Honorable City Council:

Re: Petition No. 2381 — Coalition on Temporary Shelter, request to vacate abutting alley in the area of Woodward, Cass, Peterboro and Stimson and convert into a public easement.

Petition No. 2381 of Coalition on Temporary Shelter at 26 Peterboro Street, Detroit, Michigan 48201, request conversion to easement but will grant permission

to temporary close the east-west public alley, 20 feet wide, in the block bounded by Stimson Street, 50 feet wide, Peterboro Street, 60 feet wide, Woodward Avenue, 120 feet wide and Cass Avenue, 80 feet wide to allow an outdoor seating area for the individuals visiting/staying at the shelter.

The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All involved City departments and privately owned utility companies have reported no objections to the proposal, provided they have the right to ingress and egress at all times to their facilities.

You will find attached an appropriate resolution, for your Honorable Body's consideration, authorizing the City Engineering Division — DPW to allow the closure of the East-West public alley, 20 feet wide, on a temporary basis (for a period of five (5) years) to expire on May 1, 2018.

**Law Department**

May 17, 2013

Honorable City Council:

Re: Proposed Ordinance to Amend Chapter 47 of the 1984 Detroit City Code, *Retirement Systems*, Article II, *Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System* by repealing parts of Ordinance 11-13 regarding one-year suspension of service credit accrual.

**Background**

At the request of the Mayor's office, as part of cost containment efforts, your Honorable Body passed an ordinance on January 16, 2013 that amended City Code Sections 47-2-4, 47-2-5, 47-2-6, and 47-2-7 to suspend accrual of service credit for one year. The ordinance was approved by the Mayor on January 24, and published on April 8 as Ordinance 11-13.

Concerns arose about the impact of the ordinance regarding service credit would have on non-fiscal matters such as vesting, eligibility for retirement, etc. Upon re-evaluation, the conclusion was reached that essentially the same fiscal objectives could be achieved, without affecting vesting, etc., by repealing the suspension of service credit and substituting a one-year long pension accrual percentage of zero percent for the one-year service credit accrual suspension.

**Standing Committee Consideration**

The original proposed ordinance to accomplish the above was considered and discussed at the May 15, 2013 meeting of your Honorable Body's Internal Operations Standing Committee. Upon the recommendation of your Honorable Body's Fiscal Analysis Division, supported by your Honorable Body's Research and Analysis Division, the IOS Committee requested the Law Department to bifurcate the proposed ordinance into two proposed ordinances, with one addressing only the repeal of the suspension of service credit accrual and the other addressing only the one year long period of a zero percent (0%) pension multiplier. This request was concurred in by the Budget, Finance and Audit Standing Committee, to which the original ordinance had also been referred, at its meeting on May 15, 2013.

**Substitute Proposed Ordinance to Repeal Suspension of Service Credit Portions of Ord. 11-13**

This proposed ordinance amends Chapter 47 of the 1984 Detroit City Code, *Retirement Systems*, Article II, *Defined Benefit/Defined Contribution (Annuity) Plan of the General Retirement System* by amending Sections 47-2-4, 47-2-5, 47-2-6, and 47-2-7 to repeal, *ab initio*, the provisions adopted by Ordinance 11-13 that provide that a member shall neither earn any service credit nor accrue any credited service during the period of February 1, 2013 through January 31, 2014.

Pursuant to the applicable provisions of the 2012 Detroit City Charter, the attached proposed ordinance, is being submitted to your Honorable Body for consideration and passage. The proposed ordinance has been approved as to form by the Acting Corporation Counsel.

We are available to answer any questions that you have concerning this proposed ordinance. Thank you for your consideration.

Respectfully submitted,  
 EDWARD V. KEELEAN  
 Acting Corporation Counsel

 Supervising Assistant

In no case shall benefits paid by the Retirement System exceed ninety percent (90%) of Average Final Compensation.

(d) With respect to regular service retirees under Section 47-2-4(a) and (b)<sup>93</sup> of this Code only and excluding persons who receive vested benefits under Section 47-2-4(c) and (d) of this Code, in no case shall the total of the annual Straight Life Pension be less than three hundred sixty dollars (\$360.00) times each of the first ten (10) years of service at retirement plus one hundred twenty dollars (\$120.00) for each year of service in excess of ten (10) years. Effective July 1, 2007, each year of service in excess of ten (10) shall be calculated using two hundred twenty-five dollars (\$225.00).

If there is no such designated person or persons surviving the retiree, such difference shall be paid to his or her estate. In no case shall any benefits be paid under this section because of the death of a retiree if the retiree had elected any of the Options provided for in Section 47-2-9 of this Code.

#### **Sec. 47-2-6. Disability Retirement.<sup>95</sup>**

(a) *Duty Disability; Eligibility.* Upon the application of a member or the member's department head, a member who becomes totally and permanently inca-

pacitated for duty in the employ of the employer shall be retired by the Board, provided, such incapacity is found by the Board to be the natural and proximate result of the actual performance of duty, without willful negligence on the part of the member, provided further, that the Retirement System Medical Director shall certify to the Board after a medical examination, that such member is mentally or physically totally and permanently incapacitated for the further performance of duty to the employer, and that such member should be retired from City service.

(b) *Duty disability; Benefits.*<sup>96</sup> Upon retirement for disability as provided in Section 47-2-6(a) of this Code, a retiree shall receive the following benefits:

(1) Any member who is eligible for a *Service Retirement* under Section 47-2-4(a) or (b) of this Code shall receive a *Service Retirement Allowance* as provided in Section 47-2-5<sup>97</sup> of this Code and shall have the right to elect an option provided for in Section 47-2-9<sup>98</sup> of this Code.

(2) Any member prior to eligibility for a *Service Retirement* under Section 47-2-4(a) or (b) of this Code shall receive a *Disability Retirement Allowance* to begin as of the date of disability. In no case shall the *Disability Retirement Allowance* be retroactive to more than six months before the date the application for Disability Retirement is filed with the Board, or prior to the date the member's name last appeared on a City payroll with pay, whichever is later. The *Disability Retirement Allowance* shall continue until the member reaches eligibility for *Service Retirement* or recovers prior to that event. Upon reaching eligibility for *Service Retirement*, he or she shall receive a pension as provided in Sections 47-2-5(b) — (e) of this Code, together with an annuity which shall be the equivalent of the annuity which would have been received had contributions to the *Annuity Savings Fund* continued. Said contributions are to be based on the final compensation at the date of disability and the annuity percentage in effect for the employee on the July first prior to the effective date the employee is added to the disability retirement payroll, provided, said July first is at least six months prior to the effective date that the employee is added to the regular retirement payroll. In computing the pension, membership service credit shall be given for the period a *Duty Disability Retirement Allowance* is received. The *Disability Retirement Allowance* shall consist of:

a. A *Cash Refund Annuity*<sup>99</sup> which shall be the actuarial equivalent of the member's accumulated contributions in the *Annuity Savings Fund* at the time of retirement. If a retiree dies before receipt of annuity payments in an aggregate amount equal to, but not exceeding, the

retiree's accumulated contributions, the difference between the accumulated contributions and the aggregated amount of annuity payments received shall be paid in a single lump sum to such person or persons nominated by written designation duly executed and filed with the Board. If there is no such designated person surviving the retiree, such difference shall be paid to the retiree's estate.

b. In addition to the *Annuity, a Pension*<sup>100</sup> of sixty-six and two-thirds of the member's Average Final Compensation at the time of disability, subject to the provisions of Sections 47-2-13 and 47-2-14 of this Code. This *Pension* shall in no event exceed fifty-seven hundred dollars (\$5,700.00) per annum.

c. *For members who retired on disability on or after January 1, 1999, a pension*, in addition to the *Annuity*, of sixty-six and two-thirds of the member's average compensation at the time of disability subject to the provisions of Sections 47-2-13 and 47-2-14 of this Code. This *Pension* shall in no event exceed nine thousand dollars (\$9,000.00) per annum.

(c) *Non-Duty Disability; Eligibility*.<sup>101</sup> Upon the application of a member or the member's department head, a member who has at least ten years of credited service who becomes totally and permanently incapacitated for duty as a result of causes which do not occur in the actual performance of duty to the employer, may be retired by the Board if the Medical Director certifies to the Board after examination that such member is mentally or physically totally incapacitated for the further performance of duty, that such incapacity is likely to be permanent, and that such member should be retired.

(d) *Non-Duty Disability; Benefits*.<sup>102</sup> Upon retirement for disability as provided in Section 47-2-6(c) of this Code, a member shall receive the following benefits:

(1) After attaining sixty years of age, a member shall receive a *Service Retirement Allowance* as provided in Section 47-2-5 of this Code and shall have the right to elect an Option as provided in Section 47-2-9<sup>103</sup> of this Code.

(2) Prior to age sixty, a member shall receive benefits as provided in Section 47-2-6(d)(2)a-d<sup>104</sup> of this Code:

a. A *Cash Refund Annuity*<sup>105</sup> which shall be the actuarial equivalent of the member's accumulated contributions in the *Annuity Savings Fund* at the time of retirement. In the event a retiree dies before the total of the *Cash Refund Annuity* payments received equals or exceeds the amount of his or her accumulated contributions at the time of retirement, the remainder shall be paid in a single lump sum to such person or persons nominated by written designation duly executed by the member and filed with

the Board. If there is no such designated person or persons surviving, any such remainder shall be paid to the retiree's estate.

b. In addition to the *Annuity, a Disability Pension*<sup>106</sup> which shall be based on the Service Retirement factors in effect on the effective date of disability. The service retirement factors shall be multiplied by the *Average Final Annual Compensation* multiplied by the number of years and fractions of years of service credited to the retiree. In addition, a basic pension of twelve dollars (\$12.00) per annum for a maximum of ten years of credited service shall be added for a total not to exceed one hundred twenty dollars (\$120.00) and adjustments thereto, as calculated pursuant to applicable provisions of the Detroit City Charter, as amended, and the 1984 Detroit City Code. Said *Disability Pension* shall begin as of the date of the disability. However, in no case shall the pension begin more than six months before the date the application for disability retirement was filed with the Board, or prior to the date his or her name last appeared on a City payroll with pay, whichever is later. Payment of the *Disability Pension* shall continue to age sixty. Said *Disability Pension* shall not exceed thirty-nine hundred dollars (\$3900.00) per annum, and shall be subject to the provisions of Sections 47-2-13 and 47-2-14 of this Code.

c. A member who retired on disability on or after January 1, 1999 shall receive a *Disability pension* as provided for in Section 47-2-6(d)(2)b of this Code. Said *Disability Pension* shall not exceed six thousand dollars (\$6,000.00) per annum, and shall be subject to the provisions of Sections 47-2-13 and 47-2-14 of this Code.

d. Effective July 1, 1967, notwithstanding the limitations contained in 47-2-6(d)(2)b of this Code, disability retirees under Section 47-2-6(c) of this Code, who retired 1) prior to August 13, 1953, shall receive a supplementary *Pension* of forty dollars (\$40.00) per month; or 2) after August 13, 1956 and prior to July 1, 1966, shall receive a supplementary pension of twenty dollars (\$20.00) per month.

e. *Upon Attaining Age Sixty*, the retiree shall receive a *Pension* computed according to the provisions of Section 47-2-5(b)-(e) of this Code, provided, that no service credit shall be given for the time a *Disability Pension* provided for in Section 47-2-6(d)(2)b of this Code was received. Upon attaining age sixty, the retiree shall have the right to make an election under Section 47-2-9 of this Code.

~~(e) A member shall neither earn any service credit nor accrue any credited service during the period of February 1, 2013 through January 31, 2014.~~

**Sec. 47-2-7. Accidental Death Benefit; Performance of Duty.**<sup>107</sup>

If a member is killed in the performance of duty in the service of the employer, or dies as the result of illness contracted or injuries received while in the performance of duty in the service of the employer, and such death, illness, or injuries resulting in death, is found by the Board to have resulted from the actual performance of duty in the service of the employer, the following benefits shall be paid, subject to Section 47-2-13 of this Code:

(a) *Annuity Savings Fund*.<sup>108</sup> Accumulated savings in the members *Annuity Savings Fund* at the time of death shall be paid in a single lump sum to such person or persons as the member nominated in a writing duly executed and filed with the Board. In the event there is no designated person or persons surviving the member, the accumulated contributions shall be paid to the member's estate.

(b) A *Pension*<sup>109</sup> of one-third of the final compensation of said member shall be paid to the surviving spouse to continue until remarriage. If an unmarried child, or children under age eighteen also survive the deceased member, each surviving child shall receive a pension of one-fourth of said final compensation, to be divided equally. Upon any such child's adoption, marriage, attainment of age eighteen, or death, whichever occurs first, such child's pension shall terminate and there shall be a redistribution by the Board to the surviving eligible children under age eighteen. In no event shall any child receive a pension of more than one-fourth of said final compensation.

(c) *No Surviving Spouse; Children*.<sup>110</sup> If there is no surviving spouse, or if such surviving spouse dies or remarries before the youngest surviving child of a deceased member shall have attained the age of eighteen, any unmarried child or children under age eighteen, if any, shall receive a *Pension* equal to one-fourth of the deceased member's final compensation, provided, that if there are more than two such surviving children, each shall receive a pension of an equal share of one-half of said final compensation. Upon any such child's adoption, marriage, attainment of age eighteen, or death, whichever occurs first, the child's *Pension* shall terminate and there shall be a redistribution by the Board to the surviving eligible children under age eighteen. In no case shall any such child's *Pension* be more than one-fourth of the deceased member's final compensation.

(d) *Annual Limit*.<sup>111</sup> The total amount payable under Section 47-2-7(b) and (c) of this Code on account of the death of a member, shall not exceed nine thousand dollars (\$9,000.00) per annum.

(e) *Dependent Father and/or Mother*.<sup>112</sup> If the deceased member has no surviving

spouse or children eligible for pensions under this section, a *Pension* equal to one-sixth of the deceased member's final compensation shall be paid to the member's surviving dependent father and/or mother provided, that in no case shall either parent's *Pension* exceed fifty dollars (\$50.00) per month. Payment to a dependent parent or parents shall be contingent upon a finding by the Board of Trustees after investigation that such parent or parents were actually dependent upon said deceased member through a lack of earning power resulting from physical or mental disability.

(f) *Section 47-2-13 of this Code Applicable*.<sup>113</sup> The benefits provided in Section 47-2-7 of this Code shall be subject to Section 47-2-13 of this Code.

~~(g) A member shall neither earn any service credit nor accrue any credited service during the period of February 1, 2013 through January 31, 2014.~~

**Section 2.** All ordinances, or parts of ordinances, that conflict with this ordinance are repealed. The portions of Ordinance 11-13 repealed by this ordinance are repealed *ab initio*.

**Section 3.** This ordinance is declared necessary for the preservation of public peace, health, safety, and welfare of the People of the City of Detroit.

**Section 4.** If this ordinance is passed by a two-thirds (2/3) majority of the City Council Members serving, it shall be given immediate effect and become effective upon publication in accordance with Section 4-118, clause 1 of the 2012 Detroit City Charter. If this ordinance is passed by less than two-thirds (2/3) majority of the City Council Members serving, it shall become effective no later than thirty (30) days after enactment in accordance with Section 4-118, clause 2 of the 2012 Detroit City Charter.

### PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE

#### City Planning Commission

May 13, 2013

Honorable City Council:

Re: Amended Traditional Main Street Overlay district standards (Recommend Approval).

#### BACKGROUND

City Planning Commission (CPC) staff has been working with the staff of the Planning and Development Department (PDD) and community representatives to amend the provisions covering Traditional Main Street (TMS) overlay areas. These sections do not apply City-wide, with the exception of the allowance of an open adjacent alley counting toward a required off-street loading space and the ability of the City to waive the required screening between said alley and the business that seeks to use it. First approved on May 29, 2005 (Ordinance No. 20-05), TMS areas are defined as, "Certain commercial areas of the City (that) are, or have the potential to be, high quality, pedestrian-scale, walkable areas with a traditional urban atmosphere."

As developments in these areas have been reviewed (all developments within TMS areas undergo site plan review), it has become clear that certain provisions are unclear or not practical, while other provisions should be strengthened. Also proposed to be amended are the boundaries of the Grand Boulevard overlay area, allowed sign types, and gas station site design requirements.

#### PROPOSED AMENDMENTS

Following are the sections of the Zoning Ordinance to be amended and the proposed change.

*Sec. 61-6-34. Height; ground or free-standing signs.* The height of ground signs is limited to twelve (12) feet tall.

*Sec. 61-6-42. Roof signs.* Roof signs are prohibited.

*Sec. 61-6-49. Pylon signs.* Pylon signs are prohibited.

*Sec. 61-6-91, 61-6-101. Permitted signs.* Within TMS areas, new pole or pylon signs are prohibited.

*Sec. 61-11-311. Description.* The description of TMS overlay areas is changed to remove references to specific zoning districts and other changes.

*Sec. 61-11-312. Designated Traditional Main Street Overlay Areas.* The boundaries of the Grand Boulevard TMS overlay has been reduced from the area between the center line of Grand River Avenue and the center line of Saint Aubin Avenue to between Kipling/Sterling Avenues and the center line of Cameron Street.

*Sec. 61-11-332. Prohibitions and limitations.* For the area of West Grand Boulevard between Kipling/Sterling Avenues and Grand River West, parking, driveways, or loading areas shall not be located between new primary buildings and West Grand Boulevard. Parking, driveways, or loading areas shall be located to the site or the rear of the building.

*Sec. 61-12-198. Motor vehicle filling stations; ingress and egress.* Motor vehicle filling stations located on designated TMSs are limited to not more than two (2) driveways/curb cuts from the TMS.

*Sec. 61-12-200. Motor vehicle filling stations; screening and landscaping.* Along TMSs, circulation lanes and pump queuing lanes adjacent to sidewalks have to be screened with a five (5) foot landscaped buffer.

*Sec. 61-13-1, 21, 41, 61. Residential, Business, Industrial, and Special purpose zoning districts in general.* Dimensional standards are as specified in Article XIII except for those zoning lots located on a TMS.

*Sec. 61-13-93, 94, 95, 96. Motor vehicle filling station.* On a TMS, the lot width of a gas station cannot be wider than 120 feet and lot size cannot exceed 14,000 square feet. In addition, there cannot be more than two (2) pump islands. This is to minimize the size of non-pedestrian-oriented gas stations.

*Sec. 61-13-98. Motor vehicle filling station; building setback.* A building or structure for a motor vehicle filling station must be set back from any right of way, except for those on a TMS, in which case they shall be built on the front lot line. This fits with the character of the rest of the buildings in the TMS overlay area.

*Sec. 61-14-7. Off-street parking exemptions.* For retail, service, and commercial uses on a TMS, the maximum distance that off-street parking shall be provided from the principal use may be increased to 800 feet, if the applicant can show to the satisfaction of the PDD that a district approach to parking is being used in the TMS area. The requirements for a district approach to parking are detailed.

This increases the pedestrian activity in these areas and reduces vehicular traffic by promoting walking.

*Sec. 61-14-81. Off-street loading schedule and exemptions.* An open, adjacent alley may be credited toward one off-street loading space for retail, service, or commercial uses if access for loading into the building is available in the rear and the alley is not less than eighteen (18) feet wide. This is to allow businesses that traditionally used the alley for loading to again use it and avoid having to go the Board of Zoning Appeals to reuse a building that was built without off-street loading or to encourage denser development of new buildings. This as written would apply only to zoning lots located on a TMS. CPC feels that this should be applied on a City-wide basis.

*Sec. 61-14-103. Waiver of off-street parking requirements for uses or buildings minimally deficient.* In a TMS area, the PDD may waive the parking requirement for the first 3,000 square feet of a pedestrian-oriented retail, service, or commercial use, if it meets specified criteria for use design. This is in addition to the existing waiver for older buildings of fewer than 3,000 square feet.

*Sec. 61-14-113. Credit for public parking.* Within TMS areas, City of Detroit public parking lots within eight hundred (800) feet of the site proposed for occupancy may be used toward the required amount of off-street parking, and a shared parking agreement must be recorded with the City of Detroit Municipal Parking Department. This is to again encourage shared parking and reduce the amount of new parking that must be created.

*Sec. 61-14-222. Residential screening.* When the alley serves as the only direct access to parking or loading to the rear of a building, the PDD may waive or allow the required screening to be pierced as necessary. This as written would apply only to zoning lots located on a TMS. CPC feels that this should be applied on a City-wide basis.

*Sec. 61-14-281. Traditional Main Street overlay area; in general applicability and review.* The TMS standards apply to new construction and to any alteration that affects the exterior appearance of a building elevation visible from a public right-of-way or public space. Specifically, if 50% or more of a building's elevation is altered, the structure will be subject to all the TMS standards other than those that involve repositioning the building. If less than 50% of the building elevation subject to plan review is altered, only the proposed improvements must meet the TMS standards.

*Sec. 61-14-282. Site design standards: Building site relationship; placement and orientation.* Buildings in TMS areas must be placed on the front lot line,

with the exception of religious institutions, residential buildings, or restaurants with an outside dining area, which may have up to a ten foot setback. Previously, only restaurants were allowed the ten foot setback. On corner lots, buildings must be placed on the lot line of both streets.

*Sec. 61-14-283. Site design standards: Fencing.* Fences on a TMS are not allowed to exceed six (6) feet in height. Opaque fences or walls are not allowed to exceed three (3) feet in height, except as may be required for screening. Chain link fences are prohibited in TMS areas.

*Sec. 61-14-284. Building design: Style.* The prohibition on parking in front of a building is moved from this section to Section 61-14-299.

*Sec. 61-14-285. Building design standards: Massing, scale, and form.* The requirement that all stories above the third story be set back at least ten feet is removed. The requirement for building articulation in commercial buildings is moved to this section from Section 61-14-286.

*Sec. 61-14-286. Building design standards: Fenestration, Façade and architectural details.* The requirements for transparency are simplified to require a minimum of sixty percent (60%) of the street level façade between two (2) and eight (8) feet above the grade plane to be transparent windows and doors along TMSs major thoroughfares or secondary thoroughfares. The requirements for the façade of other buildings on lots abutting a Traditional Main Street that face a public street (other than a major or secondary thoroughfare) must have transparent windows or doors covering only forty percent (40%) or more of the façade between four (4) and eight (8) feet above the grade plane. Eighty percent of the transparent areas must be kept free of visual obstructions.

*Sec. 61-14-287. Building design standards; Transparency.* This section is renamed to "Building design standards; Drive-up and drive-through facilities." and the transparency requirements are moved to the previous section. This prohibits drive-up and drive-through facilities on zoning lots abutting a Traditional Main Street except where the PDD determines that the proposed development complies with all of the other requirements of the TMS standards and is, of course, allowed by the underlying zoning designation. Additionally, driveways or vehicle stacking areas cannot be located between the building and the TMS and no more than one (1) driveway/curb cut shall be allowed on the TMS.

*Sec. 61-14-288. Building design standards; Corner lot buildings.* For buildings located at the intersection of two TMSs or at the intersection of a TMS and a major thoroughfare, the primary active building

entrance of commercial buildings shall either be located at the corner of the two streets or two entrances shall be provided. The distinctive architectural features required are modified.

*Sec. 61-14-290. Building design standards; Materials.* Certain materials are now prohibited on façades facing a TMS, including vinyl or plywood siding and non-corrugated and highly reflective sheet metal. Exterior Insulation and Finish System (EIFS) can't be located within two (2) feet of the ground and must be trimmed in wood.

*Sec. 61-14-291. Building design standards; Color and finish.* Cleaning techniques are clarified. It is also specified that masonry, porcelain, brick, or stone buildings that are not currently painted should be left natural and should not be painted. The texture of concrete and stucco is specified to be smooth.

*Sec. 61-14-292. Building design standards; Awnings, canopies and marquees.* The maximum height for awnings was removed and the allowable material for awnings is clarified. Internally illuminated canopies, marquees and awnings, including gas station canopies, are prohibited.

*Sec. 61-14-293. Building design standards; Lighting.* Façade floodlighting is now allowed. Neon tubing around windows is prohibited, except in the Vernor/Springwells and Bagley/Vernor overlay areas.

*Sec. 61-14-294. Building design standards; Blank walls.* Blank walls are defined and prohibited to face a TMS. Allowed treatments, such as art or landscaping, of blank walls are specified.

*Sec. 61-14-295. Building design standards; Security roll-down doors and grilles.* Permanent grilles over windows or doors are prohibited.

*Sec. 61-14-296. Building design standards; Utilities, Service Areas, and Rooftop mechanical equipment.* Utility meters and other service utility apparatus shall be located and designed to not be visible to the public.

*Sec. 61-14-297. Building design standards; Architecturally and historically significant buildings; renovation, addition and maintenance of existing buildings.* The original building elements should be retained or replaced with identical material.

*Sec. 61-14-299. Parking design standards; parking areas.* The provision for parking on the side of the building is allowed for in certain instances. Off street parking areas must include a landscaped buffer area and a 30-36 inch high wall adjacent to the parking area. If the landscape buffer area can't be provided, a wall may be erected, at the discretion of the PDD.

*Sec. 61-14-300. Signage and communication elements design standards.*

Signage illumination is removed from this section, signage does not have to be located above doorways, and signage finishes are changed. New pole or pylon signs are prohibited and ground mounted monument signs are limited to a maximum height of twelve (12) feet. Specific provisions are added regarding projecting signs, such as distance above the ground and distance they can project over the sidewalk. Window sign regulations are reiterated from the Chapter 3, Article VII signage code, with the additional provision that not more than twenty percent of the window can be covered. Sign lighting is also regulated.

*Sec. 61-16-173.* Pylon and monument signs are defined.

#### **PUBLIC HEARING RESULTS AND FOLLOW-UP**

At the January 3, 2013 public hearing on this matter, members of the CPC discussed the proposed changes. The director of the Board of Zoning Appeals expressed concern regarding the proposed sole jurisdiction of the PDD to consider a waiver of a certain amount of off-street parking in Sec. 61-14-103(b)(1). In addition, five members of the public spoke and two letters were received. All were supportive. It was requested that the maximum 800 feet allowance for off-street parking in Sections 61-14-7 and 61-14-113 be increased to 1,000 feet. A request was made to involve the Traffic and Engineering Division (TED) of the Department of Public Works in the review of the proposed parking requirement changes. It was also requested that design guidelines be developed for the areas designated as Major Corridors (a separate undertaking from this). Other general concerns not directly related to the proposed ordinance were also expressed.

There does not appear to be a need for TED review of the proposed parking standards, as the parking standards should not impact the public streets where TED has jurisdiction. Regarding the standards for Major Corridors, the PDD has chosen to focus first on citywide design standards that will improve the appearance of all new buildings.

CPC staff was asked to answer several questions. The first was regarding how the 800-foot maximum distance for required off-street parking was developed. We looked at a number of cities that have implemented remote parking and district parking approaches to determine what kind of distances are used as well as, researching literature related to parking policy. Based on our research, anywhere from 500 to 1,320 feet could be used, The 1,320 feet is a quarter mile and that is generally agreed to be how far people are willing to comfortably walk to a bus stop or other service. Raleigh, NC, Charleston,

SC, and Los Angeles, CA are three cities we have specifically looked at, with distances allowed for remote parking ranging from 600 to 2,640 feet. We have gone back and forth between 800 feet and 1,000 feet and have had support for both with stakeholders and city staff.

The second question was for a map of and the linear distance of the TMS areas. The linear length is 20.2 miles for the TMS areas with the reduced W. Grand Blvd.

The third question was to review how green initiatives could be incorporated into the ordinance. Staff does not see opportunities for amendments to the ordinance at this time, nor was that an issue that was raised at the previous public or stakeholder meetings on these revisions. However, the community groups responsible for those areas could be encouraged to provide bike rack for example as a part of their ongoing streetscape improvements. Additionally, the shared parking encourages walking.

