WHEREAS, Commitment characterized his life. This commitment permeated his relationship with both his nuclear family, as well as his community at large, which he nurtured as an extended family. His marriage to his beloved Helen spanned 53 endearing years and was defined by a mutual respect that was palpable. Truly he cherished her and remained an exemplary provider throughout their union. His daughters, Sheryl Young and Iris Faye Graves were his great joy. His pride in their accomplishments was evident and he remained inextricably connected to them despite the intervening miles. He was a proud grandfather. The latest milestones in the lives of Dorian, Tori, and Roland were ever present in his conversations. A shared enthusiasm for sports fostered a father son relationship with both sons-in-law John Graves and John Young, THEN THEREFORE BE IT

Invocation

Dear God in heaven,

I thank you for being our Lord, our King, and our Redeemer. I thank You for the blessings that You have already bestowed upon us. I realize this morning that You are the one that made us and it was not our own doing. Therefore, I bless Your name and give You glory. I believe today that You are our creator and that You are a God who can do the impossible. You saw fit to wake us up this morning and You allowed this gathering of the Detroit City Council. Therefore I lift up Your name and I give You all of the glory, all honor, and all of the praise.

Jeremiah 32:27 reads "Behold, I am the Lord, the God of all flesh: is there anything too hard for Me?"

My answer to this question this morning is an emphatic no. I believe today that there is nothing too hard for our God. That is why I can ask in faith that You, Lord bless the City of Detroit and this elected body of council members. I also ask that You would bless the business that will be acted on during this council session and that the business of the city would be handled expeditiously.

These and other blessings I ask in Your son's name.

Thank God!

Amen.

VOTING ACTION MATTERS

OTHER MATTERS:

NONE.

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL AGENCIES:

NONE.

PUBLIC COMMENT

SANDRA HINES (Free Detroit/No Consent): They may want to file an ethics complaint to prosecute elected City and Governor officials. They want to uphold the law of City Charter. They want to stop illegal land grabs.

SHAY: Has concerns with City post employment. The Charter must be followed. It is the Charter of Detroit.

STEPHEN BOYLE: Transportation contracts need to be investigated by the Auditor General. Part of the problem deals with stated measures.

MS. HENDERSON: Has concerns with the non-renewal of the TWW contract; there is misrepresentation of the truth.

SARAH PETERSON: Has received services from TWW. They're more than an employment agency. They care about individuals and help them get successful jobs. Closing of their services is devastating to her.

MR. McNAMARA: Has concerns that Hamtramck wants to take fire services away from Detroit. A tentative agreement would have allowed a contract with no lay offs and less closings of firehouses.

MR. McNEIL: The Health and Wellness, Human Services and Workforce Development Departments need investigation. He has concerns with the Mayor's agreement with private companies.

DR. JAMES WEATHERS: TWW has been affected by Workforce Development changes. Many important services have been eliminated.

MS. GWEN: Has concerns with ethic violations relative to City of Detroit meetings. They're also in violation of the Federal Constitution. Annex E clearly deals with Belle Isle.

MS. McCLELLAN: This is a massive take over by corporate America. Cobo as well as the Health, Workforce Development, Public Lighting and Water and Sewerage Departments have been compromised. It's privatization of the jobs in the City of Detroit.

MR. WALKER: Workforce Development never discussed or approved the cessation of TWWs contract. Statements made in the discussion are incorrect; notes were never provided.

WENDY REEDIS: Concerns with the TWW contract. Goals have not been followed.

DAN ALDRIDGE: Workforce Development stated they met with TWW employees; this did not occur. The decision to cease the contract was based on a reading.

RANDALL FOGERMAN: He works as a non-profit organization to have a management commercial agreement with the City to manage Eastern Market. He promotes the renovation of Shed 5. Eastern Market manages \$5-1/2 million of the project; the City covers \$1.5 million.

MALISSA DAMASKI (Sear Club):

They presented over 1,000 signatures to DWSD suggesting the creation of an incentive program to residents to reward those doing a good job to protect the Detroit River. They would like Council to support such an initiative program.

MS. MOORE: She would like to see more student participation in the City of Detroit. What's happening in DPS? President Pugh stated when they were given the opportunity for input in choosing some School Board members (the school system) and the Mayor having a say in who the Supt. would be, Ms. Moore disrupted the meetings. She voted Council should not do that. What can Council do with her comments.

MOTHER HOLMES: Offered prayers for everyone.

Planning & Development Department
July 19, 2012

Honorable City Council:

Re: Substantial Amendment to the 2010-11 Consolidated Annual Action Plan to amend the Neighborhood Stabilization Program 3 ("NSP 3").

In February, 2011, your Honorable Body provided authorization and approval for the City of Detroit, through the Planning & Development ("P&DD") to receive and administer NSP 3 Projects and activities. As we move to implement the program, it has become clear that modifications to the target areas and budget are necessary. As such, we respectfully request your review and approval of the attached resolution authorizing an amendment to the 2010-11 Consolidated Plan for NSP 3 activities.

The original NSP 3 plan, as approved by HUD, includes seven (7) census tracts and ten corresponding (10) block groups. Based on changing neighborhood conditions and the need to timely expend the funds, P&DD has determined that these changes will best meet the needs of Detroit citizens. The specific budget modifications are delineated below:

	Original Amount	Proposed Amount
Administration	\$ 2,192,271.00	\$ 2,192,271.00
Acquisition/ Rehabilitation	\$13,538,168.00	\$13,538,168.00
Demolition	\$ 1,192,271.00	\$ 2,192,271.00
Financing Mechanisms	\$ 3,500,000.00	\$ 0.00
Redevelopment	\$ 1,500,000.00	\$ 4,000,000.00
TOTAL:	\$21,922,710.00	\$21,992,710.00

Since the time of the original application, P&DD has received and evaluated several requests to modify the target areas. After careful analysis of the potential for impact and input from community meetings held from July 16-19, 2012, we are recommending that seven (7) additional Census tracts and eighteen (18) corresponding block groups be added to the approved Target Areas as outlined below:

Original Target Areas:

- Grandmont Census Tract 5431;
Rosedale Block Groups 001,002
- Census Tract 5429;
Block Group 002
- Warrendale Census Tract 5462;
Block Group 007

Awards and Modifications

- Census Tract 5463,
Block Group 002
- Palmer Park Census Tract 5383,
Block Group 001
- Northend Census Tract 5324,
Block Groups 002,003
- Census Tract 5325,
Block Groups 001-003
- EEV/ Census Tract 5018,
Morningside Block Group 003

Expanded Target Areas:

- Grandmont Census Tract 5434,
Rosedale Block Groups 002,
003
- Census Tract 5428,
Block Groups 008,
009
- Census Tract 5425,
Block Groups 001-004
- Northend/ Census Tract 5324,
Virginia Park Block Group 001
- Census Tract 5326,
Block Group 003
- EEV/ Census Tract 5018,
Morningside Block Group 002
- Southwest Census Tract 5242,
Block Groups 004,
005
- Census Tract 5243,
Block Groups, 002,
003
- West Village Census Tract 5153,
Block Groups 001-003

These changes will enable us to effectively meet the program objective of neighborhood stabilization and the March, 2013 deadline to expend 50% of the funds. We respectfully request the authorization of this change to amend the 2010-11 Consolidated Plan by approval of the

attached resolution. The public notice period for the additional census tracts ended on July 13, 2012. The public notice period for the budget modification will commence on July 20, 2012 and end on August 3, 2012. Upon approval by your Honorable Body, the Amendment will be transmitted to HUD for final approval. Thank you for your time and consideration.

Respectfully submitted,
 MARJA M. WINTERS
 Deputy Director

By Council Member Jenkins:

Whereas, The City of Detroit has received an allocation of \$21,922,710 for the Neighborhood Stabilization Program 3 ("NSP 3"); and

Whereas, The City of Detroit Substantial Amendment was approved by HUD but now requires an amendment to the target areas and budget amounts to effectively carry out the program activities;

Planning & Development Department

July 24, 2012

Honorable City Council:

Re: Determination of Zoning District Boundaries, Section per 61-1-7 (3) of the Zoning Ordinance.

We have been presented with a contradiction on zoning map #19 where the overlaying of the zoning and the parcel boundaries are inconsistent. Where such inconsistency occurs remedy is provided under Sect. 61-1-7 (3) of the zoning ordinance:

Where due to the scale or illegibility of the district maps or due to the absence of street, alley, or recorded subdivision or plat lines, there is any uncertainty, contradiction, or conflict as to the intended location of any district boundary on a district map, the Planning and Development Department shall have the power and duty to interpret the intent of said district map so as to determine and designate the proper location for such district boundary in accordance with the spirit and purpose of this Zoning Ordinance;

The Planning and Development Department (P&DD) hereby makes the determination that the boundaries between the R1 (Single Family Residential) and the B4 (General Commercial District) zoning districts between Keystone Avenue and Mound Road on the south side of East Eight Mile Road, on zoning map 19 are not able to be precisely determined. This is due to the fact that the lot lines and apparent zoning boundaries do not precisely overlay the parcel lines in many cases, creating a situation where the zoning map depicts the rear portions of parcels having commercially-zoned frontage are residentially zoned, and hence unusable for commercial uses. To address this we therefore find that for the subject area, the zoning boundary lines should overlay the parcel boundaries.

Please direct the City Planning Commission to adjust the zoning district boundary lines accordingly. Also, please direct the clerk to record this finding in the Journal of the City Council so as to preserve a permanent record.

Respectfully submitted,
ROBERT ANDERSON
Director

By Council Member Jenkins:

Whereas, Zoning Map #19 contains a contradiction on the south side of East Eight Mile Rd. east of Keystone Street where the B4 (General Commercial Zoning District) — zoned commercial frontage is depicted as adjacent to the R1 (Single Family Zoning District) zoning district to the south, with no alley separating the two; and

Whereas, The B4 zoning districts depicted on the map are a fixed 105 feet

deep, based on the platted lot lines, but the parcels are not of a fixed size; and

Whereas, The different zoning of the portions of the commercial lots prohibits their use commercially, and

Whereas, Section 61-1-7(3) of the zoning ordinance states:

"Where due to the scale or illegibility of the district maps or due to the absence of street, alley, or recorded subdivision or plat lines, there is any uncertainty, contradiction, or conflict as to the intended location of any district boundary on a district map, the Planning and Development Department shall have the power and duty to interpret the intent of said district map so as to determine and designate the proper location for such district boundary in accordance with the spirit of this Zoning Ordinance."; and

Whereas, The Planning and Development Department has interpreted the location of zoning boundaries to align with the nearest parcel boundaries south of East Eight Mile Rd, greater than or equal to 105 feet,

Now Be It Resolved, That the City Council hereby directs the City Planning Commission to make the necessary changes to Zoning Map #19.

City Planning Commission

July 23, 2012

Honorable City Council:

Re: Permit application for work in a PCA (Public Center Adjacent) zoning district, specifically re-glazing of the Crowne Plaza Hotel (Pontchartrain) tower with green tinted glass.

On Friday, July 20, 2012 the staff of the City Planning Commission (CPC) received a building permit application for alteration to the Crowne Plaza Hotel, the former Pontchartrain Hotel. The renovation of the hotel is just getting underway and will begin with the replacement of the bronze tinted glass that currently encloses the hotel tower. The tower will be re-glazed with a green tinted glass. This alteration will certainly present a welcome change in the appearance of the structure.

The hotel is located at 2 Washington Blvd. within a PCA (Public Center Adjacent) zoning district. Since the re-glazing will present a change in the character of the building your Honorable Body's authorization is required in order to issue the building permit. While a change in character, the change is consistent with the spirit and intent of the zoning ditrict. A resolution authorizing this alteration to the premises and the

issuance of a building permit for this purpose can be prepared for your consideration at the appropriate time. The information has been forwarded to the Planning and Development Department for its review.

Attached you'll find a set of graphics depicting the proposed appearance of the hotel tower. These images also include modifications to the pedestal of the tower changing its color from gray to a vibrant burgundy and pink, and the addition of a porte-cochere to the south façade. These and other modifications are still under consideration by the owner. Therefore, they are not subject of this request and will return before you at a later time. The only alteration before you now is the replacement of the glass for the hotel tower.

Please let us know if you have any questions.

Respectfully submitted,
MARCELL R. TODD, JR.
Director

By Council Member Jenkins:

Whereas, The Crowne Plaza Hotel desires to replace the glass of the hotel tower located at 2 Washington Blvd. on land zoned PCA (Public Center Adjacent/ Restricted Business District; and

Whereas, The site is subject to the Special District Review provisions of Section 61-11-96, of the Zoning Ordinance of the City of Detroit; and

Whereas, The PCA zoning district classification requires that exterior alteration of any existing building, structure, or premises, or part thereof, be reviewed by the Planning and Development Department and by the City Planning Commission for consistency with the spirit, purpose, and intent of the district and that those modifications be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, The Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed glazing is in keeping with the spirit, purpose and intent of the PCA zoning district classification;

Now, Therefore, Be It Resolved, That the Detroit City Council approves the window glass replacement described in the foregoing communication from the City Planning Commission staff dated June 20, 2012 and depicted in the illustration prepared by ICD SITRA.

Re: Petition No. 987 — Detroit Architect, vacation of alley between 1600 E. Outer Drive and 19740 Conant for use and incorporation of proposed used car lot.

Petition No. 987 of Detroit Architect, request for the conversion of a portion of the east-west public alley, 16 feet wide, in the area south of East Outer Drive, 150 feet wide, between Conant Avenue, 66 feet wide, and Goddard Avenue, 75 feet wide, into a private easement for utilities.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for the public utilities. Provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

Finance Department Board of Assessors

Honorable City Council:

Re: Penrose Village Phase II — Payment in Lieu of Taxes (PILOT).

Penrose Village Phase II Limited

Dividend Housing Association Limited Partnership is constructing 48 Low Income Housing Tax Credit (LIHTC) units of two and three bedroom single family and duplex homes. The unit types will consist of eighteen three bedroom single family homes (18 units), five two bedroom duplexes (10 units), and ten three bedroom duplexes (20 units). Four of the units will be ADA-compliant to accommodate the disabled population. A free-standing community center is also planned for the neighborhood. The north central Detroit locations of the homes are various scattered lots bounded by Seven Mile Road to the south, Lantz to the north, Woodward to the west, and John R to the east.

The development is aimed towards the populations of youth aging out of foster care, the homeless, and survivors of domestic violence. The Arab-American and Chaldean Council (ACC) and Detroit Community Health Connections (DCHC) will provide permanent supportive housing services. Both the ACC and DCHC will provide such services and drug and alcohol abuse prevention and treatment job training, and primary as well as dental health care. In addition to the aforementioned services, the Penrose Village Phase II development will offer a resident-ownership community garden and specialized art classes.

Construction financing for Penrose Village Phase II development amounts to \$3,800,000 through J. P. Morgan Chase. There is an equity contribution of \$100 and Low Income Tax Housing Tax Credits of \$12,432,470. The total development cost for Penrose Village Phase II is \$12,880,397. All forty-eight (48) units are supportive housing; tenants will be paying 30% of their income towards rent due to Project Based Vouchers. Tenants are not to earn more than 50% of Area Median Income.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA 125.1415A).

Adoption of the resolution by your Honorable Body will therefore satisfy the

requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a six percent (6%) service charge for this project.

Respectfully submitted,
LINDA M. BADE

**Department of Public Works
City Engineering Division**

July 19, 2012

Honorable City Council:
Re: Petition No. 2414 — Detroit Athletic Club, permission to install three bronze sculptures in the Madison median between Randolph and John R.

Petition No. 2414 of "The Detroit Athletic Club (DAC)" request permission to encroach into Madison Avenue, 200 feet wide, between Randolph Street, variable width, and John R. Street, 60 feet wide, with three bronze sculptures and lighting with each occupying a 16 feet radius area. This request will assist the DAC to celebrate the 100th Anniversary of the DAC's Clubhouse by creating a public park of inspirational bronze sculptures.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

Necessary permits/permission will have to be obtained from City Engineering Division — DPW Permit Bureau for any street or alley construction, backfill, or occupancy of the City rights-of-way to install non-standard materials and/or Recreation Department (if necessary) for the work in the boulevard.

AT&T Telecommunication reports having facilities in the requested area (underground), if relocation is required cost will be involved. Please contact AT&T customer work order group for project engineer to review at 1-888-901-2779.

Traffic Engineering Division — DPW reports no objections to the request provided that each of the three proposed sculptures shall be at least 10 feet inside the curb face. Also prior to installing the sculptures, petitioner shall submit to Traffic Engineering Division — DPW all final plans showing the exact dimensions, layout, and set backs from curb for review and approval. The sculptures shall be installed with adequate set back from curb in order to prevent any potential visibility issues for the motorists/pedestrians.

Public Lighting Department (PLD) reports no objections provided that no structures or barricades can be built over PLD installations or on existing utility easements areas. As per PLD requirements, any structure proposed to be built shall maintain a minimum of 10 feet horizontal clearance for the overhead PLD lines and installation and shall maintain a minimum of 3 feet horizontal clearance and 12 inch vertical clearance from the

PLD conduit bank and manholes. The contractor should take necessary precautions not to damage PLD's utilities, if they plan to use heavy earth moving equipment. The contractor will be liable for any damages to any PLD underground or overhead facilities. PLD will need unrestricted easement rights with 24 hour heavy vehicle access to the area requested for encroachment.

Detroit Water and Sewerage Department (DWSD) report no objections to the encroachment provided that DWSD's provision for encroachment is strictly followed.

All other city departments and privately-owned utility companies have requested that the petitioner make use of the "MISS DIG" facilities before any construction, backfill, or occupancy of the City rights-of-way to install non-standard materials in the public (street or alley) rights-of-way. Should damage to the utilities occur the petitioner shall be liable for all claims and damages related to the encroachment installation.

An appropriate resolution, granting the encroachments, is attached for consideration by your Honorable Body.

Respectfully submitted,
RICHARD DOHERTY

City Engineer

City of Detroit

General Services Department

June 20, 2012

Honorable City Council:

Re: Acceptance of Smartbuildings Detroit Program — EDC Grant.

Your Honorable Body is respectfully requested to accept the above referenced grant. The City of Detroit's General Services Department (GSD) has been awarded a \$106,200.00 U.S. Department of Energy grant from the State of Michigan via the DEGC, who was listed as the funding agent. The funds are to be used as leverage against our \$9,326,014.75 EECBG grant that we were awarded in late Fall 2009.

The grant will be used to improve municipal facilities' energy efficiency and to purchase renewable energy equipment. The proceeds from this grant are proposed to be used to upgrade Clark Park located at 1130 Clark Street and Fort Wayne CRC located at 6325 West Jefferson.

Due to the identical nature of the purpose of these funds and given the tight time constraints, we are anxious to move forward with leveraging the funds to our current program. Therefore, we are requesting City Council's acceptance of this award so that this important work can begin in a timely manner.

If you should have any questions, please feel free to contact me at 628-0913.

