the north, 17th Street to the east, and Macomb Park to the south.

The subject change in zoning is being requested so that the zoning classification will conform to the current use of the DPW Western Yard (located at 2633 Michigan Ave.) and to permit the establishment of an outdoor storage area on the yard premises. For your convenience, the site plan is attached. Note that site plan approval is not yet appropriate; the Planning and Development Department will conduct a site plan review as permit applications are filed. As this is a City-initiated rezoning, there is no application or petition (City Code §61-3-73).

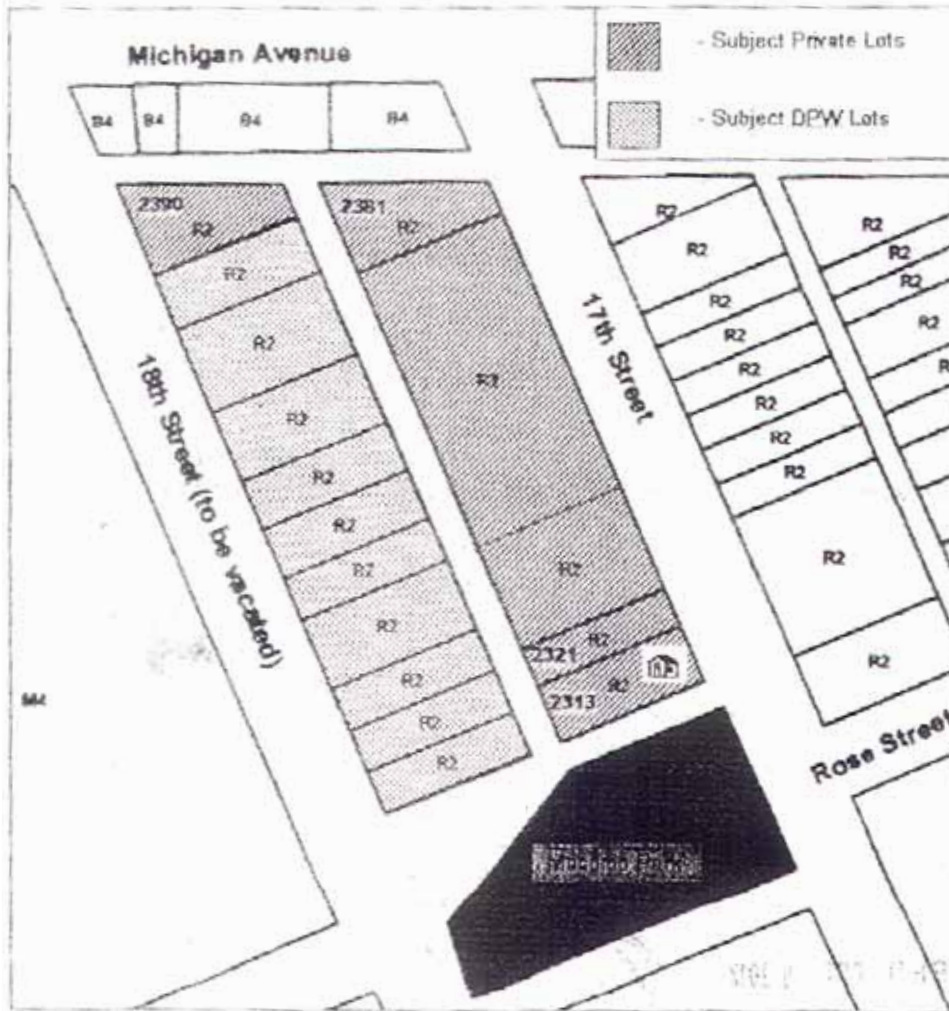

The City Planning Commission **recommends approval** of the proposed rezoning because it will bring the City's zoning maps into closer conformance with the Master Plan of Policies, resolve numerous land use non-conformities, and eliminate development constraints that exist on the DPW yard as a result of the current residential zoning, negatively impacting the operations of the yard.

EXISTING CONDITIONS

The subject properties are owned by both the City (DPW) and private parties; all properties are zoned R2. The land owned by DPW has been used for many decades as a yard for a variety of public works operations (including asphalt manufacture, vehicle storage and maintenance, among other uses). Note that, although they are zoned R2, the DPW lots subject to this rezoning are already part of the DPW yard. The land under private ownership is primarily a mixture of businesses and vacant land. There is one single-family dwelling at the northwest corner of 17th and Rose Streets. Additionally, according to testimony at the public hearing by the owner's representative, the former warehouse located at 2363 17th Street has been converted into a two-family dwelling. CPC staff worked with the

Buildings, Safety Engineering and Environmental Department (BSE&ED) to find permits for residences at 2363 17th Street; no permits were found. At the time of the writing of this report, the residences

constitute an illegal use; however, the owner is working to obtain permits for the two-family residential use. See the map, below, for a detail of public vs. private ownership.

PROPOSED DEVELOPMENT

DPW is not proposing an expansion of its yard. As part of a project to build a new street maintenance building on a part of the yard that is zoned M4, the Department is proposing improvements to its parking facilities and the establishment of a storage area on the subject parcels. (See attached site plan.) The rezoning of the DPW parcels from R2 to M3 is recommended in order to ensure that the use of the property conforms to its zoning district. The Master Plan designation for the property is Light Industrial; M3 is the most intensive zone permitted within the Light Industrial designation.

Additionally, the proposed outdoor storage area falls within the 150-foot distance that it is required to be set back from residentially zoned land (City Code §61-12-264). Therefore, CPC staff recommended to the petitioner that the half-block immediately to the east of the DPW yard be rezoned to TM, which is not subject to the residential setback requirement. The TM, or Transitional-Industrial District, is designed for areas that were historically residential and which the Detroit Master Plan of Policies indicated will eventually transition into industrial uses. The subject parcels are designated Light Industrial in the Master Plan.

SURROUNDING ZONING AND LAND USE

The zoning classifications and land uses surrounding the proposed development are as follows:

North: B4 (General Business District), parking, commercial structures occupied by businesses and a religious institution.

South: No zone, Macomb Park.

East: R2 (Two-family Residential District), vacant land, commercial building, residential, church and rectory (Grace to Grace Christian Fellowship).

West: M4 (Intensive Industrial District), DPW Western Yard.

ZONING ORDINANCE CRITERIA

Section 61-3-80 of the Detroit Zoning Ordinance lists eight approval criteria on which zoning map amendments must be based. CPC staff has found that the present request meets the criteria for the following reasons:

1. *Whether the proposed amendment corrects an error or meets the challenge of some changing condition, trend or fact;*

The proposed map amendment meets the challenge of changing condition or trend. Over the course of many decades

the subject area has been transitioning from residential to industrial use. According to building and demolition records, this area began to be developed in the late 1800s and began a definite transition to industrial uses in the mid-1900s. In the 1950s, 1960s and 1970s many single-family dwellings were demolished to make way for warehouses, garages and expansion of the DPW yard. Recognizing the essential industrial nature of the general area, the Master Plan of Policies has designated the subject block Light Industrial and therefore inappropriate for residential development. The change in zoning of the western half of the subject block from R2 to M3 is needed so that the zoning will conform to the use of the property as a DPW yard, a use that has existed for approximately fifty years. The change in zoning of the eastern half of the subject block from R2 to TM (Transitional Industrial) is needed so that the properties' zoning will conform to the Master Plan, and so DPW can continue its operations without being constrained by remnant residential zoning in an industrial area.

2. *Whether the proposed amendment is consistent with the Master Plan and the stated purposes of this Zoning Ordinance;*

The subject site is located within the Corktown Neighborhood of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The future land use designation for all the subject parcels is Light Industrial. In a letter dated June 25, 2012, the Planning and Development Department affirmed that the rezoning proposal is in conformance with the Master Plan.

Additionally, the proposed rezoning request meets the following four applicable elements of the Zoning Ordinance's stated purposes (§61-1-5):

1) Classify all land in such manner as to reflect its peculiar suitability for particular uses

The Master Plan is the vision for the City. It underwent an extensive public

engagement process and was approved by the Mayor and City Council as the future course for the City to follow. The Master Plan has established that the subject properties are most suited to be Light Industrial. The present rezoning will bring the properties' zoning into conformance with the vision laid out in the City's Master Plan.

4) Conserve or enhance property values

Low-density residential land that is immediately adjacent to industrial land is notoriously undesirable. Property values are enhanced when there is proper buffering between industrial and low-density residential uses. Note in the image of the master plan designations for the subject area (below) how lower density residential areas are wisely buffered from industrial by mixed residential and commercial and recreation (subject block is indicated by a dashed box):

5) Protect all areas of the City from harmful encroachment by incompatible uses

The City routinely deals with complaints from residents in low-density residential areas that are adjacent to industrial areas. This is an on-going problem that is most prevalent in southwest Detroit. The subject area has transitioned from farmland to residential to industrial over

the past two centuries. The current prevalent use and Master Plan designated use is industrial. Any future residential development would constitute an encroachment of an incompatible residential use upon industrial uses, with a high likelihood of conflict. Rezoning the subject properties to M3 and TM would prevent such conflicts from occurring.

11) Provide for the elimination of non-

conforming buildings and structures and for the elimination of nonconforming uses of land

The proposed rezoning will resolve several non-conformities that exist on the subject properties. All the property under DPW ownership is currently occupied by non-conforming uses, but has uses that conform to the proposed M3 zoning. The one privately-owned parcel on the west half of the subject block 2390 18th Street (see map for location), was permitted as a garage and truck storage in 1959 and is currently non-conforming. Such a use is permitted in the M3 zone.

On the eastern half of the block, the northernmost lot (2381 17th Street) was declared a legal non-conforming use as a radiator shop in 1988. This use is not permitted in the R2 zone. The radiator shop is now closed; if the radiator shop is re-opened and the land is zoned TM then it would be a conforming use.

The property at 2363 17th Street is occupied by a building that has been converted to a two-family residence. The building was permitted as a tobacco warehouse and wholesaler in 1960. No permits exist for the residences and a correction order has been issued for the property. The owner's attorney is currently working to get proper permits for the residences so that they can be legal. If the proposed rezoning to TM occurs, then the residences would be rendered non-conforming because they were established after December 22, 1968 per Sec. 61-11-104 of the Zoning Ordinance.

The property at 2313 17th Street contains a single-family dwelling that was constructed in 1904 according to tax assessor records. This property would remain a conforming use if the proposed rezoning to TM takes place. The property at 2321 17th Street is undeveloped.

In sum, the proposed rezoning from R2 to M3 and TM would resolve non-conformities on twelve parcels, not affect the conformity of two parcels, and create a non-conformity on one parcel for a use for which there is (at the time of this writing) an unresolved correction order.

3. Whether the proposed amendment will protect the health, safety and general welfare of the public;

The proposed amendment will protect the health, safety and general welfare of the public by rezoning to industrial, land that is currently residential and being used as industrial land or is immediately adjacent to industrial land. This will protect the public health by improving the buffer between industrial-zoned land and residential-zoned land. The health and general welfare will be protected by preventing the construction of new residences on land that is designated for industrial use and that is in an area currently surrounded by industrial uses.

Additionally, comfort and convenience

are elements defined by the zoning ordinance as being aspects of the general welfare (§61-1-6). The proposed rezoning will increase the comfort and convenience of the operations of DPW which is an existing use, by allowing the Department full access of its yard for storage. Because of the adjacent residential zoning, which requires that there be a 150-foot setback between outdoor storage and residential-zoned land, DPW is constrained in its operations and site design (Sec. 61-12-264(3)). The proposed rezoning will remedy this problem.

4. Whether the City and other service providers will be able to provide adequate public facilities and services to the subject property, while maintaining adequate levels of service to existing development;

Not applicable.

5. Whether the proposed rezoning will have significant adverse impacts on the natural environment, including air, water, soil, wildlife and vegetation and with respect to anticipated changes in noise and regarding stormwater management;

The majority of the rezoning affects land uses that are already existing. The remaining vacant parcels constitute less than half an acre of land. It is not anticipated that the proposed rezoning will have significant adverse impacts on the natural environment.

6. Whether the proposed amendment will have significant adverse impacts on other property that is in the vicinity of the subject tract;

The proposed amendment will not have significant adverse impacts on property in the vicinity of the subject tract. The proposed rezoning will bring the zoning of the properties into conformance with the Master Plan which has mapped out a graduated intensity of uses (west to east) from industrial to mixed residential-commercial to low/medium density residential (see map). Land to the south and west is industrial and the entire area is bound to the north, west and south by extensive transportation infrastructure (railroad and interstate highways). Prohibiting the construction of more housing could prevent future conflicts between industrial and residential uses.

7. The suitability of the subject property for the existing zoning classification and proposed zoning classification; and

The subject properties are not suitable for the existing zoning classification because the existing zoning has resulted in numerous non-conforming uses and buildings on the properties. Additionally, the existing zoning has caused the operations of the DPW yard to be constrained because it limits where the Department can locate its storage of materials and equipment. The proposed zoning classification as indicated by the Master Plan, is most appropriate for the area. M3 is categorized as one of the light industrial

zones. The purpose of the TM zone is to accommodate areas that are transitioning from residential to industrial uses, as has occurred in the subject area. Pre-existing residential uses are accommodated and are recognized as conforming uses. new light industrial uses are allowed but new residential uses are prohibited. The TM zone is designed for areas such as the subject area and is a suitable zoning district for the subject properties.

8. *Whether the proposed rezoning will create an illegal "spot zone."*

The proposed rezoning would not create an illegal spot zone because the proposed industrial zones would be adjacent to existing industrial zones.

COMMUNITY RESPONSE

A public hearing was held on April 19, 2012. Three members of the public spoke and one filled out a comment slip, but didn't speak. Two owners of the property at 2390 18th Street, Sam Zammit and Khalaid Jadallah, expressed concern that the proposal was to take their property [through eminent domain]. It was clarified that this was merely a rezoning. They were not opposed to the rezoning. They did, however, complain that DPW had damaged their fence by piling snow against it and had not fixed it as promised.

Nicholas Lefevre, attorney for the owner of 2362 17th street, testified that two residences had been established in his client's building and that his client was opposed to the rezoning because he intended to build more residences on his property.

Richard Desiro, owner of 2381 17th Street (the former radiator shop), did not speak but filled out a comment card expressing opposition to the rezoning. Staff contacted him via telephone to find out his reason. He said he wasn't opposed for himself but that he thought his neighbor should be able to build residences if he wanted to.

RECOMMENDATION

Because the proposed rezoning brings the City's zoning map into closer conformance with the Master Plan and because the proposal meets the criteria outlined in the section "Zoning Ordinance Criteria" of this report, the City Planning Commission has voted to recommend approval of the proposed rezoning.

The only opposition to the proposal is based on a speculative plan to build new housing in an area that has been transitioning to industrial for decades and that has been designated as Light Industrial in the City's Master Plan. This area was designated Light Industrial because it was determined to not be appropriate for new housing. The proposed rezoning will not unreasonably limit the land owner's use of their property, indeed it will permit many more uses than are currently allowed, as demonstrated in the table below:

Listed Uses Allowed in R2 and TM Zones

	<u>R2</u>	<u>TM</u>
By-right Uses	5	104
Conditional Uses	13	17
Total	18	121

With the R2 zoning on both halves of the subject block, DPW's yard, which is an existing use, is constrained and cannot effectively operate to maximum efficiency and comfort because there is a residential zoning district adjacent to the yard. This is because of the required 150-foot setback of outdoor storage from residential districts. The rezoning from R2 to M3 and TM would resolve non-conformities and give DPW full use of their yard.

Re: Site Plan and Special District review of the request of SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority (Cobo Center) to approve the installation of a "media mesh" animated business sign on the eastern facade of Cobo Center (Requested Resolution Status)

On October 2, 2012 City Council approved the proposed change to Cobo Hall in the PCA (Public Center Adjacent, Restricted Central Business District) zoning district to allow the installation of a "media mesh" animated business sign on the east facade of Cobo Hall. At that time, City Planning Commission (CPC) staff said that we were working to prepare a resolution that would take into account the condition specified by the Department of Public Works (DPW) that they have the opportunity to review the operation and impact of the sign after a six month period. It is CPC staff's understanding that DPW and the Buildings Safety Engineering and Environmental Department (BSEED) have come to an agreement as to how the DPW review period can be made a condition of the BSEED special land use permit, which is required for the animated sign. This provision should supplant the need for a memorandum of understanding between the Authority and a City agency.

Attached hereto is a resolution for City Council's consideration that ties the Council action to the anticipated special land use permit. It would seem that City Council could approve the resolution, and it would become effective if and when the special land use permit with the required condition is issued.

WHEREAS, SDG, on behalf of the Detroit Regional Convention Facility Authority (the "Authority"), seeks approval of the installation of a "media mesh" animated business sign on the eastern facade of Cobo Center; and

WHEREAS, the building is subject to provisions of Section 61-11-61, the PC

(Public Center District) zoning classification of the Detroit Zoning Ordinance; and

WHEREAS, the PC zoning district classification requires that any exterior building alteration or expansion within a PC district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission and the Planning and Development Department; and

WHEREAS, both the Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed construction is in keeping with the spirit, purpose and intent of the PC zoning district classification; and

WHEREAS, at its September 6, 2012 meeting, the City Planning Commission took action to recommend support of the requested installation of the animated business sign on Cobo Convention Center, with the condition that the Traffic Engineering Division of the Department of Public Works submit its review of the sign with respect to the potential for driver distraction to City Council prior to Council's action on this request; and

WHEREAS, the Department of Public Works (DPW) feels that, as this is a unique sign, DPW will analyze the sign and its impact on motorists for six months upon construction, and if DPW determines that safety issues exist that warrant mitigation measures in the operation of the sign, the DPW will direct the Authority to make the necessary changes;

NOW, THEREFORE, BE IT RESOLVED, that the Detroit City Council approves the installation of the "media mesh" animated business sign on the eastern facade of Cobo Center, described in the foregoing communication from the City Planning Commission staff dated September 14, 2012 and as depicted in the drawings in the package prepared by SDG dated September 6, 2012;" and

BE IT FURTHER RESOLVED, that this resolution must be accompanied by special land use permit from the Buildings Safety Engineering and Environmental Department, containing the requirement that the Authority agrees to alter the operation of the sign upon request of the DPW.

Planning & Development Department

October 24, 2012

Honorable City Council:

Re: Property For Sale By Transfer Agreement to the State of Michigan by its Land Bank Fast Track Authority.

Development: Parcel 538; generally bounded by Rosa Parks, Grand Trunk Railroad, Common-wealth & Marquette

We are in receipt of an offer from the State of Michigan by its Land Bank Fast Track Authority, a Michigan Public Body Corporate, proposing that the above-captioned property be transferred to them and then made available for redevelopment by Henry Ford Health System, a Michigan Non-Profit Corporation. This property consists of vacant land measuring approximately 318,520 square feet and is zoned both M-4 (General Industrial District) and R-2 (Two-Family Residential District). Under the terms of the transfer, the property would be transferred for the amount of \$143,500.

Henry Ford Health System proposes to combine Parcel 538 with their adjacent properties, to effect the construction of an approximately 400,000 square foot medical supply, repackaging and distribution warehouse center. Said warehouse would be built on behalf of Cardinal Health, Inc., a multi-billion dollar health care services company and it would service Henry Ford Hospital and other regional medical centers within the area. It is expected that approximately 100 construction jobs and 200 permanent jobs will be created due to this project. This use is subject to the rezoning of the site from M-4 (General Industrial District) and R-2 Two-Family Residential District) to M-2 (Restricted Industrial District).

The financing structure that will enable Henry Ford Health System to complete it's development requires a transfer of the property to the State of Michigan by its Land Bank Fast Track Authority, a Michigan Public Body Corporate. The Michigan Land Bank Fast Track Authority will perform the necessary actions to quiet and cure title on all properties requiring such within the project area. Once this is done, the property will be deeded to Henry Ford Health System, in order that they may meet the December 2012 deadline to secure New Market Tax Credit funding for the project.

The Planning and Development Department (P&DD) has reviewed the request by Henry Ford Health System and determined it to be appropriate. Therefore, P&DD recommends and requests that your Honorable Body authorize the transfer of the property to the Michigan Land Bank Fast Track Authority. Said land transfer would be contingent upon the Planning & Development Department's Director, or his authorized designee, entering into such other written agreements as he may deem necessary to ensure that the Michigan Land Bank Fast Track Authority will not transfer title of the property to Henry Ford Health System or any other entity, until such time as the

project area has been rezoned to M-2 (Restricted Industrial District). Further, upon the execution of the transfer agreement between the Michigan Land Bank Fast Track Authority, Henry Ford Health System and the City of Detroit, the entire sales price of \$143,500 shall be paid to the City of Detroit.

The resolution is attached for your consideration and approval.

Respectfully submitted,

Detroit Police Department
 September 21, 2012

Honorable City Council:
 Subject: Proposed initiative for the Michigan Department of Transportation (MDOT) to provide funds to pay for work zone traffic enforcement for the M-85 (Fort Street) Bascule Bridge Replacement over the Rouge River.

On September 4, 2012, the State of Michigan, Department of Transportation (MDOT) indicated in the attached letter

that they had funds available to pay overtime costs up to \$160,000.00, with no cash match for Detroit Police Department (DPD) Officers to provide traffic enforcement in the vicinity of the M-85 (Fort Street) during the Bascule Bridge Replacement. The existing bridge is in poor condition and is currently restricted to one lane in each direction. It is anticipated that the bridge crossing will be closed to traffic for 18 months to 2 years.

MDOT has deemed this project to be critical to the economic and social viability of the residents and businesses in the area. In order to mitigate for increased emergency response times during the closure of the bridge, MDOT seeks to have two DPD officers working a four hour shift, 7 days a week, for approximately 80 weeks. These patrols would be on overtime and would not exceed the budgeted allowance. The exact start date of the enforcement will be communicated to DPD once the MDOT Contractor provides a scheduled date for the closure of the bridge; however the approximate start date is May 1, 2013.

In order to reimburse the City of Detroit for their expenses, MDOT would require a summary spreadsheet detailing the officers that worked the assignment, their overtime rate, dates worked, enforcement location, total patrol hours, total traffic stops, total speed citations, total restraint citations, total verbal warnings, total arrests, and total careless/reckless driving citations. Reimbursements would be made to the Detroit Police Department based upon the existing overtime rate for police officers. A DPD sergeant will oversee the project and administrative costs are factored into the funding. An invoice shall be sent to MDOT for review and payment on a monthly basis. Commander John Serda, of the Fourth Precinct, would serve as the project director for the initiative.

Approval of this proposal will be a benefit to the City of Detroit in that it will allow for a visible increase in patrol presence in the area without impacting the city's budget. This increase in presence and visibility can be expected to impact not only traffic violations, but criminal activity as well. In addition, the safety of workers and residents in the construction area and the nearby vicinity will be enhanced by targeted traffic enforcement. Finally, by providing a closer working relationship between MDOT and the Detroit Police Department, the likelihood of the establishment of similar cooperative efforts will be increased.

Participation requires the approval of Your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the funding and approved participation.