**ANALYSIS**

The proposed changes are generally in response to the input given by the community representatives of the various TMS areas, and the changes address issues that have arisen in reviews by city staff of projects within the TMS areas. Some things, like the removal of the required setback of upper stories, strengthen the continuity of street wall. The amendments improve the pedestrian character of the TMS areas, strengthening walkability. The character of the TMS areas will be enhanced by lower signs and reduced parking on the TMS. The recommended changes are presented in response to comments made at the public hearing.

**RECOMMENDATION**

On January 17, 2013, the CPC recommended the approval of the requested text amendment, with the following changes as brought forward at the January 3rd public hearing.

1. Sec. 61-14-103(b)(1) be revised so that the last sentence reads "The Planning and Development Department shall have ~~sole authority to consider such waiver, ensuring that the waiver will not be injurious to the adjacent or surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation.~~"

2. Sec. 61-14-7 be revised to state that 1,000 feet instead of 800 feet is the maximum distance that required off-street parking can be provided if certain conditions are met.

3. Sec. 61-14-113 be revised to state that 1,000 feet instead of 800 feet is the maximum distance that a public parking lot can be used as credit towards the required off-street parking requirement.

4. Secs. 61-14-81 and 61-81-222 apply on a citywide basis.

5. Sec. 61-14-295 be clarified that the

prohibition on permanent grilles over doors and windows applies only to the exterior.

6. Sec. 61-12-201 be amended to state that for gas stations located on a TMS, the building rather than a landscaped area must be placed at the corner.

7. Sec. 61-12-20 be amended to clarify that internally illuminated gas station canopies are prohibited when located on a zoning lot abutting a TMS.

8. Sec. 61-13-93 be amended to say that the maximum number of pump islands is four instead of the two currently proposed and that the maximum lot size for a gas station located on TMS is 16,000 square feet.

Respectfully submitted,  
MARCELL R. TODD, JR.  
Director

**Subdivision B. Traditional Main Street Overlay Areas.**

**Sec. 61-11-311. Description.**

Certain commercial areas of the City are, or have the potential to be, high quality, pedestrian-scale, walkable areas with a traditional urban atmosphere. Areas designated by City Council as Traditional Main Street Overlay Areas are listed in Sec. 61-11-312 of this Code. ~~Such areas are typically zoned B5 or B2, although commercial areas zoned B4 or in other district classifications may be suitable for designation as traditional Main Street Overlay Areas.~~

Development within Traditional Main Street Overlay Areas should be geared, as much as possible, toward street-level pedestrian-generating uses. Ground level treatment of buildings should be pedestrian scale. ~~Parking areas, alleys, and small streets should be designed as integral parts of a pedestrian network. Distinctive landscaping, attractive street furniture, and a well designed signage system should enhance pedestrian activities.~~

Designated Traditional Main Street Overlay Areas are subject to additional development standards as specified in Sec. 61-14-281 through Sec. 61-14-300 of this Code in order to address pedestrian needs and to enhance pedestrian interest, access, and enjoyment.

**Sec. 61-13-98. Motor vehicle filling station; building setback.**

Any building or structure for a motor vehicle filling station shall be set back a minimum of forty (40) feet from all street right-of-way lines, and a minimum of ten (10) feet from all property lines that abut any residential or residential Planned Development (PD) or Transitional Industrial (TM) District. This setback requirement does not apply to buildings or structures located on zoning lots abutting a Traditional Main Street, where principal buildings or structures shall be built to the front lot line. This provision shall not apply to fuel pumps and pump islands, attached or detached canopies, compressed air connections, and similar equipment.

**ARTICLE XIV. GENERAL DEVELOPMENT STANDARDS  
DIVISION 1. OFF-STREET PARKING, LOADING AND ACCESS  
Subdivision A. In General  
Sec. 61-14-7. Off-street parking exemptions.**

The following exemptions to the off-street parking requirements shall apply:

(1) Uses in the B5 and PC districts and in any other district in the Central Business District area shall be exempt from the off-street parking requirements of ARTICLE XIV, DIVISION 1, Subdivision B and Subdivision C of this Chapter;

(2) For retail, service, and commercial uses on zoning lots abutting a Traditional Main Street, the maximum distance that

off-street parking shall be provided from the principal use specified in Article XIV, Subdivision B, may be increased to one thousand three hundred and twenty (1,320) feet where the applicant can show to the satisfaction of the Planning and Development Department that a "district approach" to parking is being used in the Traditional Main Street Overlay Area. To show a district approach to parking; the applicant shall provide the following:

(a) A signage plan to show how the business will direct customers and employees to the off-site parking lot including parking signage and wayfinding;

(b) A plan for who will manage and maintain the off-site parking facility, including safety and security measures;

(c) Where the parking area or parking structure is owned by someone other than the applicant, a shared parking agreement shall be required according to Sec. 61-14-106 and Sec. 61-14-109 of this Code.

(23) No additional off-street parking, beyond that already provided, shall be required for structures, other than religious institutions, erected prior to April 9, 1998 that have three thousand (3,000) or fewer square feet of gross floor area; and

(24) When a use located in a structure erected prior to April 9, 1998 expands into an existing adjacent structure erected prior to April 9, 1998 and the total gross floor area of the combined structures is not more than four thousand (4,000) square feet, no additional off-street parking shall be required.

**Subdivision D. Off-Street Loading**  
**Sec. 61-14-81. Off-street loading schedule and exemptions.**

(a) Off-street loading spaces shall be provided on the same zoning lot in accordance with the following schedule and with ARTICLE XIV, DIVISION 1, Subdivision J of this Chapter. An open, adjacent alley may be credited toward one off-street loading space for retail, service, or commercial uses if access for loading into the building is available in the rear and the alley is not less than eighteen (18) feet wide.

(b) The following uses shall be exempt from off-street loading requirements: Docks (water-related facilities); major and minor motor vehicle services, and outdoor recreation uses.

**Subdivision F. Waivers and Alternative Parking Plans**  
**Sec. 61-14-103. Waiver of off-street parking requirements for uses or buildings minimally deficient.**

(a) *In General*

(1) Where the Buildings, and Safety Engineering and Environmental Department determines that 1) a building or use requires no variance or other action under the jurisdiction of the Board of Zoning Appeals and 2) the building or use can

provide at least eighty percent (80%) of the required off-street parking spaces, then, upon request of the petitioner and in conjunction with the Municipal Parking Department and the Department of Public Works, Traffic Engineering Division, the department may grant a waiver of the off-street parking requirements, not exceeding ten (10) parking spaces. Such waiver shall not be granted unless, in the judgment of the Buildings, and Safety Engineering and Environmental Department, with the sign-off of the Municipal Parking Department and the Department of Public Works, Traffic Engineering Division, the waiver of the parking requirement for the building or use involved is not injurious to the adjacent or surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation. However, in those instances where a building or use is subject to Site Plan Review, the Planning and Development Department has sole authority to consider such waiver.

(b) *Traditional Main Street Overlay Areas.*

(1) *Applicability.* In addition to the parking waiver granted for buildings under three thousand (3,000) square feet per Sec. 61-14-7(2) of this Code, in a Traditional Main Street overlay area, as provided in Sec. 61-11-312, the Planning and Development Department may grant a waiver of the off-street parking requirements, not exceeding ten (10) parking spaces, where the building or use, other than a use within the vehicle repair and service use category, as provided in Sec. 61-12-52, can provide at least fifty percent (50%) of the required off-street parking spaces, for the first three thousand (3,000) square feet of pedestrian-oriented retail, service, or commercial uses. The Planning and Development Department shall have authority to consider such waiver, in the same Subsection (a) of this section, with the sign off of the Municipal Parking Department and the Department of Public Works, Traffic Engineering Division ensuring that the waiver will not be injurious to the adjacent or surrounding areas by creating or increasing traffic congestion or by disrupting traffic circulation.

(2) *Eligibility.* In order to qualify for the waiver, the following criteria shall be met:

(A) The pedestrian-oriented use shall fall into one of the following use categories:

(i) Sec. 61-12-43, Food and beverage service;

(ii) Sec. 61-12-50, Retail sales and service; sales-oriented; and

(iii) Sec. 61-12-51, Retail sales and service; service-oriented except motor vehicle sales, motorcycles sales, and any use with drive-up or drive-through facilities.

(B) New buildings must comply with all of the requirements in the Traditional Main Street Overlay standards.

(C) New uses in existing buildings shall be eligible for this waiver only if, at a minimum, the building complies with the following standards from DIVISION 3, Subdivision C of this article:

**Sec. 61-14-113. Credit for public parking.**

Where City of Detroit public parking lots directly abut or are within one hundred (100) feet of a site that is proposed for occupancy, such City of Detroit public parking areas may be credited to the amount of off-street parking required by this article, provided, that no other land use has claimed credit for the same City of Detroit public parking lot. In Traditional Main Street Overlay Areas, City of Detroit public parking lots within one thousand three hundred and twenty (1,320) feet of the site proposed for occupancy may be used toward the required amount of off-street parking. A shared parking agreement shall be duly recorded with the City of Detroit Municipal Parking Department.

**DIVISION 2. LANDSCAPING, SCREENING AND FENCING**

**Subdivision C. Landscaping and Screening of Off-Street Parking Areas. Sec. 61-14-222. Resident screening.**

Screening from land zoned residential shall be provided as follows:

(1) *Abutting Residentially Zoned Lots Containing Dwelling Units.*

(a) Where a zoning lot that has a dwelling unit on land zoned R1, R2, R3, R4, R5, R6, or residential PD and abuts, or is located across an alley or public street not exceeding sixty (60) feet in width from, a parking area visible from the residential lot, an opaque wall shall be placed at the edge of the parking area to screen the parking area.

Opaque screening, such as the following, is acceptable:

- (i) A brick wall;

- (ii) A masonry wall with brick facing;
- (iii) A masonry wall with decorative metal fence topping;

- (iv) A concrete wall with brick design;
- (v) A stone wall; or

- (vi) Other opaque wall which, in the determination of the Planning and Development Department, is both suitable for the site and compatible with, and similar to, the building frontages nearest the parking area.

(b) The nearest parking space, drive aisle, or other paved surface within the parking area shall be located at least ten (10) feet from the abutting residential lot. Said setback area shall be landscaped. (See Figure 61-14-222.)

(2) *Abutting Vacant, Residentially Zoned Lots.*

(a) Where a vacant lot on land zoned R1, R2, R3, R4, R5, R6, or residential PD abuts, or is located across an alley or public street not exceeding sixty (60) feet in width from, a parking area visible from the residential lot, an opaque wall, that is placed at the edge of the parking area, is required to screen the parking area. Opaque screening, such as the following, is acceptable:

- (i) A brick wall;
- (ii) A masonry wall with brick facing;
- (iii) A masonry wall with decorative metal fence topping;

- (iv) A concrete wall with brick design;
- (v) A stone wall; or

- (vi) Other opaque wall which, in the determination of the Planning and Development Department, is both suitable for the site and compatible with, and similar to, the building frontages nearest the parking area.

(b) The nearest parking space, drive aisle, or other paved surface within the parking area shall be located at least five (5) feet from the abutting residential lot. Said setback area shall be landscaped.

(3) *Wall Specifications.* All walls or fences that are required under this section shall be at least four (4) feet in height, with a maximum height of six (6) feet, as measured from the surface of the parking area. Walls and fences shall be maintained in a neat and orderly appearance at all times, and shall have only such openings as are required for ingress and egress.

(4) *Exception.* Where the alley serves as the only direct access to the parking spaces, such as where parking spaces are located between a building wall and the alley, or where the alley provides the required off-street loading area, and the Planning and Development Department determines that the placement of screening would prevent access to the parking spaces or loading area, the Department may waive the screening or allow it to be pierced as necessary.

**DIVISION 3. ARCHITECTURAL AND  
SITE DESIGN STANDARDS**

**Subdivision C. Traditional Main Street  
Overlay Areas**

**Sec. 61-14-281. Traditional Main Street  
overlay area; in general applicability  
and design review.**

**(a) Applicability.**

(1) The requirements of this subdivision apply to any new development within the "Traditional Main Street Overlay Area," as designated in ARTICLE XI, DIVISION 14, Subdivision B of this Chapter.

(2) Alteration of any structure within the Traditional Main Street Overlay that affects the exterior appearance of a building elevation visible from a public right-of-way or public space shall be subject to design review by the Planning and Development Department under the design standards of this subdivision. While the City of Detroit may benefit if all the design standards of this subdivision were met where existing properties are altered, such a strict application of the design standards might disadvantage property owners or discourage them from improving their buildings. The recommended solution is to establish two thresholds to gauge the extent of remodeling and set requirements based on what is practical and reasonable for that level of improvement.

(A) If fifty percent (50%) or more of an elevation of a building or structure subject to design review is altered, the building or structure shall be subject to the applicable requirements that do not involve repositioning the building or structure or reconfiguring site development as determined by the Planning and Development Department;

(B) If less than fifty percent (50%) of an elevation of a building or structure subject to design review is altered, the requirements meet the applicable standards of this subdivision; for example, if a property owner decides to replace a building façade's siding, then the siding shall meet the applicable exterior building materials standards, but elements such as building modulation would not be required.

(3) For the purpose of this subdivision, the word "Commercial" shall mean retail, service, and commercial uses listed in Article XII, Division 1, Subdivision D, Retail, Service, and Commercial Uses.

(b) **Design Review.** The Buildings, and Safety Engineering and Environmental Department shall not approve a permit application for any work relating to a zoning lot within a Traditional Main Street Overlay Area, unless the Planning and Development Department has verified that such work is consistent with design standards of this subdivision.

**Sec. 61-14-282. Site design standards;**

**Building site relationship; placement and orientation.**

(a) The objectives of this section are:

(1) To line streets with buildings and/or other architectural site features in order to create a pedestrian friendly built-environment; and

(2) To create a pedestrian-friendly setting that directly relates buildings and active uses such as shopping and dining to the street, and maintains the continuity of street wall.

(b) To achieve the objectives of this section, all the following standards shall apply:

(1) ~~The new building footprint shall be placed on the front lot line~~ Notwithstanding the front yard setback requirements in ARTICLE XIII, DIVISION 1, the front façade of buildings shall be placed on the lot line facing the Traditional Main Street. A setback, which does not exceed ten (10) feet, may be provided for religious institutions, residential buildings, or restaurants with an outside dining area; the area between the façade and the lot line shall feature pedestrian-oriented space (such as plaza or widened sidewalk) or landscaping that consists of a combination of groundcover, shrubs and/or trees that provide seasonal interest; the landscaping shall be designed so that visibility is maintained between the street and the ground floor windows;

(2) ~~Notwithstanding the provisions of Subsection (b)(1) of this section, a setback, which does not exceed ten (10) feet, may be provided for a restaurant outside dining area~~ On corner lots, buildings shall be located at the corner, placed on the lot line of both streets. (See also Sec. 61-14-288. Building design standards: Corner lot buildings and Sec. 61-14-299. Parking design standards: parking areas); and.

(3) ~~The new building footprint and façade shall be located parallel to the street system in order to continue the prevalent urban form of this neighborhood commercial district.~~

**Sec. 61-14-283. Site design standards;  
Fencing.**

(a) The objective of this section is to promote the perception of Traditional Main Street Overlay areas as safe commercial areas.

(b) To achieve the objective of this section, all the following standards shall apply:

(1) The use of barbed wire is not permitted for any residential use, for any public, civic, and institutional use, or for any retail, service, and commercial use that is listed in the use table of ARTICLE XII, DIVISION 1 of this Chapter;

(2) No fence facing a Traditional Main Street shall exceed ~~eight (8)~~ six (6) feet in height. Opaque fences or walls facing a

Traditional Main Street shall not exceed three (3) feet in height, except as specified for screening purposes according to Sec. 61-14-242; and

(3) Chain link fences are prohibited facing a Traditional Main Street.

**Sec. 61-14-284. Building design: Style.**

~~In designated pedestrian retail areas, no parking may be placed between the façade of a primary structure and the street.~~ In support of the standards of this subdivision, it is the policy of the City to encourage design styles that are dominant and representative of, and relevant to, the architectural history, culture, and regional significance of the area without compromising innovative and contemporary interpretation of these styles.

**Sec. 61-14-285. Building design standards: Massing, scale, and form.**

~~(2) In order to create a uniform street wall, buildings that exceed three (3) stories shall have a building base which does not exceed forty (40) feet. The building base is a podium on which the taller section of the building would be set back at least ten (10) feet from the building base height to rise to not more than the maximum height specified in ARTICLE XIII of this Chapter; and~~

(2) For building containing a commercial use, the typical traditional building width of twenty (20) feet to a maximum of forty (40) feet shall be expressed with a minimum of one (1) of the following architectural articulation and traditional façade elements that are repeated every twenty (20) to forty (40) feet, including, but not limited to, the following:

Honorable City Council:

Re: Petition No. 2700 — Temple Plaza Inc., d/b/a Loco's for Outdoor Café Permit at 454 Beaubien.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on city right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three (3) years, from the date of your Honorable Body's approval.

Respectfully submitted,

Honorable City Council:

Re: Review and Approval of Neighborhood Stabilization Program III ("NSP 3") Awards.

As you are aware, the City of Detroit received from the U.S. Department of Housing & Urban Development ("HUD") an allocation of NSP III funds in the amount of \$21,992,710. Your Honorable Body previously approved acceptance of the grant, authorized P&DD to proceed with grant implementation and authorized a modification to the 2010-11 Consolidated Plan to modify the original budget and expand the original target areas.

In July, 2012, P&DD issued a Request for Proposals/Qualifications to solicit eligible projects and development partners to receive NSP III funds. Proposals were ranked for feasibility, developer capacity, readiness to proceed and impact on the target neighborhoods and local housing market. P&DD staff, with consultation from the HUD TA providers, the Cloudburst Group, interviewed applicants and evaluated responses based on the established criteria. Sixteen responses were received and seven (7) developers

met the criteria to receive designation as qualified developers.

P&DD is now prepared to advance the selected projects so they can close on the funding and proceed with construction in an effort to timely expend the funds by the March 2014 deadline. As such, the Department is requesting that your Honorable Body review and approve the attached list which contains the amounts and housing units associated with each project.

With the approval of this request, the City will be investing approximately \$14,000,000 and producing over 96 units of quality affordable housing in Detroit neighborhoods. We request approval of the attached resolution with a waiver of reconsideration so project implementation can begin immediately. Should you have questions or require additional information, please do not hesitate to contact me.

Respectfully submitted,  
MARJA M. WINTERS  
Deputy Director

By Council Member Jenkins:

Whereas, The City of Detroit received an allocation of NSP III funds from the U.S. Department of Housing & Urban Development through the Planning & Development Department for the purpose of reversing the decline in Detroit neighborhoods caused by the foreclosure crisis; and

Whereas, The Detroit City Council authorized the Planning & Development Department to accept and utilize the NSP III funds according to applicable HUD regulations and other federal, state and local requirements; and

Whereas, The Detroit City Council also authorized the Budget Director to appropriate NSP III funds and to establish appropriation numbers; and

Whereas, The Finance Director was also authorized to establish necessary accounts, honor vouchers and payrolls in accordance with the Planning & Development Department requests and HUD regulations.

Now, Therefore Be It

Resolved, That the Detroit City Council approves NSP III loans and/or grants in the amounts indicated on the attached lists; provided the noted loan amounts may not vary more than 10%; and

Be It Finally

Resolved, That the Planning and Development Department Director, or his designee, is authorized to process, prepare and execute all loan and grant documents required to close, secure and utilize NSP III funds according to HUD regulations for the approved list of developers and borrowers.

**A RESOLUTION TO HELP PRESERVE DAVIS AEROSPACE TECHNICAL HIGH SCHOOL**

By Council Member Andre L. Spivey and Council Member JoAnn Watson:

Whereas, The Benjamin O. Davis Aerospace Technical High School, established in 1943 as Aeromechanics High School, is a unique and specialized Detroit Public School that provides an extraordinary opportunity for high school students, grades 9-12, who are interested in and have a passion for aviation; and

Whereas, Davis Aerospace is one of a few exceptional schools in the United States, and the only public school in the State of Michigan, that has an approved Federal Aviation Administration (FAA) curriculum and testing facility; and

Whereas, Davis Aerospace is located on the grounds of the Coleman A. Young International Airport named after Detroit's first African American Mayor and an original Tuskegee Airman. Davis has an in-house fleet of aircrafts that are operated and serviced by its students and staff. It also provides a rigorous and challenging academic core curriculum aligned with (STEM) Science, Technology, Engineering and Mathematics; and

Whereas, Unfortunately, the school is facing a dire challenge. The DPS Emergency Financial Manager, Roy Roberts, has identified Davis Aerospace Technical High School for relocation to the Golightly Education Center. The relocation of the program will marginalize the program to the extent that maintaining it will not be a viable option. Now, Therefore Be It

Resolved, That the members of the Detroit City Council highly urge all essential parties including: School Administrators, members of the Detroit School Board, and the Emergency Manager, Roy Roberts come together to develop a viable solution that will allow for classes to remain at the current location of Davis Aerospace Technical high School inside of the Coleman A. Young International Airport. We believe that the educational experience of Davis students would suffer irreparable harm if such a move is forced upon them.

**RESOLUTION  
ENCOURAGING THE DETROIT  
TRANSPORTATION CORPORATION  
TO INCREASE THE DETROIT PEOPLE  
MOVER FARE**

By COUNCIL MEMBER BROWN:

WHEREAS, The Detroit Transportation Corporation (DTC) owns and operates

the Detroit People Mover (DPM), a valued service to the downtown community in particular, and the City as a whole; and

WHEREAS, The People Mover's operations have been funded, in large part, by an annual subsidy from the City of Detroit, grant funds pursuant to Michigan Public Act 51 of 1951, advertising revenue, and customer fares; and

WHEREAS, The City's ongoing, and deepening, fiscal challenges have resulted in repeated cuts to the City's subsidy to the DPM, prompting the DTC board to implement a twenty-five cent increase to the individual fare in 2011, bringing the fare to seventy-five cents; and

WHEREAS, The DTC has requested an operating subsidy from the City of Detroit for fiscal year 2013/2014 of \$6.5 million; however, City Council has indicated its intent to adopt the Mayor's recommendation of a \$4.5 million subsidy, an amount which the DTC indicates will only partial fund People Mover's operations for the upcoming fiscal year; and

WHEREAS, Amidst the severe reduction to the City's available operating funds during this budget cycle, City Council is unable to further fund the DTC for fiscal year 2013/2014, but recommends that DTC's Board of Directors initiate its process to raise the fare another twenty-five cents, which has been estimated to bring an additional revenue of \$500,000.00 annually to fund its operations; NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly encourages the Board of Directors of the Detroit Transportation Corporation to begin the process of proposing and implementing an additional fare increase to augment the DPM's annual budget and at least partially recoup its anticipated revenue shortfall; AND BE IT FURTHER

RESOLVED, That the Detroit City Council directs the City Clerk to send a certified copy of this approved resolution to the Detroit Transportation Corporation and Mayor Dave Bing.

Adopted as follows:

Yeas — Council Members Brown, Cockrel, Jr., Jenkins, Jones, Spivey, Tate, Watson, and President Pugh — 8.

Nays — None.

And the Council then adjourned.

## Budget Department

May 23, 2013

Honorable City Council:

Re: Correction of Errors to the 2013-2014 Mayor's Budget.

After further review of the 2013-2014 Budget submitted on April 12, 2013, errors and amendments have been discovered which should be corrected. There are two categories of corrections. First, there are "substantive" errors, which must be corrected as an amendment to the Recommended Budget. Second, there may have been typographic and/or data entry errors, which do not affect appropriation totals or budget balancing. The "substantive" corrections are identified with (\*), and will be addressed in the attached resolution.

Honorable City Council:

Re: Schedule B and Itemization of Council Changes to the Mayor's 2013-2014 Proposed Budget.

Attached is the voting schedule B for Council action on the 2013-2014 Mayor's recommended budget.

Schedule B lists Council's amendments by agency and appropriation to the Mayor's recommended budget excluding the Block Grant. These changes, in conjunction with the Mayor's recommended budget, reflect Council's priorities for the 2013-2014 Budget.

The Council has recognized that the Mayor's Budget includes health care savings that begin in January and believe they should be implemented by October. By recognizing that implementation as well as maintaining subsidies to cultural institutions at the current year's amounts, the prior year's Deficit Appropriation was increased from zero to \$6.5 million.