RESOLUTION FOR GREENHOUSE GAS POLLUTION REDUCTION UNDER THE CLEAN AIR ACT

By ALL COUNCIL MEMBERS:

WHEREAS, The Environmental Protection Agency (EPA) concluded that current and future greenhouse gas concentrations endanger public health. According to the Global Humanitarian Forum, climate change claims the lives of 300,000 people yearly, and a worldwide economic loss of \$125 billion in U.S. dollars; and

WHEREAS, Extreme weather events such as heat waves and extreme precipitation are rapidly increasing with deadly results for both humans and wildlife; in the United States in 2011 alone, a record 14 weather and climate disasters occurred, which included droughts, heat waves and floods that cost at least \$1 billion U.S. dollars in damages and loss of human lives; and

WHEREAS, The decade from 2000 to 2010 was the warmest on record, and 2005 and 2010 tied for the hottest years on record. Scientists say that by 2100 as

many as one in 10 species may be on the verge of extinction due to climate change; and

WHEREAS, One of the world's leading climate scientists, Dr. James Hansen, stated in 2008: "If humanity wishes to preserve a planet similar to that on which civilization developed and to which life on earth is adapted, climate evidence and climate change suggest that CO₂ will need to be reduced from its current 385 parts per million (ppm) to at least 350 ppm. The current level of CO₂ in the atmosphere is approximately 392 ppm; and

WHEREAS, The sea level is rising faster along the U.S. East Coast than it has for at least 2,000 years, still accelerating in pace, and could rise one or two meters in this century, threatening millions of Americans with severe flooding. The world's land-based ice is rapidly melting, threatening water supplies in many regions and raising sea levels and Arctic summer sea ice extent has decreased to about half of what it was several decades ago with an accompanying drastic reduction in sea-ice thickness and volume which is putting ice-dependent animals in jeopardy; and

WHEREAS, For four decades, the Clean Air Act has protected the air we breathe through a proven, comprehensive, successful system of pollution control that saves lives and creates economic benefits exceeding its costs by many times; and

WHEREAS, With the Clean Air Act, air quality in this country has improved significantly since 1970, despite major growth both in our economy and industrial production. Between 1970 and 1990, the six main pollutants covered by the Clean Air Act — particulate matter and ground-level ozone (both of which contribute to smog and asthma), carbon monoxide, lead, sulfur, and nitrogen oxides (the pollutants that cause acid rain) — were reduced by between 47 percent and 93 percent, and airborne lead was virtually eliminated. The Clean Air Act has produced economic benefits valued at \$2 trillion or 30 times the cost of regulation; and

WHEREAS, The U.S. Supreme Court ruled in *Massachusetts vs. EPA (2007)* that greenhouse gases are "air pollutants" as defined by the Clean Air Act and the Environmental Protection Agency has the authority to regulate them; and

WHEREAS, The City of Detroit prides itself on being a leader in the fight against climate change and for clean air. NOW, THEREFORE BE IT

RESOLVED, That climate change is not an abstract problem for the future or one that will only affect far-distant places but rather climate change is happening now, we are causing it, and the longer we wait to act, the more we lose and the more dif-

ficult the problem will be to solve. And we, the Detroit City Council, on behalf of the residents of Detroit, do hereby urge the administrator of the Environmental Protection Agency, Lisa P. Jackson and President Barack Obama to move swiftly to fully employ and enforce the Clean Air Act to do our part to reduce carbon in our atmosphere to no more than 350 parts per million.

RESOLUTION**Housing Is A Human Right**

By COUNCIL MEMBER WATSON, Joined
By JENKINS, JONES, SPIVEY, and
PRESIDENT PUGH.

WHEREAS, The "Housing Is A Human Right" campaign is committed to bringing critical social issues to the forefront and compelling much needed public discussion regarding basic societal human rights such as water and housing as well as the cycle of poverty and the role foreclosure and homelessness play within that cycle; and

WHEREAS, There has been an unprecedented number of home foreclosures during the ongoing economic recession plaguing the City of Detroit, resulting in tens of thousands of vacant houses, many of which are owned by the City of Detroit; and

WHEREAS, Between October 2011 and May 2012, as a result of the Welfare Reform Act, approximately 8,000 Detroit families were cut off from cash assistance thus losing their ability to pay rent, utilities, taxes, and even to buy the basic necessities for everyday living further increasing homelessness within the City of Detroit; and

WHEREAS, In the past the City of Detroit has operated a Repair-To-Own program which allowed eligible residents to enter into a formal agreement with the City of Detroit to occupy and rehab City-owned houses working toward the goal of owning that property. This brought homeownership within reach of individuals denied access to more traditional routes and decreased the amount of vacant residential structures in the City's property inventory; and

WHEREAS, The City also offered individuals or community groups the ability to obtain and rehabilitate privately owned property located in the City that was abandoned and/or posed a public nuisance through the City's Nuisance Abatement Program; and

WHEREAS, The City ceased operating both of these programs due to operational deficiencies and legal challenges. However, given the urgent and critical needs of City residents, the programs should be re-worked and quickly re-instituted to provide individuals a legitimate path to homeownership; and

WHEREAS, There are thousands of houses in the City of Detroit that could qualify under the Repair-To-Own or Nuisance Abatement programs that could be rehabilitated thus providing displaced families with clean, safe and affordable housing, and

WHEREAS, The City has a vested interest in abating blight and shifting surplus houses in its inventory back into private ownership and onto the tax rolls thus strengthening neighborhoods with

dedicated homeowners that bolster property values; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council supports the goal of affordable homeownership to all Detroiters in the "Housing Is A Human Right" campaign; AND BE IT FURTHER

RESOLVED, That the Detroit City Council strongly urges the Mayor to join the City Council in supporting these efforts by modifying and re-instituting the Repair-To-Own and Nuisance Abatement programs to address this critical need of our residents.

Honorable City Council:

Re: The proposal to amend Chapter 61 of the 1984 Detroit City Code, Zoning, with regard to provisions for School Building Adaptive Re-use. (Recommend approval).

At its meeting on November 17, 2011, the City Planning Commission (CPC) voted to recommend approval of the proposal to amend Chapter 61 of the 1984 Detroit City Code, Zoning, with regard to provisions for School Building Adaptive Re-use. This proposed text amendment to the Detroit Zoning Ordinance was prepared by the staff of the City Planning Commission (CPC) and Historic Designation Advisory Board (HDAB).

Background

With the loss of population in the City of Detroit, the departure of many students from Detroit Public Schools (DPS) and parochial school facilities, and the enduring fiscal crisis facing the City, DPS, and parishes, school buildings across the city currently sit vacant, some boarded up and others open to trespass. Many of the closed schools are located in R1 and R2 Districts with use lists that are very short and intentionally restrictive. As a result, an interested developer of a school building typically would need to seek a rezoning for a non-school use of the land — a procedure that adds time and expense to the development process.

Historic Designation Advisory Board Initiative

In 2009, recognizing the value of the historic and architecturally significant assets found in the DPS inventory and cognizant of DPS's need to close a number of its buildings, the staff of the Historic Designation Advisory Board and the University of Michigan's Detroit Community Design Center conducted a series of community workshops to explore the feasibility of adaptive re-use for closed Detroit Public Schools. The workshops encouraged community participants to articulate their vision for their community, and generate ideas for the potential re-use of the closed schools in their neighborhoods. The proposed re-uses in the recommended Zoning Ordinance text amendment represent the consensus of the workshop participants, and have been recommended within the scope of the new ordinance.

Scope of the Ordinance

School building adaptive re-uses (per CPC/HDAB staff)

The proposed text amendment would allow nineteen (19) land uses (listed below), otherwise prohibited on land zoned R1 and R2 and other districts, to be established in a building originally constructed as a school as a conditional use after a public hearing at the Buildings,

Safety Engineering and Environmental Department (BSEED) provided the proposed school building adaptive re-use complies with all applicable use regulations (Article XII), applicable intensity and dimensional standards (Article XIII), and applicable general development standards (Article XIV).

To help avoid possible negative spillover effects of a school building adaptive re-use, all of the off-street parking specified for the adaptive re-use would have to be provided on the same zoning lot as the school building itself.

Although the purpose of the proposed ordinance is to promote re-use and preservation of existing (often architecturally valuable) school buildings, it is recognized that limited demolition may be necessary for some projects while not negatively impacting the goal of historic preservation, so some standards for demolition are established.

Recognizing that certain schools sites may be inappropriate for particular re-uses, BSEED would not be able to issue a permit for an adaptive re-use unless and until a special land use hearing at BSEED has been held and a zoning grant issued for the new use. Where a proposed adaptive re-use is unable to provide all the required parking on site or is unable to meet any other regulation or standard for the proposed use, a variance from the Board of Zoning Appeals would have to be secured before BSEED could issue a permit.

The nineteen proposed school adaptive re-uses allowed to be established as conditional uses within a school building originally constructed as a school are as follows (note that four of the proposed uses are limited to only those school buildings located on major thoroughfares):

School building adaptive re-uses — residential:

- Assisted living facility, *where located on a major thoroughfare*
- Boarding school and dormitory, *where located on a major thoroughfare*
- Convalescent, nursing, or rest home, *where located on a major thoroughfare*
- Loft
- Multiple-family dwelling

School building adaptive re-uses — public, civic, and institutional:

- Adult day care center
- Child care center
- Educational institution
- Governmental service agency
- Library
- Museum

School building adaptive re-uses — retail, service, and commercial:

- Business college or commercial trade school
- Medical or dental clinic, physical therapy clinic, or massage therapy clinic
- Office, business or professional

- Radio or television station
 - Recording studio or photo studio or video studio, no assembly hall
 - Recreation, indoor commercial and health club
 - School or studio of dance, gymnastics, music, art, or cooking
 - Youth hostel/hostel, *where located on a major thoroughfare*
- Cooking (per CPC/HDAB staff)*

The Zoning Ordinance already allows for the establishment of a "school or studio of dance, gymnastics, music, or art" in eleven zoning districts. Many school buildings contain commercial kitchen facilities and, based on community input received during HDAB's study of the feasibility of school adaptive re-use (described in page 1 of this report), the proposed text amendment has added "school of cooking." The proposed text amendment has expanded the existing land use label to now read, "school or studio of dance, gymnastics, music, art, or cooking" in the eleven specified zoning districts: B1, B2, B3, B4, B5, M1, M2, M3, M4, PD, and SD2. The newly expanded land use label is also included in the list of nineteen permissible "School building adaptive re-uses."

Pick-up/drop-off areas for schools (per Council Member Kenneth Cockrel)

Unlike the aforementioned provisions of the proposed text amendment developed by staff, Council Member Kenneth Cockrel, Jr. has proposed inclusion of a provision that would affect any new school to be established. Noting the traffic congestion and hazards at some existing schools when students are dropped off or picked up in the street, a provision is inserted to require "safe areas for the drop-off and pick-up of users of the school."

This same provision has been on the books since 2005 as a use regulation for child care centers, but was never applied to K-12 school uses. Like any use regulation added to the Zoning Ordinance, existing schools would not be subject to this provision, unless the school were to expand. Court rulings in recent years have allowed public schools (both "district" and "charter") to avoid local zoning if they submit to state review; consequently, this provision will apply to new private and parochial schools and to those public schools applying through conventional city channels.

City Planning Commission Public Hearing

On October 20, 2011, the City Planning Commission held a public hearing on the proposed amendment. No members of the public spoke. However, as a result of discussion at the public hearing by the Commissioners, several changes were made to the ordinance as originally proposed: provisions were added to provide for limited demolition of some accessory

buildings or portions of primary buildings, and four of the nineteen proposed uses were limited to major or secondary thoroughfares (see list in "Scope of the Ordinance). The Commission later voted to further restrict those four uses to major thoroughfares.

Criteria for Zoning Ordinance Text Amendments

The City Planning Commission finds that the proposed text amendment meets the criteria for zoning text amendments (Section 61-3-59 through 61) because it is consistent with the stated purposes of the zoning ordinance; would protect the health, safety, and general welfare of the public by promoting the preservation and re-use of vacant school buildings that constitute an important part of Detroit's architectural heritage; and would address the challenge of changing demographic and market conditions that have resulted in empty schools. Additionally, this issue is most appropriately addressed by a zoning ordinance text amendment.

Recommendation

Based on the findings that the proposed text amendment meets the Zoning Ordinance criteria and that CPC voted on November 17, 2011 in support of the proposed amendment, CPC recommends that your Honorable Body adopt the proposed ordinance amendment to the Detroit Zoning Ordinance.

Respectfully submitted,
MARCELL R. TODD, JR.

DIVISION 3. SPECIFIC USE STANDARDS

Subdivision A. Residential Uses

Sec. 61-12-118. Lofts; residential uses combined in structures with permitted commercial uses.

In order to encourage the preservation and reuse of existing commercial and industrial structures, and to encourage live-work situations, loft conversions and mixed-use commercial-residential uses are permitted in many zoning districts, even in certain districts where new residential construction is prohibited.

Loft conversions are prohibited in the R1 and R2 Districts except where developed under the "School building adaptive reuses" provision as defined in Sec. 61-16-171 of this Code.

Lofts in the B6, M1, M2, M3, M4, and SD4 Districts are subject to review by the Loft Review Committee as provided for in ARTICLE II, DIVISION 7, Subdivision C of this Chapter.

Similarly, single-family dwellings, two-family dwellings, and multiple-family dwellings are permitted in commercial or industrial structures combined with those permitted Retail, Service, and Commercial uses specified in ARTICLE XII, DIVISION 1, Subdivision D of this Chapter, except for "Adult Uses/Sexually Oriented Businesses" as specified in Sec. 61-12-78.

For example, although a single-family detached dwelling is not permitted by right in the R6 District, a doctor's office that has an apartment is permitted by right as a "Residential use combined in structures with permitted commercial uses." In addition, in industrial zoning districts where new residential construction is prohibited, an existing building with a hardware store on the ground floor, for example, and residential units on the upper floor(s) could be reoccupied on a Conditional Use basis and without the need for approval by the Board of Zoning Appeals.

However, any time three (3) or more residential units are combined with permitted commercial uses in a commercial or industrial structure in the B6, M1, M2, M3, M4, or SD4 District, the use shall be subject to the review of the Loft Review Committee as provided for in ARTICLE II, DIVISION 7, Subdivision C of this Chapter.

In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessory to, and on the same

zoning lot as a loft development that has not fewer than fifty (50) dwelling units.

Additionally, in designated Traditional Main Street overlay areas, as provided in Sec. 61-11-312 of this Code, multiple-family dwellings combined in structures with permitted commercial uses shall be permitted by right, notwithstanding any designation as a conditional use in ARTICLE IX of this Chapter.

Sec. 61-12-121. Multi-family dwellings.

Multi-family dwelling shall be subject to the following provisions:

(1) In the R2 District, such uses shall have a maximum of eight (8) dwelling units, except where developed under the "School building adaptive reuse" provision as defined in Sec. 61-16-171 of this Code;

(2) In the R3 District, multiple-family dwellings, where fewer than fifty percent (50%) of the units are efficiency units, are permitted by right; multiple-family dwellings, where percent (50%) or more of the units are efficiency units, are a Conditional Use;

(3) In the B5 District, ground-floor commercial uses shall be required along at least fifty percent (50%) of the building façade fronting Woodward Avenue, and may be required in other portions of the B5 District;

(4) The required Recreational Space Ratios for multi-family dwellings are listed as follows.

- (a) R3 District: 0.12;
- (b) R4 District: 0.10;
- (c) R5 District: 0.085;
- (d) R6 District: 0.07;
- (e) SD1 District: 0.07;
- (f) SD2 District: 0.07.

(See Sec. 61-13-159 for information on recreational space requirements.)

(5) For certain permitted accessory uses in the R5, R6, and B1 Districts, see Sec. 61-12-404 of this Code;

(6) In the B5 and PCA districts, multiple-family dwellings that have ground floor commercial space or other space oriented to pedestrian traffic are permitted by right. Multiple-family dwellings not having such ground floor space are a Conditional Use;

(7) Multiple-family dwelling developments that exceed twelve (12) units are subject to site plan review as provided for in Sec. 61-3-113 of this Code;

(8) In the SD4 District, specially designated merchant's (SDM) establishments and specially designated distributor's (SDD) establishments are permitted when incidental to, accessor to, and on the same zoning lot as a multiple-family dwelling, that have not fewer than fifty (50) dwelling units;

(9) Multiple-family dwellings for the elderly, as defined in Sec. 61-16-134 of this Code, are subject to a lesser off-street parking requirement than other multiple-family dwellings. However, where

a multiple-family dwelling for the elderly converts to a general population multiple-family dwelling, the full off-street parking requirement must be satisfied.

Subdivision B. Public, Civic, and Institutional Uses

Sec. 61-12-139.5. Schools.

Safe areas for pick-up and discharge of users shall be provided that do not interfere with the free flow of traffic on adjacent streets. Where such areas are provided on a street, such areas shall be approved by the Department of Public Works, Traffic Engineering Division.

Subdivision E. Retail, Service and Commercial Uses; Generally, continued

Sec. 61-12-226. Recreation, indoor commercial and health club; Recreation, outdoor commercial.

- (c) Golf practice driving range, golf practice driving net, golf practice putting green, or golf school; and

Sec. 61-12-232. Schools or studios of dance, gymnastics, music, ~~or~~ art, or cooking.

Dance studios shall be licensed in accordance with the provisions of Chapter 5, Article XII of this Code.

Sec. 61-12-239. Trade schools, commercial.

Honorable City Council:

Re: Establishment of the Islandview II Neighborhood Enterprise Zone.

Attached for your consideration please find a resolution and legal description which will establish the Islandview II Neighborhood Enterprise Zone (NEZ) in accordance with Public Act 147 of 1992 ("the Act"). Your Honorable Body conducted a public hearing on this matter on June 21, 2012 as required by the Act.

All impediments to the establishment of the NEZ were presented at the public hearing and resolved. The Act requires that at least 60 days must pass from the date of the notice of the public hearing (June 14, 2012) to the date of your formal approval of a resolution establishing the NEZ. We request your Honorable Body's approval of the resolution at your first Committee of the Whole Formal session after August 13, 2012.

Respectfully submitted,
MARJA M. WINTERS
Deputy Director

By Council Member Jenkins:

Whereas, Michigan's Public Act 147 of 1992, the Neighborhood Enterprise Zones Act ("the Act"), provides for the establishment of Neighborhood Enterprise Zones (NEZs), the exemption from *ad valorem* taxes, and the imposition of a specific property tax in lieu of *ad valorem* real property taxes within NEZs; and

Whereas, The City of Detroit meets all the distress criteria set forth within the Act; and

Whereas, The Detroit City Council finds that designation of certain areas as NEZs is consistent with the adopted Master Plan, as amended, and will further the economic and physical development goals and objectives of the City by encouraging new housing starts and housing rehabilitation, thereby aiding in the preservation of existing neighborhoods and preventing further decay in others; and

Whereas, The Detroit City Council has found the establishment of the Islandview II NEZ to be consistent with the Detroit Master Plan of Policies and the neighborhood preservation and development goals of the City; and

Whereas, The Detroit City Council has adopted a statement of goals, objectives and policies relative to the maintenance, preservation, improvement, and development of housing for all persons regardless of income level living within proposed NEZs; and

Whereas, The Detroit City Council has enacted a housing inspection ordinance requiring that before the sale of a unit in a new or rehabilitated facility for which an NEZ Certificate is in effect, an inspection is to be made of the unit to determine compliance with Chapter 26 of the Code of the City of Detroit; and

Whereas, The Act requires that the designation of NEZs must be approved by a resolution adopted by the local governmental unit subsequent to a public hearing at which any taxpayer or resident, or representative of any taxing authority levying a property tax in the City of Detroit, was given the opportunity to address the requested establishment of an NEZ; and

Whereas, A public hearing on the issue of establishing the Islandview II NEZ was conducted before the Detroit City Council on June 21, 2012, with notice of the public hearing having been given to the general public and by certified mail to every taxing authority levying a property tax with the City of Detroit; and

Whereas, No impediments to the establishment of the Islandview II NEZ where cited;

VOTING ACTION MATTERS

OTHER MATTERS

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL OFFICIALS AND AGENCIES

PUBLIC COMMENT

EDITH LEE-PAYNE stated that there appears to be a misappropriation of federal dollars that extends to Detroit Public Schools. Ms. Payne was concerned because Detroit Public Schools show Mumford High as one of theirs, but it actually belongs to the EAA. 50.34 million dol-

lars was given to this separate authority, however that money was supposed to go to Detroit Public Schools for their use. Ms. Payne stated this was a big problem.

CHRIS GRIFFITH stated that the consent agreement as null and void. Ms. Griffith asked the Council to stop the right-wing republicans from dismantling the City and taking assets from 30 to 100 years. Ms. Griffith also asked Council to stop the union-busting, reducing of services, and taking City jobs.

CECILY McCLELLAN stated that it was disappointing that all the City’s assets were being given away.

HUMBERTO RUBEN ORIEL stated that he owns a couple of lots and someone forged his name and put the property in their name.

ANNA HOLDEN stated that she was a retiree of the City of Detroit and she like hundreds of other retirees are concerned with what’s happening to the pension fund and changes that have been proposed by the Administration. Ms. Holden stated that she contacted the Mayor’s Office to inquire about where the Financial Advisory Board will be meeting, and she was told that she would have to call Andy Dillon’s office.

BRENDA GALE MOORE-CONWAY stated that in January of 1995, she became the original winner of Publisher’s Clearing House, of which she received an award letter and placed it in her safe deposit box. In January that document was removed along with many other valuables. Ms. Conway stated that she wanted to be compensated for her losses.

ANDREW CHRISTMAS, JR. stated that he has a problem with DTE. He stated that he owned a two-family flat and he noticed that there was theft going on in one of the units of his building. DTE has cut off power to the whole building. Mr. Christmas asked the Council for help.