If you have any questions or concerns, regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

WHEREAS, *Thy beginning was small, yet thy latter end should greatly increase*

— Job 8:7. Pastor Charles Thomas Winfield began Fresh Start Ministries on February 6, 2005 with sixteen charter members in a small union hall on Detroit's Westside. Services were held there until the Lord blessed the Ministry with its own facility in the fall of 2007. Today, Fresh Start Ministries is located in Warren, Michigan whereby Sunday's attendance now averages approximately 150-200 members and visitors weekly and continues to grow; and

He is concerned about souls being Saved, Delivered, Set Free and Heaven Bound! Particularly, he is burdened for the souls of today's youth. An annual youth event that began in a parking lot has grown into a large community Youth Explosion coordinated by a team of planners that focus on creating a "Youth-Themed" day of activities, games, food, giveaways and an opportunity for neighboring and visiting youth to share their God-given gifts and to hear a message of God's love and inspiration! Additionally, Pastor Winfield has designated that one Sunday Service each month is coordinated and conducted by the youth; and

**TESTIMONIAL RESOLUTION
FOR
DETROIT WELCOMES
PROFESSOR ANGELA Y. DAVIS**

By ALL COUNCIL MEMBERS:

WHEREAS, Through her activism and scholarship over many decades, Angela Davis has been deeply involved in movements for social justice around the world. Her work as an educator — both at the university level and in the larger public sphere — has always emphasized the importance of building communities of struggle for economic, racial, and gender justice, and

WHEREAS, Professor Davis' teaching career has taken her to San Francisco State University, Mills College, and UC Berkeley. She also has taught at UCLA, Vassar, the Claremont Colleges, and Stanford University. Most recently she spent fifteen years at the University of California Santa Cruz where she is now distinguished Professor Emerita of History of Consciousness — an interdisciplinary Ph.D program — and of Feminist Studies, and

WHEREAS, Angela Davis is the author of nine books and has lectured throughout the United States as well as in Europe, Africa, Asia, Australia, and South America. In recent years a persistent theme of her work has been the range of social problems associated with incarceration and the generalized criminalization of those communities that are most affected by poverty and racial discrimination. She draws upon her own experiences in the early seventies as a person who spent eighteen months in jail and on trial, after being placed on the FBI'S "Ten Most Wanted List." She also has conducted extensive research on numerous issues related to race, gender and imprisonment. Her most recent books are *Abolition Democracy* and *Are Prisons Obsolete?* About the abolition of the prison industrial complex, and a new edition of *Narrative of the Life of Frederick Douglass*. This Fall she will publish a new collection of essays entitled *The Meaning of Freedom*, and

Internationally, she is affiliated with Sisters Inside, an abolitionist organization based in Queensland, Australia that works in solidarity with women in prison, and

WHEREAS, Like many educators, Professor Davis is especially concerned with the general tendency to devote more resources and attention to the prison system than to educational institutions. Having helped to popularize the notion of a "prison industrial complex," she now urges her audiences to think seriously about the future possibility of a world with-

out prisons and to help forge a 21st century abolitionist movement, and

WHEREAS, Professor Davis has worked with her longtime associate Charlene Mitchell, the Honorable Claudia House Morcom, the Honorable JoAnn Watson and others in the National Alliance Against Racist and Political Repression (NAARPR); to promote Human Rights policies, to dismantle the Prison Industrial Complex, and to address the genocidal policies which disproportionately impact People of Color, as she tirelessly champions the Rights of All People to access Peace, Justice, Dignity and Freedom, and

WHEREAS, Professor Davis was acquitted 40 years ago, in a landmark case, and the forces who tried to silence her then are currently working to: suppress voter participation, destroy organized labor, attack Women's Rights and labor rights; and divide people through racism and intolerance. The City of Detroit Played a major role in securing Angela Davis' freedom and promoting her lifelong Fight for Justice, NOW THEREFORE BE IT

RESOLVED, That the City of Detroit hereby welcomes the fearless Warrior Sister, the Legendary Lioness of the Movement and a Prophetic Voice for such a time as this — Professor Angela Y. Davis to the City of Detroit.

Office of the City Clerk

October 18, 2012

Honorable City Council:

Re: Petition No. 2587 — SER Metro-Detroit, Jobs for Progress, Inc., requesting resolution from your Honorable Body for a charitable gaming license.

On this date, your Honorable Body referred the above petition to this office for investigation. Petitioner wishes to be recognized as a nonprofit organization in order to receive a gaming license from the Bureau of State Lottery.

Be advised that the organization meets the criteria for such recognition as established by the City Council on May 14, 1986.

Therefore, approval of this petition is recommended and an appropriate resolution is attached.

Respectfully submitted,

JANICE M. WINFREY

City Clerk

By Council Member Jones:

Whereas, The Bureau of State Lottery requires a local civic organization seeking a charitable gaming license to obtain a resolution from its local governing body stating that the organization is recognized by the City as a non-profit organization; and

Whereas, The Detroit City Council regularly receives petitions from organizations requesting recognition as non-profit organizations for the purpose of holding such an event; and

Whereas, City Council's guidelines for such recognition were adopted by resolution on May 14, 1986, and are in need of updating to conform to minor changes in State law; Now, Therefore Be It

Resolved, That the following criteria are adopted as policy by the Detroit City Council for granting non-profit recognition to civic organizations located within the City of Detroit for the purpose of hosting charitable gaming events:

1) The request for recognition by the City Council as a non-profit organization is made solely for the purpose of obtaining a license from the State of Michigan to conduct a bingo, millionaire party, raffle, charity game, or numeral game; and

2) The organization must furnish evidence that it is located in the City of Detroit; and

3) The organization must furnish a copy of the letter from the Internal Revenue Service (IRS) stating that the organization is exempt from federal tax under IRS code 501(c); and

4) The organization must furnish evidence that it falls within the State's definition of "service organization" as set out in MCL 432.103(k)(ii):

"Service organization" means....A local civic organization that is organized not for pecuniary profit; that is not affiliated with a state or national organization; that is recognized by resolution adopted by the local governmental subdivision in which the organization conducts its principal activities; whose constitution, charter, articles of incorporation, or bylaws contain a provision for the perpetuation of the organization as a nonprofit organization; whose entire assets are used for charitable purposes; and whose constitution, charter, articles of incorporation, or bylaws contain a provision that all assets, real property, and personal property shall revert to the benefit of the local governmental subdivision that granted the resolution upon dissolution of the organization.

And Be It Further

Resolved, That the City Council reserves the right to deny recognition, notwithstanding compliance with the foregoing requirements, due to confusion which may be caused by close similarity in name to another established organization; or evidence that the organization is operating under false pretenses; and Be It Finally

Resolved, That the City Council may waive any of the above criteria, with the exception of numbers 1 and 2, for the purpose of accommodating small organizations who do not meet said criteria and who can demonstrate a legitimate reason for not meeting said criteria.

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Nays — None.

The modification is being requested to allow for the proposed Whole Foods grocery store to include as part of its operation the consumption of alcoholic beverages on the premises.

Background

In February 2012, the Detroit City Council approved Ordinance No. 03-12 which allowed a retail grocery store (Whole Foods Market) to be built at 115

Mack Avenue. In 2011, when the proposed Whole Foods store was initially presented to the City Planning Commission (CPC) for review, it was not aware that Whole Foods wanted to include as part of its operation the consumption of alcoholic beverages on the premises. As a result, it was decided that Whole Foods would need to seek approval from the City, at a later date, as a separate review process.

Proposal

At the subject site, Whole Foods is in the process of constructing a 21,500 square foot building with an 86-space parking lot. The store will have the standard Whole Foods offerings, including produce, meat, dairy, freezer items, etc., and the sale of beer and wine. Similar to its other stores, the market would include a bakery, hot/cold food bar, pizza hearth, as well as an indoor dining area and outdoor café area near the front door.

Whole Foods indicates a small, but important part of its operation, similar to other Whole Foods and upscale markets, is to provide a small bar where customers can purchase a small glass of beer or wine; the customer could drink at the bar, drink while shopping, or could consume the beverage with a meal in the dining areas. Whole Foods indicates the bar itself is usually small with about 4 seats; many of the beers and wines featured at the bar are on sale and/or part of a weekly promotion. Whole Foods indicates customers could not purchase a bottle of wine or beer, open it, and then consume it — any bottle purchased would have to be removed from the premises in an unopened condition.

Public Hearing

On September 20 and October 4, 2012, the City Planning Commission held public hearings on the subject PD modification. At the October 4th hearing, one person, representing Midtown Detroit, Inc. spoke in support of the proposal.

Analysis

Previous Conditions

The aforementioned Ordinance No. 03-12 included the following three conditions:

1. That any lighting to be installed in the parking lot or on the building exterior be compatible with the surrounding residential community to the west and designed to reflect downward and that the light levels/intensity of lighting be reduced outside of normal business hours;

2. That the site plans and elevations be revised to show roof-mounted mechanical screening and that it comply with Sec. 61-14-276 of the Detroit Zoning Ordinance; and

3. The final site plans, elevations, landscaping lighting and signage plans be submitted to the City Planning Commission staff for review and approval for consistency with approved plans prior to

making application for applicable permits.

These conditions have not yet been satisfied, because construction on the store is just beginning.

Master Plan

The subject property is located in the Lower Woodward area of Neighborhood Cluster 4 of the Detroit Master Plan of Policies. The future land use designation for the subject parcel is Mixed-Residential/Commercial (MRC). The Master Plan states that, "MRC areas consist predominantly of medium-to-high density housing developed compatibly with commercial and/or institutional uses. This classification is well suited to areas proximal to existing centers of major commercial activity, major thoroughfares, transportation nodes, or gateways into the city." The Planning & Development Department indicates the proposed modification conforms to the intent of the Master Plan of Policies.

Development Plan

The subject site is located within Medical Center Rehabilitation Project Number 1 urban renewal area. For the subject site, the urban renewal plan allows for commercial, residential, and institutional uses. The definition of commercial uses within the Plan includes retail merchandise stores. It appears nothing in the Plan would prohibit the consumption of alcohol at a retail use.

Zoning Regulations

The applicant indicates it will be requesting from the Michigan Liquor Control Commission (MLCC) a Class C liquor license, which will be downgraded to a Tavern license. The Zoning Ordinance includes an "Establishment for the sale of beer or intoxicating liquor or consumption on the premises" (also known as bars) as a Regulated Use. The Zoning ordinance prohibits the establishment of a Regulated Use if there are already two other Regulated Uses within 1,000 radial feet. Regulated uses also include brewpubs, cabarets, public dance halls, hotels, public lodging houses, motels, pawnshops, plasma donation centers, and secondhand stores and secondhand jewelry stores.

CPC research has confirmed from MLCC records that there presently exist at least three bars within a 1,000 foot radius of 115 Mack Avenue, which include the Detroit Symphony Orchestra and two fraternities in Brush Park. The CPC is not aware of any other regulated uses within a 1,000 foot radius of 115 Mack.

The Zoning Ordinance includes a waiver provision (Sec. 61-3-271), which allows the Board of Zoning Appeals to waive the spacing requirements for Regulated Uses, subject to specific findings being made. However, since the proposed Regulated Use is located within a PD zoning classification, the CPC understands,

based on consultation with the City's Law Department, that City Council has final review and approval.

The findings listed under Sec. 61-3-271, "Waiver of spacing requirements from other Regulated Uses" are as follows:

- 1. The proposed use will not be contrary to the public interest or injurious to nearby properties and the spirit and intent of this Zoning Ordinance will be observed; and
- 2. The proposed use will not enlarge or encourage the development of a "skid row" area, being a corridor of blight and deterioration; and
- 3. The establishment of an additional Regulated Use in the area will not be contrary to any program of neighborhood conservation or interfere with any program or urban renewal; and
- 4. The general approval criteria for variances, as provided for Sec. 61-4-81 of this Code, have been met; and
- 5. All other applicable regulations of this Zoning Ordinance will be observed.

The CPC thinks that all of the above listed findings are met by the subject proposal. Overall, the CPC thinks the con-

sumption of beer and wine at the Whole Foods is a small component of the store's operation and would not encourage the development of a "skid row" or be injurious to nearby properties.

Conclusion

At its meeting on October 4, 2012, the City Planning Commission took action to recommend **APPROVAL** of Whole Foods Market Group, Inc.'s request to modify the approved plans for the existing PD zoning classification on District Map No. 4 of the Detroit Zoning Ordinance at 115 Mack Avenue to allow the proposed grocery store to include as part of its operation the consumption of alcoholic beverages on the premises.

Attached is an ordinance, approved as to form, by the Law Department, for introduction and the setting of the required public hearing.

**City of Detroit
Historic Designation Advisory Board**

October 23, 2012

Honorable City Council:

Re: Petition #2218, Historic Designation Advisory Board submitting its final report and recommendation and the proposed ordinance for Capitol Park Historic District (For Introduction of Ordinance and the Setting of a Public Hearing).

At the direction of the Historic Designation Advisory Board at its meeting of October 11, 2012, I am pleased to submit to your Honorable Body the Board's final report of the proposed Capitol Park Historic District. The recommendation of the Advisory Board is for designation and, therefore, an ordinance of designation is attached. The ordinance has been approved as to form by the Law Department. However, Law's review resulted in an alteration to the boundaries as recommended by the Advisory Board and a concurrent recommended alteration to the boundaries of the Washington Boulevard Historic District. Law's basis for these changes/additions is to keep related properties within the same district.

This designation was requested by the Detroit Economic Growth Corporation. Mark Denson was appointed to an *ad hoc* membership with the Advisory Board representing the community interest. Leor Barak was appointed as an *ad hoc* to the Advisory Board representing the ownership interest.

Also attached is a copy of the minutes from the public hearing held by the Advisory Board on this matter.

If you should have any questions, please contact our office at 224-3487.

AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-189 to establish the Capitol Park Local Historic District and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code is amended by adding Section 25-2-189 to read as follows:

Sec. 25-2-189. Capitol Park Local Historic District.

(A) A historic district to be known as the Capitol Park Local Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Capitol Park Local Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

Beginning at the intersection of the centerline of the alley west of the parallel to Woodward Avenue and the centerline of the alley east of an parallel to Washington Boulevard, proceeding south along the centerline of the latter alley to the centerline of State Street, thence east along the centerline of State Street, to the intersection with the centerline of Shelby Street, thence south along the centerline of Shelby Street to the centerline of the east-west alley north of and parallel to Michigan Avenue, thence east along the centerline of said alley to the centerline of Griswold Street, thence southeasterly along the centerline of Griswold Street to the centerline of Michigan Avenue, thence east to the (extended) east line of lot 47 of Section 8, Governor and Judges Plan as recorded in Liber 34 of Deeds, Page 543, Wayne County Records, thence north along said (extended) lot line to the centerline of the alley north of Michigan Avenue and perpendicular to Griswold Street, thence northeasterly along the centerline of said alley to the centerline of the alley west of and parallel to Woodward Avenue, thence northwesterly along the centerline of said alley to the point of beginning. [Legal description: Lots 47, 48, and 57-82, Plat of Section 8, Governor & Judges Plan, Liber 34 of Deeds, Page 543, Wayne County Records.]

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code, are as follows:

(1) Height. The eighteen contributing buildings in the district range in height from one (1) to thirty-seven (37) stories tall with the average height being nine (9) stories tall. The buildings on the west side of Griswold Street range in height from the two-story structure at 1427-1439

Griswold Street and two one-story non-contributing buildings located at 1405 and 1201 Griswold Street to the eleven (11) story Smith Building at 1145 Griswold Street and State Street. On the east side of Griswold Street, buildings range in height from the two (2) story Wayne County and Home Savings Bank at 44 Michigan Avenue at the corner of Griswold Street and Michigan Avenue to the towering thirty-seven (37) story David Stott building at 1150 Griswold Street on the corner of Griswold Street and Grand River Avenue. Most buildings in the district abut one another to define a fairly continuous streetscape with the exception of through streets and empty lots used for surface parking. In general, there is little uniformity of building heights within the district.

(2) *Proportion of Buildings' Front Façades.* The proportions of individual front façades vary greatly within the district. Most buildings in the district tend to be taller than wide, with the exception of the two story building at 1427-1439 Griswold Street and the Wayne County and Home Savings Bank at 44 Michigan Avenue. Several non-contributing buildings that are wider than tall include the one-story buildings at 1405 and 1201 Griswold Street and the parking garage at 1411 Griswold Street. Throughout the district many of the buildings that are significantly taller than wide abut one another or share a party wall and collectively form a row that is wider than tall. Several buildings in the district have an articulated base with large storefront windows on the lower levels, befitting of the district's history as a commercial district and bays with windows on their upper levels. The Smith Building at 1145 Griswold Street sits at the corner of Griswold Street and State Street and has a ground floor with storefronts and a mezzanine level with maroon colored metal panels and octagonal windows. Above the mezzanine, windows are grouped into threes between pilasters separating the bays. The Brown Brothers Cigars building at 119 State Street has a lower level with a continuous row of storefront windows interrupted by columns on its Griswold Street façade, while its upper level has three vertical bays divided by pilasters with semi-circle arches on the fifth and sixth stories. The Griswold Building at 1214-1230 Griswold Street has a structure composed of two parts: a pronounced base and a U-shaped tower. The three-story base is divided into nine bays with storefronts and awnings, while the U-shaped nine-story tower has two bays on either side of the façade that are flush with the base below, and five bays that are set back from the face of the building. The fenestration of the first and second stories of the Issac Agree Downtown Synagogue at 1457 Griswold

Street has been altered with the removal of the original windows and now has rectangular aluminum frames filled with colored windows. The building at 1416 Griswold Street has entrances on the first level and only has windows above its molded course.

(3) *Proportion of Openings Within the Façades.* The buildings within the Capitol Park Historic District are each composed of approximately thirty-five (35) to sixty (60) percent openings in their front façades. Shapes and sizes of openings generally depend on the style and age of the buildings, and the extent of exterior alterations. Storefront and display windows on the first floor are commonplace. Façades are typically divided into bays, with entrances either centered on the front façade or centered within an individual bay while buildings of the Romanesque style have large round arched entrances. Throughout the district, window openings tend to be vertical, rectangular, double-hung, fixed, and pivot windows centered within bays as either single openings or grouped into twos or threes, with the exception of buildings whose façades have been completely redesigned, such as the United Savings Bank of Detroit at 1133-1139 Griswold Street.

(4) *Rhythm of Solids to Voids in Front Façades.* Most buildings in the district have a regular rhythm of solids to voids articulated by large storefronts on the lower level and pilasters defining vertical bays from the ground or second floor to the parapet. Windows tend to be centered within bays, either single or grouped, and arranged one over the other throughout the district. A few notable exceptions exist, such as the United Savings Bank of Detroit at 1133-1139 Griswold Street, with its original windows and arches obscured by panels and grills. The first floor of most buildings in the district have greater void than solid on the first floor to accommodate store front and plate glass windows. Issac Agree Downtown Synagogue at 1457 Griswold Street is one exception, with its first floor bays infilled with brick, and all windows located above eye level.

(5) *Rhythm of Spacing of Buildings on Streets.* Rhythm of spacing on streets is generally determined by setbacks from the lot lines. Buildings typically abut each other throughout the district. Where there are surface parking lots as a result of building demolition, the original rhythm is broken. The buildings located on the west and east sides of Griswold Street between Grand River Avenue and State Street, and south of State Street between Shelby Street and Griswold Street, generally abut one another and frame the landscaped Capitol Park.

(6) *Rhythm of Entrance and/or Porch Projections.* There is little uniformity among primary entrances, as many build-

ings in the district have ground floors with several entrances to accommodate multiple businesses. Where single entrances do exist, they tend to be centered on the front façade or centered within the bay. Most entrances are flush with the building façade or the adjacent storefront, and are typically located at grad level. A few entrances in the district are recessed, such as the two storefront entrances of the Malcomson building at 1215-1219 Griswold Street, the double-door entrance to the Issac Agree Downtown Synagogue at 1457 Griswold Street, and National Loan & Investment Company at 1250 Griswold Street. Other buildings have multiple entrances with prominent awnings, such as the Griswold Building at 1214-1230 Griswold Street.

(7) *Relationship of Materials.* A variety of building materials exist throughout the district, including brick, terra cotta limestone, granite, concrete, stone, marble, and glass. Window surrounds and frames tend to be steel, aluminum, wood, and concrete. Bases, when present, tend to be limestone or granite, while architectural embellishments tend to be terra cotta, rough stone, patterned or raised brick, cast or carved stone, and Pewabic tile. Metal grills and panels, multi-colored window panes, and awnings are also present on the buildings. Landscaping elements throughout the district include metal light poles and in-ground trees with metal grates. Landscaping elements in Capitol Park include concrete planters, metal benches, a bronze sculpture, historic statue, metal light poles, and aluminum bike racks. In general, the district is rich in its varieties and relationships of materials.

(8) *Relationship of Textures.* Throughout the district, the rough surface of brick, stone, and concrete contrast with the smooth surface of terra cotta, granite metal panels, and glass. oftentimes, the base differs in expression and material from the upper level floors, such as the Griswold Building at 1214-1230 Griswold Street, whose three-story base is faced in limestone which offers a striking contrast to its nine-story brick tower, and the David Stott building at 1150 Griswold Street, which has a reddish granite base that ascends several stories before giving way to tan-orange and then tan bricks with setbacks framed by terra cotta parapets. Architectural details and ornamentation such as belt courses, pilasters, carved console brackets, Tudor arches, carved stone masks, stone plaques and terra cotta parapets provide textural variety and interest to the building façades in the district. In general, the district is extremely rich in textural relationships.

(9) *Relationship of Colors.* The natural brick colors of red, orange, buff, tan, and brownish red dominate the district and are often contrasted with granite, concrete,

tile and stone ornamentation and bases that are red, beige, blue, and cream. Concrete buildings are typically beige, white or cream colored, with large planes of windows and red panels, such as the concrete Wayne County and Home Savings Bank at 44 Michigan Avenue. Window surrounds and sashes tend to be black, brown, tan, white, green, or red. Window and curtain wall glass is typically colorless or multicolored, such as the colorful replacement windows of the Issac Agree Downtown Synagogue at 1457 Griswold Street. Cornices tend to be lighter than the building materials below them, and are typically beige, buff, and white. Details such as decorative tiles on the upper stories of the Smith Building at 1145 Griswold Street are blue, while its lower-level metal panels and those visible between the floor levels on the Wayne County and Home Savings Bank at 44 Michigan Avenue are maroon and red. Entry doors tend to be black, brown, beige, red, or storefront glass, while their awnings are black, red, and blue. Light poles are black; concrete planters are buff. Fire escapes, where they exist, are generally painted black.

(10) *Relationship of Architectural Details.* The styles of the buildings comprising the Capitol Park Historic District include Victorian Romanesque, Richardsonian Romanesque, Art Deco, Beaux Arts, Medieval Revival, and Modern, with architectural elements and details that relate to their styles. Most of the architectural detail is concentrated at the entrance bays, ground stories, cornices, window openings, and upper levels. The Victorian Romanesque Brown Brothers Cigars, at 119 State Street, has semi-circular arches at the fifth and sixth floor and a decorative cornice dividing the two stories. The Malcomson Building at 1215-1219 Griswold Street is Medieval in style and has Tudor arches and carved console brackets. The Chamber of Commerce Building at 1212 Griswold Street is characterized by a straightforward treatment of stone, a regular arrangement of deep-set windows, bowed outer window bays, and large round arched entrances which are indicative of its Richardsonian Romanesque style. The Farwell Building, at 1249-1259 Griswold Street, exemplifies Beaux Arts Classicism with its centrally-located primary entrance highlighted by pilasters with Ionic capitals. Pilasters are also located at the corners of the building and visually support a decorative terra cotta cornice, which divides the second and third stories. The Smith Building, at 1145 Griswold, which is also Beaux Arts in style, has stylized stone pilasters resting on a denticulated cornice dividing the tenth and eleventh story from the lower portion of the building. The two upper stories are also decorated with blue tiled

panels with stone rosettes between the tenth and eleventh story windows, and a parapet with an elaborate low-relief frieze alternating with recessed blue-tiled panels. The David Stott Building, a modern Art Deco skyscraper, has a red granite base and a tiered summit with decorative geometric patterns of limestone. Several buildings in the district have been renovated with significant changes made to their base stories and in some cases, such as the United Savings Bank of Detroit at 1133-39 Griswold, the original Classical Revival style has been obscured by a new façade. The Wayne County and Home Savings Bank, at 44 Michigan Avenue, was first erected as a Classical-inspired building, but later renovated to a modern design with two-story arches of white concrete and large two-story windows. In general the architectural detail on buildings in the district is very rich.

