

City of Detroit Commercial Recycling for businesses & multifamily buildings

The Department of Public Works now offers recycling for commercial and multifamily buildings!

How it works:

- Let us know you're interested - contact our Recycling Coordinator
- We visit your property and educate your staff or residents on how to recycle with confidence
- You sign up for 96-gallon carts or a 450-gallon container for weekly service by the Department of Public Works
- We drop off your containers, and you reduce your impact on the environment and send fewer materials to the landfill!

Starting at:

One 96-gallon
recycling cart
\$450/year

One 450-gallon
recycling dumpster
\$900/year

18-gallon
interior bins
FREE!