MARY LACY stated that she was concerned with Detroit’s lost jewels such as: Belle Isle, State Fair, and Detroit Aquarium. She does not want anymore of Detroit’s jewels to be lost.

WILLIE MAE HAMPTON stated that she was there acknowledge citizens from One Detroit who love their City and are still active and involved.

SANDRA HINES stated that everyone should read Detroit Alliance for a Rational Economy.

VALERIE GLENN stated that she

attended the Financial Advisory Board meeting. It was her opinion that clearly the board did not respect the Council's function. She felt that the nine members want to take over or eliminate the Council's positions.

M. CUNNINGHAM: My brother passed away on East McNichols. My brother died, Moses Cunningham. He played for the North Detroit Jets. In honor of him I would like to re-open East McNichols and any funds that I have, I would like to put it on the ballot. I don't know how to do so. East McNichols has been closed and it ravaged the area. All the businesses are on 7 Mile now. That means you have to go around to Gratiot or go over to Van Dyke and the airport is not used. So, why isn't East McNichols open to Outer Drive. That actually may bring back commerce and some of the stores maybe will be opened again.

COUNCIL MEMBER JENKINS: First, let me just say that I'm sorry for your loss, I too lost my little brother. So, my heart goes out to you.

M. CUNNINGHAM: Thank you.

COUNCIL MEMBER WATSON: Thank you very much, my brother, for coming. I know who you are Mr. Cunningham. Quite frankly, I wasn't on the Council when Six Mile got closed. There was a public commitment made at this Council table that if the community supported closing McNichols, which was closed by ordinance, then it can be re-opened by ordinance. There were persons who supported the Coleman A. Young International Airport that stated that if they were allowed to use McNichols for the runway, then it would benefit the City economically and the neighborhoods would grow. That has not occurred. The promise made has not been kept. I believe that the unmet promise, with respect to East McNichols, should render the need to have another ordinance. I think it should be line item in the Economic Development Committee or the Public Health and Safety Committee, one of those two. To address the promises made to the citizens and the community, and the business that are closed down at McNichols, many of them have never come back. I believe that the City owes that to the residents and the City of Detroit and we need to have hearings and at least a discussion with the stakeholders in that area and possibly look at a second ordinance to re-open McNichols. Either that or move forward with that airport. Make the airport expansion real.

COUNCIL MEMBER JENKINS: Member Watson, since it's a street closure I'll ask that it be line itemed in Public Health and Safety

MARGUERITE MADDOX stated that her concern has always been with safety. She stated that since the days are getting shorter, there needed to be more lighting at the bus stops.

STEPHEN BOYLE stated that the email address for getting notices about the Financial Advisory Board was treasurycommunications@michigan.gov.

TIMOTHY STOEPKER (Representing 500 Woodward, LLC) stated that he was at the meeting with regards to Line Item Number 107. He submitted a letter to each member of the Council requesting that the item be tabled for further review.

PAUL DETERS stated that that he was in agreement with Mr. Stoepker and he did not need to speak.

OMAR KAH stated that he was a business owner located on Puritan Street. He stated that he has had several break-ins. Mr. Kah asked the Council for help.

LATINA JOHNSON stated that she was at the meeting in relation to item number 105 on the agenda. She wanted the Council to come to a conclusion with regards to the color choice for Crowne Plaza.

KEITH HINES (DIAMOND II PRODUCTIONS) stated his dislike for Miller Canfield.

MRS. PERSONS: Good afternoon. I'm here on behalf of the street lights in Detroit. I take my daughter to work every morning because she doesn't have a car right now. At 5:30/6:00 o'clock in the morning all the eastside is black. You can't see anything, but yet when you get to Conner and Warren, the police was giving somebody a ticket for running the light. We don't have any lights on the eastside of Detroit and I would like to see Mr. Chris Brown to come down here, because he don't live in Detroit. He's got all these lights out in the City of Detroit and you can run over people. You don't see anybody. If you don't slow down and take your time you're gonna kill somebody on these streets. Chris Brown sat at this table and said "I'm gonna turn these light back on." it's black as tar on the eastside of Detroit, and westside, and every place else. So, y'all do something about this. Get rid of Detroit Edison Company. Do what you have to do, but put the lights back on in the City of Detroit.

COUNCIL MEMBER WATSON: Mr. President, Can I ask that there be a line item in your committee, Public Health and Safety, with respect to this recurring complaint about no lights on the eastside.

COUNCIL PRESIDENT PRO TEM BROWN: I'm up at 5:00 o'clock every morning, and I'm in the dark, and I'm on the westside. We'll make it a line item.

MOTHER HOLMES prayed for City Council and the City of Detroit.

**Finance Department
Board of Assessors**

August 22, 2012

Honorable City Council:

Re: Cass Apartments. Payment in Lieu of Taxes (PILOT).

Cass Community Limited Dividend Housing Association Limited Partnership (LDHALP) is renovating the Cass Apartment building located at 1584 Elmhurst in Detroit. Cass Community Social Services (CCSS) acquired the building in 2008, and its geographical boundaries are as follows: Tuxedo to the south, Monterey to the north, Hamilton to the east and Woodrow Wilson to the west. Presently, the building has been vandalized and is in a state of disrepair.

The Michigan State Housing Development Authority (MSHDA) has awarded Cass Community LDHALP a reservation for Low Income Housing Tax Credit of \$4,245,000 at 6%. Additionally, HOME or Neighborhood Stabilization Program funds of \$700,000 will be available for the project, as well as another \$700,000 from City of Detroit HOME, and \$500,000 from the Affordable Housing program-Federal Home Loan Bank.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA125.1415A). Also, project feasibility is contingent upon a 10% service charge. This service charge will be reviewed two years after Cass Apartments reaches occupancy of 95 percent.

All forty (40) units of Cass Apartments are contained in a 36,685 square foot building that will also contain community space, service offices, and a laundry facility.

The target population that this permanent supportive housing will be directed towards is the chronically homeless, men-

tally ill, substance and alcohol abusers, and those with chronic co-morbidities; HIV/AIDS, diabetes, and hypertension.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a 10% service charge for this project.

Respectfully submitted,

LINDA M. BADE

Chief Assessor

By Council Member Cockrel, Jr.:

**PLANNING AND ECONOMIC
 DEVELOPMENT STANDING
 COMMITTEE**

City Planning Commission

August 30, 2012

Honorable City Council:
 Re: Site Plan Review and Special District Review, 2 Washington Blvd., Hotel Pontchartrain Crowne Plaza.

The new owner of the Hotel Pontchartrain has requested site plan approval for the proposed modifications to the hotel located at 2 Washington Blvd. at West Jefferson Avenue.

Because the land on this block is zoned Public Center Adjacent/Restricted Central Business District (PCA), the Detroit Zoning Ordinance authorizes City Council to review and approve any site plan (Sec. 61-3-142) and it requires "special district review" by your Honorable Body for any exterior modifications to a building or premises (Sec. 61-3-181) upon receipt of a report and recommendation from the City Planning Commission (CPC) and Planning and Development Department.

Because the hotel is on a tight timeline to have accomplished interior and exterior alterations prior to the 2013 International Auto Show, CPC staff is providing preliminary information concerning the site plan and exterior alterations with this report and will provide final comments and information at the Thursday, September 6, 2012 meeting of the Planning and Economic Development standing committee.

Scope of Work

Your Honorable Body has already passed a resolution approving the replacement of the existing bronze-tinted windows of the hotel tower with new green tinted windows.

As indicated on the attached preliminary color renderings, a new front entrance on West Jefferson is proposed that will include a covered porte cochere. This entrance will require curb cuts along West Jefferson that will require approval by the Department of Public Works.

The mechanical equipment housed outside the building along Shelby Avenue will be newly screened.

The West Larned entrance will be modified for enhanced vehicular maneuverability into the underground garage; and, the existing fountain will be removed.

As indicated in the attached elevations, the color of the ground level exterior will be changed on all four sides to two shades of magenta. CPC and P&DD staff find the extensive use of this high intensity color to be not consistent with Sec. 61-3-161 of the Zoning Ordinance which includes "exterior color" as one of the site plan approval criteria. It states: "The use of high intensity colors, metallic colors, black or fluorescent colors shall be avoided, except as accent treatment."

Sec. 61-3-185 of the Zoning Ordinance indicates that Special District Review: "...is to ensure harmony with the Public Center and for consistency with the spirit, intent, and purpose of this Chapter." CPC and P&DD staff find that the magenta color choice, in the amount which it is proposed, starkly conflicts with the color palate of the Civic Center's significant structures and places; further, the color choice is not consistent with the spirit and intent of the Zoning Ordinance's prescription that such colors be limited to use as an "accent."

We recommend that the use of magenta be reduced substantially, allowing it to remain as an eye-catching accent to the property but not as the dominant lower level color. We have alerted the applicant to our objection so that an alternate color choice can be prepared in time for the committee's September 6th meeting.

Resolution

The Buildings, Safety Engineering and Environmental Department cannot release permits for work in the PCA District unless City Council passes a resolution authorizing the work. If the applicant revises the elevations to adjust the color intensity, CPC staff will prepare the appropriate resolution of approval in time

for action by City Council at the formal session of September 11, 2012. Should your Honorable Body find the applicant's original color scheme to be preferable, staff will prepare the appropriate resolution authorizing release of a permit consistent with your direction.

Respectfully submitted,

M. RORY BOLGER

Deputy Director

By Council Member Jenkins:

Whereas, The Pontchartrain Crowne Plaza Hotel desires to conduct exterior renovations of the building located at 2 Washington Boulevard on land zoned PCA (Public Center Adjacent/Restricted) Business District; and

Whereas, The site is subject to the Special District Review and the site plan review provisions of Section 61-11-96 and 61-11-82, respectively, of the Zoning Ordinance of the City of Detroit; and

Whereas, The PCA zoning district classification requires that exterior alteration of any existing building, structure, or premises, or part thereof, be reviewed by the Planning and Development Department and by the City Planning Commission for consistency with the spirit, purpose, and intent of the district and that those modifications be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission; and

Whereas, The Planning and Development Department and the City Planning Commission staff have reviewed the proposal in order to ensure that the proposed development is in keeping with the spirit, purpose and intent of the PCA zoning district classification; and

Whereas, The City Planning Commission staff have reviewed the proposal in order to ensure that the proposed development meets the criteria set forth for site plan approval in Article 3, Division 5, Subdivision D of the Zoning Ordinance, and

Whereas, The petitioner has agreed to reduce the amount of magenta used in the base/podium of the building substantially from what was first proposed;

Now, Therefore, Be It Resolved, That the Detroit City Council approves the proposed exterior alterations at 2 Washington Boulevard, described in the foregoing communication from the City Planning Commission staff dated August 30, 2012 and depicted in the illustration prepared by Stephen Berry Architectural Design on "Sheet A101 Alternate" with the date of July 18, 2012.

City Planning Commission
 August 30, 2012
 Honorable City Council:
 Re: Special District Review, PWC Sign, 500 Woodward Avenue, for installation of a business sign on the One Detroit Center in a PCA (Public Center Adjacent/Restricted Central

Business District) zoning classification. (Recommend Approval).
 The staff of the City Planning Commission (CPC) has received a sign permit application for a business sign to be affixed to the One Detroit Building at 500 Woodward Avenue between East Larned and East Congress Avenues. The PCA (Public Center Adjacent/Restricted Central Business District) zoning classification in which the site is located calls for City Council approval of the location and design of exterior modifications following the review and recommendation of CPC (Section 61-11-96 of the Zoning

Ordinance). CPC and Planning and Development Department (PDD) staff have reviewed the application and submit this report and recommendation.

PROPOSED SIGN

The wall sign is proposed to be located on the western, Woodward Avenue façade. The sign would be for Price Waterhouse Cooper and would say "PWC". It is proposed to be 57 square feet in size and would be internally lit (LED), appearing black during the day and white at night.

REVIEW

In accordance with the PCA provisions of the Zoning Ordinance (Section 61-11-97), reviews of proposed construction or modifications, such as this proposed sign should be conducted in light of the following criterion, "Signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner." The proposed sign meets this criterion.

The building currently contains no signage, though a large animated monument sign (also before City Council for review) is also proposed for the site. Sec. 3-7-5(a) of the City Code allows up to 500 square feet of business signage, except in zoning districts that require City Council approval of plans, such as this one.

RECOMMENDATION

The CPC staff has completed its review of the proposed sign, as has the Planning and Development Department staff and the Historic District Commission. We find that the sign would be in keeping with the spirit and intent of the PCA zoning district. Therefore, staff recommends approval of the location and design of the proposed sign. Please find attached the appropriate resolution to effectuate this recommendation.

Whereas, The Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed sign is in keeping with the spirit, purpose and intent of the PCA zoning district classification;

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on city right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be

granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three (3) years, from the date of your Honorable Body's approval.

Invocation

Words presented from Reverend Holley:

People are unreasonable, illogical and self-centered *but we are required to love them anyway.*

If you do good, people will accuse you of selfishness and detour motives *but we are required to succeed anyway.*

The good you do today can be forgotten tomorrow *but we are still required to do good anyway.*

The honesty and the frankness will make you vulnerable *but we are required to be honest and frank anyway.*

The biggest men and women with the biggest ideas can be shot down by the smallest men and women with the smallest minds *but we still required to think big anyway.*

People favor the unprivileged but they want to basically look out for the privilege, *but we are required to fight for the unprivileged anyway.*

You may spend your years building and everything you do can tore down overnight *but we are required to build anyway.*

People will need your help and after you help them, they will still attack *you but we are still required to help them anyway.*

Give Detroit the best that you have and you may never be appreciated but we are still required to give Detroit the best that we have anyway.

Eternal God our Father, we rejoice in this day that you have made; we honor You name. Those who recognize You as Abba, God, Creator or in the Name of Jesus make us one in spirit and in purpose and in direction. Place Your spirit on this Body of servants; place Your spirit in this City; place Your spirit in leadership and may this Council and staff have Your calling on their lives and directions to be fulfilled on behalf

of this great city; empower us and guide us with Your Holy Spirit. We bless this Council, we bless this City, we bless this State and we bless America in the precious name of Jesus we pray.

COMMUNICATIONS FROM MAYOR AND OTHER GOVERNMENTAL OFFICIALS AND AGENCIES:

PUBLIC COMMENT

Ms. Person spoke in behalf of Belle Isle stating that the Government is buying it to lease to a Company that will make wine. There will be wine making on the Island and in the rear is where they will plant the grapes vines. On the other side there will be humongous estates. We will not be able to go to our Isle at any time because it will be a gated community. The Island belongs to the people of Detroit. Let us keep Belle Isle.

Ms. Anna Holden speaking as a Detroit retiree and as a representative of a new retiree organization, "The Retiree Action Movement." We are concern about the deductions in our plan and our pension benefits. We would like to know what changes are being made. What was presented last week was general. We want to know what you are voting on and the changes in that proposal schedule. We know many retirees who retired years ago (30, 40 or 50 years) and they are on poverty level pensions and they cannot afford these increases in Health Cost. You worked with us before in trying to get the older retirees some assistant with the premiums so that they can manage to stay in the system. We ask that you consider and review the date to see how many people who are affected by this and their age. We do not want people who are needy and are entitled to protection to be dropped out of the system.

Ms. Brenda Hurt asks Council to consider given safe ownership of Belle Isle and what the benefits will be for the residents and workers of Detroit. Since we have signed the Consent Agreement, we see chaos, elimination of jobs and departments, union busting, lawsuit and destruction of people's lives. Detroit does not need a State Park. What we need is criminal charges and a jury selection for Mayor Bing, Governor Snyder, Andy

Dillon and those Council members who voted for this consent agreement in the name of the bogus financial crisis.

Ms. Willie Mae Hampton thanked the Council Members who are serving the people. Grapes on Belle Isle for making wine; does that mean that the citizens will have to pay for our own park? Is there only silence that I hear from persons who represent the citizens of Detroit? We need you and you need us. Belle Isle is ours.

Vincent Martin representing the **48217 Southwest Detroit** spoke regarding zoning issues and they are still waiting for a report. The properties reported were bought because someone gave information we gave to Council informing them of what was going on to Marathon. *Since the expansion was approved for Marathon, we have been experiencing terrible odors. Marathon was cited again for odor intrusion into our communities.*

- We have grass up to roof on city owned properties. It is time for Council to look at 48217 and produce a plan as to what they are going to do with that area. We asked for a Master Plan seven or eight years ago and told there was none. Marathon has been expanded and the bridge is coming.

People in Southwest Detroit are bearing the pollution and the environmental illnesses and the work affects are on children under the age of six with their ability to learn. We definitely need something from Council.

President Pugh: I will line item the issue of the odor for Public Health and Safety.

Mr. Rehene Edward Lee states that all politics are local and on the National level we have red and blue states. Detroit is a blue collar city and Michigan is a blue collar State. There is a violation of the rule of law taking place from the Governor's Office down to the Mayor's office and in between. On national politics, the Republicans say big government. There is a better example of big government stand on the city that what is going on in Detroit. If Krystal Crittendon, Esq. was a male, I do not think she would be going through the trouble she is having. We have criminals taking over our streets and city; they are in white "Ts" and in White Collars. I hope someone does something about it.

Mr. Hines: The consent agreement is improperly written. The Isle is real property. We own the air above it and we own the land and all the soil with all the minerals beneath it. I am a Detroiter and I will not give up being a Detroiter. Detroit is our last fort and we will fight to keep it. It says entry by leaser which are us. The Leaser agent may enter restricted area of that lease premises within 48 hours advance notice on Belle Isle. This was the head of an African, this is a head of an Indian and you tie the heads, two minds. You have a triangle you have a pyramid.

Ms. Cindy Darrah: We are having a rally at Belle Isle at 12:00 p.m. on Saturday. Please call your friends and get as many people out there as you can. I live under the viaduct at Selden and Lodge and that is why I am running for Detroit City Clerk. I have a solution for the dual ballots. The new Charter directs us. Ballots initiatives proposed by the City Council must be submitted 70 days before the election. That had to be before Labor Day and it was not done before Labor Day. If you count the days after Labor Day: 26 days in September, 31 days in October and six (6) days in November which is 63 days. That is not 70 days. If you will remove the illegal initiatives that you put on the ballot this ballot can go back to one page.

Mother Holmes stated that she loves Detroit and if everybody gives the Council a change, maybe we can make. "Detroit is home because I have been here since I was two years old. I slept on Belle Isle and had fun on Belle Isle". Please save Belle Isle. All of us should live Detroit and give it all you got. I do not like the way it is being shifting around.

Dear Father God, I ask for you to look on us and let us have a chance. God you can do all things, please do this one for me. Give Detroit the strength it needs. (I just like the Governor and Mayor to sit down, sit down; most everything you do is going against us.) Lord please watch over us and give us fresh courage and strength. Let us learn to work with one another. Father we need you. We need you like never before. Lord; please bless our Council. Council has been giving their heart. If people are going to do anything, Lord, let them support Council. Lord I thank you for all that you have done for us. Lord I ask that you save us now. These things I pray in the Name of the Father, Son and the Holy Ghost. Amen.

Ms. Valerie Glen: The City of Detroit, Council, Mayor and Governor know that people are very frustrated with this Consent Agreement, Public Act 4 and emergency manager. The Consent Agreement is part of the Emergency Manager, Section 14A in that document. We feel that Belle Isle is the final straw. The opening of the aquarium and everything that is happening around Belle Isle is meant to affect this vote i would like to encourage people to look at our slate which will be out this week on the website, freedetroit.org. We are encouraging you to vote down proposal 12-1, the emergency manager law. It is unlawful and we are tired.

Ms. C. Hunt, President of AFSCME 273, Register Nurses spoke regarding the Health Department. I thought Council told the IPH's that they were not going to take over the Health Department. We are being laid off September 28. We received

final notice that they are putting us out and they are taking over. I thought "No" means "No." Did Council tell them "No" or did you say something different that we do not understand. If you did say "Yes" to the IPH, could you let us know so that we can go and find a job.

Pugh: It has been a strategy by the Mayor's office not to give us an opportunity to say "No." There is an Executive Organization Plan that lays out how the Mayor plans to reorganize the way things are currently working and the Council has to okay that plan. We do not have that plan; however, today Member Jones will let you know what action we are going to take so that we will have a judge require the Mayor give us what he was supposed to produce. The Mayor is currently violating the Charter and there will be action taken by this Council later in this meeting.

Action will be determined by the Judge. I think all action will have to stop if there is a temporary restraining order granted.