(11) *Relationship of Roof Shapes.* All of the buildings have flat roofs that cannot be seen from the ground.

(12) *Walls of Continuity.* Walls of continuity within the district are primarily created by the adjacent buildings with uniform elements, such as setbacks, materials, and styles. Except where broken by vacant lots, the district has a very high degree of continuity. Secondary walls of continuity are created by evenly spaced lighting fixtures, sidewalks, and planters.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Throughout the district, sidewalks are concrete and roadbeds are asphalt, with the exception of decorative brick-paved areas in Capitol Park. Street furniture is concentrated in Capitol Park, and includes black metal benches, tables and chairs. The historic statue of Michigan's first governor Stevens T. Mason, a metal sculpture, historic markers, and concrete planter boxes for trees and low-lying plants are also concentrated in Capitol Park. In-ground trees within metal grates are located in front of a few buildings along Griswold Street. Tall, black metal fluted lamp posts with single lamps illuminate sidewalks throughout the district and within Capitol Park, while tall lamp posts with double pendant lights have been placed along the western edge of Capitol Park.

(14) *Relationship of Open Space to Structures.* In general, the Capitol Park Historic District is densely built-up with buildings directly abutting one another, and open spaces resulting from public streets and alleys, surface parking lots, and the triangular open space of Capitol Park framed by buildings and streets on every side. Awnings and canopies commonly extend into the public rights of way throughout the district.

(15) *Scale of Façades and Façade Elements.* The façades range from small

in scale to the monumental thirty-seven story David Stott Building. Most buildings in the district are small-and-medium scaled and help to frame the streetscape and the open space of Capitol Park. Elements and details are in proportion to their respective façades.

(16) *Directional Expression of Front Elevations.* The directional expression of individual front façades varies throughout the district, but generally, the expression of buildings tends to be vertical, with the exception of the two-story building at 1427-1439 Griswold Street and the Wayne County and Home Savings Bank at 44 Michigan Avenue. Several non-contributing buildings are horizontal in directional expression, including the one-story buildings at 1405 and 1201 Griswold Street and the parking garage at 1411 Griswold Street. Where buildings share party walls or abut one another, the horizontal nature of the elevations are emphasized.

(17) *Rhythm of Building Setbacks.* Most buildings occupy their entire building parcels, resulting in uniformity of building setbacks.

(18) *Relationship of Lot Coverage.* Lot coverage by the buildings in the district is generally one hundred percent (100%), as the vast majority of buildings occupy their entire lots. The buildings in the district help to frame the triangular open space of Capitol Park, which is pedestrian in nature and contains no buildings.

(19) *Degree of Complexity Within the Façades.* The district contains façades with various degrees of complexity, depending on style. Most buildings in the district have simple storefronts on the ground floor, bases articulated by materials or cornices, windows centered within bays, and more complex ornamentation and details such as decorative cornices, arched windows, rosettes, console brackets, fan motifs, low-reliefs, etc., on the upper floors.

(20) *Orientation, Vistas, Overviews.* The Capitol Park Historic District is comprised of twenty-one buildings constructed for commercial use, and Capitol Park, which is a large triangular open space located between the two-way traffic of Griswold Street on the east, the brick-paved service and pedestrian side of Griswold Street, an extension of Shelby Avenue, on the west, and State Street on the south, with Grand River Avenue to the north. The Capitol Park Historic District is a triangular area surrounded by four historic districts, which provide dramatic views and vistas of historic buildings and beautiful streetscapes. Surrounding the district is Washington Boulevard Historic District to the west, Lower Woodward Avenue Historic District to the east, Grand Circus Park Historic District one block to the north, and Historic Detroit Financial District to the south.

(21) Symmetric or Asymmetric Appearance. While individual buildings display a high degree of symmetry in their major façades, the district on the whole is diverse in its array of building designs.

(22) General Environmental Character. Capitol Park Historic District is located along the north-south spine of Griswold Street, between Michigan Avenue and Clifford Street, one block north of Grand River Avenue. Capitol Park was built up over a period of time, old buildings replaced by newer ones, which adds to its diversity of architectural styles spanning over fifty years of architectural history. The district is an urbanized yet pedestrian-friendly place, as exemplified by first floor storefronts, accessible mezzanines, and the open landscaped space of Capitol Park located at the core of the district.

Section 2. All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. This ordinance shall be given immediate effect upon publication in accordance with Section 4-118 of the 2012 Detroit City Charter.

AN ORDINANCE to amend Chapter 25, ARTICLE II of the 1984 Detroit City Code by adding Section 25-2-190 to establish the Palmer Park Apartment Buildings Local Historic District, and to define the elements of design for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code be amended by adding Section 25-2-190 to read as follows:

Sec. 25-2-190. Palmer Park Apartment Buildings Local Historic District.

(A) A historic district to be known as the Palmer Park Apartment Buildings Local Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Palmer Park Apartment Buildings Local Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

Land within the Merrill-Palmer Subdivision, L 45, P 54 of Plats, Wayne County Records, described as beginning at the intersection of Woodward Avenue and Merton Road; thence west along the centerline of Merton Road to the centerline of the alley west of Woodward Avenue; thence south along the centerline of said alley to its intersection with the centerline of the alley between Merton Road and McNichols Road; thence west along the centerline of said alley to the south property line of 17122-17142

Second Avenue (south line of lot 165); thence west along said property line to the centerline of Second Avenue; thence south along said centerline to the intersection of the centerlines of Second Avenue and McNichols Road; thence west along the centerline of McNichols Road to the west property line of 642 W. McNichols Road (west line of lot 65); thence north along said property line to the centerline of the alley between Merton Road and McNichols Road; thence west along the centerline of said alley to the centerline of the alley east of Third Avenue; thence south along said centerline to the centerline of McNichols Road; thence west along said centerline to the intersection of the centerline of McNichols Road and Third Avenue; thence north along the centerline of Third Avenue to the intersection of the centerlines of Third Avenue and Merton Road; thence west along the centerline of Merton Road to the east property line of 831-841 Merton Road (east line of lot 139); thence south along said property line to the centerline of the alley between Merton Road and McNichols Road; thence west along the centerline of said alley to the west line of the alley east of Pontchartrain Boulevard; thence north along said west line of said alley to its intersection with the west property line of 1000 Merton Road (west line of lot 399); thence north along the west property line of 1000 Merton Road (lot 399) to the west line of the alley west of Manderson Road; thence north along said west line to the west property line of 17765 Manderson Road (lots 438-441); thence north and east along the property line of 17765 Manderson Road to the north line of Covington Drive; thence east along said line to the centerline of Woodward Avenue; thence south along said centerline to the point of beginning. (Legal description: Lots 54-65, 84-88, 124-139, 144-189, and 197-497, "Merrill-Palmer Subdivision, being a subdivision of part of Sec. 11, T. 1 S., R. 11 E., City of Detroit, Wayne County, Michigan" as recorded in Liber 45, Page 54 of Plats, Wayne County Records.)

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code, are as follows:

(1) Height. Apartment buildings within the district range in height from two (2) stories to five (5) stories. Other building types are one (1) or two (2) stories in height. In general building heights vary within the district. Two-(2)- story apartment buildings are often in the form of broad rowhouses, while taller apartment buildings are often clustered in buildings of similar height.

(2) Proportion of Building's Front Façades. While the proportions of individual front façades varies considerably within the district, buildings are typically wider than tall on all elevations. Older residen-

tial buildings within the district tend to be slightly wider than tall, while newer residential buildings tend to be significantly wider than tall.

(3) *Proportion of Openings Within the Façades.* Openings typically amount to between twenty (20) and thirty-five (35) percent of the front facade. Religious buildings feature a somewhat lesser amount of fenestration on the front facade. Two (2) apartment building façades fronting on McNichols Road feature commercial storefronts with additional door and window openings on the first floor. Window types and proportions of individual windows vary greatly within the district, and include sash, easement, fixed, jalousie, glass block, and other types of windows appropriate to the variety of time periods and architectural styles found within the district.

(4) *Rhythm of Solids to Voids in the Front Façades.* Despite a variety of building types, the overall impression is one of regular, repetitive openings arranged horizontally within façades. While individual buildings are sometimes irregular in plan and display more varied, sometimes asymmetrical, arrangements of openings, the overall impression is dominated by regular, repetitive openings. Window openings are usually, but not always, arranged one over the other by floor. Door openings tend to be human in scale on residential buildings.

(5) *Rhythm of Spacing of Buildings on Streets.* Rhythm of spacing on streets is generally determined by setbacks from side lot lines. The overall character of the district is one of densely clustered, yet visually distinct, structures separated by narrow, relatively uniform side setbacks. Although spacing between buildings tends to be regular, the width of subdivision lots, and of individual buildings, varies considerably. Front setbacks of buildings vary greatly from one building to the next, and even on the same building as façades are often defined by irregular building footprints.

(6) *Rhythm of Entrance and/or Porch Projections.* Front entrances to apartment buildings are often recessed within partial courtyards on buildings with U-shaped footprints. Entrances themselves often project slightly with simple porches. A few entrances are recessed slightly within their façades. Entrances are typically located one step, or a small number of steps, above grade. In general, there is little uniformity among primary entrances, as a great variety of architectural styles is found within the district.

(7) *Relationship of Materials.* A majority of buildings are faced with brick and feature stone or cast stone trim. Accents in materials such as wood timbering or glazed tile may exist, depending on architectural style. Religious buildings within the district are clad predominantly in

stone. The building at 999 Whitmore is clad in stucco. Roof materials are usually asphalt shingle or membrane but clay tile roofs are also present, depending on architectural style. Copper roof accents exist on a small number of buildings. Sash windows are typically wood, while other windows are typically metal, though in some cases windows have been replaced with windows of more modern materials. In general, the district is rich in its varieties and relationships of materials.

(8) *Relationship of Textures.* On a majority of buildings within the district, the major textural effect is that of brick with mortar joints juxtaposed with cast stone or limestone trim. Patterned brickwork is used to create subtle detail on apartment buildings. Brick corbelling may create strong textural interest, such as on the building at 17725 Manderson. Architectural details and ornamentation such as belt courses, pilasters, dentils and crenellation, and round, Tudor, and Moorish arches provide textural variety and interest to the building facades in the district. In general, the district is extremely rich in textural relationships. A wide variety of window configurations and materials within the district contributed to textural interest. Asphalt shingle roofs do not contribute to textural interest.

(9) *Relationship of Colors.* Natural brick colors in shades of brown, red, and buff, predominate on wall surfaces, while visible, sloped roofs typically feature gray asphalt, while some feature red or clay tile. Wooden architectural details are frequently painted in subdued colors, appropriate to the architectural style of the building. Brick apartment buildings are generally unpainted, with gray stone trim contrasting with brown or buff brickwork. The original colors of any building, as determined by professional analysis, are always acceptable for that building and may provide guidance for similar buildings.

10. *Relationship of Architectural Details.* Buildings in the district exemplify a broad range of architectural styles, and their architectural details relate to their style. Architectural styles include Jacobethan Revival, Egyptian Revival, Mediterranean Revival, Tudor Revival, Moorish Revival, Art Deco, Moderne, International Style, Neo-Georgian, and Colonial Revival. Buildings tend to be high-style in appearance, with the level of architectural detail varying greatly from one building to the next. In general, the architectural detail on buildings in the district is very rich.

11. *Relationship of Roof Shapes.* A majority of apartment buildings and have flat roofs which cannot be seen from the ground, but hip roofs are also common. Gable roofs are rare. The building at 17425 Second bears a tall steeple.

12. *Walls of Continuity.* Although many

buildings feature irregular or U-shaped footprints, a wall of continuity is maintained by end bays with similar setbacks. The wall of continuity is broken only where building demolitions have created vacant lots. Mature trees and public lighting fixtures generally do not contribute to a wall of continuity due to their irregular placement throughout the district.

13. *Relationship of Significant Landscape Features and Surface Treatments.* Trees, hedges, and other landscaping features are significant, but vary from one building to the next. Trees in the front yards of buildings vary in size, age, and species. Apartment buildings typically feature flat, grassy front lawns, often bisected by concrete sidewalks. Alleys provide access to the rear of a majority of lots in the district. Most commercial buildings, and a smaller number of apartment buildings, are built up to the front lot line. Public sidewalks run alongside all streets in the district. Curbs, while historically stone, have been replaced with concrete in a much of the district. Covington Drive, with its broad median, is a significant landscape feature.

14. *Relationship of Open Space to Structures.* Apartment buildings typically feature front yards that vary in size. Many apartment buildings irregular or U-shaped footprints, with end bays that extend forward towards the street to embrace partial courtyards. Large areas of open space exist only where they have been created by building demolition; sometimes these spaces serve as parking lots or are maintained as open lawns.

15. *Scale of Façades and Façade Elements.* Despite a range of building heights and widths, a sense of uniform scale is maintained throughout the district. Two houses on Alwyne Drive are much smaller in scale than the rest of the district, while religious buildings tend to be larger in scale.

16. *Directional Expression of Front Elevations.* Due to a wide variety of architectural styles in the district, facades may be either horizontal or vertical in direction expression, with neither type dominating.

17. *Rhythm of Building Setbacks.* While a degree of irregularity is introduced by varying setbacks of front facades, the overall impression is one of a consistent rhythm of building setbacks. Where building demolition has occurred, the original rhythmic progression of buildings has been disrupted.

18. *Relationship of Lot Coverages.* Lot coverages within the district range from approximately forty percent (40%) to approximately eighty percent (80%), with many apartment buildings featuring grassy lawns and courtyards. Religious buildings include significant amounts of open space.

19. *Degree of Complexity Within the Façades.* The facades within the district

range from simple to complex, depending on style. Architectural complexity, when found on front facades, tends to continue on side elevations as well. Front facades are often irregular in their massing and fenestration, and a variety of window and door shapes, materials, architectural elements, and details of individual buildings increase the overall level of complexity of the district.

20. *Orientation, Vistas, Overviews.* Buildings generally face the streets and are entered from the front facade by a single or double doorway. Religious buildings, due to their somewhat larger scale, constitute landmarks that are often visible from several blocks away. Buildings on Covington Avenue are oriented to face the mostly-wooded Palmer Park located directly across the street.

21. *Symmetric or Asymmetric Appearance.* The appearance of front facades in the district may be symmetrical or asymmetrical in massing and architectural detail. Single family residential buildings tend to display a modest degree of asymmetry in massing and architectural detail. The district on the whole is diverse in its array of building designs, setbacks, and footprints, creating a general feel of asymmetry throughout the district.

22. *General Environmental Character.* The general character of the district is that of a high-density, pedestrian-friendly, urban residential neighborhood of moderately-sized apartment buildings. Although the neighborhood is almost exclusively residential in use, the varied physical appearance of its buildings creates the feel of a diverse environment.

Section 2. All ordinances or parts of ordinances, resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. This ordinance shall be given immediate effect upon publication in accordance with Section 4-118 of the 2012 Detroit City Charter.

Historic Designation Advisory Board

October 23, 2012

Honorable City Council:

Re: Petition #2218, Historic Designation Advisory Board submitting its final report and recommendation and the proposed ordinance for Capitol Park Historic District (For Introduction of Ordinance and the Setting of a Public Hearing).

At the direction of the Historic Designation Advisory Board at its meeting of October 11, 2012, I am pleased to submit to your Honorable Body the Board's final report of the proposed Capitol Park Historic District. The recommendation of the Advisory Board is for designation and, therefore, an ordinance of designation is attached. The ordinance has been approved as to form by the Law Department. However, Law's review resulted in an alteration to the boundaries as recommended by the Advisory Board and a concurrent recommended alteration to the boundaries of the Washington Boulevard Historic District. Law's basis for these changes/additions is to keep related properties within the same district.

This designation was requested by the Detroit Economic Growth Corporation. Mark Denson was appointed to an *ad hoc* membership with the Advisory Board representing the community interest. Leor Barak was appointed as an *ad hoc* to the Advisory Board representing the ownership interest.

Also attached is a copy of the minutes from the public hearing held by the Advisory Board on this matter.

If you should have any questions, please contact our office at 224-3487.

AN ORDINANCE to amend Chapter 25, Article II, of the 1984 Detroit City Code by adding Section 25-2-147 to modify the boundaries of the Washington Boulevard Local Historic District to incorporate the parcel at the southwest corner of State and Shelby and the parcel at 150 Michigan immediately east of and adjacent to the Book Cadillac Hotel,

and to delete the obsolete design treatment level for the district.

IT IS HEREBY ORDAINED BY THE PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code is amended by amending Section 25-2-147 to read as follows:

Sec. 25-2-147. Washington Boulevard Local Historic District.

(A) A historic district to be known as the Washington Boulevard Local Historic District is hereby established in accordance with the provisions of this article.

(B) This historic district designation is hereby certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the Washington Boulevard Local Historic District are as shown on the map on file in the office of the city clerk, and shall be as follows: Beginning at a point, that point being the intersection of the centerline of Shelby Griswold Street with the centerline of Michigan Avenue; thence west along the centerline of Michigan Avenue to its intersection with the west line of the right-of-way of Washington Boulevard; thence north along the west line of the Washington Boulevard right-of-way to its intersection with the centerline of State Street; thence west along the centerline of State Street to its intersection with the west line of the vacated right-of-way of the north-south alley lying between Washington Boulevard and East Park Place; thence north along the west line of said vacated alley to its intersection with the centerline of Grand River Avenue; thence east along the centerline of Grand River Avenue to its intersection with the west line of the Washington Boulevard right-of-way; thence north along the west line of the Washington Boulevard right-of-way to its intersection with the centerline of Clifford Street; thence east along the centerline of Clifford Street to its intersection with the centerline of the north-south alley lying between Washington Boulevard and Griswold Street; thence south along the centerline of said north-south alley ~~and the centerline of the continuing north-south alley lying between Washington Boulevard and Shelby Street~~ to its intersection with the centerline of State Street, thence east along the centerline of State Street to its intersection with the centerline of Shelby Street, thence south along the centerline of Shelby Street to its intersection with the centerline of the east-west alley lying between Michigan Avenue and State Street; thence east along the centerline of the said east-west alley to its intersection with the centerline of Shelby Griswold Street; and thence southeasterly along the centerline of Shelby Griswold Street to the point of beginning. [Legal description: Lots 1-15, ~~53, 54~~, 50-56, the vacated alley

abutting Lots 3, 4, and 53-56, and vacated Shelby Street between Lots 52 and 53, Plat of Section 8, Governor and Judges Plan (~~Deeds~~), Liber 34 of Deeds, Page 543, Wayne County Records; also, Lots 1-4 of the Subdivision of Lot 49, Section 8, Governor and Judges Plan, Liber 163 of Deeds, Page 120, Wayne County Records (note: Lots 1-4 of the Subdivision of Lot 49, and Lots 50-52 and vacated Shelby Street between Lots 52 and 53 of Section 8 of the Governor and Judges Plan, are now described as "Michigan Avenue Parking Facility Condominium, Wayne County Condominium Subdivision Plan No. 981", as recorded in Liber 47641, Page 426, Wayne County Records); also Lots 5-10 and the vacated alley adjacent thereto, ~~Plan~~ Plat of Section 10, Governor and Judges Plan (~~Deeds~~), Liber 34 of Deeds, Page 553, Wayne County Records.]

~~The design treatment level of the Washington Boulevard Local Historic District shall be conservation as provided for in Section 25-2-2 of this code.~~

(D) The defined elements of design, as provided for in Section 25-2-2 of this code, ~~shall be~~ are as follows:

(1) *Height.* The buildings in the Washington Boulevard Local Historic District range from two (2) to thirty-six (36) stories tall.

(2) *Proportion of Buildings' Front Facades.* Proportion varies in the district, depending on the size of the building, its period of construction, and its function. Most of the front facades of individual buildings are taller than wide but may have visible side elevations wider than tall when located on corner lots. Two-story buildings are significantly wider than tall. The upper stories of some of the taller buildings have modest setbacks.

(3) *Proportion of Openings Within the Facades.* Entrance openings exhibit single openings taller than wide; when several doors are grouped together, sometimes with flanking fixed windows, entrance openings are wider than tall. Square storefront windows and entrance bays line the ground floor of the commercial buildings. Individual window openings above the ground floors and/or mezzanines are usually approximately two times taller than wide but are frequently grouped in openings that are wider than tall, sometimes in the pattern known as "Chicago style" windows. Groupings of windows in arched configurations exist at the upper floors, mezzanine level and ground floor of some of the buildings in the district. Double-hung sash windows are prevalent, sometimes with transoms above, with pivot windows and other single-paned replacement types present. Saint Aloysius Roman Catholic Church and the Chancery Building feature arched openings and the church has traceried windows; a large rose window is centered

above the central arched entrance of the church. Voids range from about one-third to two-thirds of the front facade areas.

(4) *Rhythm of Solids to Voids in Front Facades.* Voids in the front facades of buildings originally used for commercial purposes are generally arranged vertically in bays and horizontally by floor in a regular fashion, due to the stylistic derivation of the buildings, their function and/or their steel frame and curtain wall construction. Voids are arranged according to functions of spaces behind them. Generally, a regular rhythm of entrances and storefront windows exists on the ground floor of the buildings. The front facade of Saint Aloysius Roman Catholic Church contains a main double door arched entrance flanked by secondary arched entrances. A large rose window is located over the door.

(5) *Rhythm of Spacing of Buildings on Streets.* The front facades of buildings in the district are located on the front property line, resulting in a largely unbroken row of abutting buildings within each block.

(6) *Rhythm of Entrance And/ or Porch Projections.* Most of the original entrances facing Washington Boulevard are centered on the facades of individual buildings or, where there are multiple storefronts, are arranged in a regular pattern along the street facade. The Washington Boulevard entrance of the Book-Cadillac Hotel is off-center; its Michigan Avenue entrance is centered. While some entrance openings are recessed, as with the Book Building, no facade projections beyond the front lot line exist at ground level. Marquees and awnings above first floor entrance were and are common.

(7) *Relationship of Materials.* The major building materials common to wall surfaces in the district are limestone, brick, and terra-cotta. Many granite bases also exist. Facades are often trimmed with limestone and/or terra cotta. Pilasters, window frames and spandrels of the Industrial Building are bronze. Window frames are of wood or steel; building grates and the frame of storefront windows and doors are generally metal. The side elevations, where not prominent, and the rear elevations of the buildings in the district are brick. Visible structures above the roof line of the Book-Cadillac Hotel and the Book Tower are roofed in copper. The doors of Saint Aloysius Roman Catholic Church are bronze and the doors of the Chancery Building are wood. The names of street intersections in bronze letters are located on buildings on corner lots above the first floor. Metal fire escapes hang from the rear of several buildings.

(8) *Relationship of Textures.* The low relief pattern of mortar joints in brick, terra cotta or limestone juxtaposed with smooth masonry trim, where it exists, provides textural interest. Glazed terra cotta, polished granite and large glass surfaces

are smooth in texture. Carved or molded repetitive ornamental elements and detail in terra cotta, metal or masonry contrasts with the surface material, providing a high degree of textural interest. Subdivided windows, decorative spandrels, parapets and cornices with repetitive detail, where they still exist, are often areas of textural interest. In general, the district is extremely rich in textural relationships.