Respectfully submitted,  
IRVIN CORLEY, JR.  
Director

**THE DETROIT CITY COUNCIL  
2013-2014 FINANCIAL AND BUDGETARY PRIORITIES,  
PUBLIC POLICY, PLANNING AND ACTION RESOLUTION**

By ALL COUNCIL MEMBERS:

WHEREAS, The Detroit City Council has held hearings and deliberations on the 2013-2014 Executive Budget as prepared by the Honorable Mayor Dave Bing; and

WHEREAS, City Council is required by law to complete its budget deliberations and submit its final determination to the Mayor no later than May 24, 2013; and

WHEREAS, On March 28, 2013, Mr. Kevyn Orr was appointed by the Local Emergency Financial Assistance Loan Board as the Emergency Manager for the City of Detroit under Public Act 436 of 2012 to restore the City's financial stability and bring about structural changes within the City's financial balance sheet, and within its operations and programs so as to dramatically reduce the City's long-term structural deficit and the cost of government going forward; and

WHEREAS, Section 11(2) of Public Act 436 of 2012 requires the Emergency Manager to submit a financial and operating plan to the State Treasurer. On May 12, 2013, the Emergency Manager presented a preliminary report to the State that outlines the City's financial distress and the City's inability to sustain its current public service delivery model and that a complete restructuring of the City's finances and operations are warranted to allow the City to regain its footing and return to a path of prosperity. The Emergency Manager's report was delivered and considered during City Council's proceedings; the report, by its terms was preliminary with very few specific details to guide Council in its budget deliberations; and

WHEREAS, Consistent with Sec. 8-213 of the 2012 City Charter and the Financial Stability Agreement (FSA) adopted by City Council on April 4, 2012, the City's Chief Financial Officer, Finance and Budget Directors, the Auditor General, City Council's Fiscal Analysis Division, the Board Chair of the Financial Advisory Board (FAB), along with other top officials in the Bing Administration held a revenue estimating conference which determined reasonable, agreed-upon revenue projections for the major general fund revenues for the upcoming fiscal year of \$1.1 billion; this figure sets a hardened ceiling on general fund appropriation and serves as the basis for this year's budget; and

WHEREAS, City Council, as in years past, approached this budget process taking into consideration the City's current fiscal climate, the sharp increase in legacy costs, the need to address the accumulated deficit, as well as, declining revenues received from all major revenue sources including state revenue sharing, property taxes, income taxes, interest earnings, utility user tax and casino gaming revenues. City Council also considered system wide cuts and in some instances permanent cuts which have been instituted by the Administration that have included both a reduction in workforce, employee wages and hours, and City services; and

WHEREAS, The Mayor has included in his proposed budget an additional \$900,000 in revenues that were not included in the revenues approved during the revenue consensus process; those additional revenues will have to be approved by the Financial Advisory Board for inclusion in the Budget pursuant to the FSA; and

WHEREAS, In formulating the spending plan for the 2013-14 fiscal year, the Mayor has submitted a proposed budget of \$2.56 billion which includes a general fund budget of \$1.12 billion, representing a \$30 million reduction from the current fiscal year's budget. The Mayor's proposed budget also included a reduction of 114 general fund full-time employee (FTE) positions; and

WHEREAS, The Auditor General and City Council's Fiscal Analysis Division has determined that the City's accumulated deficit is approximately \$380 million which includes a net operating deficit for the current year of \$51.4 million and that funds originally set aside in the 2012-13 budget to pay down the accumulated deficit had to be reprogrammed to pay for current operational costs. The 2013-14 Executive Budget presented by the Mayor did not acknowledge the accumulated deficit; and

WHEREAS, City Council has added an appropriation of \$380 million to reflect the estimated accumulated deficit and has made changes that allows \$6.5 million to be appropriated to reduce the accumulated deficit; and

WHEREAS, City Council, its Fiscal Analyst Division, the Auditor General and other legislative staff have studied the Executive Budget focusing primarily on the general fund budget. Utilizing conservative revenue projections, making careful assessments of necessary 'core' services that the City provides for the well-being and quality of life for the residents of Detroit, and employing legal and fiscally sound accounting principles per the 2012 Charter and State law, City Council has determined, after reviewing anticipated revenues and expenditures, amendments to the Mayor's proposed 2013-14 Budget are necessary and are reflected throughout this resolution; and

WHEREAS, City Council recognizes that reductions in city services, and employee compensation and benefits cannot alone accomplish a balanced budget nor will this course lead to a safer or more livable city; therefore, every effort must be made to incorporate plans to restructure City government through departmental and program con-

solidations and efficiencies that lessen the impact on the general fund by pursuing additional grant opportunities and additionally by partnering with non-profits and outside agencies to provide services to City residents in a more cost-effective manner; and

WHEREAS, City Council unequivocally believes that the fundamental key to avoiding a catastrophic failure in city services is the restructuring of governmental operations. As such, the City has engaged multiple consulting firms to aid in this work at a sum totaling over \$14 million; the State of Michigan has agreed to pay for fifty percent (50%) of the cost of these consultants. This payment should be shown as a revenue item in the City's budget and should not be paid for out of the \$70 million being held by the State from the proceeds of the \$137 million bond sale, which funds risk management; and

WHEREAS, Consultants are in place to develop a comprehensive restructuring plan for the City which consists of substantial data being gathered and organized and various critical financial operations analyzed. City Council strongly requests that the legislative branch be regularly kept abreast of the recommendations being submitted by these professional advisors. These retained restructuring firms have not to date produced or made available to City Council their final work product to aid in the development of the budget that this Council considers; and

WHEREAS, City Council recognizes that the City's current pension and health benefit obligations are structurally unsustainable; accordingly, City Council supports immediate and meaningful changes that will enable the City to move forward in a more fiscally stable position such as the implementation of the 70/30 cost sharing formula for employee medical benefits and introduction of an ordinance amendment to Chapter 47 of the 1984 Detroit City Code, *Retirement Systems*, in which the pension accrual multiplier is zero percent for one year for all employees; and

WHEREAS, It has been repeatedly acknowledged by the EM, Mayor Bing, City Council, the newly appointed Police Chief and all others considering the question, that public safety needs of the city's residents and visitors alike are paramount and must be given the highest funding priority. As such, City Council urges the Police Department to aggressively effectuate the civilianization of the Police Department forthwith thereby making available additional officers and dollars that may be utilized to put more officers on the street; and

WHEREAS, Recognizing the importance of government access channels for its citizens to view what is taking place in City government and consistent with the 2012 Charter, City Council has transferred the operations of its Legislative Media Division to the Executive branch. It is further anticipated that employees currently serving in this capacity will be afforded an opportunity to continue in these positions throughout this transition; and

WHEREAS, The Board of Review serves a vital function to residents due to the declining real estate economy and diminishing resources available to property owners, the number of individuals appearing before the Board has grown exponentially in the past years, as a result, City Council has maintained funding for this important legislative function in the amount of \$250,000 although some effort must be explored to determine the feasibility of City Council resuming this function as a further cost saving measure; and

WHEREAS, In an effort to more accurately reflect the departmental budgets of City Council, Mayor's Office, and the City Clerk's Office, City Council strongly recommends a new appropriation within Non-Departmental to capture the salary and benefit cost associated with these offices only. This appropriation will include the eleven (11) elected officials within Detroit city government; and

WHEREAS, City Council recognizes the significant environmental and economic benefits associated with recycling. Currently, the City offers the recycling program in limited areas in the city through a pilot program. However, the time has come to provide this service to all residents, therefore, the Body urges the Department of Public Works to pursue additional funding and grant opportunities from the State of Michigan to assist in this endeavor and to explore all avenues open to maximize the revenue potential of this recycled waste; and

WHEREAS, The Mayor's proposed budget includes two (2) Deputy Director positions within the Finance Department. City Council recognizes the essential role of this department in regards to purchases, payments, payroll, pension administration, risk management, and debt management for the City of Detroit and the need for additional management staff. However, the 2012 Charter does not permit the duplicate appointments. This Body strongly recommends the Administration rename one of these positions under a different classified title; and

WHEREAS, Income tax revenue makes up a significant portion of the City's General Fund; the City's income tax system is currently in dire need of technological improvements to make the collection of those revenues more efficient and less costly. As such, the City should make these improvements a priority in the City's restructuring plan. Additionally, the State has indicated that it is willing to assist the City in these efforts; therefore, any and all necessary legislative enactments and financial assistance from the State should be sought and a time table or agreed upon benchmarks created so that these needed reforms occur during this coming fiscal year; and

WHEREAS, The FSA addresses and the EM has expressed some interest in consolidating certain functions of the Planning & Development Department, the Detroit Economic Growth Corporation, Buildings Safety Engineering & Environmental, City Planning Commission and Board of Zoning Appeals to achieve an economy of scope; City Council strongly recommends that a working group be convened to thoroughly examine the proposed changes to ensure that all critical checks and balances are maintained when land use, sale, zoning and management within the City's jurisdiction or control is at issue and that all applicable state and local laws are considered and followed in a manner that best serves the interest of the City and its residents; and

Whereas, City Council recognizes that leadership in these austere economic times requires that elected officials initiate reduction in the expenditures of their own appropriation, and to that end implemented a reorganization of City Council that include significant budget reductions that exceed the proposed executive budget. As a result, City Council has reduced its 2013-14 budget by approximately 33% or \$3.7 million; and

WHEREAS, City Council reduces the Mayor's Office budget by an additional \$1.6 million. This translates into a 33% overall reduction in the operations of the Mayor's Office which was arrived at to match the percentage that City Council accepted for its own budget; and

WHEREAS, Given the tenuous nature of the City's finances while recognizing the important role the cultural institutions play, City Council maintained the subsidies at their current levels. In light of the austere times that City will likely face for the foreseeable future, City Council encourages the cultural institutions to formalize plans to re-invent the manner in which they conduct their operations and reduce the reliance on subsidies that cannot be guaranteed in the future; and

WHEREAS, The Recreation Department serves the recreational needs of residents by providing a positive environment that encourages physical activity at both indoor and outdoor locations throughout the City. However, due to the City's budget deficit the resources to fund the department at past appropriation levels are not available. Council therefore recommends that the Administration consider the prospect of merging the Recreation Department and the General Services Department (GSD) to alleviate various operational costs; and

WHEREAS, Recreation centers provide City residents, particularly our seniors and youth, with organized programs and activities and a safe place to engage in such recreational activities in the City of Detroit. City Council supports the Administration's continued efforts to raise funds to maintain the continued operation of the City's recreational programs; and

WHEREAS, Over the past several years, the City has received authorization from the electorate to sell general obligation bonds for various capital improvement needs throughout City government; it has been determined that funds are available from those bond proceeds to use for recreational purposes and that a portion of those funds should be dedicated primarily for improvements to Belle Isle Park, given the importance of this park to the city; and

WHEREAS, The Public Lighting Authority (PLA) has been recently approved to do much needed upgrades to the City's lighting system; the enabling legislation, P.A. 392 of 2012, authorized \$12.5 million in funding from the City's allocation of Utility Users' Tax to be used for the Authority's efforts. This \$12.5 million revenue allocation is placed in the Public Lighting Department's (PLD) budget; however, an accompanying appropriation is needed to allow those funds to be properly transferred to the Authority; and

WHEREAS, Given the overlap in subject area and services to be provided as contemplated between the Public Lighting Authority and Public Lighting Department, there needs to be a Memorandum of Understanding proffered to clarify the lines of demarcation between what activities will be undertaken by PLD and PLA, respectively, in the area of street lighting. Specifically, there needs to be some clarification offered regarding the entities' budgets; it is unclear whether PLD's budget for the department's activities should be \$14 million and the budget for PLA's activities should be \$12.5 million for a total of \$26.5 million or whether \$12.5 million of the \$14 million PLD's budget should be transferred to PLA; and

WHEREAS, The Coleman A. Young Municipal Airport is a revenue generating opportunity for the City and attracting a major carrier to operate at the airport will certainly accelerate the growth of Detroit as a commercial and industrial transportation center. City Council urges the management at the Airport Department to develop a viable plan for future funding and continued operations of the airport and a framework for attracting major carriers to operate at the airport. This Honorable Body requests a status update on the department's progress; and

WHEREAS, The Human Rights Commission is Charter-mandated and plays an essential role in protecting the rights of employees, citizens and contractors that transact business with the City of Detroit. City Council urges the Commission to be reconvened in order to assure equal opportunities in all employment relations, and to eliminate and prevent discrimination, segregation in the City; and

WHEREAS, City Council realizes the importance of public transportation for its citizens and the need to continue to support this important service; however, the general fund subsidy to the Detroit Department of Transportation (DDOT) has historically been between \$80 and \$100 million per year, which at times would balloon 30-45% beyond its annual appropriation. Council also recognizes the need to reduce this unsustainable subsidy and acknowledges that the Administration has outsourced DDOT's management to address operational and maintenance inefficiencies and improve overall service. Therefore, Council appropriates \$62 million as the DDOT subsidy for fiscal year 2013-14 pursuant to assurances that the new management team will live within this allotment; and

WHEREAS, Detroit and the rest of Southeast Michigan desperately need an integrated, reliable and efficient mass transit system which DDOT's operation as an integral part. As DDOT functions without a dedicated funding source, it largely survives courtesy of a massive infusion of general fund dollars in an annual subsidy to prop up its operations. This level of support in the current economic climate is unsustainable and efforts to integrate the DDOT system with the other transportation systems in this region is something that must occur without further delay; and

WHEREAS, The Southeast Michigan Council of Governments (SEMCOG) voted recently to change the funding formula for distributing capital improvement dollars for public transportation resulting in a \$7M reduction in funding to DDOT in favor of the SMART bus system despite the fact that DDOT serves three times the number of riders than SMART. The funding formula is now based on population within the service area rather than based on ridership, which shifts the funding formula from a 66/35 percent split in favor of Detroit to a 51.5/48.5 percent split in favor of SMART. The newly created Regional Transportation Authority along with other essential stakeholders at the State and regional levels must work expeditiously to resolve all outstanding issues that impede a truly integrated mass transit system in southeastern Michigan and one that fairly envelops DDOT; and

WHEREAS, The Detroit Transportation Corporation (DTC), which owns and operates the Detroit People Mover (DPM) requested an operating subsidy in the amount of \$6.5 million; however, amidst the severe reduction to the City's available operating funds during this budget cycle, City Council has concurred with the Mayor's executive budgeted amount and allocated a \$4.5 million subsidy to the DTC. City Council encourages the Board of Directors of the DTC to implement a fare increase to augment the DPM's annual budget. City Council also proposes DTC explore options for potential revenue that may be realized through sponsorships of People Mover stations and facilities by major sport teams and other businesses; and

WHEREAS, Community Development Block Grant (CDBG) funds provide grants for community development activities. The overall goal of the program is to assist in the development of a viable community by providing funding for decent housing, economic opportunities, needed services and a suitable living environment. HUD regulations allow a portion of these funds to be specifically used for planning, management and administrative costs. As a result, City Council is requesting that a percentage of the available funding for CDBG be routed to City Council's appropriation in order that the Body may continue to perform its legislative responsibility, which has historically been performed by its City Planning Commission, in a more cost effective manner; and

WHEREAS, City Council is providing necessary fiscal checks and balances to maintain a balanced budget and addressing the City's accumulated and structural deficits through this deliberative process and has identified necessary budgetary reductions that are calculated to improve the City's financial situation. City Council strongly believes that the implementation and continuous monitoring of the 2013-14 budget and public policy goals during the upcoming fiscal year will enable the City to improve its financial future and right-size City operations; and

WHEREAS, In light of these factors, the Detroit City Council, in adopting this budget, has incorporated pecuniary and public policy priorities which are outlined below in an effort to sustain essential services and provide effective and cost efficient government operations to its residents, institutions and businesses of this City; NOW THEREFORE BE IT

RESOLVED, On this day, May 24, 2013, the Detroit City Council adopts a program budget that is fiscally responsible and centered on sound and conservative budgetary principles for municipalities, well-reasoned financial outlooks and past performance, as well as stated goals and projections for departments, divisions and agencies, and in consideration of the City's profound fiscal challenges; BE IT FURTHER

BE IT FURTHER

RESOLVED, City Council will continue to work cooperatively with the Bing Administration and the Emergency Manager to improve the City's overall fiscal health by closely monitoring the adopted 2013-14 budget and its policy recommendations in the appropriate standing committees and expeditiously reviewing any necessary amendments throughout the fiscal year; and BE IT FINALLY

For the purpose of this article, service while under the status of special service or part time employment may be credited and accumulated only if and when an employee or officer shall have become a permanent employee.~~

(c) Employees who have qualified for longevity pay and have accumulated at least two hundred sixteen (216) days of paid time (two hundred ninety two (292) calendar days for fire fighters) exclusive of overtime or premium time during the year immediately preceding any December first date or any other date of qualification; except, that for employees first qualifying for increments, the payment will be made in a lump sum annually on the first pay date after December first.

(d) No employee will be denied a full longevity payment on December first because of a temporary unpaid absence of thirty (30) continuous days or less extending through the December first date in question. REPEALED.

**Sec. 13-7-3. List of eligible employees to be furnished finance director annually.**

All department heads and commissions, on November fifteenth of each year, shall furnish the finance director a list of employees who will have become eligible for longevity increment pay on December first of each year. He shall indicate, in the manner prescribed by the finance director the amount of longevity pay due each such employee, and the finance director may then authorize payment as of December first of each year. REPEALED.

**Sec. 13-7-4. Prorated payments.**

(a) Employees who first qualify for longevity pay increments in any month after any December first date shall be paid such increment on a prorata basis upon attaining such qualification, in the amount of a full increment less one-twelfth thereof for each calendar month or fraction thereof from the previous December first date to the date of such qualification.

(b) Prorated longevity payments may be made between December first dates to qualified employees and officers who separate or take leave from city service, excluding those who are discharged, those who resign and those who resign with a vested pension. Such prorated

longevity increment shall be paid for time served on a full calendar month basis since the date of their last longevity payment; provided, that each month shall contain at least eighteen (18) days of service (twenty four (24) calendar days for fire fighters).

(c) In the case of employees who have otherwise qualified for longevity pay, according to the provisions of this article, but who fail to retain status by reason of death, a prorated longevity payment shall be made to their beneficiaries. REPEALED.

**Sec. 13-7-5. Service not required to be consecutive.**

The years of required service, as provided in section 13-7-2, need not be consecutive or uninterrupted. Service, for the purpose of qualifying for longevity pay, may be accumulated in terms of years equivalent to three hundred sixty five (365) calendar days, according to the best city records available; provided, that during such years of required service, there shall have been accumulated an average of two hundred sixteen (216) days per year of paid time (two hundred ninety two (292) calendar days for fire fighters), exclusive of overtime and premium time. REPEALED.

**Sec. 13-7-6. Requests for and payment of increments when employee does not qualify.**

When an interpretation of the provisions of this article would, in the opinion of the department head, violate the general intent thereof, a longevity increment may yet be requested by the department head or commission and paid upon the approval of the city council; provided, that the proposed recipient of such increment must comply with the basic definition of the term "service," as indicated in this article, and all other sections of this chapter. REPEALED.

**Section 2.** All ordinances, parts of ordinances, that are in conflict with this ordinance are repealed.

**Section 3.** This ordinance is declared necessary for the preservation of the peace, health, safety, and welfare of the People of the City of Detroit.

**PLANNING AND ECONOMIC DEVELOPMENT STANDING COMMITTEE**

**Planning & Development Department**  
May 15, 2013

Honorable City Council:

Re: Request to extend the adjacent vacant lot program.

The Planning and Development Department has been selling adjacent residential vacant lots through the "Adjacent Vacant Lot Sales Program" for the last seven years in an effort to prevent illegal dumping and to beautify neighborhoods. Since the program's inception, the department has been successful in selling the residential vacant lots to adjacent homeowners.

The department would like to request a four (4) year extension of the Adjacent Vacant Lot Program and allow additional latitude in the definition of adjacent. The guidelines to purchase adjacent residential vacant lots are as follows:

Eligible property must fall within the following guidelines:

- City-Owned residential lots
- Lots adjacent to residential structures
- Lots will be sold on a "Cash As-Is" basis

• Sales price of each vacant lot is \$200.00 if under 45 feet of frontage, or \$10 a frontage foot if 45 feet or larger.

• At the discretion of Planning and Development, two vacant lots can be sold as long as one of them is adjacent to a structure.

• Vacant Lots that are through an alley and within 40 feet of the homeowner's parcel can be considered adjacent at the discretion of Planning and Development. If a lot is requested through an alley and there are homes that are literally adjoining to the vacant lot, they will be notified by mail and given 45 days to respond for the first right to purchase the lot.

Eligible guidelines for purchaser are as follows:

- Purchasers will be required to provide proof of paid property taxes and proof of adjacent ownership
- Purchaser(s) to landscape and maintain the vacant lots to enhance the adjacent property
- Split lot sale will occur in the event two adjoining owners are interested in the same lot (price of lot will be split in half).

Our Department has continued to make improvements in the processing of this program, by working with other City Departments to market this campaign to allow Detroit homeowners the opportunity

to purchase and beautify adjacent residential vacant lots in their neighborhoods.

We, therefore, request your Honorable Body's approval to authorize the Planning and Development Department Director or his/her authorized designee to accept offer(s) to purchaser for adjacent residential vacant lots for the sales price of \$200.00 if under 45 feet of footage, or \$10 a frontage foot if 45 feet or larger. "Cash-As Is" basis and to issue Quit Claim Deeds to the purchaser(s), in accordance with the conditions set forth in the Offer to Purchase.

Honorable City Council:

Re: Petition No. 2563 — Southwest Housing Solution, requesting for an outright vacation of the east-west alley to a conversion to easement for utilities in the area of Lozier, Mack, Manistique and Ashland streets.

Petition No. 2563 of "Southwest Housing Solutions" request for the east-west outright vacated 18 feet wide alley (approved on January 31, 2007) in the block bounded by Lozier Avenue, 60 feet wide, Mack Avenue, 120 feet wide, Manistique Avenue, 60 feet wide, and Ashland Avenue, 60 feet wide, into a private easement for utilities. The petitioner and/or property owner need for this alley to remain a public easement for utilities to properly maintain access for the public and private utility companies.

On January 31, 2007 City Council approved a petition to outright vacate the east-west public alley, during the construction/renovations to the building the petitioner and/or property owner did not need to relocate the utilities within the approved outright vacated area. In order for the utilities to recognize this area as an easement it was proper to amend the outright vacation to a conversion to easement. The attached resolution will provide the proper corrections for the utilities to remain in service and have access for the said east-west alley.

The request was approved by the Solid Waste Division — DPW, and the Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City departments and privately owned utility companies have reported no objections to the conversion of public rights-of-way into a private easement for public utilities. Provisions protecting utility installations are part of the resolution.

I am recommending adoption of the attached resolution.

Respectfully submitted,  
RICHARD DOHERTY  
City Engineer

City Engineering Division — DPW  
By Council Member Brown:

Resolved, All that part of the East-West public alley, 18 feet wide, lying Northerly of and abutting the North line of Lots 11 through 20, both inclusive, and lying Southerly of and abutting the South line of Lots 218 and 408 all in the "Edwin Lodge Subdivision" of part of P.C. 120 North of Mack Avenue Township of Gratiot and Grosse Pointe (now City of Detroit), Wayne County, Michigan as recorded in Liber 35 Page 10, Plats, Wayne County Records;

Provided, That said owners of the adjoining property, for themselves, their heirs and assigns, agree that no building or structure of any nature whatsoever, including porches, patios, balconies, etc., shall be built upon or over said easement, or that no grade changes or storage of materials shall be made within said easement without prior written approval and agreement with the Detroit Water and Sewerage Department; and be it further

Provided, That if any time in the future, the owners of any lots abutting on said vacated alley shall request the removal

and/or relocation of the aforementioned utilities in said easement, such owners shall pay all costs incident to such removal and/or relocation. It is further provided that if sewers, water mains, and/or appurtenances in said easement shall break or be damaged as a result of any action on the part of the owner, or assigns, then in such event, the owner or assigns shall be liable for all costs incident to the repair of such broken or damaged sewers and water mains, and shall also be liable for all claims for damages resulting from his action; and be it further

First, Said owners hereby grant to and for the use of the public easement or right-of-way over said vacated public alley herein above described for the purposes of maintaining, installing, repairing, removing, or replacing public utilities such as water mains, sewers, gas lines or mains, telephone, electric light conduits or poles or things usually placed or installed in a public alley in the City of Detroit, with the right to ingress and egress at any time to and over said easement for the purpose above set forth,

Fourth, That if the owners of any lots abutting on said vacated alley shall request the removal and/or relocation of any existing poles or other utilities in said easement, such owners shall pay all costs incidental to such removal and/or relocation, unless such charges are waived by the utility owners,

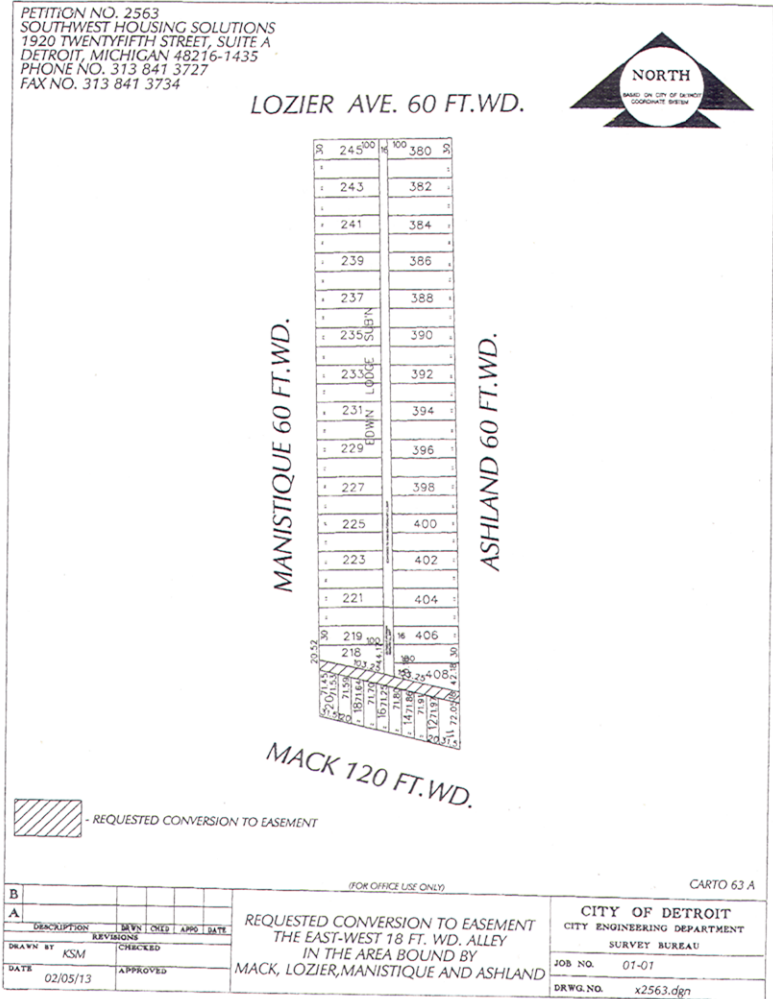

Fifth, That if any utility located in said

property shall break or be damaged as a result of any action on the part of said owners or assigns (by way of illustration but not limitation) such as storage of excessive weights of materials or construction not in accordance with Section 3, mentioned above, then in such event said owners or assigns shall be liable for all costs incidental to the repair of such broken or damaged utility; and further

Provided, That if it becomes necessary to remove the paved alley return at the

entrances (into Manistique and Ashland Avenues), such removal and construction of new curb and sidewalk shall be done under city permit and inspection according to City Engineering Division — DPW specifications with all costs borne by the abutting owner(s), their heir or assigns; and further

Provided, That the City Clerk shall within 30 days record a certified copy of this resolution with the Wayne County Register of Deeds.

**Department of Public Works Administration Division**

May 23, 2013

Honorable City Council:

Re: Authorization to Accept Real Property — Part of 1850 Erskine. Quit Claim Deed from the Greening of Detroit.

The Department of Public Works ("DPW") is hereby requesting the authorization of your Honorable Body to accept a portion of real property at 1850 Erskine from the Greening of Detroit for an amount of \$10.00. Acceptance of this property will allow non-motorized public access to and from Phase II of the Dequindre Cut Greenway. Additionally, acceptance of the property will allow DPW to make site improvements to the property, with an MDOT Link Detroit grant creating a plaza and small pavilion for public use near Orleans and Wilkins.

We respectfully request your approval to accept and record the Quit Claim Deed for real property by adopting the following resolution with a Waiver of Reconsideration.

Respectfully submitted,  
**RON BRUNDIDGE**  
 Director

**Department of Public Works RESOLUTION**

By Council Member Brown:

Whereas, The Department of Public Works ("DPW") has collaborated with the Detroit Economic Growth Corporation ("DEGC") on assembling and improving the Dequindre Cut Greenway ("Greenway") for the benefit of the community; and

Whereas, DPW has acquired a Link Detroit grant from MDOT to improve a portion of 1850 Erskine more particularly described in the attached Exhibit A ("Property") to allow non-motorized public access to and from Phase II of the

Greenway, as well as to construct a plaza and small pavilion area on the property for public use; and

Whereas, The Greening of Detroit has agreed to deed the aforementioned Property to DPW so that the grant improvements may proceed; and

Whereas, Buildings, Safety Engineering and Environmental Department ("BSEED") has reviewed the environmental conditions of the aforementioned property; and

Whereas, In accordance with Chapter 2, Division I, Article 2 of the Detroit City Code: (1) the City Council finds that the property has received appropriate environmental inquiry in accordance with the report referred to in the preceding paragraph; (2) pursuant to the request of DPW, the City Council finds that despite the presence of environmental contamination, acquisition of the property is necessary as it is included in a project plan and that acquisition of the property will not prejudice the right of the City to recover response costs from any and all potential responsible parties under State and/or Federal law; (3) the City Council finds and declares that the preservation of the promotion of the public health, safety, welfare or good outweighs the cost of the environmental assessment and therefore waives the requirement that the seller bear the cost of the environmental assessment; and (4) within 45 days of recording the deed to the Property, DPW shall have prepared and submit to the Michigan Department of Environmental Quality a Baseline Environmental Assessment which may be done by the City or on its behalf by the DEGC; and

Resolved, That in accordance with the attached Quit Claim Deed and the foregoing communication, the DPW Director, or his authorized designee, be and is hereby authorized to accept and record a quit claim deed to the City of Detroit for a part of 1850 Erskine, more particularly described in the attached Exhibit A, and such other documents as may be necessary to effectuate acceptance of this property from The Greening of Detroit, a Michigan Nonprofit Corporation, for the amount of \$10.00.

A waiver of reconsideration is requested.

Pursuant to section 18-2-22 of the Detroit Code of Ordinances, I hereby submit to your Honorable Body my approval or disapproval of your amendments to my FY 2014 Recommended Budget for the City of Detroit. I thank you for your diligent efforts to ensure that essential City services are adequately provided as we await actions of the Emergency Manager to restructure our long-term debt and legacy costs in a more affordable manner.