Jones: I have for this Body a resolution for temporary restraining order for the IPH and we will be voting on it today.

Watson: City Council has also sent a complaint formerly to the Inspector General which is like the Attorney General for this city who is reviewing complaints relative to Health and Wellness Department and also Workforce Development.

*WAIVER OF RECONSIDERATION (No. 1), per motions before adjournment.

**City of Detroit
Detroit Building Authority**

September 12, 2012

Honorable City Council:

As you are aware, some of the properties which will become the Detroit Public Safety Headquarters will become a condominium (Parcels 1 and 2), in which the City will own approximately 88% and the State will own approximately 12%. The State will have no interest in the 2100 space parking structure located at 811 Abbott Street (Parcel 3), which is also part of the Detroit Public Safety Headquarters. This parking structure will be owned entirely by the City of Detroit.

As a result of Parcel 1 and Parcel 3 being connected by two bridges across Abbott Street (vacated), and the two Parcels to be owned by two different entities, the City and the Condominium Association, it is necessary to have a Declaration of Easement, which establishes the rights, and obligations of the owners of Parcels 1 and 3.

The attached Declaration of Easements sets forth these rights and obligations. The following is a summary:

1) The Owner of Parcel 1 shall maintain the walkways, and shall have the right of access to Parcel 3 to maintain and repair the walkways. The owner of Parcel 1 shall have the benefit of the attachment of and support of the building on Parcel 3.

2) Occupant and authorized invitees of Parcel 1 shall have the right of ingress and egress through the walkways into the parking structure. The owner of Parcel 1 shall maintain, control, repair and replace the doors leading into the parking structure from the walkways.

3) The owner of Parcel 3 shall have the right to demolish the parking structure located on Parcel 3, as long as it gives 180 days notice to the owner of Parcel 1.

4) The owner of Parcel 3, at its sole cost and expense, will remove the walkways at the same time and fully restore the exterior of the building located on Parcel 1.

5) The owner of Parcel 1 shall have the right to remove the walkways, upon giving the owner of Parcel 3 notice. Upon approval of the plans and specifications by the Owner of Parcel 3, the owner of Parcel 1 may remove the walkways and shall restore any damage caused by the parking structure.

The Detroit Building Authority requests City Council approval of the attached Declaration of Easements, and requests a waiver of reconsideration.

Respectfully submitted,

C. BETH DUNCOMBE

By Council Member Cockrel, Jr.:

Resolved, That the attached Declaration of Easements relating to the parcels of land described therein is hereby adopted, and shall be observed by the owners of the properties described therein and by their heirs, executors, administrators and assigns, forever.

Resolved, That the City of Detroit Director of Finance is hereby authorized to execute the Declaration of Easements, on behalf of the City of Detroit, and make corrections to or confirmations of legal descriptions in the event that changes are required to correct minor inaccuracies or are required due to unforeseen circumstances or technical matters, provided that the changes do not materially alter the substance or terms of the Declaration of Easements.

Resolved, Further, that the City Clerk shall within 15 days record a certified copy of this resolution with the Wayne County Register of Deeds.

DECLARATION OF EASEMENTS

THIS DECLARATION OF EASEMENT is made this 18th day of September, 2012, by the City of Detroit, a Michigan municipal corporation, whose address is Two Woodward Avenue, Room 1200, Detroit, Michigan 48226 ("Declarant").

WHEREAS, Declarant is the owner of

the three parcels of improved property described on the attached Exhibit A as Parcel 1, Parcel 2 and Parcel 3, incorporated herein by reference, located in the City of Detroit, Wayne County, Michigan;

WHEREAS, Declarant has agreed to convey to the Detroit Building Authority, a public body corporate (the "DBA"), title to Parcel 1 and Parcel 2 and all of that portion of vacated Abbott Street (collectively the "Project") which the DBA proposes to redevelop for office related uses;

WHEREAS, Currently there exists two elevated pedestrian walkways (the "Walkways") connecting the third and fifth floors of the parking deck located on Parcel 3 to the third and fifth floors of the building located on the Project, the legal description of the location of said Walkways being attached hereto as Exhibit B;

WHEREAS, In connection with the conveyance of the Project, Declarant wishes to declare easements for the maintenance repair, use and replacement of the Walkways against Parcel 1 and the Project.

NOW, THEREFORE, Declarant hereby declares for itself and any other owners of Parcel 3 and the Project, the following described easements;

1. Walkway Easement across Parcel

3. Declarant declares an easement, burdening Parcel 3 for the benefit of the Project for the maintenance, repair, use and replacement of the Walkways as described on the attached Exhibit B. Said easement includes the right of the owner of the Project to attached said Walkways to, and be supported structurally by, the parking deck improvements located on Parcel 3 together with the right of entry to Parcel 3 and the parking deck located thereon to the extent necessary for the use, maintenance, repair and replacement of said Walkways. The owner of the project shall be responsible for maintaining the Walkways and the connection to the parking deck in a structurally sound and sightly condition, at its sole cost and expense.

2. Pedestrian Access Easement.

Declarant declares an easement burdening Parcel 3 for the benefit of the Project and the occupants, tenants, vendors, agents, employees and invitees hereof for pedestrian traffic through portions of the parking deck located on Parcel 3 which are open to the public, to the extent the occupants, tenants, vendors, agents, employees and invitees of the Project are authorized to use any portion of the parking deck located on Parcel 3. The owner of Parcel 3 shall not block or interfere with the pedestrian ingress and egress to and from the Walkways or otherwise preclude pedestrian access through the portions of the parking deck. The exterior doors located within the parking deck located on Parcel

3 which provide access from the parking deck on Parcel 3 to the Walkways shall be maintained, controlled, repaired and replaced by the owner of the project at its sole cost.

3. Removal. The owner of Parcel 3 shall have the right to demolish the parking deck located on Parcel 3 and, upon such demolition in compliance with the terms of this agreement, the Walkway easement herein declared shall terminate. In the event the owner of Parcel 3 wishes to demolish the parking structure on Parcel 3, it shall provide one hundred eighty (180) days advance written notice to the owner of the Project of such intent to demolish. The owner of Parcel 3 undertaking such demolition shall prepare plans and specifications describing the removal of the Walkways, including plans which depict how the owner of Parcel 3 shall repair any damage to and restore the building and improvements located on the Project to a complete architectural unit. Such Plan shall be submitted to the owner of the Project for the said owner's prior written approval, which approval shall not be unreasonably withheld, conditioned or delayed. Upon approval of said Plans by the owner of the Project, then the owner of Parcel 3 shall, at its sole cost and expense effect the removal of the Walkways in connection with the removal of the parking deck and otherwise fully restore the exterior of the building on the Project as required by the Plans, all at its sole cost and expense. The owner of Parcel 3 shall be responsible for obtaining any and all permits and approvals required for the alterations to the improvements on the project associated with said Walkway removal.

4. Removal by Project Owner. In the event the owner of the project at any time wishes to remove the Walkways and abandon the Walkway easements declared hereby it shall provide at least one hundred eighty (180) days advance written notice of such intent to the then owner of Parcel 3. Said notice shall include plans and specifications for the removal of the entryways on the third and fifth floor of the parking deck and depict the restoration work which would restore the parking deck to a complete architectural unit to the extent necessitated by such removal. Upon approval of said plans and specifications by the owner of Parcel 3, which shall not be unreasonably withheld, conditioned or delayed, the owner of the Project may effect the removal of the Walkways and shall restore any damage caused to the improvements on Parcel 3 caused by said removal.

5. Liens. All such work performed by either party in connection with the removal maintenance, repair and/or replacement of the Walkways shall be

performed in a good workmanlike condition and otherwise in a lien free manner.

6. Eminent Domain. No taking under the power of eminent domain and no deed or grant in connection with or contemplation of such taking shall be deemed or construed to be a violation of any of the provisions of this instrument or of any of the rights herein granted or conferred, or a termination hereof, and the easements granted pursuant to this Agreement shall remain in full force and effect with respect to those portions of the Easement lands as remain unaffected by such eminent domain proceeding, unless the actual effect of such taking is to nullify or undermine the express purposes of the easements granted pursuant to this Agreement.

7. Binding on Successors and Assigns. This Agreement is intended to, and shall, run with the land, and shall be both a burden and a benefit to Parcel 1 and the Project and bind and inure to the benefit of the Declarant and its successors and assigns.

8. Amendment; Termination. No termination, amendment or waiver of any of the provisions of this Agreement shall be effective unless in writing signed by the parties.

9. Waiver. No waiver of any of the provisions of this Agreement shall be effective unless it is in writing, signed by the party against whom it is asserted and any such written waiver shall only be applicable to the specific instance which it relates and shall not be deemed to be a continuing and permanent waiver unless so specifically stated.

10. Severability. The provisions of this instrument are severable. If any section, paragraph, sentence or provision hereof shall be determined to be invalid or unenforceable, it shall not affect the validity of any remaining provisions herein and all remaining provisions shall be given full force and effect separately from the invalid or unenforceable section paragraph, sentence or provision, as the case may be.

11. Captions. The captions in the section headings are for the convenient reference only and in no way define, describe or extend or limit the scope or intent of this Agreement, nor the intent of any provision hereof.

12. No Public Dedications. Except as otherwise expressly provided herein, the easement rights granted hereunder are not intended, nor shall it be construed, to create any rights in or for the benefit of the general public or as an offer of public dedication.

13. Notices. Any notice required or permitted to be given under this Agreement shall be in writing and shall be deemed to have been given upon deposit

in the United States mail, as certified mail, return receipt request, postage prepaid, and addressed to the party to whom the notice, request or other communication is to be given or by Federal Express or other reputable overnight delivery service which provides for a receipt upon delivery or via facsimile provided a copy of same is delivered via either of the other two methods of delivery as referenced above. All such notices shall be given at the addresses set forth above (or such other address which any party may designate for itself from time to time hereafter in any deed or by written notice to the other).

IN WITNESS WHEREOF, The undersigned has caused its signature to be placed on the day and year first above written.

Resolution Approving Changes In Certain Fringe Benefits For Executive and Legislative Branch Appointees and Non-Union Employees

By Council Member Jones:

Resolved, That certain fringe benefits for Executive and Legislative Branch appointees and non-union employees have been established in various resolutions, including budget-closing resolutions; and

Resolved, That in accordance with Section 4-114 of the 2012 Detroit City Charter, because fringe benefits that were established by resolution do not require an ordinance to amend the 1984 Detroit City Code, they may be changed through adoption of a resolution;

Be It Finally Resolved, That the City Council approves the following changes in certain fringe benefits, which were established by resolution, for all Executive and Legislative Branch appointees and non-union employees:

Clothing, Tool and Uniform Allowances

- These allowances reduced to bi-annual payments; previously paid annually.

Private Car Mileage Reimbursement

- The \$3 per day paid to a City employee who is required to use his/her car for City business is eliminated.
- The travel allowance to City employees who report to work outside of Detroit on a regular basis is eliminated.
- Supplemental accident payments are eliminated.

Overpayment Recovery Process

- Changed overpayment recovery amount to be "as allowed by law", current legal maximum is 15% of wages; current City process allows recovery of \$50 per week or \$100 bi-weekly.

Supplemental Unemployment Benefits

- The City will no longer provide the \$45 weekly Supplemental Unemployment Benefit to laid-off employees.

Honorable City Council:

Re: Petition Number 2370 — Recommendation for Approval of Celebrity Management Company's Request for City Council Approval of the Transfer of Stock in a "Class C" Michigan Liquor Control Commission Liquor License, with Topless Activity Permit, and for the Issuance of New Dance and Entertainment Permits for an Existing Adult Cabaret, d/b/a Tycoons, at 12210 East Eight Mile Road.

BACKGROUND

Section 916(10)(b) of the Michigan Liquor Control Code of 1998, being MCL 436.1916(10)(b), requires that prior to the issuance of a Michigan Liquor Control Commission ("MLCC") dance, entertainment or topless activity permit, an establishment licensed by the MLCC for the sale of alcoholic beverages on the premises shall obtain the approval of the local legislative body of the municipality within which the premises is located. Further, Section 529(1) of the Michigan Liquor Control Code of 1998, being MCL 436.1529(1), provides that a license, or an interest in a license, shall not be transferred from one (1) person to another without the prior approval of the MLCC and that, for purposes of the section, the transfer in the aggregate to another person during any single licensing year of more than ten percent (10%) of the outstanding stock of a licensing corporation shall be considered to be a transfer requiring the approval of the MLCC. The MLCC has determined that such a stock transfer in a liquor license, with an existing dance, entertainment, or topless activity permit, also requires local legislative approval under the applicable provisions of the Michigan Liquor Control Code of 1998.

In accordance with the above, the Celebrity Management Company ("Permit Applicant") has requested this Body's approval of the transfer of stock from Nicholas Faranso to new stockholder Michelle Faranso in a "Class C" liquor license, with topless activity permit, at an established adult cabaret, d/b/a Tycoon's, located at 12210 East Eight Mile Road. Further, the Permit Applicant has requested approval of the issuance of new dance and entertainment permits for the location. This request for approval is MLCC request ID Number 655424, which has been designated by the City Clerk as petition Number 2370.

APPROVAL CRITERIA

The City Council Procedures and Criteria for Michigan Liquor Control Commission Permits ("Procedures and Criteria") became effective upon publication on August 25, 2009. The Procedures and Criteria established reasonable, uniform regulations, procedures, and criteria for your Honorable Body's approval of the issuance of new, or the transfer of existing, dance, entertainment, and topless activity permits by the MLCC. Specifically, the established criteria pertain to the permit applicant's background, the location's compliance with Chapter 61 of the 1984 Detroit City Code, *Zoning*, and building, fire, and health codes and the payment of City property taxes for the location. Part VI of the Procedures and Criteria states that City Council shall grant the Permit Applicant's request for approval of the issuance of an MLCC permit unless one or

more of the eleven (11) specified criteria are not met by the Permit Applicant.

Pursuant to Part V of the Procedures and Criteria, the Mayor's MLCC Permit Coordinator ("Coordinator") has submitted a report dated July 18, 2012, to the City Council, the City Planning Commission and the Law Department concerning the approval criteria contained in Part VI of the Procedures and Criteria.

RECOMMENDATION

The Law Department's review of the report submitted by the Coordinator reveals that the Permit Applicant has met all of the approval criteria contained in Part VI of the Procedures and Criteria. Therefore, attached is a proposed resolution approving the transfer of stock in the "Class C" liquor license, with a topless activity permit, from Nicholas Faranso to new stockholder Michelle Faranso, and for the issuance of new dance and entertainment permits by the MLCC to the Permit Applicant for the establishment at 12210 East Eight Mile Road. Further, the Law Department recommends that the proposed Resolution be moved to the Committee of the Whole for its action.

If there are any questions or concerns, please do not hesitate to contact our office.

Respectfully submitted,
 KRYSTAL A. CRITTENDON

Corporation Counsel

City Planning Commission

September 6, 2012

Honorable City Council:

Re: PCA (Restricted Central Business District) review of the request of SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority (Cobo Hall) to approve the construction of a pull-off area for drop-off (RECOMMEND APPROVAL).

The City Planning Commission (CPC) is in receipt of a request from SDG Inc., on behalf of the Detroit Regional Convention Facility Authority, to approve the creation of a pull-off area from the Civic Center Drive, a/k/a Steve Yzerman Drive (along the Riverfront), for patron drop-offs at the southwestern corner of the facility, closest to Joe Louis Arena. As you are aware, the PC (Public Center District) zoning classification, in which the relevant portion of Cobo Hall is located, calls for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (Sections 61-3-182 and 61-11-61 of the Zoning Ordinance).

PROPOSED DEVELOPMENT

The proposed pull-off would be two (2) lanes in width and would be on Cobo property (see attached). A permit from the Department of Public Works (DPW) would be required for the curb cut on Civic Center Drive. Staff understands that the petitioner has contacted that department and is working with them. The addition of this pull-off area would allow patrons to be dropped off without blocking the public street.

REVIEW

In accordance with the PC provisions of the Zoning Ordinance (Section 61-11-61), reviews of proposed uses should be conducted in light of the following criteria:

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties;

(4) Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands; disruption of traffic flow in surrounding areas should be minimized; truck traffic should be carefully planned and controlled;

The proposed pull-off appears to meet these criteria.

RECOMMENDATION

CPC staff has completed its review of the proposed signs, as has the Planning and Development Department staff. We find that the pull-off would be in keeping with the spirit and intent of the PC zoning district. Therefore, staff recommends approval of the location and design of the proposed garage. Please find attached the appropriate resolution to effectuate your approval.

Respectfully submitted,
MARCELL R. TODD, JR.

Director

By Council Member Jenkins:

Whereas, SDG, on behalf of the Detroit Regional Convention Facility Authority, desires to construct a pull-off area for patron drop-off at the southwest corner of Cobo Hall, off of Civic Center Drive; and

Whereas, The building is subject to provisions of Section 61-11-61, the PC (Public Center District) zoning classification of the Detroit Zoning Ordinance; and

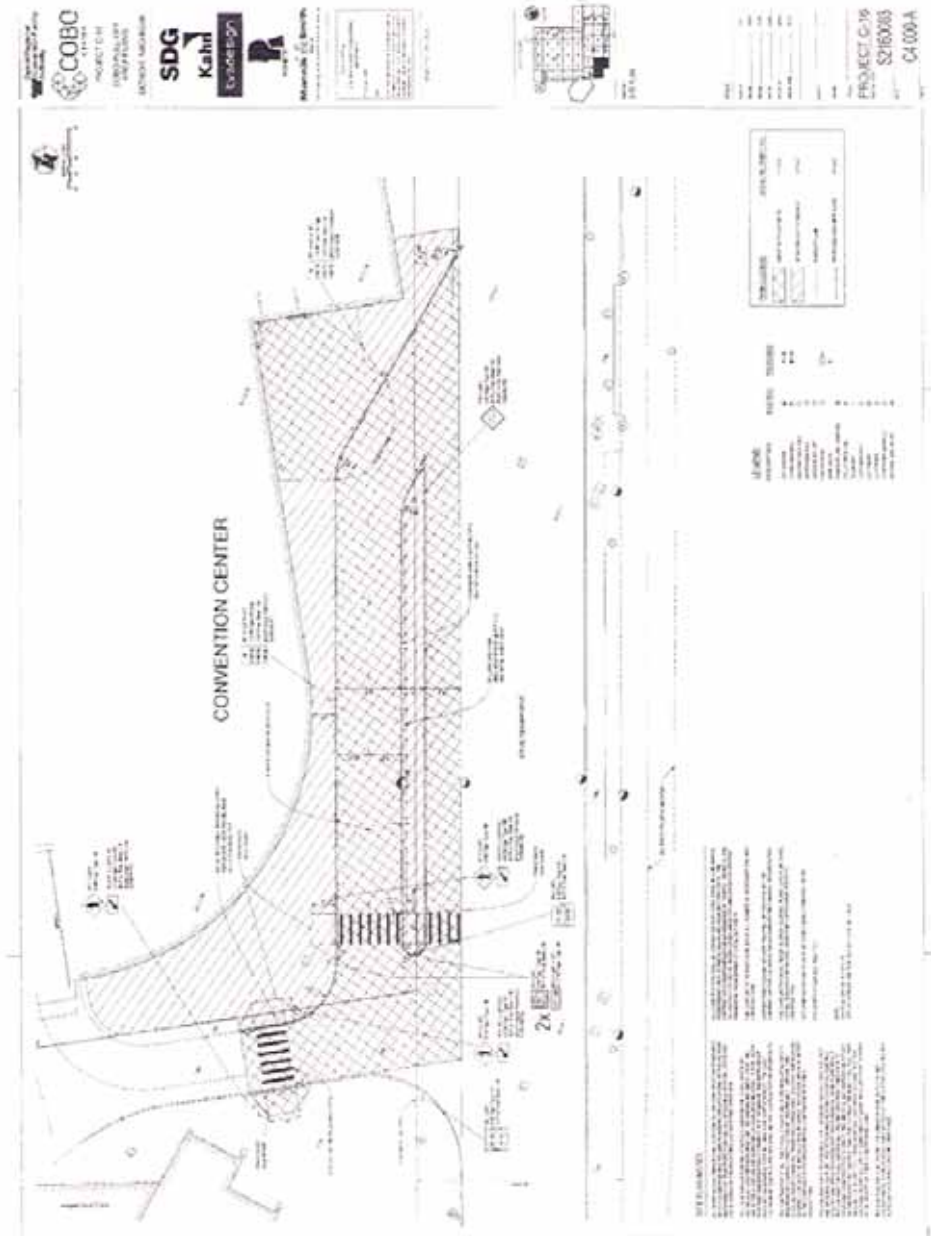

Whereas, The PC zoning district classification requires that any exterior building alteration or expansion within a PC district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission and the Planning and Development Department; and

Whereas, Both the Planning and Development Department and the staff of the City Planning Commission have reviewed the proposal in order to ensure that the proposed construction is in keeping with the spirit, purpose and intent of the PC zoning district classification; and

Whereas, City Planning Commission staff finds the proposed construction is consistent with the review criteria listed for the PC District;

Now, therefore, be it

Resolved, That the Detroit City Council approves the location and design of the proposed pull-off from Civic Center Drive at the southwest corner of Cobo Hall, located at 1 Washington Boulevard, described in the foregoing communication from the City Planning Commission staff dated September 6, 2012 and as depicted in the site plan prepared by SDG dated August 12, 2012.