(9) *Relationship of Colors.* The majority of buildings in the Washington Boulevard Local Historic District are in light color range. Within this range, many are clad and/or trimmed in light beige limestone, 1420 Washington Boulevard is sheathed in white terra-cotta. Buff brick is plentiful; brown and orange brick also exists. Buildings sheathed in limestone often have brick side and rear elevations in light shades of brick. Window frames tend to be painted in brown, deep green, or a cream color. Pink, black and gray granite faces the base of several buildings. Where there are copper clad roof and penthouse pavilions and terraces, they have weathered blue-green. St. Aloysius Roman Catholic Church has bronze doors and the Chancery Building has stained wood doors. The original colors of any building, as determined by professional analysis, are always acceptable, and may provide guidance for similar buildings.

(10) *Relationship of Architectural Details.* Architectural details generally relate to architectural styles. Early twentieth century buildings in the Beaux Arts, Renaissance Revival, and Italian Romanesque styles exhibit round arches, cartouches, quoins, fluted pilasters, and other classically derived details. The surfaces between windows, the tops of pilasters, cornices and string courses tend to be decorated, often very ornately. The Chancery Building and Saint Aloysius Roman Catholic Church display Italian Renaissance and Romanesque inspiration. Both buildings have gabled roof lines, arched windows, arcading and decorative pilasters. Storefronts typically have apron walls and large expanses of glass, most in their original configurations. The two (2), two-story buildings are of a plainer Art Deco design with modest classical details.

(11) *Relationship of Roof Shapes.* Most roofs of the Washington Boulevard Local Historic District are not visible from the street, with the exceptions of the Saint Aloysius Roman Catholic Church roof, which is gabled; the four (4) two-story pavilions with pyramidal stepped roofs rising from the corners above the roof line of Book-Cadillac Hotel, and the tall, hipped copper roof of the Book Tower. Penthouses, some containing mechanical systems, also exist above the roof lines of some of the buildings.

(12) *Walls of Continuity.* A strong, over-

all wall of continuity is formed by the buildings that abut and are sited on the front lot line. While the red steel pipe environmental structure that stretches for blocks creates continuity by extending in a meandering but linear fashion along the plaza, its design bears no relationship to the historic nature of the streetscape.

(13) *Relationship of Significant Landscape Features and Surface Treatments.* Front facades of buildings are located on the front lot lines, with a narrow border of concrete paving before the brick-paved public sidewalk. Brick paving, concrete walls, trees in metal grates, trolley tracks and the red metal environmental structure replaced the eastern side of the broad boulevard formerly ornamented with stone balustrades, formal promenades, statuary and Beaux-Arts light standards. A multi-lane two-way roadbed is now on the west side of the public right-of-way adjoining the sidewalk adjacent to the building on the west side of the street. Concrete planters line the sidewalks.

(14) *Relationship of Open Space to Structures.* The major open space in the district is the wide public right-of-way that originally consisted of landscaped center islands dividing the roadways of a boulevard; this has been replaced with the existing plaza dominated by concrete, the red metal environmental structure, and a single roadway on the west. A bronze statue of General Alexander Macomb is located on its original granite base at the southern end of the boulevard.

(15) *Scale of Facades and Facade Elements.* Individual building facades range from moderate to large in scale, with the majority being in the large range. Details and elements within individual facades range from moderate to large in scale; the repetition of moderately scaled detail is common while the use of large and oversized elements also exists, particularly on the Book-Cadillac Hotel, Book Tower and Book Building. Signage was placed above the ground floor storefront windows, often in a panel designated for such purpose; sometimes it was part of a marquee or awning, or as a structure on top of the building.

(16) *Directional Expression of Front Elevations.* While most individual buildings are vertical in directional expression, they form a horizontal row along the streetscape where they abut. The two (2) horizontally oriented two-story buildings further emphasize the horizontality of the streetscape. The front facade of Saint Aloysius Roman Catholic Church is oriented vertically, due primarily to the thrust of the central bay with its gable surmounted by a cross.

(17) *Rhythm of Building Setbacks.* No setbacks exist due to the siting of all buildings on the front lot lines.

(18) *Relationship of Lot Coverages.* Each building occupies the full area of its

lot; therefore, lot coverage is approximately one hundred (100) percent.

(19) *Degree of Complexity Within the Facades.* The degree of complexity ranges from simple to complex, depending on style and building type. Several buildings are heavily embellished with decorative detail and ornamentation; these tend to be more complex. Some of the buildings exhibit complex massing of their upper stories.

(20) *Orientation, Vistas, Overviews.* Individual buildings are oriented toward Washington Boulevard; the Book-Cadillac Hotel has a secondary entrance oriented towards Michigan Avenue. Corner buildings sometimes have secondary or office/elevator lobby entrances oriented toward the side street. A varied and interesting silhouette results from the different roof shapes and heights of buildings on Washington Boulevard. Washington Boulevard is one of the streets that emanate like spokes from Grand Circus Park, resulting in unique vistas.

(21) *Symmetric or Asymmetric Appearance.* Most buildings are symmetrical in appearance above the first floor. Many were symmetrical on the first floor as well, depending on the position and number of storefront openings. Multiple changes to the storefronts, including covering them over, has occurred, although a very high degree of integrity still exists. Saint Aloysius Roman Catholic Church is symmetrical on its front (west) facade.

(22) *General Environmental Character.* The general character of the Washington Boulevard Local Historic District is that of a mostly intact assemblage of well-designed, classically inspired and elegant commercial buildings lining the once grand Washington Boulevard streetscape. Saint Aloysius Roman Catholic Church and the Chancery Building are compatible with the rest of the district in materials, openings, setbacks and other elements of design. As part of the historic Woodward Plan, the Washington Boulevard Local Historic District is located in the midst of other historic sections of downtown, including Grand Circus Park, the Theater District, Capitol Park, Lower Woodward Avenue, and Harmony Park.

Section 2. All ordinances or parts of ordinances, or resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. This ordinance shall be given immediate effect upon publication in accordance with Section 4-118 of the 2012 Detroit City Charter.

Re: Petition Number 2092 — Report and Recommendation for Approval of the Issuance of a New Dance and Entertainment Permit by the Michigan Liquor Control Commission in conjunction with the Transfer of a "Class C License" to Rodin, LLC, for an Establishment at 15 East Kirby, Suite D

BACKGROUND

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that, prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance permit, entertainment permit, or a combination dance and entertainment permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located.

Pursuant to this requirement, Rodin, LLC, ("Permit Applicant") has submitted a completed application for City Council approval for the issuance of a new dance and entertainment permit in conjunction with the transfer of a "Class C License" located at 859 Sumpter in Belleville from Bota Enterprises, Inc., to Rodin, LLC, for a business establishment at 15 East Kirby, Suite D. The Permit Applicant has also submitted the MLCC Local Government Approval form (LC-1305), a copy of which is attached to this report. The Permit Applicant's request for the issuance of a new dance and entertainment permit for the location (MLCC Request ID number 569598), has been designated by the City Clerk as Petition Number 2092.

Buildings, Safety Engineering, and Environmental Department ("BSEED") reports that the current legal use of the property at 15 East Kirby, Suite D is "Restaurant with a Group A Cabaret" per Building Permit Number 10907 dated April 2, 2009. This land use was granted by BSEED Case Number 31-10 and Board of Zoning Appeals Case Number 4-11.

Therefore, the use of the location for patron dancing and entertainment is permitted subject to compliance with all relevant state codes and City ordinances, including the issuance of a Group "A" Cabaret business license by the BSEED Business License Center to the Permit Applicant and the issuance of the Certificate of Occupancy for the location. Accordingly, the Permit Applicant has applied, and paid the applicable fees, for the issuance of the required cabaret business license for the location.

APPROVAL CRITERIA

The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant's request for approval of the issuance of an MLCC permit unless one or more of the eleven (11) specified criteria are not met by the Permit Applicant. Pursuant to Part V of the Procedures and Criteria, the designated MLCC Permit Coordinator in the

Mayor's Office ("Coordinator") has submitted a report to the City Council, the City Planning Commission, and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria. A copy of the Coordinator's report, dated October 25, 2012, has been provided the Permit Applicant.

RECOMMENDATION

A review of the Coordinator's report indicates that the Permit Applicant has met the approval criteria contained in Part VI of the Procedures and Criteria. Therefore, attached is a proposed resolution approving the issuance of a dance and entertainment permit by the MLCC to the Permit Applicant, Rodin, LLC, for the establishment at 15 East Kirby, Suite D. Further, the Law Department recommends that the proposed Resolution and the attached MLCC local government form (LC 1305) be moved to the Committee of the Whole for its action.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,

Planning & Development Department

October 12, 2012

Honorable City Council:

Re: Request for re-appropriation of Emergency Shelter Grant (ESG) program funds to the Planning & Development Department (P&DD)

The Emergency Shelter Grant (ESG) Program for the City of Detroit was transferred by your Honorable Body from the Department of Human Services (DHS) to the Planning & Development Department (P&DD) in 2005. However, considerable research by P&DD and the Budget staff reveals that \$653,841.26 of the ESG funds were not transferred to P&DD and therefore remain in former DHS accounts that are no longer active.

In order to program these funds for homeless services as originally intended, it is necessary for your Honorable Body to authorize a re-appropriation from the DHS account to P&DD. This action would provide P&DD access to the funds in DRMS consistent with the balance in the Department of Housing & Urban Development (HUD) IDIS system. Continued failure to allocate and spend these funds would likely result in recapture by HUD.

Therefore, we respectfully request that your Honorable Body approve the attached resolution.

Respectfully submitted,
ROBERT A. ANDERSON, JR.

Re: Address: 11077 Gratiot Ave. Name: Alonzo Bell. Date ordered removed: June 5, 2012.

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on October 3, 2012 revealed the building is secured and appears to be sound and repairable. The owner has paid all taxes and is current. The proposed use of the property is owner's use and occupancy. This is the 1st deferral request for this property.

Therefore, it is recommended that the demotion order be deferred for a period of three months subject to the following conditions:

1. A permit for rehabilitation work shall be obtained within 30 days.

2. The building shall be maintained securely barricaded until rehabilitation is complete. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

3. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

4. The yards shall be maintained clear of weeks, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demotion without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four months must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Amendment of Executive Organization Plan to Reassign the Animal Control Function From the Department of Health and Wellness Promotion to the Police Department

Section 7-102 of the 1997 Detroit City Charter authorizes the Mayor to prepare and subsequently amend an organization plan for the Executive Branch of City government. In accordance with Section 7-102, the plan and its amendments are to be submitted to your Honorable Body and published. After a public hearing, the City Council is required to approve, recommend modification, or reject the plan within sixty (60) business days. Where the Council does not take action within this time frame, the plan becomes effective.

On September 27, 2012, my Administration submitted an amendment to the current Executive Organization Plan. This purpose of this amendment is to reassign the Animal Control Function from the Department of Health and Wellness Promotion to the Police Department; 2) to reassign the Facilities Management Function from the Department of Health and Wellness Promotion to the General Services Department; 3) to cease the Pharmacy, X-ray, and Biostatistics Functions of the Department of Health and Wellness Promotion; and 4) to cease the Nutrition Function of the Department of Health and Wellness Promotion to carry out the State's plan to contract with a non-profit corporation for delivery of the service.

After a public hearing on October 17, 2012, the City Council agreed with the Mayor's proposal to reassign the Animal Control Function from the Department of Health and Wellness Promotion to the Police Department. On November 7, 2012, City Council is expected to request, through adoption of a Resolution, that my Administration sever the Animal Control

Function portion from the original Amendment.

In anticipation of that City Council Resolution, attached is a proposed resolution for Your Honorable Body's consideration and adoption. Thank you for your consideration.

Respectfully submitted,

Honorable City Council:

Re: Authorization to Amend the FY 2012-13 Budget

The Budget Department is requesting authorization to amend the Fiscal Year 2012-13 Budget for the transfer of the Animal Control operations from the Department of Health and Wellness Promotion to the Police Department. As has been discussed and is currently being implemented, certain public health services of the Health Department are being transitioned to an independent agency by

the end of September 2012. The Animal Control activity will remain the responsibility of the City and will be most effectively performed by the Police Department. This Budget Amendment will transfer the adopted budget, amendments/carry-forward activity, and the related actual expenditures of this activity to a new appropriation established in the Police Department.

In addition, the 2012-13 Adopted Budget included six months of funding for the Animal Control activity. The Budget Department requests authorization to increase the Animal Control appropriation by \$700,069 to fund this activity for a full year within the Police Department. To complete the transfer of all activity related to the Animal Control function, we request that capital funds previously appropriated for improvements to the Animal Control facility be transferred to the Police Department.

City Planning Commission

November 1, 2012

Honorable City Council:

Re: request of Jennings Senior Living LDHA LLC to modify the use and approved plans for the existing Planned Development District (PD) zoning classification at 7815 East Jefferson Avenue to redevelop the Jennings Building for senior housing or medical offices (Recommend Approval With Conditions)

The Jennings Senior Living LDHA LLC is petitioning the City to modify the use and approved plans for the existing PD zoning classification on District Map 29, Article XVII, of the Detroit Zoning Ordinance at 7815 East Jefferson Avenue. The site is generally located on the north side of East Jefferson Avenue just east of vacated Seyburn Avenue (please see the attached map for reference). The modification is being requested to allow for either the continued use of the Jennings Building as medical office or to develop 46 residential units for independent seniors.

Background

The subject PD is part of a larger PD which was first established in 1971 and expanded over the years to over 18 acres as part of the St. John Detroit Riverview Hospital campus. The Riverview Hospital campus included the Riverview Hospital, two medical office buildings (Medical Pavilion II and Medical Pavilion I (the

Jennings Building), and over 1,000 parking spaces. The Riverview Hospital closed in 2007.

In February 2011, the City modified the larger PD to allow DRSN Real Estate LLC to convert the former Riverview Hospital into the Riverview Wellness Campus with its primary use as a skilled nursing facility (Ordinance 02-11). At the time, the Jennings Building and Medical Pavilion II were designated to continue as medical office buildings.

Presently, the Jennings site, which occupies a 1.6 acre site, contains a 4-story building and an adjacent 72-space parking lot. Because the Jennings Building stands alone and there is proposed to be distinct ownership from the Wellness Campus, the City Planning Commission (CPC) is recommending that a separate PD modification ordinance be considered for the subject 1.6 acre site. The Jennings building, which was built in 1929, is listed on the National Register of Historic Places.

Proposed Development

DRSN Real Estate LLC is partnering with MHT Housing, Inc. to redevelop the Jennings Building as a 46-unit apartment building for seniors 55 and over with incomes at or below 60% adjusted median income. Amenities would include on-site management office, laundry facilities, elevators, common space, a community room, and library. The parking area would be divided into a 59-space lot for tenants and a 13-space lot for visitors.

The building would be managed by Continental Management, which is owned by the president of MHT Housing. MHT owns over 3,000 apartment units in the City of Detroit.

The applicant is proposing to finance the project, in part, through Low Income Housing Tax Credit equity and Federal Historic Preservation Tax Credits. However, if City approval or financing falls through, then DRSN Real Estate LLC would like to continue to use the building for medical offices.

Public Hearing

On April 19, 2012, the CPC held a public hearing on the proposed request. No residents spoke for or against the proposed project. At the hearing, CPC staff noted that the applicant had held a meeting with the community on April 18, 2012. CPC staff stated it had received three phone calls about the nature of the request, as well as one letter of support from the Jefferson East Business Association. The Planning Commission asked about the security features of the proposed redevelopment. The applicant clarified there would be security cameras, a roaming security officer, key card entry to all doors, and an electronic parking lot gate. CPC staff noted the poor condition of an abandoned parking deck, which is

vacant and for sale, just east of the Jennings building and owned by an out of state entity.

On May 3, 2012, the CPC held another hearing on the proposed request with the clarification that the site could be used for senior housing or medical offices. CPC staff reported that the Buildings, Safety Engineering and Environmental Department (BSEED) had sent notices to the property owner of the adjacent parking deck regarding property maintenance, and if compliance is not achieved, then tickets would be issued. CPC staff noted it received an email supporting the project from The Villages Community Development Corporation, which represents the various waterfront communities, including Berry Sub, Indian Village, West Village, etc.

One area resident spoke at the hearing making the following comments:

- To date, overall feedback from the community to the proposal has been neutral;
- Safety of the tenants is a primary concern: the plans do not show the parking lot being fenced; a live-in manager would be desirable; and the area is a high crime area.
- Cars using the east-west alley north of the site as a short cut continues to be a problem — this could be a danger to tenants.

The CPC staff noted it had received a letter dated May 3, 2012 from a household in the adjacent West Village Historic District with the following main comments:

- Regarding security, the plans shown at the April 18th community meeting would not be sufficient to keep residents secure; the parking lot could easily be breached;
- There is very little green space on the site for tenants to access; and
- It was strongly urged that a daily professional presence so the tenants do not feel isolated.

CPC staff suggested exploring the use of speed bumps in the alley which would be referred to the Department of Public Works (DPW) for review.

Revised Plans

Soon after the May 3rd public hearing, the petitioner submitted a revised site plan with three major changes (Please see attached plans for reference). The first is to add a covered carport along the east end of the property. The purpose of the carport is to provide shelter for some vehicles and to provide a physical barrier between the Jennings site and the vacant parking deck to the east. The eastern part of the parking lot has been redrawn to remove an existing access drive leading to the adjacent parking deck. Also, the site plan now shows fencing surrounding the tenant parking lot including an electronic gate. The 13-space visitor lot would not be

fenced or gated. Lastly, the petitioner added a screened dumpster enclosure at the north end of the visitor lot adjacent to the east-west alley.

Analysis Parking

The original site plan showed 72 parking spaces adjacent to the Jennings Building (13 spaces in the visitor lot and 59 spaces in the tenant lot). For multiple-family dwellings for the elderly, the Zoning Ordinance requires .75 parking spaces per dwelling unit. As a result, only 35 spaces are required. The proposed site plan change would provide 71 spaces (11 spaces in the visitor lot and 60 in the tenant lot), resulting in a surplus of 36 spaces.

The developer plans to completely resurface the parking area. Some of the parking spaces on the plant are below the zoning ordinance's minimum dimensions of 9 feet by 20 feet. The CPC thinks the redeveloped parking lot should conform with the design standards in the Zoning Ordinance. This would result in the loss of some additional spaces. The Zoning Ordinance would require a minimum 5-foot wide pedestrian walkway for parking spaces adjacent to a building. However, this requirement, would result in the loss of 5 handicap spaces closest to the south entranceway; therefore, the CPC supports waiving this requirement.

The Zoning Ordinance requires, for parking lots with 25 or more spaces, raised landscape areas entirely within the edges of parking areas. The proposed plan showed no interior landscaping for the tenant parking lot. Using the current regulations as a guide (Section 61-14-223 of the Zoning Ordinance), it appears 1,080 square feet of interior landscaping should be added.

Landscaping

The petitioner has not yet submitted a landscape plan for the proposed project. Presently, the site has some mature, but moderately maintained, landscaping particularly on the south and the west sides of the site. The petitioner indicates they plan to improve the existing landscaping. The south side of the site along East Jefferson Avenue in front of the tenant parking lot has several tree stumps and minimal landscaping. Also, along parts of the south sidewalk is a dilapidated low retaining wall of stones. The CPC recommends, on the setback along East Jefferson Avenue, that the tree stumps be removed and additional landscaping be added, including trees and bushes, and the existing dilapidated stones be removed or improved.

Master Plan

The subject property is located within the Butzel area Neighborhood Cluster 3 of the Detroit Master Plan of Policies. The Future Land Use map designates the subject site as Institutional. When analyz-

ing an Obsolete Property District for the subject property, the Planning and Development Department (P&DD) issued a report dated February 10, 2011, concluding in part, "The proposed Obsolete Property District conforms to the future land use designation of "INST," Institutional for the bulk of the subject area in the Master Plan of Policies... P&DD has determined that the general character of the area will not be impacted and an amendment to the Master Plan will not be necessary."

Alley Issues

The community has noted that there appears to be a recent increased use of the east-west alley just north of the subject property connecting the vacated Seyburn Avenue and Van Dyke Avenue as a cut-through. The community indicates that the roads and land use around the intersection of Van Dyke and East Jefferson are very congested.

When approving site plan changes to the Riverview hospital in the past, CPC and City Council required:

- That "no left turn" signs be installed at the alley exiting onto Van Dyke Avenue;
- That "do not enter" signs be installed at the Van Dyke entrance to the alley; and
- That the alley be physically improved at the expense of the developer.

These signs were installed and are still in place and the alley is in good physical condition.

Therefore, increased traffic could be coming from the existing Medical Pavilion II, which is not owned by DRSN Real Estate, or the Oakland University nursing program, which is a tenant of DRSN Real Estate. Other cut-through traffic could be from drivers not associated with the campus.

It was initially thought that part of the subject east-west alley between Van Dyke and vacated Seyburn Avenue north of the Jennings Building may have been vacated. CPC staff checked with the DPW, which stated that City records show the subject alley is open. Regarding proposed speed bumps, CPC staff spoke with the DPW, which stated it is a long standing City policy not to allow speed bumps on City streets or alleys. As a result, the CPC does not recommend speed bumps as an option.

The CPC requests that DRSN Real Estate LLC inform the present and future tenants of its Wellness campus not to use the subject alley as a means to access the Wellness campus or to exit the campus (unless turning south on Van Dyke Avenue). The CPC recommends that the petitioner inform its tenants and staff of the proper use of the alley. The CPC can inform the Police Department regarding this problem.

Security

The applicant indicates the building's

first floor office will be staffed Monday through Friday 9 A.M. to 5 P.M., and on-site security will be provided seven days per week from 6 P.M. to 6 A.M. The group indicates it is not its practice to have live-in managers.

Prior to the May 3rd hearing, the petitioner summarized the following safety features for the proposed project:

- Emergency Pull Cords — Pull cords will be located in bedrooms, bathrooms and living rooms. The cords will be connected through a security company which will alert emergency rescue of the emergency situation.

- Intercom System — residents will have a code and access card for entry into the building. Guests will be required to utilize the intercom system to call the resident they are visiting or to call the office if they are coming for a leasing appointment. Entry will be limited to side door at Seyburn and parking lot entry.

- Lighting — High quality lighting systems will be installed surrounding the property and throughout the parking lot to increase safety while walking into or out of the building.

- Cameras — Camera systems will be installed and will capture outdoor video that can be viewed in the office, and also on a lobby or community room television.

- Transportation Services — A community van will be utilized to make regularly scheduled trips to grocery and convenience stores.

- Resident Council — Open-forum style meetings will be held on-site with residents and members of management.

- Safety Assessment — On-site reviews will occur regularly to ensure all safety features are in working order and providing the necessary security that is required.

MHT Housing indicates it has over 3,500 housing units in Detroit and is comfortable with its security plan. The CPC is satisfied with the security plan as provided by the applicant, but it will need to be augmented if problems occur. The CPC thinks the gated parking lot suggested by the community and added to the plan would help with security.

PD District Design Criteria

Section 61-11-15 of the Zoning Ordinance lists twenty design criteria for PD Districts, and the CPC has reviewed these criteria and finds that the proposal meets the subject design criteria.