As stated in the Executive Summary to my Recommended Budget, the combination of reduced revenues and increased benefit and pension liabilities resulted in a 14 percent decline in revenues available for salaries, wages and operating expenses from that projected a year ago. Because of this reality and the not yet fully developed major restructuring initiatives, I recommended no reduction in the City's accumulated operating deficit and a continuation of current service provision so that current City employees could expect to continue in their positions until restructuring costs were quantified and activities subsequently implemented. Your efforts to create a large deficit reduction reserve were noble and appreciated, but for the sustenance of current operations such a reserve was not feasible.

I concur with several of your amendments, including the transfer of elected officials' costs to the non-departmental budget, the organizational changes made to the City Council, the inclusion of the Program Management Director's staff in my budget, your Community Development Block Grant recommendations and the consolidation of all City media services into a single operational entity. I also concur with your amendments to reduce my proposed increase to cultural entity subsidies in all cases except that of the Detroit Zoo; while I support these increases as a matter of policy, it is not currently possible to balance the budget responsibly at this time unless they are removed.

However, within the parameters of a balanced budget I am vetoing your following amendments: the reduction in my office's budget, and the three-month expedited implementation of higher employee cost sharing for health care and hospitalization.

With respect to my office's budget, while I respect your Honorable Body's viewpoint that the leadership of the City's co-equal branches of government was not treated equitably in my recommendations, the fact remains that cuts to the annual Mayor's Office budget during my term already exceed 60 percent even at my recommended funding level. Council budget cuts in accordance with my recommendation and your amendments result in a 55 percent cut of that annual budget over the same time frame. By that standard, proportionality in cuts already has been achieved, and my office now demonstrably operates in a lean and fiscally responsible manner.

With respect to expedited implementation of a higher employee share of health care costs, my senior financial and labor relations staff advises me that any implementation date prior to January 1, 2014, is not feasible if an open enrollment window is offered to City employees this fall. Additionally, I am aware that revised health care benefit plans remain may soon be unveiled that dramatically affect the types and costs of benefits provided to employees and retirees. Given the magnitude of this uncertainty and the time needed for employees and their families to make wise decisions about their health care, I cannot agree to an October 1 implementation date for these new provisions.

In conclusion, I am hopeful that additional revenues beyond those projected to occur by the Revenue Estimating Conference will occur during FY 2014 as a result of increased collection and enforcement efforts. When these and other cost-saving initiatives take root, more money will be available to support currently unfunded positions in the budget and hopefully bring an early end to the current round of furlough days across the City. In my remaining months as Mayor I look forward to working with you in ensuring greater fiscal control, greater responsiveness to citizen needs, and a sustainable increase in the quality and dependability of City services.

Respectfully submitted,  
DAVE BING  
Mayor, City of Detroit

### PUBLIC COMMENTS

**MILDRED HUNT ROBBINS:** Referenced support for Community Benefits Agreement between West Grand Blvd. Collaborative and Henry Ford Hospital; indicated she could not provide regular updates regarding negotiations because they have broken down. There is possibly no chance for reestablishing negotiations. Henry Ford is not speaking for the developers; letters of agreements between the developers and the neighborhood are not consistent. Indicated developers are not negotiating in good faith.

**COUNCIL MEMBER JENKINS** requested specific issues within the document and set up a meeting with her office and representatives from Henry Ford.

**CANDACE GREENE:** Member of the 15th Block Club needs help from the City Council regarding demolition of a house located at 6010 15th Street.

**COUNCIL MEMBER BROWN:** Requested that it be placed on the Public Health and Safety Standing Committee Calendar.

**HILANIUS PHILLIPS:** Requested assistance regarding Petition No. 3060 — the legality of Page Marina, located at 467 Harding; and obtaining report regarding Grant 515-80 from the Board of Zoning Authority. During previous administration Board Zoning Authority indicated that there was no report; that was not correct.

**COUNCIL MEMBER JENKINS:** Indicated that the matter can be referred to Planning and Economic Development Standing Committee to obtain information from Board of Zoning Authority.

**MR. CUNNINGHAM:** Mentioned that he has helped several people by providing information and contact number 855-313-3137 to assist them with housing

and assistance with DTE bills. He also indicated that DDOT is in terrible condition and something needs to be done about it.

**MARGUERITE MADDOX:** Frustrated regarding vacant school buildings that have not been boarded up; both sides NB/SB sides; it's been a year after she initially reported it.

**COUNCIL MEMBER BROWN:** Made motion for the Law Department to opine by next Tuesday on what legal action can be taken against the Detroit Public School System for not boarding up these vacant schools.

**RHARE LEE:** Discussed the debate and legality of the Emergency Manager Law and the rich ignoring the poor.

WHEREAS, The FA’s role includes but is not limited to the following tasks:

- Serve as funds pass-through agent while maintaining fiscal integrity of the Award;

- Submit all required reports to FEMA in a timely manner;

- Monitor Subgrantee’s progress in carrying out work on the Project(s) identified below in a timely fashion in order to complete them within the **FY 09** grant period; and

WHEREAS, Subgrantee has requested and been granted an allocation of funds from grant award **2009-PU-T9-K029** for the following Project(s):

WHEREAS, The purpose of this MOA is to establish the conditions and circumstances under which the FA will manage and administer the Subaward and will disburse funds to Subgrantee for approved

costs incurred in carrying out the Project(s) identified above;

THEREFORE, The parties agree as follows:

**1. Pre-Project and Project Initiation Activities**

a. With regard to each Project, when FEMA notifies the FA that all conditions imposed by FEMA for the Project have been satisfied, and after this MOA has been signed by both parties, the FA shall notify Subgrantee that its Subaward for that Project is formally effective. Such notification shall be made by electronic or other written means; and the date of that electronic or other written notice shall constitute the effective date of the Subaward.

b. Subgrantee shall comply with all applicable federal, State and local environmental and historic preservation (EHP) requirements and shall provide any information requested by the FA to ensure compliance with applicable laws. Subgrantee is responsible for identifying and obtaining all other required federal, state, and local permits and/or approvals necessary to complete projects. The responsibility to ascertain and comply with all environmental and permitting requirements lies exclusively with the Subgrantee.

c. Subgrantee shall not begin any work on any Project, including any obligation of funds, until informed by the FA that the Subaward for that Project is effective.

d. Prior to beginning the Project(s), Subgrantee shall provide the following assurances to the FA:

- SBA Form 1623 — Certification Regarding Debarment, Suspension, and Other Responsibility Matters
- U.S. Dept. of Commerce Form CD-511 — Certification Regarding Lobbying
- Standard Form LLL — Disclosure of Lobbying Activities (Complete only if Subgrantee has engaged or intends to engage in lobbying)
- Standard Form 424B — Assurances — Non-Construction Programs (if project is not a construction project)
- Standard Form 424D — Assurances — Construction Programs (if project is a construction project)
- Accounting System and Financial Capability Questionnaire (if Subgrantee has not had an active federal grant within the past three years)

Subgrantee agrees to be bound by and comply with these assurances throughout the MOA period and to bind its contractors, consultants, and vendors to the same assurances.

In addition, Subgrantee will complete the Environmental and Historical Preservation Screening form, Appendix L of this document, for **ALL** projects.

e. **If Subgrantee is a consortium**, prior to beginning work on the Project(s),

it shall provide to the FA an MOA or other document clearly setting out the identity of the consortium's coordinator or facilitator and how the consortium will operate and how distribution and use of the resources provided by the Subaward will be managed.

f. **If Subgrantee plans to provide an in-kind cost share**, it shall provide documentation on all elements of the cost share to the FA prior to beginning the Project(s). Such documentation shall include all information necessary to determine that the cost is an appropriate in-kind cost share under PSGP guidelines, including depreciated value and date of acquisition.

g. Subgrantee shall begin each Project within sixty (60) days following the effective date of the Subaward for that Project, or this agreement may be subject to cancellation with regard to that Project. Evidence of beginning each Project shall be reported to the FA within sixty (60) days and may include, but is not limited to, project time line, written and/or electronic communications, development and issue of solicitation announcements, contracting documents, purchase orders, and/or similar compliance documents acceptable to the FA.

h. Subgrantee understands that funds received under this MOA shall supplement, but not supplant or replace, state or local funds or other resources that otherwise, in the absence of such funds, would have been made available for the Project(s) to be executed under this MOA, and that if such other funds or resources would otherwise have been made available, Subgrantee may be required to repay funds received.

**2. Project Performance**

a. Subgrantee shall comply with all federal statutes, regulations and guidance applicable to administration of a PSGP Subaward, including but not limited to

- With regard to administrative requirements:
  - For state, local, and tribal governments: 44 CFR Part 13 (OMB Circular A-102)
  - For all other Subgrantees: 2 CFR Part 215 (OMB Circular A-110)
- With regard to cost principles:

  - For colleges and universities: 2 CFR Part 220 (OMB Circular A-21)
  - For not-for-profits: 2 CFR Part 230 (OMB Circular A-122)
  - For for-profits: 48 CFR Part 31 (FAR 31.2)
- With regard to audit requirements:
  - For all Subgrantees: OMB Circular A-133, which requires an annual organization-wide or program audit if Subgrantee expends \$500,000 or more of

federal funds during its fiscal year, unless a lower threshold is established by any applicable rule, regulation or standard.

- Fiscal Year 2009 Port Security Grant Program Guidance and Application Kit

b. The FA will provide assistance where possible, but Subgrantee shall be responsible for familiarity and compliance with relevant federal statutes, regulations, and PSGP guidance. Subgrantee shall also assure that where applicable, all recipients of grant funds also comply. Subgrantee's obligation to comply with these statutes, regulations, and guidance exist separate and apart from this MOA and shall survive expiration or earlier termination of the MOA.

c. Subgrantee agrees to use all reasonable means to complete the Project(s) in a timely manner. The current project deadline is **May 31, 2013**. In order to complete the project(s), the FA will attempt to obtain one or more project performance period extensions from FEMA.

d. The FA is the primary contact with FEMA regarding projects under this MOA. If Subgrantee has any questions, problems, or issues regarding projects, Subgrantee should make every possible attempt to resolve them with the FA rather than contacting FEMA. The FA will, in any event, be involved in any resolution handled in coordination with FEMA.

e. Subgrantee must get FA approval for any major project changes, including but not limited to project intent or scope, including location or capability of equipment, equipment or services not included in the original IJ and budget, any other budget changes, and grant performance period. Subgrantee shall notify the FA electronically or by other written means of any such proposed major changes. The FA will submit the proposed changes to FEMA if necessary, and upon approval, the FA will incorporate the changes into a revised Appendix A. Subgrantee shall not enter into any contract and/or purchase agreement for the amended scope or budget until the FA provides notice by electronic or other written means that the change is approved.

f. Subgrantee shall not enter into contracts and/or purchase agreements for execution of the Project(s) for any items and services except those that are listed, specifically or as part of a group of items or services, in the approved budget for that Project in Appendix B.

g. The Subgrantee, or the designated coordinator if Subgrantee is a consortium, shall retain ultimate control and responsibility for the proper execution of the Project. Contractors, consultants, vendors, etc. shall be bound by the same contract and purchasing requirements when so required by federal statute and regulations.

h. In any case in which Subgrantee

enters into a contract with third parties, the FA is not a party to such a contract and shall not be obligated or liable for any breach of contract or other action at law or in equity to any party other than Subgrantee.

i. **Real Property:** Subgrantee shall be granted Title to any real property acquired using PSGP funds under this award. Subgrantee shall maintain effective safeguards, control, and accountability for all real property acquired under this award and assure that it is used solely for authorized grant purposes as described in Subgrantee's IJ(s). When real property is no longer needed for the originally authorized purpose, Subgrantee will request disposition instructions from the FA. The instructions will provide for either retention of Title, Transfer of Title, or sale of property.

### 3. Monitoring and Reporting

a. Throughout the Project(s), Subgrantee agrees to facilitate the FA's monitoring responsibilities by providing reasonable response to requests from the FA, including but not limited to the following:

- Periodically allowing the FA to make an on-site physical inspection of the Project(s).

- Notifying the FA when key milestones have been reached in the Project(s).

- Submitting completed SF-425, Federal Financial Report, on a quarterly basis.

b. Subgrantee shall submit programmatic and financial reports (SF-425) at such times and in such format as the FA prescribes. These reports shall include but not be limited to quarterly financial reports submitted not later than the 15th day of January, April, July and October; semi-annual progress reports by the 15th of January and July each year; and final

reports required by FEMA to close out the Project(s). The final reports must be filed with the FA within thirty (30) days after completion of each Project. The FA will not pay the final cost invoice for any Project until it has received and approved the final close-out reports for that Project.

c. Subgrantee shall notify FA of any program income generated by a Project within the month following the month when it is earned, and shall comply with provisions of OMB Circular A-110 with regard to handling of such income.

#### 4. Funding and Payments

a. In executing this MOA, the FA will follow all of its normal accounting policies and practices including the issuance of an internal purchase order for the amount expected to be received from FEMA and disbursed to Subgrantee for each Project.

b. Subgrantee understands and acknowledges that the PSGP is a reimbursement-based program. All requests for reimbursement must reflect actual costs that have been incurred and services/items received by the Subgrantee.

c. The FA will process payment requests as quickly as possible. In no case, however, is the FA obligated to make payments to Subgrantee without having first received the funds from FEMA.

d. In order to receive reimbursements, Subgrantee must be current on required reports and documentation required by the FA in accordance with its MOA with Subgrantee. Failure to meet those requirements may result in rejection or delay of payment requests.

e. Request for reimbursement must be submitted promptly. Reimbursement requests for payments made more than six months previously may not be authorized.

f. Subgrantee will be reimbursed for allowable costs during the course of the project. At its discretion, the FA may reimburse up to ninety percent (90%) of allowable costs, with the balance remaining reimbursed after successful project close-out.

Time sheets must be signed by the consultant and the Subgrantee Project Manager. In case of organizations performing professional services, documentation must include a detailed billing indicating the same information, including specific services provided, not just a reference to the project.

(v) Contracts for procurement and installation of equipment and/or for construction, assembly, or installation of a facility or infrastructure: Must contain sufficient information such as that listed in paragraphs c. and d. of this section to validate the service performed to the satisfaction of Subgrantee and the FA.

(vi) Supplies and Other Operating Expenses and Equipment: Documentation must include purchase order authorization, audited vendor invoices approved by the Project Director (and other higher authorizing official, if appropriate). Subgrantee further agrees to maintain a current inventory of all project equipment.

(vii) Higher approvals: If a purchase is of a type or dollar amount that ordinarily would require approval if a higher authority according to Subgrantee policies, a copy of that approval shall also be submitted as documentation.

(viii) Contracts and Purchases over One Hundred Thousand Dollars (\$100,000): Reimbursement request for any invoices against such a contract or other purchase must be signed by the Subgrantee Project Manager verifying that the goods and/or services have been received and are in working order and that the contract or purchase has not violated any terms of this document or the MOA.

b. Advance Payment Requests: Subgrantee may submit a request, using the SF-270 Form, for advance payment for working capital. All advance payments

shall be subject to the discretion of the FA. Subgrantees must demonstrate the willingness and ability to maintain procedures to minimize the time elapsing between the transfer of the funds and their disbursement. All funds approved for advance shall be accounted for during the course of the project in accordance with the above referenced policies, laws, regulations, etc.

#### 6. FA Approval.

a. Within ten (10) days of receiving an invoice from a contractor, consultant, or vendor for goods or services approved in the project budget(s) in Appendix B, Subgrantee shall validate that the invoice is accurate and proper and that service has been completed or the goods have been received. Subgrantee shall pay the invoice and send a request for reimbursement payment to the FA, with documentation as described above.

b. Upon receiving the invoices, authorized FA personnel shall review Subgrantee's request for reimbursement. The FA's Executive Director or Program Manager will also be authorized to request additional information or clarification from Subgrantee. Response to such a request shall not be unreasonably withheld by Subgrantee.

c. All reimbursement requests will be approved by the FA, which approval may be delegated in the event of an extended absence.

d. Payment approval may be subject to on-site reviews by the FA; however, this provision will ordinarily not be exercised except for payment in excess of Twenty-Five Thousand Dollars (\$25,000) or payments against contracts in excess of One Hundred Thousand Dollars (\$100,000).

e. Causes for rejection of payment requests include but are not limited to the following:

(i) Is not an allowable cost under Circular A-110 and did not receive approval by the FEMA Program Manager.

(ii) Item or service could not be verified to exist and/or operate when requested.

(iii) Requested supporting documentation not supplied.

(iv) Budget amount is fully expended.

(v) Reports are not current in accordance with reporting requirements.

(vi) Vendor is debarred.

#### 7. Payments.

a. The FA shall reimburse Subgrantee for approved, allowable, documented expenditures within fifteen (15) business days of FA's receiving both complete, acceptable documentation from Subgrantee and corresponding funds from FEMA. Subgrantee may notify FA up to 30 days in advance of anticipated payments and need for reimbursement, and if possible, FA will have funds on hand in order to make reimbursements quickly.

b. Payments will be made by check or

electronic transfer. If payment is desired via electronic transfer, Subgrantee must complete and return SF-1199A, *Direct Deposit Sign Up*.

c. Subgrantee understands and acknowledges that only certain costs are allowable under federal law and the PSGP guidelines, and that FEMA's approval of Subgrantee's Subaward neither guarantees that all items and amounts in the approved budget are allowable nor supersedes or waives PSGP provisions regarding allowable costs.

d. In no event shall the FA be obligated to reimburse Subgrantee for any Project-related expenditure in amounts not expressly included in the approved budget for that Project in Appendix B.

e. The FA may suspend payments to Subgrantee if Subgrantee fails to comply with:

- The terms and conditions of the Subaward, including the intent stated in Subgrantee's IJ; or

- Any provision of this MOA, including but not limited to the assurances in Section 1.d. or Appendix A of this MOA; or,

- PSGP **2009-PU-T9-K029** Guidance or any federal, state, or local law related to a Project;

Upon such finding, the FA shall notify the Subgrantee in writing to correct any deficiencies found. If said deficiencies are not corrected within fifteen (15) business days, after consultation with FEMA, the FA may suspend or cancel this MOA and the Subaward upon furnishing electronic or other written notice of such action to Subgrantee.

f. Subgrantee understands and acknowledges that the FA is a pass-through agent for FEMA funds, and that if any funds are required to be repaid to the federal government because of findings of an audit by a federal authority or for any other reason, the FA shall not be liable for such repayment.

g. Subgrantee understands and acknowledges that if the findings or recommendation resulting from an audit or monitoring visit require development of any corrective action plan, Subgrantee is responsible for developing that plan.

#### 8. Budget Changes

All requests for budget changes must be prepared in writing and submitted to the FA for approval. If the FA determines that FEMA approval is required, the FA will forward the request to FEMA and will notify the subgrantee.

a. Nonconstruction projects: If changes to the subgrantees budget are necessary, all subgrantees shall obtain prior approval for budget changes. This includes:

(i) Any revision which would result in the need for additional funding.

(ii) Cumulative transfers between bud-

get categories that exceeds ten percent of the total budget.

(iii) Transfer of funds allotted for training allowances to other expense categories.

b. Construction projects: Subgrantees shall obtain prior written approval for any budget revision which would result in the need for additional funds.

c. Combined construction and non-construction projects. When subgrant provides funding for both construction and nonconstruction activities, the subgrantee must obtain prior written approval before making any fund or budget transfer from nonconstruction to construction or vice versa.

**9. Other Provisions**

a. This MOA shall be binding on all parties thereto.

b. If Subgrantee is a consortium, the coordinator or facilitator identified in accordance with paragraph i.e. of this MOA shall be responsible for compliance by all members of the consortium with the provisions of this MOA and associated applicable statutes, regulations, and other requirements.

c. Subgrantee shall not assign or transfer any interest in this MOA or the Subaward without prior written consent of the FA and FEMA. This specifically includes any assignment and/or transfer occurring as a matter of law or of Subgrantee ownership transfer.

d. The failure of the FA to insist upon strict performance of any provision of this agreement or to exercise any right based upon a breach thereof, or the acceptance of any performance during such a breach, shall not constitute a waiver of any rights assigned to the FA under this MOA.

e. Subgrantee shall indemnify, defend, and hold harmless the FA and its officers, directors, employees, contractors, and agents, from and against all liability, loss, cost or expense (including attorney's fees) by reason of liability imposed upon the FA.

f. Subgrantee shall indemnify, defend and hold harmless the FA, arising out of or related to Subgrantee's performance under this MOA and/or the Subgrantee's conduct of the Project(s), whether caused by or contributed to by the FA or any other party indemnified herein, including but not limited to any breach, misfeasance, malfeasance, negligent or intentional acts of Subgrantee, its officers, agents, or employees or its contractors or subcontractors or their officers, agents, or employees, unless such a loss is caused solely by the misfeasance, malfeasance, or negligence of the FA, its officers, directors, employees or agents. Such indemnify shall survive the expiration or earlier termination of this MOA.

g. Notices shall be delivered to the addresses or e-mails shown in the signature blocks of this MOA unless one or

both of the parties provide change of such contact information by electronic or other written means.

h. If a dispute arises out of or related to this MOA, or a breach thereof, and if the dispute cannot be settled through negotiation, the parties agree first to try in good faith to resolve the dispute by mediation before resorting to arbitration, litigation or other adversarial dispute resolution process. The mediation and any subsequent dispute resolution process, including litigation, are to be conducted in the English language in the City of Detroit, Michigan.

i. This MOA, along with the Appendices and other materials referred to in the MOA, constitute the entire agreement between the FA and the Subgrantee as to the Subaward and the Project(s). Any and all prior writings between those parties pertaining to those subjects shall have no legally binding effect, and except as otherwise expressly provided in the MOA or the documents to which it refers, neither shall any contemporaneous or subsequent changes to the Parties' agreement on these topics unless made in writing and signed by both Parties.

This MOA shall take effect on the date of signing by both parties and shall remain in effect for the duration of the Award period, ending **May 31, 2013** unless extended longer or terminated earlier as provided therein.

**TESTIMONIAL RESOLUTION FOR**

**THE LINWOOD CHURCH OF CHRIST Celebrating 37 years on Linwood, the 88th Church Anniversary**

By COUNCIL MEMBER JONES:

WHEREAS, The Linwood Church of Christ is a body of called out believers, a local congregation of the Church of Christ that you can carefully read about in the Holy Bible, with Jesus Christ as its head, the Holy Spirit as its commitment. The mission of the Linwood Church of Christ is to

show forth the love of God that we might build relationships with our family, friends and neighbors and lead those who are lost to Christ. The vision of the Linwood Church is to be a Godley, growing, thriving and active church in the community; and

WHEREAS, Linwood Church of Christ's long and interesting history began in 1925, with its first worship service held on Hudson Street in Detroit, Michigan. After which the congregation moved to Willard School in Highland Park. Later it was a storefront on the corner Labelle and Lincoln, and the first permanent place was on Ford Avenue at the corner of Thompson in Detroit, Michigan. It was at this location that Bro. James Stewart became Linwood's (then known as Ford Avenue Church of Christ) who became their first full time Minister; and

WHEREAS, Many ministers have served the congregation throughout the years; Bro. Aloonzo Rose, Bro. Charles Webb, Bro. Joseph Lewis, Bro. Orum Trone, Jr., Bro. Alex Davenport and Bro. Zebedee Bishop. In May, 1975, Bro. Walter Balloon, Sr., and Bro. Jessie Bishop, Sr., broke ground to the current site, 14001 Linwood, Detroit, Michigan; and

WHEREAS, In 1982, Bro. Paul McClendon was ordained as the first Elder; many have followed him. Installed in September, 2007 as Ministers, Bro. Donale Stewart and Bro. RESOLVED, That the Detroit City Council, Office of Council Member Brenda Jones, hereby join with friends and members in celebrating the success of the Anniversary of The Linwood Church of Christ (37 years on Linwood Avenue, while serving 88 years as a congregation). **CONSENT AGENDA MEMBER REPORTS**

**COUNCIL PRESIDENT PUGH:** The emergency manager will be hosting a series of Town Hall and Community Meetings throughout the City in the up coming weeks. There is one Thursday and Monday; this Thursday, which will be June the 6th, will be at Greater Grace on Seven Mile, just east of Telegraph between 6:30 and 8 p.m. The

next one will be at King High on Lafayette and McDougall, that's also from 6:30 to 8 p.m.

Friday, the Clerk's Office and Department of Elections will be presenting candidates in the neighborhood. It is targeted at our young voters between the ages of 18 and 30. During the last Mayoral Race that specific group had an 8% voter turn out and because of that this will be targeted at that group. All candidates for office, Mayor, City Council, City Clerk and Police Commission will be presented at 5:30 p.m., this coming Friday at New Center Park and that is the park that's on the opposite end of the building of the Department of Elections; at Second and Grand Blvd.

#### **COUNCIL PRESIDENT PRO TEM**

**BROWN:** To the Law Department, are we going to get an update on this coke pile in Southwest Detroit at today's Public Health and Safety Standing Committee?

**Mr. Smith, Law Department:** Yes sir that is my intent. Unfortunately, yesterday I was not able to follow up with the attorney who is working on that but I hope to have that information today.

**Council Member Watson:** Mr. President is there going to be a hearing?

**Council Member Brown:** As soon as we get that report we are going to set that hearing.

**Council Member Watson:** I have quite a few citizens emailing me and I wrote a letter to the Michigan Department of Environmental Quality and the United States Government; as well as out local environmental people asking for an investigation, inspection and report back to this body on the issue.

**Council Member Cockrel, Jr.:** I am disappointed in the Law Department moving so slowly on this issue because I think the President Pro Tem asked for this opinion at least two (2) weeks ago. I do think that this is a matter of the utmost priority. Frankly, Council and the Mayor are looking ineffective on this issue right now. People are asking, what is the City doing. This is a problem that is literally growing every single day.

#### **COUNCIL MEMBER JENKINS:**

The Accounting Aid Society is offering free summer tax assistance for people who have missed their deadline or need assistance with taxes; families up to \$50,000, individuals up to \$35,000. They also have a home bound tax program for those who are disabled or physically unable to visit a tax site. People can call 313-556-1920 for assistance or go to AccountingAidSociety.org.

Wayne State University and the

Greater Detroit Area for the Blind and Visually Impaired are having their 9th Annual Goal Ball Training Camp for children and youth with visually impairments. The training camp will be June 17-21, 2013, 9:00 a.m. until 12 noon. The camp is free and it's two (2) hour day instructions. People can call 313-272-3900.

I want to thank Youth Voices and Joy-Southfield and Cody-Rouge Coalition and the Greening of Detroit who all adopted the park at Cody Field across from Cody High School. Youth Voices had all youth this past Saturday. They planted 121 trees on the park and they are adopting the park and agreeing to keep it up.

Farwell Recreation Advisory Council had their "We Care Day" this past Saturday and it was very well organized and attended. I want to thank the Farwell Recreation Advisory Council for their work in that community.

#### **COUNCIL MEMBER COCKREL, JR.:**

I wanted to come back to the reappointment of Mary Beth Kudrick. I heard that item was referred to the committee. I wanted to suggest that she be brought in for an interview. I think that she has done an outstanding job and I plan on supporting her. I think it might be useful to get an update and get her impression on how the process has been working. Whether or not there is any clarity with respect to the role of the Financial Advisory Board because I and a lot of people have questions as to why are they still around since they were a creation of a consent agreement which no longer exists. I understand that the emergency manager sees a role for them but that needs to be further clarified.

**Council President Pugh:** I concur. I think that is a great suggestion. I think the Chair was going to do that anyway. The existence of, the future of the Financial Advisory Board, I've had that discussion. Now there is some question as to whether the consent agreement has officially gone away and if there would have to be an act of the emergency manager to do away with it. There is some suggestion that perhaps that there could be an envisioned role moving forward for the FAB. Perhaps that question has not been definitely answered legally and it is in limbo as to does it exist or does it not and what will be happening moving forward.