Honorable City Council:

Re: Petition No. 2255 — Detroit Catholic Pastoral Alliance, request conversion to easement of the alley in the area of Gratiot, Holcomb and Rohns.

Petition No. 2255 of "Detroit Catholic Pastoral Alliance", request the conversion of a portion of the north-south public alley, 20 feet wide, in the block bounded by Gratiot Avenue, 120 feet wide, Chapin Avenue, 60 feet wide, Rohns Avenue, 60 feet wide and Holcomb Avenue, 60 feet wide, into an easement for utilities. This closure will assist the petitioner in the development of a new building located at 8900 Gratiot.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the attached resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,

Fifth, That if any utility located in said property shall break or be damaged as a result of any action on the part of said owners or assigns (by way of illustration

but not limitation) such as storage of excessive weights of materials or construction not in accordance with Section 3, mentioned above, then in such event said owners or assigns shall be liable for all costs incidental to the repair of such broken or damaged utility; and further

Provided, That if it becomes necessary to remove the paved alley return at the entrances (into Holcomb Avenue), such removal and construction of new curb and sidewalk shall be done under city permit and inspection according to City Engineering Division — DPW specifications with all costs borne by the abutting owner(s), their heir or assigns; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

NEW BUSINESS

Department of Public Works Administration Division

August 30, 2012

Honorable City Council:
 Re: Dequindre Cut North — Authorization to purchase railway corridor and to accept grant funds for this purpose.

The City of Detroit has the opportunity to acquire from Detroit Connecting Railroad Company, a Michigan Corporation (“DCON”), an approximately sixty foot wide and approximately three-quarter mile long railway corridor, making possible the extension of the Dequindre Cut Greenway north through Eastern Market to Mack Avenue. The portion of the railway corridor to be acquired is as shown and more particularly described in the attached Exhibit A (the “Property”).

The purchase price for the Property is \$500,000. Your Honorable Body previously authorized the Department of Public Works to submit an application to the Michigan Department of Natural Resources (“MDNR”) seeking funding for the acquisition of the Property. This Honorable Body also thereafter approved the acceptance from the MDNR of a Natural Resources Trust Fund grant of up to \$375,000 (the “MDNR Grant Funds”). The balance of the purchase price will be made up with grants from the Detroit Economic Growth Corporation and the Community Foundation for Southeast Michigan. This acquisition will not require any direct expenditure from the City’s General Fund.

Attached for your consideration is a Resolution which authorizes the purchase of the Property and the acceptance of grant funds from the Detroit Economic Growth Corporation and the Community Foundation for Southeast Michigan for so much of the purchase price as may not be covered by the grant funds from the MDNR. Your expeditious consideration is much appreciated, and wholly necessary, as the option to purchase the Property must be exercised before September 5, 2012, and the City cannot do so without your approval. A Waiver of Reconsideration is requested. Thank you for your prompt attention to this matter.

Respectfully,
 RON BRUNDIDGE
 Director

Department of Public Works

Approved:
 BRENT HARTZELL
 Budget Director
 MICHAEL V. JAMESON
 Finance Director

By Council Member Brown:

Whereas, It is necessary and desirable for the public health, safety and welfare of the City and its residents to acquire from Detroit Connecting Railroad Company, a Michigan Corporation (“DCON”), certain real property consisting of the approximately sixty foot (60’) wide and approximately three-quarter (3/4) mile long railway corridor extending from Gratiot Avenue to Mack Avenue in downtown Detroit, part of what is commonly referred to as the “Dequindre Cut,” as shown and more particularly described in the attached Exhibit A (the “Property”), to be improved and used to extend the Dequindre Cut Greenway north through Eastern Market to Mack Avenue;

Whereas, An Option to Purchase, as amended (the “Purchase Agreement”) between the City and DCON, setting forth the terms and conditions of the City’s purchase and DCON’s sale of the Property for the purchase price of five hundred thousand dollars (\$500,000.00) (the “Purchase Price”), has been presented to this Honorable Body and it is the desire of this Honorable Body to approve the purchase of the Property upon the terms and conditions set forth in the Purchase Agreement;

Whereas, The Detroit Economic Growth Corporation or its affiliates (“DEGC”) and the Community Foundation for Southeast Michigan (“CFSEM”) have generously provided all funds necessary to date to secure for the City the opportunity to acquire the Property and to perform necessary tests, surveys, investigations, and evaluations of the physical condition of the Property as well as matters affecting or which could affect the city’s ownership or use of the Property, and have offered to provide additional grant funds for ancillary closing costs and the difference between the Purchase Price and the maximum amount the city may be entitled and qualified to receive of the MDNR Grant Funds (all funds previously and hereafter to be provided by the DEGC and the CFSEM, and all goods and services heretofore and hereafter donated by the DEGC and the CFSEM in connection with the acquisition and improvement of the property are collectively referred to as the “DEGC/CFSEM Grant Funds”);

Whereas, NTH Consultants, Ltd. on behalf of the City, conducted Phase I and Phase II Environmental Inquiries that revealed the Property contains hazardous substances in concentrations exceeding the Michigan Department of Environmental Quality (“MDEQ”) Generic Residential Cleanup Criteria but suitable for commercial land use, and a Baseline Environmental Assessment (“BEA”) dated May 3, 2012 was submitted to the MDEQ on June 20, 2012, as part of the City of Detroit’s liability protection from any existing contamination;

Whereas, This Honorable Body finds that: (1) after receipt and review of environmental inquiry of the Property by the City, and a report from appropriate City departments indicating the finding and conclusions of the inquiry, despite the presence of environmental contamination, the acquisition of the Property is necessary for the benefit of the public to protect the health, safety and welfare of the public; (2) the requirement that the grantor of the real property bear the cost of the environmental assessment should be waived based on the conclusion that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental assessment, and (3) the requirement for action to recover costs associated with remediation or response activity should be waived based on the fact that an environmental inquiry has been completed, which reveals that the Property is suitable for commercial land use;

Now, therefore, be it

Resolved, That the City does and will accept all DEGC/CFSEM GRANT FUNDS;

Resolved, Further, that the City's purchase of the Property from DCON upon the terms and conditions set forth in the Purchase Agreement is hereby approved, and the City's performance of all acts necessary or convenient in connection therewith are hereby authorized, provided that the MDNR Grant Funds and the DEGC/CFSEM Grant Funds are, in the aggregate, sufficient to satisfy the Purchase Price.

Resolved, Further, that, subject to the foregoing, the Director of the Department of Public Works, or his designee, is hereby authorized to execute and deliver the Purchase Agreement, all Notices required thereunder, and any and all other documents necessary or convenient to consummate the purchase of the Property upon the terms and conditions set forth in the Purchase Agreement;

Resolved, Further, that the Purchase Agreement be considered confirmed when executed by the Director of the Department of Public Works, or his designee, and approved by the Corporation Counsel as to form.

Resolved, Further, that the requirement that DCON bear the cost of the environmental assessment of the Property and the requirement for action against DCON to recover costs incurred by the City to date associated with remediation or response activity are hereby waived;

Resolved, Further, that any and all acts to be taken, actions to be performed, and documents to be executed, as shall or may be required, necessary or desirable to implement this Resolution, are hereby authorized.

A Waiver of Reconsideration is requested.

**RESOLUTION REQUESTING THE
APPOINTMENT OF SPECIAL
COUNSEL AND THE FILING OF A
MOTION FOR A TEMPORARY
RESTRAINING ORDER RELATIVE TO
THE PARTIAL DISSOLUTION OF THE
DEPARTMENT OF HEALTH AND
WELLNESS PROMOTION**

By COUNCIL MEMBER JONES:

WHEREAS, The Bing Administration has determined that the provision of the health services is not a core city service and has announced plans to divest the City of Detroit of the management and most of the programming of the Department of Health and Wellness Promotion (DHWP) and transfer those services to the Institute for Population Health (IPH); and

WHEREAS, Under the proposed plan as has been publicly disclosed to date, DHWP will retain its status as a local health department pursuant to the Public Health Code, P.A. 368 of 1978 and all the duties contained therein; however in so doing, it is doubtful that the diminished DHWP will allow the City to fulfill its statutory mandates; and

WHEREAS, It became clear during the August 31, 2012, public discussion with the Administration and the Michigan Department of Health and Human Services that it is State's intention to continue to hold the City ultimately responsible for all of the duties contained in the Public Health Code even if the services slated to be performed by IPH; and

WHEREAS, Any arrangement with IPH to provide services on behalf of the City of Detroit for the provision of health services pursuant to the Public Health Code necessitates a contract between the City and the IPH that specifies the provision of services, the division of liability between the parties and penalties for violation of the agreement; the Administration has failed to provide such a contract for City Council's consideration and ultimate approval; and

WHEREAS, It is the Administration's position that the creation of IPH can be done without the approval of the Detroit City Council; however, it is without question that contracts are required, which necessitate City Council's approval, for the plan also contemplates the use Herman Keifer Health Complex and the disposition and/or use of DHWP assets by IPH; and

WHEREAS, The novelty of the new proposal for private administration of government services, and the importance of these services to the people of Detroit, call for a more detailed discussion and documentation of exactly what the Administration is proposing before the proposed changes are instituted which is slated to become effective October 1, 2012; and

WHEREAS, The Director of DHWP and the Executive Director of IPH are proposed to be the same person which creates a situation rife with conflict of interest considering that there will be little to no checks and balances on the work assigned to IPH, the breadth and scope of which are undefined by contract terms, and the prohibition contained in the Incompatible Public Office Act, P.A. 566 of 1978 are implicated, and

WHEREAS, When there are proposed changes to the organization of City government, Section 7-102 of the 2012 Detroit City Charter requires the Mayor to submit for City Council approval an executive organization plan that sets forth all agencies of the executive branch and assigns programs, services and activities of each agency before these changes can be undertaken; the Mayor has failed to provide the required executive organization plan for DHWP; and

WHEREAS, The Administration has been acting with all due speed to transfer the services over to IPH without the full scope of these changes being fully disclosed and agreed upon beforehand; however, in the event the City determines this arrangement not as advantageous or successful as hoped, it is unclear how the City could step in after these changes are instituted to reverse or remedy such a situation that by its term involved matters of public health; and

WHEREAS, Section 4-121 of the 2012 Detroit City Charter allows City Council to retain special counsel in situations where a conflict of interest exists between the City Council and another branch of government and Section 7.5-208 of the 2012 Detroit City Charter allows City Council to seek a Temporary Restraining Order without first entering into facilitation in situations such as this one where irreparable harm is imminent. NOW THEREFORE BE IT

RESOLVED, The Detroit City Council requests the appointment of special counsel for the purpose of pursuing a Temporary Restraining Order to stop the transfer of operations to the Institute for Population Health until all required contracts and the executive organization plan is properly approved; NOW THEREFORE BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to the Corporation Counsel,

the Mayor's Office and the Department of Health and Wellness Promotion.

MEMBER REPORTS

WATSON: I have reasons why City Council should say "No" to leasing Belle Isle to the State of Michigan. They say this will provide financial release to Detroit. Where is the financial relief when they want to pay "0" for Belle Isle. 2) there is no obligation by the State base on their agreement to provide any money for Belle Isle because the State Legislator does not appropriate it. They asked that the lease with no money be listed with the Register of Deeds. The only thing that should be listed with Register of Deeds are sales and not leases. 3) The State is prohibited from entering into a contract with the City because they are in default; they still own us money. 4) The City Corporation Council has not reviewed the lease. 5) The State Law mandates that if a unit of government is not charging fair market value for property own by that government, you are to stop lending money to the other party. That is illegal. The Law Department has come to the Table saying that it is a violation of State leaning money to the other party and that transaction is not lawful. There should be a public discourse and public vote on this sufficient treasurer. Belle Isle is listed on the U.S. National Register of Historic Places. There has been no policymaker oversight — nothing has come from the U.S. National Register of Historic Places saying that Belle Isle has suddenly been removed from their listing 6) The citizens of Detroit have approved a number of bond proposals to improve Belle Isle. Council has allocated money for Belle Isle. Why does not the City use the money City Council approved to clean up Belle Isle? 8) The transfer of Belle Isle is not related to the City's physical challenges and is not a lease relationship because there is no money on the table. They want it for nothing.

TATE: We approved a resolution and signed a letter to support Wayne State University to retain there Perinatology Research Branch of the NIH in Michigan. We will know in the next 90 days whether the Perinatology Research Branch will retain its location in Detroit.

Youth Violence Task Force —

September 26, at Northwest Activity Center at 5:00 p.m.

We have in front of us a flawed proposal with a lack of details and it is ridiculous for us to be asked to consider a document that is incomplete. This is a terrible attempt by the State to shovel this proposal on Belle Isle down the citizens and Council's throat.

PUGH: The news conference was a strategy and a deliberate attempt by the Mayor of this City to align himself with the Governor to announce this Belle Isle deal is a good deal and that the Council is standing in the way stating that they are just waiting on Council to put their seal of approval on this crappy proposal.

JENKINS: It is offensive for anybody to claim they represent the citizens of Detroit on something this city would be stuck with for 90 years when all the information is not present.

JONES: I do not see how we can move forward having a discussion without having a legal document. Until we get the document, I do not think we should set a discussion.

PUGH: I agree.

SPIVEY: I agree a lot with what my colleagues has said. I will not be at the evening meeting tonight due to a prior commitment but I will have staff present.

The beautiful dress that the First Lady of the United States wore at the DNC was designed by a DPS graduate. We have so much that has been birth in our city and has gone to the four corners of the world.

JONES: A Skill Trade Task Force Meeting next Tuesday from 4:00 p.m. to 6:00 p.m. at CAYMC, Committee of the Whole Room.

COCKREL: I have a number of issues with the Belle Isle proposal. The document that we are being asked to vote on is incomplete. This is a very one-sided document that is clearly designed to protect and advance the State of Michigan interest and not Detroit.

JENKINS: We have to do a better job of getting our message out because we are always left defending ourselves and responding to the negativity that has been put out in an attempt to neutral us or force us into voting the way people want us to vote.

Wednesday, September 26, at the Northwest Activity Center, 18100 Meyers Road, Violence Prevention Force Meeting. A member of DPD will talk about safety and give out tips for the children.

The day before the Task Force Meeting, I will have a Town Hall meeting at Elmwood Church of Christ at 2001 Antietam Ave., 6:00 p.m. to 8:00 p.m.

PUGH: Tonight at 7:00 p.m. Wayne County Community District Eastern Campus, 94 Connors, the Detroit City Council Evening Community meeting.

BROWN: I agree with everything that has been said at the Table about Belle Isle. A Job Fair at Quick N Loan, October 13. It will be 11:00 p.m. for the General Public, Veterans will be able to enter one (1) hour ahead of the general public at the Chase Building "The Cube."

PUBLIC COMMENTS

STEVEN BOYLE (Northend): Has concerns with DOT receiving Federal funds for the Job Access Reverse Commute. Money should go into the common transit. Thought should go into what's going on with used car lots in the City.

MS. HENDERSON: Submitted communications relative to parking tickets she received in the City of Detroit.

MICHELLE OWENS: Residents should take more action on matters. She's against the State of Michigan taking over Detroit, especially Mayor Bing allegedly stating the deal concerning Belle Isle is done.

SHIRLENE BURNS: Has concerns with people getting no standing parking tickets. Many are given without work orders. She feels the City is trying to balance the budget giving out parking tickets.

MARY LACY: The 30 year lease for Belle Isle is ridiculous. Belle Isle only needs a clean up, which would not take 30 years to do.

MADLINE MADDOX: She has concerns regarding safety at bus stops.

VALERIE GLENN: Announced "Slate" (VIP Proposal) at Belle Isle. There's a lot of activity on the island; i.e. rebuilding, trucks, no people of color or women were performing construction. No trash was found.

MOTHER HOLMES: She resents anyone taking over Belle Isle. She offered prayers for everyone.

Honorable City Council:

Re: Janice Cook vs. City of Detroit and Fred Finley. Case No.: 11-008698-NI. File No.: A20000.003221 (CC).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. From this review, it is our considered opinion that a settlement in the amount of Eighty-Two Thousand Five Hundred Dollars and No Cents (\$82,500.00) is in the best interest of the City of Detroit.

Planning & Development Department
September 27, 2012

Honorable City Council:

Re: Second Amended Resolution — Acquisition and Disposition of the Lafayette Towers.

The Planning & Development Department (P&DD) routinely collaborates with the Detroit Economic Growth Corporation (DEGC) on community and economic development initiatives. The most recent collaborative initiative involves working with the U.S. Department of Housing and Urban Development (HUD) to facilitate the sale and redevelopment of a financially troubled property commonly referred to as the "Lafayette Towers" located at 1301 Orleans, Tax Parcel 07000292.002L. The current owner of the Lafayette Towers has defaulted on its HUD-insured mortgage, and HUD intends to foreclose on the mortgage with a tentative foreclosure date of November 14, 2012. Under federal law and regulations, upon HUD's acquisition of the property, the City of Detroit has a right of first refusal to acquire it before HUD can sell it to anyone else.

The goal of the P&DD/DEGC collaborative effort is to be able to influence the quality of the redevelopment by conducting a Request For Proposals (RFP) for the purchase and redevelopment of the Lafayette Towers property by a private developer. We have structured this process such that if we are satisfied with the strength and content of the proposals received, we would acquire the property from HUD immediately followed by a closing of sale to the selected developer. The attached resolution authorizes the P&DD director to both purchase the property from HUD and transfer the property to the selected developer. The property would be sold by the city under a "Contract of Cash Sale" as required by HUD that would delineate the performance requirements and timetables for redevelopment of the property.

In the event a satisfactory development proposal is not received, the city would

not purchase the property and HUD would then dispose of the property in accordance with its normal disposition procedures.

General Property Information and Background

The City of Detroit desires to exercise its right of first refusal with HUD to acquire Lafayette Towers located at 1301 Orleans, Tax Parcel 07000292.002L, in Detroit Michigan upon the completion of HUD's foreclosure process. This high-rise apartment complex is comprised of two-22-story buildings, a parking structure, and associated landscaped grounds. Located on approximately 9.86 acres in the Mies van de Rohe Residential District, this market-rate property offers 584 units. Amenities include: fitness center, laundry room, community space, pool and garage.

The Detroit Economic Growth Corporation, on behalf of the City of Detroit, would solicit creative proposals for the development of this asset into a market rate property.

It is anticipated that the City will need to close with HUD approximately 45 days from the date of the proposed RFP. It is expected that winning bidder will close this transaction with the City simultaneous with the City's closing with HUD. The winning bidder will assume all applicable rights and obligations in the HUD Contract of Sale (COS) and all bidders will need to acknowledge that they understand and agree to the terms outlined in the COS.

Minimum Bid

As approved by HUD, the City is requiring a minimum bid of \$5,849,330. All bidders will be required to provide proof of funds for the acquisition amount and required repairs with the renovation funding to be placed in escrow. The successful bidder must be prepared to invest a minimum of \$10 million in renovations.

Current residents of the property receiving vouchers will have their rent frozen indefinitely, as requested by your Honorable Body.

All proposals will be subject to the evaluation criteria set by the DEGC, consistent with the federal requirements and the highest and best outcome for the City of Detroit.

Evaluation and Selection Process

An evaluation committee will be established to review submissions. The committee will consist of representatives from the City of Detroit, the DEGC and representatives from the private sector/banking community.

Environmental Concern

Contemporaneously with this submission and request, the Buildings, Safety Engineering and Environmental Department is submitting a report on the environmental condition of the property to

your Honorable Body by, consistent with the requirements of Chapter 2 of the City Code.