Recommendation

At its meeting on June 7, 2012, the City Planning Commission took action to rec-

ommend Approval of Jennings Senior Living LDHA LLC's request to modify the approved plans for the existing PD zoning classification to allow for senior housing or medical offices on District Map No. 29 of the Detroit Zoning Ordinance at 7815 East Jefferson Avenue subject to the following conditions:

1. That the entire off-street parking area be repaved in accordance with Article XIV, Division 1, Subdivision I of the Zoning Ordinance (but not including Section 61-14-154 regarding pedestrian walkways of Subdivision I) and that changes be shown on a revised site plan subject to review and approval by CPC staff;

2. That interior landscaping be added to the tenant parking area in accordance with section 61-14-223 of the Zoning Ordinance and changes be shown on a revised site plan subject to review and approval by CPC staff;

3. That a landscape plan be submitted for review and approval by CPC staff indicating caliper, species, and location of such, and showing additional and improved landscaping along East Jefferson Avenue, including removal of existing tree stumps and removal or repair of existing stone work;

4. That owner or its agent provide staff and each new tenant a warning/explanation for the proper use of the alley north of the project providing notice as appropriate; and

5. That final site plans, elevations, landscaping, lighting dumpster location, and signage plans be submitted to the CPC staff for review and approval for consistency with approved plans prior to making application for applicable permits.

In addition, CPC staff will ask the Detroit Police Department to monitor improper use of the alley north of the proposed project. The CPC requests in writing from DRSN Real Estate that it will inform its tenants and security detail (verbally and in writing) at the Riverview Wellness Campus the community concerns about the improper use of the subject alley and its standards for use of the alley by its tenants.

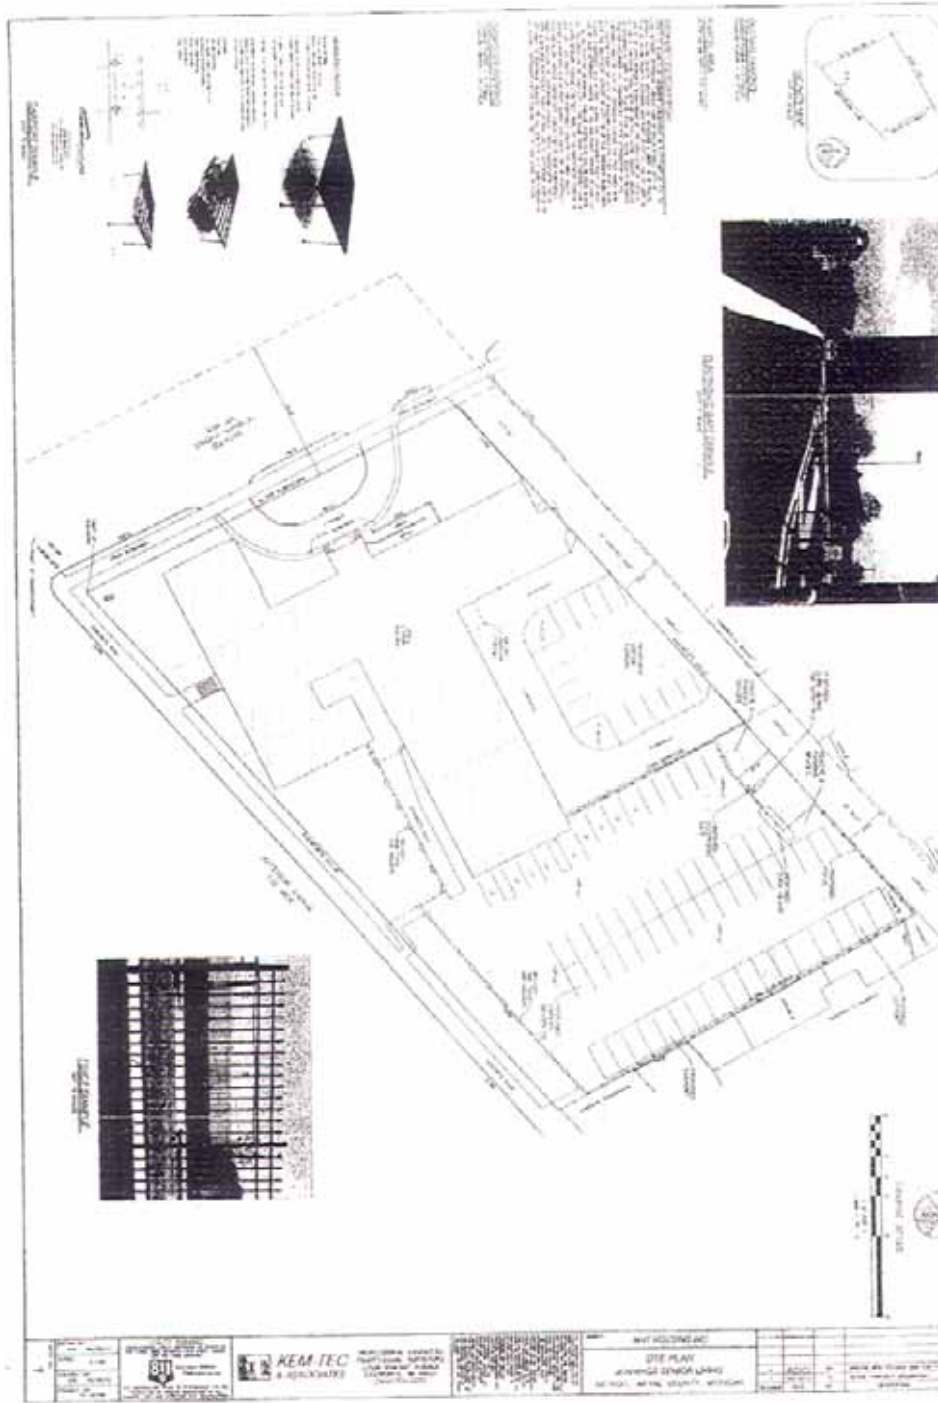

Attached is an ordinance approved as to form by the Law Department.

Invocation Given By:

Victory Outreach Ministries Detroit

Detroit, Michigan 48208

First of all, I want to thank all of you (Hon. Charles Pugh, and all the City Council Members) for the opportunity to be a part of your day and to open your meeting with a word or prayer.

I remember in the year of 1999, when my wife and I first moved to the City of Detroit. We were overwhelmed with the conditions of the city then. Having been raised up in a fairly large city, and, also amongst musicians, it was a bit devastating to me. I'd heard about this thriving city, the awesome music industry, etc. There was no doubt that this city had faced some challenges. I like the word challenges because challenges end in victory, and not in defeat. I want to personally thank all of you who are a part of this city council who have worked so hard and diligent to see this city at the place where it is now as opposed to then. Being a missionary and having the opportunity to travel around the world, I hear all kinds of news about Detroit. People, from as far as New Zealand will call and ask about our city. The eyes of the world are on Detroit. So I want to encourage you here this morning to continue to work hard and keep doing the great work that you're doing. Let them see the city that has gone through so much and yet has overcome. Let us pray.

Dear Lord, we come before Your throne of Grace, to first of all thank you for what

you have done thus far and what you're doing here in our this city. I lift up the members of this council to you this morning. Lord, you have separated these men and women to govern and to lead our people and this city. I pray that you would give them your wisdom to do just that. Discernment to way out the issues, and that they may make good, sound, decisions concerning the tasks that are at hand. Lord, let this table be a table of Honor, a table of Brotherhood. I also pray, for those who will be in attendance today. I pray that there will be a spirit of peace and unity amongst them as well. Lord I thank you once again, in your matchless name I pray, Amen!

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL OFFICIALS AND AGENCIES:

PUBLIC COMMENTS:

• **Robert L. Robinson, II:** Why are not the banks held to the same standards as the home owners in maintaining their property? Once someone is evicted, people do what they want and it is an eye sore in the neighborhood. If it is a homeowner, they would get a fine and require them to maintain it. There is a process in

Chicago where they were able to retain money from the bank because they imposed fines on them.

• **President Pro Tem Brown:** An ordinance was written by Council Member Kwame Kenyatta and it is up to Administration and the authorities to enforce the ordinance. Once Council Member Watson referral gets to the table, I will have Research and Analysis review it to see if it needs to be incorporated into the ordinance that is already on the books.

• **Jasahn M. Larsosa** and colleagues stated that they want houses made empty by banks and government agencies to be declared a public nuisance effective immediately.

• **Maya Smith:** The Council signed a resolution advising the Mayor's Administration to reinstate nuisance abatement programs that would help those who wish to stabilize communities. Planning and Development is redrafting the program trying to determine what a nuisance is and what they process should be to abate nuisance. We want you to make the answers to those questions clear.

• **Dominic Parry:** In Detroit there are no incentives to rehab properties and no government agency has demonstrated privatization and the ability to maintain intact confiscated properties. As a result, these confiscated properties set vacant and open.

• **Michael Mallon:** We assisted a woman and her three children who were being evicted from their home and moving the belongings to a secure home by someone in our network. The idea was to help before the bailiff throw her belongings into the dumpster which was in front of her house. We witness a bank of strangers and neighbors helping to get her children and belongings to a safe place. On the other hand, passers-by scoped the house and within moments before we finished, they stripped the house beyond recognition.

• **Johanahn Larsosa:** The immediately solution for us is clear. In order to have the same warmth and since of responsibility to get the support of the family that was evicted is to stabilize the community. If the economy collapsed today and the music by which we all circle around our chair stopped, we would find that people would be able to pull out a chair. If this happens, the houses on the ground would not go away; the books that set on the shelves at schools will not disappear. The solid will not erode and vanish either. We can still house ourselves, stimulate and educate ourselves, feed ourselves; we are not going away. We are

in the city and we will reshape our world but it starts here, declare eviction of public nuisance today.

• **Dorothy Cohen:** Contractors were appointed to repair my roof and gutters in April 2012. The contractor repaired the roof and did not replace gutters. The downspout is leaning on my electrical wires. I called the contractor a thousand times. It has been two to four months and the downspout is still hanging on my wire and no gutter. When the rain comes, it comes on my concrete which will mess up my basement.

Brown: The Clerk will note that it will go to Planning and Economic Development.

• **Elisandra Figueroe:** My concern is about Detroit Animal Control being assigned to the Detroit Police Department. Many organizations working with little to no funding and they are doing more public service to help Detroit with animal control related services than Animal Control itself. Animal Control services have been lacking for years in this City, services that should have been provided to the citizens of Detroit through public funding is now being offered only through non-profit grassroots organizations; such as organizations I represent. Since these organizations are limited to funds that supply a number of Detroit residents in need, many of these animals are abused and homeless. How does the city think that by assigning animal care to the Police Department would improve the situation and better the services that have already been lacking for years? A proposal for privatizing animal control services were presented to Council in June 2012. Why have not our public officials responded to this proposal when it will save taxpayers dollars and only better the services?

• **Jennifer Clarkson:** The Dog Admission is to increase responsible dog ownership, provide back up to financial help for routine and emergency veterinarian care and network with animal welfare and community organizations to address the needs of the community. DAC can serve a valuable and needed public help and safety service. DAC was designed to keep the public safe from animals growing at large disturbing the peace, caring disease and causing damage to environmental qualities. There need to be thought not only to which department manages DAC but also who leads and how it is accomplished. There needs to be fundamental shift in the structure DAC. a Shift that provided DAC survival and a department that manage DAC with respect to animals in the City limits.

• **Whitney Mitchell:** PA 4 has been repealed and is yet being treated as if it

still exists. If the City goes bankrupt, the Federal Government will step in with a more fair entity, unbiased and use Chapter 11, bankruptcy to make sure million owed to the city and million will be sought after.

• **Sofia Johansson:** I think when you look around Detroit, you see the results of what happens when you kick a man when he is already down. People who had homes once had jobs to get those homes; enough credit to get a mortgage. You cannot fight the banks or stop them from evicting but you can stand up and say, when you evict these people, we will declare this home immediately a public nuisance. A great prophetic said to take care of the vulnerable, the wives, children and elderly. We have perpetuated ourselves. I request that you let them know that when you declare and throw people out, this will be declared a public nuisance.

• **Keeenna Eddington:** We depend on the water in Lake Erie. We have charter boat fishermen, marina owners, people from whom events like the large purple alga Blooms of one year ago were devastating to the businesses. I represent Tempress, Michigan, Lunar Pier and Monroe who drink the water out of Western Lake Erie. We drink the water that comes out of the Waste Water Treatment Plant in Detroit. Please keep the quality of Lake Erie water in mind, the water you send to us to drink when you make the decision about which way to go with this contract. Improvement over the last year and the operation of the Waste Water Plant has been a great bonus to the quality of the water in Lake Erie.

• **Ed McNeil:** We were running out of cash at the end of December, October, September, July, April. How many times do we run out of cash before ask the real question, what is going on? This union with 32 other unions introduced a saving for Detroit of over \$184,002,000 that was never brought to Council and never approved and you are talking about trying to find money.

A memo to the City of Detroit Employees from Labor Relations Director dated November 9, 2012, was mailed regarding open enrollment alert. Materials are to be mailed during the week of November 19, 2012, indicating the beginning and ending date of health care plans changes and rates. According to an article, we have had some things happen. Who is telling the truth?

If Council does not approved Ernst and Young for another year, \$10,000 will be held.

If Miller Canfield is not approved in December, you do not get \$20,000. Somebody in Detroit has to stand up and fight. I, AFSCME and 33 other unions

have been fighting; other clergymen and citizens have been fighting. We need everyone to stand up and say we will take this no more. We have an advisory teacher at \$25,000 a year plus their staff a program manager at \$220,000 a year, Chief Financial Officer at \$220,000 a year and we are stating that we in the Detroit are going broke. If we get them out of here, we would not be broke.

• **Valerie Burris:** We need to save services before bond debt. We need to declare eviction nuisance and put people back in these homes.

• **Jim Casha:** Item No. 53 on the agenda should be serious considered as a no vote by Council. Community meeting is scheduled for Thursday, November 15, for 6:00 to 8:30 p.m. at the Northwest activity center 18100 Meyers at Curtis to discuss the State Fair Development. The Michigan Land Bank is reviewing future development of 168 acres of public land near Woodward Ave. and Eight Mile.

• **Andy Ross, President of Senior Water Systems Chemist Association:** I have served in drinking water treatment for Detroit over a quarter of a century. Our association members (approx. 50) are responsible for the production of safe drinking water, treatment of waste water and the chemical and biological analysis of feed water. Detroit has built a solid reputation for great drinking water for over a century and a half. Today DWSD supplies high quality drinking water to Detroit and 126 other communities in Southeast Michigan from five drinking water plants. At each drinking plant, analysis of quality is conducted every hour and treatment is adjusted to assure the safety of each of our customers.

It is unlikely that an access of employees lead the treatment problems at the Waste Water Treatment Plant; more likely, it was bad choices by management. Mr. Mercado admitted in court that he conspired with Kwame Kilpatrick to award Water Department contracts between 2002 and 2008 to Bobby Ferguson. Our association urges a conservative approach be applied to the staff of the department. Many parts of our system are old and only work because of continuous diligent and experience of employees. The EMA scheme is a racial proposal by a group that will not be here to pick up the pieces when it fails. No one wants DWSD to succeed more than our association and we will continue to be in the interest of our community and drink safe drinking water in a clean environment.

• **Richard Mack, Attorney:** Slashing collective bargaining, slashing democratic right, the right to honor and respect the

votes simply does not save money. In April a proposal was brought before Council and was told to sign the consent agreement. The Unions put forth together hundreds and millions of dollars worth of savings on the table. This Council was told to ignore those savings; many of the unions had contracts that were being opened — unions already had concessionary contracts that were being opened again to take deeper cuts. Council was told to ignore those contracts, ignore the collective bargaining but simply try to get those savings through consent agreement by signing with the State because after Mayor Bing signed the contracts, the Governor said "If you sign those contracts I will put an Emergency Manager over the City of Detroit." The Mayor blink and unfortunately, this Council blink and went with the consent agreement. All unions have pushed the issue of cutting contracts. Two hundred and fifty million plus is spent on contracts every years. It does not work to strip union rights and collective bargaining rights; force them to give us the \$137,000,000 that we borrowed.

• **Glen Wash:** I have been active in the city a long time and I am tired of our outsourcing by not utilizing the resources you have in the city. I have built schools, shopping centers and houses. We are here and available to you but you do not use us. I am paying taxes but when you give abatements to people that do not live in the City, do not pay taxes in the city and hire people from out of town and yet raise my taxes to support other people that come in to Detroit. If you outsource beyond your own capacity or realization, you literally kills the development and growth of Detroit.

• **Valerie Glenn:** Yesterday, I attended the Financial Advisory Board meeting. The meeting was late because there was a close door session and four of our Council persons, Gary Brown, Ms. Jenkins, Mr. Cockrel and I think, Mr. Spivey which may have been in violation of the open door policy law. We would like for Council to assume its role and function or resign.

Spivey: Correction to your statement — I was not at the meeting.

• **Sandra Bihn,** member of Oregon City Council which is outside Toledo. What you do to your water impact our water fall in that area. We are concern about the privatization of the contract. I have looked at Indianapolis and other cities across the country that have privatized and there needs to be a delivery of process that needs to be a careful process. We are really concern about the maintenance of the equipment and the ability to capitalize and have the equipment maintained so

that we are not negatively impacted by decisions made here. Everything I have read about other communities who have done this has taken a much greater process to get there and I hope you do the same.

• **Keith Hines:** We have to go to the Federal Level to stop this. The Water Department is being investigated by the FBI and according to the Federal Financial Institution Examination Council Manual all banks in business including the Finance Department in Detroit and the credit union are to put flags up and not release any funds unless it has been examined. Any one in the room who approve contracts with Public Lighting or the Water Department knowing that it is under investigation by the FBI is considered part of the enterprise and under the REGAL ACT.

• **Cecily McClellan:** The sky is falling, they have tried this repeatedly. In the document in the Board that should not be meeting any longer, states that they excluded the \$81,000,000 remaining in the loan that this Body took. It took a solid year for a person who worked for Weatherization in the Department of Human Services to get paid. The City is not running out of money. Detroit needs to stand up.

• **Orelia E. Brown, President of the Women Conference:** How dare you try and do a no bid contract. What guarantee do we have that this contract will resolve our issues. I feel that you are wrong. Regarding the housing abatements, when you restructure the guidelines, put information in to make sure squatter do not impede upon the rights of homeowners.

• **Citizens did not speak:** Melissa Damaschke, Philip Kora, Janina Douglas, Mark Young and Junetta D. Wynn.

Fire Department

October 24, 2012

Honorable City Council:

Re: Home Fire Safety Smoke Alarm Installation Program

Fabian, Sklar & King wishes to make a donation of 500 Smoke Alarms to the Detroit Fire Department's Home Fire Safety Smoke Alarm Installation Program. National Fire Prevention Week is scheduled for the week of October 8-13, 2012. The Home Fire Safety Smoke Alarm Program is aimed to reduce the number of fire-related injuries and fatalities. Since the City of Detroit did experience 36 fatalities in 2011, the Fire

Since spring of this year, our Home Fire Safety Smoke Alarm Program was placed on hold because our supply of smoke alarms was exhausted. CONSENT AGENDA

MEMBER REPORTS

Council Member JoAnn Watson acknowledges the victory of President Obama and the repeal of PA 4. The Republicans in Lansing has introduced another Emergency Manager Law which is outrageous.

Council Member James Tate sent an e-mail communication to solve or resolve the issue of the Block Grant dollars not being rewarded to many of the groups awarded the grant. He will send a communication to Administration so that we can expedite those funds so that we can advocate them to those groups.

Council Member Andre Spivey states that he is not saying that he is not concern about running out of cash but he does not want a scare tactic for people in the city. If it is there, let us move forward quickly. It behooves Administration to contact DC to see how we can receive help. We are going to be in a deficit in June 2013. Where are we going to get additional revenues? If Administration does not do it, Council needs to reach out to our delegation in DC.

Council Member Brenda Jones stated that if this city has a financial problem then the Administration needs to come before this Body and not to the News. Whatever they report to the Financial Advisory Board, they should report it to this Body and not behind closed doors.

There will be a memorial service today for former Kronk owner, Emanuel Steward.

Council Member Kenneth Cockrel, Jr. stated that he did participate in a

closed door meeting yesterday but he was not aware that it was a close session. He stated that he left the meeting early to pick up a relative from the bus station. I am happy to see that PA 4 was repealed by the voters but the city cash position is still very much unstable.

Council Member Saunteel Jenkins stated that she attended that meeting and the meeting prior to that to get an understanding as to where they see themselves as it related to PA 4 being repealed. She thinks the message given is that the State as well as the Administration plans to move forward as if all the powers are still in place. She believes that the Consent Agreement can stay in place; the difference is the over-riding powers that was there forcing this Body or the Mayor to do something no longer exist. As Member Cockrel said, if it is a good plan that will help us improve our financial situation, we should be moving forward with it. One of the unfortunate things is that this Mayor seems to be more responsive to the Financial Advisory Board than he is to this Body who is the elective Body of this city.

Council Member JoAnn Watson We were asked by the Mayor to go to our friends in organized labor and to ask them to negotiate and put some concessions on the table and they did. They put \$105,000,000 on the table and the Mayor signed it and I have a copy of it. The Governor did not want organized labor because he is a "Right to Work" man; he told the Mayor not to bring that to City Council to approve and the Mayor refuse to bring what got approved to this table for approval. That was leadership from organized Labor from this Body and from the Executive Branch. The Mayor should have never abided by the Governor's word.

Council President Pro Tem Gary Brown: I was in the closed session and was told that the City will have an opportunity to give an input, the Mayor and City Council, and that was the reason I was there. When they were going to deliberate, they asked us to leave. They did the deliberating and came out with the resolution they announced.

TESTIMONIAL RESOLUTIONS

TESTIMONIAL RESOLUTION FOR

HUBERT MASSEY

True Inspirations at The Carr Center November 8, 2012 through January 5, 2013

By COUNCIL MEMBER JENKINS:

WHEREAS, Hubert Massey graduated from Grand Valley State University in 1981 with a Bachelors of Arts, and during that time was selected by the University of London-Slade Institute of Fine Arts to study abroad, which provided him the understanding of the importance of art and architecture, allowing him to envision the way art should be integrated with architecture at its inception, rather than as an afterthought; and

Council Member Kenyatta entered and took his seat.

PUBLIC COMMENT:

PHYLLIS McMILLAN (AFSCME Local No. 542): Their local represents the mechanics. There's an injunction with the trucks, vans and the Emergency Medical Service being sent to private contractors.

Vacancies need to be filled with mechanics. It's cheaper for the City of Detroit to pay them vs. paying a private contractor.

CHARLES PUGH: I request this matter be referred to the Fire Department/ Emergency Medical Division to see if this matter can be resolved. Council needs to know what can be resolved.

JoANN WATSON: How many mechanics are laid off who should be working?

McMillan: This local has lost 2/3 of their workers. They're down to seven mechanics.

KENAN BRAXTON (Inner City Neighborhood Project): The Project revitalizes neighborhoods. Their organization wants to work with Council on service projects.

At one time non-profits paid a \$5.00 fee for their individuals to receive educational training. That program no longer exists. Now it costs \$10.00 to receive training which exceeds their budget. They're requesting reinstatement of the \$5.00.

CHARLES PUGH: How many members do you have?

BRAXTON: Approximately 12 members need educational training; it would be beneficial for them.

ANDRE SPIVEY: Council Member Spivey stated if their organization absolutely needs money, his office can provide \$60.00.

DeANGELO MALCOLM: Mr. Malcolm has concerns regarding repair to the Emergency Medical Service vehicles. Since 2/3 of their employees are down it slows down vehicles getting repaired. It costs less to get vehicles repaired in-house.

He also has concerns regarding stump removal, which is AFSCME work. His local wants the General Services Department to adhere to the Privatization Ordinance.

**Budget Department
Administration**

November 14, 2012

Honorable City Council:

Re: Authorization to Amend the FY-2011-12 Budget to Remove Negative Appropriations from the General Fund.