**Council Member Jenkins:** Just on that point, in Mackinaw where they had the panel on the Detroit Turnaround, without one, single Detroit, the State Treasurer, who was on the panel, talked about the Advisor; a question was asked about what happens at the end of the emergency manager's term. He

talked about them looking at a role for the Financial Advisory Board to stay in place and for their role to be expanded or re-implemented as it was; taking on the same role they had under the consent agreement. It's interesting that all of these people are discussing the future of Detroit without any Detroiters in the room.

**COUNCIL MEMBER JONES:** I didn't go to Mackinaw but as a member of the Pension Board I have to say this. Mackinaw is a very expensive conference and it's only for a few days but the media never comments on Mackinaw but it always manages to comment on the conference for the Pension Board in Hawaii. I have a problem with that. Although I have never been to the Pension Conference in Hawaii the treatises came and indicated that whoever missed the conference made a lot of good training.

The Livernois area had a parade. They had a Livernois Community Day that was well attended. They have purchased the area right there and set up a Farmer's Market right off of the Freeway and Livernois and they started selling their produce on that day. I want to thank all of the community who are out there doing thing to try and highlight their community.

**COUNCIL MEMBER SPIVEY:** I want to congratulate the very first graduating class of East English Village Preparatory Academy. The former Finney/Crockett School. That is at Cobo Hall at 6 p.m. tonight. I am speaking tonight, so lift up those students. For the Whole Foods, there is an entire day of activities. Those who want to know their full schedule they can go to [wholefoodsmarkets.com/stores/detroit](http://wholefoodsmarkets.com/stores/detroit).

**COUNCIL PRESIDENT PUGH:** Mumford's whole campus is amazing, tennis courts, baseball field all out in front of the school. It looks beautiful.

**COUNCIL MEMBER TATE:** Mr. Hollier we had a discussion about the CDBG dollars and we were promised this check list from Planning and Development Department on the items that needed to be satisfied to release the 12-13 CDBG dollars. Our calls have not ceased since that conversation. What is the status of that check list Mr. Hollier? We were promised this by the department two (2) weeks ago.

**Mr. Hollier:** I did reach out to the department. I don't have an ETA on that but I will follow up on that when we leave the table. I believe they were still finishing it up. Mr. Anderson, at the

table, indicated that he hoped that it would be finalized.

**Council Member Tate:** No Mr. Hollier, what we requested was the actual letter and the checklist not if the items had been taken care of; give us the letter of what the requirements are. There was a verbal commitment to get us that letter last week.

**Mr. Hollier:** I will follow up as soon as we leave the table.

**COUNCIL MEMBER JENKINS:** I wasn't in any of the meetings but I have heard that one of the concerns that have been expressed was this whole idea of moving all of the Block Grant Funds to an outside entity and that there was some conversation that we were told, 'we will continue to hold the funds if this is not handled appropriately.' I was not there but that might be a part of the issue and might be a part of why we are not getting the letter.

**COUNCIL MEMBER WATSON:** I would like to salute our President Charles Pugh. He was minding his business on Mack and Woodward in Starbucks and was approached by a citizen who was in distress and her three (3) children. He became a one man rescue mission. He took her to this shelter, that shelter, another shelter; finally found one that had room. People think that we don't do hands on, personal, compassionate work; they think it is all bureaucratic, it's not so. I want to salute that.

**Council President Pugh:** I want to thank Mr. Whitaker, your staff who jumped right in and got me some numbers and also Carol Banks, who is my ace. I didn't do that by myself do I appreciate all of the assistance.

**COUNCIL MEMBER WATSON:** I also want to mentioned the 50th Anniversary of Reverend Dr. C. L. Franklin leading thousands and thousands down Woodward to hear Dr. Martin Luther King, Jr.'s "I have a Dream" speech; that will be June 22, 2013 and the march will begin at Forest and Woodward to Hart Plaza. All are welcome; this may be the march for the nation, the 50th Anniversary of Dr. Martin Luther King's speech because I don't know what is happening with the national march.

**RESOLUTION STRONGLY URGING  
IMMEDIATE ACTION REGARDING  
PETROLEUM COKE PILES ON THE  
BANK OF THE DETROIT RIVER**

By ALL COUNCIL MEMBERS:

WHEREAS, Petroleum coke (petcoke) is a known waste byproduct of refining tar

sands bitumen into fuel oil. Since November, 2012, Marathon Petroleum's Southwest Detroit refinery has been processing tar sand from Alberta, Canada, generating this petcoke byproduct, and storing it on land immediately adjacent to the Detroit River near the Ambassador Bridge; and

WHEREAS, This creates an extremely complex series of environmental, economic and social questions associated with the current storage of large amounts of petcoke on these particular sites, both

because: 1) the petcoke is merely one aspect of a larger system on industrial extraction, transit and use of the extremely controversial tar sands fuel source; and 2) the production, sale and storage of the petcoke byproduct in this particular location in the community of Southwest Detroit and on the U.S./Canadian border also raises a number of additional issues beyond zoning; and

WHEREAS, Since March, 2013, these extremely large and rapidly growing piles of petcoke have been improperly stored (i.e. uncovered and in the open) on land owned by Maroun corporate interests. This land is leased to the Detroit/Wayne County Port Authority and Detroit Bulk Storage, sub-leased to Nicholson Terminal & Dock and CSX Railroad. The petcoke is reportedly awaiting transport after its sale by Marathon Petroleum to Koch Carbon; and

WHEREAS, Each of the aforementioned entities, in particular Marathon Petroleum which produces the petcoke, have the responsibility and duty to ensure the processing, storage, and transport of this expected byproduct occurs in an expeditious manner that meets all legal and environmental guidelines to minimize the negative effects of its presence on the surrounding residential neighborhood in Southwest Detroit which is already severely overburdened by adverse environmental and public health conditions, that demands much more aggressive, vigilant and effective administrative and legal enforcement of land use standards and protections; and

WHEREAS, Petcoke, especially in such large and uncontained volumes, presents numerous short and long-term potential public health, safety and environmental concerns and risks. These include but are not limited to: run-off into the river; ambient dust and particulate matter; its ultimate contribution to global warming and climate change; nuisance and other legal, equitable, environmental justice, economic and esthetic harms to the Detroit River, which is a uniquely important and valuable community asset and an ecosystem protected under federal, state and local laws; and

WHEREAS, To date, petcoke has been dumped on these properties without proper zoning clearances or necessary permits. It is also currently in violation of applicable height restrictions. Therefore, in April, 2013 the City's Buildings Safety Engineering and Environmental Department (BSEED) issued Correction Orders for both parcels due to these ongoing violations. Applications have been filed for variances or other zoning approvals (such as a Conditional Use Permit, and hearings either scheduled (for the Nicholson Terminal & Dock property) or anticipated

in the near future (for the CSX Railroad property)); and

WHEREAS, Although BSEED ordinarily follows a prudent, discretionary policy in such cases of unpermitted land use by refraining from taking immediate enforcement action such as shutting down the facility and imposing fines, temporarily allowing the unpermitted use only when the applicant cooperates, or as in this case, by promptly filing an application when the violation is brought to their attention, and otherwise cooperates with the investigation, this does not appear to be a typical, garden variety land use case where such discretionary non-enforcement may be defensible and appropriate; and

WHEREAS, Rather, in this case, the giant petcoke piles present issues in need of immediate and decisive enforcement action by local, state and federal regulatory agencies to address the existing piles and ensure that all entities involved in the ongoing production, storage and transport of this byproduct have appropriate protocols in place as well as the necessary permits and approvals to prevent any future issues; and

WHEREAS, Marathon Petroleum apparently intends to continue, and even significantly increase, its tar sands processing activities in the future, producing even more noxious petcoke byproduct that threatens even greater harms, so that this issue must be confronted and dealt with forcefully now to avoid setting an extremely undesirable, destructive precedent for the future; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council strongly urges immediate action be taken by local, state and federal governments to address the improperly stored petroleum coke piles that currently exist on the bank of the Detroit River and to prevent future occurrences through continued enforcement efforts; and BE IT FURTHER

RESOLVED, That the Detroit City Council strongly urges the City of Detroit, through its Mayor, Emergency Management Team and the Buildings Safety Engineering and Environment Department (BSEED), to immediately take all available legal measures to stop any and all parties, including but not limited to the Maroun family corporations, Marathon Petroleum, Koch Carbon, the Port Authority, Detroit Cold Storage, Nicholson Dock & Terminal and CSX Railroad, to immediately cease and desist from dumping, storing, piling or otherwise placing petcoke or any other tar sands waste or noxious substances on the properties in question or anywhere else without complete, timely and adequate legal authority to do so and without adequate

safeguards of local health and environmental quality, such as covering the materials in question and fully disclosing to the community all the relevant information about how it is being stored, isolated, and otherwise treated for the protection of human and other ecological health concerns, such measures to include but not be limited to immediately locking the facilities in question to physically prevent access and/or seeking immediate judicial enforcement of all rights against this unlawful polluting activity; and BE IT FURTHER

RESOLVED, That the Detroit City Council will work expeditiously with State Rep. Rashida Tlaib, U.S. Congressional Representatives Gary Peters and John Conyers, the Michigan Department of Environmental Protection Agency, BSEED, Southwest Detroit residents, environmentalists and all other interested parties to thoroughly investigate the manifold issues and problems represented by petcoke and to devise adequate policy solutions that move beyond 'passing the buck' between regulatory agencies and levels or departments of government; and BE IT FINALLY

RESOLVED, That copies of this resolution shall be delivered to Mayor Bing, Emergency Manager Orr, the City's Buildings Safety Engineering and Environment Department, State Rep. Rashida Tlaib, U.S. Congressional Representatives Gary Peters and John Conyers, the Michigan Department of Environmental Quality, the U.S. Environmental Protection Agency, Southwest Detroit residents, environmentalists and all other interested parties.

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. A. 1. The parties shall submit to arbitration all matters in controversy raised in the above-named lawsuit.

Re: Address: 5218 Harvard. Name: Cecil R. Bronch. Date ordered removed: September 27, 2011 (J.C.C. pg. 2150).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 10, 2013 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is rehabilitation and sale. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Address: 15892 Rosemont. Name: Kimberly Freeman. Date ordered removed: June 21, 2011 (J.C.C. pg. 1415).

In response to the request for a deferral of the demolition order on the property noted above, we submit the following information:

A special inspection on May 1, 2013 revealed the building is secured and appears to be sound and repairable.

The owner has paid all taxes and is current.

The proposed use of the property is owner's use and occupancy. This is the first deferral request for this property.

Therefore, it is recommended that the demolition order be deferred for a period of three (3) months subject to the following conditions:

1. The building shall be maintained in accordance with the vacant property ordinance (see attachments) and securely barricaded until rehabilitation is complete and occupied. All relevant permits for rehabilitation work shall be obtained. Rehabilitation is to be complete within six (6) months, at which time the owner will obtain one of the following from this department:

- Certificate of Acceptance related to building permits
- Certificate of Approval as a result of a Housing Inspection
- Certificate of Inspection, required for all residential rental properties

2. The owner shall not occupy or allow occupancy of the structure without a certificate (as outlined above).

3. The yards shall be maintained clear of weeds, junk and debris at all times.

We recommend that utility disconnect actions cease to allow the progress of the rehabilitation.

At the end of the deferral period, the owner must contact this department to arrange an inspection to evidence that conditions of the deferral have been maintained and that there has been substantial progress toward rehabilitation. If the building becomes open to trespass or if conditions of the deferral are not maintained, we may proceed with demolition without further hearings. And, pursuant to the Property Maintenance Code we will issue a Blight Violation Notice.

A request for deferral exceeding four must be made by petition to City Council through the office of the City Clerk.

Honorable City Council:

Re: Petition No. 2009 & 2770 — Comerica Bank Center request to places security kiosk on existing planters on the west and east side of the building located at 411 W. Lafayette.

Petition No. 2009 and 2770 of "Comerica Bank Center" whose main address is 3501 Hamlin Road, Auburn Hills, Michigan 48326 request permission to encroach and maintain flagpoles, sign canopy, planters, and security kiosks within West Lafayette Boulevard, 80 feet wide, between First Street, 60 feet wide, and Cass Avenue, 80 feet wide; within First Street, 60 feet wide, between West Lafayette Boulevard, 80 feet wide, and the east-west open public alley, 20 feet wide; and within Cass Avenue, 80 feet wide, between West Lafayette Boulevard, 80 feet wide, and the east-west open public alley, 20 feet wide.

This request is to formally legalize the existing and proposed encroachments for the Comerica Bank Center site. With the relocation and addition of staffing to the 411 West Lafayette site, has prompt Comerica to provide better and secure entrance into the building's underground parking facility. Comerica proposed to construct security kiosks on existing planters on First Street and Cass Avenue.

The encroachment petition was referred to the City Engineering Division — DPW for investigation and report. This is our report.

With the construction of a security kiosk near a people mover column and/or within the people mover's easement a permit from the People Mover/DTC will be

required before or at the time of obtaining any right-of-way permits.

Traffic Engineering Division — DPW reports no objection to the requested area of encroachments with flagpoles, sign canopy, planters, and security kiosks within the rights-of-way, but must maintain a pedestrian sidewalk path that is at least 6.00 feet wide.

The Public Lighting Department (PLD) reports having street lighting and high voltage underground duct run in the area of the requested encroachment area. No structure or barricades can be built over PLD installations or on existing utility easement areas. As per PLD requirements, any structure proposed to build shall maintain 10 feet horizontal clearance from the overhead PLD lines and installations also any structure proposed to be built shall maintain a minimum of 3-foot horizontal clearance and 12-inch vertical clearance from the PLD conduit bank and manholes. The contractor should take necessary precautions not to damage PLD facilities, if the contractor plans to use heavy earth moving equipments. The contractor will be liable for any damages to any PLD underground facilities. PLD needs unrestricted easement rights with 24 hours heavy vehicles access to the area requested for encroachment.

Detroit Water and Sewerage Department reports have no objections to the encroachments provided that the attached provisions for encroachments are followed and part of this resolution.

All other involved City departments and privately owned utility companies request the petitioner(s) make use of "Miss Dig" facilities before any construction take place.

There is an appropriate resolution, granting the encroachment petition, attached for consideration by your Honorable Body.

**Detroit Police Department**

May 22, 2013

Honorable City Council:

Re: Request to Apply for a FY 2013 COPS Hiring Program (CHP) Grant from the United States Department of Justice's Office of Community Oriented Policing Services.

The United States Department of Justice's Office of Community Oriented Policing Services has announced that they are accepting applications for their FY 2013 COPS Hiring Program (CHP). This program provides funding directly to law enforcement agencies to hire and/or rehire career law enforcement officers in an effort to create and preserve jobs, and to increase their community policing capacity and crime prevention efforts.

Based on population, the Detroit Police Department (DPD) is able to apply for up to fifteen positions. This CHP grant provides funding up to \$125,000.00 per position (salary and fringes) over three years (36 months), equating to a potential federal award of **\$1,875,000.00, with a 25 percent cash match**. It is estimated that the cost of the 15 positions for three years, including salary and fringes, will exceed \$2,500,000.00 so the Department will satisfy the 25 percent requirement [ $\$2,500,000 \times 75\% = \$1,875,000$  (COPS) /  $\$2,500,000 \times 25\% = \$625,000$  (CITY)].

At the conclusion of the federal funding, CHP grantees are required to retain all officer positions awarded for at least 12 months from the time that the 36 months for grant funding for each CHP position expires. Currently, a program is being developed that will be in compliance with the guidelines of the grant. **The deadline for this application is May 22, 2013.**

I request approval from your Honorable Body to apply for the grant and adopt the enclosed resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

Respectfully submitted,

Honorable City Council:

Re: Traffic Signal Removal at 2 locations.

The following two (2) signalized intersections are currently operating on full time "STOP control" mode since January 31, 2013 in compliance with the Michigan Manual of Uniform Traffic Control Devices (MMUTCD) and are scheduled for removal due to changes in traffic conditions.

The traffic volumes, accident reports and physical conditions were analyzed prior to placing the signals on full time flashing operation. The traffic volumes have dropped significantly over the years at these locations due to the shutting down of the Chrysler Corporation Jeep Plant which was located at Freeland and Plymouth. As a result, currently none of the MMUTCD warrants are satisfied and therefore, continued operation of the traffic signals is no longer justified. Traffic Engineering has not received any complaints in regards to the following flashing/STOP sign operated intersections.

No.	Street A	Street B	Flashing Date	Proposed Traffic Control
1	Freeland	Plymouth	1/31/2013	Stop sign to control Freeland
2	Mark Twain	Plymouth	1/31/2013	Stop sign to control Mark Twain

The Plymouth Corridor from Wyoming to W. Outer Drive is scheduled for traffic signal modernization in 2014 using CMAQ Funding. Since the above two intersections do not meet the MMUTCD warrants, modernization of those inter-

sections is not justified and federal funds will not be available to upgrade these two traffic signals. Moreover, being unwarranted, these traffic signals will pose unnecessary liability for City unless removed.

As such, the Department of Public Works respectfully requests the adoption of the attached resolution for the removal of the traffic signals at the above mentioned two (2) locations. If approved, the costs associated with the traffic signal removal at these two locations will be covered by the CMAQ Project.

Respectfully submitted,

Director

By Council President Pro Tem Brown:

Resolved, That in accordance with the foregoing communication, removal of traffic signals at the following two (2) locations is hereby approved.

Honorable City Council:

Re: Petition No. 2551 — Yaldo Construction, requesting to vacate alleys located north of W. Warren between Westwood and Grandville.

Petition No. 2551 of "Yaldo Construction", whose address is 31000 Northwestern Highway, Suite 110, Farmington Hills, MI 48334, request the conversion of the East-West public alley, 20 feet wide, in the block bounded by Sawyer Avenue, 50 feet wide, West Warren Avenue, 50 feet wide, Westwood Avenue, 60 feet wide and Grandville Avenue, 60 feet wide, into a private easement for utilities. This closure will facilitate necessary and additional parking spaces for a new development.

The request was approved by the Solid Waste Division — DPW, and Traffic Engineering Division — DPW. The petition was referred to the City Engineering Division — DPW for investigation (utility review) and report. This is our report.

All City Departments and privately owned utility companies have reported no objections to the conversion of the public rights-of-way into private easements for utilities. Provisions protecting utility installations are part of this resolution.

I am recommending adoption of the attached resolution.

### **Detroit Police Department**

March 27, 2013

Honorable City Council:

Re: Request to Enter into an Inter-governmental Agreement with the Wayne County Prosecutor's Office to Fund Its Sexual Assault Team.

Annually, the Detroit Police Department (DPD) is awarded grant funding from the Department of Justice (DOJ), Office of Justice Programs, Bureau of Justice Assistance through an Edward Byrne Memorial Justice Assistance Grant (JAG). In Fiscal year 2012, the Department was awarded \$1,154,255.00 to utilize for various law enforcement purposes through award number 2012-DJ-BX-0730. Over the past few years, the Department has partnered with the Wayne County Prosecutor's Office (WCPO) as part of a successful Sexual Assault Kit (SAK) Action Research project. As part of this Project hundreds of kits were tested, resulting in a number of arrests and convictions of sexual predators.

The Criminal Investigations Bureau

(CIB) would like to continue this Project and provide funding through the 2012 JAG Grant to the WCPO for its Sexual Assault Team (SAT) for the continued vertical prosecution of sexual assault cases. The CIB would like to allot \$400,000.00 from the 2012 JAG budget for this purpose. The DOJ has formally authorized the Department to provide this funding to the WCPO. An Intergovernmental Agreement between the City of Detroit and the WCPO has been drafted. This Agreement has been reviewed and approved by Senior Assistant Corporation Counsel Thomas Cipollone of the Law Department.

Participation requires the approval of your Honorable Body, via adoption of the attached resolution.

If you have any questions or concerns regarding this matter, please feel free to contact me at 596-1800, Monday through Friday, 9:00 a.m. to 5:00 p.m.

By Council President Pro Tem Brown:

RESOLVED, That the Detroit Police Department be and is hereby authorized to utilize its 2012 Edward Byrne Memorial Justice Assistance Grant (JAG) (award number 2012-DJ-BX-0730) to fund the Wayne County Prosecutor's Office (WCPO) Sexual Assault Team (SAT) in the amount of \$400,000.00 as part of an Intergovernmental Agreement, and be it further

RESOLVED, That the Finance Director be and is hereby authorized to establish the necessary cost centers and appropriations, transfer funds, honor payrolls and vouchers when presented, as necessary, for the operation of the program as outlined in the foregoing communication.

RESOLVED, That the Police Department through the Chief of Police or its Assistant Chief is authorized to enter into said Intergovernmental Agreement.

**INTERGOVERNMENTAL AGREEMENT  
 BETWEEN  
 THE CITY OF DETROIT  
 AND  
 THE WAYNE COUNTY  
 PROSECUTOR'S OFFICE  
 REGARDING THE EDWARD BYRNE  
 MEMORIAL JUSTICE ASSISTANCE  
 GRANT PROGRAM FY2012  
 LOCAL SOLICITATION AWARD**

This Intergovernmental Agreement ("Agreement") is entered into by and between the City of Detroit (City) and

through its Police Department and the Wayne County Prosecutor's Office (WCPO) to set forth the terms and conditions regarding the Federal Edward Byrne Memorial Justice Assistance Grant Program FY 2012 Local Solicitation (Byrne JAG) Award, effective October 1, 2012.

Whereas, The Edward Byrne Memorial Justice Assistance Grant (JAG) Program (42 U.S.C. 3751(a)) is the provider of federal criminal justice funding to state and local jurisdictions. JAG funds support all components of the criminal justice system, from multi-jurisdictional drug and gang task forces to crime prevention and domestic violence programs, courts, corrections, treatment, and justice information sharing initiatives. JAG-funded projects may address crime through the provision of services directly to individuals and/or communities and by improving the effectiveness and efficiency of the criminal justice systems, processes and procedures.

Whereas, The City, in support of the purposes of the Byrne JAG, agrees to allocate \$400,000.00 of the City's Byrne JAG award to the Detroit Police Department to fund the WCPO's Sexual Assault Team (SAT) for continued vertical prosecution of sexual assault cases.

Whereas, Such allocation is agreed to be the equitable allocation to the WCPO for the period of one year, starting 10/01/12 and ending 09/30/2013, pursuant to one of the purposes of the Byrne JAG which is to support local criminal justice systems that includes both prosecution and law enforcement.

Whereas, It is agreed that maintaining the WCPO's Sexual Assault Team is crucial to public safety in Detroit and to the successful completion of the collaborative effort of the Detroit Sexual Assault Kit (SAK) Action Research Project, of which the DPD and the WCPO are parties.

Whereas, The United States Department of Justice approved the Grant Adjustment Notice (GAN) for 2012-DJ-BX-0730, which specifically requested approval of part of the City's allocation of the Byrne JAG award, which part is in the amount of \$400,000.00, to the WCPO.

Now therefore, In consideration of the mutual undertakings of the parties, the City and the WCPO agree as follows:

1. For purposes of administrative efficiency, it is agreed between the parties that Wayne County, a Michigan Municipal Corporation, by and through its Sheriff's office, which is the Byrne JAG's fiscal agent ("Wayne County"), will reimburse the allocated \$400,000.00 of the City's Byrne JAG award directly to the WCPO. This reimbursement procedure serves as an alternative to a procedure where Wayne County would reimburse the City

its total award and the City would then reimburse the WCPO.

2. It is further understood and agreed that the WCPO will not submit original invoices to the City but instead will submit electronic monthly invoices, along with all grant-required documents, to Wayne County and will be reimbursed accordingly and directly from Wayne County, not to exceed the amount of \$400,000.00 from the City's FY2012 Byrne JAG award. WCPO will submit electronic copies of aforementioned invoices and grant-required documents to the City for its reporting requirements.

(a) WCPO shall submit monthly invoices for purposes of reimbursement to: Shelia Mulhern, Director of Grants Administration, Wayne County Sheriff's Office at smulhern@co.wayne.mi.us on behalf of Wayne County.

(b) Copies of Monthly invoices for record keeping and reporting will be sent to: Lieutenant Michael A. Chambers, at chambersm997@detroitmi.gov on behalf of the City of Detroit.

The name and contact information of each person named above in subsections 2(a) and 2(b) may be changed by written notice given by electronic mail to the other party.

3. Once this Agreement is effective pursuant to Paragraph No. 4 below this Agreement shall be deemed retroactive to October 1, 2012.

4. This Agreement shall not be effective, nor shall any amendment take effect until all of the following occur, and in the following order:

- a. It has been approved by the required Wayne County and City departments;
- b. It has been authorized by the Wayne County Commission; and
- c. It has been authorized by the Detroit City Council.

5. Any amendments to this Agreement must be in writing, and approved and authorized in accordance with the procedure set forth in Paragraph No.4 above.

6. None of the parties to this Agreement shall be responsible for the acts or omissions of the other party or parties to this Agreement.

7. None of the parties to this Agreement waive their right to sovereign immunity and no rights or benefits are intended to inure to third parties as a result of this Agreement.

8. This Agreement shall be subject to the laws of the State of Michigan and to Federal laws pertaining to the JAG and to governmental recipients and subrecipients of Federal grants.

9. Wayne County and the WCPO shall comply with Michigan law and all requirements of the JAG and other related laws and regulations pertaining to governmental recipients and subrecipients of Federal grants.

Re: Authorization to Amend the FY 2012-13 Budget for the Detroit Public Library.

The Detroit Public Library (DPL) is requesting authorization to amend its Fiscal Year 2012-13 Adopted Budget to increase projected revenues and offsetting appropriations by \$1,585,342. The current budget was submitted in December 2011 before Workbrain scheduling and costs were finalized with the City of Detroit ITS Department and prior to approval by the Library Commission. The Library went live with Workbrain on Monday, April 22, 2013, the anticipated cost was approximately \$1,000,000. Additionally we have incurred unanticipated legal fees totaling \$220,000. Finally, we have incurred a past due expense for fiscal year 2011 in the amount of \$365,341.61 for the Internet access and telecommunication services for the Library system. DPL requests to increase its FY 2012-13 Department Appropriation 10454 from \$17,809,323 to \$19,394,665, an increase of \$1,585,342. In September 2012 the Michigan Library Association

issued a publication stating Michigan's public libraries would receive renaissance zone reimbursements in 2013. The Library will receive \$930,086. The Library anticipates receiving revenue in the amount of \$655,256 from its prior year Surplus account by the end of the fiscal year.

Honorable City Council:  
Re: Surplus Property Sale — 2272, 2264, 2252, and 2246 East Canfield.

The City of Detroit acquired as tax foreclosed property from the Wayne County Treasurer, 2264 and 2272 East Canfield. The City acquired 2252 and 2246 E. Canfield from tax foreclosure from the State of Michigan. These properties are located on the south side of East Canfield, between Chene and St. Aubin. This property consists of three vacant lots and a single family residential structure on 2264 E. Canfield, located on an area of land measuring approximately 18,460 square feet and is zoned R-3 (Low Density Residential District).

The purchaser proposes to rehabilitate the property for use as a "Single Family Residential Dwelling" and use the other three lots as accessory green space and for gardens. This use is permitted as a matter of right in a R-3 zone.

The structure is approximately 400 square feet and needs a new roof and all new plumbing, electrical and gas hook-ups. Considering the incredibly small size

of the house, the relatively low market value of homes in the area, and all the needed improvements to the house, Planning and Development priced the home at \$800 and the vacant lots at \$280 per lot (\$10 a frontage foot) for a total sale price of \$1,640. Planning and Development supports this sale to save a historic home that would otherwise be demolished or burned and to clear blight on three more lots.