Requested Action

In order to carry out this plan, a second amended resolution is attached that authorizes the Planning & Development Department to purchase the property from HUD, and then to immediately sell it to the entity selected for redevelopment.

Respectfully submitted,
MARJA M. WINTERS
Deputy Director

By Council Member Jenkins:

Whereas, The Planning & Development Department ("P&DD") routinely collaborates with the Detroit Economic Growth Corporation ("DEGC") on community and economic development initiatives; and

Whereas, The most recent collaborative initiative between P&DD and the DEGC involves working with the U.S. Department of Housing and Urban Development ("HUD") to facilitate the acquisition, sale and redevelopment of a troubled property commonly referred to as the "Lafayette Towers" located at 1301 & 1321 Orleans in Detroit, (Tax Parcel 07000292.002L.), upon which HUD has a mortgage interest that it will be foreclosing on a date tentatively scheduled for November 14, 2012; and

Whereas, In accordance with federal law, the City will have a right of first refusal to purchase the Lafayette Towers from HUD; and

Whereas, The City has determined that it is in the best interests of the City of Detroit for the City to exercise the right of first refusal to acquire the Lafayette Towers from HUD and immediately reconvey the Lafayette Towers to a qualified purchaser/developer; and

Whereas, P&DD and the DEGC will issue a Request for Proposal ("RFP") to expeditiously evaluate and select a qualified purchaser/developer who will assume, undertake, and perform all of the purchaser obligations of the City under the HUD Contract Of Sale, including but not limited to providing the funds for the purchase price and repair escrow and rehabilitating the Lafayette Towers in compliance with all applicable codes and standards; and

Whereas, In the event a suitable purchaser/developer is not identified through the RFP process, the City will not acquire the Lafayette Towers; and

Whereas, The City Council has received a report from the Buildings, Safety Engineering and Environmental Department ("BSEED") describing the environmental conditions of the Lafayette Towers; and

Whereas, In accordance with Chapter 2, Division I, Article 2 of the Detroit City Code: (1) the City Council finds that the

Lafayette Towers has received appropriate environmental inquiry in accordance with the report referred to in the preceding paragraph(s); (2) pursuant to the request of P&DD, the City Council finds that despite the presence of environmental contamination, acquisition of the Lafayette Towers is necessary for the benefit of the public to protect the health, safety and welfare of the public; (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental assessment and therefore waives the requirement that the seller bear the cost of the environmental assessment; (4) the City Council finds and declares that a remedial investigation has been completed and an estimate has been obtained for the remediation, redevelopment or re-use of the Lafayette Towers and therefore waives the requirement for action to recover costs associated with remediation or response activity; and (5) the acquisition of the Lafayette Towers is conditioned upon the preparation and submission to the Michigan Department of Environmental Quality of a Baseline Environmental Assessment ("BEA") which may be done by the City or on its behalf by the developer/purchaser; and

Whereas, In accordance with Chapter 14, Article VIII of the Detroit City Code, the City Council deems it to be in the best interests of the city to sell the Lafayette Towers without public advertisement or the taking of bids;

Now, Therefore, In accordance with the foregoing recitals,

Be It Resolved, That, the City by and through the Planning and Development Department is authorized to purchase the Lafayette Towers from HUD in accordance with the provisions of the HUD Contract of Sale; and

Resolved, That the City, by and through the Planning and Development Department, with the assistance of the Detroit Economic Growth Corporation, is authorized to sell the Lafayette Towers to a suitable purchaser/developer determined through an accelerated Request for Proposal process, provided that the purchaser/developer assumes, undertakes, and performs all of the obligations of the City as purchaser under the HUD Contract of Sale; and

Resolved, That the rent protection requirement for the very low-income tenants shall remain in place, as long as that tenant occupies the unit; and

Resolved, That the appropriate City personnel are authorized to prepare, accept, process, and execute all documents necessary or convenient to accomplish the purchase and sale of the Lafayette Towers.

Waiver of Reconsideration requested.

Honorable City Council:

Re: Revision of Cass Apartments — Payment in Lieu of Taxes (PILOT).

Cass Community Limited Dividend Housing Association Limited Partnership (LDHALP) is renovating the Cass Apartment building located at 1584 Elmhurst in Detroit. Cass Community Social Services (CCSS) acquired the building in 2008, and its geographical boundaries are as follows: Tuxedo to the south, Monterey to the north, Hamilton to the east and Woodrow Wilson to the west. Presently, the building has been vandalized and is in a state of disrepair.

The Michigan State Housing Development Authority (MSHDA) has awarded Cass Community LDHALP a reservation for Low Income Housing Tax Credit of \$6,687,611 at 9%. Additionally, MSHDA will provide \$550,000 in HOME funds and City of Detroit HOME will provide \$2,000,000 in HOME funds.

In order to make this development economically feasible, it is necessary for it to receive the benefits of tax exemption under Section 15a of the State Housing Development Authority Act of 1996, (P.A. 346, as amended, MCLA125.1415A). Also, project feasibility is contingent upon a 10% service charge. This service charge will be reviewed two years after Cass Apartments reaches and maintains an occupancy rate of 95 percent.

All forty-one (41) units of Cass

Apartments are contained in a 36,685 square foot building that will also contain community space, service offices, and a laundry facility.

The target population that this permanent supportive housing will be directed towards is the chronically homeless, mentally ill, substance and alcohol abusers, and those with chronic co-morbidities; HIV/AIDS, diabetes, and hypertension, etc.

Adoption of the resolution by your Honorable Body will therefore satisfy the requirements of Public Act 346 and City Ordinance 9-90, as amended, by establishing a 10% service charge for this project.

Respectfully submitted,
LINDA M. BADE
Chief Assessor

By Council Member Cockrel, Jr.:

City Planning Commission

September 20, 2012

Honorable City Council:

Re: Zoning Ordinance Map Amendment (Chapter 61, Article XVII, Map No. 25 of the 1984 Detroit City Code) — Request to rezone one parcel identi-

fied as 10000 French Road, generally bounded by the Detroit Terminal Railroad to the north and the east, Gratiot Avenue to the south and French Road to the west from an M2 (Restricted Industrial District) zoning classification to a M4 (Intensive Industrial District) zoning classification to allow for the operation of "Used auto parts sales" in the M4 district zoning classification. (Recommend approval).

Background

A rezoning request to amend District Map No. 25, which presently shows an M2 (Restricted Industrial District) zoning classification, to show an M4 (Intensive Industrial District) zoning classification, has been submitted by Mr. Moe Khanafer of Airport Auto Sales and Services to allow for the operation of "Used auto parts sales" which is considered a conditional use (per Sec. 61-10-83(20) of the Zoning Ordinance in the M4 district zoning classification.

The subject property consists of approximately two (2) acres on which the Advance Steel Company was previously located until moving to Southfield, Michigan in 2006. Airport Auto Sales and Services obtained possession of the property through a multiple-parcel sale from the Advance Steel Company in December of 2009.

In reviewing the petitioner's rezoning request there were initial concerns expressed over the intensification of the proposed rezoning from M2 (Restricted Industrial) to M4 (Intensive Industrial) considering that the M2 zoning classification traditionally serves as a buffer between intensive industrial uses and residential neighborhoods. If the requested zoning map amendment is approved by your Honorable Body, the existing M2 buffer between the subject property and the residential properties located to the southwest on Traverse Avenue would remain intact. There are currently four parcels zoned M2 along French Road and Grinnell Avenue that would serve the purpose of insulating residential properties from any permissible M4 use.

To the northeast, however, there is the Gethsemane Cemetery, which is zoned R1 (Single-Family Resident) and is only 80 feet (at the least) to 90 feet (at the most) away from the property line of 10000 French Road. There are no regulations in the Zoning Ordinance which prohibit the locating of an M4 zoning classification next to or adjacent to a residential district (Sec. 61-10-71); however, the description of an M4 Intensive Industrial District zoning classification states: "This district will permit uses which are usually objectionable and, therefore, the district is rarely, if ever, located adjacent to residential districts" (Sec. 61-10-71).

Parks and Open Spaces, such as cemeteries are often zoned residential even if there are no residential structures present. However, given the nature of the current and proposed land uses, the provisions of the zoning ordinance pertaining to outdoor storage yards appear to be relevant.

Sec. 61-16-144 provides the definition of outdoor storage yard as: "The use of land for the principal purpose of outdoor storage of equipment, supplies, or other items or goods, but excluding uses more specifically defined in this article. On-site outdoor storage of materials by a principal land use shall be considered an accessory use, subject to the accessory use provision in Article XII, DIVISION 5."

This definition is relevant due to the fact that the petitioner's proposed operation of "Used auto parts sales" requires junk vehicles to be stored outdoors prior to being dismantled. The outdoor storage aspect of "Used auto parts sales" is subject to Sec. 61-12-264 of the zoning ordinance, which includes Sec. 61-12-264(3), "No storage yard shall be located less than one hundred fifty (150) feet from land zoned R1, R2, R3, R4, R5, R6, or residential PD."

While an outdoor storage yard is not the principal land used being sought by the petitioner, Sec. 61-12-368 indicates that accessory outdoor sales, display, or storage may be permitted in the B2, B3, B4, B5, B6, M1, M2, M3, M4, PCA, TM and SD2 Districts without need for a temporary use permit, subject to the provisions of Sec. 61-12-369 through Sec. 61-12-373 of this Code.

Provided that the requested map amendment is granted, any consideration given to the temporary outdoor storage of junk vehicles and ordinance-mandated spacing requirements as it relates to residentially zoned property would be addressed during the Buildings, Safety Engineering and Environmental Department's special land use hearing before the special land use hearing officer. Again, as noted above, the requested use of "Used auto parts sales" is considered a conditional use in the M4 zoning classification (Sec. 61-10-83(20)).

SCOPE AND IMPACT OF THE PROPOSAL

Section 61-3-80 of the Detroit Zoning Ordinance lists eight criteria that must be considered in making recommendations and decisions on rezoning requests. The current zoning classification of M2 does not allow for the operation of "Used auto parts sales." The proposed zoning of M4 does allow for used auto parts sales on a conditional basis.

Suitability of the Property

One of the aforementioned criteria for rezoning states, "The suitability of the subject property for the existing zoning

classification and proposed zoning classification." Zoning Map No. 25 generally shows a mix of M2, M3, M4, B4 and Residential uses on the north, south east and west sides for several blocks of the subject property. This section of French Road is primarily developed with the sole structure being owned by the petitioner, vacant land owned by the City of Detroit, which is being utilized as a pole yard, and railroad track, to the north, which provide a divide between City Airport, Gethsemane Cemetery and the petitioner's property.

Land Use

The CPC notes that the M4 (Intensive Industrial District) zoning classification is the least intensive zoning district classification considering the desired intent of the petitioner.

Significant Impact on Other Property

The CPC is of the opinion that the rezoning of this property and the potential development, which is pending, would add to the stability to the surrounding business, commercial and residential neighborhood, by generating additional traffic along this section of French Road, allowing surrounding businesses to benefit from the increase in traffic, as well as increasing the economic viability of this otherwise, underutilized tract of land.

ZONING ORDINANCE AND MASTER PLAN CONFORMANCE

Master Plan Consistency

The subject site is located within the Airport area of Neighborhood Cluster 1 of the Detroit Master Plan of Policies. The Future Land Use map for this area shows Light Industrial for the subject property.

The Planning and Development Department (P&DD) was present at the June 21st public hearing and indicated that the request to rezone the subject parcel identified as 10000 French Road was in conformance with the Master Plan of Policies. A report issued from the Planning and Development Department dated June 25, 2012 states: "The proposed rezoning conforms to the future land use designation of "IL", Light Industrial in the Master Plan of Policies. However, P&DD recommends that the petitioner ensure that adequate buffering is provided around the perimeter of the outdoor storage area to protect the adjacent land uses. No amendment to the Master Plan will be necessary."

CITY PLANNING COMMISSION PUBLIC HEARING

On June 7, 2012, the City Planning Commission held a public hearing on the subject rezoning request. Two (2) members of the public spoke in favor of the proposed request, in addition to six (6) letters of support having been received. No one spoke in opposition to the proposed request. The Commissioners raised several questions of concern regarding the

proposed development and intended uses of interior space. The petitioner responded to commissioners' questions satisfactorily. There were no outstanding issues as a result of the public hearing.

RECOMMENDATION

On June 21, 2012 the City Planning Commission voted to recommend **APPROVAL** of the rezoning request to amend District Map No. 25, Article XVII, Chapter 61 of the 1984 Detroit City Code to show an M4 zoning classification where an M2 zoning classification is presently shown on one parcel identified as 10000 French Road, generally bounded by the Detroit Terminal Railroad to the north and the east, Gratiot Avenue to the south and French Road to the west. The Zoning Ordinance map amendment has been approved as to form by the Law Department and is attached for your consideration.

City Planning Commission

September 21, 2012

Honorable City Council:

Re: Proposed Zoning Ordinance text amendment for spacing requirements and other regulations for used car sales rooms and/or sales lots (RECOMMEND APPROVAL).

BACKGROUND

At the regular City Planning Commission (CPC) meeting of January 6,

2011 during the public hearing regarding the consideration of a text amendment to the Zoning Ordinance to reflect several, substantive and non-substantive changes, the issue of implementing a "spacing requirement" for used car salesrooms and/or sales lots was discussed resulting in a recommendation from the Commission that staff include additional language in the text amendment that strengthens, better regulates and restricts, among other things, "small used car lots."

In August of 2011, CPC staff was able to obtain from the Secretary of State a complete list of all state-licensed used car sales lots in the City of Detroit. Using these data, staff was able to accurately map all 340 state registered used car sales lots in the city, along with creating a database which illustrates the company name, license number, mailing address, zoning classification, phone number, year established, status and expiration date. Cross-referencing these data with the city's business license list of used car dealerships currently licensed by the city, staff was able to determine that out of the 340 state-licensed used car sales lots, only 65 are currently licensed by the city to operate. Additionally, the business license center's list of licensed used car sales lots contained 26 used car dealers which did not appear on the Secretary of State's list of used car dealerships.

On September 1, 2011, the CPC held a public discussion on proposed provisions for a "used car lot" text amendment. Every licensed used car dealer in the city was notified along with community organizations and business associations. Turnout for the discussion was considerable and support for the provisions was broad but not without concerns that the regulations might be going too-far or not-far-enough. (Seven persons spoke in favor of the provisions, one letter of support was received, no one spoke in opposition, and many in attendance listened but did not speak.)

After identifying several areas of the city with high concentrations of used car lots, CPC staff conducted a survey to determine the feasibility of implementing a 1,000-radial foot spacing requirement between expanding, new and/or newly established car salesrooms and/or sales lots and existing used car salesrooms and/or sales lots in addition to other regulations which would improve the appearance and minimize the deleterious effects that such establishments are perceived to create.

On January 19, 2012 the City Planning Commission held the statutory public hearing regarding the proposed text amendment for spacing requirements and other regulations for used car sales rooms and/or sales lots. Subsequently, the City Planning Commission voted to recom-

mend approval of the proposed, attached ordinance.

PURPOSE OF THE PROPOSED ORDINANCE

This text amendment, as recommended by the City Planning Commission, is intended to negate several unwarranted and deleterious effects caused by the proliferation of used motor vehicle salesrooms and/or sales lots ("Used car lots"). It is the determination of the Commission as a result of a series of public hearings and discussions, that an over-concentration of used car lots in any one community can change the appearance and character of a commercial strip and can lead to a decline in other non-automotive, customer-service type businesses.

The design standards, use regulations, and dimensional requirements included in the ordinance aim to prevent eyesores, blight, and hazards and to enhance the economic vitality of traditionally, pedestrian-friendly commercial corridors.

SCOPE OF THE ORDINANCE

Below are the 11 provisions submitted to the Commission at the public hearing of January 19, 2012 as discussed and agreed upon by the working group comprised of CPC staff, Planning and Development Department staff, Board of Zoning Appeals staff and Buildings, Safety Engineering and Environmental Department staff.

1) *Establishing a 1,000-radial foot spacing requirement between any expanded, new and/or newly established used car salesroom and/or sales lot and any existing used car sales room and/or sales lot.*

Currently, there is no spacing requirement in place regulating the location of used car salesrooms or sales lots. The spacing requirement is ment to stem the proliferation of used car lots on commercial corridors where the City hopes to attract higher and better retail and mixed uses. There have also been, in some instances, traffic and parking conflicts with neighboring uses. The proposed 1,000-foot spacing requirement for used car salesrooms or sales lots would be one of the more restrictive in the Zoning Ordinance.

It is the opinion of the Planning Commission that a 1,000-radial foot spacing requirement would be sufficient, considering that unlike "Regulated Uses" and/or "Controlled Uses" which permit up to two similar uses within their radial spacing requirements, the recommended spacing requirement for used car salesrooms and/or sales lots does not allow a second, similar use within the proposed radius at all, much like the spacing for Adult foster care facilities, which does not allow another similar use within 3,000 radial feet.

The amendatory language can be found

in **Sec. 61-12-91**, titled "Retail, service, and commercial uses — Spacing."

2) *Requiring adequate maneuvering room and lot area for the display of vehicles for sale.*

The ordinance specifies the dimensional requirement of 9 feet x 20 feet for vehicle display spaces in addition to requiring a 20-foot wide aisle way allowing for adequate maneuvering room for display vehicles. These amendments can be found in **Sec. 16-12-213(1)**, "Motor vehicles, used, salesroom or sales lot."

The CPC determined that the current minimum lot dimensions for "Motor vehicles, used: salesrooms or sales lots" are not sufficient; the ordinance would increase the minimum lot dimensions from a 2400-square foot lot area and 30-foot lot width to a 4000-square foot area and a 40-foot lot width.

These amendments can be found in **Secs. 61-13-24, 61-13-25, 61-13-27, 61-13-42, 61-13-43, 61-13-44, 61-13-45, 61-13-46 and 61-13-66.**

3) *Providing a definition of "Vehicle Preparation."*

In working with several industry professionals, i.e. used motor vehicle salesroom and/or sales lot operators, City Planning Commission staff recommends the adoption of the proposed definition of "Vehicle Preparation":

Vehicle Preparation —Consists of oil changes, light bulb replacement, fuse replacement and tire rotation. All other functions shall constitute either Minor and/or Major Motor Vehicle Services as defined in Sec. 61-16-134.

This amendment can be found in **Sec. 61-16-201.**

4) *Limiting accessory motor vehicle service at used car salesrooms or sales lot to "vehicle preparation: of vehicles available for purchase on the premises.*

The proposed ordinance provides that, should minor and/or major vehicle services be offered on the same zoning lot as a used car salesroom or sales lot, a separate principal land use permit would be required. The ordinance would limit accessory motor vehicle service at used car salesrooms or sales lots to "vehicle preparation" (of vehicles available for purchase on the premises).

This language has been incorporated under Sec. 61-12-407, "Motor vehicle salesroom or sales lot."

5) *Requiring used car salesrooms and/or sales lots that are seeking to include minor and/or major "motor vehicle service" or "used car sales" to obtain a second permit for the additional principal use.*

Given that **Sec. 61-12-407(1)** presently allows motor vehicle service facilities, that are operated in conjunction with a new or used motor vehicle sales establishment to be considered accessory, where such

service facilities are located within three hundred (300) feet of a zoning lot on which the motor vehicles are sold, the subsection is amended so that it only applies to new car dealership.

By adding a new **Sec. 61-12-407(3)**, which would limit accessory motor vehicle service at used car salesrooms or sales lots to "vehicle preparation" (of vehicles available for purchase on the premises), language has newly been added to require a separate principal land use permit for minor and/or major vehicle services on the same zoning lot. A comparable provision is already on the books where a minor or major motor vehicle services facility wishes to sell used cars (Sec. 61-12-214(6) and Sec. 61-12-215(5)).

6) *Limiting the establishment of used car dealerships to major thoroughfares only.*

In order to limit used car lots to more heavily traveled roads, the ordinance would specify that newly established used motor vehicle sales establishments be located on major thoroughfares as identified in the Master Plan of Policies.

The amendatory language can be found in **Sec. 61-12-213(12)**. (See attached thoroughfare designation/transportation network maps for each of the Master Plan's ten sectors.)

7) *Prohibiting the display of motor vehicles on the berm, sidewalk and elsewhere within the public right-of-way.*

Language has been included in **Sec. 61-12-213(14)** "Motor vehicles, used, salesroom or sales lot," to underscore the importance of the existing prohibition elsewhere in the City Code.