The Budget Department requests authorization to amend the City of Detroit FY 2011-12 Budget to remove all negative appropriation balances in the General Fund as of the date of this letter. Approximately **\$25,143,500** in unused FY 2011-2012 General Fund budget authority will be transferred to these negative appropriations in accordance with provisions of Act 2 of 1968 of the Michigan Compiled Laws, known familiarly as the Uniform Budgeting and Accounting Act. Amendments herein enable departments to replenish negative appropriations from unused General Fund authority elsewhere available within the same departments.

After publication of the City's FY 2011-12 Comprehensive Annual Financial Report on December 31, 2012, one final modification amendment will be presented to your Honorable Body for approval to enable the City's full compliance with Act 2 of 1968 in all material aspects. Budget Department staff will work closely with the Fiscal Analysis Division to ensure agreement on the necessary procedures to comply with state law.

The Budget Department confirms that all residual budget authority re-appropriated in this resolution is available for the above stated purposes and does not affect FY 2012-13 budget authority to any degree. However, FY 2012-13 General Fund authority will be reduced for certain departments pursuant to provisions of Budget directive 12-01. In accordance with those provisions, the Budget Department soon will present to your Honorable Body a comprehensive analysis of manual accruals and salary overrides occurring during FY-2011-12 and the actions taken to prevent a recurrence in the current fiscal year.

Sincerely,
BRENT HARTZELL
Interim Budget Director

Budget Department Administration

October 29, 2012

Honorable City Council:

Re: Authorization to Amend the Budget Department FY 2012-13 Budget.

The Budget Department is requesting authorization to augment its fiscal year 2012-13 budget by transferring \$150,000 from Claims Fund (Insurance Premium) to Budget Department Operations. The additional funds will be used to align managerial responsibilities within the department appropriately while maintaining existing Redbook staffing levels.

These revisions will enable senior department staff to dedicate their time to implementation of major budgetary control policies in accordance with the Financial Stability Agreement, including establishment of the triennial budgeting process.

Last, the Budget Department is requesting that the remainder of the surplus (\$128,352) be used to cover unallocated rent for the Coleman A. Young Municipal Center.

A surplus in the Claims Fund was made possible by a reduction in debt service requirements of \$2.4 million. This Honorable Body has previously approved \$1.07 million to amend the Department of Elections and Department of Administrative Hearings budgets. In process are budget amendments for the General Services Department (\$330,000), Animal Control Unit (\$700,069) and the Board of Ethics (\$40,000).

Detroit Fire Department

November 14, 2012

Honorable City Council:

Re: Request Authorization to Amend FY 2012-13 Budget for the Detroit Fire Department — Fire Marshall Division.

The City of Detroit Fire Department (DFD) requests a critical amendment to its 2012-13 Budget. Following labor negotiations with the Detroit Fire Fighters Association's Tentative Agreement, the association proposed the deletion of 27 Fire Prevention and Arson positions. Having discussed the fiscal impact of the elimination of these revenue generating positions with the Chief Financial Officer, DFD is now seeking to reinstate these critical positions.

DFD requests to restore 26 Fire Marshal positions. These positions are critical to the city's fire prevention efforts, State of Michigan fire code compliance, and law enforcement/prosecution action. The Fire Marshal division is a revenue-generating activity responsible for conducting fire investigations, interviews of potential suspects and witnesses, issuing or warrants for arrest, conducting interrogations, presenting cases to county prosecutors, and testifying in court. In addition, they are sworn police officers who carry weapons and have police powers that are granted to them by the Detroit Chief of Police. There are currently two employees to inspect the entire city, and one employee in Plans Review to inspect and approve contractors building plans.

DFD requests authorization to amend its budget to properly restore this vital function to full capacity for the current fiscal year. The Budget Department has identified surplus funds in the Non-Departmental revenue appropriation to fulfill this request.

Increase Revenue Appropriation No. 04739, General Revenue — Non-

Departmental, by \$1,794,662 and Increase Appropriation No. 00065, Ordinance Enforcement, by \$1,794,662.

The attached resolution authorizes the increase of budgeted appropriations for the Detroit Fire Department. A waiver of reconsideration is requested.

Sincerely,
DONALD R. AUSTIN
Executive Fire Commissioner

**City of Detroit
Office of Inspector General**

November 7, 2012

Honorable City Council:

I hope this letter finds you in the best of health and spirits. I write to officially request an amendment of the budget for the Office of Inspector General (“OIG”) as permitted under the City Charter.¹ As you know, my office was budgeted only \$592,000 for fiscal year 2012-2013. This was understandable given that the position of Inspector General had yet to be filled at the time. The current budget contains only two full time employees (“FTEs”), the Inspector General and an Executive Secretary III. As I have mentioned in the past, I am grateful for your appreciation for the charter mandated mission of the Office of Inspector General — “to ensure honesty and integrity in City government by rooting out waste, abuse, fraud, and corruption.”² This is an awesome undertaking which simply cannot be appropriately achieved with the budget currently allotted to the office. I have benchmarked offices of Inspectors General of

similar size and scope across the nation and found that the operating budgets are averaging closer to \$1.3 million.

The Charter specifically mandates that my office “shall include, at a minimum, attorneys, investigators and auditors who are certified public accountants.”³ Therefore I am requesting the creation of three new FTE appointive positions; Investigator (Office of Inspector General), Forensic Auditor (Office of Inspector General), and a Deputy Inspector General (Office of Inspector General). The bulk of my request is focused on the funding of these positions. Additional requests address other critical requirements for the proper operation of the office. For example, our office is in the process of joining the Association of Inspectors General, the premier national organization linking OIG offices across the country. The Association sponsors trainings which lead to the certification of inspectors general, auditors, and investigators. These trainings are invaluable to the establishment of best practices, especially given the relative newness of the office.

I have broken the amounts of my request into detail and have attached the appropriate position descriptions. The amounts listed for the FTE’s were derived from the fringe factor provided by the Budget Department for the remainder of the 2012-2013 fiscal year, research done on the wages for similar positions in the City’s White Book, and other similar OIG organizations across the nation. They are also inclusive of the City’s 10% mandatory reduction.

- 2 Investigators (OIG) — \$113,720.00
- 2 Forensic Auditors (OIG) — \$156,016.00
- 1 Deputy Inspector General (OIG) — \$93,685.00
- Specialized Training and Certification — \$8,000.00
- Travel and Lodging to Specialized Training — \$7,000.00
- Printing of Brochures introducing the office to employees and the public — \$5,000.00
- Printer/Office Supplies — \$10,000.00
- Postage — \$500.00
- Total — \$393,921.00**

I thank you for your attention to our request. I look forward to further discussion in the near future.

Re: Request to Adopt a Resolution Authorizing and Installment Purchase of Computer System Improvements Under Act No 99, Public Acts of Michigan, 1933.

We are prepared to proceed with financing computer system improvements. The financing will allow the City to raise approximately \$5,000,000.00 for the equipment. While various financing alternatives were considered, we have determined that the most cost effective option for financing the equipment is through IBM Global Financing (IBM).

The attached Resolution will authorize the City to execute the lease purchase master agreement and associated lease purchase supplements between the City and IBM.

Adoption is respectfully requested with waiver of reconsideration at your next scheduled formal session.

RESOLUTION OF
THE CITY OF DETROIT,
COUNTY OF WAYNE,
STATE OF MICHIGAN APPROVING
FINANCING OF COMPUTER SYSTEM
IMPROVEMENTS UNDER ACT 99,
PUBLIC ACTS OF MICHIGAN, 1933

By Council Member Jones:

Whereas, The City of Detroit (the "City"), County of Wayne, State of

Michigan determined it to be necessary for the public health, safety and welfare of the City and its residents to acquire certain computer system improvements (the "Improvements") from International Business Machines Corporation ("IBM"); and

Whereas, Under the provisions of Act No. 99, Public Acts of Michigan, 1933, as amended ("Act 99"), the City Council of the City (the "City Council") is authorized to enter into any contracts or agreements for the purchase of real or personal property for public purposes, to be paid for in installments over a period of not to exceed the useful life of the property acquired as determined by resolution of the City Council or 15 years, whichever is less; and

Whereas, This City Council has been presented with a proposed form of Lease/Purchase Master Agreement for State and Local Government, together with all supplements thereto, constituting an installment purchase contract under Act 99 (the "Contract") between the City as lessee/purchaser and IBM Credit, LLC ("IBM Credit"), under which IBM Credit will finance the acquisition costs of the Improvements and the City shall pay for the Improvements, the total purchase price of not to exceed \$5,000,000, exclusive of transactional costs, by making payments over a period of not to exceed four (4) years (the "Contract Payments"); and

Whereas, IBM Credit is willing to finance the acquisition of the Improvements, provided that the City agrees to certain terms, conditions, representations, warranties and covenants by the City as set forth in the Contract, which provisions will remain in effect until the City has made all payments to IBM Credit under the Contract; and

Whereas, The parties contemplate that upon closing the transaction; (i) the Improvements will be delivered to and accepted by the City; (ii) IBM will receive payment in full for the Improvements from IBM Credit; and (iii) in accordance with the terms of the Contract, the City will thereafter be required to make all Contract Payments directly to IBM Credit; and

Whereas, The City determines that it is necessary to authorize the Finance Director to enter into the Contract on behalf of the City, and to determine (i) the final principal amount and the schedule of maturities of the principal component of the Contract Payments payable under the Contract; (ii) the interest rates of the interest component of the Contract Payments; (iii) the payment dates of such Contract Payments; and (iv) other matters and procedures necessary to complete the purchase and financing of the Improvements.

Now, Therefore, Be It Resolved that:

1. The useful life of the Improvements is hereby determined to be not less than seven (7) years. The acquisition of the improvements and the financing thereof with the Contract hereby are found and declared to be for a valid public purpose and in the best interest of the public health, safety and welfare of the residents of the City.

2. The Finance Director is hereby authorized to negotiate the Contract with IBM and IBM Credit in substantially the form presented with this Resolution, with such additions and deletions as she shall deem to be necessary or appropriate, subject to the following limitations: (1) principal and interest payable pursuant to the Contract (the "Contract Payments") shall be payable in monthly installments, provided that the final installment shall not be due later than four (4) years from the due date of the first Contract Payment under the Contract; (2) the weighted average stated interest rate under the Contract, including all supplements, payable under the Contract shall not exceed 12.1% per annum, and (3) the principal amount to be paid by the City under the Contract shall not exceed \$5,000,000. The Finance Director is hereby authorized to determine the final principal amount and schedule of maturities of the principal component of the Contract Payments payable under the Contract, the interest rates of the interest component of the Contract Payments, the payment dates of such Contract Payments, and prepayment dates and prepayment interest rates, if any, all as shall be confirmed in an Installment Purchase Order of the Finance Director.

3. The City Council has heretofore appropriated amounts necessary to pay Contract Payments coming due and owing in the current fiscal year beginning July 1, 2012. The City hereby covenants and agrees to include in its budget for each fiscal year hereafter, commencing with its fiscal year beginning on July 1, 2013, a sum which will be sufficient to pay the Contract Payments coming due under the Contract before each following fiscal year.

4. The City covenants that, to the extent permitted by law, it shall take all action within its control necessary to maintain the exclusion of the interest component of the Contract Payments from adjusted gross income for general federal income tax purposes under Internal Revenue Code of 1986, as amended, including but not limited to actions relating to the rebate of arbitrage earnings, if applicable.

5. The appointment by the Finance Director of the law firm of Miller, Canfield, Paddock and Stone, P.L.C. of Detroit, Michigan, as Bond Counsel for the financing of the acquisition of the Improvements

under the Contract is hereby ratified and confirmed, notwithstanding the periodic representation by Miller, Canfield, Paddock and Stone, P.L.C., in unrelated matters of IBM and other parties and potential parties to the transaction. The fees and expenses of Miller, Canfield, Paddock and Stone, P.L.C. as Bond Counsel shall be payable as a cost of issuance from available funds in accordance with the letter of such firm on file with the Finance Director of the City provided, however, that such payment is authorized by this resolution for this transaction only and not for any other purpose. The Finance Director is authorized to engage other consultants, financial advisors, or other parties as she deems necessary and appropriate in connection with the Contract and to pay the fees and expenses thereof from available funds provided, however, that the engagement of such other consultants, financial advisors or other parties is authorized by this resolution for this transaction only and not for any other purpose.

6. The Finance Director, the Mayor, the City Clerk, and other officials of the City, are hereby authorized to take all actions and to do all things and, upon the advice of counsel, to execute any documents or certificates as may be necessary or desirable to deliver the aforesaid documents to the parties and to effectuate the transactions described therein and herein and to accomplish the purposes of this Resolution, and to pay costs necessary to accomplish negotiation and execution of the Contract.

7. All resolutions and parts of resolutions insofar as they conflict with the provisions of this Resolution be and the same hereby are rescinded.

Honorable City Council:

Re: Ricky Brown vs. City of Detroit. Case No.: 12-002192-NO. File No.: A20000.003332 (SLdeJ).

On November 5, 2012, a case evaluation panel evaluated the above-captioned lawsuit and awarded Twenty Five

Thousand Dollars (\$25,000.00) in favor of Plaintiff. The parties have until December 3, 2012, to either accept or reject the case evaluation. Failure to file a written acceptance or rejection within this period constitutes a rejection.

Based upon our review of the facts and particulars of this lawsuit, which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body, it is our considered opinion that acceptance of the case evaluation award is in the best interest of the City of Detroit.

We, therefore, request your Honorable Body to authorize acceptance of the case evaluation award; and, in the event that Plaintiff accepts the award, to direct the Finance Director to issue a draft in the amount of Twenty Five Thousand Dollars (\$25,000.00) payable to Ricky Brown and his attorneys, Adler Stillman PLLC, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 12-002192-NO, approved by the Law Department.

Mayor's Office

September 27, 2012

Honorable City Council:

Re: Amendment of the Executive Organization Plan, and for City Council Public Hearing Thereon, to Eliminate the Department of Human Services By Ceasing All Functions of the Department.

Section 7-102 of the 2012 Detroit City Charter authorizes the Mayor to amend the organization plan for the Executive Branch of City government. The amendment is to be submitted to your Honorable Body and made public. After a public hearing, the City Council is required to approve, recommend modification, or disapprove the proposed amendment within sixty (60) business days. Lacking such

action, the Executive Organizational Plan is automatically amended as submitted.

This communication is submitted to your Honorable Body setting forth a proposed amendment to the current Executive Organization Plan which would eliminate the Department of Human Services by ceasing all functions of the Department, which include Administrative Services; Neighborhood Service Centers; Head Start Programs; Veterans Services; Weatherization and Energy Assistance; Neighborhood Drug Treatment; Community Programs; Mayor's Emergency Food Program; and Homeless Intervention Program, to carry out the State's plan to contract with a non-profit corporation for delivery of those services.

Your Honorable Body's approval of this Executive Organization Plan amendment in advance of the maximum sixty (60) business day time limit will enable implementation of these changes in an expedient manner. My Administration is available to answer any questions.

Respectfully submitted,
DAVE BING
Mayor

Board of Ethics

October 29, 2012

Honorable City Council:

Re: Authorization to Amend the FY 2012-13 Budget for the Board of Ethics.

The Board of Ethics is requesting authorization to amend its Fiscal Year 2012-13 budget for the addition of one full-time employee or contractual staff. As of February 24, 2012, the Administrative Secretary position for the Board of Ethics was eliminated. Since that time some of the essential functions of that position have been performed by the Executive Director and a contractor. The contractor assists at Board meetings regarding the Minutes. Since March, the volume of activity and demands on the Board and staff has increased to a greater level than ever before. To date 12 formal Advisory Opinions have been requested and issued in addition to numerous informal inquiries. There have been 637 complaints received, all of which must be addressed and responded to. There are record keeping and filing responsibilities that are also required. The 2012 Charter changes require the revision of all Board forms and publications in addition to updating our website. The Executive Director has conducted training sessions for some departments upon request however the 2012 Charter requires that the Board provide mandatory training to all public servants. The process and method by which that task will be undertaken has not been decided. Contractors and vendors are now included among those who under the authority of the Ethics rules and are also required to provide disclosure information. The Board under the amended Ethics Ordinance is now the designated custodian of those records therefore a system must be developed in addition to a process whereby all affected must be informed of the changes and the requirements.

This summary represents a brief overview of the challenges which have occurred since the approval of the 2012 Charter and the reduction in force which resulted in the elimination of the Administrative Secretary position.

Increase Appropriation No. 10397
Board of Ethics \$40,000
Decrease Appropriation No. 00852
Non-Departmental (Claims Fund) \$40,000

The attached resolution authorizes the increase in appropriations for the Board of Ethics and a related decrease in the Claims Fund appropriation in the Nondepartmental agency. The decrease in the Claims Fund appropriation is due to a favorable change in current fiscal year debt service requirements. A waiver of reconsideration is requested.

Respectfully submitted,

The City of Detroit, through the Planning & Development Department ("P&DD"), has worked closely with the U.S. Department of Housing and Urban Development ("HUD"), in making required annual disbursements and commitments of City of Detroit HOME funds for the 2012 fiscal year. The HOME program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers;
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis and are included in the annual entitlement award from HUD and are part of the Consolidated Plan.

Each year, P&DD issues a Request for Proposals ("RFP") to solicit projects and development partners to receive HOME funds. Proposals are ranked according to developer capacity/experience, funding leveraged, "readiness to proceed" and projected impact on Detroit neighborhoods and housing markets. This year, P&DD received additional oversight from HUD during its commitment process which caused some delay. Nevertheless, we need council approval prior to recess to meet HUD's December 31, 2012 deadline for the commitment of HOME funds.

Consistent with the new process adopted by City Council this summer for approving HOME awards and development partners, the Department is requesting that your Honorable Body review and approve the attached lists. The first list contains projects that are either in the construction process and need additional funding to complete construction and project related improvements or the project has been

recently awarded matching funds required as a pre-condition of P&DD's original approval to proceed. The second list contains three projects that require the City to subordinate to a new HUD lender so that the overall projects can be refinanced at a lower annual rate of interest.

These projects are leveraging \$126,683,852 in project financing to produce over 673 units of affordable housing in neighborhoods in Detroit. We request approval of the attached resolution with a waiver of reconsideration so housing investments under the HOME program can continue. Should you have questions or require additional information, please do not hesitate to contact me.

City Planning Commission

November 7, 2012

Honorable City Council:

Re: Overview of Preparations for the Community Development Block Grant (CDBG) and Neighborhood Opportunity Fund (NOF) Program for the 2013-2014 Review Period (Departmental Report).

The following report provides an overview of some of the issues regarding the 2013-14 Community Development Block Grant (CDBG) and Neighborhood Opportunity Fund (NOF) review period.

For the past month, City Planning Commission (CPC) staff has met with staff from the Planning and Development Department (P&DD) to discuss and review the subject issues.

Timeline and Workshops

At this time, the expected due date for the CDBG/NOF application is Friday, December 21, 2012. CPC staff is working to establish two mandatory proposal writing workshops for early December 2012. CPC staff thinks it would be very helpful (as oftentimes in the past) to have the proposals due some time in November or December in order to have adequate time to process the applications.

As City Council may recall, last year, the CDBG/NOF was moved to the front of the budget review period; City Council's public hearing was held on April 13, 2012, and on April 27, 2012, City Council voted on its recommendations. The main reason for the early vote is to meet the federal government's deadline of May 15th for submitting the Consolidated Action Plan. CPC staff supports a similar timeline, with City Council reviewing CDBG/NOF at the beginning of the budget review process, for the 2013-2014 budget review.

Application

As noted last year, CPC staff supports improvements to the CDBG/NOF application, in particular, revamping the scoring criteria and adding additional questions regarding outputs and outcomes. CPC staff has been working the past month with P&DD regarding possible changes, but has not yet finalized the changes. Any

changes would need to be completed prior to the proposal writing workshops.

One important application change that P&DD would like to implement is fund groups only \$100,000 or \$0. One advantage of this is that groups would not need to rewrite their budgets based on funding awards lower than what was submitted in the proposal. This would allow P&DD to implement contracts in a more timely manner. CPC staff thinks one challenger of such a suggestion, if adopted, is that it could substantially decrease the number of Public Service (PS) groups, because the PS cap would be reached more quickly. P&DD indicates that for years both they and HUD have requested larger contracts to fewer groups.

Lastly, P&DD is recommending that the Public Facility Rehabilitation (PFR) application also include requests for Commercial Rehabilitation. In the past, Commercial Rehab requests were listed within the Economic Development application. If this happens, it is unclear if an Economic Development application will be issued. CPC staff supports P&DD issuing an "Other" application which lists all the eligible non-PS/Homeless Public Service (HPS) and non-Public Facility Rehab (PFR)-eligible requests, but P&DD indicates it does not have the staffing to monitor non-PS/HPS and non-PFR applications.

Citizen Review Committee

There are currently 11 Citizen Review Committee members and two of the members' terms have expired as of June 30, 2012. Planning Commission staff has contacted all the current members and eight of the 11 members have expressed a desire to continue to serve on the committee. Both expired-term members, Tracey Marks and Ava Tinsley, desire to be reappointed for an additional term. As is tradition, the CPC generally recommends the reappointment of recently serving, veteran CRC members at their request. At the CPC meeting on November 1, 2012, the Commissioners indicated that they are supportive of the reappointments of Tracey Marks and Ava Tinsley.

Of the remaining CRC members with current (unexpired) terms, only one, Cassandra Pettway, has indicated she would not be able to serve this year due to scheduling conflicts. The status of two other CRC members, Sofia Moore and Althea Sauls, is unclear; further action by Council may be needed to fill out the membership of the CRC.

Threshold Criteria

In 1994, City Council approved eligibility criteria for both NOF- and CDBG-funded proposals. Since then, City Council has relied increasingly on the criteria to determine eligibility of the proposals. In July of 2007, partly in response to con-

cerns of HUD, the City Council adopted Joint Threshold Criteria to be utilized by both the legislative and executive branches of government.

In the past month, CPC and P&DD staff have met to review last year's threshold criteria. Below are proposed changes for City Council's consideration. These are also listed in an attached resolution, which Council has usually adopted prior to the applications being printed.

1. Must meet a HUD National Objective.
2. Group must attend the ~~2012-13~~ 2013-14 workshop;
3. Proposal must be complete, typed, and submitted by the deadline;
4. Proposal must be submitted on correct form;
5. Must have at least a five (5) member board; and which meets at least quarterly;
6. Must have current 501(c) 3 status prior to applying for proposal;
7. Must have at least one year of operation and proof of operations;
8. Must not have unresolved government audit or Federal, State, and/or City monitoring problems (i.e. tax, legal, audit etc);
9. Must submit most recent fiscal year cash flow statement, financial statement and ~~audit~~ if available, recent audit;
10. Within the last 12 months, must have three (3) support letters (Issues regarding dates and signature will be an issue for ranking evaluation, but an undated or unsigned support letter will not automatically eliminate an organization's proposal);
11. Must read and sign Certification form;
12. Must submit ~~most recent~~ current Non-profit Corporation Information Update (Michigan Annual Non-Profit Report);
13. Must submit Certificate or Articles of Incorporation;
14. Must provide demonstrable outputs and/or outcomes;
- ~~15. Must demonstrate readiness to proceed~~
- ~~16. Must have at least 25% matching funds~~
15. Applicant organization must provide proof of operating cash on hand (at least 7% of the request(PS and HPS only);
16. Proof of building ownership/long-term lease (at least 5 years)/pending purchase (for PFR only);
17. Must show support documentation of matching funds equaling at least 35 percent of requested amount (for PFR only).

