

GREATER CORKTOWN “TRAVELING” WORKSHOPS RECAP

Hello and good afternoon! We are pleased to present to you the fourth edition of the Greater Corktown Neighborhood Planning Framework E-Newsletter. As mentioned in our previous editions, this bi-weekly email is intended to provide updates on the Greater Corktown neighborhood planning process and highlight opportunities to become, and stay, engaged in the process. We would like to thank the 81 residents who participated in the "Traveling" workshops that were held on [October 9th](#) and [10th](#). There were great discussions had that will influence the draft recommendations, and provide guidance to the project team.

For those of you who were not able to attend, we are still seeking feedback to guide strategy and identify priorities around the multiple "Traveling" topics. We are interested in hearing your opinion on "traveling" within the Greater Corktown study area on topics such as Parking, Streetscape Improvements, One/Two Way Road Conversions, Bike and Pedestrian Connectivity, and the future of Michigan Ave. Please click the following hyperlink to complete [the Greater Corktown Neighborhood Plan Traveling Survey](#).

Lastly, we update our project web page frequently. Visit the [Greater Corktown Neighborhood Framework Plan project web-page](#) to view the [Oct. 9th](#) and [Oct. 10th](#) presentations shared at the most recent workshops. In addition, you can find previous editions of this newsletter, workshop presentations, and pop-up meeting summaries.

TRAVELING SURVEY

We're interested in hearing your opinion on "traveling" within the Greater Corktown study area on topics such as Parking, Streetscape Improvements, One/Two Way Road Conversions, Bike and Pedestrian Connectivity, and the future of Michigan Ave. We'd like to hear from you!

Please click the button below to participate in a quick survey. You can also visit the [project web-page](#) to view the presentation and materials shared at the most recent workshops.

Greater Corktown Neighborhood Framework Plan Traveling Survey

Ford Motor Company, the City of Detroit, and PlanetM have teamed up with Dell, Microsoft, AT&T, and local partners to launch the City:One Michigan Central Station Challenge. The Challenge is offering up to 5 winners up to \$250,000 in pilot grants for new mobility solutions that Improve Access to Mobility Information, Make Mobility More Affordable, Build an Inviting Environment and/or Connect People, Places, and Opportunities. The Challenge is governed by these Official Rules along with the Terms of Use and Privacy Policy.

For this Challenge, we are aiming to answer the question: “How might we improve mobility for residents, workers, and visitors of the Michigan Central Station Impact Area today while also preparing for the future of the area?”

Other items to note:

- One Finalist spot will be reserved for a student team, and one spot will be reserved for a team from the Michigan Central Station Impact Area.**
- Solutions may take many forms, from innovations in technology and services, to innovative street and infrastructure design—all pilots must directly benefit residents, workers, or visitors of the Michigan Central Station Impact Area**
- Up to 12 proposals will be selected as Finalists and each will receive a \$6,500 stipend to develop their final proposal**

- **Finalists will have applications reviewed by other groups at Ford, and Winners will have the opportunity to pitch to other groups at Ford for potential additional investment**

The deadline to submit a proposal is October 31, 2019 at 4 pm EST.

Learn more about the opportunity areas for proposals by reviewing the [Challenge Report](#) and the [Challenge Brief](#).