8) *Prohibiting the display of A-frame (portable) signs on the public sidewalk and elsewhere within the public right-of-way.*

Language for this provision has been included in **Sec. 61-12-213(15)** "Motor vehicles, used, salesroom or sales lot," to underscore the importance of the existing prohibition elsewhere in the City Code.

9) *Prohibiting the outdoor storage of used tires.*

Language for this provision is included in **Sec. 61-12-213(11)**, "Motor vehicles, used, salesroom or sales lot," to underscore the importance of the existing prohibition elsewhere in the City Code.

10) *Requiring site plan review for the establishment of any used car salesroom and/or sales lot.*

Currently site plan review is only conducted for used car lots subject to a conditional use hearing, that is, on land zoned B3, B4, or SD4. In the B6 zoning district, where used car lots are a by-right use, site plan review is currently required only if the lot exceeds one (1) acre in area. In M1, M2, M3, M4, and TM Districts, where used car lots are also a

by-right use, site plan review is currently required only if the lot exceeds three (3) acres in area. The proposed ordinance would require that all newly established used motor vehicle salesrooms or sales lots to undergo site plan review.

Language for this provision is included in Sec 61-3-113(1)(g).

11) *Restoring the off-street loading requirements for used car salesrooms and sales lots.*

The recently adopted Ord. No. 13-11 exempted used car lots from the off-street loading requirement applicable to all other "retail, service, and commercial" use. Upon the advice of the Board of Zoning Appeals, the phrase, "not including sales lots for used motor vehicles," is stricken.

This revision to Sec. 61-14-84 restores the historic off-street loading area requirement.

OTHER PROVISIONS

Unrelated to used car sales, but appearing in the same sections of the zoning ordinance, are numerous non-substantive corrections of scrivener's errors related to motor vehicle filling stations ("gas stations" — **Secs. 61-13-24, 61-13-26, 61-13-27, 61-13-42, 61-13-43, 61-13-44, 61-13-45, 61-13-46 and 61-13-66.**

PUBLIC HEARING

Unlike the September 1, 2011 public discussion, there were no members of the public present at the CPC's January 19, 2012 public hearing to speak either in support of or opposition to the proposed text amendment; however, one letter of support was submitted from the Eight Mile Boulevard Association regarding the implementation of a 1,000-foot distance requirement between used car establishments.

The Eight Mile Boulevard Association's letter additionally made the request of the Commission to consider additional language that would have the 1,000-radial foot spacing requirement apply to used motor vehicle salesrooms and/or sales lots located in municipalities outside the City of Detroit. Given the nature of the request, and considering that the recommendations before the Commission had only taken into consideration used motor vehicle salesrooms and/or sales lots located in the City of Detroit, additional research would have to be done by CPC staff to determine the impact of such spacing requirements along the Oakland County, Macomb County, Redford Township, Lincoln Park, Dearborn, And other borders.

RECOMMENDATION

On February 2, 2012 the City Planning Commission voted to recommend **APPROVAL** of the proposed amendatory text amendment to amend Chapter 61 of the 1984 Detroit City Code, to require site plan review for used motor vehicle salesrooms and sales lots and to provide

use regulations, intensity and dimensional standards, and definitions relative to used motor vehicle salesrooms and sales lots. The amendatory text amendment language has been approved as to form by the Law Department and is attached for your consideration.

City Planning Commission

September 26, 2012

Honorable City Council:

Re: Special District Review of proposed three-sided ground monument LED sign at One Detroit Center, located at 500 Woodward Ave. (PCA District). (REVISED: Recommend Approval with Conditions.)

500 Woodward, LLC is proposing installing a three-sided on-premises business monument sign immediately to the south of One Detroit Center (also formerly known as Comerica Tower) at 500 Woodward Ave. The sign would be located near the corner of Woodward Ave. and Larned St., on the portion of the sidewalk that is not in the public right of way. The property is zoned PCA (Public Center Adjacent District), which requires City Council approval of the location and design of proposed sign, following the review and recommendation by the City Planning Commission (CPC) and Planning and Development Department, according to the standards specified in Section 61-11-97 of the Detroit Zoning Ordinance. This recommendation is an update and revision to the recommendation previously issued by CPC, dated September 5, 2012.

REVIEW

CPC staff is sensitive to the appearance of signs in the PCA (Public Center Adjacent/Restricted Central Business District) zoning district, as this district comprises areas that are adjacent to the public center and visited by hundreds of thousands of people yearly. External signs are a key part in establishing the character of Detroit's unique districts and communities.

In accordance with the Special District Review provisions of Article III, Division 6 and the PCA provisions of the Zoning Ordinance, review of proposed signs should be conducted in light of the following criterion, "signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner" (Sec. 61-11-97[11]). Additionally, the "scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development" (Sec. 61-11-97[2]). The proposal only partially meets these criteria. However, with conditions and adjustment to the size of the sign, CPC staff can recommend approval of the sign.

The proposed sign is a three-sided LED sign that would sit on a stone base (the stone would match the stone of One Detroit Center). The color and materials of the sign are "visually appealing and in character with surrounding development," as required by Sec. 61-11-97 of the zoning ordinance. Similarly, the proposed

location of the sign is appropriate, relates well to the surrounding development, and does not impede pedestrian traffic. However, the proposed size of the sign is much too large for its pedestrian setting; it distracts from the surrounding landscaping and overwhelms the space. The PCA zoning district is one in which uses shall be "oriented to pedestrian traffic . . . [and] enhance the public streetscape and street-level activity" (Sec. 61-11-81). The sign must be smaller in order to meet the zoning ordinance criteria in Sec. 61-11-97 for appropriate scale, tasteful design, and relating to the character of surrounding development.

Meeting with applicant —

The sign, as proposed by the applicant, is 25 feet high, 10 feet wide on each side (3 sides), and has a stone pedestal that is 7 feet 6.5 inches high. In order to meet the zoning ordinance criteria described in the previous paragraph, in its report dated September 5, 2012, CPC staff recommended approval of the proposed sign, subject to the following size conditions (conditions related to the LED images will be discussed later):

- Limit stone pedestal height to 5 feet.
- Limit total sign height to 15 feet.
- Reduce sign width on each side to 6 feet.

The petitioner asked City Council to postpone a vote on the proposed resolution in order to allow time to further discuss the proposal with CPC and the Planning and Development Department staff. That meeting took place on September 20, 2012. Following the meeting, internal discussion among CPC and Planning and Development staff, and examination of nearby LED signs and Jefferson and Randolph, CPC staff would like to offer revised conditions.

CPC staff is still very concerned about maintaining the pedestrian orientation of the central business district so the sign must be smaller than originally proposed. However, we are sensitive to the petitioners concern about vandalism. So the new conditions will not limit the height of the stone pedestal, thereby allowing the petitioner to raise the base of the LED sign as high as is desired. (Although, it is worth noting that the LED portion of the signs at E. Jefferson and Randolph are lower than CPC's conditions of September 5th would have required of the One Detroit Center sign and they have not been subjected to vandalism.) To compensate for a potential increase in the height of the pedestal (which would result in a smaller LED screen area), CPC staff is recommending increasing the total height limit of the sign structure to 16 feet.

LED images —

The petitioner has not objected to the conditions relating to LED images. So those remain unchanged. LED signs are

capable of producing an infinite variety of images, both moving and static, and bright and dim. In order to prevent the proposed LED sign from becoming a distraction and nuisance to drivers, cyclists, pedestrians, and other passersby, staff recommends that a condition be placed on the sign that is display only static images and that each image be displayed for a minimum of eight seconds. Additionally, to prevent the light of the LED screen from distracting passersby or becoming a nuisance, images displayed after sunset and before sunrise shall have a black background.

RECOMMENDATION

The CPC staff has completed its review of the proposed sign in consultation with the Planning and Development Department. We find that, with conditions, the proposed on-premise business sign would be in keeping with the spirit and intent of the PCA zoning district. The conditions are as follows:

- Limit total sign height to 16 feet.
- Reduce sign width on each side to 6 feet.
- LED images must be static and displayed for a minimum of 8 seconds, except where the Buildings, Safety Engineering and Environmental Department shall have issued a permit for an "animated sign," as provided in Sec. 61-6-71(d)(1) of the Detroit Zoning Ordinance. .
- The background of LED images that are displayed after sunset and before sunrise shall be black.

Staff recommends City Council approve the proposal conditionally, subject to all other required departmental approvals.

Please find attached the appropriate resolution to effectuate this recommendation.

Honorable City Council:

Re: Address: 7612 Gratiot. Name: Minas Habib. Date ordered removed: December 6, 2000 (J.C.C. page 3095).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on August 20, 2012 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner occupancy.

This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three months subject to the following conditions:

1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties.

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four

must be made by petition to City Council through the office of the City Clerk.

Respectfully submitted,
DAVID BELL
Building Official

**RESOLUTION STRONGLY OPPOSING
MILLER CANFIELD'S ONGOING
UNAUTHORIZED REPRESENTATION
OF THE CITY OF DETROIT AND ITS
MAYOR**

By COUNCIL MEMBER JONES:

WHEREAS, The Charter of the City of Detroit, adopted by vote of the people of the City of Detroit on November 11, 2012, and effective on January 1, 2012, states at Sec. 7.5-201 that "the Law Department is headed by the Corporation Counsel who is the duly authorized and official legal counsel for the City of Detroit and its constituent branches, units and agencies of government;" and

WHEREAS, The Charter mandates that "for purposes of conducting City business and in the performance of their duties therein, no branch or unit of government, department, agency, elected official or employee required or allowed to receive legal services by law, Charter, ordinance, city policy or contract, may solicit or obtain formal legal advice, or retain services or representation from an outside law firm or attorney, in the execution of their duties, without requesting and receiving the approval of Corporation Counsel, unless expressly allowed by Charter"; and

WHEREAS, Even before the adoption of the 2012 Charter, the City Code clearly required professional services contracts for legal services to be brought before City Council and formally approved (1997 Detroit Charter Sec. 4-122 and City Code Sections 18-5-31 through 18-5-35). The City Code at Sec. 18-5-21(b) states "contracts and amendments thereto for legal services, regardless of dollar value, shall not be entered into without city council approval"; and

WHEREAS, Most recently, Miller Canfield, acting under a properly approved contract represented the City as bond counsel in connection with the March, 2012 bond issuance through the Michigan Finance Authority. This bond transaction was concluded in July, 2012 to allow the City to receive the funds. Administration representatives have stat-

ed that Miller Canfield has been paid out of these bond proceeds, in addition to their work on the bonds, for work related to the Financial Stability Agreement (FSA), which is improper under the terms of Miller Canfield's engagement as bond counsel in that matter because the scope of services under that contract specifically excludes these activities; and

WHEREAS, According to records provided by the Bing Administration, Miller Canfield has been paid over \$1.1 million dollars since March, 2012 when the Financial Stability Agreement (FSA) was being negotiated. However, to date, no valid contract for the firm's work on issues arising out of the FSA has been submitted to Council for approval; and

WHEREAS, Miller Canfield cannot officially represent the City of Detroit in legal matters outside of the legal framework for such representation pursuant to the City Charter and City Code; moreover, even with a properly approved contract all potential conflicts of interest must be fully disclosed in writing to the City's Law Department and resolved, and — to the degree necessary — safeguards must be included to protect the City's interests, in a contract with a complete and clearly expressed scope of services that accurately reflects the totality of the work the firm is expected to perform. This contract must be properly approved in accordance with the City Code; and

WHEREAS, This is supported by correspondence dated September 4, 2012, from Mike McGee of Miller Canfield to Kriss Andrews, the City's Program Management Director, which states "with the recent completion of the City's fiscal stabilization bond issue, for which our prior work was an essential prerequisite, it is appropriate to supplement and update our engagement." This acknowledges the need for a new or amended contract to undertake any additional work; and

WHEREAS, In the past, the law firm of Miller Canfield has properly followed the City's formal contracting process and has been retained and duly compensated for its representation of the City of Detroit and its interests in a variety of issues over the years. There is no legal justification for this apparent non-compliance here; and

WHEREAS, Rightful recognition and compliance with the City's newly adopted Charter, its ordinances, procurement policies and operating procedures are essential safeguards in protecting the City's interests, holding elected officials accountable for open and transparent governance, and providing the necessary oversight of spending public monies; and

WHEREAS, Corporation Counsel has indicated on numerous occasions that it has not authorized Miller Canfield's participation in the FSA, and that no valid contract exists to support the firm's activi-

ties. Therefore, Miller Canfield's ongoing participation could well violate the 2012 Detroit Charter provisions requiring Corporation Counsel approval; and

WHEREAS, The Michigan Rules of Professional Conduct guide licensed attorney's behavior and also contain numerous provisions regarding conflicts of interest and the analysis necessary to identify and resolve such conflicts. It is critical to note that only a client can waive a conflict, not the attorney. Without adequate disclosures from Miller Canfield, the City is unable to ascertain whether any potential or actual conflicts of interest exist given the firm's representation of the State of Michigan related to Public Act 4 of 2011 (Emergency Manager Act), its work with the Michigan Treasury also on PA 4 and its recent work with both the City and Michigan Finance Authority as bond counsel for the financial restructuring earlier this year; and

WHEREAS, The City's procurement policies also require legal service providers to disclose potential conflict of interest as part of its response to a Request for Proposals/Qualifications during the City's contracting process. This is critical information because it provides the City, as a potential client, information about the lawyer or firm's past or current clients whose interests may be adverse; and

WHEREAS, Under Section 7.5-201 of the 2012 City Charter, the established mechanism for waiver of conflicts rests with the Corporation Counsel as the City's duly authorized and official legal counsel. It is the only appropriate entity to properly evaluate, analyze and manage such decisions given the provisions of the Charter and its unique familiarity with the City's legal affairs. As stated in the commentary to Sec. 7.5-201 of the Charter "no branch, agency or employee has an automatic need or right to access outside legal counsel, absent a grant of such authority by Charter or law"; and

WHEREAS, The Detroit City Council firmly believes that the sensitivity and high-profile nature of the legal and political issues encompassed in the FSA demand full transparency and strict adherence to all applicable laws and regulations; and

WHEREAS, No currently valid, authorized contract has been properly let according to the City's ordinances, with the necessary approvals of the City Council and the Charter-mandated involvement of Corporation Counsel exists to justify Miller Canfield's work on matters related to the FSA or PA 4; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly opposes the involvement of Miller Canfield in any legal matter on behalf of the City in any capacity without a valid professional services contract in

place and strict adherence to City policies regarding same; and BE IT FURTHER

RESOLVED, That the Detroit City Council strongly opposes contracting with Miller Canfield in any legal matter surrounding the Financial Stability Agreement or Public Act 4 of 2011 without full disclosure and appropriate resolution of potential conflicts of interests, adequate protection of the City's interests, and a clear scope of services for the proposed work; and BE IT FURTHER

RESOLVED, That pursuant to Sec. 7.5-208 of the 2012 City Charter the propriety of Miller Canfield's role in advising the Administration should be part of any intra-government dispute resolution as an urgent matter that bears directly on the proper functioning of City government; and BE IT FINALLY

RESOLVED, That a copy of this resolution be sent to the Mayor's Office, Law Department, and Miller Canfield.

The event is free, open to the public, and there is a reception afterwards (they may charge you a little something, something) but her lecture is free and it's open to everyone. And She's coming before the election to help light a fire under the people in respect to all the historic issues involved with voter participation and to address those who are trying to attack women's rights and attack the rights of many, many people in the community, and she'll be addressing critical issues for our review.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

City Planning Commission

September 17, 2012

Honorable City Council:

Re: Request from Harbortown Residential LLC to modify the approved PD for 250 Harbortown Drive for the construction of an apartment building.

NATURE OF REQUEST

Harbortown Residential LLC has requested a modification of the existing PD (Planned Development District) in the area generally bounded by Wight Street (extended), the Coast Guard facility, the Detroit River, and East Harbortown Drive, known as 250 E. Harbortown Drive. The previously-approved plans showed the site as undeveloped. The site was rezoned to PD in 1982 by Ordinance No. 512-H.

The proposed use is a 134-unit, five (5)-story apartment building, as well as an associated parking lot, pool, and community building. The units will contain one, two, or three bedrooms (the majority containing two). Two hundred seventy (270) parking spaces are proposed to the east, north, and west of the proposed apartment building. One hundred sixty-eight (168) would be required by the zoning ordinance. The parking area to the west would be screened from the residential units to the north by some vegetation and by virtue of the townhomes being set back from the road. As the site plan show, the RiverWalk follows the eastern and southern sides of the subject area. The parking areas would be screened from the RiverWalk by new landscaping, in addition to the existing screening along the RiverWalk along the south side of the parking lot.

All of the units, except for those on the north, are proposed to have balconies. Building materials are proposed to be predominantly red masonry with tan-colored Exterior Installation Finishing System (EIFS) at the top of the 5th story and vertical grey EIFS trim. The glass would only be slightly tinted due to its being low-E, not as blue as shown in the renderings.

To the south:

To the east:

MASTER PLAN CONFORMANCE

The Master Plan designation for this

area is Special Residential/Commercial and Permanent Open Space. While the proposed use appears to be consistent with this designation. We are awaiting a consistency determination letter from Planning and Development Department (P&DD).

SITE PLAN REVIEW AND PD DISTRICT DESIGN CRITERIA CONFORMANCE

The complete site plan review and PD district design criteria are attached. Following are the relevant criteria, with the staff analysis following in italics.

- Sec. 61-3-152. Criteria; compliance with master plan. *See above.*

- Sec. 61-3-157. Criteria; surroundings. *The proposed development appears to fit with the existing buildings on the site and takes advantage its proximity to the Detroit River.*

- Sec. 61-3-158. Criteria; open spaces, landscaping, screening and buffering. *The proposed parking lot appear to be sufficiently screened. The landscaping of the overall site blend with the site. The interior parking lot landscaping standards of Sec. 61-14-223 and following are not met, but staff feels that the other landscaping provided, especially the screening of the parking lot, offsets this. Sec. 61-3-96(6)(a) allows flexibility in the land development regulations such as these.*

- Sec. 61-3-159. Criteria; lighting *The applicant is preparing a photometric study and staff will review that prior to the issuance of building permits to ensure adequacy.*

- Sec. 61-3-160. Criteria; aesthetics. *The appearance of the proposed buildings seems to fit with the surroundings. The masonry matches the other buildings on the site, and the EIFS color on the residential building is similar to the trim of the high-rise tower to the north and the attached townhomes to the west. No EIFS is proposed at ground level.*

- Sec. 61-3-164. Criteria; natural features. *The developer is working to maintain the two large trees at the east and west edges at the southern portion of the site.*

Sec. 61-11-15. PD District design criteria.

- (b) Scale, form, massing, and density. *These seem appropriate.*

- (c) Compatibility. *The uses are compatible with the other uses on the site.*

- (e) Parking and loading. *More parking than is required is provided. While this is generally discouraged, it seems necessary, given the likely tenants of the new building. The appropriate loading area is provided.*

- (g) Open space. *While the proposed construction takes some open space on the overall site, there is still a significant amount on the eastern side of the lagoon. The proposed pool also provides recreational opportunities.*

- (h) River access. *Residents have access to the RiverWalk.*

- (j) Screening. *Appropriate screening is provided.*

- (p) Urban design. *The design of the proposed buildings fits with the other buildings on the site. The screening via the landscaping of the parking lots seems adequate.*

PUBLIC HEARING RESULTS

At the July 12, 2012 public hearing, six (6) members of the public spoke. Their concerns centered on the following, with staff comments following in italics.

- That there will be a reduction in parking for current residents, as the northern portion of the unimproved proposed development site is presently used for parking. (It is not designated for parking). *While residents will not be able to park on the development site, the parking garage north of the Great Lakes Tower to the north of the subject site is underutilized. It is less convenient but available, according to the petitioner.*

- That more condominiums (though the proposed units will be rental, at least initially) will add to the number that already are not selling; and that this could lead to a further reduction in the already deflated property values. *Staff has heard that the rental market is quite strong, and that is why the proposed units will be rental. The new amenities proposed may also positively impact property values.*

- The building materials, especially the colors and quality, are not comparable to that of the surrounding buildings. *The colors of the proposed building will match the adjacent attached townhomes (the grey EIFS) and the tower (the tan EIFS and the masonry). The material samples reflect this. The trim around the entrances has been revised and improved from earlier rendering the balconies are now alternating concave and convex to create a horizontal wave effect. The attached renderings have been corrected to show that no EIFS will be on the first floor, but only more durable elements. The nearby townhomes contain a significant amount of vinyl siding, which is not traditionally considered a high-quality building material.*

- Concerns that the added structures would put additional burden on sewerage and drainage issues already under stress. *To address this, the developer is working with the Detroit Water and Sewerage Department (DWSD) to develop the best solution. The developer further states that the sewerage problems were successfully addressed a year ago. CPC staff is contacting DWSD to further explore solutions.*

- That the present buildings and landscape are not adequately maintained. *Maintenance of the grounds is the responsibility of the four condominium associations that are within the complex. The association presidents collectively decide what the money collected will be used for. The property previously being in*

receivership also negatively impacted the maintenance.