In general, CPC staff is supportive of the above proposed changes to the threshold criteria. However, some on CPC staff are concerned about requiring a

"typed" proposal as listed in the 3rd criterion. There is a concern that this will place less technologically sophisticated groups at a disadvantage. Also, there is concern from some on CPC staff that requiring proof of cash on hand may harm groups with limited capacity — one option is to keep this in the proposal, but not make it a threshold criterion.

November 9, 2012

Honorable City Council:

Re: Special District Review and approval of temporary use permit applications and temporary sign permit applications during City Council's 2012 year-end recess..

The Detroit Zoning Ordinance requires that any permit application submitted to the Buildings Safety Engineering and Environmental Department for exterior work within the Public Center (PC) District and Public Center Adjacent/ Restricted Central Business (PCA) District must be reviewed by the City Planning Commission (CPC) and the Planning and Development Department (P&DD). The CPC then submits a report and recommendation to Your Honorable Body together with a resolution.

The North American International Auto Show takes place at the Cobo Exhibition Center on land zoned PC and PCA. Every year exhibitors request permits for temporary displays and structures; very often those permit applications are received during City Council's end-of-year recess and consideration of those applications by Council often overlaps with the opening of the Auto Show. The upcoming auto show runs from January 14-27, 2013.

CPC staff recommends adoption of a resolution which authorizes CPC and P&DD staff to review, approve, deny, or approve with conditions any temporary use, temporary structure, and temporary sign permit application related to land zoned PC and PCA, submitted prior to City Council's return on January 8, 2013.

Respectfully submitted,

By Council Member Jenkins:

Whereas, the Detroit Zoning Ordinance requires that any permit application submitted to the Buildings Safety Engineering and Environmental Department related to the exterior design, location, and appearance of work within the Public Center (PC) District and Restricted Central Business (PCA) District must be reviewed by the City Planning Commission (CPC) and the Planning and Development Department (P&DD); and

Whereas, consistent with Sec. 61-3-182 of the Zoning Ordinance, the City Council approves, by resolution, any such permit application subsequent to receipt of a report and recommendation from the City Planning Commission; and

Whereas, the Zoning Ordinance is silent as to the applicability of these "special district review" provisions for applications for temporary uses, temporary structures, and temporary signs on land zoned PC and PCA; and

Whereas, the North American International Auto Show will take place at the Cobo Convention and Exhibition Center on land zoned PC and PCA, January 14-27, 2013; and

Whereas, exhibitors routinely submit permit applications during City Council's end-of-year recess period for temporary uses, temporary structures, and temporary signs for the North American International Auto Show (NAIAS); and

Whereas, it is the desire of Detroit City Council to facilitate the staging of the 2013 North American International Auto Show during the period of City Council's end-of-year recess from November 21, 2012 through January 7, 2013, while ensuring adherence to the spirit of the Zoning Ordinance; Now Therefore Be It

Resolved, the Detroit City Council authorizes the staff of the City Planning Commission and Planning and Development Department to review, approve, deny, or approve with conditions any temporary use, temporary structure, and temporary sign permit application related to the NAIAS on land zoned PC and PCA, submitted prior to City Council's formal session of January 8, 2013 in consultation with other departments as appropriate.

Re: Approval of an amended and restated Land Transfer Agreement for the

purposes of furthering the goals of the Project Plan for the Neighborhood Development Corporation Project Plan No. 1.

On March 20, 1998, this honorable body approved The Neighborhood Development Corporation of the City of Detroit (the "NDC") Project No. 1 Project Plan (the "Project Plan"), an Amendment to the Detroit Master Plan of Policies, and the Resolution of Necessity, to create an 88 acre residential development in the area generally bound by East Jefferson, Marquette, St. Jean and Freud (the "Project").

On March 10, 1999, an Agreement to Purchase and Develop Land (the "Development Agreement") was entered into, by and among the NDC, The Economic Development Corporation of the City of Detroit, and City Homes Development L.L.C. (the "Developer,") in pursuance of the goals and obligations set forth in the Project Plan.

In furtherance of the Project Plan, on February 21, 2001, the City Council of the City of Detroit adopted a resolution authorizing the City of Detroit Finance Director to execute a Land Transfer Agreement by and between the City of Detroit, acting by and through its Planning and Development Department, and the NDC (the "Transfer Agreement.") The Transfer Agreement was subsequently entered into on December 26, 2001.

The Developer subsequently defaulted under the Development Agreement and as a result its rights to develop the project were terminated. In order to move the Project forward, it is necessary to amend the Transfer Agreement to permit the NDC to identify and select new developers to complete the Project.

For your review and consideration, please find the attached resolution authorizing the execution of an Amended and Restated Land Transfer Agreement ("Amended Agreement"). The EDC Board of Directors has authorized the execution of the Amended Agreement. A copy of the proposed Amended and Restated Land Transfer Agreement is already in the possession of the City Clerk.

We thank you in advance for your consideration of this matter.

November 19, 2012

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 41 of the 1984 Detroit City Code, *Peddlers, Solicitors and Vendors*, by Amending Article VI, *Solicitation of Fire Repair Contracts*.

The above-referenced proposed ordinance was requested by the Fire Department. The proposed ordinance has been approved as to form.

On November 2, 2012, this proposed ordinance was transmitted to your Honorable Body and on November 7, 2012, referred by the Committee of the Whole to the Public Health and Safety Standing Committee. At today's meeting of the Public Health and Safety Standing Committee, the Law Department notified Committee members of a scrivener's error in proposed Section 41-6-2, which inadvertently omitted the authority of sworn officers of the Fire Department to issue ordinance violations under this article. The scrivener's error has been corrected in proposed Section 41-6-2 to include sworn officers of the Fire Department. As such, the corrected version of this proposed ordinance is being submitted for introduction and holding a public hearing prior to consideration and passage by your Honorable Body.

Pursuant to the applicable provisions of the 2012 Detroit City Charter, the proposed ordinance is being submitted to your Honorable Body for consideration and passage. This proposed ordinance amends Chapter 41 of the 1984 Detroit City Code, *Peddlers, Solicitors and Vendors*, by amending Article VI, *Solicitation of Fire Repair Contracts*, by changing the name of Division 1, from *Generally to In General*, which shall consist of Sections 41-6-1, 41-6-2, 41-6-3, 41-6-4, 41-6-5, 41-6-6, 41-6-7 and 41-6-8, and Division 2, *License*, which shall consist of Sections 41-6-11, 41-6-12, 41-6-13, 41-6-14, 41-6-15, 41-6-16, 41-6-17, 41-6-18 and 41-6-19; by amending Sections 41-6-1, 41-6-3, 41-6-4, 41-6-5, 41-6-6 and 41-6-7; by repealing Sections 41-6-18.5, 41-6-20, 41-6-21, 41-6-22 and 41-6-23; by repealing Sections 41-6-2, 41-6-18 and 41-6-19, and by adding substitute Sections 41-6-2, 41-6-18 and 41-6-19; and by adding 41-6-11, 41-6-12, 41-6-13, 41-6-14, 41-6-15, 41-6-16, and 41-6-17, to recodify the definition of the term 'interested person;' to amend the definitions for the terms 'residential builder' and 'residential maintenance and alteration contractor' to make them commensurate with state law; to add a definition for the term "residential structure" from state law; to provide criminal penalties for violation of this article; to provide that ordinance violations for violation of this article may be issued by sworn officer of the Police

and Fire Departments; to prohibit licensees from soliciting fire repairs during a fire; to clarify that only one (1) licensee from a contractor or builder may solicit fire repair contracts for a period of twenty-four (24) hours after a fire is extinguished; to delete language concerning cash allowances that insurance companies may make to property owners for repairs; to clarify that both oral and written misrepresentations by licensees during the solicitation of fire repair contracts are prohibited; to clarify that discrimination on the basis of race, color, religious beliefs, national origin, age, marital status, disability, public benefit status, sex, sexual orientation, or gender identity or expression is prohibited; to clarify that trespassing by a licensee during the solicitation of fire repair contracts includes entering, without permission, the occupied dwelling of another, or the property on which the occupied dwelling of another is located, after having been forbidden to do so by the owner or occupant or the agent of the owner or occupant, and remaining on an active commercial establishment or the property on which an active commercial establishment is located, after being requested to leave by the owner or occupant, or the agent of the owner or occupant; to recodify and update requirements for obtaining a license to solicit fire repair contracts, including: 1) that the license be issued in the form of an identification badge; 2) that the Chief of Police cause an investigation to be completed to determine whether the applicant has violated, or is violating, any of the provisions of this article or has been convicted of violating any law of this or any other state or of the United States, or has been convicted of any felony or misdemeanor dealing with dishonest or fraudulent conduct, or wilful misrepresentation; 3) that the Finance Director, in accordance with Section 2-113 of the 2012 Detroit City Charter, cause an investigation to be completed to determine whether any property tax, income tax, and/or special assessments are unpaid, outstanding and/or delinquent; 4) that the amount of the surety bond be increased from \$1,500 to \$5,000; 5) that licenses for the solicitation of fire repair contracts are non-transferable; and 6) that licenses issued under this article may be suspended, revoked, or denied renewal in accordance with Chapter 30 of this Code.

Fire Department

September 17, 2012

Honorable City Council:

Re: Request your approval to reallocate

budgeted dollars from Appropriation No. 00718 to Appropriation No.'s 00065 and 00715.

The City of Detroit Fire Department ("DFD") requests several critical amendments to its 2012-13 Budget. Pursuant to a February 7, 1975 arbitration award, DFD is required to staff 134 Sergeants positions in Fire Fighting Operations. Through Labor negotiations the Detroit Fire Fighters Association's ("DFFA") Tentative Agreement ("TA") deleted forty-four (44) Fire Sergeants positions. However, because City Council did not approve the TA, DFD is required to follow the arbitration award, which means that DFD must now restore 44 Sergeants positions and instead delete an additional 44 Lieutenants.

DFD requests to restore the Superintendent of Fire Apparatus. This position is one of the most critical positions in the Department. The Superintendent is vital to direct the maintenance and service of the Apparatus repair shops and stores. Without this position, DFD will have no supervisory personnel for the mechanics who repair ambulances and fire apparatus that is critical to Department operations. This position was initially cut in DFFA's TA, which, as previously stated, is not operative. This position will be funded from the net savings generated by restoring the sergeant positions and deleting the lieutenant positions.

DFD also requests to add three General Auto Mechanic positions in Apparatus. The General Auto Mechanics is also vital to the direct maintenance and service of the apparatus. The age and wear and tear of our emergency response vehicles makes it imperative that we have enough mechanics to stay abreast of the preventative maintenance of the fleet. DFD also request to restore one Arson Investigator. The Arson Investigator is truly needed due to the rash of arson fires that have increased because of public knowledge of downsizing the department. Seven Arson Investigator were deleted in DFFA's TA.

These five critical positions will be funded from the net savings generated by restoring the Sergeant positions and deleting the Lieutenant positions.

Honorable City Council:
 Re: Request permission to accept an increase in the "FY2013 Traffic Enforcement Grant Project" from the Michigan Office of Highway Safety Planning.

The Michigan Office of Highway Safety Planning (M.O.H.S.P.) has awarded the Detroit Police Department (DPD) an additional \$100,000.00, with no cash match, for the "FY2013 Traffic Enforcement Grant Project." The added funding will increase the overall grant budget from \$200,000.00 to \$300,000.00. The appropriation number for this grant is 13521 and the cost center number is 372484.

The increased funding will allow for payment of personnel overtime wages. The goal of M.O.H.S.P. is to increase the use of safety belts and proper use of child safety seats, thus substantially improving the likelihood of surviving a traffic crash and/or reducing the severity of injury. Additionally during enforcement, DPD officers will also focus on removing impaired (intoxicated) drivers from behind the steering wheels of cars, thus reducing their ability to hurt themselves or others.

Police Officer Viera Brownlee, of Grants and Contracts, will serve as the Project Director for the grant.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the funding and approved participation.

Honorable City Council:

Re: Request to accept an increase from the State of Michigan’s Automobile Theft Prevention Authority (ATPA) for the “East Side Action Team” grant for the Fiscal Year 2012/2013.

The State of Michigan’s Automobile Theft Prevention Authority (ATPA) has awarded the Detroit Police Department (DPD) \$131,190.00 to pay a portion (50%) of the salary and fringes of one sergeant and one police officer assigned to the grant. Additionally, the grant funding will cover 50% of the costs associated with leasing two vehicles for task force officers to utilize and the purchase of field operation supplies. The Department will be required to match an additional \$131,190.00, which will pay the other half of the costs for salaries/fringes, leases, and field operation costs. Second Deputy Chief Tina Tolliver, of DPD Budget Operations, has indicated that matching funds are available.

The combined funding brings the total grant budget to \$262,379.00, including the 50% match. This grant is already in the City of Detroit’s Fiscal 2012-2013 Budget (Appropriation #13510, Cost Center 372583) for \$240,000.00; therefore, formal acceptance of the \$22,379.00 increase on the part of the City is necessary.

This grant will run from October 1, 2012 through September 30, 2013 and its assigned grant number is G-1-13. Inspector Marlon Wilson, of Investigative Operations, will continue to serve as the Project Director.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution. The Board of Police Commissioners has been notified of the funding and approved participation.

If you have any questions or concerns, regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Honorable City Council:

Re: Petition No. 2060 — Voyageur Academy, request alley vacation south of Buchanan and west of Wesson; Cook east of Military; and Military between the alley (which is parallel to Michigan and north of Michigan) to Buchanan Street.

Petition No. 2060 of "Voyageur Academy", request the conversion of certain public rights-of-way in the block bounded by Buchanan Street, 60 feet wide, Michigan Avenue, 120 feet wide, Livernois Avenue, 120 feet wide, and Wesson Avenue, 50 feet wide, into private easements for the utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

Prior to the actual closing of Military Avenue the petitioner and/or property owner is required to submit street closure signage and detour plans for Traffic Engineering Division — DPW's review and approval.

It has come to the attention of City Engineering Division — DPW that the residents on the north side of Buchanan Avenue object to the closing of Military south of Buchanan Avenue for the reason it would inconvenience the residents who walk and drive that portion of Military. The residents were not informed of the request to close the streets because they do not abut Military Avenue requested to be vacated.

All City departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into private easement for the public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

City of Detroit

Historic Designation Advisory Board

November 9, 2012

Honorable City Council:

Re: Request for approval of resolution authorizing the submittal of an application to the State Historic Preservation

Office for federal grant — Belle Isle.

Attached hereto for your Honorable Body's consideration are two resolutions authorizing the Historic Designation Advisory Board (HDAB) staff to submit two separate applications to the State Historic Preservation Office (SHPO) for federal grants — *Masonry and Window Rehabilitation of Belle Isle Aquarium* and *Masonry Rehabilitation of Belle Isle Nancy Brown Peace Carillon Tower*.

The purpose of the grant proposal, *Masonry and Window Rehabilitation of Belle Isle Aquarium*, is to continue the weatherization efforts that were commenced with the 2011-12 CLG (Certified Local Government) grant which permitted the re-roofing of the Belle Isle Aquarium. If we are awarded the grant not to exceed \$45,000, we will conduct masonry tuck pointing and repair, window replacement and repair, and painting of exposed wood and trim.

The Nancy Brown Carillon Tower is in a severe state of disrepair and requires immediate attention to protect its structural integrity. We anticipate a phased approach to its repair, with Phase 1 addressed by the grant proposal *Masonry Rehabilitation of Belle Isle Nancy Brown Peace Carillon Tower*. If we are awarded the grant not to exceed \$26,000, we will repair the limestone façade and replace grout in the joints that have suffered from exposure to moisture and temperature fluctuations.

Staff of the Recreation Department, HDAB, and the General Services Department is providing administrative and supervisory in-kind services to make up a portion of the 40% match requirement for both projects. We are awaiting a letter of support from the Belle Isle Conservancy, which will fulfill the remainder of the match requirement for both projects. For the Aquarium we are anticipating a total project cost of \$75,000 with the 40% match requirement fulfilled by \$6,000 in-kind administrative and supervisory services and a requested cash match of \$24,000 from the Belle Isle Conservancy. For the Carillon Tower, we are anticipating a total project cost of \$42,000 with the 40% match requirement fulfilled by \$7,000 in-kind administrative and supervisory services and a requested cash match of \$10,000 from the Belle Isle Conservancy.

Our office has been actively encouraged by SHPO to submit these grant applications, and we are quite confident that we will be awarded grant funding for both the Aquarium and the Carillon Tower.

M. RORY BOLGER

Re: Authorization to increase appropriations 13438 and 13439 for the Mini Grant Program.

The Recreation Department is hereby requesting the authorization of your Honorable Body to increase appropriation 13438 by \$3,400 totaling \$16,100 and appropriation 13439 by \$12,800 totaling \$52,000 for the Mini-grant Program.

The Michigan Council of Arts and Cultural Affairs have awarded the Recreation Department with an increase from the annual award amount. An

increase of \$16,200 will allow the department to expand its ability to partner with other non-profit organizations to provide visual and performing art services to children and families within our communities; making it possible to expose our children and seniors to art programs they otherwise would not have exposure.

The funding increase for the mini grant program will also allow the Recreation Department to send a staff person to attend an art conference where they would participate in various workshops and activities. This conference will allow staff to gain knowledge and training in the element of art programming and enhance programming at various recreation centers.

We respectfully request your approval to accept the additional funding and increase both appropriations for the mini grant program by adopting the following resolution, with a Waiver of Reconsideration.

RESOLUTION OPPOSING THE MILESTONE AGREEMENT BETWEEN THE STATE OF MICHIGAN AND THE CITY OF DETROIT

By COUNCIL MEMBER JONES:

WHEREAS, On or about November 13, 2012, officials of the State of Michigan and the City of Detroit apparently executed a nine-page document entitled "Memorandum of Understanding City of Detroit Reform Program"; and

WHEREAS, On or about November 15, 2012, Mayor Dave Bing and State Treasurer Andy Dillon publicly announced that the above document constitutes "*the Milestone Agreement*" between "The Bing Administration and the Michigan Department of Treasury" setting forth conditions that must be met for the City to receive installments of desperately needed funds to which the City is entitled that are being held in escrow by the State Treasurer; and

WHEREAS, Although several individual elements within the Milestone Agreement reflect necessary or desirable reforms in the interest of the City of Detroit and its residents, many others — particularly those usurping local government accountability, authority and control, as well as those that require City Council to make immediate legislative affirmations, actions that bear no apparent relationship to the supposed "remediation of the City's fiscal condition", upon pain of placing the City in an imminent negative cash flow position, without sufficiently detailed information to exercise due diligence — represent unauthorized, improper and undesirable actions in violation of State law and the City Charter; and

WHEREAS, Especially after the successful referendum against former Public Act 4 passed by the voters of Michigan on November 6, 2012, exactly one week before the date of the Milestone Agreement, stripped the State of powers over local government previously granted by Public Act 4 but no longer applicable, there is no lawful basis for the objectionable provisions of the Milestone Agreement; and

WHEREAS, In many respects the Milestone Agreement in its current form is not wholly in the best interests of the City of Detroit or its residents in governance pursuant to the Rule of Law and in a manner that is transparent, accountable and effective in its representation of citizens' interests; and

NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council opposes the current Milestone Agreement as an unlawful, undesirable and inappropriate exercise of State power over local home rule Charter governance, and a usurpation of the rights and interests of the City of Detroit and its residents in favor of the State of Michigan for which there is no valid legal authority, permitting the State's overreaching in violation of local government powers and the interests of local residents; the Milestone Agreement should be regarded as a nullity, and

BE IT FURTHER

RESOLVED, That no acts or refusals to act by the Detroit City Council regarding any matter, whether it is mentioned in the Milestone Agreement or not, may be interpreted in any way as acquiescence or agreement to the validity, enforceability or legality of the Milestone Agreement as executed.

**RESOLUTION SUPPORTING A
COMMUNITY BENEFITS AGREEMENT
WITH THE HENRY FORD HEALTH
SYSTEM, KIRCO MANIX AND
CARDINAL HEALTH FOR THE
CARDINAL MEDICAL WAREHOUSE
AND DISTRIBUTION CENTER
DEVELOPMENT**

By COUNCIL MEMBER WATSON:

WHEREAS, Henry Ford Health Systems (HFHS) is currently seeking rezoning to advance plans to construct a 273,520 square foot medical and surgical supply warehouse and distribution center to service HFHS, the Detroit Medical Center (DMC) and other related facilities. Both HFHS and DMC have agreed to long-term distribution agreements with Cardinal Health, enabling the company to relocate its warehouse operations from Romulus to Midtown Detroit; and

WHEREAS, The impact on the host community where the proposed warehouse would be located has been of great concern to area residents, community

groups and businesses as it combines pre-existing residential with a large scale construction project, warehouse operations and significant truck traffic accessing the site. Although HFHS representatives have begun to engage the community, numerous concerns have not been fully addressed to date including; increased safety measures and patrols, truck traffic routes and operations; job training and employment opportunities for local residents; blight eradication efforts; HFHS investment in other projects for the community such as green spaces/playgrounds as well as environmental concerns; and

WHEREAS, To address these concerns and implement sustainable benefits to the community, the West Grand Boulevard Collaborative, a grassroots community group formed in 2004, has been actively working to formalize the interaction between HFHS, Cardinal Health, the host community, KIRCO, and any other contractors, who are implementing the Cardinal warehouse project; and

WHEREAS, A formal Community Benefits Agreement (CBA) between these specific entities is proper as HFHS has been the catalyst for this project in its ongoing pre-development stages, KIRCO MANIX will be the project developer during the construction phase and Cardinal Health will be utilizing the distribution center for its operations. A CBA would also protect and stabilize the residential community that currently exists within and surrounding the project area; and

WHEREAS, The involvement of the host community is a positive step towards including its voice during the project and adequately protecting its interests and support for the developers through a Community Benefits Agreement; and

WHEREAS, The City Council has a vested interest in protecting the residents and businesses located in the host community and maximizing the benefits that flow from the construction and operation of the Cardinal Warehouse to strengthen that community and the City as a whole; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council supports a Community Benefits Agreement to establish a contractual relationship between the aforementioned parties to ensure the impacted community is the beneficiary and not the victim of the proposed Cardinal Warehouse development; and BE IT FURTHER

RESOLVED, That the Detroit City Council hereby urges the parties to finalize a Community Benefits Agreement in the Cardinal Warehouse project that will improve the economic and environmental status of the community in which it is located; and BE IT FINALLY

RESOLVED, That a copy of this resolu-

tion be sent to the Mayor's Office, the West Grand Boulevard Collaborative, Henry Ford Health System, KIRCO MANIX and Cardinal Health.

TESTIMONIAL RESOLUTION FOR DETROIT TOGETHER MEN'S CHORUS 30th Anniversary Holiday Concert

By COUNCIL MEMBER WATSON:

WHEREAS, The beginnings of a men's chorus in Detroit may have been inspired

by the founding of the San Francisco Gay Men's Chorus and their national tour in 1981 that led to the creation of many "gay" choruses around the country; the idea for a men's chorus in Detroit was born out of a love of a few men for singing together, and

WHEREAS, After a constitution for Detroit Together — A Chorus was completed in October, 1982 that emphasized a desire to bring people together, hence the name, to provide entertainment to the community, and to be a source of fellowship and support for its members. The first Holiday concert was held in December, 1982 at Todds, and

WHEREAS, The Chorus, now known as Detroit Together Men's Chorus (DTMC) has continued to provide not only entertainment and fellowship for its members over the years, but has used music to bring healing and bridge the divisions that have too often existed in the Detroit metropolitan area between city and suburb, or gay and straight communities, and

WHEREAS, DTMC has represented Detroit at a number of national gatherings of GALA (Gay and Lesbian Association) of Choruses in New York, Denver, Seattle, Orlando, San Jose, Montreal; as well as inviting groups to Detroit to share their music from Rochester, New York, Chicago, Cleveland, Cincinnati, as well as the Grand Rapids Women's Chorus and Sistrum Women's Chorus from Lansing. In addition, DTMC has provided music for numerous events and groups throughout the Detroit Metropolitan area, such as Toledo, Ohio, and Windsor, Ontario as well as scheduling two annual concerts, and

WHEREAS, There is much greater acceptance of people who identify as gay, lesbian, bisexual or transgender now than in 1982. Today, there is a continuous need for DTMC to share the music that touches our hearts, changes the world, and bring our community together to bridge the barriers that divide us. NOW, THEREFORE BE IT

RESOLVED, That the Detroit City Council hereby congratulates the Detroit Together Men's Chorus on their 30th Anniversary Holiday Concert. We wish them much success in the future and look forward to many more years of music from Detroit Together Men's Chorus.