We request your Honorable Body's approval to accept the offer to purchase from Katherine Andresky, for the sales price of \$1,640 on a cash basis plus an \$18.00 deed recording fee per parcel.

Respectfully submitted,  
ROBERT A. ANDERSON  
Director

By Council Member Jenkins:

Resolved, That the Planning and Development Department is hereby authorized to accept this Offer to Purchase for property, located on an area of land measuring approximately 18,460 square feet and zoned R-3 (Low Density Residential District), described on the tax roll as:

Honorable City Council:

Re: Petition No. 2683 — Foran's Grand Trunk Pub for Outdoor Café Permit at 608 & 612 Woodward.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on city right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Department of Health and Wellness Promotion (DHWP) has approved this petition, subject to petitioners strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from DHWP Food Sanitation Section.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Historic District Commission has issued the Certificate of Appropriateness for this location as of March 20, 2013 provided that all movable outdoor café equipment be removed from the public right-of-way during the months of December through March and no off premises advertising signs be allowed.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three (3) years, from the date of your Honorable Body's approval.

Respectfully submitted,

Honorable City Council:

Re: Central Business District Project No. 3. Parcel 604 (10' x 105'), located at the Northeast corner of Macomb & St. Antoine.

In 1950, as the result of condemnation proceedings to acquire land for the Traffic and Ordinance Division of the Recorder's Court of the City of Detroit, the above-captioned parcel 604 was awarded to the City of Detroit, along with other properties. The Planning & Development Department is now in receipt of an offer from Greektown Superholdings, Inc., a Delaware Corporation, to purchase Parcel 604, for the amount of \$49,000.00.

The City of Detroit quit-claimed the traffic court site to Wayne County in 1978. The deed, however inadvertently excluded Parcel 604, a small strip of land, measuring approximately 1,050 square feet and located at the Northeast corner of the site. Since that time subsequent legal descriptions on Wayne County and City records have also excluded Parcel 604. The Planning & Development Department discussed this matter with the Department of Public Works, City Engineering Division. It has been determined that Parcel 604 is not an existing public right-of-way or public easement.

In July 2001, Greektown Superholdings, Inc. purchased the traffic court site from Wayne County and built the Greektown Casino Hotel parking deck. The area is zoned PD (Planned Development District). All necessary permits and approvals from other city departments and your Honorable Body

were obtained. The building line of said parking deck, however, crosses Parcel 604. To correct this situation, the Planning and Development Department wishes to move forward with the offer by Greektown Superholdings and issue a Quit Claim Deed to the property.

We, therefore, request that your Honorable Body approve the land sale resolution with a Waiver of Reconsideration and authorize the Planning & Development Department's Director, or his authorized designee, to issue a quit claim deed to Parcel 604 and such other documents as may be necessary to effectuate the sale, subject to final approval by the Detroit Emergency Manager, or his authorized designee.

Resolved, That in accordance with the Offer to Purchase and the foregoing communication, the Planning & Development Department's Director, or his authorized designee, subject to final approval by the Detroit Emergency Manager, or his authorized designee, be and is hereby authorized to issue a quit claim deed to parcel 604, the property more particularly described in the attached Exhibit A, and such other documents as may be necessary to effectuate the sale, with Greektown Superholdings, Inc., a Delaware Corporation, for the amount of \$49,000 with a Waiver of Reconsideration.

The City of Detroit has reacquired title to that portion of the Vaughn-Reid Boat Launch Ramp parking area within Harbor Hill Marina, previously held by Morgan Waterfront Estates. Accordingly, the Planning and Development Department now wishes to transfer jurisdictional con-

Honorable City Council:

Re: Petition No. 2759 — Germack Coffee Roasting Company for Outdoor Café Permit at 2517 Russell.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-per-

mit fee to the Permit Section of the DPW/CED.

The Institute for Population Health (IPH) has approved this petition, subject to the petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. Also, no food service is allowed without prior approval from Food Safety and other City departments.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three years (3) from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager.

Respectfully submitted,  
ROBERT ANDERSON  
Director

By Council Member Jenkins:

Resolved, That the Department of Public Works — City Engineering Division (DPW/CED) is hereby authorized and directed to issue a Use-permit to Germack Coffee Roasting Company, Detroit "permittee", whose address is at 2517 Russell, Detroit, Michigan 48207, to install and maintain an outdoor café, which will convene April 1st through November 30th, for a period of three (3) years from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager, contingent upon licensee of such premises obtaining approval of the Michigan Liquor Control Commission, if necessary, and compliance with applicable City Ordinance in connection with outdoor café activities, prior to the issuance of said use permit; and

Provided, That the café meets the regulations set by the "Outdoor Café Guidelines" as adapted by the City Council and guided by Chapter 58, Section 58-2-8.1 of the City Code; and

Provided, That said activities are conducted under the rules and regulations of the Department of Transportation, Department of Public Works and the supervision of the Police Department; and

Provided, That the sale of food and soft drinks is held under the direction and inspection of the Institute of Population Health; and

Provided, That the "permittee" remit the required annual fee(s) to DPW/CED for issuance of a use-permit and confirm license of the establishment in compliance with the City Code; and

Provided, That the filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That no rights in the public streets, alley or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachment shall be removed at the expense of the "permittee" at any time when so directed by City Council, and that the public property so affected shall be restored to a condition satisfactory to the DPW/CED by said "permittee" at its expense; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide pedestrian clearance on the sidewalk, free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the café; and

Provided, That if any tent or other enclosure is to be utilized on the subject site, the applicant shall secure prior approval from Buildings and Safety Engineering Department and the Department of Public Works/City Engineering Division; and

Provided, That an administrative permit from the Department having jurisdiction over temporary encroachment on City right-of-ways must be secured on an annual basis; and

Provided, That all railing equipment and fixtures shall be removed from the public right-of-way during the months of

non-operation and placed in storage; and  
Provided, That a certified copy of this Resolution shall be recorded with the Office of the Register of Deeds for Wayne County at the "permittee's" expense;

Re: F.Y. 2013-2014 Act 51 Michigan Transportation Fund.

Each year the City of Detroit receives a distribution of Michigan Transportation funds in accordance with Act 51, Public Act of 1951, as amended.

Past experience has indicated that the level of expenditure required to maintain the Local Streets has been somewhat greater than the amounts of funds received for this purpose.

Section 13 (6) of Act 51, P.A. 1951 as amended, however, allows a city to use on the local street system up to 50 percent per annum of funds returned to the City for its major street system.

To take advantage of this allowable transfer of funds and to more accurately reflect expenditures of the street system, we respectfully request that your Honorable Body adopt the attached resolution, which authorizes the Finance Director to accomplish the transfer.

**RESOLUTION OPPOSING EXPANSION OF I-94 EXPRESSWAY FOOTPRINT AND SUPPORTING NECESSARY INVESTMENTS FOR MAINTENANCE AND OTHER DESIGN IMPROVEMENTS REGARDING ENTRANCE AND EXIT RAMPS ON I-94**

By ALL COUNCIL MEMBERS:

WHEREAS, The Draft 2040 Regional Transportation Plan prepared by the Southeast Michigan Council of Governments (SEMCOG) includes major highway reconstruction and capacity expansion projects on I-94 in Detroit and other major highways, with total projected costs exceeding \$4 billion; and

WHEREAS, The Long-Range Plan states that traffic congestion in Southeast Michigan is "limited," that the region is not expected to regain its 2000 population within the next 25 years, and that any increase in traffic levels will be modest; and

WHEREAS, Expansion of the existing I-94 footprint in the City of Detroit threatens significant negative impacts to the neighborhoods it traverses, including displacement of residents, destruction of local tax base, increases in traffic noise, aggravated air pollution, and continued disinvestment at a time when such an expanded footprint appears to be unnecessary; and

WHEREAS, Other aspects of the Draft Plan affecting I-94, such as redesigning outmoded entrance and exit ramps, replacing or repairing aged and decaying

overpasses and other maintenance improvements, are justifiable expenditures and they are supported by Detroit City Council; and

WHEREAS, Scarce public transit funds should be expended and conserved for other uses, such as the aspects of the project that provide actual benefit to the communities served by Michigan roads and highways, rather than expanding existing highways, including I-94 in Detroit; and

WHEREAS, Within the City of Detroit these needs include street and bridge resurfacing and repair, local street maintenance and other costs such as mowing grass and tree trimming along streets and compliance with disability and complete street requirements; and

WHEREAS, That the Detroit City Council opposes the inclusion of highway capacity expansion projects, including I-94 in the 2040 Long-Range Plan, unless and until a full re-examination of the project shows that it is necessary, that no preferable alternatives exist, and that the benefits of such expansion of I-94 substantially outweigh the adverse effects on the neighboring communities; and NOW THEREFORE BE IT

RESOLVED, That the Detroit City Council respectfully requests that SEMCOG join the City of Detroit in opposition to highway capacity expansion projects, including I-94 in the 2040 Long-Range Plan; and BE IT FURTHER

RESOLVED, That the funding currently programmed for these highway capacity expansion projects be redirected to other roadway projects, such as preventative maintenance and rehabilitation of existing major roads and bridges, addressing critical safety needs, and otherwise enhancing quality of life; and BE IT FINALLY

RESOLVED, That a copy of this Resolution be sent to Marisol Simon, Regional Administrator of the Federal Transit Administration, Governor Rick Snyder, Mayor Dave Bing, Paul Tait, Executive Director of SEMCOG, the SEMCOG Executive Committee Board members, the Michigan Department Transportation, and members of the Detroit delegation in the Michigan State Legislature.

**Roseville, Michigan 48066**

God, I came before you this morning, first giving thanks for all that you do. For you alone are God, awesome in power and the giver of life. You have shown mercy toward each one of us today by allowing us to wake up to see a new day that we have never experienced before. It is because of your mercy, your love and your grace that we are here today. And I just want to say thank you; I will exalt you and praise your name, for in perfect faithfulness you have done marvelous things. How awesome are your works! Through the greatness of your power; your enemies shall and submitted themselves to You.

- For you are the Good Shepherd; you are the Sovereign God, the God of Restoration

- You are the way, the truth and the life
- You are the Almighty one and our Deliverer, Awesome in power

- You are the Prince of Peace and our great Shepherd
- Our shelter in the time of storm; you reigns over heaven and earth.

As I stand before you in prayer, and the people stand in agreement, we are seeking your presence in this meeting today. Move in this place today. For we know and believe that prayer does change things. You said in your word; Matthew 7:7-8 "Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you; For every one that asketh receiveth; and he that seeketh, findeth; and to him that knocketh it shall be opened."

In spite of what it looks like, we know You are in control, for You promised to never leave or forsake us. The Word of

God says; Matthew 18:18 "Assuredly, I say to you, whatever you bind on earth will be bound in heaven, and whatever you loose on earth will be loosed in heaven.

In spite of what it looks like, we know you are in control, for you promised to never leave or forsake us. The Word of God says; Matthew 18:18 "Assuredly, I say to you, whatever you bind on earth will be bound in heaven, and whatever you loose on earth will be loosed in heaven."

- We bind up and cast out the strong holds that have had this city bound for so long.

- We bind out poverty and loose prosperity
- We bind out the spirit of fear and loose joy and peace

- We bind out the spirit of hatred and discrimination and loose the spirit of love
- We bind out the spirit of discouragement and loose encouragement

For, we will lift up our eyes unto the hills, from whence cometh our help. For we believe and know that our help cometh from you, which made heaven and earth. For you alone are God, you alone possess all power. You are our Father, you are Counselor, the Great I Am.

- You declared in your Word; that "whatever we ask, it shall come to pass, that before we call, you will answer; and while we are yet speaking, you will hear. You also said that the "prayers of the righteous availeth much."

Although times we are experiencing trying times, and may be feeling the pressures of life; we believe you. Paul said in 2 Corinthians 4:8 "We are hard-pressed on every side, yet not crushed; we are perplexed, but not in despair; persecuted but not forsaken; struck down, but we are not destroyed!"

For you are our god, You are our refuge and our fortress; and in You and only you will we trust. We don't trust in the promises of man but only in you God. For your word is truth. Your word is Power. Your Word alone can turn every situation around.

You said that whosoever shall say unto this mountain, be thou removed, and be thou cast into the sea; and shall not doubt in his heart, but shall believe that those things which he saith shall come to pass; he shall have whatsoever he saith.

<sup>24</sup>Therefore I say unto you, What things soever ye desire, when ye Pray, believe that ye receive them, and ye shall have them.

We ask this day:

- Fix the Brokenness-Restore this city to the place it once was; make it greater than the former place.

- Encourage the people of this city
- Make their burdens light
- Make the wrongs right
- Protect the people of this city
- Bless and prosper the people of this city

We ask that you give wisdom to all who hold offices in our government, those elected and appointed government officials.

There is Nothing Impossible for God. For we trust that you will act on this Word today. For believe that no weapon formed against this city, or the people of this city shall prosper. We declare your blessings and victory over the people of the City of Detroit and the State of Michigan this day in your mighty name, we pray and say, AMEN.

**PUBLIC COMMENT:**

**STEVEN BOYLE:** Thank you for passing resolution on June 5th regarding the petroleum coke that is being stored at the Transport Terminal location, etc. We had a wonderful successful in hearing Nicholson Terminal say that they would not longer being handling petroleum coke. We are looking forward to hear about the cleaning up of their dock location. We did not hear the Mayor and the rest of the departments expressing their support and we are still waiting for the Law Department to come up with the injunction that they were suppose to come up with a month ago.

**McKENZIE DUKE:** I live next to the coke pile at 1915 W. Fort Street, the Hudson Loft Building. The building has tried to remediate but the dust is overwhelming. The dust blows when the wind blows; then there is dust when they load the conveyors. It is affecting my health and it is very hard to breathe there last night; the humidity holds it in the air and makes it even worse. We are also looking for Council and the Administration to do their part; we can't do it all. We need you to work with us so that we can make this go away.

**Council President Saunteel**

**Jenkins:** Mr. Hollier, why is Building and Safety not responding?

**Adam Hollier,** Mayor's Office: The Administration has been working with two (2) vendors to be come in compliance with all the applicable codes and laws. The Administration does feel that it is limited in its ability to police this item because it is relatively new; because the MEDQ as well as the EPA have emphasized that there are no serious health risks as a result of this product.

**Council President Saunteel**

**Jenkins:** What does that mean, working with them to become compliant?

**Adam Hollier,** Mayor's Office: Buildings Safety and Engineering are

trying to reduce the levels of piles and they are working on a plan for that. They are additionally working on plan for the fugitive dust, similar to how they treat any other business.

**Council President Saunteel**

**Jenkins:** The difference with any other business, even strip clubs that is not going through people's windows. People are inhaling what is going on other businesses. So there is a sense of urgency here that doesn't seem to be connecting.

**Adam Hollier,** Mayor's Office: Once again the EPA and Department of Environmental Quality have been talking about, this is not a serious health risk and as a result it challenges the ability of us to use some of the more aggressive statutes. The Department is working with the vendor to remediate those issues and to bring the piles down.

**Council President Saunteel**

**Jenkins:** I think the EPA would say that sand doesn't hold any serious health risk but if people piles sand outside of people's homes and it was blowing through and impacting their daily lives that would be an urgent matter. We force people to cover piles of salt in other areas of this City and salt has been shown to not have any health impact too.

**Adam Hollier,** Mayor's Office: The administration is working to remediate those harms. It is not an immediate concern.

**Council President Saunteel**

**Jenkins:** It is not an immediate concern if you don't leave there.

**Council Member Brenda Jones:** I

want to say that it is a disrespect to the citizens that leave near there because they are the one that are inhaling and to say the administration is working with; any time someone is not in compliance, they shut them down. We are talking about something that is a potential health hazard. How long are they going to continue to work with someone to get them in compliance? How long is that process?

**Adam Hollier,** Mayor's Office: Even if we did go and shut them down today, it would not eliminate the piles. The administration is working to eliminate the risk. They are working through the process. The vendor has been forthcoming; they are working on a plan to make this no longer a harm for the residents that live in the near by community. I can't say that this is going to happen tomorrow but we are working as fast as we can to do this.

**Council Member JoAnn Watson:**

There should be a daily fine for deposits that are illegal; \$500 per load and it should be in the ordinance and

we should be voting on that ordinance next week. There is no permit for the dumping that is happening and the City has had police officer who have given folks tickets and run them out of business for vending at Eastern Market without appropriate license. That law needs to come forth to us for our vote urgently. We should have it next Tuesday and we should also have the Law Department review the independent status of the Corporation Counsel that is spelled out in this current Charter. You don't have to wait on the Executive Branch when someone is violating the law against the City. The Law Department can move and should.

**MR. LEE:** There is a lack of quality control coming from the product that is being sent out by the administration and it is affecting the quality of life. I don't agree with the transition of the Pro Tem. into a Deputy position but I am certain that he will be in a position to shut it down by the end of the day tomorrow. We need to just go ahead and do bankruptcy. It doesn't make sense to have this debt by a thousand cuts and it is not doing us any good.

**CINDY DARRAH:** People should come down and block the Petco trucks if the government can't.

**CHERRY SAY:** I am here representing the West Grand Blvd. Community Collaborative Coalition and we say no welfare to Henry Ford and invest in our neighborhoods.

**PRISCILLA McNEAL:** Concerned Citizen of the 48208 and I am voicing my opinion on the Henry Ford Deal, 8.2 million dollars; I can do a whole lot with 8.2 million dollars instead of giving it to a billion dollars corporation. All the problems that we are having in our City and we are giving that to a billion dollar corporation, that's unacceptable.

**CHRIS EVANS:** Resident of 16th Street in 48208 and I am here to talk about the tax waiver to be given to Henry Ford. It seems to me that if we have 8.2 million dollars to give to someone; with all the problems we're having in this City; it should be directed to those who have put in years of work and expecting promised pensions from that work. Money should be spent to restore the lighting where the people live and the transportation system.

**SUE SALES:** I worked at New Center Community Mental Health Services on the Blvd., became part of the W. Grand Blvd. Collaborative and also part of the negotiating team with Henry Ford

Health Systems. We have spent months trying to get CBA and a letter of agreement. We don't believe that Henry Ford is negotiating in good faith.

**STEPHANIE JENNINGS:** I live on the Westside of Detroit in the area or the Henry Ford Hospital and I have noticed the changes and homes that they have torn down. I am aware of the meeting that they are having at the giant Tabernacle Church on Grand River tomorrow. The flyer says it is for our updating and revitalizing the community; our meaning for themselves, not for the community.

**JOSEF SHAKOOR:** I have been a resident of the zone 8 community for 40 years. I have a business there. Henry Ford Hospital is a hazard to my community. It is a social cancer to the zone 8 community.

**TOMMY ROBBINS:** Four years ago my wife and I attended a meeting with Henry Ford Health System. We were invited by accident; they produced artist drawings of how Henry Ford Hospital envisioned the properties south of W. Grand Blvd. to 94 between John Lodge and Linwood, not to Grand River. After the meeting we were told that this information could not be given to anyone. There have been a lot of construction and destruction.

**MR. CUNNINGHAM:** God Bless the Council; spoke on the danger in the City; thanked his pastor. Call toll free line 855-313-3137 is help for resources and help. Asked that Kevyn Orr and the Governor look into the deplorable condition of DDOT and gave Kevyn Orr's phone number — 313-224-3400; Governor Snyder's number is 1517-335-7858.

**HELEN MOORE:** Gave honor to God. I have been looking and listening to Council and had to say that I hope you do not resign. Kevyn Orr and Snyder are not doing their job. Kevyn Orr is no good for the City and neither is Rick Snyder.

**MS. ROBBINS:** The voters of the City of Detroit have given this Honorable Body the respect of our vote and the responsibility of serving in the best interest of Detroit citizens. It is for these reasons that the West Grand Blvd. Community Coalition urges Detroit City Council to vote no on 8.2 million dollars of tax credits for Henry Ford Health Systems and development partners Kirco Management.

**VOTING ACTION MATTERS**  
NONE.

## Budget Department

June 18, 2013

Honorable City Council:

Re: Authorization to Amend the FY 2014 Budget.

The Budget Department requests that your Honorable Body amend the City's FY 2014 Budget to include the correction of errors and technical change — ERRATA presented to you on May 23 with insufficient time for your consideration in the City's statutory budget process. These changes include the consolidation of fire apparatus maintenance within the General Services Department, the partial restoration of contractual services with the Board of Zoning Appeals, and the adequate provision of maintenance costs for 800 MHz radios used by the City's first responders. The aggregate increase in appropriations totals \$525,020 and additional anticipated moneys from the State of Michigan to support restructuring activities provide the revenue balance.

Further adjustments to the FY 2014 budget are necessary to balance the \$12.5 million appropriation required for the Public Lighting Authority. Increases in state revenue sharing resulting from the final Michigan state budget for FY 2014 will defray nearly \$5 million of this expense, and we will present this amendment for your consideration upon the completion of the FY 2013 end-of-year budgetary adjustments. A Waiver of Reconsideration is requested.

Respectfully submitted,  
BRENT HARTZELL  
Interim Budget Director

**Downtown Development Authority**

June 20, 2013

Honorable City Council:

Re: Downtown Development Authority  
FY 2013-2014 Budget.

Pursuant to Article 28, Act 197, as amended, we have prepared the attached FY 2013-2014 Downtown Development Authority's General Fund Budget for your approval prior to its adoption by DDA.

The amount of funds available from the one mill tax for FY 2013-2014 has been estimated at \$850,000.00, net of collection delinquencies and reserves for tax settlements, reflecting an \$45,903.00 increase from the actual receipts for Fiscal Year 2012-2013. Transfer from the DDA's Tax Increment Fund of an amount of \$750,000.00 will increase by \$250,000.00 over the 2012-2013 allocation.

The FY 2013-2014 budget reflects revenues of \$770,000.00 to be generated from the parking operations, representing a \$70,000.00 decrease from Fy 2012-2013 attributable to the sale and redevelopment of DDA's parking lot located on Randolph Street. Transfer from Fund Balance has been estimated at \$229,000.00, which is needed to offset the anticipated shortfall in revenue for FY 2013-2014.

On the appropriations side, contractual services of \$1,600,000.00, reflects a \$100,000.00 increase from last year's allocation. The budgeted amount of \$476,000.00 for professional services and fees, inclusive of a \$10,000.00 expense for Computer Support, reflects a \$10,000.00 increase from the 2012-2013 Fiscal Year attributable to anticipated

increase in insurance costs. There is no FY 2013-2014 budgeted expenses related to parking operations. Finally, \$500,000.00 of allocated funds for Special Projects and Contingencies for FY 2013-2014 indicates no increase from last year.

We respectfully request City Council's approval of the attached budget at its July 2, 2013 formal meeting. A waiver of reconsideration is requested.

Honorable City Council:

Re: Correction of Legal Entity and Approval of the Emergency Manager for the City of Detroit Former Detroit Fire Department Headquarters Building Development: 250 West Larned.

On March 5, 2013, your Honorable Body authorized the sale of the above captioned property to 21 Century Holdings LLC, a Michigan Limited Liability Company, for the purpose of redeveloping it into an independent boutique hotel, restaurant, bar, an urban chic lobby lounge and specialized meeting and event space.

It has come to our attention that the name of the legal entity was incorrect. Accordingly, the sale to 21 Century Holdings LLC, a Michigan Limited Liability Company (entity that submitted response to RFP) should be amended to show 250 West Larned LLC, a Michigan Limited Liability Company (entity formed after submission of RFP to develop property), as the actual buyer. The development team remains the same as originally approved by your Honorable Body.

We therefore request that your Honorable Body adopt the attached resolution authorizing an amendment to the sales resolution to reflect a name change in the purchaser from 21 Century Holdings LLC, a Michigan Limited Liability Company to 250 West Larned LLC, a

Michigan Limited Liability Company and the approval of the Emergency Manager for the City of Detroit per Public Act 436 of 2012.

Respectfully submitted,  
ROBERT ANDERSON  
Director

By Council Member Jenkins:

Resolved, That in accordance with the foregoing communication, the authority to sell property described on the tax rolls as:

a/k/a 250 West Larned

Ward 02 Items 000119-36

be amended to reflect a name change from 21 Century Holdings LLC, a Michigan Limited Liability Company to 250 West Larned LLC, a Michigan Limited Liability Company;

and be it further

Resolved, That this agreement to purchase and develop be considered confirmed when signed and executed by the Planning & Development Department's Director, or his authorized designee, or as necessary by the Emergency Manager for the City of Detroit, or his authorized designee, and approved by the Corporation Counsel as to form.

and be it further

Resolved, That, in accordance with Section 19(1) of Public Act 436 of 2012, the sale by the Emergency Manager for the City of Detroit of land in the City of Detroit, Wayne County, Michigan, described as: Lots 9 and 10, West 23.80 feet of Lot 11, Except East 4 feet of North 37.25 feet Military Reserve, as recorded in Liber 5, Page 218 City Records, Wayne County Records, and commonly known as 250 W. Honorable City Council:

Re: Review and Approval of Adjustments to HOME Awards and Modifications.

The City of Detroit, through the Planning and Development Department ("P&DD"), has continued to work closely with the U.S. Department of Housing and Urban Development ("HUD"), in making required annual disbursements and com-

mitments of City of Detroit HOME funds for the 2012 fiscal year. The HOME program is authorized under Title II of the Cranston-Gonzalez National Affordable Housing Act and is designed exclusively to create affordable housing for low-income households. Eligible activities under the HOME program include:

- Providing home purchase or rehabilitation financing assistance to eligible homebuyers;
- Building or rehabilitating housing for rent or homeownership; and
- Other reasonable and necessary expenses related to the development of non-luxury housing.

HOME funds are awarded on a formula basis and are included in the annual entitlement award from HUD and are part of the Consolidated Plan.

Each year, P&DD issues a Request for Proposals ("RFP") to solicit projects and development partners to receive HOME funds. Proposals are ranked according to developer capacity and experience, funding leveraged, "readiness to proceed" and projected impact on Detroit neighborhoods and housing markets. P&DD has received additional oversight and technical assistance from HUD during its commitment and disbursement process which caused some challenges and also created some opportunity for enhancement of many of its projects. During the November, 2012 allocation process, the City Council approved allocations of \$31,575,751 for HOME projects that leveraged \$138,315,297 from private and other public funding partners. Those allocations will result in the rehabilitation or new construction of 559 HOME-Assisted units and a total of 779 housing units. Most of the projects have closed and are under construction. P&DD is in the process of completing the review of due diligence documentation required to close the final group of projects from the fall allocation process.

Consistent with the new process adopted by City Council last summer for approving HOME awards and development partners, the Department is requesting that your Honorable Body review and approve the attached lists. The first list contains projects that are either in the construction process and require additional funding to complete construction, project related financing and improvements, or the project is preparing to get to a City loan closing by submitting due diligence documents and/or closing binders requires additional finding to cover a project shortfall. The second list contains two projects that require P&DD to subordinate and or modify City HOME Loan(s) for new lenders to finance new improvements or refinance the original first mortgage debt at lower annual interest rate.

We request approval of the attached resolution with a waiver of reconsideration so additional housing investments and neighborhood reinvestment through the HOME program can continue. Should you have questions or require additional information, please do not hesitate to contact me.