- That the construction of the building will result in a significant loss of green-space within the development. *This is true. However, the proposed building site was never slated for permanent green space but as a development site. The developer has made changes to the proposed site plan since the CPC public hearing to increase the amount of remaining green space, removing eight (8) parking spaces and "banking" twenty-four (24) more, to only be built if necessary in the future, and adding greenspace around the building. This results in 7,041 square feet of additional green space, as is shown on the second page of the attached drawings (sheet A0.04).*

- That the proposed community center and pool could be used by non-residents. *Who will be allowed to use these facilities is still being determined. it is possible that both residents and marina users who pay a fee will be able to use the facilities.*

Commissioners raised other questions that were answered about the proposed project to their satisfaction. In addition, four (4) letters in opposition and one (1) email in support were submitted and two (2) calls with concerns were received. Subsequent to that, ten (10) letters and another email were received.

At the August 2, 2012 meeting, fourteen (14) persons spoke at public comment on the matter, rising the same general issues. Four (4) spoke in support, five (5) in opposition, and five (5) requested more information or had other questions.

ANALYSIS

The proposed development appears to be appropriate for the area, with a large amount of multi-family housing present already. The allowed flexibility of the PD allows the shifting of the landscaping from the interior of the parking lot to the edges. The provision of a pool and community center will provide additional amenities to residents.

The proposal for more parking that would be required is an unfortunate use of riverfront land, but it is likely that many units will be occupied by two-car families. The developer states that the construction of a parking podium on the first floor of the building or the increase in height to reduce the building footprint to reduce the amount of parking around the building is not financially feasible, as the increase in height would trigger changing the construction type from "stick-built" (wood-framed walls) to all structural steel.

Of the approval criteria for rezonings listed in Sec. 61-3-80, the issues of adequate public services (sewerage) and significant adverse impacts on properties the vicinity seem relevant. DWSD will work with the applicant to ensure that the new building is adequately served by sewers. Some area residents feel that the

proposed new building will negatively impact them. The CPC staff finds that the proposed building and site plan are appropriate for the site.

Of the approval criteria for PD districts listed in Sec. 61-11-15, the following seem relevant:

- Scale, form, massing, and density — While staff would prefer a taller, skinnier building with parking underneath instead of around it, the proposed building is adequate.

- Compatibility — The compatibility of the appearance of the proposed building and landscaping with the surrounding buildings seems to be the main question, and staff finds it to be compatible.

- Open space — The question is whether the obvious reduction in undesignated open space is justified by the property owner constructing a building, and the proposed site was never designated a open space, and the developer has made changes to the proposed site plan since the initial CPC review to increase the amount of remaining green space.

- Urban design — As above, the appearance of the building seems to be the main issue from the public comments. The applicant has modified the appearance somewhat since it was presented to the CPC to improve its design.

RECOMMENDATION

The CPC took action at its August 6, 2012 meeting to recommend approval of the requested modification to the approved PD. Furthermore, the CPC recommends that the conversion of the "landbanked" area to parking, if required in the future, be approved. However the CPC is waiting for the law department to approve the PD modification ordinance for your Honorable Body to consider.

At the August 6 meeting, the CPC also recommended that City Council not act on the rezoning request until the developer provides a traffic and parking study, confirmation by the Detroit Water and Sewerage Department (DWSD) that the existing water and sewerage infrastructure is adequate to handle the proposed loads, and that the Fire Marshall has approved the site plans.

The petitioner is in the process of completing the traffic and parking study and is meeting with DWSD. CPC staff has presented the proposed plans to the Fire Marshall for his review.

Honorable City Council:
 Re: Amended Request to Release of Reverter Interest.

In 2005, the City of Detroit sold 101 parcels (approximately 11.27 acres) along East Jefferson and Terminal Street to Sparetime LLC to construct a 36 lane bowling and entertainment facility. The facility was never constructed and now the Army Corps of Engineers wants to purchase the property from Sparetime LLC and build a 10 to 25 million dollar U.S. Customs and Border Protection Border Patrol Station at the site, providing facilities for 100 agents.

the City still has a reverter interest in the property from the development agreement with Sparetime LLC. The Army Corps has the site under consideration as the "Preferred Alternative" for the construction of the U.S. Customs facility.

The Army Corps has established an appraisal of \$490,000 for the land to be paid to Sparetime LLC, which is less than the \$736,600 that the City received for the site. The Army Corps of Engineers is seeing a conditional release of reverter interest from the city, that releases the City's reverter rights if and when the property is

sold to the U.S. Department of Homeland Security.

We, therefore, request your Honorable Body's approval to authorize the Planning and Development Department Director or his/her authorized designee to offer a conditional release and conveyance of the interests, restrictions, and covenants on all parcels sold to Sparetime, LLC.

Respectfully submitted,
 ROBERT A. ANDERSON, JR.
 Director

By Council Member Jenkins:

WHEREAS, Sparetime LLC purchased 101 parcels from the City of Detroit in 2005 for a 36 lane bowling alley via a development agreement.

WHEREAS, The bowling alley was never constructed and now Sparetime LLC wants to sell the property to the U.S. Department of Homeland Security to construct a new U.S. Customs and Border Patrol Station.

WHEREAS, To support the sale of the land to the U.S. Department of Homeland Security, the Planning and Development Department seeks to release the reverter interest in the property.

RESOLVED, That in accordance with the foregoing communication, the Planning and Development Department is hereby authorized to release and convey all of the City's interests, restrictions, and covenants contained in the development agreement dated April 23, 2004 and recorded in the Office of Register of Deeds for the County of Wayne in Liber 42941, page 101 conditioned on the sale to the United States of America.

PUBLIC COMMENT:

Henderson, Terrie stated that there is no resolution regarding our contract payment. All audits and reports were submitted and ask that Council request documentation from the State. The actions that are being taken by the Department are going to result in disallowed cost and expense to the city which should not occur.

Cunningham: Anyone having problem with DTE energy please contact my 1-800 number 1-855-313-3137 also Section 8 through 211 United Way Southwest Solutions at 1-855-313-3137 or facebook MIK Cunningham which connected you to the Public Service Commission for any problems with Comcast, DTE or any other. I would like East McNichols reopen at Van Dyke because of the revitalized neighborhood. The City Airport is doing nothing and is destroying the neighborhood. Bottling the City's water is a great idea and maybe we can connect with Faygo and bottle around the entire State. The City of Detroit inflates the values of the property The value should go retroactive since 2007.

Mother Cheryl states that opening Six Mile area would be highly appreciated.

Valerie Glenn on behalf of Free Detroit No Consent and the BIP Slate thanks the Council for scheduling a Public Hearing at Greater Christ Church at 3544 Iroquois at Mack at 7:00 p.m.

The Water Department and other departments are still under siege and a major takeover. I request that we bring back all of the departments that have been outsourced and taken over which includes Workforce Development, Health and Human Services and the Health Department.

Re: Jeremiah Duren, Jr. vs. City of Detroit and Officer Isam Qasem. Case No.: 11-013642-CZ. File No.: A37000-007563 (DMK).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable

Body. From this review, it is our considered opinion that a settlement in the amount of Seven Thousand Five Hundred Dollars and No Cents (\$7,500.00) is in the best interest of the City of Detroit.

We, therefore, request authorization to settle this matter in the amount of Seven Thousand Five Hundred Dollars and No Cents (\$7,500.00) and that your Honorable Body direct the Finance Director to issue a draft in that amount payable to Jeremiah Duren, Jr. and Romano Law, P.L.L.C., their attorneys, and to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 11-013642, approved by the Law Department.

Re: Travis Hill vs. City of Detroit, a municipal corporation the John Doe, fictitiously sued. Case No. 09-024711-NF.

On September 11, 2012 your Honorable Body approved authority to settle the above referenced matter. The settlement amount was incorrectly stated as \$50,000.00. The correct settlement amount should have been \$62,000.00. A new resolution reflecting the change replaces the rescinded resolution.

We, therefore, request your Honorable Body to rescind the original resolution, adopt the amended resolution submitted herewith and direct the Finance Director to issue a draft in the amount of sixty-two thousand (\$62,000.00) dollars payable to Carl Collins his attorney and Travis Hill, to be delivered upon receipt of properly executed Releases and Stipulation and Order of Dismissal entered in Lawsuit No. 09-024711-NF approved by the Law Department. Historic Designation Advisory Board

October 2, 2012

Honorable City Council:

Re: Request for revised resolution for Belle Isle Aquarium.

Historic Designation Advisory Board is closing out a Certified Local Government grant project — the Re-roofing and Window Rehabilitation of the Belle Isle Aquarium. As required by the CLG grant, a historic preservation easement must be placed upon the Belle Isle Aquarium.

The resolution, dated November, 2010, authorized the director of the Recreation Department, Alicia Minter, to execute and deliver the required easement documents

on behalf of the City of Detroit. As Alicia Minter is no longer the director of the Recreation Department, we requested and received a revision to the resolution to authorize Lori Cunningham to execute and deliver the required easements. We are now requesting a revision to the resolution which authorizes the new Recreation Department director, Brad Dick, to execute and deliver the required easement documents on behalf of the City of Detroit.

We have also revised the resolution to reflect the recent merger of the Friends of Belle Isle Aquarium with the Belle Isle Conservancy, which provided the matching funds for the grant.

Respectfully submitted,
MARCELL R. TODD, JR.
Director

Whereas, The matching funds will be provided in cash by the Belle Isle Conservancy (formally known as Friends of Belle Isle Aquarium) and in-kind services by the Recreation Department, Historic Designation Advisory Board and General Services Department;

Whereas, Brad Dick, Director of the Detroit Recreation Department, shall be authorized to execute and deliver the required easement document on behalf of the City of Detroit.

Now, Therefore, Be It Resolved, That the staff of the Historic Designation Advisory Board is authorized and directed to submit the above mentioned application totaling not more than \$45,000 to the State Historic Preservation Office, Michigan State Housing Development Authority, for consideration of funding, and that upon approval of the above mentioned application by the State Historic Preservation Office, Michigan State Housing Development Authority, the Director of the Historic Designation Advisory Board shall be authorized to sign the contract and any necessary amendments to the contract.

By Council Member Jenkins:
AN ORDINANCE to amend Chapter 25, Article II of the 1984 Detroit City Code by adding Section 25-2-188 to establish the James H. Cole Home For Funerals Historic District, and define the elements of design for the district. IT IS HEREBY ORDAINED BY THE

PEOPLE OF THE CITY OF DETROIT THAT:

Section 1. Chapter 25, Article II, of the 1984 Detroit City Code be amended by adding Section 25-2-188 to read as follows:
Sec. 25-2-188. James H. Cole Home For Funerals Historic District.

(A) A historic district to be known as the James H. Cole Home For Funerals Historic District is established in accordance with the provisions of this article.

(B) This historic district designation is certified as being consistent with the Detroit Master Plan.

(C) The boundaries of the James H. Cole Home For Funerals Historic District are as shown on the map on file in the office of the City Clerk, and are as follows:

Beginning at a point, that point being the intersection of the centerline of West Grand Boulevard and the east boundary line, extended north and south, of Lot 5 of Lothrop & Duffield Land Company Ltd.'s Subdivision, Liber 23, Page 38, Wayne County Records; thence south along said extended boundary line to its intersection with the centerline of the alley running east and west between Sterling Street and Holden Avenue; thence west along said centerline to its intersection with the centerline of Holden Avenue; thence north along said centerline to its intersection with the centerline of West Grand Boulevard; thence east along said centerline to the point of beginning. (Legal description: Lots 1 through 5, Lothrop and Duffield Land Company Ltd.'s Subdivision, as recorded in Liber 23, Page 38, Wayne County Records. Commonly known as 2624 West Grand Boulevard, Tax Parcel Number 08001646-51.)

(D) The defined elements of design, as provided for in Section 25-2-2 of this Code, are as follows:

(1) Height. The building at 2624 West Grand Boulevard consists of a single, low, two-story commercial building with a flat roof.

(2) Proportion of Building's Front Façade. The single building in the James H. Cole Home For Funerals Historic District is considerably wider than it is tall on the front elevations of the front façade (north elevation) and also on the east and west elevations. The rear elevation of the building is taller than the majority part of the building.

(3) Proportion of Openings Within the Façade. The building at 2624 West Grand Boulevard is composed of approximately forty percent (40%) openings in its front façade (north elevation). The façade contains two rows of ribbon windows, which comprise a large portion of the frontage. Each window in this system is surrounded by sandstone, is steel framed, and encloses a pane of structural glass. This window system is surrounded by common bond brickwork frontage. At the center of

this elevation are double entry steel glass doors.

(4) *Rhythm of Solids to Voids in the Front Façade.* A mainly standard rhythm of solids to voids exists on the front elevation of the façade of the single building in the James H. Cole Home For Funerals Historic District. A ribbon window system spans the majority of the entire front elevation (north). A mostly regular rhythm of solids to voids exists on all elevations of the building in the district. Generally, openings are placed one over the other on the first and second stories. On the first story of the front façade (north elevation) there is an opening for the front entrance that interrupts the series of ribbon windows going from east to west. This opening lies at the center of the building and is evenly spaced between windows on the east and west of the elevation. The marble tile that encases the front entrance meets the bottom of the second story ribbon window system with a sandstone surround that separates the two. The sandstone frame surround all windows.

(5) *Rhythm of Spacing of Buildings on Streets.* Not applicable due to the presence of only one (1) building in the district of 2624 West Grand Boulevard.

(6) *Rhythm of Entrance and/or Porch Projections.* There are no porch projections or stairways that extend from the primary façade of the single building that composes the James H. Cole Home For Funerals Historic District. The stairway that proceeds from the second-story of the rear (south elevation) is made of steel and descends to the ground level of the building parking lot. The entrance door that is connected to this stairwell is made of steel and surrounded by a brick façade.

(7) *Relationship of Materials.* The building materials are generally composed of common bond brickwork with sandstone surroundings. The building at 2624 West Grand Boulevard features a marble tile surface on its front façade (north elevation) that surrounds the front entry steel framed glass doors. The marble tile wall spans from the ground level of the front of the building (north elevation) upward to the second story window system and approximately seventeen (17) feet across (east to west). There is a matching marble façade beneath the vehicle portico on the east elevation of the building which also has a steel framed double entry side entrance. The ribbon row glass window system on the north elevation is framed by a sandstone border.

(8) *Relationship of Textures.* The distinctive features of the single building in the historic district include the smooth and glossy surface of the marble façade. The columns that uphold the portico are also generally smooth. The building is smooth and streamlined in its entirety.

(9) *Relationship of Colors.* The color pattern in the historic district generally consists of light earth tones. The beige brickwork is the predominant color of this single building in the district while the windows are surrounded by a slightly lighter shade of the same color. The secondary color in the district is the gray which is the marble tile that is located on two separate elevations of the building. The two shades of beige complement one another and can also be found on the portico (east elevation) and on the trim encasing the east double door entryway. The rear elevation exhibits the same beige façade and also white aluminum siding from the original residential structure that still exists in part. A white dormer that is on the rear (southern elevation) also consists of white aluminum siding. The west elevation of the single-building historic district features a skeleton clock dial with blue numerals and clock hands. Beneath the clock there is a graphic illuminated wall mounted sign that is predominantly blue and white.

10. *Relationship of Architectural Details.* Above the front entryway (north elevation) on the marble surface is a sign, consisting of metal letters mounted to the marble surface of the building, which reads: "James H. Cole Home for Funerals, Inc." The sign is at the center of the north elevation and lies between the first and second story ribbon window systems. The sign on the west elevation of the single building historic district features a skeleton clock dial. There is a graphic illuminated wall mounted sign which reads: "JAMES H. COLE HOME FOR FUNERALS" with the graphics of a dove holding an olive branch, a cross, and a Bible between the signage lettering. On the rear (south elevation), traces of the original residential dwelling coincide with the newer portions of the façade. The east elevation reaches into the parking lot and features a vehicle portico that is upheld by four (4) pairs of unadorned cylindrical columns.

11. *Relationship of Roof Shapes.* The front façade (north elevation) of the building at 2624 West Grand Boulevard has a flat roof. The rear (south elevation) of the building has a clipped gable roof. The building has a lot-pitched form and also has patterned roof shingles with dormers and a wide eave open overhang. The portico on the east elevation displays a standing seam roof supported by four pairs of columns, all having brick bases.

12. *Walls of Continuity.* Not applicable due to the presence of only one (1) building on the east boundary of 2624 West Grand Boulevard.

13. *Relationship of Significant Landscape Features and Surface Treatments.* The building does not have any significant landscaping. However, there is a line of low-lying shrubs along the portico on the side of the building (east elevation). The

parking lot is paved with asphalt. Streets, sidewalks, curbs, and alleys within the district are concrete. Street lights and traffic signals do not contribute to the significance of the district and are mounted on steel poles. Other significant landscaping includes that of the grass-covered median on the West Grand Boulevard boundary (north).

14. *Relationship of Open Space to Structures.* To the east of the building lies the Motown Museum, which is listed on the National Register of Historic Places. To the north lie various buildings and residential homes. To the west (across Holden Avenue) lies another commercial business.

15. *Scale of Façade and Façade Elements.* The façade of 2624 West Grand Boulevard is slightly different from similar businesses in the same industry. The original residential building that can be viewed from the rear (south elevation) makes the façade elements of this funeral home vary from that of other commercial structures. Its residential features such as dormers, aluminum siding, vents, and chimney make it distinctive when compared to other commercial buildings.

16. *Directional Expression of Front Elevation.* The front elevations of the buildings in the district are primarily horizontal in expression due to the presence of ribbon windows that are horizontal in nature. The single building in the district is proportionally wider than tall.

17. *Rhythm of Building Setbacks.* All building elevations in the district feature minimal setbacks, coming within three (3) feet of public sidewalks and the parking lot that exists at the east and southern portions of the building.

18. *Relationship of Lot Coverage.* The building at 2624 West Grand Boulevard occupies approximately forty-five percent (45%) of its lot.

19. *Degree of Complexity Within the Façade.* The single building in the historic district does not bear any great deal of complexity. The structure conforms to others with similar uses. However, within the façade there is a distinction from the original residential dwelling and extended commercial space that was added.

20. *Orientation, Vistas, Overviews.* The single building at 2624 West Grand Boulevard is oriented east and west and its entrance faces the north, which is West Grand Boulevard.

21. *Symmetric or Asymmetric Appearance.* The façade of the single building at 2624 West Grand Boulevard is asymmetrical due to the conflict a proportional balance of the north and south elevations. Aesthetical harmony is not present in this structure.

22. *General Environmental Character.* The district consists of one (1) building facing north on West Grand Boulevard.

The surrounding area is residential in nature. A majority of the surrounding lots are zoned for single-family, two-family, and general business uses.

Section 2. All ordinances or parts of ordinances, resolutions or parts of resolutions, in conflict with this ordinance are repealed.

Section 3. This ordinance is declared necessary for the preservation of the public peace, health, safety, and welfare of the people of the City of Detroit.

Section 4. This ordinance shall be given immediate effect upon publication in accordance with Section 4-118 of the 2012 Detroit City Charter.

Approved as to form only:

Petition No. 2555 & 2572 of “Charles Roy” whose address is 4620 Cass Avenue, request to install and maintain an encroachment of an outdoor café seating area. The petitioner request to maintain encroachments into Cass Avenue, 60 feet wide, 8.00 feet by 30.22 feet with railing, concrete curb, and brick pavers between Forest Avenue, 70 feet wide, and Canfield Avenue, 60 feet wide. The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division with conditions. The petition was referred to the City Engineering Division — DPW part of investigation (utility clearance and review) and report. This is our report.

Detroit Water and Sewerage Department (DWSD) report no objection to the encroachment provided that the provision for encroachment is strictly followed.