STANDING COMMITTEE REPORTS

BUDGET, FINANCE AND AUDIT STANDING COMMITTEE

Budget Department

December 3, 2012

Honorable City Council:

The Budget Department requests your Honorable Body to amend the City's FY 2012-13 Budget to ensure adequate legislative authority to pay for FY 2011-12 pension costs for which that year's budget was insufficient. Costs exceeded FY 2011-12 budgetary authority with regard to the City's General Retirement System

unfunded actuarially accrued liabilities by approximately \$28.1 million. Additionally, another \$1.4 million in interest is owed since July 1, 2012 due to the late payment of these liabilities.

In recent years such excess has been charged to the City's accumulated operating deficit and referenced as a footnote in the Comprehensive Annual Financial Report (CAFR) published six months after the end of the reported fiscal year. A budget amendment to authorize such an occurrence would be unprecedented in recent City financial history. However, the pension system's auditing firm has notified the City that it requires such authorization before the accumulated pension costs can be designated accurately in the pension system's financial statements. Such an alignment is thus necessary for proper completion of the CAFR. Absent this approval, the CAFR cannot be completed timely, imperiling the City's ability to receive state shares revenues and further weakening the City's overall fiscal condition.

Approximately \$6 million of this General Fund obligation was authorized by your Honorable Body on November 20, 2012, as part of the FY 2011-12 negative appropriation adjustment. We recommend that approximately \$779,000 be redirected from the FY 2012-13 Deficit Reduction appropriation (00444) to address the remaining General Fund obligation without affecting current operating functions in General City Agencies. Another \$22.7 million in FY 2012-13 grant and enterprise fund budgets is authorized to pay for the remaining obligations, derived as much as possible from additional available funds while minimizing the reduction in operating authority for the remainder of this fiscal year. Regarding cashflow, the Board of Trustees of the General Retirement System has approved a repayment schedule for these obligations.

We commit to your Honorable Body that sufficient budget for future pension obligations will be provided in a timely manner and that a similar adjustment will not occur again.

Planning & Development Department

November 14, 2012

Honorable City Council:

Re: Revised Sale of Surplus Property to Hantz Woodlands, LLC.

The Planning and Development Department (P&DD) hereby requests your approval for the sale of the surplus properties described in the attached Amended Exhibit "A" (the "Property") to Hantz Woodlands, LLC, a Michigan limited liability company ("Hantz Woodlands"), for the aggregate purchase price of approximately five hundred, twenty thousand dollars (\$520,000).

The Property is comprised of 1,558 parcels totaling 143.8 acres of surplus City-owned lots within an area defined by (a) Mack Avenue, Van Dyke Avenue, Kercheval Street, and Maxwell Street, on the west side of Indian Village, and (b) Mack Avenue, Fischer Street, E. Jefferson Avenue, and St. Jean Street, on the east side of Indian Village.

P&DD, through conversations with the City Planning Commission (CPC), Law Department and City Council, agree that certain parcels should be removed from "Attachment A" originally submitted for the Hantz Woodlands sale. The removed parcels include: 66 parcels in the Kercheval-McClellan Urban Renewal area, 151 parcels associated with the St. Jean berm Jefferson-Connor Revitalization Project along the Chrysler Jefferson North Plant, two (2) Fire Department parcels, three (3) Recreation Department parcels (need to declare surplus first), two (2) Detroit Public School Parcels (unclear who owns them), three (3) "City of Detroit-taxable" parcels, and all parcels associated with defunct development agreements with Greater Faith Assembly, Jefferson Avenue Housing Development Corporation, and Project Redemption Community Outreach.

The amended attachment reflects the removal of the above-mentioned parcels. Some parcels on this list may not be sold to Hantz Woodlands due to the property being sold to adjacent neighbors, P&DD removing parcels for strategic reasons, or problems found from further title research by P&DD and Hantz Woodlands.

Hantz Woodlands proposes to purchase the Property outright, and intends

to develop the Property for the purpose of planting and maintaining hardwood trees and conifers, and conducting such other uses as are or will be consistent with applicable law, regulations and ordinances, including zoning. If this Honorable Body subsequently adopts a zoning ordinance that will permit commercial agriculture and Hantz Woodlands desires to change the current use, it will be required to follow the city's standard procedures to secure the necessary City Council approvals to effect the change.

If zoning for commercial agriculture is not established — or, if established, Hantz Woodlands' request to change the current use is denied — then Hantz Woodlands will continue its development of the property as a use by right under existing zoning.

We therefore request that your Honorable Body adopt the attached resolution approving the sale of the Property to Hantz Woodlands and authorizing the execution of deeds and other documents necessary or convenient to effect the sale. In order to facilitate an expeditious consummation of the transaction and permit Hantz Woodlands adequate time to which to order and obtain a sufficient quantity of trees in furtherance of its development of the property, a waiver of reconsideration is requested.

Respectfully submitted,
ROBERT A. ANDERSON
Director

By Council Member Jenkins:

Resolved, That, in accordance with the foregoing communication the sale of the Property more particularly described on the attached Exhibit "A" to Hantz Woodlands, LLC, a Michigan limited liability company, for the aggregate purchase price of approximately five hundred and twenty thousand dollars (\$520,000), is hereby approved, and be it further

Resolved, That the Director of the Planning & Development Department or his designee be and is hereby authorized to execute an agreement between the City and Hantz Woodlands LLC, for the City's sale and Hantz Woodlands, LLC's purchase of the Property more particularly described in the attached Exhibit "A", in accordance with and upon such other terms and conditions as are consistent with the foregoing communication; provided that any such agreement must provide that all vacant residential lots included on Exhibit "A" hereto that are eligible for the "Adjacent Vacant Lot Program" approved on May 1, 2012, be made available for purchase by eligible purchasers, and if not sold to an eligible purchaser within a reasonable period of time, then may be sold in accordance herewith; and be it further

Resolved, That the Property more particularly described in the attached Exhibit "A" may be sold, transferred and conveyed to Hantz Woodlands, LLC, in whole

or in parts, by one or more quit claim deeds; and in the event of the conveyance of less than the entire Property by one single instrument, than the partial consideration for the portion of the Property being conveyed shall be determined by multiplying not less than \$0.0833 per square foot; provided, however, that the aggregate purchase price for all of the Property shall be approximately five hundred and twenty thousand dollars (\$520,000); and be it further

Resolved, That the Director of the Planning and Development Department or his designee be and is hereby authorized to execute and deliver one or more quit claim deeds and such other documents as may be necessary or convenient to effect the sale of the Property more particularly described on the attached Exhibit "A" to Hantz Woodlands, LLC, in accordance with these resolutions; and be it further

Resolved, That the Director of the Planning and Development Department is authorized to execute any required instruments to make and incorporate technical amendments or changes to the purchase and sale agreement authorized hereby (including but not limited to corrections to or confirmations of legal descriptions, or timing of tender of possession of particular parcels) in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters that may hereafter arise, provided that the changes do not materially alter the substance or terms of such agreement, and are not otherwise inconsistent with the approval given or the authority granted by these resolutions; and be it finally; and be it finally

Resolved, That the agreement be considered confirmed when executed by the Director of the Planning & Development Department or his designee, and approved by the Corporation Counsel as to form.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Tate, and President Pugh — 5.

Nays — Council Members Jones, Kenyatta, Spivey, and Watson — 4.

Planning & Development Department

December 10, 2012

Honorable City Council:

Re: Revised Resolution David Whitney Building Facade Easement.

On Tuesday, November 20, 2012, your Honorable Body requested the Planning & Development Department (P&DD) collaborate with Corporate Counsel, the Whitney Partners, LLC and the Roxbury Group to research the regulations pertaining to the removal of the Historic Preservation Façade Easement on the

David Whitney Building, 1553 Woodward Avenue (Petition #2380).

Since that time, numerous meetings and conference calls were held to better understand the requirements and opportunities to facilitate possible changes to the easement. Several consultations included local Internal Revenue Service officials, as well as Washington D.C. officials. At this time, the development team has requested a revised resolution to allow pursuit of a couple of options: a) to eliminate the easement, b) to transfer the easement, or c) to amend the easement. Toward that end, I have attached a revised resolution for your consideration.

In addition, the Planning & Development Department staff has scheduled a presentation before the Detroit Historic District Commission (DHDC) at its regularly scheduled December 12, 2012 meeting, in order for the DHDC to evaluate the application of the Roxbury Group and the Whitney Partners, in terminating, transferring or amending the Deed of Architectural Façade and Historic Preservation Easement (Façade Easement) granted to the City on April 25, 2000.

Thank you for your consideration of this matter.

Respectfully submitted,
ROBERT ANDERSON
 Director

By Council Member Jenkins:

Resolved, The City of Detroit Historic District Commission has the duty under Chapter 25 of the Detroit City Code and under the Local Historic Districts Act to review and evaluate development projects that affect historic resources; and

Whereas, The City has received a request from the Roxbury Group, on behalf of the Whitney Partners, LLC, owner of the David Whitney Building located at 1553 Woodward Avenue, Detroit, MI, to terminate the Deed of Architectural Façade and Historic Preservation Easement (Façade Easement) granted to the City on April 25, 2000; and

Whereas, The Roxbury Group and Whitney Partners are pursuing the release of the Façade Easement as they have indicated to the City that the termination, transfer or amendment of the Façade Easement may be necessary to obtain the financing required to further the rehabilitation of the building; and

Whereas, The Façade Easement designates the Historic District Commission as the agency through which the City acts with respect to the Façade Easement; and

Whereas, The Planning and Development Department provides staff for the Historic District Commission, and is also the agency of the City generally responsible for conveying real property interests of the City; and

Whereas, The Planning and Development Department staff has scheduled a presentation before the Detroit Historic District Commission at its regularly scheduled December 12, 2012 meeting in order for the Detroit Historic District Commission to evaluate the application of Roxbury Group, and the Whitney Partners, in terminating, transferring or amending the Deed of Architectural Façade and Historic Preservation Easement (Façade Easement) granted to the City on April 25, 2000; and

Whereas, The Façade Easement is a real property interest of the City; and

Whereas, The City of Detroit is in favor of supporting development along the Woodward corridor, a symbolic Gateway to our City; and

Whereas, The rehabilitation of the historic David Whitney Building will be a benefit to the City and to the public;

Now, Therefore, Be It Resolved That:

Resolved, That the rehabilitation of the David Whitney Building is in the interests of the public welfare and the welfare of the City; and be it further

Resolved, That the City is in favor of assisting the Roxbury Group and the Whitney Partners in rehabilitating the historic David Whitney Building; and be it further

Resolved, That prior to the December 12, 2012 Detroit Historic District Commission meeting, the Roxbury Group and the Whitney Partners shall submit the following to Staff, to be given to the Detroit Historic District Commission for use by the Commission in its evaluation of the application: a) such items as the Historic District Commission may reasonably require, and b) any and all other documents that the Roxbury Group and the Whitney Partners wish to include in support of their application. To the extent that any further items may be required by the Commission subsequent to the December 12th meeting, Roxbury shall provide such items in a timely manner; and be it further

Resolved, That if the Historic District Commission approves the application to terminate the easement, the City of Detroit Law Department is requested to pursue legal proceedings to terminate or transfer the easement, and include the appropriate parties in the litigation. Any termination of the easement shall require payment to the City of the appraised value of the easement and will be accomplished through a court order, from a court of appropriate jurisdiction. In order to facilitate any change to the façade easement, the Roxbury Group and the Whitney Partners shall provide an independent valuation of the Whitney Building, to include separately the value of the easement; and be it finally

Resolved, That in accordance with the

requirements of this resolution, including the determinations of the Historic District Commission and the Corporation Counsel, and receipt of payment of the appraised value of the easement, the Director of the Planning & Development Department or his designee, is authorized to agree to the termination, amendment or transfer of the easement and to execute such documents as may be necessary or convenient to accomplish such action(s), including but not limited to receipt of appropriate indemnifications from the owner of the David Whitney Building.

**RESOLUTION STRONGLY OPPOSING
ELIMINATION OF THE PERSONAL
PROPERTY TAX BY THE STATE
LEGISLATURE**

By COUNCIL MEMBER COCKREL, JR.,
Joined By COUNCIL MEMBER
WATSON:

WHEREAS, In May, 2012, the Michigan Senate approved a series of bills (SB 1065 (H-2), 1066 (H-1), 1067 (H-2), 1068 (H-1), 1069 (H-1), 1070 (H-1), 1071 (H-1), 1072 (H-2)) that would impact tax revenues by eliminating the personal property tax on eligible manufacturing personal property and certain commercial personal property. These bills will be considered by the House during the final week of session; and

WHEREAS, On or about December 6, 2012, the Michigan House of Representatives approved a series of bills (HB 6022, 6024 (H-2), 6025 (H-2) and 6026 (H-1)) providing only a partial reimbursement of the personal property tax revenue lost to local units of government, removing the replacement income from the annual appropriation process, and creating a metropolitan taxation authority. These bills will be considered by the Senate during the final week of session; and

WHEREAS, A portion of the replacement revenues identified in the new personal property tax plan embodied in the aforementioned Bills is a shift of tax revenues which would require a statewide vote in 2014 to ensure these critically needed revenues continue to go to local communities for local services; and

WHEREAS, Even though concerns surrounding the replacement revenues have not been fully addressed, especially if voters reject the tax change in 2014, and negotiations to achieve full and guaranteed replacement revenues for the personal property tax are also ongoing, these bills are being expedited through the legislative process; and

WHEREAS, Personal property taxes are paid only by businesses on equipment and machinery so its elimination will not benefit individual taxpayers or homeowners; and

WHEREAS, Cities, counties, public schools, libraries and townships use personal property tax revenues for essential services such as police and fire protection, teachers, library and senior citizen services as well as road and bridge repairs; and

WHEREAS, The loss of personal property tax funds without a guaranteed replacement revenue will negatively impact individual taxpayers or homeowners by creating revenue gaps in local budgets that could result in a reduction in municipal services; and

WHEREAS, The Michigan Association of Counties estimates local governments will lose an estimated \$470 million dollars in personal property tax revenues without a concrete plan for assured replacement revenues; and

WHEREAS, The Michigan Municipal League, Michigan Townships Association and numerous individual local leaders have articulated serious concerns with the current proposal to phase out the personal property tax; and

WHEREAS, The Detroit City Council is also concerned momentum on this issue will quickly gain traction, having a disastrous effect on the ability of local municipalities to collect and administer certain tax revenues; and

WHEREAS, The City of Detroit is already facing an unprecedented fiscal crisis that has necessitated the re-examination and re-evaluation of every aspect of City operations in an effort to effectuate needed changes to reduce the deficit while maintaining vital City services to our residents; and

WHEREAS, The elimination of the personal property tax without assured replacement revenues would have a compounded negative effect on the City's financial outlook by reducing revenues it has historically collected currently amounting to approximately \$50 million dollars per year; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly opposes the elimination of the personal property tax by the State Legislature without full and guaranteed replacement revenues identified as well as tying such a repeal to the statewide vote on the Use Tax in 2014; and BE IT FURTHER

RESOLVED, That the Detroit City Council urges the State Legislature to remove this issue from the fast track during the lame duck session so that replacement revenues can be fully identified, the practical effect on the Bills can be ascertained and outstanding questions can be answered; and BE IT FURTHER

RESOLVED, That the Detroit City Council urges the Detroit delegation to the Michigan Legislature to oppose the efforts to eliminate the personal property tax by opposing House Bills 6022, 6024 (H-2), 6025 (H-2) and 6025 (H-1) and Senate Bills 1065 (H-2), 1066 (H-1), 1067 (H-2), 1068 (H-1), 1069 (H-1), 1070 (H-1), 1071 (H-1), 1072 (H-2); and BE IT FURTHER

RESOLVED, That the Detroit City

Council urges the Detroit delegation to the Michigan Legislature to propose palatable amendments, if necessary, to the proposed legislation to ensure it addresses the City's needs and identifies full replacement revenues; and BE IT FINALLY

RESOLVED, That a copy of this resolution be sent Governor Rick Snyder; Detroit Mayor Dave Bing; House Speaker Jase Bolger; Senate Majority Leader Randy Richardville; Representatives Tim Bledsoe, Lisa Howze, Alberta Tinsley-Talabi, Maureen Stapleton, John Olumba, Fred Durhal, Jimmy Womack, Tommy Stallworth, Shanelle Jackson, Harvey Santana, David Nathan and Rashida Tlaib; and Senators Coleman Young Jr., Bert Johnson, Morris Hood, Virgil Smith and Tupac Hunter as well as Mr. Ken Cole of Governmental Consultant Services.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

Nays — None.

AND BE IT FURTHER RESOLVED, This ordinance shall make no change in the treatment of Confirming Requisitions and Revenue Contracts which shall both continue to require City Council approval. Management Agreements for City Facilities shall require City Council approval regardless of cost but Maintenance Agreements between the City and non-profit community based neighborhood groups, at no cost to the City, may continue to be processed on a Departmental basis provided that any

such agreement is subject to cancellation for the convenience of the City.

AND BE IT FURTHER RESOLVED, This ordinance should provide for the quarterly submission to the Council of a report to be prepared by the Purchasing Director that will summarize contracts approved by the Purchasing Director in the value range between \$25,000 and the threshold values specified in paragraphs 1 through 5 above, and

BE IT FURTHER RESOLVED, This ordinance should provide that the threshold amounts will continue to apply to new contracts in the categories specified above only so long as these threshold amounts are reaffirmed by resolution of the Council each fiscal year prior to the adoption of the budget and again in the seventh month of the fiscal year. The ordinance shall further provide that the threshold amounts may be reduced or eliminated in any such resolution.

**RESOLUTION STRONGLY URGING
THE BING ADMINISTRATION TO
INCREASE COLLECTION EFFORTS
OF BOARD UP AND DEMOLITION
COSTS UNDER THE DANGEROUS
BUILDING PROGRAM**

By COUNCIL MEMBER TATE:

WHEREAS, At present the number of vacant structures in the City of Detroit that meet the statutory definition of a “dangerous building” under MCL §125.539, *et seq.* and Ordinance 290-H §12-11-28.2 range far into the thousands. The primary functions of the City’s demolition program are to reduce blight and remove dangerous structures within the City of Detroit for the health and safety of our residents and visitors; and

WHEREAS, The foreclosure crisis and population loss has exacerbated the problem of vacant structures within the City, feeding aggressive house stripping activities and providing easy locales for squatters and drug dens. These problems, combined with other issues facing the residents of Michigan’s largest city, will undoubtedly increase the number of newly vacant structures and further deterioration of those structures that were already vacant and dilapidated; and

WHEREAS, The dangers that these structures pose in our community cannot be understated. Therefore, the implementation of a forceful and comprehensive plan to deal with this health and safety issue is critical. Recognizing the resources available for demolition activities under the City’s current approach are not sufficient to meet the City-wide need,

creative solutions the City can implement and improve to more efficiently and expeditiously eradicate blighted structures in our community must be exercised; and

WHEREAS, The dangerous building process should be one component of such a plan that can support and complement other blight-reduction efforts undertaken in the City with ever-dwindling resources as well as the present lack of adequate demolition funding; and

WHEREAS, An effective mechanism to hold property owners accountable for demolition and board up costs needs to be aggressively implemented so that the City can recoup these costs in a systematic manner from property owners, whether the owners are individuals or large commercial establishments like banks or mortgage companies; and

WHEREAS, The City clearly has the legal authority to abate dangerous structures and file liens for costs. The current statutory scheme at MCL 125.451 and 125.0451a allows for such accountability by permitting municipalities to file liens, obtain court judgments for the costs of demolition or securing dangerous structures and enforcing such judgments against the owner’s interest in all real property located in Michigan owned in whole or in part by the owner of the structure against whom the judgment is obtained and a lien is properly recorded. These can be executed on the owner’s assets by way of garnishment, attachment or any means allowable by the court; and

WHEREAS, Robust collection of board up and demolition costs will continuously replenish the funds spent for these purposes (operating similar to a revolving fund) and allow the City to maximize its blight reduction efforts; and

WHEREAS, The Detroit City Council’s enforcement role in the dangerous building process is mandated by state law and it has a vested interest in eradicating blight in our neighborhoods and increasing the collection of costs from property owners whose structures meet the statutory definition of a dangerous building, many of whom may be collectible (i.e. banks, mortgage companies, investment firms, owners of multiple properties or owners with other assets); and

WHEREAS, In January of 2010, the Bing Administration announced a pilot program focusing on the collection of board-up and demolition fees by the Law Department and the Treasurer’s Office utilizing all legal tools available to the City;
NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges the Bing Administration to increase invoicing and collection efforts of board-up and demolition costs under the City’s dangerous building program; and BE IT FURTHER

RESOLVED, That the Detroit City Council urges the Bing Administration to aggressively pursue the remedies specifically available to the City under MCL 125.541 and 125.541a for the benefit and safety of the City's residents and visitors; and BE IT FURTHER

RESOLVED, That the Detroit City Council urges the Bing Administration to update this Honorable Body on the status of the pilot program for the recoupage of board-up and demolition costs, the reporting of such costs to the Assessor's Office as well as which of these options will be pursued as a formal City policy in the future; and BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to the Mayor's Office, Director of Buildings, Safety Engineering and Environment Department, Corporation Counsel as well as the Director of the Finance Department.

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Kenyatta, Spivey, Tate, Watson, and President Pugh — 9.

WHEREAS, The Detroit City Council on December 11, 2012 by resolution request that Mayor Dave Bing and his relevant designate appointees, immediately and rigorously demand, collect and secure all debts and receivables owed, as is documented in the account receivables report of monies owed to the City of Detroit given the serious nature of the financial condition of the City including the following: \$800 million owed to the City as was verbally confirmed by the State of Michigan's Treasurer Andy Dillon as recent as the week of December 3, 2012. This amount includes the lump sum of approximately \$200 million owed by one prominent business as per a city agreement; not including \$224 million (plus interest) owed by the State of Michigan which was confirmed by State Treasurer Andy Dillon, on a broadcast media program in April, 2012;

WHEREAS, The citizens of the City of Detroit deserve proper and due diligence from its elected officials to protect persons, property and assets of the City; and to not knowingly, willfully or grossly neglected the discharge of duties and;

WHEREAS, The Charter of the City of Detroit requires in the Declaration of Rights that, "Detroit City government is a service institution that recognizes its subordination to the people of Detroit and; THEREFORE BE IT RESOLVED THAT;

RESOLVED, The Detroit City Council hereby submits this request for immediate implementation of revenue collection procedures, to directly avert a financial shortfall, and put the City's immediate and long-term future into a position that is not fraught with deficits and fiscal doom, but is strengthened by solvency, stability and respect for its citizens and its assets.