By Council Member Jenkins:

Whereas, Capitol Park Partnership, LLC, has filed with the City Clerk an Application for an Obsolete Property Rehabilitation Exemption Certificate, under Public Act 146 of 2000 ("the Act") in City of Detroit Obsolete Property Rehabilitation District in the manner and form prescribed by the Michigan State Tax Commission; and

Whereas, This City Council is a Qualified Local Governmental Unit as defined by the Act; and

Whereas, This City Council on October 9, 2012, established by Resolution an Obsolete Property Rehabilitation District in the vicinity of 1145 Griswold, Detroit, Michigan, after a Public Hearing held, in accordance with the Act; and

Whereas, The taxable value of the property proposed to be exempt plus the aggregate taxable value of property already exempt under the Act and under Public Act 198 of 1974 does not exceed 5% of the total taxable value of property in the City of Detroit; and

Whereas, The Applicant is not delinquent in any taxes related to the facility; and

Whereas, The Application is for obsolete property as that term is defined in Section 2(h) of the Act, which property is owned by the Applicant; and

Whereas, Commencement of the rehabilitation of the subject facility did not occur before the establishment of the Obsolete Property Rehabilitation District; and

Whereas, The Application relates to a rehabilitation program that when completed constitutes a rehabilitated facility within the meaning of the Act and which is situated within the aforesaid City of Detroit Obsolete Property Rehabilitation District; and

Whereas, Completion of the rehabilitation is calculated to, and will at the time the Certificate is issued, have the reasonable likelihood of increasing and/or retain-

ing employment, increasing commercial activity, revitalizing an urban area, or increasing the number of residents in the community in which the facility is located; and

Whereas, The rehabilitation includes improvements aggregating 10% or more of the true cash value of the property at the commencement of the rehabilitation as provided by Section 2 (l) of the Act; and

Whereas, This City Council has granted until May of 2015 for the completion of the rehabilitation; and

Whereas, On June 20, 2013, in the City Council Committee Room, 13th Floor, Coleman A. Young Municipal Center, Detroit, Michigan, a formal hearing was held on aforesaid application, at which time the Applicant, the Assessor, the general public, and representatives of the affected taxing units had an opportunity to be heard; and

Whereas, Notice was given by certified mail to the Detroit Board of Education, the City of Detroit Board of Assessors, the Wayne County Board of Commissioners, Wayne County Community College, the Wayne County Intermediate School District, the Huron-Clinton Metropolitan Authority, the Applicant, and by publication to the general public, informing them of the receipt of the Application, the date and location of the Public Hearing, and the opportunity to be heard;

Now Therefore Be It

Resolved, That it is hereby found and determined that the granting of an Obsolete Property Rehabilitation Exemption Certificate, considered together with the taxable value of Obsolete Property Rehabilitation Exemption Certificates and Industrial Facilities Exemption Certificates if previously granted and currently in force, will not have the effect of substantially impeding the operation of the local governmental unit or impairing the financial soundness of any other taxing unit which levies an ad valorem property tax within the City of Detroit; and be it further

Resolved, That it is hereby found and determined that the Applicant has complied with the requirements of the Act; and be it further

Resolved, That the application of Capitol Park Partnership, LLC, for an Obsolete Property Rehabilitation Exemption Certificate, in the City of Detroit Obsolete Property Rehabilitation District is hereby approved for a period of Twelve (12) years and the certificate expiring December 30 2025, in accordance with the provisions of the Act; and be it further

Resolved, That the City Clerk shall forward said Application to the Michigan State Tax Commission as provided by the Act, and be it further

Resolved, That the rehabilitation of the facility shall be completed no later than

May 15, 2015, unless an extension of that time period is granted by this City Council, which extension shall be granted if this City Council determines that the rehabilitation of the facility is proceeding in good faith and the proposed extension is reasonable; and be it finally

Honorable City Council:  
Re: Neighborhood Stabilization Program (NSP 1) Amendment to the HUD Consolidated Plan: Activity Change Budget Revision.

The Planning and Development Department (P&DD) respectfully requests that your Honorable Body review and approve the attached resolution authorizing an Amendment to the 2008 HUD Consolidated Plan for the Neighborhood Stabilization Program ("NSP 1").

The purpose of the amendment is to assist in facilitating final reconciliation and expenditure of the grant funds. Specifically, the activity changes reflect a modification in four (4) of six (6) budgeted activities shown below.

	Current Amount	Proposed Amount
Acquisition	\$ 2,587,961.00	\$ 2,256,768.74
Administration	500,000.00	647,002.23
Demolition	19,941,618.00	19,941,618.00
Disposition	1,773,196.00	2,252,261.28
New Construction	4,578,000.00	4,578,000.00
Rehabilitation	17,756,915.00	17,462,039.75
<b>TOTAL:</b>	<b>\$47,137,690.00</b>	<b>\$47,137,690.00</b>

These changes are necessary to ensure that all funds will be expended for NSP 1. In essence, the changes reflect decreases to the Acquisition and rehabilitation lines and increases to the Administration and Disposition lines. To date, \$43,138,132.54 has been expended, leaving a balance of \$3,999,557.46; these changes are necessary to draw-down the remaining balance.

We respectfully request the authorization of this change to amend the 2008 HUD Consolidated Plan for the stated purpose by approval of the attached resolution. The City has been in conversation with HUD about these changes. Upon City Council's approval, it will be transmitted to HUD for final approval. Thank you for your time and consideration.

Honorable City Council:

Re: Petition No. 2800 — Small Plates for Outdoor Café Permit at 1521 Broadway.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every

April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual user-permit fee to the Permit Section of the DPW/CED. In addition, rails and planter boxes are removed annually after November 1st, from the right-of-way.

The Institute for Population Health (IPH) has approved this petition, subject to the petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Historic District Commission has issued the Certificate of Appropriateness for this location as of May 16, 2013, provided that all movable outdoor café equipment be removed from the public right-of-way during the months of December through March and no off premises advertising signs be allowed.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every April 1st through November 30th for a period of three years (3) from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager.

Respectfully submitted,

Financial Manager, contingent upon licensee of such premises obtaining approval of the Michigan Liquor Control Commission, if necessary, and compliance with applicable City Ordinance in connection with outdoor café activities, prior to the issuance of said use permit; and

Provided, That the café meets the regulations set by the "Outdoor Café Guidelines" as adapted by the City Council and guided by Chapter 58, Section 50-2-8.1 of the City Code; and

Provided, That the sale of food and soft drinks is held under the direction and inspection of the Institute of Population Health; and

Provided, That the "permittee", prior to obtaining said permit, file an indemnity agreement in a form approved by the Law Department, saving and protecting the City of Detroit harmless from any or all claims, damages or expenses that may arise by reason of the issuance of said permit and the faithful performance by the "permittee" of the terms thereof; and in addition, to pay all claims, damages or expenses that may arise out of the maintenance of said encroachments; and

Provided, That the filing of said indemnity agreement for this current year shall be construed as acceptance of this Resolution by the "permittee"; and

Provided, That the permit is revocable at the will, whim and caprice of the City Council; and hereby expressly waives any right to claim damages or compensation for removal of encroachment, and further, that "permittee" acquires no implied or other privileges hereunder not expressly stated herein; and

Provided, That no other rights in the public streets, alley or other public places shall be considered waived by this permission which is granted expressly on the condition that said encroachment shall be removed at the expense of the "permittee" at any time when so directed by City Council, and that the public property so affected shall be restored to a condition satisfactory to the DPW/CED by said "permittee" at its expense; and

Provided, That the permit shall not be assigned or transferred without a written approval of the City Council; and

Provided, That the petitioner follow the mandated minimum six (6) foot wide pedestrian clearance on the sidewalk,

free of all obstacles such as existing planters, parking meters, utility poles, transformer boxes, etc., to allow for pedestrian movement; and

Provided, That the designated outdoor seating area shall be properly identified through the use of railings in order to regulate and control the serving of liquor within the perimeter of the café; and

Re: Request to Accept a 1970 Bell Helicopter from the United States Army Defense Support to Civil Authorities (DSCA) 1033 Program.

The Detroit Police Department (DPD) is an active member of the U.S. Department of Defense's 1033 Program. The 1033 Program permits the Secretary of Defense to transfer excess U.S. Department of Defense (DoD) personal property (supplies and equipment) to state and local law enforcement agencies. The requesting agency must be a government agency that has a primary function of enforcing laws and the recipient must accept the property on an as-is, where-is basis. All property is transferred on a first-come, first-served basis. Property received may not be sold, leased, rented, exchanged, bartered, used to secure a loan, used to supplement an agency's budget or stockpiled for possible future use.

The Detroit Police Department's Office of Homeland Security has located a 1970 Bell Helicopter, Aircraft Model OH58C, Serial Number 7015129 through this Program. The Delaware River and Bay Authority is willing to transfer the equipment to the DPD for its use.

The Board of Police Commissioners has already approved this request. Therefore, I now request approval from your Honorable Body to accept the helicopter and adopt the enclosed resolution.

Development: The South Phase of Parcel 4; generally bounded by the Chrysler Freeway (I-75), Rivard, Vacated Watson & North of Vacated Erskine.

On June 20, 2013, a public hearing in connection with the proposed sale of the captioned property in the Wholesale Distribution Center Rehabilitation Project No. 3 was held before your Honorable Body. All interested persons and organizations were given an opportunity to be heard.

The proposed redeveloper, Wolverine Packing Company, has submitted satisfactory evidence that they possess the necessary financial resources required to develop land in accordance with the Development Plan for the project.

Wolverine proposes to fence Parcel 4, maintain it and utilize it for future use, as overflow parking for their semi-trailers, tractors and other delivery vehicles.

The City of Detroit Master Plan of Policies currently designates the future land use in the area as IDP (Distribution/Port Industrial). In addition, the proposed use does not conform to the Modified Development Plan for the Wholesale Distribution Center Rehabilitation Project No. 3 (Eastern Market), which designates Wholesale/Retail mixed use, Food Distribution & Processing as the permitted land use for the subject site.

We, therefore, request that your Honorable Body authorize and confirm the sale and authorize the Planning and Development Department's Director, or his authorized designee, to issue a quit claim deed to Parcel 4 and such other documents as may be necessary to effectuate the sale, subject to final approval by the Detroit Emergency Financial Manager.

Respectfully submitted,  
ROBERT ANDERSON  
Director

By Council Member Jenkins:

Resolved, That the Planning and Development Department's Director, or his authorized designee, be and is hereby authorized to issue a quit claim deed to Parcel 4, more particularly described in the attached Exhibit A, and such other documents as may be necessary to effectuate the sale, in the Wholesale Distribution Center Rehabilitation Project No. 3, with Wolverine Packing Company, a Michigan Corporation, for the consideration of \$239,000, in accordance with the foregoing communication and the Development Plan for this Project, subject to final approval by the Detroit Emergency Financial Manager.

The Detroit Water and Sewerage Department (DWSD) reports no objections to outright vacation of the streets and alleys provided that the petitioner/ property owners/developer agrees to relocate the sewers and water mains in accordance with attached and part of the resolution provision for relocation at no cost to DWSD.

The petitioner has submitted a letter with City Engineering Division — DPW stating that they will adhere to the conditions/provision of Traffic Engineering and the necessary cost for the removal and rerouting of any such utilities the petitioner/owners (Kirco, Cardinal Health Distribution and Henry Ford Health System) will pay the entire cost.

**Budget Department Administration**

June 27, 2013

Honorable City Council:

The Budget Department requests that your Honorable Body amend the City's FY 2013 Budget to ensure adequate legislative authority to pay pension costs chargeable to the Department of Transportation. This adjustment is necessary due to actuarial revisions in the summer of 2012 that determined such costs to be underfunded in the adopted budget. Your Honorable Body passed budget amendments last November that restored adequate authority from the General Fund, and this amendment will complete this process sufficiently for DDOT.

We recommend to your Honorable Body that approximately \$4 million draw from the Prior Year Deficit account to assist the Department of Transportation.

We assure your Honorable Body that sufficient budget for future pension obligations is provided in the FY 2014 City budget that you recently adopted, thus removing the need for a similar mid-course adjustment in the new fiscal year beginning July 1.

Respectfully submitted,  
FLOYD STANLEY, JR.  
Deputy Budget Director

Approved:  
FLOYD STANLEY, JR.  
Deputy Budget Director  
By Council Member Cockrel, Jr.:

Resolved, In order to ensure sufficient budget authority in the Department of Transportation to pay for pension obligations, that the FY 2013 Budget of the City of Detroit be and is hereby amended as follows,  
Increase Appropriation No. 00146, DDOT Operations, by \$4,212,094; and

Decrease Appropriation 00444, Prior Year Deficit, by \$4,212,094.

And Be It Further Resolved, That the Finance Director be and is hereby authorized to increase the necessary accounts and honor vouchers in accordance with the foregoing communication and regulations of the City of Detroit. A Waiver of Reconsideration is requested.

#### **Budget Department Administration**

June 27, 2013

Honorable City Council:

The Budget Department requests that your Honorable Body amend the City of Detroit's FY 2013 Budget to implement budget cuts in line with Budget Directive 12-01 issued in August, 2012.

Budget Directive 12-01 authorized the Chief Financial Officer to reduce General Fund appropriations for transactions that did not adhere to manual accrual notification deadlines last August. More than \$7 million in budget authority is hereby removed from the FY 2013 budget in this proposed amendment to implement this directive, with moneys redirected to other appropriations that will enable eliminations of General Fund negative appropriations in a subsequent amendment. We note, however, that a significant portion of this transfer relates to interagency billings for services that were posted after the end of FY 2012 and thus not due to poor department financial controls.

We applaud the efforts of City departments in controlling their expenditures during FY 2013 in order to limit the recurrence of such an event.

Respectfully submitted,

**BRENT HARTZELL**

#### **Budget Department Administration**

June 27, 2013

Honorable City Council:

The Budget Department requests that your Honorable Body amend the City's FY 2013 Budget to resolve revenue shortfalls and negative appropriations with available budget authority prior to fiscal year end. The City's Revenue Estimating Conference determined in February that expected General Fund revenue for FY 2013 would decrease by \$22.1 million from estimates included in the initial budget. Accordingly, the FY 2013 City operating budget must be adjusted downward. This adjustment will be enabled by utilizing much of the Prior Year Deficit reserve,

for which deficit reduction is not feasible in the City's current operating environment.

As of June 21, 2013, more than 40 General Fund appropriations for FY 2013 are in deficit status. However, half of these instances result from inaccurate mapping of costs between the legacy PPS personnel database and the Oracle DRMS accounting system. I am pleased to report that the Human Resources, Budget and Finance Departments have identified clearly the source of the disagreement — an accumulation of unprocessed transfer documents over the last several years involving more than 1000 employees — and are working to remedy the problem permanently by this autumn. Where such improper mapping can be remedied before June 30, departmental staff are preparing technical journal entries that do not require formal budget amendments.

Presented here are the necessary substantive changes to ensure that all actively operating General Fund appropriations are spent or encumbered at no higher than 95 percent of annual appropriations as of June 21, leaving room for year-ending payroll costs and required accounting adjustments. Also, additional appropriations are provided in BSEED, Elections, General Services, Human Resources, and Health and Wellness Promotion to authorize critical operational needs of the City that have occurred during this fiscal year. We note that unused appropriations in certain agencies are tapped in certain instances to cover deficits realized in other agencies.

We applaud the efforts of department directors and their staffs to control their expenditures during the past year. Our financial control position has improved greatly in the last 12 months.

Respectfully submitted,

**BRENT HARTZELL**

Interim Budget Director

Honorable City Council:

Re: Akeila Horton and Anthony Thornton vs. City of Detroit. Wayne County Circuit Court Case No. 10-000473 NO. File No.: A37000.006968 (EBG).

On May 21, 2013, your Honorable Body approved the proposed settlement and payments to Akeila Horton and Anthony Thornton and their attorney, Jeffrey Edison, in the amount of Five Hundred Ninety Thousand Dollars and No Cents (\$590,000.00) in the above lawsuit. It has come to our attention that there was an error in the amount to be paid to the Plaintiffs. The proposed settlement should have provided that Plaintiffs were to be paid a total of Four Hundred Ninety Thousand Dollars and No Cents (\$490,000.00).

We, therefore, request that your Honorable Body rescind the original May 21, 2013 resolution relating to the settlement of this matter, adopt the resolution submitted herewith, and direct the Finance Director to issue a draft in the total amount of Four Hundred Ninety Thousand Dollars and No Cents (\$490,000.00) payable to Akeila Horton and Anthony Thornton and their attorney, Jeffrey Edison, to be delivered upon receipt of properly executed Releases and a Stipulation and Order of Dismissal entered in Lawsuit No. 10-000473 NO, approved by the Law Department.

Re: Correction of Scrivener's Error on Zoning Map No. 71 (Recommend Approval).

It has come to the attention of City Planning Commission (CPC) staff that zoning map number 71, contained in Chapter 61 of the Detroit City Code, "Zoning," Article XVII, and published with Ordinance No. 44-04 contains a scrivener's error, incorrectly identifying the area generally bounded by West Seven Mile Road, Lenore Street, a line approximately 700 feet north of West Seven Mile Road, and a north-south line approximately in the middle of Lenore Street and Woodbine Street as being zoned P1 (Open Parking District) where that piece of property is properly zoned R1 (Single Family Residential District).

Attached is a resolution to correct that error, as well as a corrected map. Please contact Mr. Gregory Moots of my staff at 224-2110 with any questions.

By Council Member Cockrel, Jr.:

Whereas, zoning map number 71, contained in Chapter 61, Article XVII, Chapter 61 of the 1984 Detroit City Code and published with Ordinance No. 44-04 contains a scrivener's error, incorrectly identifying the area generally bounded by West Seven Mile Road, Lenore Street, a line approximately 700 feet north of West Seven Mile Road, and a north-south line approximately in the middle of Lenore Street and Woodbine Street as being zoned P1 (Open Parking District) where that piece of property is properly zoned R1 (Single Family Residential District);

Now Be It Resolved, That the City Planning Commission is hereby directed to correct the above scrivener's error, and

Be It Further Resolved, That the City Clerk is hereby directed to publish the corrected map.

Honorable City Council:

Re: Request for Release of Reverter Interest.

In 2005, the City of Detroit sold 89 parcels along Chrysler, Cameron, Clay, E. Euclid, Hague, Marston, Melbourne, Melrose, Mt. Vernon, Oakland and E. Philadelphia to Vanguard Community Development Corporation to construct 83 residential units [51 single family homes and 16 duplex units]. The residential units were not constructed due to economic conditions and now the Michigan Humane Society wants to purchase 8 of the parcels [7 parcels on Chrysler and 1 par-

cel on Cameron] from Vanguard Community Development Corporation to mow and maintain the lots from blight and add way finding signage. The 8 parcels are adjacent to property currently owned by the Michigan Humane Society.

The City still has a reverter interest in the property from the development agreement with Vanguard Community Development Corporation.

The Michigan Humane Society has offered to purchase the 8 vacant parcels located adjacent to the property they own for a price of \$8,000 to be paid to Vanguard Community Development Corporation, which is approximately the same price that the City received for the property 8 years ago from Vanguard Community Development Corporation. The Michigan Humane Society is seeking an outright release of the interest, restrictions and covenants of the Purchase and Development Agreement and reverter interest to the 8 parcels from the City that releases the City's reverter rights and development conditions if and when the property is sold to the Michigan Humane Society.

We, therefore, request that your Honorable Body's approval to authorize the Planning and Development Department Director or his/her authorized designee to offer a release and conveyance of all interests, restrictions, and covenants under the Purchase and Development Agreement and the reverter interest on all parcels sold to Michigan Humane Society.

Re: Request to apply for a FY 2013 Community Policing Development (CPD) Microgrant from the United

The United States Department of Justice's Office of Community Oriented Policing Services has announced that they are accepting applications for a FY 2013 Community Policing Development (CPD) Microgrant. Community Policing Development (CPD) funds are used to advance the practice of community policing in law enforcement agencies through training and technical assistance, the development of innovative community policing strategies, applied research, guidebooks, and best practices.

Community policing is a philosophy that promotes organizational strategies, which support the systematic use of partnerships and problem-solving techniques, to proactively address the immediate conditions that give rise to public safety issues such as crime, social disorder, and fear of crime. Community policing is comprised of three key components: Partnerships, Organizational Transformation and Problem Solving.

The Detroit Police Department (DPD) is eligible to apply for up to **\$50,000.00, with no required match** for this two year project. The deadline for this application is Friday, May 24, 2013.

**Department of Public Works  
Administration Division**

June 4, 2013

Honorable City Council:

Re: Petition #2831, Midtown Detroit Inc., request for an authorizing resolution to establish a two-way thoroughfare on Second Avenue between Warren (North) and Temple (South).

In response to the above petition #2831, Midtown Detroit Inc., originally submitted on February 27, 2013 to establish a Two-Way thoroughfare on Second Avenue between Warren and Temple, the Traffic Engineering Division (TED) of DPW has evaluated the feasibility of the proposal and impact to the traffic flow in the area.

TED considered vehicular traffic volumes, accident experience, availability of safe crossing opportunities, existing traffic controls, potential impact on parking, and other physical conditions, such as the available number of lanes and roadway width over the entire corridor, while completing the evaluations.

Currently, Second Avenue between Temple and Warren is regulated as a one-way thoroughfare with five lanes for vehicular traffic. Parallel parking exists on both sides from Temple to Willis. Angle parking is permitted along the west side of Second from Willis to Warren Avenue.

Based on the study and analysis, TED concluded that the requested conversion of one-way to two-way operation of Second Avenue from Temple to Warren can be safely accomplished with no negative impact to traffic flow. This project involves multiple tasks including preliminary design, coordination with the Michigan Department of Transportation and other stakeholders, programming to secure funding for the modifications, design and preparation of bid documents, project advertising and construction. Midtown Detroit Inc., has taken the lead on these tasks in consultation with the City.

Upon the request of TED, Midtown Detroit Inc. hired an engineering consultant to perform a traffic study to analyze the proposed operation. Based on this study and further evaluation of TED, DPW approved the project for the conversion of Second Avenue from one way operation to two-way operation, between Temple and Warren Avenue. The new proposed configuration includes bike lanes on both sides of Second Avenue along with a continuous center left turn lane between Temple and Warren Avenue. Parallel parking will be allowed on both sides of Second Avenue except on east side of Second Avenue between Hancock and Warren) although the existing angle parking between Willis and Warren Avenue will be removed.

Midtown Detroit Inc. (MDI), provided

funding for the study and the design. Midtown Detroit Inc., also surveyed abutting business/property owners, contacting them by mail, e-mail, and/or phone. The letter asked for an indication of support or opposition to the project. Concurrence was received from more than 80% (includes implied approval of property owners that did not respond) of the respondents, while only six (6) percent of the impacted property owners objected. The balance (14%) represents letters that were returned and deemed non-deliverable.

One of the major opponents of this project is Mario's Restaurant. Currently Mario's is using the street frontage for valet angle parking on both sides of the street, even though they have never been issued all required permits and licenses from the city to operate their valet operation as they do currently. Mario's objection to this project appears to be centered around no longer being able to operate as in the current manner, once the new configuration is completed. Mario's will be able to continue valet operations; however they will have to use their lot located across the street from the restaurant to park vehicles as opposed to parking them on the city street. Therefore, DPW does not take the position that Mario's objection should prevent this project from moving forward.

It was also important to TED that on street parking not be negatively impacted for the active businesses and apartment buildings along this stretch of Second. Site visits by TED staff ensured that adequate on street parking remains where needed along the entire segment.

DPW was successful in obtaining federal funding for the construction of the project in the 2013 construction season.

DPW also contacted the City Planning Commission (CPC) to provide them details of this project. CPC is in agreement with this project. Hence, DPW respectfully submits to your Honorable Body the attached resolution to convert the entire section of Second Avenue, from Temple to Warren Avenue, from one-way to two-way operation.

For the reasons listed herein, in addition to our belief that creation of two-way streets is more likely to enhance economic development opportunities, I am recommending adoption of the attached resolution.

Respectfully submitted,  
RON BRUNDIDGE  
Director

Department of Public Works  
By Council Member Jones:

Resolved, That the foregoing recommendations of the Traffic Engineering Division — DPW for the conversion of Second Avenue, between Temple Avenue (South) and Warren Avenue

**MEMBER REPORTS  
COUNCIL PRESIDENT SAUNTEEL  
JENKINS:**

I want to start by thanking you, my colleagues, for the confidence you have shown by electing me as your new president. I don't think any of us at this table could have imagined, even a few weeks ago, that we would be in the situation we find ourselves today and that this body would be electing a new president — for the first time in 90 years. But here we are and I thank you for your faith in me.

I first came to the City Council as an intern with Maryann Mahaffey, who is one of my heroes and a hero to many Detroiters who remember her life of service. She was devoted to serving others and remains the epitome of what public service is all about. Council President Mahaffey developed confidence and trust in me, and eventually made me her chief of staff. It is a very humbling experience for me to realize I now hold the position she once held.

These are very difficult times for the City of Detroit. Our City has an Emergency Manager, something that none of us here at this table wanted to see occur. But he is in place and we have to deal with the world as we find it and move forward.

Council still has a vital role to play in this city, even with the presence of the Emergency Manager. As the elected representatives of the people of Detroit, it is our responsibility to make sure that their voices are heard as decisions are made that profoundly affect Detroit's future.

I believe we will be successful as a body only if we can find ways to work together collegially with a mutual goal to

achieve results that are best for Detroit. My commitment is that I will do everything in my power to work with each of you in the coming months to move Detroit forward.

Each of us has taken an oath of office, and I believe we are committed to fulfilling our obligations under that oath. I look forward to working with you and to proving myself worthy of the confidence you have shown today.

Thank you.

**RESOLUTION**

By Council Members Jenkins and Watson:

Whereas, Since 1974, the Federal government through the Department of Housing and Urban Development (HUD) has provided communities, including Detroit, with Community Development Block Grant (CDBG) funds on an annual basis to address community development needs; and

Whereas, The CDBG program allocates grants to cities to provide decent housing, a suitable living environment, and opportunities to expand economic opportunities, and each activity must meet one of the following national objectives: benefit low and moderate income persons, prevention or elimination of slums and blight, or addressing urgent community development needs; and

Whereas, HUD determines the amount of each grant entitlement on an annual basis by using a formula comprised of several measures of community need, including the extent of poverty population, housing overcrowding, and age of housing; and

Whereas, CDBG regulations limit the amount cities may spend on administrative and planning costs to no more than 20% of the entitlement and program income amount; and

Whereas, Since 1976, the Detroit City Council initiated the Neighborhood Opportunity Fund (NOF) program as a portion of the CDBG program providing funding to neighborhood based programs outside of the designated redevelopment area; and

Whereas, Since 1976, the Detroit City Planning Commission (CPC) and its staff have provided analysis and recommendation for allocating CDBG dollars, including, but not limited to, training community groups on applying for funding, analyzing Mayoral recommendations and preparing recommendations to the City Planning Commission and City Council; and

Whereas, Since 1978, the City Planning Commission staff has assisted the Citizen Review Committee (CRC) which was created by City Council to serve in an advisory capacity to the City Planning Commission on NOF matters; and

Whereas, From fiscal year 1993-94 to 2002-03, a portion of CDBG funds were used to fund up to 7 staff equivalent positions involved with CDBG related assignment at the City Planning Commission summarized as follows:

1993-94	\$400,000
1994-95	\$433,000
1995-96	\$450,000
1996-97	\$475,534
1997-98	\$539,538
1998-99	\$620,000
1999-00	\$580,450
2000-01	\$640,921
2001-02	\$699,795
2002-03	\$709,063

Whereas, Because of a 15.5% decrease in CDBG funding from 2001-02 to 2002-03, the City Council agreed that year not to fund a portion of City Planning Commission staffing out of CDBG funds, and since that time, CPC staff has continued to be funded in its entirety from the General Fund; and

Whereas, In recent years, the Planning and Development Department (P&DD) has not always spent all of the annual CDBG funds allocated for Administration; for example, in 2012, P&DD requested the City reprogram \$14 million in unspent CDBG Administration and Planning funds that had accumulated the past several years; and

Whereas, For the 2013-14 fiscal year, the City has set aside the entire Administration cap amount for staffing under the Mayor and none for CDBG staffing review under the Legislative branch; and

Whereas, The City Planning Commission staff continues to commit at least 4 staff members on an annual basis

toward the analysis and implementation of CDBG funds; and

Whereas, The CPC has set up sufficient internal controls to allow for the accounting of staff hours devoted to CDBG activities; and

Now, Therefore Be It

Resolved, That the Detroit City Council hereby strongly urges the City's Administration and the Emergency Manager to reappropriate a portion of CDBG dollars to fund germane administrative functions with sufficient internal controls, as allowed by federal regulations, to support CDBG related activities of the staff of the Legislative Policy Division.

Re: Kevin Lewis and Jeremy Morris vs. City of Detroit, Lamar Penn and Keith McCloud. Case No. 11-010321. File No. A37000.006993 (JLA).

We have reviewed the above-captioned lawsuit, the facts and particulars of which are set forth in a confidential memorandum that is being separately hand-delivered to each member of your Honorable Body. We, therefore, request authorization to agree to entry of an Order of Dismissal and to enter into an Agreement to Arbitrate on the terms and conditions set forth in the following resolution and, upon certification by the Law Department that the arbitrators have announced a decision requiring the City to pay a designated sum to Kevin Lewis and Jeremy Morris, that your Honorable Body direct the Finance Director to issue a draft payable to Kevin Lewis, Jeremy Morris, and Law Offices of Gregory J. Rohl, P.C., their attorney, in the amount the City is to pay Kevin Lewis and Jeremy Morris, pursuant to the arbitrators' decision, but said draft shall not exceed Fifty Five Thousand Dollars and No Cents (\$55,000.00).

**City Planning Commission**

July 3, 2013

Honorable City Council:

Re: Special District Review of proposed three-sided ground monument LED sign at One Detroit Center, located at 500 Woodward Ave. (PCA District) (Revised: Recommend Approval with Conditions).

500 Woodward, LLC is proposing installing a three-sided on-premises business monument sign immediately to the south of One Detroit Center (formerly known as Comerica Tower) at 500 Woodward Ave. The sign would be located near the corner of Woodward Ave. and Larned St., on the portion of the sidewalk that is not in the public right of way. The property is zoned PCA (Public Center Adjacent), which requires City Council approval of the location and design of the proposed sign, following the review and recommendation by the City Planning Commission (CPC) and Planning and Development Department, according to the standards specified in Section 61-11-97 of the Detroit Zoning Ordinance.

This report is an update to our last report on the matter in the fall of 2012 and includes a revision to the recommendation previously issued by CPC, dated September 26, 2012. City Council previously approved this sign at a reduced height, but the petitioner filed an appeal of Council's decision to the Wayne County Circuit Court in Case 12-014-009-AA, and the Judge ruled that the sign should be allowed at the originally requested 25 feet high.

**REVIEW**

CPC staff is sensitive to the appearance of signs in the PCA (Public Center Adjacent/Restricted Central Business District) zoning district, as this district comprises areas that are adjacent to the public center and visited by hundreds of thousands of people yearly. External signs are a key part of establishing the character of Detroit's unique district and communities.

In accordance with the Special District

Review provisions of Article III, Division 6 and the PCA provisions of the Zoning Ordinance, review of proposed signs should be conducted in light of the following criterion, "signage and graphics should be tastefully designed to be visually appealing and in character with surrounding development; they should provide needed information, direction and orientation in a clear and concise manner" (Sec. 61-11-97[11]). Additionally, the "scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development" (Sec. 61-11-97[2]).

The proposed sign is a three-sided LED sign that would sit on a stone base (the stone would match the stone on One Detroit Center). The color and materials of the sign are "visually appealing and in character with surrounding development," as required by Sec. 61-11-97 of the zoning ordinance. Similarly, the proposed location of the sign is appropriate, relates well to the surrounding development, and does not impede pedestrian traffic.

The sign, as proposed by the applicant, is 25 feet high, 10 feet wide on each side (3 sides), and has a stone pedestal that is 7 feet 6.5 inches high.

The petitioner has not objected to the previously recommended conditions relating to LED images, so those remain unchanged. LED signs are capable of producing an infinite variety of images, both moving and static, bright and dim. In order to prevent the proposed LED sign from becoming a distraction or nuisance to drivers, cyclists, pedestrians, and other passerby, staff recommends that a condition be placed on the sign that it display only static images and that each image be displayed for a minimum of eight seconds. Additionally, to prevent the light of the LED screen from distracting passerby or becoming a nuisance, images displayed after sunset and before sunrise shall have a black background.

#### **RECOMMENDATION**

CPC staff has completed its review of the proposed sign in consultation with the Planning and Development Department. We find that, with conditions, the proposed on-premise business sign would be in keeping with the spirit and intent of the PCA zoning district. The conditions are as follows:

- LED images must be static and displayed for a minimum of 8 seconds, except where the Buildings, Safety Engineering and Environmental Department shall have issued a permit for an "animated sign," as provided in Sec. 61-6-71(d)(1) of the Detroit Zoning Ordinance.
- The background of LED images that are displayed after sunset and before sunrise shall be black.

Staff recommends City Council approve the proposal conditionally, subject to all other required departmental approvals.

Please find attached the appropriate resolution to effectuate this recommendation.

 Senior City Planner  
 GREGORY F. MOOTS

By Council Member Tate:

Whereas, 500 Woodward, LLC, desires to install a three-sided ground monument LED sign at One Detroit Center; and

Whereas, The above mentioned property is subject to provisions of Section 61-11-81 through 61-11-98, the PCA (Public Center Adjacent District) zoning classification of the Detroit Zoning Ordinance; and

Whereas, The PCA zoning district classification requires that the location and design of proposed signs within a PCA district be approved by resolution of the City Council following review by the City Planning Commission and the Planning and Development Department; and

Whereas, The staff of the City Planning Commission has reviewed the proposal pursuant to the Special District Review provisions of Article III, Division 6 of the Detroit Zoning Ordinance in order to ensure that the proposed signs are in keeping with the spirit, purpose, and intent of the PCA zoning district classification; and

Whereas, Council previously approved a 16 foot sign per CPC staff's recommendation; and

Whereas, The Petitioner, 500 Woodward, LLC filed an appeal of Council's decision to the Wayne County Circuit Court in Case 12-014-009-AA, and the Judge ruled that the sign should be allowed to be at 25 feet high;

Now, Therefore, Be It Resolved, That the Detroit City Council conditionally approves the location and design of the proposed sign for One Detroit Center at 500 Woodward Avenue, between Larned Street and Congress Street, described in the foregoing communications from the City Planning Commission staff, dated July 3, 2013, and as depicted in drawings prepared by Yesco LLC, dated July 17, 2012, subject to all required departmental approvals and the following conditions:

- LED images must be static and displayed for a minimum of 8 seconds, except where the Buildings, Safety Engineering and Environmental Department shall have issued a permit for an "animated sign," as provided in Sec. 61-6-71(d)(1) of the Detroit Zoning Ordinance.
- The background of LED images that are displayed after sunset and before sunrise shall be black.

Be It Further Resolved, Pursuant to, and in compliance with the Court Order in Wayne County Circuit Court Case 12-014-009-AA, the sign shall be allowed to be 25 feet in height.

**City Planning Commission**  
 June 28, 2013

Honorable City Council:  
 Re: Modification of Planned Develop-  
 ment (PD) zoning district at 151 East  
 Fisher Freeway to allow the expan-

sion of the existing parking lot for the  
 Jehovah's Witnesses Kingdom Hall  
 (Recommend Approval).

The City Planning Commission (CPC)  
 staff has received a building permit  
 requesting the expansion of the existing  
 parking lot at 151 East Fisher Freeway  
 (aka 108 Winder Street) for the Jehovah's  
 Witnesses Kingdom Hall. The property is  
 zoned PD, hence approval of the site plan  
 by the City Council via resolution  
 (attached) is required by Sec. 61-3-142 of

the City Code (Zoning Ordinance). This process is different than that customarily followed in a PD district, because the property is in an Urban Renewal area and does not have a previously approved site plan: hence an ordinance is not required. The Brush Park Citizens' District Council has confirmed that it has reviewed and recommends support of this matter.

#### REQUEST

A PD modification has been requested to add 16 parking spaces in an area 52 feet x 163 feet to the west of the existing parking lot on now-vacant land. Staff reviewed the appropriateness of the off-street parking and residential screening required in Sec. 61-11-221 and Sec. 61-14-222 of the Zoning Ordinance, and those are dealt with in the recommendation. The land in question was shown as undeveloped in the site plans already approved with the PD rezoning for Crosswinds Communities. The Brush Park Urban Renewal Plan designates the site as "Medium Density Residential," where parking can also be allowed.

#### APPROVAL CRITERIA

The following are the relevant site plan approval criteria from Sections 61-3-151 through 61-3-167, with staff analysis following in italics.

Sec. 61-3-152. Compliance with master plan. *The Master Plan Designation is Special Residential/Commercial which is appropriate.*

Sec. 61-3-154. Conformance with design guidelines. *The setbacks required by the Brush Park Urban Renewal Plan are met, and the style of fence matches that which was approved by the Historic District Commission.*

Sec. 61-3-157. Surroundings.

All elements of the site:

(1) Shall be harmoniously and efficiently designed in relation to the topography, size, and type of lot and in relation to the topography of the surrounding neighborhood; and

(2) Shall be consistent, to the extent practicable, with the character of the adjacent sites and buildings and of the surrounding neighborhood. *The proposed fence is to match that which encloses the rest of the church's site.*

The following are the relevant PD District design criteria from sections 61-11-15, with staff analysis following in italics.

(c) *Compatibility.* The proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity. *The existing church and its parking lot are part of the surrounding development and the request would only expand that character in small measure.*

(j) *Screening.* Appropriate buffering

and screening of service, loading, refuse collection, mechanical and electrical equipment and of parking areas should be provided. *The expanded portion of the parking lot does have some required screening from the adjacent residential development. The CPC recommended additional screening from the adjacent residential development. The existing parking lot and building do not have right-of-way screening, only a wrought-iron-style fence. To maintain consistency the wrought-iron-style fence should be continued without additional right-of-way screening.*

(t) *Urban renewal areas.* In addition, in urban renewal areas, the preliminary site plan must conform to the design criteria as stated in the adopted Land Use Development Plan and the Declaration of Restrictions, except as may have been authorized as a minor deviation by the Board of Zoning Appeals in accordance with Sec. 61-2-53 and Sec. 61-4-3. *The Planning and Development Department has determined that the land use does conform to the urban renewal plan.*

#### ANALYSIS

The development of the currently vacant parcel as parking is appropriate. It is in conformance with the urban renewal plan and Master Plan. The continuation of the wrought-iron-style fence around the new parking area is in keeping with the development of the rest of the site and that requiring right-of-way screening for only the new portion of the parking area is not necessary. Regarding the lack of screening from the adjacent residential building to the west, the recommendation is that an opaque evergreen hedge to screen the parking area be added. This would be an improvement over the present condition of no screening.

#### RECOMMENDATION

At the June 20, 2013 meeting, the City Planning Commission received and reviewed the work of the staff and took action recommending approval of the plans for 151 East Fisher Freeway (aka 108 Winder Street) prepared by William R. Hogan and revised on June 4, 2013 with the following conditions:

1. That the western edge of the parking lot be landscaped with a four (4) to six (6) foot tall evergreen hedge to meet the goal of the residential screening requirements expressed in Sec. 61-14-222 of the zoning ordinance.

2. That final site plans be reviewed and approved by City Planning Commission staff prior to the issuance of building permits.

Honorable City Council:

Re: Amended request for approval to enter into short term leases for temporary property use up to 30 days and under \$25,000.

The Planning and Development Department ("P&DD") is hereby requesting the authorization of your Honorable Body to henceforth enter into short term leases of P&DD properties as requests for such are received, provided that the terms of said leases charge rent of less than \$25,000 and include a lease term of up to 30 days.

As you are aware, P&DD manages over 60,000 parcels of land owned by the City of Detroit, amounting to over 15% of all parcels in the City. P&DD entertains numerous requests from citizens and businesses for temporary use of real estate for anything from special events and movie filming to use for construction project staging and temporary parking. These requests are frequently received by P&DD with insufficient time to negoti-

ate a short term lease and seek the approval of your Honorable Body. In these instances, the City sometimes foregoes certain revenue that it might otherwise realize.

With authority to execute and approve short term leases, P&DD may better perform its duty under § 14-8-2 of the Detroit City Code "to promote the temporary rental or lease of all property being held for future use for a public purpose and of all surplus real property not immediately salable", as well as to better capitalize on revenue from temporary use of the City's real estate. P&DD shall work with the Law Department to ensure that all short term leases under this authority are approved as to form and work with the Finance Department to certify that such revenue has been received by the City.

We respectfully request your approval and grant of authority to P&DD to enter into such short term leases pursuant to the above referenced conditions and for the benefit of the City of Detroit by adopting the attached resolution. We ask that this authority remain in full force and effect for a period of 18 months to allow P&DD time to codify this policy into the appropriate section of the Detroit City Code.

Respectfully submitted,  
ROBERT A. ANDERSON, JR.  
Director

By Council Member Tate:

Resolved, The Planning and Development Department ("P&DD") manages roughly 60,000 parcels of real estate owned by the City of Detroit, amounting to over 15% of all parcels in the City; and

Whereas, In furtherance of P&DD's duty under § 14-8-2 of the Detroit City Code to promote the temporary rental or lease of all property being held for future use for a public purpose and of all surplus real property not immediately salable, P&DD hereby requests the authority to execute and approve certain short term leases for temporary property use; now therefore be it

Resolved, That in accordance with the foregoing communication, Detroit City Council hereby authorizes the P&DD Director, or his designee, to enter into, execute and approve temporary property use under short term lease agreements that charge rent of less than \$25,000 and that include a lease term of no more than 30 days; and be it further

Resolved, That such short term lease agreements shall require the lessee 1) to comply with all applicable laws, including zoning, 2) to obtain all necessary permits and licenses, 3) to provide insurance and indemnification of the City of Detroit and 4) to not otherwise be in default to the City of Detroit; and be it further

Resolved, That separate approval by

Detroit City Council for such short term lease agreements shall not be required for each individual agreement, but that the P&DD Director, or his designee, shall have the authority granted by Detroit City Council through this resolution for a period of eighteen (18) months from the approval date of this resolution to execute and approve such agreements provided that P&DD give Detroit City Council notice of such agreements after the fact; and be it further

Resolved, That all such short term lease agreements under this authority shall be approved as to form by the Law Department under §7.5-206 of the Detroit City Code and that any revenue to be received is certified by the Finance Department under §18-5-4(b).

Re: Petition No. 2755 — Greenwich Time for Outdoor Café Permit at 130 Cadillac Square.

The above named petitioner has requested permission for Outdoor Café Service. This service will convene every April 1st through November 30th, for a period of three (3) years, from the date of your Honorable Body's approval.

The Department of Public Works/City Engineering Division (DPW/CED) who has jurisdiction over temporary encroachment on City right-of-ways has approved this request contingent upon the petitioners compliance with applicable City ordinance related to outdoor café activities and the remittance of the annual use-permit fee to the Permit Section of the DPW/CED.

The Institute for Population Health (IPH) has approved this petition, subject to petitioner's strict adherence to the 1999 Food Code, Food Law of 2000 and City Ordinance, Chapter 21. No outdoor grilling is permitted without approval from the Institute of Population Health Food Safety Division.

Approval from the Detroit Police Liquor License Bureau is contingent upon the final action given by the City Council towards the above-referenced petition. Prior approval from the Central District Precinct does not cover serving liquor in outdoor café area until the Detroit Police Liquor License Bureau has given approval.

The Planning and Development Department (P&DD) is not aware of any objections from any other City Agencies involved. It is the recommendation of the P&DD that the petitioner's request be granted subject to the terms and conditions provided in the attached Resolution and that this service will convene every

April 1st through November 30th for a period of three years (3) from the date of your Honorable Body's approval, subject to final approval by the Detroit Emergency Financial Manager.

**City Planning Commission**

June 28, 2013

Honorable City Council:

Re: Site Plan and Special District review of the request of SDG, Inc., on behalf of the Detroit Regional Convention Facility Authority (Cobo Center) to modify the plans approved for Cobo Center for the modification and expansion of the plaza on the south side of West Jefferson Avenue and west side of Washington Boulevard right-of-way. (RECOMMEND APPROVAL).

The City Planning Commission (CPC) is in receipt of a request from SDG Inc., on behalf of the Detroit Regional Convention Facility Authority (DRCFA), to modify the plans approved previously by City Council on July 19, 2011, for Cobo Center. The requested change is for the modification and expansion of the plaza on the south side of West Jefferson Avenue and in the former Washington Boulevard right-of-way.

As you know, the PC (Public Center District) zoning classification in which Cobo Center is located calls for City Council approval of the location and design of any exterior changes following the review and recommendation of CPC and the Planning and Development Department (Sections 61-3-182 and 61-11-76 of the Zoning Ordinance).

Related to this request is the August 24, 2012 (Petition #2549), also from SDG Inc., on behalf of the DRCFA, to realign Civic Center Drive to connect directly to West Jefferson Avenue without turning above and passing through Cobo Center's Atwater Parking Garage. City Council may wish to request from the Department of Public Works the status of this petition.

**PROPOSED DEVELOPMENT**

As part of the reconstruction of the Atwater Garage, the DRCFA seeks to relocate Civic Center Drive to a point further east, where it would connect directly to West Jefferson Avenue at a right angle. This would allow the creation of a plaza north of the former arena and larger than what was originally approved. The modi-

fied plaza would also include a circular drive turnaround with a sculpture in the center. The Department of Public Works has been involved in these discussions.

The proposal calls for a decorative paving and artificial turf for the plaza east of Washington Boulevard, with planters along the sidewalk and along the eastern edge, where the relocated Civic Center Drive would connect to West Jefferson Avenue. Decorative light "pylons" are shown in the planters. The approved plans show this as hardscaped. To the east of the former arena, now a conference center, would also be a hardscaped terrace, with artificial turf along the eastern edge. Previously, this area was shown as primarily open grass lawn.

#### REVIEW

In accordance with the PC provisions of the Zoning Ordinance (Sections 61-11-77), reviews of proposed changes should be conducted in light of the following relevant criteria, with the analysis following in italics:

(1) The proposed development should reflect applicable policies stated in the Detroit Master Plan; *Reinforcing Downtown Detroit as the primary location for convention attractions is one of the goals.*

(2) Scale, form, massing and density should be appropriate to the nature of the project and relate well to surrounding development; *The scale, massing and density are relatively unchanged, and the expansion of outdoor space will hopefully draw convention attendees outside and create a gathering space.*

(3) The proposed development should be compatible with surrounding development in terms of land use, general appearance and function and should not adversely affect the value of adjacent properties; *The proposed plaza and right-of-way adjustment seem to fit well with the convention center and improve access to the adjacent UAW-Ford Programs Center building.*

(4) Vehicular and pedestrian circulation facilities should be adequately designed to meet expected demands; disruption of traffic flow in surrounding areas should be minimized; truck traffic should be carefully planned and controlled; *The Civic Center realignment seems appropriate, the plaza creates a significant pedestrian circulation area, and the turnaround with its additional drop-off space would maximize traffic flow during events.*

(6) Adequate public and private open space should be provided for light and air, landscaping, and, where appropriate, for passive and active recreation; *The expanded plaza increases open space.*

(7) Adequate rights-of-way, easements and dedications should be provided where appropriate for trafficways, utilities and community facilities; *The relocated Civic Center Drive would require the*

*vacating of the current easement and the dedication of new land for right-of-way.*

(15) Urban design elements of form and character should be carefully considered; such elements include, but are not limited to; richness/interest of public areas through the provision of storefronts, window displays, landscaping, and artwork; color, texture and quality of structural materials; enclosure of public spaces; variations in scale; squares, plazas and/or "vest pocket parks" where appropriate; continuity of experience, visual activity and interest; articulation and highlighting of important visual features; preservation/enhancement of important views and vistas; *The turn around with its paving and sculptural element add quality to the vehicular area, and the expanded plaza and terrace with the decorative light pylons show care in creating this urban space.*

The proposed modifications appear to meet these criteria. The Planning and Development Department has also reviewed the plans and recommends approval of them.

The CPC has completed its review of the proposed modification to the plaza and terrace areas, as well as the shifting of Civic Center Drive. The new right-of-way alignment would of course not be zoned land, but the vacated easement would gain zoning. We find that the proposed exterior changes would be in keeping with the spirit and intent of the PC zoning district.

#### RECOMMENDATION

At its June 20, 2013 meeting, the CPC took action to recommend approval of the proposed changes excluding the specifics of the sculptural element which is recommended to be reviewed by the to-be-convened Public Art Siting Committee, with the following conditions:

1. That, to ensure that the radial elements shown in the vehicle drop-off circle are fully expressed, the final site plan be reviewed and approved by CPC staff prior to issuance of building permits

2. That the traffic pattern caused by the proposed traffic circle be reviewed and approved by the Detroit Police Department prior to City Council's approval.

Attached hereto is the resolution for City Council's consideration.

Staff also recommends the City Council request the Department of Public Works or the Planning and Development Department empanel the Public Art Siting Committee for the review of the artwork proposed to be relocated from the interior of Cobo Hall to the exterior plaza.

Whereas, SDG, on behalf of the Detroit Regional Convention Facility Authority, seeks approval to modify the plans approved previously by City Council on July 19, 2011 for Cobo Center for the modification and expansion of the plaza on the south side of West Jefferson Avenue and in the former Washington Boulevard right-of-way; and

Whereas, The building is subject to provisions of Sections 61-11-61, the PC (Public Center District) zoning classification of the Detroit Zoning Ordinance; and

Whereas, The PC Zoning district classification requires that any exterior building alteration or expansion within a PC district be approved by resolution of the City Council following the receipt of a written report and recommendation from the City Planning Commission and the Planning and Development Department; and

Whereas, Both the Planning and Development Department and the City Planning Commission have reviewed the proposal in order to ensure that the proposed construction is in keeping with the spirit, purpose and intent of the PC zoning district classifications; and

Whereas, At its June 20, 2013 meeting, the CPC took action to recommend support of the requested modification and expansion of said plaza.

Now, Therefore, Be It

July 19, 2013

Honorable City Council:

Re: Modification of the Planned Development (PD) zoning district at 57 Watson Street to allow for the expansion

of the existing parking lot for Ye Olde Butcher Shoppe (Recommend Approval).

The City Planning Commission (CPC) staff has received a building permit application requesting the expansion of the existing parking lot at 47 Watson onto 57 Watson and the requested-to-be-vacated alley for the Ye Olde Butcher Shoppe grocery store, located at 3100 Woodward Avenue. The property is zoned PD, hence approval of the site plan by the City Council via resolution is required by Sec. 61-3-142 of the City Code (Zoning Ordinance). This process is different than that customarily followed in a PD district, because the property is in an Urban Renewal area and does not have a previously approved site plan — hence an ordinance is not required.

**REQUEST**

A PD modification has been requested to allow the addition of 23 parking spaces in an area 75 feet by 130 feet to the east of the existing parking lot on now-vacant land. This includes the alley at the eastern edge of the site that has been requested to be vacated. Staff understands that the Planning and Development Department has determined that this vacation would constitute a minor deviation from the Brush Park Urban Renewal Plan and would have to be approved by the Board of Zoning Appeals prior to City Council action. A portion of the to-be-vacated alley is proposed to be landscaped with 6 trees and planted with grass. The Brush Park Urban Renewal Plan designates the site as "commercial," where parking can be allowed. The Brush Park Citizens' District Council is reviewing this matter and staff hopes to report the results of that review to the City Council.

**APPROVAL CRITERIA**

The following are the relevant site plan approval criteria from Sections 61-3-151 through 61-3-167, with staff analysis following in italics.

Sec. 61-3-152. Compliance with master plan. *The Master Plan designation is Special Residential/Commercial which is appropriate.*

Sec. 61-3-154. Conformance with design guidelines. *The setbacks required by the Brush Park Urban Renewal Plan are met, and the style of fence matches that which was approved by the Historic District Commission.*

Sec. 61-3-157. Surroundings.

All elements of the site:

(1) Shall be harmoniously and efficiently designed in relation to the topography, size, and type of lot and in relation to the topography of the surrounding neighborhood; and

(2) Shall be consistent, to the extent practicable, with the character of the adjacent sites and buildings and of the surrounding neighborhood. *The proposed*

*fence is to match that which encloses the rest of the site.*

The following are the relevant PD District design criteria from sections 61-11-15, with staff analysis following in italics.

(c) *Compatibility.* The proposed development should be compatible with surrounding development in terms of land use, general appearance and function, and should not adversely affect the value of properties in the immediate vicinity. *The grocery store and its parking lot fit into the surrounding residential neighborhood.*

(j) *Screening.* Appropriate buffering and screening of service, loading, refuse collection, mechanical and electrical equipment and of parking areas should be provided. *The expanded portion of the parking lot does have a row of trees on the eastern side, and the dumpsters are enclosed in a masonry enclosure. The existing parking lot and building do not have right-of-way screening, only a wrought-iron-style fence.*

(t) *Urban renewal areas.* In addition, in urban renewal areas, the preliminary site plan must conform to the design criteria as stated in the adopted Land Use Development Plan and the Declaration of Restrictions, except as may have been authorized as a minor deviation by the Board of Zoning Appeals in accordance with Sec. 61-2-53 and Sec. 61-4-3. *The Planning and Development Department has determined that the land use does conform to the urban renewal plan.*

**ANALYSIS**

The development of the currently vacant parcel as parking is appropriate. It is in conformance with the Brush Park Urban Renewal Plan, with the exception of the requested alley vacation, and Master Plan of Policies. The continuation of the wrought-iron-style fence around the new parking area is in keeping with the development of the rest of the site and that requiring right-of-way screening for only the new portion of the parking area is not necessary.

**RECOMMENDATION**

At its July 18, 2013 meeting, the City Planning Commission received and reviewed the work of the staff and took action recommending approval of the plans for expansion of the existing parking lot at 47 Watson onto 57 Watson prepared by Steven C. Flum Inc. and dated "04 June 2013" with the following conditions:

1. That the Brush Park Citizens' District Council have the opportunity to review and comment on the plans prior to City Council action.

2. That the requested alley vacation be approved prior to or at the same time as the site plan.

3. That final site plans be reviewed and approved by City Planning Commission staff prior to the issuance of building permits.

Overview

Milner is a 10 story, 65,000 square foot brick building that is triangular in shape and was constructed with two separate wings, the west (building A) and the east (building B). There are walkways on the 5th and 10th floors that connect the wings with one another. Currently, there are about 130 hotel rooms that are extremely small and will need to be completely reconfigured into market rate apartments. The reconfiguration of the floor plans will result in substantial mechanical, electrical, and plumbing expenditures to offer quality, market rate apartments. Below is a general floor breakdown of the space:

Floor	Use	Notes
1st (Ground)	Two retail locations	
2nd	Office space	Originally used as offices for the Milner staff.
3rd-10th	Residential	Buildings A and B have different layouts.

Neighboring Area

Princeton hopes the investment in the Milner Hotel and Paradise Valley neighborhood can be a catalyst to work with the City of Detroit and other building owners to create a coordinated development strategy for Paradise Valley. Princeton would like to play an integral role in executing on the vision that was established in the 2007 report titled the, "Paradise Valley Cultural & Entertainment District" by the Detroit Collaborative Design Center of the University of Detroit Mercy School of Architecture (DCDC) for the Detroit Economic Growth Corporation (DEGC). In keeping with this report, Princeton's goal is to help create a vibrant 24-hour walkable and livable district where everyone from families to working professionals from all cultures and ethnicities can live or visit and enjoy a variety of food, entertainment, shopping and recreation during the day and where people of all ages can participate in evening and night time dining and entertainment venues. The Arts League of Michigan, which is located in the building known as the "Harmonie Club Building," will be the neighborhood anchor. Princeton would like to bring together private, public and foundation stakeholders to create a culturally rich district for all to experience and enjoy.
